21. This grant is made subject to any and all previous rights-of-way and/or servitudes, oil, gas, mineral lease or leases and mortgages or mortgages, and rights of Grantor's tenants, if any, presently affecting said above described property, and Grantee agrees that the exercise by it of this servitude will not interfere with any exploration, mining or development of oil, gas and other minerals on said property.

22. Before exercising any of the rights herein granted, Grantee shall contact Mr. Raymond Bruce at 318-824-1260 or Mr. Worrel B. Johnson at 318-734-3012.

The Grantee, its successors and assigns, is hereby expressly given and granted the right to assign said right-of-way and easement or any part thereof, or interest therein. The same shall be divisible among two or more owners as to any right or rights granted hereunder so that each assignee or owner shall have the right and privileges herein granted to be owned and enjoyed in common or severally.

TO HAVE AND TO HOLD unto Grantee, its successors, or assigns, until the abandonment of the pipeline to be constructed on the right-of-way herein granted. Failure of Grantee to use the line for eighteen

(18) consecutive months shall constitute an abandonment of the pipeline and it shall then become the property of Grantor, however, Grantee has the option to remove pipeline within this period.

This agreement will be executed in multiple counter-parts, each of which shall be an original document binding upon the Grantors who execute same whether or not said right-of-way is ultimately signed by all Grantors.

IN TESTIMONY WHEREOF, Grantor has executed this grant of right-of-way in the presence of the undersigned competent witnesses on this _____day of _____, 1981.

NELIA KAREN BRUCE GOLDMAN, off full age of majority, whose mailing address is 214 Pinehurst, Monroe, Louisiana,

hereinafter called "Grantor", for and in consideration of the sum of Fifty Thousand and No/100 ($50,000.00) Dollars, and other good and valuable consideration, cash in hand paid, the receipt of which is hereby acknowledged, does hereby grant, sell and convey unto Michigan Wisconsin Pipe Line Company hereinafter referred to as "Grantee", its successors and assigns, the right to lay, construct, maintain, inspect, repair, operate, remove or abandon in place one (1) pipeline for the transportation of oil, petroleum products, natural gas and all by-products thereof, under and across the following described land, to-wit:

A tract of land situated in Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana, except that portion lying in a triangular form West of the East boundary line of Section 14, if extended through said Section 39.

The pipeline shall be laid as shown on the plat attached hereto and marked Exhibit "A" and made a part hereof.

The right-of-way granted herein shall have a width of 75 feet being 25 feet on the East side of the centerline and 50 feet on the West side of the centerline of the right-of-way during construction, to revert to a permanent width of 50 feet being 25 feet on each side of the centerline of the right-of-way, all as shown on the plat attached hereto as Exhibit "A". There is also granted extra work space at road crossings

as shown on the plat attached hereto as Exhibit "A". The extra work space shall be used only during construction of the pipeline and all rights thereto shall terminate following construction and clean-up.

There are included in this grant the rights of ingress and egress for the purpose of constructing, inspecting and repairing the said line, but except for emergency repairs, said rights of ingress and egress shall be strictly limited to the right-of-way herein granted.

It is expressly agreed and understood that Grantor retains and shall have the right fully to use and enjoy the above described land, subject to the right of easement herein granted unto Grantee, including, by way of illustration but not of way of limitation, the right to pasture and to farm the surface of the land. Grantor agrees not to construct nor permit to be constructed any house, building or other structure within the permanent 50 foot right-of-way herein granted. It is also agreed that Grantee shall have the right from time to time to cut or remove all trees, undergrowth or other obstruction on or within the peramnent right-of-way granted hereby that, in its judgment, may injure, endanger or interfere with the exercise by Grantee of the rights and privileges herein granted.

Grantee agrees to pay Grantor and/or Grantor's tenants for all damages that may be caused from the exercise of the rights herein granted by Grantee, its agents, servants, employees, contractors, or sub-contractor.

As additional consideration for the grant of this servitude and right-of-way Grantee agrees:

1. That said pipeline shall be buried at least thirty-six (36") inches below the surface of the ground measured from the surface of the ground to the top of the pipe. There shall be no above ground installations on the land, except for vents and pipeline markers, and these shall be placed only on exterior boundary lines or roadcrossings.

2. During construction of said pipeline, Grantee shall be limited to the use of a strip of land seventy-five (75') feet in width and extending across the above described land along the route herein above referred to.

3. Upon completion of construction of the pipeline, the right-of-way acquired by Grantee herein shall revert in width to fifty (50') feet.

4. That Grantee, before severing or cutting fences of Grantor at each point where same are to be severed or cut, will staunchly cross-brace the two panels, the one immediately on either side of the point of severance, so as to prevent unnecessary sag in the remaining portion of such fence or fences. Grantee also agrees that such fences as have been cut will be closed at all times except when construction work underway necessitates an opening therein; following construction such fences which are cut shall be rebuilt with 4 strand barbed wire and creosoted posts.

5. All trenches shall be back-filled, after being first pumped dry in cultivated lands, after the installation of said pipeline and in case of the abandonment and/or expiration of this grant of servitude for any cause or reason, Grantee agrees that all ditches and debris caused by the construction or removal operation must be filled, cleared and the land restored as near as possible to its original condition.

6. Any private road or roads of Grantor which are cut by Grantee shall be restored to as equal or better condition as presently exists and made available for passage as soon as practical. Grantee further acknowledges that it has no right to the use of any such roads without the prior consent of Grantor.

7. This grant of right-of-way and easement is limited to one pipeline, as herein described, and for the use herein provided and there shall be no other use thereof, such as the erection of pole lines.

8. Grantee agrees to indemnify and hold Grantors harmless against any loss or liability on account of injuries to persons, including death, and damages to the property of others, and all costs and expenses incident thereto arising from the exercise of Grantee of its rights hereunder or any defect in or failure of its pipeline or other facility constructed by Grantee hereunder. In the event a suit is brought against Grantors to recover for, or on account of, any such damage, injury, or death, Grantee will, at Grantors' request, appear and defend such suit at its sole cost and expense and will pay any judgment that may be entered against Grantors therein when said suit is finally determined; provided that, for this provision to be effective, Grantors must give Grantee adequate and timely notice of the filing of such suit if Grantee is not itself made a defendant.

9. The pipeline shall be constructed across drainage and irrigation canals on the above described property by boring beneath them. The pipeline shall be buried at least five (5') feet below the bottom of said drainage ditch or irrigation canals.

10. Grantor shall have the right to place along, across and over said right-of-way and easement as many roads, streets, railroad tracks, sidewalks, passage-ways, electric light and power lines, water lines, sewer lines, telephone lines and telephone poles, and any and all other utilities as said Grantor may desire, provided, however, that if the same are placed along, as distinguished from across said easement, they shall not be placed within twenty (20') feet of the pipeline of Grantee.

11. The pipeline shall not exceed thirty (30") inches inside diameter.

12. The pipeline shall be constructed and the premises resotred to its former condition as nearly as practical not later than March 15th of any given year, but before December 31, 1983.

13. In addition to the right-of-way and other rights herein granted, Grantee shall have the right to the use of the "temporary working space" and "extra work space" shown on the plat attaced hereto. Following construction of the pipeline, Grantee's right to the use of such temporary work space and extra work space shall terminate.

14. Grantee agrees that in the event the construction, replacement or removal of a pipeline occurs during the flooding of the rice fields, Grantee agrees to provide for the fluming of the water across the pipeline ditch and/or right-of-way so that the pipeline construction will not interfere with water in the rice fields remaining level, and levees necessary to keep the water from running off the land will be built along the right-of-way. An extra width is granted herein to provide space to make levees on the outside of right-of-way and work areas. This width will be computed on acreage basis and payment made to Grantor for crop loss on this acreage.

15. During construction Grantee shall construct at its expense, where necessary, vehicular crossings over and across the right-of-way for Grantor's use in crossing from one side of the right-of-way to the other with farm implements and machinery such as tractors, trucks, discs, etc.

16. In the construction, maintenance and operation of the said pipeline, Grantee agrees to comply with all regulations and directives of state and federal agencies having authority in the premises.

17. Grantee expressly agrees that following construction, should any of Grantor's farm equipment or machinery become bogged down or be damaged, or both, while traversing the right-of-way then Grantee shall cooperate with Grantor in remedying the situation and/or repairing the damage, or both.

18. The above recited consideraiton this day paid by Grantee to Grantor is accepted by Grantor in full payment, settlement and satisfaction for right-of way, temporary and permanent, for the right to the use of temporary working space, for all severance damages, and for damages caused because of Grantee's exercise of the initial rights herein granted. Grantee will be responsible for all subsequent damages resulting from Grantee's exercising its rights herein under.

19. It is also agreed and understood that Grantee will attempt to separate the top soil by trenching to a depth of approximately ten (10") inches with a conventional trenching machine; Grantee will then remove the subsoil in a second trenching operation. In the back filling operation, the subsoil will be replaced first and then the top soil. A dragline shall not be used for trenching or digging operations, other than at pipeline and canal crossing. An additional space is herein provided parallel to and on the East side of construction right-of-way for the placement of top soil in this operation.

20. No valves, fittings, meters and other equipment shall be installed on or in connection with the said pipeline without the written consent of the Grantor; and no installations whatsoever shall be made above ground, except that cathodic test wires may be installed at outside line fence lines.

21. This grant is made subject to any and all previous rights-of-way and/or servitudes, oil, gas, mineral lease or leases and mortgages or mortgages, and rights of Grantor's tenants, if any, presently affecting said above described property, and Grantee agrees that the exercise by it of this servitude will not interfere with any exploration, mining or development of oil, gas and other minerals on said property.

22. Before exercising any of the rights herein granted, Grantee shall contact Mr. Raymond Bruce at 318-824-1260 or Mr. Worrel B. Johnson at 318-734-3012.

The Grantee, its successors and assigns, is hereby expressly given and granted the right to assign said right-of-way and easement or any part thereof, or interest therein. The same shall be divisible among two or more owners as to any right or rights granted hereunder so that each assignee or owner shall have the right and privileges herein granted to be owned and enjoyed in common or severally.

TO HAVE AND TO HOLD unto Grantee, its successors, or assigns, until the abandonment of the pipeline to be constructed on the right-of-way herein granted. Failure of Grantee to use the line for eighteen

(18) consecutive months shall constitute an abandonment of the pipeline and it shall then become the property of Grantor, however, Grantee has the option to remove pipeline within this period.

This agreement will be executed in multiple counter-parts, each of which shall be an original document binding upon the Grantors who execute same whether or not said right-of-way is ultimately signed by all Grantors.

IN TESTIMONY WHEREOF, Grantor has executed this grant of right-of-way in the presence of the undersigned competent witnesses on this _____day of _____, 1981.

hereinafter called "Grantor", for and in consideration of the sum of Fifty Thousand and No/100 ($50,000.00) Dollars, and other good and valuable consideration, cash in hand paid, the receipt of which is hereby acknowledged, does hereby grant, sell and convey unto Michigan Wisconsin Pipe Line Company hereinafter referred to as "Grantee", its successors and assigns, the right to lay, construct, maintain, inspect, repair, operate, remove or abandon in place one (1) pipeline for the transportation of oil, petroleum products, natural gas and all by-products thereof, under and across the following described land, to-wit:

> A tract of land situated in Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana, except that portion lying in a triangular form West of the East boundary line of Section 14, if extended through said Section 39.

The pipeline shall be laid as shown on the plat attached hereto and marked Exhibit "A" and made a part hereof.

The right-of-way granted herein shall have a width of 75 feet being 25 feet on the East side of the centerline and 50 feet on the West side of the centerline of the right-of-way during construction, to revert to a permanent width of 50 feet being 25 feet on each side of the centerline of the right-of-way, all as shown on the plat attached hereto as Exhibit "A". There is also granted extra work space at road crossings

as shown on the plat attached hereto as Exhibit "A". The extra work space shall be used only during construction of the pipeline and all rights thereto shall terminate following construction and clean-up.

There are included in this grant the rights of ingress and egress for the purpose of constructing, inspecting and repairing the said line, but except for emergency repairs, said rights of ingress and egress shall be strictly limited to the right-of-way herein granted.

It is expressly agreed and understood that Grantor retains and shall have the right fully to use and enjoy the above described land, subject to the right of easement herein granted unto Grantee, including, by way of illustration but not of way of limitation, the right to pasture and to farm the surface of the land. Grantor agrees not to construct nor permit to be constructed any house, building or other structure within the permanent 50 foot right-of-way herein granted. It is Also agreed that Grantee shall have the right from time to time to cut or remove all trees, undergrowth or other obstruction on or within the peramnent right-of-way granted hereby that, in its judgment, may injure, endanger or interfere with the exercise by Grantee of the rights and privileges herein granted.

Grantee agrees to pay Grantor and/or Grantor's tenants for all damages that may be caused from the exercise of the rights herein granted by Grantee, its agents, servants, employees, contractors, or sub-contractor.

As additional consideration for the grant of this servitude and right-of-way Grantee agrees:

1. That said pipeline shall be buried at least thirty-six (36") inches below the surface of the ground measured from the surface of the ground to the top of the pipe. There shall be no above ground installations on the land, except for vents and pipeline markers, and these shall be placed only on exterior boundary lines or roadcrossings.

2. During construction of said pipeline, Grantee shall be limited to the use of a strip of land seventy-five (75') feet in width and extending across the above described land along the route herein above referred to.

3. Upon completion of construction of the pipeline, the right-of-way acquired by Grantee herein shall revert in width to fifty (50') feet.

4. That Grantee, before severing or cutting fences of Grantor at each point where same are to be severed or cut, will staunchly cross-brace the two panels, the one immediately on either side of the point of severance, so as to prevent unnecessary sag in the remaining portion of such fence or fences. Grantee also agrees that such fences as have been cut will be closed at all times except when construction work underway necessitates an opening therein; following construction such fences which are cut shall be re-built with 4 strand barbed wire and creosoted posts.

5. All trenches shall be back-filled, after being first pumped dry in cultivated lands, after the installation of said pipeline and in case of the abandonment and/or expiration of this grant of servitude for any cause or reason, Grantee agrees that all ditches and debris caused by the construction or removal operation must be filled, cleared and the land restored as near as possible to its original condition.

6. Any private road or roads of Grantor which are cut by Grantee shall be restored to as equal or better condition as presently exists and made available for passage as soon as practical. Grantee further acknowledges that it has no right to the use of any such roads without the prior consent of Grantor.

7. This grant of right-of-way and easement is limited to one pipeline, as herein described, and for the use herein provided and there shall be no other use thereof, such as the erection of pole lines.

8. Grantee agrees to indemnify and hold Grantors harmless against any loss or liability on account of injuries to persons, including death, and damages to the property of others, and all costs and expenses incident thereto arising from the exercise of Grantee of its rights hereunder or any defect in or failure of its pipeline or other facility constructed by Grantee hereunder. In the event a suit is brought against Grantors to recover for, or on account of, any such damage, injury, or death, Grantee will, at Grantors' request, appear and defend such suit at its sole cost and expense and will pay any judgment that may be entered against Grantors therein when said suit is finally determined; provided that, for this provision to be effective, Grantors must give Grantee adequate and timely notice of the filing of such suit if Grantee is not itself made a defendant.

9. The pipeline shall be constructed across drainage and irrigation canals on the above described property by boring beneath them. The pipeline shall be buried at least five (5') feet below the bottom of said drainage ditch or irrigation canals.

10. Grantor shall have the right to place along, across and over said right-of-way and easement as many roads, streets, railroad tracks, sidewalks, passage-ways, electric light and power lines, water lines, sewer lines, telephone lines and telephone poles, and any and all other utilities as said Grantor may desire, provided, however, that if the same are placed along, as distinguished from across said easement, they shall not be placed within twenty (20') feet of the pipeline of Grantee.

11. The pipeline shall not exceed thirty (30") inches inside diameter.

12. The pipeline shall be constructed and the premises resotred to its former condition as nearly as practical not later than March 15th of any given year, but before December 31, 1983.

13. In addition to the right-of-way and other rights herein granted, Grantee shall have the right to the use of the "temporary working space" and "extra work space" shown on the plat attaced hereto. Following construction of the pipeline, Grantee's right to the use of such temporary work space and extra work space shall terminate.

.14. Grantee agrees that in the event the construction, replacement or removal of a pipeline occurs during the flooding of the rice fields, Grantee agrees to provide for the fluming of the water across the pipeline ditch and/or right-of-way so that the pipeline construction will not interfere with water in the rice fields remaining level, and levees necessary to keep the water from running off the land will be built along the right-of-way. An extra width is granted herein to provide space to make levees on the outside of right-of-way and work areas. This width will be computed on acreage basis and payment made to Grantor for crop loss on this acreage.

15. During construction Grantee shall construct at its expense, where necessary, vehicular crossings over and across the right-of-way for Grantor's use in crossing from one side of the right-of-way to the other with farm implements and machinery such as tractors, trucks, discs, etc.

16. In the construction, maintenance and operation of the said pipeline, Grantee agrees to comply with all regulations and directives of state and federal agencies having authority in the premises.

17. Grantee expressly agrees that following construction, should any of Grantor's farm equipment or machinery become bogged down or be damaged, or both, while traversing the right-of-way then Grantee shall co-operate with Grantor in remedying the situation and/or repairing the damage, or both.

18. The above recited consideraiton this day paid by Grantee to Grantor is accepted by Grantor in full payment, settlement and satisfaction for right-of way, temporary and permanent, for the right to the use of temporary working space, for all severance damages, and for damages caused because of Grantee's exercise of the initial rights herein granted. Grantee will be responsible for all subsequent damages resulting from Grantee's exercising its rights herein under.

19. It is also agreed and understood that Grantee will attempt to separate the top soil by trenching to a depth of approximately ten (10") inches with a conventional trenching machine; Grantee will then remove the subsoil in a second trenching operation. In the back filling operation, the subsoil will be replaced first and then the top soil. A dragline shall not be used for trenching or digging operations, other than at pipeline and canal crossing. An additional space is herein provided parallel to and on the East side of construction right-of-way for the placement of top soil in this operation.

20. No valves, fittings, meters and other equipment shall be installed on or in connection with the said pipeline without the written consent of the Grantor; and no installations whatsoever shall be made above ground, except that cathodic test wires may be installed at outside line fence lines.

21. This grant is made subject to any and all previous rights-of-way and/or servitudes, oil, gas, mineral lease or leases and mortgages or mortgages, and rights of Grantor's tenants, if any, presently affecting said above described property, and Grantee agrees that the exercise by it of this servitude will not interfere with any exploration, mining or development of oil, gas and other minerals on said property.

22. Before exercising any of the rights herein granted, Grantee shall contact Mr. Raymond Bruce at 318-824-1260 or Mr. Worrel B. Johnson at 318-734-3012.

The Grantee, its successors and assigns, is hereby expressly given and granted the right to assign said right-of-way and easement or any part thereof, or interest therein. The same shall be divisible among two or more owners as to any right or rights granted hereunder so that each assignee or owner shall have the right and privileges herein granted to be owned and enjoyed in common or severally.

TO HAVE AND TO HOLD unto Grantee, its successors, or assigns, until the abandonment of the pipeline to be constructed on the right-of-way herein granted. Failure of Grantee to use the line for eighteen

(18) consecutive months shall constitute an abandonment of the pipeline and it shall then become the property of Grantor, however, Grantee has the option to remove pipeline within this period.

This agreement will be executed in multiple counter-parts, each of which shall be an original document binding upon the Grantors who execute same whether or not said right-of-way is ultimately signed by all Grantors.

IN TESTIMONY WHEREOF, Grantor has executed this grant of right-of-way in the presence of the undersigned competent witnesses on this 26th day of September, 1981.

NELIA KAREN BRUCE GOLDMAN, off full age of majority, whose mailing address is 214 Pinehurst, Monroe, Louisiana,

hereinafter called "Grantor", for and in consideration of the sum of Fifty Thousand and No/100 ($50,000.00) Dollars, and other good and valuable consideration, cash in hand paid, the receipt of which is hereby acknowledged, does hereby grant, sell and convey unto Michigan Wisconsin Pipe Line Company hereinafter referred to as "Grantee", its successors and assigns, the right to lay, construct, maintain, inspect, repair, operate, remove or abandon in place one (1) pipeline for the transportation of oil, petroleum products, natural gas and all by-products thereof, under and across the following described land, to-wit:

A tract of land situated in Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana, except that portion lying in a triangular form West of the East boundary line of Section 14, if extended through said Section 39.

The pipeline shall be laid as shown on the plat attached hereto and marked Exhibit "A" and made a part hereof.

The right-of-way granted herein shall have a width of 75 feet being 25 feet on the East side of the centerline and 50 feet on the West side of the centerline of the right-of-way during construction, to revert to a permanent width of 50 feet being 25 feet on each side of the center-line of the right-of-way, all as shown on the plat attached hereto as Exhibit "A". There is also granted extra work space at road crossings

as shown on the plat attached hereto as Exhibit "A". The extra work space shall be used only during construction of the pipeline and all rights thereto shall terminate following construction and clean-up.

There are included in this grant the rights of ingress and egress for the purpose of constructing, inspecting and repairing the said line, but except for emergency repairs, said rights of ingress and egress shall be strictly limited to the right-of-way herein granted.

It is expressly agreed and understood that Grantor retains and shall have the right fully to use and enjoy the above described land, subject to the right of easement herein granted unto Grantee, including, by way of illustration but not of way of limitation, the right to pasture and to farm the surface of the land. Grantor agrees not to construct nor permit to be constructed any house, building or other structure within the permanent 50 foot right-of-way herein granted. It is also agreed that Grantee shall have the right from time to time to cut or remove all trees, undergrowth or other obstruction on or within the peramnent right-of-way granted hereby that, in its judgment, may injure, endanger or interfere with the exercise by Grantee of the rights and privileges herein granted.

Grantee agrees to pay Grantor and/or Grantor's tenants for all damages that may be caused from the exercise of the rights herein granted by Grantee, its agents, servants, employees, contractors, or sub-contractor.

As additional consideration for the grant of this servitude and right-of-way Grantee agrees:

1. That said pipeline shall be buried at least thirty-six (36") inches below the surface of the ground measured from the surface of the ground to the top of the pipe. There shall be no above ground installations on the land, except for vents and pipeline markers, and these shall be placed only on exterior boundary lines or roadcrossings.

2. During construction of said pipeline, Grantee shall be limited to the use of a strip of land seventy-five (75') feet in width and extending across the above described land along the route herein above referred to.

3. Upon completion of construction of the pipeline, the right-of-way acquired by Grantee herein shall revert in width to fifty (50') feet.

4. That Grantee, before severing or cutting fences of Grantor at each point where same are to be severed or cut, will staunchly cross-brace the two panels, the one immediately on either side of the point of severance, so as to prevent unnecessary sag in the remaining portion of such fence or fences. Grantee also agrees that such fences as have been cut will be closed at all times except when construction work underway necessitates an opening therein; following construction such fences which are cut shall be rebuilt with 4 strand barbed wire and creosoted posts.

5. All trenches shall be back-filled, after being first pumped dry in cultivated lands, after the installation of said pipeline and in case of the abandonment and/or expiration of this grant of servitude for any cause or reason, Grantee agrees that all ditches and debris caused by the construction or removal operation must be filled, cleared and the land restored as near as possible to its original condition.

6. Any private road or roads of Grantor which are cut by Grantee shall be restored to as equal or better condition as presently exists and made available for passage as soon as practical. Grantee further acknowledges that it has no right to the use of any such roads without the prior consent of Grantor.

7. This grant of right-of-way and easement is limited to one pipeline, as herein described, and for the use herein provided and there shall be no other use thereof, such as the erection of pole lines.

8. Grantee agrees to indemnify and hold Grantors harmless against any loss or liability on account of injuries to persons, including death, and damages to the property of others, and all costs and expenses incident thereto arising from the exercise of Grantee of its rights hereunder or any defect in or failure of its pipeline or other facility constructed by Grantee hereunder. In the event a suit is brought against Grantors to recover for, or on account of, any such damage, injury, or death, Grantee will, at Grantors' request, appear and defend such suit at its sole cost and expense and will pay any judgment that may be entered against Grantors therein when said suit is finally determined; provided that, for this provision to be effective, Grantors must give Grantee adequate and timely notice of the filing of such suit if Grantee is not itself made a defendant.

9. The pipeline shall be constructed across drainage and irrigation canals on the above described property by boring beneath them. The pipeline shall be buried at least five (5') feet below the bottom of said drainage ditch or irrigation canals.

10. Grantor shall have the right to place along, across and over said right-of-way and easement as many roads, streets, railroad tracks, sidewalks, passage-ways, electric light and power lines, water lines, sewer lines, telephone lines and telephone poles, and any and all other utilities as said Grantor may desire, provided, however, that if the same are placed along, as distinguished from across said easement, they shall not be placed within twenty (20') feet of the pipeline of Grantee.

11. The pipeline shall not exceed thirty (30") inches inside diameter.

12. The pipeline shall be constructed and the premises resotred to its former condition as nearly as practical not later than March 15th of any given year, but before December 31, 1983.

13. In addition to the right-of-way and other rights herein granted, Grantee shall have the right to the use of the "temporary working space" and "extra work space" shown on the plat attaced hereto. Following construction of the pipeline, Grantee's right to the use of such temporary work space and extra work space shall terminate.

14. Grantee agrees that in the event the construction, replacement or removal of a pipeline occurs during the flooding of the rice fields, Grantee agrees to provide for the fluming of the water across the pipeline ditch and/or right-of-way so that the pipeline construction will not interfere with water in the rice fields remaining level, and levees necessary to keep the water from running off the land will be built along the right-of-way. An extra width is granted herein to provide space to make levees on the outside of right-of-way and work areas. This width will be computed on acreage basis and payment made to Grantor for crop loss on this acreage.

15. During construction Grantee shall construct at its expense, where necessary, vehicular crossings over and across the right-of-way for Grantor's use in crossing from one side of the right-of-way to the other with farm implements and machinery such as tractors, trucks, discs, etc.

16. In the construction, maintenance and operation of the said pipeline, Grantee agrees to comply with all regulations and directives of state and federal agencies having authority in the premises.

17. Grantee expressly agrees that following construction, should any of Grantor's farm equipment or machinery become bogged down or be damaged, or both, while traversing the right-of-way then Grantee shall cooperate with Grantor in remedying the situation and/or repairing the damage, or both.

18. The above recited consideraiton this day paid by Grantee to Grantor is accepted by Grantor in full payment, settlement and satisfaction for right-of way, temporary and permanent, for the right to the use of temporary working space, for all severance damages, and for damages caused because of Grantee's exercise of the initial rights herein granted. Grantee will be responsible for all subsequent damages resulting from Grantee's exercising its rights herein under.

19. It is also agreed and understood that Grantee will attempt to separate the top soil by trenching to a depth of approximately ten (10") inches with a conventional trenching machine; Grantee will then remove the subsoil in a second trenching operation. In the back filling operation, the subsoil will be replaced first and then the top soil. A dragline shall not be used for trenching or digging operations, other than at pipeline and canal crossing. An additional space is herein provided parallel to and on the East side of construction right-of-way for the placement of top soil in this operation.

20. No valves, fittings, meters and other equipment shall be installed on or in connection with the said pipeline without the written consent of the Grantor; and no installations whatsoever shall be made above ground, except that cathodic test wires may be installed at outside line fence lines.

21. This grant is made subject to any and all previous rights-of-way and/or servitudes, oil, gas, mineral lease or leases and mortgages or mortgages, and rights of Grantor's tenants, if any, presently affecting said above described property, and Grantee agrees that the exercise by it of this servitude will not interfere with any exploration, mining or development of oil, gas and other minerals on said property.

22. Before exercising any of the rights herein granted, Grantee shall contact Mr. Raymond Bruce at 318-824-1260 or Mr. Worrel B. Johnson at 318-734-3012.

The Grantee, its successors and assigns, is hereby expressly given and granted the right to assign said right-of-way and easement or any part thereof, or interest therein. The same shall be divisible among two or more owners as to any right or rights granted hereunder so that each assignee or owner shall have the right and privileges herein granted to be owned and enjoyed in common or severally.

TO HAVE AND TO HOLD unto Grantee, its successors, or assigns, until the abandonment of the pipeline to be constructed on the right-of-way herein granted. Failure of Grantee to use the line for eighteen

(18) consecutive months shall constitute an abandonment of the pipeline and it shall then become the property of Grantor, however, Grantee has the option to remove pipeline within this period.

This agreement will be executed in multiple counter-parts, each of which shall be an original document binding upon the Grantors who execute same whether or not said right-of-way is ultimately signed by all Grantors.

IN TESTIMONY WHEREOF, Grantor has executed this grant of right-of-way in the presence of the undersigned competent witnesses on this 26th day of September, 1981.

NELIA KAREN BRUCE GOLDMAN, off full age of majority, whose mailing address is 214 Pinehurst, Monroe, Louisiana,

hereinafter called "Grantor", for and in consideration of the sum of Fifty Thousand and No/100 ($50,000.00) Dollars, and other good and valuable consideration, cash in hand paid, the receipt of which is hereby acknowledged, does hereby grant, sell and convey unto Michigan Wisconsin Pipe Line Company hereinafter referred to as "Grantee", its successors and assigns, the right to lay, construct, maintain, inspect, repair, operate, remove or abandon in place one (1) pipeline for the transportation of oil, petroleum products, natural gas and all by-products thereof, under and across the following described land, to-wit:

A tract of land situated in Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana, except that portion lying in a triangular form West of the East boundary line of Section 14, if extended through said Section 39.

The pipeline shall be laid as shown on the plat attached hereto and marked Exhibit "A" and made a part hereof.

The right-of-way granted herein shall have a width of 75 feet being 25 feet on the East side of the centerline and 50 feet on the West side of the centerline of the right-of-way during construction, to revert to a permanent width of 50 feet being 25 feet on each side of the centerline of the right-of-way, all as shown on the plat attached hereto as Exhibit "A". There is also granted extra work space at road crossings

as shown on the plat attached hereto as Exhibit "A". The extra work space shall be used only during construction of the pipeline and all rights thereto shall terminate following construction and clean-up.

There are included in this grant the rights of ingress and egress for the purpose of constructing, inspecting and repairing the said line, but except for emergency repairs, said rights of ingress and egress shall be strictly limited to the right-of-way herein granted.

It is expressly agreed and understood that Grantor retains and shall have the right fully to use and enjoy the above described land, subject to the right of easement herein granted unto Grantee, including, by way of illustration but not of way of limitation, the right to pasture and to farm the surface of the land. Grantor agrees not to construct nor permit to be constructed any house, building or other structure within the permanent 50 foot right-of-way herein granted. It is also agreed that Grantee shall have the right from time to time to cut or remove all trees, undergrowth or other obstruction on or within the peramnent right-of-way granted hereby that, in its judgment, may injure, endanger or interfere with the exercise by Grantee of the rights and privileges herein granted.

Grantee agrees to pay Grantor and/or Grantor's tenants for all damages that may be caused from the exercise of the rights herein granted by Grantee, its agents, servants, employees, contractors, or sub-contractor.

As additional consideration for the grant of this servitude and right-of-way Grantee agrees:

1. That said pipeline shall be buried at least thirty-six (36") inches below the surface of the ground measured from the surface of the ground to the top of the pipe. There shall be no above ground installations on the land, except for vents and pipeline markers, and these shall be placed only on exterior boundary lines or roadcrossings.

2. During construction of said pipeline, Grantee shall be limited to the use of a strip of land seventy-five (75') feet in width and extending across the above described land along the route herein above referred to.

3. Upon completion of construction of the pipeline, the right-of-way acquired by Grantee herein shall revert in width to fifty (50') feet.

4. That Grantee, before severing or cutting fences of Grantor at each point where same are to be severed or cut, will staunchly cross-brace the two panels, the one immediately on either side of the point of severance, so as to prevent unnecessary sag in the remaining portion of such fence or fences. Grantee also agrees that such fences as have been cut will be closed at all times except when construction work underway necessitates an opening therein; following construction such fences which are cut shall be re-built with 4 strand barbed wire and creosoted posts.

5. All trenches shall be back-filled, after being first pumped dry in cultivated lands, after the installation of said pipeline and in case of the abandonment and/or expiration of this grant of servitude for any cause or reason, Grantee agrees that all ditches and debris caused by the construction or removal operation must be filled, cleared and the land restored as near as possible to its original condition.

6. Any private road or roads of Grantor which are cut by Grantee shall be restored to as equal or better condition as presently exists and made available for passage as soon as practical. Grantee further acknowledges that it has no right to the use of any such roads without the prior consent of Grantor.

7. This grant of right-of-way and easement is limited to one pipeline, as herein described, and for the use herein provided and there shall be no other use thereof, such as the erection of pole lines.

8. Grantee agrees to indemnify and hold Grantors harmless against any loss or liability on account of injuries to persons, including death, and damages to the property of others, and all costs and expenses incident thereto arising from the exercise of Grantee of its rights hereunder or any defect in or failure of its pipeline or other facility constructed by Grantee hereunder. In the event a suit is brought against Grantors to recover for, or on account of, any such damage, injury, or death, Grantee will, at Grantors' request, appear and defend such suit at its sole cost and expense and will pay any judgment that may be entered against Grantors therein when said suit is finally determined; provided that, for this provision to be effective, Grantors must give Grantee adequate and timely notice of the filing of such suit if Grantee is not itself made a defendant.

9. The pipeline shall be constructed across drainage and irrigation canals on the above described property by boring beneath them. The pipeline shall be buried at least five (5') feet below the bottom of said drainage ditch or irrigation canals.

10. Grantor shall have the right to place along, across and over said right-of-way and easement as many roads, streets, railroad tracks, sidewalks, passage-ways, electric light and power lines, water lines, sewer lines, telephone lines and telephone poles, and any and all other utilities as said Grantor may desire, provided, however, that if the same are placed along, as distinguished from across said easement, they shall not be placed within twenty (20') feet of the pipeline of Grantee.

11. The pipeline shall not exceed thirty (30") inches inside diameter.

12. The pipeline shall be constructed and the premises resotred to its former condition as nearly as practical not later than March 15th of any given year, but before December 31, 1983.

13. In addition to the right-of-way and other rights herein granted, Grantee shall have the right to the use of the "temporary working space" and "extra work space" shown on the plat attaced hereto. Following construction of the pipeline, Grantee's right to the use of such temporary work space and extra work space shall terminate.

14. Grantee agrees that in the event the construction, replacement or removal of a pipeline occurs during the flooding of the rice fields, Grantee agrees to provide for the fluming of the water across the pipeline ditch and/or right-of-way so that the pipeline construction will not interfere with water in the rice fields remaining level, and levees necessary to keep the water from running off the land will be built along the right-of-way. An extra width is granted herein to provide space to make levees on the outside of right-of-way and work areas. This width will be computed on acreage basis and payment made to Grantor for crop loss on this acreage.

15. During construction Grantee shall construct at its expense, where necessary, vehicular crossings over and across the right-of-way for Grantor's use in crossing from one side of the right-of-way to the other with farm implements and machinery such as tractors, trucks, discs, etc.

16. In the construction, maintenance and operation of the said pipeline, Grantee agrees to comply with all regulations and directives of state and federal agencies having authority in the premises.

17. Grantee expressly agrees that following construction, should any of Grantor's farm equipment or machinery become bogged down or be damaged, or both, while traversing the right-of-way then Grantee shall cooperate with Grantor in remedying the situation and/or repairing the damage, or both.

18. The above recited consideraiton this day paid by Grantee to Grantor is accepted by Grantor in full payment, settlement and satisfaction for right-of way, temporary and permanent, for the right to the use of temporary working space, for all severance damages, and for damages caused because of Grantee's exercise of the initial rights herein granted. Grantee will be responsible for all subsequent damages resulting from Grantee's exercising its rights herein under.

19. It is also agreed and understood that Grantee will attempt to separate the top soil by trenching to a depth of approximately ten (10") inches with a conventional trenching machine; Grantee will then remove the subsoil in a second trenching operation. In the back filling operation, the subsoil will be replaced first and then the top soil. A dragline shall not be used for trenching or digging operations, other than at pipeline and canal crossing. An additional space is herein provided parallel to and on the East side of construction right-of-way for the placement of top soil in this operation.

20. No valves, fittings, meters and other equipment shall be installed on or in connection with the said pipeline without the written consent of the Grantor; and no installations whatsoever shall be made above ground, except that cathodic test wires may be installed at outside line fence lines.

21. This grant is made subject to any and all previous rights-of-way and/or servitudes, oil, gas, mineral lease or leases and mortgages or mortgages, and rights of Grantor's tenants, if any, presently affecting said above described property, and Grantee agrees that the exercise by it of this servitude will not interfere with any exploration, mining or development of oil, gas and other minerals on said property.

22. Before exercising any of the rights herein granted, Grantee shall contact Mr. Raymond Bruce at 318-824-1260 or Mr. Worrel B. Johnson at 318-734-3012.

The Grantee, its successors and assigns, is hereby expressly given and granted the right to assign said right-of-way and easement or any part thereof, or interest therein. The same shall be divisible among two or more owners as to any right or rights granted hereunder so that each assignee or owner shall have the right and privileges herein granted to be owned and enjoyed in common or severally.

TO HAVE AND TO HOLD unto Grantee, its successors, or assigns, until the abandonment of the pipeline to be constructed on the right-of-way herein granted. Failure of Grantee to use the line for eighteen

(18) consecutive months shall constitute an abandonment of the pipeline and it shall then become the property of Grantor, however, Grantee has the option to remove pipeline within this period.

This agreement will be executed in multiple counter-parts, each of which shall be an original document binding upon the Grantors who execute same whether or not said right-of-way is ultimately signed by all Grantors.

IN TESTIMONY WHEREOF, Grantor has executed this grant of right-of-way in the presence of the undersigned competent witnesses on this _____day of _____, 1981.

PATRICIA GAY BRUCE HUFF, of full age of majority, whose mailing address is 214 Morton Street, Jennings, Louisiana; and

NELIA KAREN BRUCE GOLDMAN, off full age of majority, whose mailing address is 214 Pinehurst, Monroe, Louisiana,

hereinafter called "Grantor", for and in consideration of the sum of Fifty Thousand and No/100 ($50,000.00) Dollars, and other good and valuable consideration, cash in hand paid, the receipt of which is hereby acknowledged, does hereby grant, sell and convey unto Michigan Wisconsin Pipe Line Company hereinafter referred to as "Grantee", its successors and assigns, the right to lay, construct, maintain, inspect, repair, operate, remove or abandon in place one (1) pipeline for the transportation of oil, petroleum products, natural gas and all by-products thereof, under and across the following described land, to-wit:

A tract of land situated in Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana, except that portion lying in a triangular form West of the East boundary line of Section 14, if extended through said Section 39.

The pipeline shall be laid as shown on the plat attached hereto and marked Exhibit "A" and made a part hereof.

The right-of-way granted herein shall have a width of 75 feet being 25 feet on the East side of the centerline and 50 feet on the West side of the centerline of the right-of-way during construction, to revert to a permanent width of 50 feet being 25 feet on each side of the centerline of the right-of-way, all as shown on the plat attached hereto as Exhibit "A". There is also granted extra work space at road crossings

as shown on the plat attached hereto as Exhibit "A". The extra work space shall be used only during construction of the pipeline and all rights thereto shall terminate following construction and clean-up.

There are included in this grant the rights of ingress and egress for the purpose of constructing, inspecting and repairing the said line, but except for emergency repairs, said rights of ingress and egress shall be strictly limited to the right-of-way herein granted.

It is expressly agreed and understood that Grantor retains and shall have the right fully to use and enjoy the above described land, subject to the right of easement herein granted unto Grantee, including, by way of illustration but not of way of limitation, the right to pasture and to farm the surface of the land. Grantor agrees not to construct nor permit to be constructed any house, building or other structure within the permanent 50 foot right-of-way herein granted. It is also agreed that Grantee shall have the right from time to time to cut or remove all trees, undergrowth or other obstruction on or within the peramnent right-of-way granted hereby that, in its judgment, may injure, endanger or interfere with the exercise by Grantee of the rights and privileges herein granted.

Grantee agrees to pay Grantor and/or Grantor's tenants for all damages that may be caused from the exercise of the rights herein granted by Grantee, its agents, servants, employees, contractors, or sub-contractor.

As additional consideration for the grant of this servitude and right-of-way Grantee agrees:

1. That said pipeline shall be buried at least thirty-six (36") inches below the surface of the ground measured from the surface of the ground to the top of the pipe. There shall be no above ground installations on the land, except for vents and pipeline markers, and these shall be placed only on exterior boundary lines or roadcrossings.

2. During construction of said pipeline, Grantee shall be limited to the use of a strip of land seventy-five (75') feet in width and extending across the above described land along the route herein above referred to.

3. Upon completion of construction of the pipeline, the right-of-way acquired by Grantee herein shall revert in width to fifty (50') feet.

4. That Grantee, before severing or cutting fences of Grantor at each point where same are to be severed or cut, will staunchly cross-brace the two panels, the one immediately on either side of the point of severance, so as to prevent unnecessary sag in the remaining portion of such fence or fences. Grantee also agrees that such fences as have been cut will be closed at all times except when construction work underway necessitates an opening therein; following construction such fences which are cut shall be re-built with 4 strand barbed wire and creosoted posts.

5. All trenches shall be back-filled, after being first pumped dry in cultivated lands, after the installation of said pipeline and in case of the abandonment and/or expiration of this grant of servitude for any cause or reason, Grantee agrees that all ditches and debris caused by the construction or removal operation must be filled, cleared and the land restored as near as possible to its original condition.

6. Any private road or roads of Grantor which are cut by Grantee shall be restored to as equal or better condition as presently exists and made available for passage as soon as practical. Grantee further acknowledges that it has no right to the use of any such roads without the prior consent of Grantor.

7. This grant of right-of-way and easement is limited to one pipeline, as herein described, and for the use herein provided and there shall be no other use thereof, such as the erection of pole lines.

8. Grantee agrees to indemnify and hold Grantors harmless against any loss or liability on account of injuries to persons, including death, and damages to the property of others, and all costs and expenses incident thereto arising from the exercise of Grantee of its rights hereunder or any defect in or failure of its pipeline or other facility constructed by Grantee hereunder. In the event a suit is brought against Grantors to recover for, or on account of, any such damage, injury, or death, Grantee will, at Grantors' request, appear and defend such suit at its sole cost and expense and will pay any judgment that may be entered against Grantors therein when said suit is finally determined; provided that, for this provision to be effective, Grantors must give Grantee adequate and timely notice of the filing of such suit if Grantee is not itself made a defendant.

9. The pipeline shall be constructed across drainage and irrigation canals on the above described property by boring beneath them. The pipeline shall be buried at least five (5') feet below the bottom of said drainage ditch or irrigation canals.

10. Grantor shall have the right to place along, across and over said right-of-way and easement as many roads, streets, railroad tracks, sidewalks, passage-ways, electric light and power lines, water lines, sewer lines, telephone lines and telephone poles, and any and all other utilities as said Grantor may desire, provided, however, that if the same are placed along, as distinguished from across said easement, they shall not be placed within twenty (20') feet of the pipeline of Grantee.

11. The pipeline shall not exceed thirty (30") inches inside diameter.

12. The pipeline shall be constructed and the premises resotred to its former condition as nearly as practical not later than March 15th of any given year, but before December 31, 1983.

13. In addition to the right-of-way and other rights herein granted, Grantee shall have the right to the use of the "temporary working space" and "extra work space" shown on the plat attaced hereto. Following construction of the pipeline, Grantee's right to the use of such temporary work space and extra work space shall terminate.

14. Grantee agrees that in the event the construction, replacement or removal of a pipeline occurs during the flooding of the rice fields, Grantee agrees to provide for the fluming of the water across the pipeline ditch and/or right-of-way so that the pipeline construction will not interfere with water in the rice fields remaining level, and levees necessary to keep the water from running off the land will be built along the right-of-way. An extra width is granted herein to provide space to make levees on the outside of right-of-way and work areas. This width will be computed on acreage basis and payment made to Grantor for crop loss on this acreage.

15. During construction Grantee shall construct at its expense, where necessary, vehicular crossings over and across the right-of-way for Grantor's use in crossing from one side of the right-of-way to the other with farm implements and machinery such as tractors, trucks, discs, etc.

16. In the construction, maintenance and operation of the said pipeline, Grantee agrees to comply with all regulations and directives of state and federal agencies having authority in the premises.

17. Grantee expressly agrees that following construction, should any of Grantor's farm equipment or machinery become bogged down or be damaged, or both, while traversing the right-of-way then Grantee shall co-operate with Grantor in remedying the situation and/or repairing the damage, or both.

18. The above recited consideraiton this day paid by Grantee to Grantor is accepted by Grantor in full payment, settlement and satisfaction for right-of way, temporary and permanent, for the right to the use of temporary working space, for all severance damages, and for damages caused because of Grantee's exercise of the initial rights herein granted. Grantee will be responsible for all subsequent damages resulting from Grantee's exercising its rights herein under.

19. It is also agreed and understood that Grantee will attempt to separate the top soil by trenching to a depth of approximately ten (10") inches with a conventional trenching machine; Grantee will then remove the subsoil in a second trenching operation. In the back filling operation, the subsoil will be replaced first and then the top soil. A dragline shall not be used for trenching or digging operations, other than at pipeline and canal crossing. An additional space is herein provided parallel to and on the East side of construction right-of-way for the placement of top soil in this operation.

20. No valves, fittings, meters and other equipment shall be installed on or in connection with the said pipeline without the written consent of the Grantor; and no installations whatsoever shall be made above ground, except that cathodic test wires may be installed at outside line fence lines.

21. This grant is made subject to any and all previous rights-of-way and/or servitudes, oil, gas, mineral lease or leases and mortgages or mortgages, and rights of Grantor's tenants, if any, presently affecting said above described property, and Grantee agrees that the exercise by it of this servitude will not interfere with any exploration, mining or development of oil, gas and other minerals on said property.

22. Before exercising any of the rights herein granted, Grantee shall contact Mr. Raymond Bruce at 318-824-1260 or Mr. Worrel B. Johnson at 318-734-3012.

The Grantee, its successors and assigns, is hereby expressly given and granted the right to assign said right-of-way and easement or any part thereof, or interest therein. The same shall be divisible among two or more owners as to any right or rights granted hereunder so that each assignee or owner shall have the right and privileges herein granted to be owned and enjoyed in common or severally.

TO HAVE AND TO HOLD unto Grantee, its successors, or assigns, until the abandonment of the pipeline to be constructed on the right-of-way herein granted. Failure of Grantee to use the line for eighteen

(18) consecutive months shall constitute an abandonment of the pipeline and it shall then become the property of Grantor, however, Grantee has the option to remove pipeline within this period.

This agreement will be executed in multiple counter-parts, each of which shall be an original document binding upon the Grantors who execute same whether or not said right-of-way is ultimately signed by all Grantors.

IN TESTIMONY WHEREOF, Grantor has executed this grant of right-of-way in the presence of the undersigned competent witnesses on this _____day of _____, 1981.

2410

NELIA KAREN BRUCE GOLDMAN, off full age of majority, whose mailing address is 214 Pinehurst, Monroe, Louisiana,

hereinafter called "Grantor", for and in consideration of the sum of Fifty Thousand and No/100 ($50,000.00) Dollars, and other good and valuable consideration, cash in hand paid, the receipt of which is hereby acknowledged, does hereby grant, sell and convey unto Michigan Wisconsin Pipe Line Company hereinafter referred to as "Grantee", its successors and assigns, the right to lay, construct, maintain, inspect, repair, operate, remove or abandon in place one (1) pipeline for the transportation of oil, petroleum products, natural gas and all by-products thereof, under and across the following described land, to-wit:

> A tract of land situated in Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana, except that portion lying in a triangular form West of the East boundary line of Section 14, if extended through said Section 39.

The pipeline shall be laid as shown on the plat attached hereto and marked Exhibit "A" and made a part hereof.

The right-of-way granted herein shall have a width of 75 feet being 25 feet on the East side of the centerline and 50 feet on the West side of the centerline of the right-of-way during construction, to revert to a permanent width of 50 feet being 25 feet on each side of the centerline of the right-of-way, all as shown on the plat attached hereto as Exhibit "A". There is also granted extra work space at road crossings

as shown on the plat attached hereto as Exhibit "A". The extra work space shall be used only during construction of the pipeline and all rights thereto shall terminate following construction and clean-up.

There are included in this grant the rights of ingress and egress for the purpose of constructing, inspecting and repairing the said line, but except for emergency repairs, said rights of ingress and egress shall be strictly limited to the right-of-way herein granted.

It is expressly agreed and understood that Grantor retains and shall have the right fully to use and enjoy the above described land, subject to the right of easement herein granted unto Grantee, including, by way of illustration but not of way of limitation, the right to pasture and to farm the surface of the land. Grantor agrees not to construct nor permit to be constructed any house, building or other structure within the permanent 50 foot right-of-way herein granted. It is also agreed that Grantee shall have the right from time to time to cut or remove all trees, undergrowth or other obstruction on or within the peramnent right-of-way granted hereby that, in its judgment, may injure, endanger or interfere with the exercise by Grantee of the rights and privileges herein granted.

Grantee agrees to pay Grantor and/or Grantor's tenants for all damages that may be caused from the exercise of the rights herein granted by Grantee, its agents, servants, employees, contractors, or sub-contractor.

As additional consideration for the grant of this servitude and right-of-way Grantee agrees:

1. That said pipeline shall be buried at least thirty-six (36") inches below the surface of the ground measured from the surface of the ground to the top of the pipe. There shall be no above ground installations on the land, except for vents and pipeline markers, and these shall be placed only on exterior boundary lines or roadcrossings.

2. During construction of said pipeline, Grantee shall be limited to the use of a strip of land seventy-five (75') feet in width and extending across the above described land along the route herein above referred to.

3. Upon completion of construction of the pipeline, the right-of-way acquired by Grantee herein shall revert in width to fifty (50') feet.

4. That Grantee, before severing or cutting fences of Grantor at each point where same are to be severed or cut, will staunchly cross-brace the two panels, the one immediately on either side of the point of severance, so as to prevent unnecessary sag in the remaining portion of such fence or fences. Grantee also agrees that such fences as have been cut will be closed at all times except when construction work underway necessitates an opening therein; following construction such fences which are cut shall be re-built with 4 strand barbed wire and creosoted posts.

5. All trenches shall be back-filled, after being first pumped dry in cultivated lands, after the installation of said pipeline and in case of the abandonment and/or expiration of this grant of servitude for any cause or reason, Grantee agrees that all ditches and debris caused by the construction or removal operation must be filled, cleared and the land restored as near as possible to its original condition.

6. Any private road or roads of Grantor which are cut by Grantee shall be restored to as equal or better condition as presently exists and made available for passage as soon as practical. Grantee further acknowledges that it has no right to the use of any such roads without the prior consent of Grantor.

7. This grant of right-of-way and easement is limited to one pipeline, as herein described, and for the use herein provided and there shall be no other use thereof, such as the erection of pole lines.

8. Grantee agrees to indemnify and hold Grantors harmless against any loss or liability on account of injuries to persons, including death, and damages to the property of others, and all costs and expenses incident thereto arising from the exercise of Grantee of its rights hereunder or any defect in or failure of its pipeline or other facility constructed by Grantee hereunder. In the event a suit is brought against Grantors to recover for, or on account of, any such damage, injury, or death, Grantee will, at Grantors' request, appear and defend such suit at its sole cost and expense and will pay any judgment that may be entered against Grantors therein when said suit is finally determined; provided that, for this provision to be effective, Grantors must give Grantee adequate and timely notice of the filing of such suit if Grantee is not itself made a defendant.

9. The pipeline shall be constructed across drainage and irrigation canals on the above described property by boring beneath them. The pipeline shall be buried at least five (5') feet below the bottom of said drainage ditch or irrigation canals.

10. Grantor shall have the right to place along, across and over said right-of-way and easement as many roads, streets, railroad tracks, sidewalks, passage-ways, electric light and power lines, water lines, sewer lines, telephone lines and telephone poles, and any and all other utilities as said Grantor may desire, provided, however, that if the same are placed along, as distinguished from across said easement, they shall not be placed within twenty (20') feet of the pipeline of Grantee.

11. The pipeline shall not exceed thirty (30") inches inside diameter.

12. The pipeline shall be constructed and the premises resotred to its former condition as nearly as practical not later than March 15th of any given year, but before December 31, 1983.

13. In addition to the right-of-way and other rights herein granted, Grantee shall have the right to the use of the "temporary working space" and "extra work space" shown on the plat attaced hereto. Following construction of the pipeline, Grantee's right to the use of such temporary work space and extra work space shall terminate.

14. Grantee agrees that in the event the construction, replacement or removal of a pipeline occurs during the flooding of the rice fields, Grantee agrees to provide for the fluming of the water across the pipeline ditch and/or right-of-way so that the pipeline construction will not interfere with water in the rice fields remaining level, and levees necessary to keep the water from running off the land will be built along the right-of-way. An extra width is granted herein to provide space to make levees on the outside of right-of-way and work areas. This width will be computed on acreage basis and payment made to Grantor for crop loss on this acreage.

15. During construction Grantee shall construct at its expense, where necessary, vehicular crossings over and across the right-of-way for Grantor's use in crossing from one side of the right-of-way to the other with farm implements and machinery such as tractors, trucks, discs, etc.

16. In the construction, maintenance and operation of the said pipeline, Grantee agrees to comply with all regulations and directives of state and federal agencies having authority in the premises.

17. Grantee expressly agrees that following construction, should any of Grantor's farm equipment or machinery become bogged down or be damaged, or both, while traversing the right-of-way then Grantee shall cooperate with Grantor in remedying the situation and/or repairing the damage, or both.

18. The above recited consideraiton this day paid by Grantee to Grantor is accepted by Grantor in full payment, settlement and satisfaction for right-of way, temporary and permanent, for the right to the use of temporary working space, for all severance damages, and for damages caused because of Grantee's exercise of the initial rights herein granted. Grantee will be responsible for all subsequent damages resulting from Grantee's exercising its rights herein under.

19. It is also agreed and understood that Grantee will attempt to separate the top soil by trenching to a depth of approximately ten (10") inches with a conventional trenching machine; Grantee will then remove the subsoil in a second trenching operation. In the back filling operation, the subsoil will be replaced first and then the top soil. A dragline shall not be used for trenching or digging operations, other than at pipeline and canal crossing. An additional space is herein provided parallel to and on the East side of construction right-of-way for the placement of top soil in this operation.

20. No valves, fittings, meters and other equipment shall be installed on or in connection with the said pipeline without the written consent of the Grantor; and no installations whatsoever shall be made above ground, except that cathodic test wires may be installed at outside line fence lines.

21. This grant is made subject to any and all previous rights-of-way and/or servitudes, oil, gas, mineral lease or leases and mortgages or mortgages, and rights of Grantor's tenants, if any, presently affecting said above described property, and Grantee agrees that the exercise by it of this servitude will not interfere with any exploration, mining or development of oil, gas and other minerals on said property.

22. Before exercising any of the rights herein granted, Grantee shall contact Mr. Raymond Bruce at 318-824-1260 or Mr. Worrel B. Johnson at 318-734-3012.

The Grantee, its successors and assigns, is hereby expressly given and granted the right to assign said right-of-way and easement or any part thereof, or interest therein. The same shall be divisible among two or more owners as to any right or rights granted hereunder so that each assignee or owner shall have the right and privileges herein granted to be owned and enjoyed in common or severally.

TO HAVE AND TO HOLD unto Grantee, its successors, or assigns, until the abandonment of the pipeline to be constructed on the right-of-way herein granted. Failure of Grantee to use the line for eighteen

(18) consecutive months shall constitute an abandonment of the pipeline and it shall then become the property of Grantor, however, Grantee has the option to remove pipeline within this period.

This agreement will be executed in multiple counter-parts, each of which shall be an original document binding upon the Grantors who execute same whether or not said right-of-way is ultimately signed by all Grantors.

IN TESTIMONY WHEREOF, Grantor has executed this grant of right-of-way in the presence of the undersigned competent witnesses on this _____day of _____, 1981.

PATRICIA GAY BRUCE HUFF, of full age of majority, whose mailing address is 214 Morton Street, Jennings, Louisiana; and

NELIA KAREN BRUCE GOLDMAN, off full age of majority, whose mailing address is 214 Pinehurst, Monroe, Louisiana,

hereinafter called "Grantor", for and in consideration of the sum of Fifty Thousand and No/100 ($50,000.00) Dollars, and other good and valuable consideration, cash in hand paid, the receipt of which is hereby acknowledged, does hereby grant, sell and convey unto Michigan Wisconsin Pipe Line Company hereinafter referred to as "Grantee", its successors and assigns, the right to lay, construct, maintain, inspect, repair, operate, remove or abandon in place one (1) pipeline for the transportation of oil, petroleum products, natural gas and all by-products thereof, under and across the following described land, to-wit:

A tract of land situated in Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana, except that portion lying in a triangular form West of the East boundary line of Section 14, if extended through said Section 39.

The pipeline shall be laid as shown on the plat attached hereto and marked Exhibit "A" and made a part hereof.

The right-of-way granted herein shall have a width of 75 feet being 25 feet on the East side of the centerline and 50 feet on the West side of the centerline of the right-of-way during construction, to revert to a permanent width of 50 feet being 25 feet on each side of the center-line of the right-of-way, all as shown on the plat attached hereto as Exhibit "A". There is also granted extra work space at road crossings

as shown on the plat attached hereto as Exhibit "A". The extra work space shall be used only during construction of the pipeline and all rights thereto shall terminate following construction and clean-up.

There are included in this grant the rights of ingress and egress for the purpose of constructing, inspecting and repairing the said line, but except for emergency repairs, said rights of ingress and egress shall be strictly limited to the right-of-way herein granted.

It is expressly agreed and understood that Grantor retains and shall have the right fully to use and enjoy the above described land, subject to the right of easement herein granted unto Grantee, including, by way of illustration but not of way of limitation, the right to pasture and to farm the surface of the land. Grantor agrees not to construct nor permit to be constructed any house, building or other structure within the permanent 50 foot right-of-way herein granted. It is also agreed that Grantee shall have the right from time to time to cut or remove all trees, undergrowth or other obstruction on or within the peramnent right-of-way granted hereby that, in its judgment, may injure, endanger or interfere with the exercise by Grantee of the rights and privileges herein granted.

Grantee agrees to pay Grantor and/or Grantor's tenants for all damages that may be caused from the exercise of the rights herein granted by Grantee, its agents, servants, employees, contractors, or sub-contractor.

As additional consideration for the grant of this servitude and right-of-way Grantee agrees:

1. That said pipeline shall be buried at least thirty-six (36") inches below the surface of the ground measured from the surface of the ground to the top of the pipe. There shall be no above ground installations on the land, except for vents and pipeline markers, and these shall be placed only on exterior boundary lines or roadcrossings.

2. During construction of said pipeline, Grantee shall be limited to the use of a strip of land seventy-five (75') feet in width and extending across the above described land along the route herein above referred to.

3. Upon completion of construction of the pipeline, the right-of-way acquired by Grantee herein shall revert in width to fifty (50') feet.

4. That Grantee, before severing or cutting fences of Grantor at each point where same are to be severed or cut, will staunchly cross-brace the two panels, the one immediately on either side of the point of severance, so as to prevent unnecessary sag in the remaining portion of such fence or fences. Grantee also agrees that such fences as have been cut will be closed at all times except when construction work underway necessitates an opening therein; following construction such fences which are cut shall be re-built with 4 strand barbed wire and creosoted posts.

5. All trenches shall be back-filled, after being first pumped dry in cultivated lands, after the installation of said pipeline and in case of the abandonment and/or expiration of this grant of servitude for any cause or reason, Grantee agrees that all ditches and debris caused by the construction or removal operation must be filled, cleared and the land restored as near as possible to its original condition.

6. Any private road or roads of Grantor which are cut by Grantee shall be restored to as equal or better condition as presently exists and made available for passage as soon as practical. Grantee further acknowledges that it has no right to the use of any such roads without the prior consent of Grantor.

7. This grant of right-of-way and easement is limited to one pipeline, as herein described, and for the use herein provided and there shall be no other use thereof, such as the erection of pole lines.

8. Grantee agrees to indemnify and hold Grantors harmless against any loss or liability on account of injuries to persons, including death, and damages to the property of others, and all costs and expenses incident thereto arising from the exercise of Grantee of its rights hereunder or any defect in or failure of its pipeline or other facility constructed by Grantee hereunder. In the event a suit is brought against Grantors to recover for, or on account of, any such damage, injury, or death, Grantee will, at Grantors' request, appear and defend such suit at its sole cost and expense and will pay any judgment that may be entered against Grantors therein when said suit is finally determined; provided that, for this provision to be effective, Grantors must give Grantee adequate and timely notice of the filing of such suit if Grantee is not itself made a defendant.

9. The pipeline shall be constructed across drainage and irrigation canals on the above described property by boring beneath them. The pipeline shall be buried at least five (5') feet below the bottom of said drainage ditch or irrigation canals.

10. Grantor shall have the right to place along, across and over said right-of-way and easement as many roads, streets, railroad tracks, sidewalks, passage-ways, electric light and power lines, water lines, sewer lines, telephone lines and telephone poles, and any and all other utilities as said Grantor may desire, provided, however, that if the same are placed along, as distinguished from across said easement, they shall not be placed within twenty (20') feet of the pipeline of Grantee.

11. The pipeline shall not exceed thirty (30") inches inside diameter.

12. The pipeline shall be constructed and the premises resotred to its former condition as nearly as practical not later than March 15th of any given year, but before December 31, 1983.

13. In addition to the right-of-way and other rights herein granted, Grantee shall have the right to the use of the "temporary working space" and "extra work space" shown on the plat attaced hereto. Following construction of the pipeline, Grantee's right to the use of such temporary work space and extra work space shall terminate.

14. Grantee agrees that in the event the construction, replacement or removal of a pipeline occurs during the flooding of the rice fields, Grantee agrees to provide for the fluming of the water across the pipeline ditch and/or right-of-way so that the pipeline construction will not interfere with water in the rice fields remaining level, and levees necessary to keep the water from running off the land will be built along the right-of-way. An extra width is granted herein to provide space to make levees on the outside of right-of-way and work areas. This width will be computed on acreage basis and payment made to Grantor for crop loss on this acreage.

15. During construction Grantee shall construct at its expense, where necessary, vehicular crossings over and across the right-of-way for Grantor's use in crossing from one side of the right-of-way to the other with farm implements and machinery such as tractors, trucks, discs, etc.

16. In the construction, maintenance and operation of the said pipeline, Grantee agrees to comply with all regulations and directives of state and federal agencies having authority in the premises.

17. Grantee expressly agrees that following construction, should any of Grantor's farm equipment or machinery become bogged down or be damaged, or both, while traversing the right-of-way then Grantee shall co-operate with Grantor in remedying the situation and/or repairing the damage, or both.

18. The above recited consideraiton this day paid by Grantee to Grantor is accepted by Grantor in full payment, settlement and satisfaction for right-of way, temporary and permanent, for the right to the use of temporary working space, for all severance damages, and for damages caused because of Grantee's exercise of the initial rights herein granted. Grantee will be responsible for all subsequent damages resulting from Grantee's exercising its rights herein under.

19. It is also agreed and understood that Grantee will attempt to separate the top soil by trenching to a depth of approximately ten (10") inches with a conventional trenching machine; Grantee will then remove the subsoil in a second trenching operation. In the back filling operation, the subsoil will be replaced first and then the top soil. A dragline shall not be used for trenching or digging operations, other than at pipeline and canal crossing. An additional space is herein provided parallel to and on the East side of construction right-of-way for the placement of top soil in this operation.

20. No valves, fittings, meters and other equipment shall be installed on or in connection with the said pipeline without the written consent of the Grantor; and no installations whatsoever shall be made above ground, except that cathodic test wires may be installed at outside line fence lines.

21. This grant is made subject to any and all previous rights-of-way and/or servitudes, oil, gas, mineral lease or leases and mortgages or mortgages, and rights of Grantor's tenants, if any, presently affecting said above described property, and Grantee agrees that the exercise by it of this servitude will not interfere with any exploration, mining or development of oil, gas and other minerals on said property.

22. Before exercising any of the rights herein granted, Grantee shall contact Mr. Raymond Bruce at 318-824-1260 or Mr. Worrel B. Johnson at 318-734-3012.

The Grantee, its successors and assigns, is hereby expressly given and granted the right to assign said right-of-way and easement or any part thereof, or interest therein. The same shall be divisible among two or more owners as to any right or rights granted hereunder so that each assignee or owner shall have the right and privileges herein granted to be owned and enjoyed in common or severally.

TO HAVE AND TO HOLD unto Grantee, its successors, or assigns, until the abandonment of the pipeline to be constructed on the right-of-way herein granted. Failure of Grantee to use the line for eighteen

(18) consecutive months shall constitute an abandonment of the pipeline and it shall then become the property of Grantor, however, Grantee has the option to remove pipeline within this period.

This agreement will be executed in multiple counter-parts, each of which shall be an original document binding upon the Grantors who execute same whether or not said right-of-way is ultimately signed by all Grantors.

IN TESTIMONY WHEREOF, Grantor has executed this grant of right-of-way in the presence of the undersigned competent witnesses on this _____day of _____, 1981.

NELIA KAREN BRUCE GOLDMAN, off full age of majority, whose mailing address is 214 Pinehurst, Monroe, Louisiana,

hereinafter called "Grantor", for and in consideration of the sum of Fifty Thousand and No/100 ($50,000.00) Dollars, and other good and valuable consideration, cash in hand paid, the receipt of which is hereby acknowledged, does hereby grant, sell and convey unto Michigan Wisconsin Pipe Line Company hereinafter referred to as "Grantee", its successors and assigns, the right to lay, construct, maintain, inspect, repair, operate, remove or abandon in place one (1) pipeline for the transportation of oil, petroleum products, natural gas and all by-products thereof, under and across the following described land, to-wit:

A tract of land situated in Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana, except that portion lying in a triangular form West of the East boundary line of Section 14, if extended through said Section 39.

The pipeline shall be laid as shown on the plat attached hereto and marked Exhibit "A" and made a part hereof.

The right-of-way granted herein shall have a width of 75 feet being 25 feet on the East side of the centerline and 50 feet on the West side of the centerline of the right-of-way during construction, to revert to a permanent width of 50 feet being 25 feet on each side of the center-line of the right-of-way, all as shown on the plat attached hereto as Exhibit "A". There is also granted extra work space at road crossings

as shown on the plat attached hereto as Exhibit "A". The extra work space shall be used only during construction of the pipeline and all rights thereto shall terminate following construction and clean-up.

There are included in this grant the rights of ingress and egress for the purpose of constructing, inspecting and repairing the said line, but except for emergency repairs, said rights of ingress and egress shall be strictly limited to the right-of-way herein granted.

It is expressly agreed and understood that Grantor retains and shall have the right fully to use and enjoy the above described land, subject to the right of easement herein granted unto Grantee, including, by way of illustration but not of way of limitation, the right to pasture and to farm the surface of the land. Grantor agrees not to construct nor permit to be constructed any house, building or other structure within the permanent 50 foot right-of-way herein granted. It is also agreed that Grantee shall have the right from time to time to cut or remove all trees, undergrowth or other obstruction on or within the peramnent right-of-way granted hereby that, in its judgment, may injure, endanger or interfere with the exercise by Grantee of the rights and privileges herein granted.

Grantee agrees to pay Grantor and/or Grantor's tenants for all damages that may be caused from the exercise of the rights herein granted by Grantee, its agents, servants, employees, contractors, or sub-contractor.

As additional consideration for the grant of this servitude and right-of-way Grantee agrees:

1. That said pipeline shall be buried at least thirty-six (36") inches below the surface of the ground measured from the surface of the ground to the top of the pipe. There shall be no above ground installations on the land, except for vents and pipeline markers, and these shall be placed only on exterior boundary lines or roadcrossings.

2. During construction of said pipeline, Grantee shall be limited to the use of a strip of land seventy-five (75') feet in width and extending across the above described land along the route herein above referred to.

3. Upon completion of construction of the pipeline, the right-of-way acquired by Grantee herein shall revert in width to fifty (50') feet.

4. That Grantee, before severing or cutting fences of Grantor at each point where same are to be severed or cut, will staunchly cross-brace the two panels, the one immediately on either side of the point of severance, so as to prevent unnecessary sag in the remaining portion of such fence or fences. Grantee also agrees that such fences as have been cut will be closed at all times except when construction work underway necessitates an opening therein; following construction such fences which are cut shall be rebuilt with 4 strand barbed wire and creosoted posts.

5. All trenches shall be back-filled, after being first pumped dry in cultivated lands, after the installation of said pipeline and in case of the abandonment and/or expiration of this grant of servitude for any cause or reason, Grantee agrees that all ditches and debris caused by the construction or removal operation must be filled, cleared and the land restored as near as possible to its original condition.

6. Any private road or roads of Grantor which are cut by Grantee shall be restored to as equal or better condition as presently exists and made available for passage as soon as practical. Grantee further acknowledges that it has no right to the use of any such roads without the prior consent of Grantor.

7. This grant of right-of-way and easement is limited to one pipeline, as herein described, and for the use herein provided and there shall be no other use thereof, such as the erection of pole lines.

8. Grantee agrees to indemnify and hold Grantors harmless against any loss or liability on account of injuries to persons, including death, and damages to the property of others, and all costs and expenses incident thereto arising from the exercise of Grantee of its rights hereunder or any defect in or failure of its pipeline or other facility constructed by Grantee hereunder. In the event a suit is brought against Grantors to recover for, or on account of, any such damage, injury, or death, Grantee will, at Grantors' request, appear and defend such suit at its sole cost and expense and will pay any judgment that may be entered against Grantors therein when said suit is finally determined; provided that, for this provision to be effective, Grantors must give Grantee adequate and timely notice of the filing of such suit if Grantee is not itself made a defendant.

9. The pipeline shall be constructed across drainage and irrigation canals on the above described property by boring beneath them. The pipeline shall be buried at least five (5') feet below the bottom of said drainage ditch or irrigation canals.

10. Grantor shall have the right to place along, across and over said right-of-way and easement as many roads, streets, railroad tracks, sidewalks, passage-ways, electric light and power lines, water lines, sewer lines, telephone lines and telephone poles, and any and all other utilities as said Grantor may desire, provided, however, that if the same are placed along, as distinguished from across said easement, they shall not be placed within twenty (20') feet of the pipeline of Grantee.

11. The pipeline shall not exceed thirty (30") inches inside diameter.

12. The pipeline shall be constructed and the premises resotred to its former condition as nearly as practical not later than March 15th of any given year, but before December 31, 1983.

13. In addition to the right-of-way and other rights herein granted, Grantee shall have the right to the use of the "temporary working space" and "extra work space" shown on the plat attaced hereto. Following construction of the pipeline, Grantee's right to the use of such temporary work space and extra work space shall terminate.

14. Grantee agrees that in the event the construction, replacement or removal of a pipeline occurs during the flooding of the rice fields, Grantee agrees to provide for the fluming of the water across the pipeline ditch and/or right-of-way so that the pipeline construction will not interfere with water in the rice fields remaining level, and levees necessary to keep the water from running off the land will be built along the right-of-way. An extra width is granted herein to provide space to make levees on the outside of right-of-way and work areas. This width will be computed on acreage basis and payment made to Grantor for crop loss on this acreage.

15. During construction Grantee shall construct at its expense, where necessary, vehicular crossings over and across the right-of-way for Grantor's use in crossing from one side of the right-of-way to the other with farm implements and machinery such as tractors, trucks, discs, etc.

16. In the construction, maintenance and operation of the said pipeline, Grantee agrees to comply with all regulations and directives of state and federal agencies having authority in the premises.

17. Grantee expressly agrees that following construction, should any of Grantor's farm equipment or machinery become bogged down or be damaged, or both, while traversing the right-of-way then Grantee shall cooperate with Grantor in remedying the situation and/or repairing the damage, or both.

18. The above recited consideraiton this day paid by Grantee to Grantor is accepted by Grantor in full payment, settlement and satisfaction for right-of way, temporary and permanent, for the right to the use of temporary working space, for all severance damages, and for damages caused because of Grantee's exercise of the initial rights herein granted. Grantee will be responsible for all subsequent damages resulting from Grantee's exercising its rights herein under.

19. It is also agreed and understood that Grantee will attempt to separate the top soil by trenching to a depth of approximately ten (10") inches with a conventional trenching machine; Grantee will then remove the subsoil in a second trenching operation. In the back filling operation, the subsoil will be replaced first and then the top soil. A dragline shall not be used for trenching or digging operations, other than at pipeline and canal crossing. An additional space is herein provided parallel to and on the East side of construction right-of-way for the placement of top soil in this operation.

20. No valves, fittings, meters and other equipment shall be installed on or in connection with the said pipeline without the written consent of the Grantor; and no installations whatsoever shall be made above ground, except that cathodic test wires may be installed at outside line fence lines.

21. This grant is made subject to any and all previous rights-of-way and/or servitudes, oil, gas, mineral lease or leases and mortgages or mortgages, and rights of Grantor's tenants, if any, presently affecting said above described property, and Grantee agrees that the exercise by it of this servitude will not interfere with any exploration, mining or development of oil, gas and other minerals on said property.

22. Before exercising any of the rights herein granted, Grantee shall contact Mr. Raymond Bruce at 318-824-1260 or Mr. Worrel B. Johnson at 318-734-3012.

The Grantee, its successors and assigns, is hereby expressly given and granted the right to assign said right-of-way and easement or any part thereof, or interest therein. The same shall be divisible among two or more owners as to any right or rights granted hereunder so that each assignee or owner shall have the right and privileges herein granted to be owned and enjoyed in common or severally.

TO HAVE AND TO HOLD unto Grantee, its successors, or assigns, until the abandonment of the pipeline to be constructed on the right-of-way herein granted. Failure of Grantee to use the line for eighteen

(18) consecutive months shall constitute an abandonment of the pipeline and it shall then become the property of Grantor, however, Grantee has the option to remove pipeline within this period.

This agreement will be executed in multiple counter-parts, each of which shall be an original document binding upon the Grantors who execute same whether or not said right-of-way is ultimately signed by all Grantors.

IN TESTIMONY WHEREOF, Grantor has executed this grant of right-of-way in the presence of the undersigned competent witnesses on this _____day of _____, 1981.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of August 11, 19 82

by and between BERNICE FOREMAN BOUDREAUX, widow of Mark A. Boudreaux, whose address is 3823 Fox Run Drive, Apt. 1329, Cincinnati, Ohio 45236; and MARK W. BOUDREAUX, husband of Jennell Guidry, whose address is 2601 Petworth Court, Cincinnati, Ohio 45236; and WAYNE BOUDREAUX, husband of Vera Breaux, whose address is 1165 Ivanhoe Dr., Muskegan, Michigan 49445, the said MARK W. BOUDREAUX and WAYNE BOUDREAUX joining herein for all purposes.
herein called "Lessor" (whether one or more) and LYNAL, INC., P. O. Box 52185, Lafayette, Louisiana 70505
hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of CONSIDERATION ONE HUNDRED DOLLARS AND OTHER VALUABLE/ ($100.00 & OVC) hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows; to-wit:

TOWNSHIP 10 SOUTH, RANGE 3 WEST

Sixty (60) acres, more or less, situated in Irregular Section 13: bounded on the North and East by other lands of Lessor not herein leased and Section 39, Township 10 South, Range 3 West; on the South by Jennings Norwood Farm and Irrigation Company, Inc. and Forest M. Golden and others; on the West by lands owned now or formerly by Albert Brousis.

Wherever the designation "one-eighth (1/8)" appears in paragraph 7 below, the designation "one-fifth (1/5)" shall be substituted therefor.

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lesser price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably possible; and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

439315

RECEIVED AND FILED
1982 SEP 15 AM 9
CLERK OF COURT
JEFFERSON DAVIS PARISH

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 60 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on August 11, 19 83, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred Fifty and No/100-- Dollars ($150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods One Hundred Fifty and No/100------ Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE ATTACHED RENTAL DIVISION ORDER Bank of _____ which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. Anything to the contrary herein notwithstanding, it is provided that if any portion of the lands held hereunder should be unitized with other lands, then unit drilling or reworking operations on or unit production from any unit shall only maintain this lease as to the land included in such unit. It is further provided, however, that when this lease is being maintained as to a unit or units by such unit operations or production, lessee's rights hereunder may also be maintained as to all or any part of the land not included in any such unit by rental payments as to such outside land, or by non-unit drilling or reworking operations or non-unitized production (whether the well is within or without the boundaries of a unit), in the same manner as is herein elsewhere provided for maintaining lessee's rights hereunder; and lessee's rights as to such outside land may be so maintained by rental payments during and for TWO (2) years after the end of the primary term of this lease. In connection with the foregoing, it is also provided that if lessee's rights are not being separately maintained as to the acreage outside of such unit or units on the date of the commencement of the unit operations or of the unit production, whichever occurs first, then such commencement date shall be considered equivalent to a date of cessation of production from such outside lands for the purpose of fixing the delay for the payment of rentals or for beginning operations or production thereon. It is also further provided that unitization of any portion of the lands held hereunder shall not affect lessee's right to maintain this lease by shut-in gas payments as herein elsewhere provided for; but any such shut-in payment so made (whether the shut-in well be within or without a unit) shall be based on and shall maintain lessee's rights in all the land held hereunder except any part of said land as to which this lease is being separately maintained by operations, production or rental payments as heretofore provided for in this paragraph.

The consideration paid by Lessee is accepted as full and adequate consideration for all rights, options and privileges herein granted.

This lease may be executed in counterpart or may be ratified by separate instruments and shall be binding on all parties who so execute or ratify it whether or not it is executed by all of the parties herein named.

Lessor agrees that each of the above named parties owns and shall be entitled to receive that fractional part of the delay rentals set out opposite his or her name below. Each respective Lessor designates the bank named opposite his or her name as the depository for payment or tender of his or her proportionate part of the rentals in accordance with the provisions of this lease.

"SUBJECT TO ATTACHED RIDER"

446

herein called "Lessor" (whether one or more) and LYNAL, INC., P. O. Box 52185, Lafayette, Louisiana 70505 hereinafter called "Lessee", witnesseth, that:

CONSIDERATION

Lessor, in consideration of the sum of ONE HUNDRED DOLLARS AND OTHER VALUABLE/ ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

TOWNSHIP 10 SOUTH, RANGE 3 WEST

Sixty (60) acres, more or less, situated in Irregular Section 13: bounded on the North and East by other lands of Lessor not herein leased and Section 39, Township 10 South, Range 3 West; on the South by Jennings Norwood Farm and Irrigation Company, Inc. and Forest M. Golden and others; on the West by lands owned now or formerly by Albert Brousis.

Wherever the designation "one-eighth (1/8)" appears in paragraph 7 below, the designation "one-fifth (1/5)" shall be substituted therefor.

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lesser price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably possible; and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

RECEIVED AND FILED
2002 SEP 15 AM 9:03
CLERK OF COURT
JEFFERSON DAVIS PARISH

439316

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 60 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on August 11, 19 83, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred Fifty and No/100-- Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods, One Hundred Fifty and No/100----- Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE ATTACHED RENTAL DIVISION ORDER Bank of _____ which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. Anything to the contrary herein notwithstanding, it is provided that if any portion of the lands held hereunder should be unitized with other lands, then unit drilling or reworking operations on or unit production from any unit shall only maintain this lease as to the land included in such unit. It is further provided, however, that while this lease is being maintained as to a unit or units by such unit operations or production, lessee's rights hereunder may also be maintained as to all or any part of the land not included in any such unit by rental payments as to such outside land, or by non-unit drilling or reworking operations or non-unitized production (whether the well is within or without the boundaries of a unit), in the same manner as is herein elsewhere provided for maintaining lessee's rights hereunder; and lessee's rights as to such outside land may be so maintained by rental payments during and for TWO (2) years after the end of the primary term of this lease. In connection with the foregoing, it is also provided that if lessee's rights are not being separately maintained as to the acreage outside of such unit or units on the date of the commencement of the unit operations or of the unit production, whichever occurs first, then such commencement date shall be considered equivalent to a date of cessation of production from such outside lands for the purpose of fixing the delay for the payment of rentals or for beginning operations or production thereon. It is also further provided that unitization of any portion of the lands held hereunder shall not affect lessee's right to maintain this lease by shut-in gas payments as herein elsewhere provided for; but any such shut-in payment so made (whether the shut-in well be within or without a unit) shall be based on and shall maintain lessee's rights in all the land held hereunder except any part of said land as to which this lease is being separately maintained by operations, production or rental payments as heretofore provided for in this paragraph.

The consideration paid by Lessee is accepted as full and adequate consideration for all rights, options and privileges herein granted.

This lease may be executed in counterpart or may be ratified by separate instruments and shall be binding on all parties who so execute or ratify it whether or not it is executed by all of the parties herein named.

Lessor agrees that each of the above named parties owns and shall be entitled to receive that fractional part of the delay rentals set out opposite his or her name below. Each respective Lessor designates the bank named opposite his or her name as the depository for payment or tender of his or her proportionate part of the rentals in accordance with the provisions of this lease.

OIL, GAS AND MINERAL LEASE

451

THIS AGREEMENT, entered into effective as of August 11 19 82,

by and between MILTON F. BOURDIER, husband of Margaret Badgley, whose address is 13270 Web Lane, Sugarland, Texas 77478.

RECEIVED AND FILED
1982 SEP 15 AM 9 00
CLERK OF COURT
JEFFERSON DAVIS PARISH

herein called "Lessor" (whether one or more) and LYNAL, INC., P. O. Box 52185, Lafayette, Louisiana

hereinafter called "Lessee", witnesseth, that:

CONSIDERATION

Lessor, in consideration of the sum of ONE HUNDRED DOLLARS AND OTHER VALUABLE/ ($ 100.00 & OVC hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

TOWNSHIP 10 SOUTH, RANGE 3 WEST

Sixty (60) acres, more or less, situated in Irregular Section 13: bounded on the North and East by other lands of Lessor not herein leased and Section 39, Township 10 South, Range 3 West; on the South by Jennings Norwood Farm and Irrigation Company, Inc. and Forest M. Golden and others; on the West by lands owned now or formerly by Albert Brousis.

Wherever the designation "one-eighth (1/8)" appears in paragraph 7 below, the designation "one-fifth (1/5)" shall be substituted therefor.

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lesser price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably possible; and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

439317

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 60 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on August 11 19 83, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred Fifty and No/100-- Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods One Hundred Fifty and No/100----- Dollars ($150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE ATTACHED RENTAL DIVISION ORDER XXXXXX which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. Anything to the contrary herein notwithstanding, it is provided that if any portion of the lands held hereunder should be unitized with other lands, then unit drilling or reworking operations on or unit production from any unit shall only maintain this lease as to the land included in such unit. It is further provided, however, that when this lease is being maintained as to a unit or units by such unit operations or production, lessee's rights hereunder may also be maintained as to all or any part of the land not included in any such unit by rental payments as to such outside land, or by non-unit drilling or reworking operations or non-unitized production (whether the well is within or without the boundaries of a unit). In the same manner as is herein elsewhere provided for maintaining lessee's rights hereunder; and lessee's rights as to such outside land may be so maintained by rental payments during and for two (2) years after the end of the primary term of this lease. In connection with the foregoing, it is also provided that if lessee's rights are not being separately maintained as to the acreage outside of such unit or units on the date of the commencement of the unit operations or of the unit production, whichever occurs first, then such commencement date shall be considered equivalent to a date of cessation of production from such outside lands for the purpose of fixing the delay for the payment of rentals or for beginning operations or production thereon. It is also further provided that unitization of any portion of the lands held hereunder shall not affect lessee's right to maintain this lease by shut-in gas payments as herein elsewhere provided for; but any such shut-in payment so made (whether the shut-in well be within or without a unit) shall be based on and shall maintain lessee's rights in all the land held hereunder except any part of said land as to which this lease is being separately maintained by operations, production or rental payments as heretofore provided for in this paragraph.

The consideration paid by Lessee is accepted as full and adequate consideration for all rights, options and privileges herein granted.

This lease may be executed in counterpart or may be ratified by separate instruments and shall be binding on all parties who so execute or ratify it whether or not it is executed by all of the parties herein named.

Lessor agrees that each of the above named parties owns and shall be entitled to receive that fractional part of the delay rentals set out opposite his or her name below. Each respective Lessor designates the bank named opposite his or her name as the depository for payment or tender of his or her proportionate part of the rentals in accordance with the provisions of this lease.

PATRICIA GAY BRUCE HUFF, of full age of majority, whose mailing address is 214 Morton Street, Jennings, LA; and

NELIA KAREN BRUCE GOLDMAN, of full age of majority, whose mailing address is 2410 Pinehurst, Monroe, LA,

hereinafter referred to as "Lessors" and,

CASTEX SYSTEMS, INC., a Louisiana corporation, domiciled in Jefferson Davis Parish, LA, represented herein by its duly authorized President, BEECHER D. HOWARD,

hereinafter referred to as "Lessee", as follows, to-wit:

I.

Lessors hereby lease unto Lessee the following described property located in Jefferson Davis Parish, LA, to-wit:

Ten (10) acres to be surveyed for the exact description to be located in the Northwest corner of Section 17, Township 10 South, Range 2 West, La. Mer., surrounding the well to be used for salt water disposal.

II.

This lease shall also include the use of the road leading to the leased premises from Louisiana Highway 1126. Lessee obligates itself to maintain the road.

III.

This lease is for the purpose of using the well located thereon as a salt water disposal well and the storage of drilling fluids.

IV.

This lease is for a term of 5 years beginning January 1, 1982, and ending December 31, 1986, provided, however, Lessee is given the option to renew this lease for an additional 5 years on the same terms and conditions, however, the rental shall be negotiated. Should Lessee desire to exercise this option, he shall notify Lessors in writing at least 60 days prior to December 31, 1986. Notice shall be sent to either Mr. Worrell B. Johnson, P.O. Box 388, Welsh, LA 70591, or Mr. R. Raymond Bruce, 439 E. Academy, Jennings, LA. 70546.

V.

This lease is made for and in consideration of a yearly rental of $1100.00 per year, payable yearly in advance.

VI.

Lessors will not be responsible for any damages of any sort to any persons or property, however occasioned; and Lessee shall hold Lesssors harmless from any claims by or or liability arising out of the use of the leased premises by Lessee. Lessee shall carry public liability on the leased presmises in the minimum amount of $1,000,000 for each occurrence.

VII.

Should Lessee at any time violate any of the conditions of this lease or fail to comply with any of Lessee's obligations hereunder, or fail to pay the rent at maturity, as stipulated, or upon the filing of a bankruptcy, receivership or respite petition by or against Lessee, or upon Lessee's suspension, failure or insolvency, the rent for the whole unexpired term of this lease shall, without putting Lessee in default, at once become due and exigible; and in such event, Lessor shall have the option either at once to demand the entire rent for the whole term or to immediately cancel this lease, without putting Lessee in default; Lessee to remain responsible for all damages or losses suffered by Lessor; Lessee hereby assenting thereto and expressly waiving the legal notice to vacate the premises. Failure to strictly and promptly enforce these conditions shall not operate as a waiver of Lessors' rights, Lessors expressly reserving the right to always

enforce prompt payment of the rent or to cancel this lease regardless of any indulgences or extensions previously granted. Failure to comply with any condition or obligation of this lease shall make Lessee liable for any loss of damage sustained by Lessors.

VIII.

Lessee agrees to pay reasonable attorneys fees and court costs should it become necessary for Lessors to employ an attorney to recover the rent, or for or on account of any breach of, or to enforce or interpret any of the provisions of this lease, or for the recovery of the possession of the leased premises.

IX.

At the termination of this lease, Lessee agrees to restore the premises to their original condition as near as practicable, including but not limited to the removal of all pipes, buildings, the filling in of all pits and the leveling of all levees.

X.

This agreement will be executed in multiple counterparts, each of which shall be an original document binding upon the party or parties so signing.

IN TESTIMONY WHEREOF, Lessors and Lessee have executed this instrument in the presence of the undersigned competent witnesses, on the dates and at the places set forth in the acknowledgments.

RESOLUTION

RESOLVED by the Board of Directors of the corporation that it lease from the Johnson-Boudreaux Heirs 10 acres of property owned by them and located in the Northwest corner of Section 17, Township 10 South, Range 2 West, La. Mer.

BE IT FURTHER RESOLVED that Beecher D. Howard, President of the corporation be and he is hereby authorized, empowered and directed to execute the lease agreement to contain such terms and conditions and for a price as he deems necessary and advisable in his uncontrolled discretion.

CERTIFICATE

I, REUBEN RAYMOND BRUCE, Secretary-Treasurer of CASTEX SYSTEMS, INC., do hereby certify that the above and foregoing is a true and correct copy of a resolution adopted at a meeting of the Board of Directors of said corporation held on November 20, 1981, at which meeting all of the members of the Board of Directors were present in person and waived notice of the meeting and each voted unanimously in favor thereof. This resolution has not been modified or rescinded and is still in full force and effect.

Jennings, Louisiana, this 25 day of January, 1982.

RAYNELL MARIE BRUCE KIBODEAUX, of full age of majority, whose mailing address is 1641 Prarie Mark, Houston, TX;

PATRICIA GAY BRUCE HUFF, of full age of majority, whose mailing address is 214 Morton Street, Jennings, LA; and

NELIA KAREN BRUCE GOLDMAN, of full age of majority, whose mailing address is 214 Pinehurst, Monroe, LA,

hereinafter referred to as "Lessors" and,

CASTEX SYSTEMS, INC., a Louisiana corporation, domiciled in Jefferson Davis Parish, LA, represented herein by its duly authorized President, BEECHER D. HOWARD,

hereinafter referred to as "Lessee", as follows, to-wit:

I.

Lessors hereby lease unto Lessee the following described property located in Jefferson Davis Parish, LA, to-wit:

Ten (10) acres to be surveyed for the exact description to be located in the Northwest corner of Section 17, Township 10 South, Range 2 West, La. Mer., surrounding the well to be used for salt water disposal.

II.

This lease shall also include the use of the road leading to the leased premises from Louisiana Highway 1126. Lessee obligates itself to maintain the road.

III.

This lease is for the purpose of using the well located thereon as a salt water disposal well and the storage of drilling fluids.

IV.

This lease is for a term of 5 years beginning January 1, 1982, and ending December 31, 1986, provided, however, Lessee is given the option to renew this lease for an additional 5 years on the same terms and conditions, however, the rental shall be negotiated. Should Lessee desire to exercise this option, he shall notify Lessors in writing at least 60 days prior to December 31, 1986. Notice shall be sent to either Mr. Worrell B. Johnson, P.O. Box 388, Welsh, LA 70591, or Mr. R. Raymond Bruce, 439 E. Academy, Jennings, LA. 70546.

V.

This lease is made for and in consideration of a yearly rental of $1100.00 per year, payable yearly in advance.

VI.

Lessors will not be responsible for any damages of any sort to any persons or property, however occasioned; and Lessee shall hold Lesssors harmless from any claims by or or liability arising out of the use of the leased premises by Lessee. Lessee shall carry public liability on the leased presmises in the minimum amount of $1,000,000 for each occurrence.

VII.

Should Lessee at any time violate any of the conditions of this lease or fail to comply with any of Lessee's obligations hereunder, or fail to pay the rent at maturity, as stipulated, or upon the filing of a bankruptcy, receivership or respite petition by or against Lessee, or upon Lessee's suspension, failure or insolvency, the rent for the whole unexpired term of this lease shall, without putting Lessee in default, at once become due and exigible, and in such event, Lessor shall have the option either at once to demand the entire rent for the whole term or to immediately cancel this lease, without putting Lessee in default; Lessee to remain responsible for all damages or losses suffered by Lessor; Lessee hereby assenting thereto and expressly waiving the legal notice to vacate the premises. Failure to strictly and promptly enforce these conditions shall not operate as a waiver of Lessors' rights, Lessors expressly reserving the right to always

enforce prompt payment of the rent or to cancel this lease regardless of any indulgences or extensions previously granted. Failure to comply with any condition or obligation of this lease shall make Lessee liable for any loss of damage sustained by Lessors.

VIII.

Lessee agrees to pay reasonable attorneys fees and court costs should it become necessary for Lessors to employ an attorney to recover the rent, or for or on account of any breach of, or to enforce or interpret any of the provisions of this lease, or for the recovery of the possession of the leased premises.

IX.

At the termination of this lease, Lessee agrees to restore the premises to their original condition as near as practicable, including but not limited to the removal of all pipes, buildings, the filling in of all pits and the leveling of all levees.

X.

This agreement will be executed in multiple counterparts, each of which shall be an original document binding upon the party or parties so signing.

IN TESTIMONY WHEREOF, Lessors and Lessee have executed this instrument in the presence of the undersigned competent witnesses, on the dates and at the places set forth in the acknowledgments.

Box 388, Welsh, LA 70591, or Mr. R. Raymond Bruce, 439 E. Academy, Jennings, LA. 70546.

V.

This lease is made for and in consideration of a yearly rental of $1100.00 per year, payable yearly in advance.

VI.

Lessors will not be responsible for any damages of any sort to any persons or property, however occasioned; and Lessee shall hold Lesssors harmless from any claims by or or liability arising out of the use of the leased premises by Lessee. Lessee shall carry public liability on the leased presmises in the minimum amount of $1,000,000 for each occurrence.

VII.

Should Lessee at any time violate any of the conditions of this lease or fail to comply with any of Lessee's obligations hereunder, or fail to pay the rent at maturity, as stipulated, or upon the filing of a bankruptcy, receivership or respite petition by or against Lessee, or upon Lessee's suspension, failure or insolvency, the rent for the whole unexpired term of this lease shall, without putting Lessee in default, at once become due and exigible, and in such event, Lessor shall have the option either at once to demand the entire rent for the whole term or to immediately cancel this lease, without putting Lessee in default; Lessee to remain responsible for all damages or losses suffered by Lessor; Lessee hereby assenting thereto and expressly waiving the legal notice to vacate the premises. Failure to strictly and promptly enforce these conditions shall not operate as a waiver of Lessors' rights, Lessors expressly reserving the right to always

enforce prompt payment of the rent or to cancel this lease regardless of any indulgences or extensions previously granted. Failure to comply with any condition or obligation of this lease shall make Lessee liable for any loss of damage sustained by Lessors.

VIII.

Lessee agrees to pay reasonable attorneys fees and court costs should it become necessary for Lessors to employ an attorney to recover the rent, or for or on account of any breach of, or to enforce or interpret any of the provisions of this lease, or for the recovery of the possession of the leased premises.

IX.

At the termination of this lease, Lessee agrees to restore the premises to their original condition as near as practicable, including but not limited to the removal of all pipes, buildings, the filling in of all pits and the leveling of all levees.

X.

This agreement will be executed in multiple counterparts, each of which shall be an original document binding upon the party or parties so signing.

IN TESTIMONY WHEREOF, Lessors and Lessee have executed this instrument in the presence of the undersigned competent witnesses, on the dates and at the places set forth in the acknowledgments.

PATRICIA GAY BRUCE HUFF, of full age of majority, whose mailing address is 214 Morton Street, Jennings, LA; and

NELIA KAREN BRUCE GOLDMAN, of full age of majority, whose mailing address is 2410 Pinehurst, Monroe, LA,

hereinafter referred to as "Lessors" and,

CASTEX SYSTEMS, INC., a Louisiana corporation, domiciled in Jefferson Davis Parish, LA, represented herein by its duly authorized President, BEECHER D. HOWARD,

hereinafter referred to as "Lessee", as follows, to-wit:

I.

Lessors hereby lease unto Lessee the following described property located in Jefferson Davis Parish, LA, to-wit:

Ten (10) acres to be surveyed for the exact description to be located in the Northwest corner of Section 17, Township 10 South, Range 2 West, La. Mer., surrounding the well to be used for salt water disposal.

II.

This lease shall also include the use of the road leading to the leased premises from Louisiana Highway 1126. Lessee obligates itself to maintain the road.

III.

This lease is for the purpose of using the well located thereon as a salt water disposal well and the storage of drilling fluids.

IV.

This lease is for a term of 5 years beginning January 1, 1982, and ending December 31, 1986, provided, however, Lessee is given the option to renew this lease for an additional 5 years on the same terms and conditions, however, the rental shall be negotiated. Should Lessee desire to exercise this option, he shall notify Lessors in writing at least 60 days prior to December 31, 1986. Notice shall be sent to either Mr. Worrell B. Johnson, P.O. Box 388, Welsh, LA 70591, or Mr. R. Raymond Bruce, 439 E. Academy, Jennings, LA. 70546.

V.

This lease is made for and in consideration of a yearly rental of $1100.00 per year, payable yearly in advance.

VI.

Lessors will not be responsible for any damages of any sort to any persons or property, however occasioned; and Lessee shall hold Lesssors harmless from any claims by or or liability arising out of the use of the leased premises by Lessee. Lessee shall carry public liability on the leased presmises in the minimum amount of $1,000,000 for each occurrence.

VII.

Should Lessee at any time violate any of the conditions of this lease or fail to comply with any of Lessee's obligations hereunder, or fail to pay the rent at maturity, as stipulated, or upon the filing of a bankruptcy, receivership or respite petition by or against Lessee, or upon Lessee's suspension, failure or insolvency, the rent for the whole unexpired term of this lease shall, without putting Lessee in default, at once become due and exigible, and in such event, Lessor shall have the option either at once to demand the entire rent for the whole term or to immediately cancel this lease, without putting Lessee in default; Lessee to remain responsible for all damages or losses suffered by Lessor; Lessee hereby assenting thereto and expressly waiving

enforce prompt payment of the rent or to cancel this lease regardless of any indulgences or extensions previously granted. Failure to comply with any condition or obligation of this lease shall make Lessee liable for any loss of damage sustained by Lessors.

VIII.

Lessee agrees to pay reasonable attorneys fees and court costs should it become necessary for Lessors to employ an attorney to recover the rent, or for or on account of any breach of, or to enforce or interpret any of the provisions of this lease, or for the recovery of the possession of the leased premises.

IX.

At the termination of this lease, Lessee agrees to restore the premises to their original condition as near as practicable, including but not limited to the removal of all pipes, buildings, the filling in of all pits and the leveling of all levees.

X.

This agreement will be executed in multiple counterparts, each of which shall be an original document binding upon the party or parties so signing.

IN TESTIMONY WHEREOF, Lessors and Lessee have executed this instrument in the presence of the undersigned competent witnesses, on the dates and at the places set forth in the acknowledgments.

JEFFERSON DAVIS PARISH

PRIVATE ACT OF SALE

STATE OF LOUISIANA :

PARISH OF JEFFERSON DAVIS :

KNOW ALL MEN BY THESE PRESENTS:

That, OGDEN W. JOHNSON, JR., a single person, having been previously married to Carolyn Leonards, with whom he is divorced;

for and in consideration of the price and sum of TWENTY THOUSAND AND NO/100 ($20,000.00) DOLLARS, cash in hand paid, the receipt of which is hereby acknowledged and full acquittance and discharge granted therefor, does by these presents Grant, Bargain, Sell, Assign, Transfer, Convey, Setover and Deliver unto -

WORREL B. JOHNSON, husband of Dora Cary; Address:

all and singular the following described property situated in the Parish of Jefferson Davis, State of Louisiana, together with all the buildings, improvements, appurtenances and privileges thereon and thereto belonging, or in anywise appertaining, to-wit:

All of his undivided interest, regardless of fraction, in and to:

(a) Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, La, Meridian, except that portion lyingin triangular form west of the East boundary line of Section Fourteen (14) if extended through said Section Thirty-nine (39);

(b) Lot Two (2) of Fractional Section Thirteen (13) in Township Ten (10) South, Range Three (3) West, La. Meridian;

(c) Section Seventeen (17), Township Ten (10) South, Range Two (2) West, La. Meridian, (except the 328 acres more or less of swamp timber land lying in the Eastern portion thereof, which was sold by Jean Castex and others to A. S. Alston & Co., on February 14, 1922, by deed recorded in Jefferson Davis Parish, and which is shown by a Plat of Survey made by E. J. Mead, C. E., dated in 1921); including two tracts of prairie land along the North line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale to A. S. Alston & Co., and

(d) Section Eighteen (18), Township Ten (10) South, Range Two (2) West, La. Meridian, lying between the Southeast corner of the afore described Section Thirty-nine (39) on the West, and the Mermentau River on the East, all as per plat showing the above described property attached to Act No. 81759, by which Albert Sidney Johnson and Adolphe C. Boudreaux acquired the said property from Jean Castex, Jr., and which Act is recorded in Jefferson Davis Parish,Louisiana; LESS AND EXCEPT AND NOT INCLUDED in the afore described tract are those two ten acres parcels of property described as follows and designated as "First Exception" and "Second Exception", to-wit:

First Exception: That ten (10) acre parcel of land

444762

situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc., by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit:

Starting at the Northwest corner of Section Eighteen (18), Township Ten (10) South, Range Two (2) West, at a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line betweenTownship Ten (10) South, Range Two (2) and Three (3) West; thence South 51° 13' East 276.5 feet; thence South 53° 00' East 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe, the lower front corner of the Robira 10 acre tract for a point of beginning; thence following the right bank of the Mermentau River South 65° 30' East 450 feet; thence South 84° 00' East 250 feet; thence leaving the river and running South 37° 00' West 693.5 feet; thence North 72° 06' West 691.5 feet to lower side line of the Robira 10 acres; thence following said line North 37° 00' East 693.5 feet to place of beginning and containing ten (10) acres; as per plat by F. Shutts Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or ~~a~~ssigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

Second Exception: That certain parcel of land comprising ten (10) acres, more or less, situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and in Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the Records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit:

Beginning at a point 459 feet South of the corner between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence South 53° East 272.4 feet to the line between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West 921 feet South of the corner between the two said sections; thence South 53° East 327.6 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence North 37° East 726 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe on the right descending bank of the Mermentau River; thence North 53° West up to the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence South 37° West 358 feet to the point of beginning and containing ten (10) acres.

Mamie C. Johnson, widow of O. W. Johnson, Sr., appears herein for the sole purpose of conveying and transferring to the vendee herein all of her right, title and interest, including the usufruct of vendor's royalty interest in and to the above described property acquired by act of Donation Inter Vivos, dated July 10, 1959, recorded in Conveyance Book 234, Page 250, File # 255287, Records of Jefferson Davis Parish, Louisiana.

TO HAVE AND TO HOLD the above described and conveyed property, together with all appurtenances and improvements thereon and thereto belonging unto said

purchaser and to his heirs and assigns in full property forever, free from any lien, mortgage or encumbrance whatever, and with full and general warranty of title, and with full subrogation to all of the rights and actions in warranty against any and all former owners and vendors.

The said vendor states that all taxes on said property have been paid.

WITNESS the hand of said vendor at Welsh, Louisiana, in the presence of Beatrice Ferguson and Renee R. Watkins, competent witnesses on this 28th day of June, 1983.

PARISH OF JEFFERSON DAVIS:

ASSIGNMENT OF OIL, GAS AND MINERAL LEASE

AND

SALE OF WELLS AND EQUIPMENT

KNOW ALL MEN, That:

AMOCO PRODUCTION COMPANY, a foreign corporation authorized to do and doing business in Louisiana, appearing herein through J. H. Tharp, its duly authorized Attorney-in-Fact, whose address is P. O. Box 50879, New Orleans, Louisiana 70150 (hereinafter referred to as "Amoco"), for and in consideration of the sum of One Thousand and No/100 ($1,000.00) Dollars and other valuable considerations, the receipt and sufficiency of which is hereby acknowledged, does hereby sell, assign, transfer, and convey to PETROLEUM WELL SERVICES, INC., a Texas corporation, whose address is P. O. Box 1050, Sour Lake, Texas 77659 (hereinafter referred to as Assignee), without representation or warranty of any kind, either express or implied, and without recourse, not even for the return of the consideration paid therefor or its value, but with complete subrogation of all of Amoco's rights or actions of warranty against all former owners unto Assignee, all of Amoco's right, title, and interest in and to the following described property located in Jefferson Davis Parish, to-wit:

448144

1. That certain oil, gas and mineral lease dated August 7, 1954, recorded at Book 187, page 371 of the conveyance records of Jefferson Davis

Parish, Louisiana, as amended by Partial Release and Lease Amendment dated January 1, 1965, recorded at Book 282, page 539 of the conveyance records of Jefferson Davis Parish, Louisiana, granted by Rosa C. Boudreaux, lessor, to Lyle Cummings, lessee, which said lease now affects a total of 194.7 acres, more or less, INSOFAR AS AND ONLY INSOFAR AS to Amoco's rights from the surface of the earth to a depth of 10,400' below the surface of the earth, all rights below said depth being herein specifically reserved to Amoco. The acreage affected by said lease and being conveyed herein is hereinafter referred to as the "lease acreage."

2. The Amoco Production Company-Johnson-Boudreaux Wells No. 1 and 3 located on the lease acreage and all personal property, machinery, equipment, and downhole materials located therein and thereon and appurtenant thereto, including, but not limited to, the Christmas trees, evaporator, and compressor.

TO HAVE AND TO HOLD said property unto Assignee, its successors and assigns subject to the terms and conditions hereinafter set forth.

It is understood and agreed that this Assignment and Sale shall be subject to the following terms and conditions:

1. Assignee acknowledges and accepts that the interest being conveyed herein by Amoco is all of Amoco's fifty percent (50%) interest in and to the above described lease and all of Amoco's twenty-one and ten one-hundredths percent

Exhibit D
Castex Development - Title and Lease History - 000972

(21.10%) interest in and to the wellbore of the Amoco Production Company-Johnson-Boudreaux Wells No. 1 and 3 and related equipment as described above.

2. Assignee acknowledges that certain horizons within the lease acreage, which horizons are described as the W Mer 10,200' RA SU and the 10,400' Sand, are dedicated to Transcontinental Gas Pipe Line Corporation under that certain gas sales contract dated November 8, 1976, and Buyer hereby assumes all responsibilities and obligations thereunder and agrees to make all necessary FERC filings.

3. The lease, wells and all personal property, machinery, equipment, and downhole materials conveyed herein are sold on an "as is" basis without any warranty whatsoever, either express or implied, and Assignee shall have no recourse against Amoco for failure of title or for defects in the wells and equipment, not even for the return of all or part of the consideration paid herein.

4. The lease acreage conveyed herein is assigned by Amoco and accepted by Assignee subject to any royalties, overriding royalties, production payments, net profits obligations, carried working interest and other payments out of or with respect to production which are of record and with which said lease acreage is encumbered, and Assignee hereby assumes and agrees to pay, perform or carry, as the case may be, each of said royalties, overriding royalties, production payments, net profits obligations, carried working interest, and other payments out of or with respect to production, to the extent that it is or remains a burden on the lease acreage herein assigned.

5. Amoco reserves the right to use any portion of the lease acreage conveyed herein which is reasonably necessary

in connection with Amoco's operations to explore, drill, develop, produce and operate the leasehold rights retained by Amoco hereunder.

6. Assignee shall comply with all of the express and implied covenants and conditions of the lease conveyed herein and shall assume all of Amoco's obligations under said lease. Assignee also obligates itself to comply and conduct its operations hereunder in accordance with all rules and regulations of the Commissioner of Conservation and all statutes, rules and regulations of any other governmental body or agency having jurisdiction over such matters.

7. The entire cost, expense and risk of plugging and abandoning the above described wells, restoring the location surrounding said wells, cleanup operations and any other operations provided for under the lease conveyed herein shall be borne by Assignee. Assignee agrees to promptly plug and abandon all of said wells, upon termination of operations on the lease acreage in a good, workmanlike manner and in accordance with the terms of said lease.

8. Assignee shall fully defend, protect, indemnify and hold Amoco, its employees and agents, harmless from and against any and all claims, demands, suits and causes of action of every kind and character -- including reasonable attorneys' fees and costs of investigation - which may be made or asserted by Assignee, Assignee's employees, agents and subcontractors, or by any third parties -- including Amoco's employees and agents -- on account of personal injury, death or property damage -- including claims for pollution and environmental damage, any fines or penalties assessed on account of such damage, and causes of action alleging statutory liability -- caused by, arising out of, or in any way incidental to operations conducted by Assignee on

Exhibit D
Castex Development - Title and Lease History - 000974

the lease acreage or under the terms of this agreement. This indemnity shall apply to any liability imposed upon Amoco as a result of any statute, rule, regulation or theory of strict liability.

9. Amoco, at all times and from time to time, shall have the option and exclusive right to purchase all or any portion of the liquid hydrocarbons produced and saved from the lease acreage at Amoco's prevailing price for production of similar kind and quality in the field where produced on date of delivery.

10. This assignment and sale shall be effective as of 7:00 a.m. on December 10, 1983. All property and ad valorem taxes, if any, shall be prorated to the effective date. Assignee agrees to have the Commissioner of Conservation designate it as operator of the properties conveyed herein as of the effective date hereof and shall file with the Commissioner of Conservation an "Application to Amend Permit to Drill for Minerals", Form MD10 RA.

11. The terms, covenants and conditions hereof shall be binding upon, and shall inure to the benefit of, Amoco and Assignee, and their respective successors and assigns.

IN WITNESS WHEREOF, the parties hereto have executed this agreement in the presence of the undersigned competent witnesses on this 9th day of December, 1983.

DECLARATION OF LEASE

RECEIVED AND FILED
1984 MAR 16 PM 1:53
Gay B. Huff
CLERK

Be It Known, that, REUBEN RAYMOND BRUCE, ET AL.,

as Lessor(s), has granted a certain Oil, Gas and Mineral Lease to MARANATHA MINERAL CORPORATION, P.O. Box 53091, Lafayette, La., as Lessee, by instrument dated January 23, 1984, by which said Lessor(s) leased and let unto Lessee, for a valuable consideration, and subject to the terms, conditions and provisions of said lease, certain property situated in the State of Louisiana, Parish of JEFFERSON DAVIS, as more particularly described in Exhibit "A" attached hereto and made a part hereof.

450018

Said lease is for a primary term as therein stipulated, and as long thereafter as oil, gas or other hydrocarbon is produced from the leased premises are being developed in accordance with the provisions of said lease, or the lease is otherwise kept in force in some other manner therein provided.

Said lease gives Lessee the right to explore and drill for and produce oil, gas and other hydrocarbons, subject to the royalties and other payments therein provided for.

This declaration is to be placed of record to serve as notice of the execution and existence of said lease, and is in no way to supersede same or to abrogate, change, alter, or modify any of the terms or conditions or any of the rights or obligations of any of the parties, all of which are set forth in detail in said lease, which is made a part hereof by reference to the same effect as though written in extenso herein.

21

In Township 10 South, Range 3 West in Section 39 and Township 10 South, Range 2 West in Sections 17 and 18.

All of the lands acquired by Albert Sidney Johnson and Adolphe C. Boudreaux from Jean Castex, Jr. by Act of Sale dated April 30, 1934, recorded under File No. 81759 of the Conveyance Records of Jefferson Davis Parish, Louisiana, insofar, and only insofar, as said lands fall and lie east of a north-south line having a Lambert Coordinate of X = 1,591,150 feet; LESS AND EXCEPT, however, all lands situated within the geographical boundaries of the following described units:

(1) HET 1 SUA created by Louisiana Department of Conservation Order No. 101-E, effective December 1, 1962.

(2) 10,200 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-C, effective April 1, 1962, as amended by Order No. 101-C-1, effective December 9, 1971, LESS AND EXCEPT all rights below the stratigraphic equivalent of the 10,600 foot sand as defined in Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962, insofar, and only insofar, as said rights underlie a tract of land containing 70.51 acres situated in Section 39, Township 10 South, Range 3 West, and more fully described in an oil and gas lease dated July 6, 1971, granted to Ruffin T. Lowry and recorded in Conveyance Book 358, at Page 846, under File No. 352892, records of Jefferson Davis Parish, Louisiana, said rights under said tract being leased herein.

(3) 10,600 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962.

And, also, LESS AND EXCEPT, the following described tracts:

(1) That ten acre parcel of land situated in Section Eighteen (18) Township Ten (10) South of Range Two (2) West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section Eighteen (18), Township Ten (10) South, Range Two (2) West, at a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township Ten (10) South, Range Two (2) and Three (3) West; thence South 51° 13' East 276.5 feet; thence South 53° 00' East 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe, the lower front corner of the Robira 10-acre tract for a point of beginning; thence, following the right bank of the Mermentau River South 65° 30' East 450 feet; thence South 84° 00' East 250 feet; thence, leaving the River and running South 37° 00' West 693.5 feet; thence, North 72° 06' West 691.5 feet to lower side line of the Robira 10 acres; thence, following said line North 37° 00' East 693.5 feet to place of beginning and containing ten (10) acres; as per plat by F. Shutts' Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

(2) That certain parcel of land comprising ten (10) acres, more or less, situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and in Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the Records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the Corner between Section Eighteen (18) Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range (3) West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 53° East 272.4 feet to the line between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West 921 feet South of the corner between the two said Sections; thence, South 53° East 327.6 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe; thence North 37° East 726 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River; thence, North 53° West up the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 37° West 358 feet to the point of beginning and containing ten (10) acres.

Said tract shown more fully outlined in red on the plat marked Exhibit A-1 attached hereto.

Gay B. Huff
CLERK OF COURT
JEFFERSON DAVIS PARISH

Be It Known, that, BERNICE FOREMAN BOUDREAUX, ET AL.

as Lessor(s), has granted a certain Oil, Gas and Mineral Lease to MARANATHA MINERAL CORPORATION, P. O. Box 53091, Lafayette, Louisiana, as Lessee, by instrument dated January 23, 1984, by which said Lessor(s) leased and let unto Lessee, for a valuable consideration, and subject to the terms, conditions and provisions of said lease, certain property situated in the State of Louisiana, Parish of Jefferson Davis, as more particularly described in Exhibit "A" attached hereto and made a part hereof.

Said lease is for a primary term as therein stipulated, and as long thereafter as oil, gas or other hydrocarbon is produced from the leased premises are being developed in accordance with the provisions of said lease, or the lease is otherwise kept in force in some other manner therein provided.

Said lease gives Lessee the right to explore and drill for and produce oil, gas and other hydrocarbons, subject to the royalties and other payments therein provided for.

This declaration is to be placed of record to serve as notice of the execution and existence of said lease, and is in no way to supersede same or to abrogate, change, alter, or modify any of the terms or conditions or any of the rights or obligations of any of the parties, all of which are set forth in detail in said lease, which is made a part hereof by reference to the same effect as though written in extenso herein.

EXHIBIT "A"

In Township 10 South, Range 3 West in Section 39 and Township 10 South, Range 2 West in Sections 17 and 18.

All of the lands acquired by Albert Sidney Johnson and Adolphe C. Boudreaux from Jean Castex, Jr. by Act of Sale dated April 30, 1934, recorded under File No. 81759 of the Conveyance Records of Jefferson Davis Parish, Louisiana, insofar, and only insofar, as said lands fall and lie east of a north-south line having a Lambert Coordinate of X = 1,591,150 feet; LESS AND EXCEPT, however, all lands situated within the geographical boundaries of the following described units:

(1) HET 1 SUA created by Louisiana Department of Conservation Order No. 101-E, effective December 1, 1962.

(2) 10,200 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-C, effective April 1, 1962, as amended by Order No. 101-C-1, effective December 9, 1971, LESS AND EXCEPT all rights below the stratigraphic equivalent of the 10,600 foot sand as defined in Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962, insofar, and only insofar, as said rights underlie a tract of land containing 70.51 acres situated in Section 39, Township 10 South, Range 3 West, and more fully described in an oil and gas lease dated July 6, 1971, granted to Ruffin T. Lowry and recorded in Conveyance Book 358, at Page 846, under File No. 352892, records of Jefferson Davis Parish, Louisiana, said rights under said tract being leased herein.

(3) 10,600 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962.

And, also, LESS AND EXCEPT, the following described tracts:

(1) That ten acre parcel of land situated in Section Eighteen (18) Township Ten (10) South of Range Two (2) West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section Eighteen (18), Township Ten (10) South, Range Two (2) West, at a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township Ten (10) South, Range Two (2) and Three (3) West; thence South 51° 13' East 276.5 feet; thence South 53° 00' East 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe, the lower front corner of the Robira 10-acre tract for a point of beginning; thence, following the right bank of the Mermentau River South 65° 30' East 450 feet; thence South 84° 00' East 250 feet; thence, leaving the River and running South 37° 00' West 693.5 feet; thence, North 72° 06' West 691.5 feet to lower side line of the Robira 10 acres; thence, following said line North 37° 00' East 693.5 feet to place of beginning and containing ten (10) acres; as per plat by F. Shutts' Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

(2) That certain parcel of land comprising ten (10) acres, more or less, situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and in Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the Records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the Corner between Section Eighteen (18) Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range (3) West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 53° East 272.4 feet to the line between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West 921 feet South of the corner between the two said Sections; thence, South 53° East 327.6 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe; thence North 37° East 726 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River; thence, North 53° West up the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 37° West 358 feet to the point of beginning and containing ten (10) acres.

Said tract shown more fully outlined in red on the plat marked Exhibit A-1 attached hereto.

DECLARATION OF LEASE

RECEIVED AND FILED
1984 APR -3 AM 10: 23
Gay B. Hyde
CLERK OF COURT

Be It Known, that, ALBERT SIDNEY JOHNSON III, ET AL;

as Lessor(s), has granted a certain Oil, Gas and Mineral Lease to MARANATHA MINERAL CORPORATION, P.O. BOX 53019, Lafayette, Louisiana 70505, as Lessee, by instrument dated January 23, 2984, by which said Lessor(s) leased and let unto Lessee, for a valuable consideration, and subject to the terms, conditions and provisions of said lease, certain property situated in the State of Louisiana, Parish of Jefferson Davis, as more particularly described in Exhibit "A" attached hereto and made a part hereof.

Said lease is for a primary term as therein stipulated, and as long thereafter as oil, gas or other hydrocarbon is produced from the leased premises are being developed in accordance with the provisions of said lease, or the lease is otherwise kept in force in some other manner therein provided.

Said lease gives Lessee the right to explore and drill for and produce oil, gas and other hydrocarbons, subject to the royalties and other payments therein provided for.

This declaration is to be placed of record to serve as notice of the execution and existence of said lease, and is in no way to supersede same or to abrogate, change, alter, or modify any of the terms or conditions or any of the rights or obligations of any of the parties, all of which are set forth in detail in said lease, which is made a part hereof by reference to the same effect as though written in extenso herein.

EXHIBIT "A"

400 In Township 10 South, Range 3 West in Section 39 and Township 10 South, Range 2 West in Sections 17 and 18.

All of the lands acquired by Albert Sidney Johnson and Adolphe C. Boudreaux from Jean Castex, Jr. by Act of Sale dated April 30, 1934, recorded under File No. 81759 of the Conveyance Records of Jefferson Davis Parish, Louisiana, insofar, and only insofar, as said lands fall and lie east of a north-south line having a Lambert Coordinate of X = 1,591,150 feet; LESS AND EXCEPT, however, all lands situated within the geographical boundaries of the following described units:

(1) HET 1 SUA created by Louisiana Department of Conservation Order No. 101-E, effective December 1, 1962.

(2) 10,200 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-C, effective April 1, 1962, as amended by Order No. 101-C-1, effective December 9, 1971, LESS AND EXCEPT all rights below the stratigraphic equivalent of the 10,600 foot sand as defined in Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962, insofar, and only insofar, as said rights underlie a tract of land containing 70.51 acres situated in Section 39, Township 10 South, Range 3 West, and more fully described in an oil and gas lease dated July 6, 1971, granted to Ruffin T. Lowry and recorded in Conveyance Book 358, at Page 846, under File No. 352892, records of Jefferson Davis Parish, Louisiana, said rights under said tract being leased herein.

(3) 10,600 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962.

And, also, LESS AND EXCEPT, the following described tracts:

(1) That ten acre parcel of land situated in Section Eighteen (18) Township Ten (10) South of Range Two (2) West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section Eighteen (18), Township Ten (10) South, Range Two (2) West, at a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township Ten (10) South, Range Two (2) and Three (3) West; thence South 51° 13' East 276.5 feet; thence South 53° 00' East 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe, the lower front corner of the Robira 10-acre tract for a point of beginning; thence, following the right bank of the Mermentau River South 65° 30' East 450 feet; thence South 84° 00' East 250 feet; thence, leaving the River and running South 37° 00' West 693.5 feet; thence, North 72° 06' West 691.5 feet to lower side line of the Robira 10 acres; thence, following said line North 37° 00' East 693.5 feet to place of beginning and containing ten (10) acres; as per plat by F. Shutts' Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

(2) That certain parcel of land comprising ten (10) acres, more or less, situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and in Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the Records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the Corner between Section Eighteen (18) Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range (3) West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 53° East 272.4 feet to the line between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West 921 feet South of the corner between the two said Sections; thence, South 53° East 327.6 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe; thence North 37° East 726 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River; thence, North 53° West up the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 37° West 358 feet to the point of beginning and containing ten (10) acres.

ASSIGNMENT OF OIL, GAS AND MINERAL LEASES

STATE OF LOUISIANA

PARISH OF LAFAYETTE

KNOW ALL MEN BY THESE PRESENTS:

THAT, MARANATHA MINERAL CORPORATION, whose address is P.O. Box 53091, Lafayette, Louisiana 70505, hereinafter referred to as "Assignor" is the owner of the Oil, Gas and Mineral leases described and delineated on Exhibit "A", which is attached hereto and made a part hereof for all purposes.

NOW, THERFORE, in consideration of the sum of ONE HUNDRED AND NO/100THS ($100.00 & OVC) DOLLARS AND OTHER VALUABLE CONSIDERATION, the receipt and adequacy of which are hereby acknowledged, Assignor does hereby sell, transfer, assign and convey unto CARROLL E. POOLER, JR., husband of Barbara Pollock, whose address is 143 Ridgeway Drive, Lafayette, Louisiana 70503, hereinafter referred to as "Assignee" all of its rights, title and interests in and to the Oil, Gas and Mineral leases described in Exhibit "A".

This assignment is made without warranty, but with full substitution of all rights and actions in warranty. It is further understood and agreed by the parties hereto that as additional consideration to Assignor, Assignee agrees to indemnify, hold harmless and defend Assignor against any and all claims and/or actions filed or asserted which may arise as a result of Assignor's past ownership of the leases described in Exhibit "A", which claims and/or actions arise as a result of the actions and/or inactions of or by Assignee or subsequent Assignees and/or holders of the leases described in Exhibit "A".

IN WITNESS WHEREOF, this instrument is executed as of this April 13, 1984.

Box 52185, Lafayette, Louisiana, 70505, hereinafter referred to as "ASSIGNOR", for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged and for which due acquittance is hereby granted does hereby assign, transfer, sell, and convey unto RAMSAY CORPORATION, a Texas Corporation, whose address is P. O. Box 52027, Lafayette, Louisiana, 70505, hereinafter referred to as "ASSIGNEE", and to its successors and assigns an undivided one-half (50.00%) interest in and to the Oil, Gas and Mineral Leases affecting lands situated in Jefferson Davis and Acadia Parishes, Louisiana, described in Exhibit "A" attached hereto and made a part hereof.

Should the leases not validly cover and affect all of the oil, gas and other minerals and mineral rights covering the lands described therein, or in the event of failure of title to the lessor, the working interest herein transferred shall be proportionately reduced as to the interest or acreage affected.

This assignment is made and accepted subject to the overriding royalty interests assigned under those certain Assignments of Overriding Royalty previously made and affecting the Oil, Gas and Mineral Leases assigned herein. Assignee shall bear its proportionate part of such previously assigned overriding royalty interest. Subject to the foregoing, this assignment is made without warranty of title on the part of Assignor except that Assignor warrants against anyone asserting an adverse claim of title to the leases that arises by, through or under any act of Assignor; but this Assignment is made with transfer and subrogation of rights and actions of warranty which Assignor may have as to the interest assigned.

TO HAVE AND TO HOLD, the same unto Assignee, its successors and assigns in accordance with the terms and provisions of the above Oil, Gas and Mineral Leases and the assignments pertaining thereto affecting said leases as of the date of this instrument.

451397

The provisions of this Assignment shall be binding upon and shall inure to the benefit of the heirs, successors and assigns of all parties thereto.

This assignment is executed by Assignor without any warranty of title or recourse whatsoever, but with full substitution of all of Assignor's rights and actions in warranty against all other persons whomsoever.

IN WITNESS WHEREOF, this instrument is executed as of this 30th day of April, 1984.

ASSIGNMENT OF OIL, GAS AND MINERAL LEASES

STATE OF LOUISIANA *
PARISHES OF ACADIA & JEFFERSON DAVIS * KNOW ALL MEN BY THESE PRESENTS: THAT,

LYNAL, INC., a Louisiana corporation, whose address is P. O. Box 52185, Lafayette, Louisiana, 70505, and RAMSAY CORPORATION, whose address is P. O. Box 52027, Lafayette, Louisiana, 70505, hereinafter collectively referred to as "ASSIGNOR", for and in consideration of the sum of One Hundred Dollars ($100.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged and confessed and for which due acquittance is hereby granted, does hereby assign, transfer, sell and convey unto SOHIO PETROLEUM COMPANY, whose address is 9401 Southwest Freeway, Suite 1200, Houston, Texas, 77074, hereinafter referred to as "ASSIGNEE", and to its successors and assigns, an undivided eighty-seven and one-half per cent (87.5%) interest in and to the oil, gas and mineral leases affecting lands and/or waterbottoms situated in Acadia and/or Jefferson Davis Parishes, Louisiana, described in Exhibit "A" attached hereto and made a part hereof for all purposes.

451918

Reference is hereby made to that certain Letter Agreement dated March 20, 1984, executed by and between Assignor and Assignee herein. Said Letter Agreement is, by reference, hereby made a part of this Assignment for all purposes as though said Letter Agreement were set forth fully herein, and this assignment is made and executed pursuant to and subject to the terms and provisions of said Letter Agreement. No assignment, transfer or alienation of said Oil, Gas and Mineral Leases, whether voluntary or involuntary, shall be valid unless made expressly subject to the terms, provisions and conditions set forth in said Letter Agreement.

This assignment is made and accepted subject to the overriding royalty interests assigned under those certain Assignments of Overriding Royalty previously made and affecting the Oil, Gas and Mineral Leases assigned herein. Assignee shall bear its proportionate part of any such previously assigned overriding royalty interest. Subject to the foregoing, this assignment is made without warranty of title on the part of Assignor except that Assignor warrants against anyone asserting an adverse claim of title to the leases

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Valor Land & Exploration Company, Newmount Oil Company, Mar-Low Corporation, Yates Drilling Company and Martin Yates, III (for convenience sometimes herein after collectively referred to as "Joint Lessees") represent that they are owners of all the unitized portion of that certain Oil, Gas and Mineral Lease described as follows:

> Oil, Gas and Mineral Lease dated July 2, 1969, from Castex M. Boudreaux, et al, as Lessor, to Valor Land & Exploration Company, as Lessee, recorded in Book 329, 339 Page 205, under Entry No. 336658 of the Conveyance Records of Jefferson Davis Parish, Louisiana.

reference being here made to the record of said lease for the terms, conditions and lands described therein to the same extent as though copied in full herein which lease for convenience shall hereinafter be referred to as the "Subject Lease".

WHEREAS, the Joint Lessees desire to relinquish their rights as to the lands covered by the Subject Lease.

WHEREAS, the lands which are subject to and covered by this Partial Release are identified as that portion of the lands covered by the Subject Lease, INSOFAR AND ONLY INSOFAR as such lands are situated inside of the surface boundaries of the following described Unit:

> The 10,200 Foot Sand Unit in the West Mermentau Field, Jefferson Davis Parish, Louisiana, established by the Commissioner of Conservation of the State of Louisiana in Order No. 101-C-1 dated December 16, 1971, recorded in Book 363, Page 192 under Entry No. 356360 of the Conveyance Records of Jefferson Davis Parish, Louisiana.

NOW, THEREFORE, the Joint Lessees, for and in consideration of the sum of Ten and No/100 Dollars($10.00) and other good and valuable considerations, the receipt and sufficiency of which are hereby acknowledged, have, and by these presents do release and relinquish their right, title and interest in and to that portion of the lands covered by the Subject Lease INSOFAR AND ONLY INSOFAR as the lands covered thereby are situated inside the surface boundaries of the said 10,200 Foot Sand Unit.

This instrument may be executed either as one instrument or in several partially executed counterparts and the original and all counterparts shall be construed together and shall constitute one agreement. Should less than all of the named Joint Lessees execute this instrument, this agreement shall be binding on those who are signatories.

IN WITNESS WHEREOF, this instrument is executed as of the day of May, 1984, in the presence of the undersigned competent witnesses.

PARISH OF JEFFERSON DAVIS

KNOW ALL MEN BY THESE PRESENTS, That BFO ENERGY, INC., a Delaware Corporation, herein represented by MALCOLM E. WILSON, JR., its President; PATRICK B. GIBBONS, and WARREN B. PINNEY, hereinafter referred to as "ASSIGNORS", are the present owners of an Oil, Gas and Mineral Lease granted by Rosa Castex Boudreaux et al to James C. Ruffin, dated March 5, 1956, recorded in Book 222 at Page 418 under Original Act No. 245110 of the records of Jefferson Davis Parish, Louisiana, covering and affecting 160 acres of land located in Section 39, Township 10 South, Range 3 West, and Section 17, Township 10 South, Range 2 West, Jefferson Davis Parish, Louisiana, which lands are more particularly described in said lease; do by these presents hereby release, relinquish and surrender unto the original Lessors named in said Lease, their heirs, successors and assigns, subject to the provisions hereof, any and all rights whatsoever now held or claimed by them under the terms and conditions of said Oil, Gas and Mineral Lease and any and all amendments thereto, if any,

SAVE AND EXCEPT those lands covered by and located inside the geographic limits of the HET 1 SAND UNIT "A", established by Department of Conservation Order No. 26-E, dated December 18, 1962. The lands hereby excepted and located within the geographic limits of the HET 1 SAND UNIT "A" are shown colored in red on that certain plat of survey prepared by John E. Chance dated January 21, 1963 (Rev. March 4, 1963), a copy of which is attached hereto and made a part hereof, which lands are estimated to comprise a total of 14.36 acres, whether more or less.

453319

THE ASSIGNORS SPECIFICALLY RESERVE such rights of way, easements, servitudes and privileges over, upon and across the surrounding lands as are necessary or convenient for operations on the land retained under the said hereinabove Unit.

IN TESTIMONY WHEREOF, this Instrument is executed on this the 26th day of July, 1984, in the presence of the undersigned, competent witnesses.

KNOW ALL MEN BY THESE PRESENTS:

THAT, the undersigned, SOHIO PETROLEUM COMPANY, a Delaware corporation, whose address is 9401 Southwest Freeway, Suite 1200, Houston, Texas 77074, (hereinafter referred to as "Assignor"), for and in consideration of the sum of TEN AND NO/100 DOLLARS ($10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, does hereby SELL, ASSIGN, TRANSFER and CONVEY unto LYNAL, INC., a Louisiana corporation, whose address is P. O. Box 52185, Lafayette, LA 70505, and RAMSAY CORPORATION, a Texas Corporation, whose address is P. O. Box 52027, Lafayette, LA 70505, (hereinafter collectively referred to as "Assignee"), all of its right, title and interest in and to the Oil, Gas and Mineral Leases set forth and described on Exhibit "A" attached hereto and made a part hereof, and to which reference is hereby made for all purposes, covering lands situated in the Parishes of Jefferson Davis and Acadia, State of Louisiana

455350

There is excepted and reserved from the Leases assigned herein an Overriding Royalty equal to four percent of eight-eighths (4% of 8/8ths) of the oil, casinghead gas, gas well gas and condensate or other associated hydrocarbon substances which may be produced, saved and marketed and attributable to the lands covered hereby. The Overriding Royalty herein reserved shall be free and clear of all costs and expenses except the proportion of all taxes levied thereon and transportation charges, if any are incurred, necessary to market said production.

Any renewal, extension or new lease or leases covering the lands assigned herein, acquired by Assignee or a third party wholly or partly for Assignee's benefit, on said lands shall be deemed to continue and preserve Assignor's rights reserved.

In the event the interests covered by the Leases are less than a full interest in any tract of the lands covered hereby, the Overriding Royalty reserved herein shall be payable from said tract in the proportion that the interests covered by the Leases on said tract bear to the entire mineral estate in said tract.

TO HAVE AND TO HOLD said interests unto Assignee, its successors and assigns forever.

This Assignment is made without any warranty of title, express or implied.

IN WITNESS WHEREOF, this Assignment has been executed on this 31st day of October, 1984, in the presence of the undersigned competent witnesses.

JEFFERSON DAVIS PARISH

ASSIGNMENT OF OIL, GAS AND MINERAL LEASE AND BILL OF SALE OF WELL AND EQUIPMENT

STATE OF LOUISIANA

PARISH OF JEFFERSON DAVIS

KNOW ALL MEN BY THESE PRESENTS, THAT:

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, PETROLEUM WELL SERVICES, INC., a Texas corporation, represented herein by K. A. Pelt, its duly authorized President and CELT OIL, INC., a Delaware corporation represented herein by Clyde E. Love, its duly authorized President (hereinafter called "Assignors") do hereby assign unto CARROLL E. POOLER, JR. AND ASSOCIATES, all of Assignors' right, title and interest in that certain Oil, Gas and Mineral Lease executed by Rosa Castex Boudreaux, et al in favor of Lyle Cummins, dated August 7, 1954, recorded at COB 187, page 391, Conveyance Records, Jefferson Davis Parish, Louisiana, and the well situated thereon known as the Petroleum Well Services, Inc. - Johnson - Boudreaux No. 1 Well, together with pipe, tubing, wellhead, downhole, surface and all other equipment in and on said well. Reference is made to the recorded lease for a full description of the property covered thereby. Reference is made to the attached schedule of equipment.

455643

This assignment is made, subject to the terms and conditions of said Oil, Gas and Mineral Lease, it being specifically understood and agreed that the rights granted hereunder are limited to depths from the surface of the earth to a depth of 10,400 feet. Assignee assumes all responsibility for plugging and abandonment of the well described above, but specifically does not assume any other liabilities for prior surface damages or plugging and abandonment of any other well.

This assignment is made without any warranty of title whatsoever, except as to acts of Assignors, but with full substitution and subrogation as against all prior warrantors. This assignment is subject to all royalties, overriding royalties or other lease burdens of record, but is made, free and clear of any liens and encumbrances.

IN WITNESS WHEREOF, this instrument is executed this 13th day of November, 1984. This instrument may be executed in multiple counterpart form, and shall be binding upon each party upon execution thereof, whether or not executed by the remaining parties. All parties further authorize Carroll E. Pooler, Jr. and Associates to combine all signature and acknowledgement pages into a single instrument for purposes of recordation.

hereinafter referred to as "Lessors" and,

CASTEX SYSTEMS, INC., a Louisiana corporation, domiciled in Jefferson Davis Parish, LA, represented herein by its duly authorized President, BEECHER D. HOWARD,

hereinafter referred to as "Lessee", as follows, to-wit:

I.

Lessors hereby lease unto Lessee the following described property located in Jefferson Davis Parish, LA, to-wit:

That certain 50 acre tract of land located in Section 17, Township 10 South, Range 2 West, La. Mer., described as Beginning at a 1/4" Rod in the North line of Section 17, South 62°06'20" East a distance of 1,167.31 feet from the Northwest corner of said Section 17; thence South 61°49'32" East a distance of 1,119.27 feet to a 1/4" iron rod; thence South 61°41'03" East a distance of 1,137.77 feet to an iron pipe set for corner; thence South 41°07'34" West a distance of 1,017.73 feet to an iron pipe set for corner; thence North 71°29'41" West a distance of 1,585.27 feet to an iron pipe set for corner; thence North 18°30'16" East a distance of 481.66 feet to an iron pipe set for corner; thence North 19°38'59" West a distance of 445.06 feet to a 3/4" iron pipe for corner; thence North 18°21'38" East a distance of 100.03 feet to a 3/4" iron pipe for corner; thence South 71°29'30" East a distance of 22.21 feet to a point for corner; thence North 19°16'24" East a distance of 389.67 feet to the place of beginning containing 50.00 acres as per plat of survey prepared by James W. Wingfield, Jr., Registered Land Surveyor, dated September 10, 1984, revised October 9, 1984, which is annexed hereto and made a part hereof.

II.

This lease shall also include the use of the road leading to the leased premises from Louisiana Highway 1126. Lessee obligates itself to maintain the road.

III.

This lease is for the purpose of using the well located thereon known as the Delta Well #1 as a salt water disposal well and the storage of drilling fluids, together with the surface of the leased premises for oilfield mud disposal.

IV.

This lease is for a term of 5 years beginning Nov.15, 1984, and ending Nov. 14, 1989, provided, however, Lessee is given the option to renew this lease for an additional 5 years on the same terms and conditions, however, the rental shall be negotiated. Should Lessee desire to exercise this option, he shall notify Lessors in writing at least 60 days prior to Nov. 14, 1989. Notice shall be sent to either Mr. Worrell B. Johnson, P.O. Box 388, Welsh, LA 70591, or Mr. R. Raymond Bruce, 439 E. Academy, Jennings, LA 70546.

V.

This lease is made for and in consideration of a yearly rental of $15,000.00 per year, payable yearly in advance.

VI.

Lessors will not be responsible for any damages of any sort to any persons or property, however occasioned; and Lessee shall hold Lessors harmless from any claims by or liability arising out of the use of the leased premises and road by Lessee. Lessee shall carry public liability on the leased premises in the minimum amount of $1,000,000 for each occurrence.

VII.

Should Lessee at any time violate any of the conditions of this lease or fail to comply with any of Lessee's obligations hereunder, or fail to pay the rent at maturity, as stipulated, or upon the filing of a bankruptcy, receivership or respite petition by or against Lessee, or upon Lessee's suspension, failure or insolvency, the rent for the whole unexpired term of this lease shall, without putting Lessee in default, at once become due and exigible, and in such event, Lessor shall have the option either at once to demand the entire rent for the whole term or to immediately cancel this lease, without putting Lessee in default; Lessee to remain responsible for all damages or losses suffered by Lessor; Lessee hereby assenting thereto and expressly waiving the legal notice to vacate the premises. Failure to strictly and promptly enforce these conditions shall not operate as a waiver of Lessors' rights, Lessors expressly reserving the right to always

enforce prompt payment of the rent or to cancel this lease regardless of any indulgences or extensions previously granted. Failure to comply with any condition or obligation of this lease shall make Lessee liable for any loss of damage sustained by Lessors.

VIII.

Lessee agrees to pay reasonable attorneys fees and court costs should it become necessary for Lessors to employ an attorney to recover the rent, or for or on account of any breach of, or to enforce or interpret any of the provisions of this lease, or for the recovery of the possession of the leased premises.

IX.

At the termination of this lease, Lessee agrees to restore the premises to their original condition as near as practicable, including but not limited to the removal of all pipes, buildings, the filling in of all pits and the leveling of all levees.

X.

This lease supersedes and is in lieu of that certain lease agreement by and between the parties recorded in counterparts in Conveyance Book 545, pages 655 through 704.

XI.

This agreement will be executed in multiple courterparts, each of which shall be an original document binding upon the party or parties so signing.

IN TESTIMONY WHEREOF, Lessors and Lessee have executed this instrument in the presence of the undersigned competent witnesses, on the dates and at the places set forth in the acknowledgments.

ATTORNEY - NOTARY PUBLIC
COMMISSION FOR LIFE

RESOLUTION

RESOLVED by the Board of Directors of the corporation that it lease from the Johnson-Boudreaux Heirs 50 acres of property owned by them and located in Section 17, Township 10 South, Range 2 West, La. Mer., as per plat of survey prepared by James W. Wingfield, Jr., Registered Land Surveyor, dated September 10, 1984, revised October 9, 1984.

BE IT FURTHER RESOLVED that Beecher D. Howard, President of the corporation be and he is hereby authorized, empowered and directed to execute the lease agreement to contain such terms and conditions and for a price as he deems necessary and advisable in his uncontrolled discretion.

CERTIFICATE

I, JOHN A. HOWARD , Secretary-Treasurer of CASTEX SYSTEMS, INC., do hereby certify that the above and foregoing is a true and correct copy of a resolution adopted at a meeting of the Board of Directors of said corporation held on November 26, 1984 , at which meeting all of the members of the Board of Directors were present in person and waived notice of the meeting and each voted unanimously in favor thereof. This resolution has not been modified or rescinded and is still in full force and effect.

WAYNE F. BOUDREAUX, of full age of majority, whose mailing address is 1165 Ivanhoe Drive, No. Muskegon, MI 49445;

RAYNELL MARIE BRUCE KIBODEAUX, of full age of majority, whose mailing address is 1641 Prarie Mark, Houston, TX 77077;

PATRICIA GAY BRUCE HUFF, of full age of majority, whose mailing address is 214 Morton Street, Jennings, LA 70546, and

NELIA KAREN BRUCE GOLDMAN, of full age of majority, whose mailing address is 2410 Pinehurst, Monroe, LA 71201,

hereinafter referred to as "Lessors" and,

CASTEX SYSTEMS, INC., a Louisiana corporation, domiciled in Jefferson Davis Parish, LA, represented herein by its duly authorized President, BEECHER D. HOWARD,

hereinafter referred to as "Lessee", as follows, to-wit:

I.

Lessors hereby lease unto Lessee the following described property located in Jefferson Davis Parish, LA, to-wit:

That certain 50 acre tract of land located in Section 17, Township 10 South, Range 2 West, La. Mer., described as Beginning at a 1/4" Rod in the North line of Section 17, South 62°06'20" East a distance of 1,167.31 feet from the Northwest corner of said Section 17; thence South 61°49'32" East a distance of 1,119.27 feet to a 1/4" iron rod; thence South 61°41'03" East a distance of 1,137.77 feet to an iron pipe set for corner; thence South 41°07'34" West a distance of 1,017.73 feet to an iron pipe set for corner; thence North 71°29'41" West a distance of 1,585.27 feet to an iron pipe set for corner; thence North 18°30'16" East a distance of 481.66 feet to an iron pipe set for corner; thence North 19°38'59" West a distance of 445.06 feet to a 3/4" iron pipe for corner; thence North 18°21'38" East a distance of 100.03 feet to a 3/4" iron pipe for corner; thence South 71°29'30" East a distance of 22.21 feet to a point for corner; thence North 19°16'24" East a distance of 389.67 feet to the place of beginning containing 50.00 acres as per plat of survey prepared by James W. Wingfield, Jr., Registered Land Surveyor, dated September 10, 1984, revised October 9, 1984, which is annexed hereto and made a part hereof.

II.

This lease shall also include the use of the road leading to the leased premises from Louisiana Highway 1126. Lessee obligates itself to maintain the road.

III.

This lease is for the purpose of using the well located thereon known as the Delta Well #1 as a salt water disposal well and the storage of drilling fluids, together with the surface of the leased premises for oilfield mud disposal.

IV.

This lease is for a term of 5 years beginning Nov.15, 1984, and ending Nov. 14, 1989, provided, however, Lessee is given the option to renew this lease for an additional 5 years on the same terms and conditions, however, the rental shall be negotiated. Should Lessee desire to exercise this option, he shall notify Lessors in writing at least 60 days prior to Nov. 14, 1989. Notice shall be sent to either Mr. Worrell B. Johnson, P.O. Box 388, Welsh, LA 70591, or Mr. R. Raymond Bruce, 439 E. Academy, Jennings, LA 70546.

V.

This lease is made for and in consideration of a yearly rental of $15,000.00 per year, payable yearly in advance.

VI.

Lessors will not be responsible for any damages of any sort to any persons or property, however occasioned; and Lessee shall hold Lessors harmless from any claims by or liability arising out of the use of the leased premises and road by Lessee. Lessee shall carry public liability on the leased premises in the minimum amount of $1,000,000 for each occurrence.

VII.

Should Lessee at any time violate any of the conditions of this lease or fail to comply with any of Lessee's obligations hereunder, or fail to pay the rent at maturity, as stipulated, or upon the filing of a bankruptcy, receivership or respite petition by or against Lessee, or upon Lessee's suspension, failure or insolvency, the rent for the whole unexpired term of this lease shall, without putting Lessee in default, at once become due and exigible, and in such event, Lessor shall have the option either at once to demand the entire rent for the whole term or to immediately cancel this lease, without putting Lessee in default; Lessee to remain responsible for all damages or losses suffered by Lessor; Lessee hereby assenting thereto and expressly waiving the legal notice to vacate the premises. Failure to strictly and promptly enforce these conditions shall not operate as a waiver of Lessors' rights, Lessors expressly reserving the right to always

enforce prompt payment of the rent or to cancel this lease regardless of any indulgences or extensions previously granted. Failure to comply with any condition or obligation of this lease shall make Lessee liable for any loss of damage sustained by Lessors.

VIII.

Lessee agrees to pay reasonable attorneys fees and court costs should it become necessary for Lessors to employ an attorney to recover the rent, or for or on account of any breach of, or to enforce or interpret any of the provisions of this lease, or for the recovery of the possession of the leased premises.

IX.

At the termination of this lease, Lessee agrees to restore the premises to their original condition as near as practicable, including but not limited to the removal of all pipes, buildings, the filling in of all pits and the leveling of all levees.

X.

This lease supersedes and is in lieu of that certain lease agreement by and between the parties recorded in counterparts in Conveyance Book 545, pages 655 through 704.

XI.

This agreement will be executed in multiple courterparts, each of which shall be an original document binding upon the party or parties so signing.

IN TESTIMONY WHEREOF, Lessors and Lessee have executed this instrument in the presence of the undersigned competent witnesses, on the dates and at the places set forth in the acknowledgments.

hereinafter referred to as "Lessors" and,

CASTEX SYSTEMS, INC., a Louisiana corporation, domiciled in Jefferson Davis Parish, LA, represented herein by its duly authorized President, BEECHER D. HOWARD,

hereinafter referred to as "Lessee", as follows, to-wit:

I.

Lessors hereby lease unto Lessee the following described property located in Jefferson Davis Parish, LA, to-wit:

That certain 50 acre tract of land located in Section 17, Township 10 South, Range 2 West, La. Mer., described as Beginning at a 1/4" Rod in the North line of Section 17, South 62°06'20" East a distance of 1,167.31 feet from the Northwest corner of said Section 17; thence South 61°49'32" East a distance of 1,119.27 feet to a 1/4" iron rod; thence South 61°41'03" East a distance of 1,137.77 feet to an iron pipe set for corner; thence South 41°07'34" West a distance of 1,017.73 feet to an iron pipe set for corner; thence North 71°29'41" West a distance of 1,585.27 feet to an iron pipe set for corner; thence North 18°30'16" East a distance of 481.66 feet to an iron pipe set for corner; thence North 19°38'59" West a distance of 445.06 feet to a 3/4" iron pipe for corner; thence North 18°21'38" East a distance of 100.03 feet to a 3/4" iron pipe for corner; thence South 71°29'30" East a distance of 22.21 feet to a point for corner; thence North 19°16'24" East a distance of 389.67 feet to the place of beginning containing 50.00 acres as per plat of survey prepared by James W. Wingfield, Jr., Registered Land Surveyor, dated September 10, 1984, revised October 9, 1984, which is annexed hereto and made a part hereof.

II.

This lease shall also include the use of the road leading to the leased premises from Louisiana Highway 1126. Lessee obligates itself to maintain the road.

III.

This lease is for the purpose of using the well located thereon known as the Delta Well #1 as a salt water disposal well and the storage of drilling fluids, together with the surface of the leased premises for oilfield mud disposal.

IV.

This lease is for a term of 5 years beginning Nov.15, 1984, and ending Nov. 14, 1989, provided, however, Lessee is given the option to renew this lease for an additional 5 years on the same terms and conditions, however, the rental shall be negotiated. Should Lessee desire to exercise this option, he shall notify Lessors in writing at least 60 days prior to Nov. 14, 1989. Notice shall be sent to either Mr. Worrell B. Johnson, P.O. Box 388, Welsh, LA 70591, or Mr. R. Raymond Bruce, 439 E. Academy, Jennings, LA 70546.

V.

This lease is made for and in consideration of a yearly rental of $15,000.00 per year, payable yearly in advance.

VI.

Lessors will not be responsible for any damages of any sort to any persons or property, however occasioned; and Lessee shall hold Lessors harmless from any claims by or liability arising out of the use of the leased premises and road by Lessee. Lessee shall carry public liability on the leased premises in the minimum amount of $1,000,000 for each occurrence.

VII.

Should Lessee at any time violate any of the conditions of this lease or fail to comply with any of Lessee's obligations hereunder, or fail to pay the rent at maturity, as stipulated, or upon the filing of a bankruptcy, receivership or respite petition by or against Lessee, or upon Lessee's suspension, failure or insolvency, the rent for the whole unexpired term of this lease shall, without putting Lessee in default, at once become due and exigible, and in such event, Lessor shall have the option either at once to demand the entire rent for the whole term or to immediately cancel this lease, without putting Lessee in default; Lessee to remain responsible for all damages or losses suffered by Lessor; Lessee hereby assenting thereto and expressly waiving the legal notice to vacate the premises. Failure to strictly and promptly enforce these conditions shall not operate as a waiver of Lessors' rights, Lessors expressly reserving the right to always

enforce prompt payment of the rent or to cancel this lease regardless of any indulgences or extensions previously granted. Failure to comply with any condition or obligation of this lease shall make Lessee liable for any loss of damage sustained by Lessors.

VIII.

Lessee agrees to pay reasonable attorneys fees and court costs should it become necessary for Lessors to employ an attorney to recover the rent, or for or on account of any breach of, or to enforce or interpret any of the provisions of this lease, or for the recovery of the possession of the leased premises.

IX.

At the termination of this lease, Lessee agrees to restore the premises to their original condition as near as practicable, including but not limited to the removal of all pipes, buildings, the filling in of all pits and the leveling of all levees.

X.

This lease supersedes and is in lieu of that certain lease agreement by and between the parties recorded in counterparts in Conveyance Book 545, pages 655 through 704.

XI.

This agreement will be executed in multiple courterparts, each of which shall be an original document binding upon the party or parties so signing.

IN TESTIMONY WHEREOF, Lessors and Lessee have executed this instrument in the presence of the undersigned competent witnesses, on the dates and at the places set forth in the acknowledgments.

Gentlemen:

Samedan Oil Corporation and Quien Sabe Corporation (hereinafter referred to as "Samedan, et al") represent without warranty of any kind or character that they are owners of the lease located in Jefferson Davis Parish, Louisiana and further described in Exhibit "B" attached hereto and made a part hereof (hereinafter referred to as the "Farmout Lease" and/or "Farmout Area"). This letter, when accepted by you, will evidence in writing Samedan and Quien Sabe's agreement regarding said Farmout Lease.

Celt Oil, Inc. (hereinafter referred to as "Celt") has commenced the reworking of the Johnson-Boudreaux Well No. 1 located in Section 17, T10S-R2W, Jefferson Davis Parish, Louisiana on June 6, 1984. Said well is being recompleted on a lease basis between the interval 10,253' - 10,264' and is to be reworked at your sole cost, risk and expense. It is specifically understood this agreement is restricted to the interval 10,253'-10,264' as encountered in the Johnson-Boudreaux Well No. 1 and Celt's most recent rework operations on said interval commenced June 6, 1984.

If the well referred to above is completed as a well capable of production in paying quantities, Samedan, et al upon your written request, will assign and convey to you all of its right, title and interest in and to the Farmout Lease insofar, and only insofar, as it covers and affects lands included within the production unit established for said well subject to the reservation of an overriding royalty equal to the difference between the total lease burden and 30%, but in no event less than 5%. Said overriding royalty will be convertible to a proportionate 35% working interest at payout. It is understood and agreed said well shall be produced on a lease basis only and that Celt shall not apply to the Louisiana Department of Conservation for any production unit encompassing acreage other than the lease described in Exhibit "B" attached hereto. Failure to so comply shall cause the termination of this agreement.

It is further understood that Samedan and Quien Sabe's earlier Farmout Agreement, dated December 21, 1984 has terminated by its own terms. However, Celt's commitment to assume Samedan et al's plugging and restoration obligations for the No. 1 and 3 Johnson - Boudreaux Wells pursuant to said agreement remains. Additionally, Celt remains subject to those obligations agreed to pursuant to said Agreement which have not lapsed by their own terms.

The provisions included in the attached Exhibits "A-F" are an integral part of this agreement and you hereby agree to comply with all terms, conditions, and covenants set forth therein. Failure to comply with all terms, covenants and conditions shall cause this agreement to terminate at the option of Samedan and Quien Sabe.

It is understood and agreed that all references, on the Exhibits attached, to Samedan shall be construed to include Quien Sabe and any elections, options or rights granted pursuant to this agreement will be made by Samedan and Quien Sabe on an individual and separate basis.

If the foregoing terms are acceptable to you, please execute this letter in the space provided below and return one executed copy to Samedan within five (5) days from the date hereof. Failing which this agreement shall terminate and be of no further force and effect.

This instrument may be executed in counterpart, each of which shall be considered an original for all purposes.

Yours very truly,

SAMEDAN OIL CORPORATION

4/82 EXHIBIT "A"

Attached to and made a part of that certain Farmout Agreement between Samedan Oil Corporation and Celt Oil, Inc. dated July 24, 1984 and covering lands located in West Mermentau Prospect, Jefferson Davis Parish, Louisiana.

~~1. Substitute Well:~~

~~If, prior to reaching the objective depth, you encounter mechanical~~ failure in the well resulting in the permanent loss of the hole at the point where mechanical failure is encountered, or, ~~if~~ you encounter heaving shale, domal formations, excessively ~~high~~ pressure water sands, cavity or other similar formations or ~~other~~ impenetrable formations through which you are unable to ~~drill~~ by appropriate and customary methods, you may drill a ~~substitute~~ well in lieu of the initial test well at a location ~~satisfactory~~ to Samedan under the same terms and conditions ~~set~~ forth for the initial test well, provided that such ~~substitute~~ well be commenced within thirty (30) days after plugging and ~~abandoning the initial test well.~~

~~2. Alternate Well:~~

~~If the initial or substitute well is completed as a dry and abandoned~~ well, you may commence the actual drilling of an ~~alternate~~ well at a location satisfactory to Samedan ~~within ninety~~ (90) days after the release of drilling rig ~~for the~~ initial test well or substitute well. Said ~~alternate well~~ will be drilled under the same terms and ~~conditions as the initial test well.~~

~~3. Continuous Drilling:~~

~~After commercial production has been established in the test well you~~ shall have the continuing right to drill additional wells at ~~locations~~ satisfactory to Samedan which well(s) shall be drilled ~~to~~ the same depth, and on the same terms and conditions ~~applicable~~ to the initial earning well in order to earn additional ~~acreage~~ out of the leases described in Exhibit "B", ~~provided that~~ not more than ninety (90) days lapse between the removal ~~of~~ the drilling rig for one well and the commencement of ~~actual~~ drilling operations on another well. It is understood ~~that~~ any assignment of such additional acreage will be under the ~~same~~ terms and conditions as provided for in connection with the ~~initial earning well~~.

~~4. Drilling Below Contract Depth:~~

~~It is specifically understood and agreed that in the event you drill~~ any well as provided herein to Contract Depth and then voluntarily drill the well to a greater depth but fail to complete ~~the~~ well as a well capable of producing oil and/or gas in ~~commercial~~ quantities at a depth greater than Contract Depth, and you do ~~then~~ complete the well as a well capable of producing oil and/~~or~~ gas in commercial quantities at Contract Depth or a depth ~~shallower~~ than Contract Depth, then in such event the cost of drilling ~~below~~ Contract Depth shall not be recoverable by you during ~~the~~ payout period. In the event that you do complete the well as a well capable of producing oil and/or gas in commercial quantities at a depth greater than Contract Depth, then in such event ~~the~~ term "Contract Depth" for the purpose hereof shall be ~~deemed~~ to be the base of the deepest reservoir in which said earning ~~well is so completed.~~

5. Provision to Take Over Well:

If you should drill any well provided for herein and elect not to make a completion attempt for said well, you shall give us prompt notice of such election, and we shall have twenty-four (24) hours within which to notify you of our election to take over the well at our sole cost, risk and expense and perform further operations. If we take over the

Exhibit D
Castex Development - Title and Lease History - 001171

well pursuant to the provisions of this paragraph, and we are successful in establishing production in said well, then the well, its production, equipment and leasehold acreage shall be owned entirely by Samedan and this agreement shall terminate as to the remaining unearned acreage. If we are unsuccessful in establishing production then your right to earn additional acreage pursuant to Paragraph 3, Continuous Drilling, shall remain applicable.

It is understood that you shall remain liable for all costs, expenses and liabilities incurred previously. All costs, expenses and liabilities incurred subsequent to the takeover date shall be Samedan's responsibility. With respect to equipment in and on said well owned by you, we agree to pay the salvage value thereof, less the costs of salvage. Notwithstanding the above it is understood that should Samedan fail to complete the well as a producer the cost of plugging the well shall be borne by us and the costs of restoring the premises shall be borne by you. If we elect not to takeover the well, you shall immediately plug and abandon said well at your sole cost, risk and expense.

6. Assignment:

~~Any assignment earned pursuant to this agreement will be limited in depth to the stratigraphic equivalent of deepest depth drilled and logged in said earning test well.~~ ~~Such~~ Any assignment by Samedan shall be without warranty of title, express or implied, but with full substitution and subrogation in and to all rights and actions of warranty held by Samedan. Said assignment by Samedan will be made subject to the terms and conditions of the Oil, Gas and Mineral leases in Exhibit "B" attached hereto, including but not limited to any and all obligations to said leases, as well as encumbrances pertaining thereto. You agree to hold Samedan harmless from any and all obligations with respect to said leases until such time as Samedan converts its overriding royalty to a working interest or you reassign your interest in said leases.

7. Overriding Royalty and Working Interest:

~~The overriding royalty herein reserved is to be proportionately reduced based upon the ratio that the unitized farmout acreage bears to the total number of acres in the production unit for said well.~~ Said reserved overriding royalty shall be delivered to the credit of Samedan into the pipeline or pipelines or tanks with which the test well may be connected, free and clear of all costs and expenses, except taxes on production. Samedan also reserves the right, at its option, for a period of thirty (30) days after receipt of notice from you that the well is paid out or plugged and abandoned to convert said overriding royalty to a proportionate working interest in the ~~test~~ well, its production, equipment and Farmout acreage included in the production unit established for said well. Said working interest is to be free and clear of all encumbrances other than those in effect at the time of this agreement.

~~8. Separate Election:~~

~~Notwithstanding anything to the contrary, it is understood that~~ Samedan's ownership of the Farmout Leases ~~described~~ in Exhibit "B" is both for itself and ~~beneficially on behalf~~ of its internal partners and Samedan ~~reserves the right~~ to make an assignment of a portion of its ~~interest in the Farmout Leases to such parties and each party shall~~

4/84

~~have the right to make a separate election with respect to the conversion of the overriding royalty to a working interest as outlined in this agreement.~~

~~9. Subsequent Well:~~

~~It is understood that if after receiving an assignment of all of~~ Samedan's leasehold rights within the producing unit established for any earning test well and prior to payout of said earning test well should a subsequent well be proposed not under the terms of this agreement either on the Farmout acreage, or on acreage unitized therewith, and said proposal affects the Farmout acreage, Samedan shall be entitled to an assignment of leasehold rights covering those depths which may be affected by the drilling of such well or wells. The assignment shall be based upon Samedan's working interest back-in percentage at payout of the earning test well. It is further understood and agreed that said assignment shall be offered to Samedan by you at least thirty (30) days prior to the spud date of the subsequently proposed well, thereafter leasehold rights shall be governed by the terms and conditions of the Joint Operating Agreement provided for herein. Failure to comply shall cause you the forfeiture of any further payout recoupment of the earning test well for said Farmout acreage and it shall be considered as if said well had paid out and the applicable terms and conditions of this agreement relative to payout shall be effective. Said payout forfeiture date shall be commensurate with the spud date of the subsequent well. It is understood that this right will not affect in anyway the obligations of the parties with respect to the initial test well, or any substitutes ~~therefrom.~~

10. Payout:

Payout is hereby defined as that point when you shall have received out of production from the ~~test~~ well the cost of ~~locating, drilling, completing~~ recompleting and equipping said well, and the cost of operating same during the payout period after deducting applicable royalty, overriding royalty, production taxes and windfall profits taxes. In the event said well ceases to produce prior to Operator having received out of production the above stated sum, the salvage value of said well shall be applied to the unrecovered portion of such sum, and any amount in excess of the unrecovered portion shall be owned by the parties hereto in the same proportions as if said well had paid out and Samedan elected to backin. It is understood salvage value shall be computed after deducting costs of plugging and abandoning said well, including the costs of restoring said premises.

11. Payout Notification:

You agree to maintain true and correct books and records, showing the cost and expense incurred by you in connection with the test well as to the ~~drilling, testing,~~ re-completing, equipping and operating, and the production therefrom and such books and records shall, at all reasonable times, be open for inspection and audit by Samedan and/or its representatives. Not less than once every three months you shall furnish to Samedan a detailed statement clearly reflecting costs incurred by you with regard to such well and the production therefrom during the preceeding period and also reflecting the recovered amount of the costs and expenses incurred by you in connection with the test well. Such statements shall be mailed to Samedan Oil Corporation, P. O. Box 909, Ardmore, Oklahoma 73401, Attention: Vice President of Finance,(*) with a copy of such letter being sent to Samedan Oil Corporation, 1400 Saratoga Building, New Orleans, Louisiana 70112, Attention: Division General Manager. Within forty-five (45) days of such time as such well pays out, you shall notify Samedan in writing by registered mail at 1400 Saratoga Building, New Orleans, Louisiana

(*) and Quien Sabe Corporation, P.O. Box 1486, Ardmore, Oklahoma 73401, Attention: Mr. Wirt Batis,

12/82

70112, Attention: Division General Manager,(*) with a copy of such letter being sent by registered mail to Samedan Oil Corporation, P. O. Box 909, Ardmore, Oklahoma 73401, Attention: Vice President of Finance. Said letter shall include the date payout is obtained, a current production rate and cummulative production history report through the end of previous month. We are to have thirty (30) days from the date the notice is received in which to elect to convert said override, and such conversion shall be effective as of the date of payout and the account will be adjusted accordingly. (*) and Quien Sabe Corporation, P.O. Box 1486, Ardmore, Oklahoma 73401, Attention: Mr. Wirt Batis,

12. First Production:

Should any well drilled pursuant to this agreement be placed on production prior to the completion of Division Orders, you agree, upon receipt of a Letter of Indemnification from us, to disburse Samedan's share of net revenue interest from the production of said well(s). Said initial payment shall be mailed to: Samedan Oil Corporation, P. O. Box 84747, Dallas, Texas 75284(*) and made within sixty (60) days of first production. All subsequent payments shall be made on a monthly basis thereafter. (*) and Quien Sabe Corporation, P.O. Box 1486, Ardmore, Oklahoma 73401, Attention: Mr. Wirt Batis,

13. Right of First Refusal:

You hereby grant to Samedan or its designee, the right of First Refusal to purchase all of the production of oil, gas and condensate attributable to your interest in the leasehold interest covered by this agreement, which right of first refusal shall be exercised in the manner hereinafter provided. At such time as production can first be sold from any leasehold interest covered hereby, and prior to any such sale, you shall obtain the best third party offer to purchase your share of the production and notify Samedan of the terms of such offer. Samedan shall have the right, exercisable within thirty (30) days to meet such offer on the same terms and conditions and acquire your production.

14. Gas Purchase Contract:

It is understood the Farmout Area is subject to an existing Gas Purchase Contract between Samedan Oil Corporation and Sam Noble, as Seller and Transcontinental Gas Pipeline Corporation, as Buyer dated December 9, 1976 and Celt agrees to be bound by the terms and conditions of same.

15. Gas Processing Facility:

In the event it becomes necessary for you to construct a gas processing facility, Samedan shall be offered the option to participate in such facility or have its share of gas processed through the facility at a cost no greater than that cost chargeable for like gas being processed by you at the same facility.

16. Minimum Royalty Reimbursement:

You agree to bear the cost of, and reimburse Samedan within thirty (30) days of receipt of invoice for 100% of minimum royalty accruing on the Farmout Leases until such time as you elect to forfeit all rights hereunder, or until Samedan exercises its right to convert its overriding royalty to a working interest on a well by well basis. It is understood that should you elect to forfeit your rights under this agreement such election is to be made in writing at least thirty (30) days prior to the due date of any minimum royalty for the Farmout Leases, failing which you shall remain liable to Samedan for the minimum royalty accrued. It is agreed that Samedan shall not be liable for failure to pay, or the improper payment of, any minimum royalty through clerical error, oversight, or otherwise, provided it has acted in good faith.

8/82

16b. Renewals and Extensions:

Furthermore, in the event any lease or leases, subject to this Farmout Agreement, expire or are lost as a result of title failure, or for any other reason, any new lease, renewal, or extension acquired by you in whole or in part falling within the area of the Farmout Leases shall be considered as an acquisition at your sole expense, for the benefit of Samedan but will still be subject to this Farmout Agreement. It is understood that any such renewals or extensions shall be assigned into Samedan free and clear of any encumbrances other than lessor's royalty. Additionally, it is understood that said renewals or extensions shall also be burdened with the overriding royalty (if any) which presently burdens said leases as of the date of this agreement. If you elect not to renew or extend such leases, then in such event said leases shall no longer be subject to the terms and conditions of the Farmout Agreement. Further, you agree that the terms of this paragraph shall apply for a period of one year from said loss or expiration.

17. Shut-in Payments:

You agree to pay all required shut-in well payments and shall give notice to Samedan of such payment and shall furnish Samedan proof of the shut-in well payment at least thirty (30) days prior to the shut-in well payment date.

18. Reassignment:

After an assignment has been earned, it is understood that in the event any of the Farmout Leases(s) or any portion thereof is no longer being held by production you agree to reassign to us your interest in the lease(s) or portion thereof which is no longer being maintained by production. It is understood said reassignment is to be made within thirty (30) days from the date said lease(s) or portion thereof ceases to be held by production. In the event of reassignment to us by you or by your assignee or sublessee, the leases shall revest in us, free from any overriding royalty or other burden placed thereon by you, your assignee or sublessee. Furthermore, you agree that you will incorporate in any sublease or assignment which you may execute, a provision obligating your assignee or sublessee to protect the rights retained by us in our assignment to you, it being understood that our assignment to you shall include such obligation. ~~Notwithstanding~~ anything to the contrary, should you furnish Samedan ~~within~~ the abovementioned thirty (30) day period, a ~~proposal~~ for further operations to be performed in order to ~~reestablish~~ production and thereby maintain the Farmout ~~Lease~~(s), then Samedan agrees to waive the right of reassignment ~~pending~~ the outcome of the proposed operations. Should such ~~operations~~ result in restoration of production, then Samedan's right of reassignment shall not accrue until after cessation ~~of such production.~~

19. Title Opinions:

It is agreed that ~~at least thirty (30) days prior to the commencement of operations, on any well(s) drilled under the terms of this agreement,~~ you shall forward copies of all title opinions and curative matters relative to said well~~(s)~~. Said information should be sent to Samedan Oil Corporation, 1400 Saratoga Building, New Orleans, Louisiana 70112, Attention: Division Landman.

20. Loss of Rights:

It is understood that the only consequence of your failure to ~~drill and~~ recomplete the ~~test~~ well, ~~and or any subsequent wells,~~ as provided herein shall be the loss of rights which you might have earned by drilling such well or wells. It is understood that you shall remain responsible for any obligations which you incurred through the date of default.

12/82

21. Operating Agreement:

It is understood that during the payout period for the recompleted well as defined herein this Farmout Agreement shall prevail and govern. Upon payout, should Samedan elect to convert its override to a working interest, all further operations pursuant to the well and farmout lease shall be governed by the March 1, 1961 Operating Agreement attached hereto and made a part hereof as Exhibit "C".

22. Liability and Insurance:

It is agreed that Samedan shall have no responsibility or liability in connection with your operations hereunder or with the drilling of said well or wells, and they are to be drilled without any cost to Samedan and you shall indemnify and hold Samedan harmless from any debts, claims, or damages of any kind or character, and from all losses, charges, costs, expenses, penalties, forfeitures, and losses of rights, arising out of or attributable to your acts or non-performance of obligations hereunder. You also agree to carry insurance identical to that required under Exhibit "D" attached hereto and shall supply Samedan with Insurance Certificates evidencing such, at least thirty (30) days prior to the commencement of operations. Said Insurance Certificates shall be mailed to Samedan Oil Corporation, 1400 Saratoga Building, New Orleans, Louisiana 70112, Attention: Division Landman.

23. Geological Data:

You agree to properly test any and all formations in which shows of oil and/or gas are encountered and offer Samedan the opportunity to witness all such tests and surveys, and the results thereof. It is also understood that Samedan's representatives shall have access to the rig floor at all times and to any and all information concerning any well drilled hereunder. As a further express consideration of this agreement, you agree to furnish Samedan with the data set forth on Exhibit "F" attached hereto.

24. Tax Provisions (2 options):

A. The liabilities of the parties hereto shall be several, not joint or collective, and each party shall be responsible only for his or its obligations. It is not the intention of the parties hereto to create any joint venture, agency, mining or other partnership or association or to render them liable as partners, and each party hereto elects to be excluded from the application of Sub-Chapter K of Chapter 1 of Sub-Title A of the U. S. Internal Revenue Code of 1954.

~~B. The parties hereto agree to be bound by the "Tax Provisions" as outlined on Exhibit "C" attached hereto and made a part hereof for all purposes.~~

25. Assignability:

The rights acquired by you hereunder may not be assigned in whole or in part without the written consent of Samedan, and any further assignment shall be made expressly subject to the terms and provisions of this agreement, and the leases affected hereby.

26. Governmental Applications:

In the event you should deem it necessary or desirable to apply to any

state or federal governmental authority for rules or orders governing the spacing of wells or the establishment of units affecting the Farmout Lease(s) you shall, at least thirty (30) days prior to the institution of any such proceedings notify us in writing at 1400 Saratoga Building, New Orleans, Louisiana 70112 of your proposed plan, setting forth in detail the purposes of such application or plan, the results to be achieved thereby, and full and complete information with respect thereto, and shall thereafter keep us fully informed with respect to such plan, including without limitation, any changes or modifications thereof.

At least ten (10) days prior to filing any such application, you shall furnish us with a copy thereof. Furthermore, at least twenty (20) days prior to any hearing pursuant to such application, you shall furnish us with a copy of all maps, plats, exhibits, documents and other material or evidence to be submitted at such hearing in connection with such application.

The furnishing of the information called for herein and the receipt thereof by us shall not be considered an acquiescence by us in any such plans or applications and shall not act to prevent us from any opposing plans applications or plans before the appropriate governmental board or authority if we see fit to do so.

OPERATING AGREEMENT

THIS AGREEMENT, entered into this 1st day of March, 1961, between Midwest Oil Corporation, a Nevada Corporation, hereinafter designated as "Operator", and the signatory parties other than Operator.

WITNESSETH, THAT:

WHEREAS, the parties to this agreement are owners of oil and gas leases covering and, if so indicated, unleased mineral interests in the tracts of land described in Exhibit "A", and all parties have reached an agreement to explore and develop these leases and interests for oil and gas to the extent and as hereinafter provided;

NOW, THEREFORE, it is agreed as follows:

1. DEFINITIONS

As used in this agreement, the following words and terms shall have the meanings here ascribed to them.

(1) The words "party" and "parties" shall always mean a party, or parties, to this agreement.

(2) The parties to this agreement shall always be referred to as "it" or "they", whether the parties be corporate bodies, partnerships, associations, or persons real.

(3) The term "oil and gas" shall include oil, gas, casinghead gas, gas condensate, and all other liquid or gaseous hydrocarbons, unless an intent to limit the inclusiveness of this term is specifically stated.

(4) The term "oil and gas interests" shall mean unleased fee and mineral interests in tracts of land lying within the Unit Area which are owned by parties to this agreement.

(5) The term "Unit Area" shall refer to and include all of the lands, oil and gas leasehold interests and oil and gas interests intended to be developed and operated for oil and gas purposes under this agreement. Such lands, oil and gas leasehold interests and oil and gas interests are described in Exhibit "A"

Exhibit D
Castex Development - Title and Lease History - 001182

(6) The term "drilling unit" shall mean the area fixed for the drilling of one well by order or rule of any state or federal body having authority. If a drilling unit is not fixed by any such rule or order, a drilling unit shall be the drilling unit as established by the pattern of drilling in the Unit Area or as fixed by express agreement of the parties.

(7) All exhibits attached to this agreement are made a part of the contract as fully as though copied in full in the contract.

(8) The words "equipment" and"materials" as used here are synonymous and shall mean and include all oil field supplies and personal property acquired for use in the Unit Area.

2. TITLE EXAMINATION, LOSS OF LEASES AND OIL AND GAS INTERESTS

A. Title Examination:

Operator shall promptly submit abstracts certified from beginning to recent date, together with all title papers in its possession covering leases and oil and gas interests which it is subjecting to this agreement, to Operator's attorney for examination for the benefit of all parties.

A copy of each title opinion, and of each supplemental opinion, and of all final opinions, shall be sent promptly to each party. The opinion of the examining attorney concerning the validity of the title to each oil and gas interest and each lease, and the amount of interest covered thereby shall be binding and conclusive on the parties, but the acceptability of leases as to primary term, royalty provisions, drilling obligations, and special burdens, shall be a matter for approval and acceptance by authorized representative of each party.

B. Failure of Title:

After all titles are approved or accepted, any defects of title that may develop shall be the joint responsibility of all parties, and, if a title loss occurs, it shall be the loss of all parties, with each bearing its proportionate part of the loss and of any liabilities incurred in the loss. If such a loss occurs, there shall be no change in, or adjustment of, the interests of the parties in the remaining portion of the Unit Area.

Exhibit D
Castex Development - Title and Lease History - 001183

C. Loss of Leases for Other Than Title Failure:

If any lease or interest subject to this agreement be lost through failure to develop or because express or implied covenants have not been performed, or if any lease be permitted to expire at the end of its primary term and not be renewed or extended, the loss shall not be considered a failure of title and all such losses shall be joint losses and shall be borne by all parties in proportion to their interests and there shall be no re-adjustment of interests in the remaining portion of the Unit Area.

3. INTERESTS OF PARTIES

Exhibit "A" lists all of the parties, and their respective percentage or fractional interests under this agreement. Unless changed by other provisions, all costs and liabilities incurred in operations under this contract shall be borne and paid, and all equipment and material acquired in operations on the Unit Area shall be owned, by the parties as their interests are given in Exhibit "A". All production of oil and gas from the Unit Area, subject to the payment of lessor's royalties, shall also be owned by the parties in the same manner.

4. OPERATOR OF UNIT

Midwest Oil Corporation shall be the Operator of the Unit Area, and shall conduct and direct and have full control of all operations on the Unit Area as permitted and required by, and within the limits of, this agreement. It shall conduct all such operations in a good and workmanlike manner, but it shall have no liability as Operator to the other parties for losses sustained, or liabilities incurred, except such as may result from gross negligence or from breach of the provisions of this agreement.

5. EMPLOYEES

The number of employees and their selection, and the hours of labor and the compensation for services performed, shall be determined by Operator. All employees shall be the employees of Operator.

5-A CHANGE OF OPERATOR

If, at any time after a period of not less than one (1) year after oil, gas or other minerals are found in paying quantities on the joint property, should any party consider the cost of operating the joint property to be excessive and is willing to attempt to operate the same for the period of one year at a cost less than the cost of operating under the direct control of Operator, party shall deliver to Operator a written statement detailing items of expense contributing

to the alleged excessive cost, together with a proposal whereby they agree to assume the operation of the joint property for a period of one year, which proposal shall set out specific economies which would be effected under the management of party.

Operator shall, within ten (10) days after receipt of such statement and proposal from party, elect in writing to either-

(a) allow party to operate the joint property for a period of one (1) year upon the terms contained in its proposal; or

(b) agree to operate the joint property for such period of one (1) year at a cost consistent with the economies proposed by party.

Should operator elect to allow said party to operate the joint property for such one (1) year period, Operator shall, on the first of the month next ensuing, turn over to party the operation of the joint property, and said party shall operate the same for such period of one (1) year as Operator hereunder and pursuant to the provisions of this Operating Agreement, but at a cost determined by the rates and provisions contained in its said proposal, and if at the expiration of such period of one (1) year Operator agrees to operate the joint property at a cost consistent with that for which party will agree to operate for an additional period of one (1) year, party shall return to Operator the operation of the joint property; and Operator shall thereupon operate the same for the next ensuing period of one (1) year, and thereafter until receipt of a similar statement and proposal from any party, and shall bill said party or parties and they shall pay their portions of such costs of operations calculated in accordance with the provisions hereof, or in accordance with any supplemental agreement which may be made with respect to charges during the one (1) year period hereinabove mentioned. If, however after receipt of the statement and proposal first hereinabove mentioned, Operator elects to continue to operate the joint property, it shall operate the same for the next ensuing one (1) year period following such election at a cost consistent with the rates and terms contained in party's proposal and thereafter until receipt of a similar statement and proposal from any party, and shall bill Non-Operators and they shall pay Operator their portions of such costs of operations calculated in accordanc with the provisions hereof or in accordance with any supplemental agreement which may be made hereto with respect to charges during said period of one (1) year as hereinabove mentioned.

Exhibit D
Castex Development - Title and Lease History - 001185

158

The right of parties to give such notices and proposals and Operator's right to make such elections shall continue throughout the life of this agreement; provided, however, parties shall not have the right to give such notice to Operator until Operator has operated the joint property for at least twelve (12) consecutive months immediately preceding, at an operating cost calculated in accordance with the provisions hereof.

6. COSTS AND EXPENSES

Except as herein otherwise specifically provided, Operator shall promptly pay and discharge all costs and expenses incurred in the development and operation of the Unit Area pursuant to this agreement and shall charge each of the parties hereto with their respective proportionate shares upon the cost and expense basis provided in the Accounting Procedure attached hereto and marked Exhibit "C". If any provisionsof Exhibit "C" should be inconsistent with any provision contained in the body of this agreement, the provisions in the body of this agreement shall prevail.

Operator, at its election, shall have the right from time to time to demand and receive from the other parties payment in advance of their respective shares of the estimated amount of the costs to be incurred in operations hereunder during the next succeeding month, which right may be exercised only by submission to each such party of an itemized statement of such estimated costs, together with an invoice for its share thereof. Each such statement and invoice for the payment in advance of estimated costs shall be submitted on or before the 20th day of the next preceding month. Each party shall pay to Operator its proportionate share of such estimate within fifteen (15) days after such estimate and invoice are received. If any party fails to pay its share of said estimate within said time, the amount due shall bear interest at the rate of six percent (6%) per annum until paid. Proper adjustment shall be made monthly between advances and actual cost, to the end that each party shall bear and pay its proportionate share of actual costs incurred, and no more.

7. OPERATOR'S LIEN

Operator is given a first and preferred lien on the interest of each party covered by this contract, and in each party's interest in oil and gas produced and the proceeds thereof, and upon each party's interest in material and equipment, to secure the payment of all sums due from each such party to Operator.

In the event any party fails to pay any amount owing by it to Operator as its share of such costs and expense or such advance estimate within the time

Exhibit D
Castex Development - Title and Lease History - 001186

limited for payment thereof, Operator, without prejudice to other existing remedies, is authorized, at its election, to collect from the purchaser or purchasers of oil or gas, the proceeds accruing to the working interest or interests in the Unit Area of the delinquent party up to the amount owing by such party, and each purchaser of oil or gas is authorized to rely upon Operator's statement as to the amount owing by such party.

In the event of the neglect or failure of any non-operating party to promptly pay its proportionate part of the cost and expense of development and operation when due, the other non-operating parties and Operator, within thirty (30) days after the rendition of statements therefor by Operator, shall proportionately contribute to the payment of such delinquent indebtedness and the non-operating parties so contributing shall be entitled to the same lien rights as are granted to Operator in this section. Upon the payment by such delinquent or defaulting party to Operator of any amount or amounts on such delinquent indebtedness, or upon any recovery on behalf of the non-operating parties under the lien conferred above, the amount or amounts so paid or recovered shall be distributed and paid by Operator to the other non-operating parties and Operator proportionately in accordance with the contributions theretofore made by them.

8. TERM OF AGREEMENT

This agreement shall remain in full force and effect for as long as any of the oil and gas leases subjected to this agreement remain or are continued in force as to any part of the Unit Area, whether by production, extension, renewal or otherwise.

9. LIMITATION ON EXPENDITURES

Without the consent of all parties: (a) No well shall be drilled on the Unit Area except any well expressly provided for in this agreement and except any well drilled pursuant to the provisions of Section 10 of this agreement, it being understood that the consent to the drilling of a well shall include consent to all necessary expenditures in the drilling, testing, completing, and equipping of the well, including necessary tankage; (b) No well

Exhibit D
Castex Development - Title and Lease History - 001187

shall be reworked, plugged back or deepened except a well reworked, plugged back or deepened pursuant to the provisions of Section 10 of this agreement, it being understood that the consent to the reworking, plugging back or deepening of a well shall include consent to all necessary expenditures in conducting such operations and completing and equipping of said well to produce, including necessary tankage; (c) Operator shall not undertake any single project reasonably estimated to require an expenditure in excess of Five Thousand Dollars ($5,000.00) except in connection with a well the drilling, reworking, deepening, or plugging back of which has been previously authorized by or pursuant to this agreement; provided, however, that in case of explosion, fire, flood, or other sudden emergency, whether of the same or different nature, Operator may take such steps and incur such expenses as in its opinion are required to deal with the emergency and to safeguard life and property, but Operator shall, as promptly as possible, report the emergency to the other parties. Operator shall, upon request, furnish copies of its "Authority For Expenditures" for any single project costing in excess of $5,000.00.

10. OPERATIONS BY LESS THAN ALL PARTIES

If all the parties cannot mutually agree upon the drilling or completion attempt of any well on the Unit Area or upon the reworking, deepening or plugging back of a dry hole drilled at the joint expense of all parties or a well jointly owned by all the parties and not then producing in paying quantities on the Unit Area, any party or parties wishing to drill, complete, rework, deepen or plug back such a well may give the other parties written notice of the proposed operation, specifying the work to be performed, the location, proposed depth, objective formation and the estimated cost of the operation. The parties receiving such a notice shall have thirty (30) days (except as to reworking, plugging back or drilling deeper, where a drilling rig is on location, the period shall be limited to forty-eight (48) hours exclusive of Saturday or Sunday) after receipt of the notice within which to notify the parties wishing to do the work whether they elect to participate in the cost of the proposed operation. Failure of a party receiving such a notice to so reply to it within the period above fixed shall constitute an election by that party not to participate in the cost of the proposed operation

Exhibit D
Castex Development - Title and Lease History - 001188

If any party receiving such a notice elects not to participate in the proposed operation (such party or parties being hereafter referred to as "Non-Consenting Party"), then in order to be entitled to the benefits of this section, the party or parties giving the notice and such other parties as shall elect to participate in the operation (all such parties being hereafter referred to as the"Consenting Parties") shall, within thirty (30) days after the expiration of the notice period of thirty (30) days (or as promptly as possible after the expiration of the 48-hour period where the drilling rig is on location, as the case may be) actually commence work on the proposed operation and complete it with due diligence.

The entire cost and risk of conducting such operations shall be borne by the Consenting Parties in the proportions that their respective interests as shown in Exhibit "A" bear to the total interests of all Consenting Parties. Consenting Parties shall keep the leasehold estates involved in such operations free and clear of all liens and encumbrances of every kind created by or arising from the operations of the Consenting Parties. If such an operation results in a dry hole, the Consenting Parties shall plug and abandon the well at their sole cost, risk and expense. If any well drilled, completed, reworked, deepened or plugged back under the provisions of this section results in a producer of oil and/or gas in paying quantities, the Consenting Parties shall complete and equip the well to produce at their sole cost and risk, and the well shall then be turned over to Operator and shall be operated by it at the expense and for the account of the Consenting Parties. Upon commencement of operations for the drilling, completion, reworkin deepening or plugging back of any such well by Consenting Parties in accordance with the provisions of this section, each Non-Consenting Party shall be deemed to have relinquished to Consenting Parties, and the Consenting Parties shall own and be entitled to receive, in proportion to their respective interests, all of such Non-Consenting Party's interest in the well, its leasehold operating rights, and share of production therefrom until the proceeds of market value thereof (after deducting production taxes, royalty, overriding royalty and other interests payable out of or measured by the production from such well accruing with respect to such interest until it reverts) shall equal the total of the following:

Exhibit D
Castex Development - Title and Lease History - 001189

(A) 100% of each such Non-Consenting Party's share of the cost of any newly acquired surface equipment beyond the wellhead connections (including, but not limited to, stock tanks, separators, treaters, pumping equipment and piping), plus 100% of each such Non-Consenting Party's share of the cost of operation of the well commencing with first production and continuing until each such Non-Consenting Party's relinquished interest shall revert to it under other provisions of this section, it being agreed that each Non-Consenting Party's share of such costs and equipment will be that interest which would have been chargeable to each Non-Consenting Party had it participated in the well from the beginning of the operation; and

(B) 200% of that portion of the costs and expenses of drilling, reworking, deepening or plugging back, testing and completing, after deducting any cash contributions received under Section 22, and 200% of that portion of the cost of newly acquired equipment in the well (to and including the wellhead connections), which would have been chargeable to such Non-Consenting Party if it had participated therein.

In the case of any reworking, completion, plugging back or deeper drilling operation, the Consenting Parties shall be permitted to use, free of cost, all casing, tubing and other equipment in the well, but the ownership of all such equipment shall remain unchanged; and upon abandonment of a well after such reworking, plugging back or deeper drilling, the Consenting Parties shall account for all such equipment to the owners thereof, with each party receiving its proportionate part in kind or in value.

Within sixty (60) days after the completion of any operation under this section, the party conducting the operations for the Consenting Parties shall furnish each Non-Consenting Party with an inventory of the equipment in and connected to the well, and an itemized statement of the cost of drilling, completing, deepening,

Exhibit D
Castex Development - Title and Lease History - 001190

plugging back, testing and equipping the well for production; or, at its opinion, the operating party, in lieu of an itemized statement of such costs of operation, may submit a detailed statement of monthly billings. Each month thereafter, during the time the Consenting Parties are being reimbursed as provided above, the Consenting Parties shall furnish the Non-Consenting Parties with an itemized statement of all costs and liabilities incurred in the operation of the well, together with a statement of the quantity of oil and gas produced from it and the amount of proceeds realized from the sale of the well's working interest production during the preceding month. Any amount realized from the sale or other disposition of equipment newly acquired in connection with any such operation which would have been owned by a Non-Consenting Party had it participated therein shall be credited against the total unreturned costs of the work done and of the equipment purchased, in determining when the interest of such Non-Consenting Party shall revert to it as above provided; if there is a credit balance it shall be paid to such Non-Consenting Party.

If and when the Consenting Parties recover from a Non-Consenting Party's relinquished interest the amounts provided for above, the relinquished interests of such Non-Consenting Party shall automatically revert to it and from and after such reversion such Non-Consenting Party shall own the same interest in such well, the operating rights and working interest therein, the material and equipment in or pertaining thereto, and the production therefrom as such Non-Consenting Party would have owned had it participated in the drilling, completion, reworking, deepening or plugging back of said well. Thereafter, such Non-Consenting Party shall be charged with and shall pay its proportionate part of the further costs of the operation of said well in accordance with the terms of this agreement and the accounting procedure schedule (Exhibit "C") attached hereto.

Notwithstanding the provisions of this Section 10, it is agreed that without the mutual consent of all parties, no wells shall be completed in or produced from a source of supply from which a well located elsewhere on the Unit Area is producing, unless such well conforms to the then-existing well spacing pattern for such source of supply.

Exhibit D
Castex Development - Title and Lease History - 001191

The provisions of this section shall apply to the reworking, deepening, or plugging back of the initial test well, and to all other wells drilled, reworked, deepened, or plugged back, or proposed to be drilled, reworked, deepened or plugged back, upon the Unit Area subsequent to the drilling of the initial test well.

11. RIGHT TO TAKE PRODUCTION IN KIND

Each party shall take in kind or separately dispose of its proportionate share of all oil and gas produced from the Unit Area, exclusive of production which may be used in development and producing operations and in preparing and treating oil for marketing purposes and production unavoidably lost. Each party shall pay or deliver, or cause to be paid or delivered, all royalties, overriding royalties, or other payments due on its share of such production, and shall hold the other parties free from any liability therefor. Any extra expenditure incurred in the taking in kind or separate disposition by any party of its proportionate share of the production shall be borne by such party.

Each party shall execute all division orders and contracts of sale pertaining to its interest in production from the Unit Area, and shall be entitled to receive payment direct from the purchaser or purchasers thereof for its share of all production.

In the event any party shall fail to make the arrangements necessary to take in kind or separately dispose of its proportionate share of the oil and gas produced from the Unit Area, Operator shall have the right, subject to revocation at will by the party owning it, but not the obligation, to purchase such oil and gas or sell it to others for the time being, at not less than the market price prevailing in the area, which shall in no event be less than the price which Operator receives for its portion of the oil and gas produced from the Unit Area. Any such purchase or sale by Operator shall be subject always to the right of the owner of the production to exercise at any time its right to take in kind, or separately dispose of, its share of all oil and gas not previously delivered to a purchaser. Notwithstanding the foregoing, Operator shall not make a sale into interstate commerce of any other party's share of gas production without first giving such other party sixty (60) days notice of such intended sale.

Exhibit D
Castex Development - Title and Lease History - 001192

12. ACCESS TO UNIT AREA

Each party shall have access to the Unit Area at all reasonable times, at its sole risk, to inspect or observe operations, and shall have access at reasonable times to information pertaining to the development or operation thereof, including Operator's books and records relating thereto. Operator shall, upon request, furnish each of the other parties with copies of all drilling reports, well logs, tank tables, daily gauge and run tickets and reports of stock on hand at the first of each month, and shall make available samples of any cores or cuttings taken from any well drilled on the Unit Area.

13. DRILLING CONTRACTS

All wells drilled on the Unit Area shall be drilled on a competitive contract basis at the usual rates prevailing in the area. Any party to this agreement, if it so desires, may employ its own tools and equipment in the drilling of wells, but its charges therefor shall not exceed the prevailing rates in the field, and the rate of such charges shall be agreed upon by the parties in writing before drilling operations are commenced, and such work shall be performed by such party under the same terms and conditions as shall be customary and usual in the field in contracts of independent contractors who are doing work of a similar nature.

14. ABANDONMENT OF WELLS

No well, other than any well which has been drilled or reworked pursuant to Section 10 hereof for which the Consenting Parties have not been fully reimbursed as therein provided, which has been completed as a producer shall be plugged and abandoned without the consent of all parties; provided, however, if all parties do not agree to the abandonment of any well, those wishing to continue its operation shall tender to each of the other parties its proportionate share of the value of the well's salvable material and equipment, determined in accordance with the provisions of Exhibit "C", less the estimated cost of salvaging and the estimated cost of plugging and abandoning. Each abandoning party shall then assign to the non-abandoning parties, without warranty, express or implied, as to title or as to quantity, quality, or fitness for use of the equipment and material, all of its interest

Exhibit D
Castex Development - Title and Lease History - 001193

in the well and its equipment, together with its interest in the leasehold estate as to, but only as to, the interval or intervals of the formation or formations then open to production. The assignments so limited shall encompass the "drilling unit" upon which the well is located. The payments by, and the assignments to, the assignees shall be in a ratio based upon the relationship of their respective percentages of participation in the Unit Area to the aggregate of the percentages of participation in the Unit Area of all assignees. There shall be no re-adjustment of interest in the remaining portion of the Unit Area.

After the assignment, the assignors shall have no further responsibility, liability, or interest in the operation of or production from the well in the interval or intervals then open. Upon request of the assignees, Operator shall continue to operate the assigned well for the account of the non-abandoning parties at the rates and charges contemplated by this agreement, plus any additional cost and charges which may arise as the result of the separate ownership of the assigned well.

15. DELAY RENTALS AND SHUT-IN WELL PAYMENTS

Operator shall pay all delay rentals and/or shut-in gas royalties which may become due and payable under the terms and provisions of the leases covered hereby, and any such payments shall be charged by Operator to the joint account.

16. PREFERENTIAL RIGHT TO PURCHASE

Should any party desire to sell all or any part of its interests under this contract, or its rights and interests in the Unit Area, it shall promptly give written notice to the other parties, with full information concerning its proposed sale, which shall include the name and address of the prospective purchaser (who must be ready, willing and able to purchase), the purchase price, and all other terms of the offer. The other parties shall then have an optional prior right, for a period of ten (10) days after receipt of the notice, to purchase on the same terms and conditions the interest which the other party proposes to sell; and, if this optional right is exercised, the

Exhibit D
Castex Development - Title and Lease History - 001194

purchasing parties shall share the purchased interest in the proportions that the interest of each bears to the total interest of all purchasing parties. However, there shall be no preferential right to purchase in those cases where any party wishes to mortgage its interest, or to dispose of its interests by merger, reorganization, consolidation, or sale of all of its assets, or a sale or transfer of its interests to a subsidiary or parent company, or subsidiary of a parent company, or to any company in which any one party owns a majority of the stock.

Should a sale be made by Operator of its rights and interests, the other parties shall have the right within sixty (60) days after the date of such sale, by majority vote in interest, to select a new operator. If a new operator is not so selected, the transferee of the present Operator shall assume the duties of and act as Operator. In either case, the retiring Operator shall continue to serve as Operator, and discharge its duties in that capacity under this agreement, until its successor Operator is selected and begins to function, but the present operator shall not be obligated to continue the performance of its duties for more than 120 days after the sale of its rights and interests has been completed.

17. MAINTENANCE OF UNIT OWNERSHIP

For the purpose of maintaining uniformity of ownership in the oil and gas leasehold interests covered by this contract, and notwithstanding any other provisions to the contrary, no party shall sell, encumber, transfer or make other disposition of its interest in the leases embraced within the Unit Area and in wells, equipment and production unless such disposition covers either:

(1) the entire interest of the party in all leases and equipment and production; or

(2) an equal undivided interest in all leases and equipment and production in the Unit Area.

Every such sale, encumbrance, transfer or other disposition made by any party shall be made expressly subject to this agreement, and shall be made without prejudice to the rights of the other parties.

If at any time the interest of any party is divided among and owned by four or more co-owners, Operator may, at its discretion, require such

Exhibit D
Castex Development - Title and Lease History - 001195

co-owners to appoint a single trustee or agent with full authority to receive notices, approve expenditures, receive billings for and approve and pay such party's share of the joint expenses, and to deal generally with, and with power to bind, the co-owners of such party's interests within the scope of the operations embraced in this contract; however, all such co-owners shall enter into and execute all contracts or agreements for the disposition of their respective shares of the oil and gas produced from the Unit Area and they shall have the right to receive, separately, payment of the sale proceeds thereof.

18. RESIGNATION OF OPERATOR

Operator may resign from its duties and obligations as Operator at any time upon written notice of not less than ninety (90) days given to all other parties. In this case, all parties to this contract shall select by majority vote in interest, not in numbers, a new operator who shall assume the responsibilities and duties, and have the rights, prescribed for Operator by this agreement. The retiring Operator shall deliver to its successor all records and information necessary to the discharge by the new Operator of its duties and obligations.

19. LIABILITY OF PARTIES

The liability of the parties shall be several, not joint or collective. Each party shall be responsible only for its obligations, and shall be liable only for its proportionate share of the costs of developing and operating the Unit Area. Accordingly, the lien granted by each party to Operator in Section 7 is given to secure only the debts of each severally. It is not the intention of the parties to create, nor shall this agreement be construed as creating, a mining or other partnership or association, or to render them liable as partners.

20. RENEWAL OR EXTENSION OF LEASE

If any party secures a renewal of any oil and gas lease subject to this contract, each and all of the other parties shall be notified promptly, and shall have the right to participate in the ownership of the renewal lease by paying to the party who acquired it their several proper proportionate shares

Exhibit D
Castex Development - Title and Lease History - 001196

of the acquisition cost, which shall be in proportion to the interests held at that time by the parties in the Unit Area.

If some, but less than all, of the parties elect to participate in the purchase of a renewal lease, it shall be owned by the parties who elect to participate therein, in a ratio based upon the relationship of their respective percentage of participation in the unit area to the aggregate of the percentages of participation in the unit area of all parties participating in the purchase of such renewal lease. Any renewal lease in which less than all the parties elect to participate shall not be subject to this agreement.

Each party who participates in the purchase of a renewal lease shall be given an assignment of its proportionate interest therein by the acquiring party.

The provisions of this section shall apply to renewal leases whether they are for the entire interest covered by the expiring lease or cover only a portion of its area or an interest therein. Any renewal lease taken before the expiration of its predecessor lease, or taken or contracted for within six (6) months after the expiration of the existing lease shall be subject to this provision; but any lease taken or contracted for more than six (6) months after the expiration of an existing lease shall not be deemed a renewal lease and shall not be subject to the provisions of this section.

The provisions in this section shall apply also and in like manner to extensions of oil and gas leases.

21. SURRENDER OF LEASES

The leases covered by this agreement, in so far as they embrace acreage in the Unit Area, shall not be surrendered in whole or in part unless all parties consent.

However, should any party desire to surrender its interest in any lease or in any portion thereof, and other parties not agree or consent, the party desiring to surrender shall assign, without express or implied warranty of title, all of its interest in such lease, or portiont thereof, and any well, material and equipment which may be located thereon and any rights in

Exhibit D
Castex Development - Title and Lease History - 001197

production thereafter secured, to the parties not desiring to surrender it. Upon such assignment, the assigning party shall be relieved from all obligations thereafter accruing, but not theretofore accrued, with respect to the acreage assigned and the operation of any well thereon, and the assigning party shall have no further interest in the lease assigned and its equipment and production. The parties assignee shall pay to the party assignor the reasonable salvage value of the latter's interest in any wells and equipment on the assigned acreage, determined in accordance with the provisions of Exhibit "C", less the estimated cost of salvaging and the estimated cost of plugging and abandoning. If the assignment is in favor of more than one party, the assigned interest shall be shared by the parties assignee in the proportions that the interest of each bears to the interest of all parties assignee.

Any assignment or surrender made under this provision shall not reduce or change the assignors' or surrendering parties' interest, as it was immediately before the assignment, in the balance of the Unit Area; and the acreage assigned or surrendered, and subsequent operations thereon, shall not thereafter be subject to the terms and provisions of this agreement.

22. ACREAGE OR CASH CONTRIBUTIONS

If any party receives while this agreement is in force a contribution of cash toward the drilling of a well or any other operation on the Unit Area, such contribution shall be paid to the party who conducted the drilling or other operation and shall be applied by it against the cost of such drilling or other operation. If the contribution be in the form of acreage, the party to whom the contribution is made shall promptly execute an assignment of the acreage, without warranty of title, to all parties to this agreement in proportion to their interests in the Unit Area at that time, and such acreage shall become a part of the Unit Area and be governed by all the provisions of this contract. Each party shall promptly notify all other parties of all acreage or money contributions it may obtain in support of any well or any other operation on the Unit Area.

Exhibit D
Castex Development - Title and Lease History - 001198

23. PROVISION CONCERNING TAXATION

Each of the parties hereto elects, under the authority of Section 761(a) of the Internal Revenue Code of 1954, to be excluded from the application of all of the provisions of Subchapter K of Chapter 1 of Subtitle A of the Internal Revenue Code of 1954. If the income tax laws of the state or states in which the property covered hereby is located contain, or may hereafter contain, provisions similar to those contained in the Subchapter of the Internal Revenue Code of 1954 above referred to under which a similar election is permitted, each of the parties agrees that such election shall be exercised. Each party authorizes and directs the Operator to execute such an election or elections on its behalf and to file the election with the proper governmental office or agency. If requested by the Operator so to do, each party agrees to execute and join in such an election.

Operator shall render for ad valorem taxation all property subject to this agreement which by law should be returned for such taxes, and it shall pay all such taxes assessed thereon before they become delinquent. Operator shall bill all other parties for their proportionate share of all tax payments in the manner provided in Exhibit "C".

If any tax assessment is considered unreasonable by Operator, it may at its discretion protest such valuation within the time and manner prescribed by law, and prosecute the protest to a final determination, unless all parties agree to abandon the protest prior to final determination. When any such protested valuation shall have been finally determined, Operator shall pay the assessment for the joint account, together with interest and penalty accrued, and the total cost shall then be assessed against the parties, and be paid by them, as provided in Exhibit "C".

24. INSURANCE

At all times while operations are conducted hereunder, Operator shall comply with the Workmen's Compensation Law of the State where the operations are being conducted. Operator shall also carry or provide insurance for the benefit of the joint account of the parties as may be outlined in Exhibit "B" attached to and made a part hereof. Operator shall require all contractors engaged in work on or for the Unit Area to comply

Exhibit D
Castex Development - Title and Lease History - 001199

with the Workmen's Compensation Law of the State where the operations are being conducted and to maintain such other insurance as Operator may require.

25. CLAIMS AND LAWSUITS

If any party to this contract is sued on an alleged cause of action arising out of operations on the Unit Area, or on an alleged cause of action involving title to any lease or oil and gas interest subjected to this contract, it shall give prompt written notice of the suit to the Operator and all other parties.

The defense of lawsuits shall be under the general direction of a committee of lawyers representing the parties, with Operator's attorney as Chairman. Suits may be settled during litigation only with the joint consent of all parties. No charge shall be made for services performed by the staff attorneys for any of the parties, but otherwise all expenses incurred in the defense of suits, together with the amount paid to discharge any final judgment, shall be considered costs of operation and shall be charged to and paid by all parties in proportion to their then interests in the Unit Area. Attorneys, other than staff attorneys for the parties, shall be employed in lawsuits involving Unit Area operations only with the consent of all parties; if outside counsel is employed, their fees and expenses shall be considered Unit Area expense and shall be paid by Operator and charged to all of the parties in proportion to their then interests in the Unit Area. The provisions of this paragraph shall not be applied in any instance where the loss which may result from the suit is treated as an individual loss rather than a joint loss under prior provisions of this agreement, and all such suits shall be handled by and be the sole responsibility of the party or parties concerned.

Damage claims caused by and arising out of operations on the Unit Area, conducted for the joint account of all parties, shall be handled by Operator and its attorneys, the settlement of claims of this kind shall be within the discretion of Operator so long as the amount paid in settlement of any one claim does not exceed one thousand ($1,000.00) dollars and, if settled, the sums paid in settlement shall be charged as expense to and be paid by all parties in proportion to their then interests in the Unit Area.

Exhibit D
Castex Development - Title and Lease History - 001200

26. FORCE MAJEURE

If any party is rendered unable, wholly or in part, by force majeure to carry out its obligations under this agreement, other than the obligation to make money payments, that party shall give to all other parties prompt written notice of the force majeure with reasonably full particulars concerning it; thereupon, the obligations of the party giving the notice, so far as they are affected by the force majeure, shall be suspended during, but no longer than, the continuance of the force majeure. The affected party shall use all possible diligence to remove the force majeure as quickly as possible.

The requirement that any force majeure shall be remedied with all reasonable dispatch shall not require the settlement of strikes, lockouts, or other labor difficulty by the party involved, contrary to its wishes; how all such difficulties shall be handled shall be entirely within the discretion of the party concerned.

The term "force majeure" as here employed shall mean an act of God, strike, lockout, or other industrial disturbance, act of the public enemy, war, blockade, public riot, lightning, fire, storm, flood, explosion, governmental restraint, unavailability of equipment, and any other cause, whether of the kind specifically enumerated above or otherwise, which is not reasonably within the control of the party claiming suspension.

27. NOTICES

All notices authorized or required between the parties, and required by any of the provisions of this agreement, shall, unless otherwise specifically provided, be given in writing by United States mail or Western Union Telegram, postage or charges prepaid, and addressed to the party to whom the notice is given at the addresses listed on Exhibit "A". The originating notice to be given under any provisions hereof shall be deemed given only when received by the party to whom such notice is directed and the time for such party to give any notice in response thereto shall run from the date the originating notice is received. The second or any responsive notice shall be deemed given when deposited in the United States mail or with the Western Union Telegraph Company, with postage or charges

Exhibit D
Castex Development - Title and Lease History - 001201

prepaid. Each party shall have the right to change its address at any time, and from time to time, by giving written notice thereof to all other parties.

28. OTHER CONDITIONS, IF ANY, ARE:

PRESENT COMPLETED WELLS

. The purchase of the Midwest-Samedan No. 3 - Boudreaux (formerly known as the General Crude-Waterford No. 1 - Boudreaux) and the drilling and completion of the Midwest-Samedan No. 1 - Boudreaux, which has heretofore been completed on the property covered hereby, shall be expressly subject to all of the terms and provisions of this Agreement.

DWK. MOC SOC JSW SA, I A. SN

This agreement may be signed in counterpart, and shall be binding upon the parties and upon their heirs, successors, representatives and assigns.

EXHIBIT "A"

Attached to and made a part of Operating Agreement dated March 1, 1961, between Midwest Oil Corporation, as Operator, and Samedan Oil Corporation, Samedan Associates, Inc. and Sam Noble, as Non-Operators.

(1) UNIT AREA

A certain tract of land containing 1103.35 acres, more or less, and being situated as follows:

BEGINNING at a point 3068.0' S 62° E from the NW corner of Irregular Section 17, T.10S.,R.2W., THENCE N 62° 29' W along the North line of Section 17 3068.0' to the NW corner, THENCE continuing along the north line of Irregular Section 39, T.10S., R.3W., 482.0' to the most northerly NW corner of said section, THENCE S 52° 32½' W 7349.7' along the west line of said Section 39 to a corner on the east line of Section 14, THENCE S 0° 04' E 3395.0' to the southwest corner of Lot 2 of Irregular Section 13, T.10S.,R.3W., THENCE S 89° 48' E 3262.6' along the south line of said Lot 2 to the southeast corner, THENCE S 62° 41' E 4120.0' to a corner on the right descending bank of the Mermentau River, THENCE northerly with the meander of said River along the right bank to a point 235.0' east of the most southerly corner of irregular section 17, T.10S.,R.2W., THENCE northerly as the meander line of the no-name coulee meanders to the point of beginning. BOUNDED Northerly by Acadia Development Co., Inc., the Mermentau River and Texas Company, Northwesterly by Annie R. Hebert and Frank C. Perl, West by Louise C. Miller and Albert Brosius, East by Texas Company and Mermentau River, South by D. C. Ritchie, C. T. Golden, Bryan Harbert, Mermentau River and The Texas Company.

LESS AND EXCEPT from above tract:

A. The most northerly 160 acres, being a rectangular shaped tract in the northern part of Irregular Section 39, T.10S., R.3W., and northwest portion of Irregular Section 17, T.10S., R.2W., and more specifically described in a Partial Release of Oil, Gas and Mineral Lease dated March 5, 1954, recorded under Entry No. 218422, in Conveyance Book 187, Page 379.

B. 10 acres in the northwest corner of Section 18, T.10S.,R. 2W., and partly in Section 39, T.10S.,R.3W., being property purchased by Fred Shutts and in a deed dated March 6, 1936 (CB 66, Page 101, Conveyance Records of Jefferson Davis Parish,Louisiana)

C. 10 acres in Section 18, T.10S.,R.2W., being the property conveyed to Pelican Oil Purchasers, Inc., by deed dated March 3, 1949, recorded under file no. 173883, conveyance book 139, Page 3 of the records of Jefferson Davis Parish,Louisiana.

TRACT NO.2

A tract containing 16.5 acres, more or less, and located along the north line of Irregular Section 17, T.10S.,R.2W. and being in said Section 17, T.10S.,R.2W., bounded: North by Acadia Development Company, Inc., South, East and West, by Texas Company fee lands.

TRACT NO. 3

A tract containing 5.5 acres, more or less, and located along the North line of Irregular Section 17, T.10S.,R.2W., and being in said Section 17,T.10S.,R.2W., bounded: North by O. B. Zigler and Acadia Development Co., Inc. and South, East and West by The Texas Company fee l

INSURANCE

The parties hereto, in proportion to their respective liabilities for operating costs, shall bear the cost of damages that may be incurred either to the joint property or to others in connection with operations hereunder, where protection against such damage is not covered by insurance. Operator shall obtain, and at all times while operations are being carried on hereunder maintain in effect, insurance by a reliable and responsible insurance company or companies, or assume the responsibility for protection comparable to that covered by standard form insurance policies, as to the following risks:

(a) Workmen's Compensation Insurance to fully comply with the laws of the State of Louisiana and employers' liability insurance with limits of not less than $25,000.00.

(b) Automobile Public Liability Insurance with limits of not less than $100,000.00 per person and $300,000.00 per accident, and Automobile Property Damage Insurance of $10,000.00, per accident.

(c) General Public Liability Insurance with limits of not less than $100,000.00 per person and $300,000.00 per accident and General Property Damage Liability with limits of $100,000.00.

Premiums for such insurance coverage shall be charged to the joint account.

EXHIBIT "C" Operating Agreement dated

PASO-T-1955-2

Attached to and made a part of March 1, 1961, between Midwest Oil Corporation, as Operator, and Smedan Oil Corporation, Smedan Associates, Inc. and Sam Noble, as Non-Operators

ACCOUNTING PROCEDURE

(UNIT AND JOINT LEASE OPERATIONS)

I. GENERAL PROVISIONS

1. Definitions

"Joint property" as herein used shall be construed to mean the subject area covered by the agreement to which this "Accounting Procedure" is attached.

"Operator" as herein used shall be construed to mean the party designated to conduct the development and operation of the subject area for the joint account of the parties hereto.

"Non-Operator" as herein used shall be construed to mean any one or more of the non-operating parties.

2. Statements and Billings

Operator shall bill Non-Operator on or before the last day of each month for its proportionate share of costs and expenditures during the preceding month. Such bills will be accompanied by statements, reflecting the total costs and charges as set forth under Subparagraph A ..... below:

A. Statement in detail of all charges and credits to the joint account.

B. Statement of all charges and credits to the joint account, summarized by appropriate classifications indicative of the nature thereof.

C. Statements as follows:

(1) Detailed statement of material ordinarily considered controllable by operators of oil and gas properties;

(2) Statement of ordinary charges and credits to the joint account summarized by appropriate classifications indicative of the nature thereof; and

(3) Detailed statement of any other charges and credits.

3. Payments by Non-Operator

Each party shall pay its proportion of all such bills within fifteen (15) days after receipt thereof. If payment is not made within such time, the unpaid balance shall bear interest at the rate of six per cent (6%) per annum until paid.

4. Adjustments

Payment of any such bills shall not prejudice the right of Non-Operator to protest or question the correctness thereof. Subject to the exception noted in Paragraph 1 of this section I, all statements rendered to Non-Operator by Operator during any calendar year shall conclusively be presumed to be true and correct after twenty-four (24) months following the end of any such calendar year, unless within the said twenty-four (24) month period Non-Operator takes written exception thereto and makes claim on Operator for adjustment. Failure on the part of Non-Operator to make claim on Operator for adjustment within such period shall establish the correctness thereof and preclude the filing of exceptions thereto or making of claims for adjustment thereon. The provisions of this paragraph shall not prevent adjustments resulting from physical inventory of property as provided for in Section VI, Inventories, hereof.

5. Audits

A Non-Operator, upon notice in writing to Operator and all other Non-Operators, shall have the right to audit Operator's accounts and records relating to the accounting hereunder for any calendar year within the twenty-four (24) month period following the end of such calendar year, provided, however, that Non-Operator must take written exception to and make claim upon the Operator for all discrepancies disclosed by said audit within said twenty-four (24) month period. Where there are two or more Non-Operators, the Non-Operators shall make every reasonable effort to conduct joint or simultaneous audits in a manner which will result in a minimum of inconvenience to the Operator.

II. DEVELOPMENT AND OPERATING CHARGES

Subject to limitations hereinafter prescribed, Operator shall charge the joint account with the following items:

1. Rentals and Royalties

Delay or other rentals, when such rentals are paid by Operator for the joint account; royalties, when not paid directly to royalty owners by the purchaser of the oil, gas, casinghead gas, or other products.

2. Labor

A. Salaries and wages of Operator's employees directly engaged on the joint property in the development, maintenance, and operation thereof, including salaries or wages paid to geologists and other employees who are temporarily assigned to and directly employed on a drilling well.

B. Operator's cost of holiday, vacation, sickness and disability benefits, and other customary allowances applicable to the salaries and wages chargeable under Subparagraph 2 A and Paragraph 11 of this Section II. Costs under this Subparagraph 2 B may be charged on a "when and as paid basis" or by "percentage assessment" on the amount of salaries and wages chargeable under Subparagraph 2 A and Paragraph 11 of this Section II. If percentage assessment is used, the rate shall be based on the Operator's cost experience.

C. Costs of expenditures or contributions made pursuant to assessments imposed by governmental authority which are applicable to Operator's labor cost of salaries and wages as provided under Subparagraphs 2 A, 2 B, and Paragraph 11 of this Section II.

3. Employee Benefits

Operator's current cost of established plans for employees' group life insurance, hospitalization, pension, retirement, stock purchase, thrift, bonus, and other benefit plans of a like nature, applicable to Operator's labor cost, provided that the total of such charges shall not exceed ten per cent (10%) of Operator's labor costs as provided in Subparagraphs A and B of Paragraph 2 of this Section II and in Paragraph 11 of this Section II.

4. Material

Material, equipment, and supplies purchased or furnished by Operator for use of the joint property. So far as it is reasonably practical and consistent with efficient and economical operation, only such material shall be purchased for or transferred to the joint property as may be required for immediate use; and the accumulation of surplus stocks shall be avoided.

5. Transportation

Transportation of employees, equipment, material, and supplies necessary for the development, maintenance, and operation of the joint property subject to the following limitations:

A. If material is moved to the joint property from vendor's or from the Operator's warehouse or other properties, no charge shall be made to the joint account for a distance greater than the distance from the nearest reliable supply store or railway receiving point where such material is available, except by special agreement with Non-Operator.

B. If surplus material is moved to Operator's warehouse or other storage point, no charge shall be made to the joint account for a distance greater than the distance from the nearest reliable supply store or railway receiving point, except by special agreement with Non-Operator. No charge shall be made to the joint account for moving material to other properties belonging to Operator, except by special agreement with Non-Operator.

6. Service

A. Outside Services:
The cost of contract services and utilities procured from outside sources.

B. Use of Operator's Equipment and Facilities:
Use of and service by Operator's exclusively owned equipment and facilities as provided in Paragraph 1 of Section III entitled "Operator's Exclusively Owned Facilities."

7. Damages and Losses to Joint Property and Equipment

All costs or expenses necessary to replace or repair damages or losses incurred by fire, flood, storm, theft, accident, or any other cause not controllable by Operator through the exercise of reasonable diligence. Operator shall furnish Non-Operator written notice of damages or losses incurred as soon as practicable after report of the same has been received by Operator.

8. Litigation Expense

All costs and expenses of litigation, or legal services otherwise necessary or expedient for the protection of the joint interests, including attorneys' fees and expenses as hereinafter provided, together with all judgments obtained against the parties or any of them on account of the joint operations under this agreement, and actual expenses incurred by any party or parties hereto in securing evidence for the purpose of defending against any action or claim prosecuted or urged against the joint account or the subject matter of this agreement.

A. If a majority of the interests hereunder shall so agree, actions or claims affecting the joint interests hereunder may be handled by the legal staff of one or more of the parties hereto; and a charge commensurate with cost of providing and furnishing such services rendered may be made against the joint account; but no such charge shall be made until approved by the legal departments of or attorneys for the respective parties hereto.

B. Fees and expenses of outside attorneys shall not be charged to the joint account unless authorized by the majority of the interests hereunder.

9. Taxes

All taxes of every kind and nature assessed or levied upon or in connection with the properties which are the subject of this agreement, the production therefrom or the operation thereof, and which taxes have been paid by the Operator for the benefit of the parties hereto.

10. Insurance and Claims

A. Premiums paid for insurance required to be carried for the benefit of the joint account, together with all expenditures incurred and paid in settlement of any and all losses, claims, damages, judgments, and other expenses, including legal services, not recovered from insurance carrier.

B. If no insurance is required to be carried, all actual expenditures incurred and paid by Operator in settlement of any and all losses, claims, damages, judgments, and any other expenses, including legal services, shall be charged to the joint account.

11. District and Camp Expense (Field Supervision and Camp Expense)

A pro-rata portion of the salaries and expenses of Operator's production superintendent and other employees serving the joint property and other properties of the Operator in the same operating area, whose time is not allocated directly to the properties, and a pro rata portion of the cost of maintaining and operating a production office known as Operator's **District Office** office located at or near **Lafayette,Louisiana** (or a comparable office if location changed), and necessary suboffices (if any), maintained for the convenience of the above-described office, and all necessary camps, including housing facilities for employees if required, used in the conduct of the operations on the joint property and other properties operated in the same locality. The expense of, less any revenue from, these facilities should be inclusive of depreciation or a fair monthly rental in lieu of depreciation on the investment. Such charges shall be apportioned to all properties served on some equitable basis consistent with Operator's accounting practice.

It is further understood that such charges shall be made on a per well basis, with one (1) drilling well being considered as the equivalent of five (5) producing wells, and shall not exceed $75.00 per month per producing well.

12. Administrative Overhead

Operator shall have the right to assess against the joint property covered hereby the following management and administrative overhead charges which shall be in lieu of all expenses of all offices of the Operator not covered by Section II, Paragraph 11, above, including salaries and expense of personnel assigned to such offices, except that salaries of geologists and other employees of Operator who are temporarily assigned to and directly serving on the joint property will be charged as provided in Section II, Paragraph 2, above. Salaries and expenses of other technical employees assigned to such offices will be considered as covered by overhead charges in this paragraph unless charges for such salaries and expenses are agreed upon between Operator and Non-Operator as a direct charge to the joint property.

WELL BASIS (Rate Per Well Per Month)

Well Depth	DRILLING WELL RATE	PRODUCING WELL RATE (Use Completion Depth)		
	Each Well	First Five	Next Five	All Wells Over Ten
0-3000'	150	25	20	15
3-6000'	200	35	30	20
6-9000	250	50	40	30
9-12000'	300	60	50	40
12-#	350	70	60	50

A. Overhead charges for drilling wells shall begin on the date each well is spudded and terminate when it is on production or is plugged, as the case may be, except that no charge shall be made during the suspension of drilling operations for fifteen (15) or more consecutive days.

B. In connection with overhead charges, the status of wells shall be as follows:

(1) Injection wells for recovery operations, such as for repressure or water flood, shall be included in the overhead schedule the same as producing oil wells.

(2) Water supply wells utilized for water flooding operations shall be included in the overhead schedule the same as producing oil wells.

(3) Producing gas wells shall be included in the overhead schedule the same as producing oil wells.

(4) Wells permanently shut down but on which plugging operations are deferred shall be dropped from the overhead schedule at the time the shutdown is effected. When such wells are plugged, overhead shall be charged at the producing well rate during the time required for the plugging operation.

(5) Wells being plugged back, drilled deeper, or converted to a source or input well shall be included in the overhead schedule the same as drilling wells.

(6) Temporarily shut-down wells (other than by governmental regulatory body) which are not produced or worked upon for a period of a full calendar month shall not be included in the overhead schedule; however, wells shut in by governmental regulatory body shall be included in the overhead schedule only in the event the allowable production is transferred to other wells on the same property. In the event of a unit allowable, all wells capable of producing will be counted in determining the overhead charge.

(7) Wells completed in dual or multiple horizons shall be considered as two wells in the producing overhead schedule.

(8) Lease salt water disposal wells shall not be included in the overhead schedule unless such wells are used in a secondary recovery program on the joint property.

C. The above overhead schedule for producing wells shall be applied to the total number of wells operated under the Operating Agreement to which this accounting procedure is attached, irrespective of individual leases.

D. It is specifically understood that the above overhead rates apply only to drilling and producing operations and are not intended to cover the construction or operation of additional facilities such as, but not limited to, gasoline plants, compressor plants, repressuring projects, salt water disposal facilities, and similar installations. If at any time any or all of these become necessary to the operation, a separate agreement will be reached relative to an overhead charge and allocation of district expense.

E. The above specific overhead rates may be amended from time to time by agreement between Operator and Non-Operator if, in practice, they are found to be insufficient or excessive.

13. Operator's Fully Owned Warehouse Operating and Maintenance Expense

(Describe fully the agreed procedure to be followed by the Operator.)

NONE

14. Other Expenditures

Any expenditure, other than expenditures which are covered and dealt with by the foregoing provisions of this Section II, incurred by the Operator for the necessary and proper development, maintenance, and operation of the joint property.

III. BASIS OF CHARGES TO JOINT ACCOUNT

1. Purchases

Materials and equipment purchased and service procured shall be charged at price paid by Operator after deduction of all discounts actually received.

2. Material Furnished by Operator

Materials required for operations shall be purchased for direct charge to joint account whenever practicable, except that Operator may furnish such material from Operator's stocks under the following conditions:

A. New Material (Condition "A")

(1) New material transferred from Operator's warehouse or other properties shall be priced f.o.b. the nearest reputable supply store or railway receiving point, where such material is available, at current replacement cost of the same kind of material. This will include material such as tanks, pumping units, sucker rods, engines, and other major equipment. Tubular goods, two-inch (2") and over, shall be priced on carload basis effective at date of transfer and f.o.b. railway receiving point nearest the joint account operation, regardless of quantity transferred.

(2) Other material shall be priced on basis of a reputable supply company's preferential price list effective at date of transfer and f.o.b. the store or railway receiving point nearest the joint account operation where such material is available.

(3) Cash discount shall not be allowed.

B. Used Material (Condition "B" and "C")

(1) Material which is in sound and serviceable condition and is suitable for reuse without reconditioning shall be classed as Condition "B" and priced at seventy five per cent (75%) of new price.

(2) Material which cannot be classified as Condition "B" but which,

(a) After reconditioning will be further serviceable for original function as good secondhand material (Condition "B") or

(b) Is serviceable for original function but substantially not suitable for reconditioning,

shall be classed as Condition "C" and priced at fifty per cent (50%) of new price.

(3) Material which cannot be classified as Condition "B" or Condition "C" shall be priced at a value commensurate with its use.

(4) Tanks, buildings, and other equipment involving erection costs shall be charged at applicable percentage of knocked down new price.

3. Premium Prices

Whenever materials and equipment are not readily obtainable at the customary supply point and at prices specified in Paragraphs 1 and 2 of this Section III because of national emergencies, strikes or other unusual causes over which the Operator has no control, the Operator may charge the joint account for the required materials on the basis of the Operator's direct cost and expense incurred in procuring such materials, in making it suitable for use, and in moving it to the location, provided, however, that notice in writing is furnished to Non-Operator of the proposed charge prior to billing the Non-Operator for the material and/or equipment acquired pursuant to this provision, whereupon Non-Operator shall have the right, by so electing and notifying Operator within 10 days after receiving notice from the Operator, to furnish in kind, or in tonnage as the parties may agree, at the location, nearest railway receiving point, or Operator's storage point within a comparable distance, all or part of his share of material and/or equipment suitable for use and acceptable to the Operator. Transportation costs on any such material furnished by Non-Operator, at any point other than at the location, shall be borne by such Non-Operator. If, pursuant to the provisions of this paragraph, any Non-Operator furnishes material and/or equipment in kind, the Operator shall make appropriate credits therefor to the account of said Non-Operator.

4. Warranty of Material Furnished by Operator

Operator does not warrant the material furnished beyond or back of the dealer's or manufacturer's guaranty; and in case of defective material, credit shall not be passed until adjustment has been received by Operator from the manufacturers or their agents.

5. Operator's Exclusively Owned Facilities

The following rates shall apply to service rendered to the joint account by facilities owned exclusively by Operator.

A. Water, fuel, power, compressor and other auxiliary services at rates commensurate with cost of providing and furnishing such service to the joint account but not exceeding rates currently prevailing in the field where the joint property is located.

B. Automotive equipment at rates commensurate with cost of ownership and operation. Such rates should generally be in line with the schedule of rates adopted by the Petroleum Motor Transport Association, or some other recognized organization, as recommended uniform charges against joint account operations and revised from time to time. Automotive rates shall include cost of oil, gas, repairs, insurance, and other operating expense and depreciation; and charges shall be based on use in actual service on, or in connection with, the joint account operations. Truck and tractor rates may include wages and expenses of driver.

C. A fair rate shall be charged for the use of drilling and cleaning-out tools and any other items of Operator's fully owned machinery or equipment which shall be ample to cover maintenance, repairs, depreciation, and the service furnished the joint property; provided that such charges shall not exceed those currently prevailing in the field where the joint property is located. Pulling units shall be charged at hourly rates commensurate with the cost of ownership and operation, which shall include repairs and maintenance, operating supplies, insurance, depreciation, and taxes. Pulling unit rates may include wages and expenses of the operator.

D. A fair rate shall be charged for laboratory services performed by Operator for the benefit of the joint account, such as gas, water, core, and any other analyses and tests; provided such charges shall not exceed those currently prevailing if performed by outside service laboratories.

F. Whenever requested, Operator shall inform Non-Operator in advance of the rates it proposes to charge.

F. Rates shall be revised and adjusted from time to time when found to be either excessive or insufficient.

IV. DISPOSAL OF LEASE EQUIPMENT AND MATERIAL

The Operator shall be under no obligation to purchase interest of Non-Operator in surplus new or secondhand material. The disposition of major items of surplus material, such as derricks, tanks, engines, pumping units, and tubular goods, shall be subject to mutual determination by the parties hereto; provided Operator shall have the right to dispose of normal accumulations of junk and scrap material either by transfer or sale from the joint property.

1. Material Purchased by the Operator or Non-Operator

Material purchased by either the Operator or Non-Operator shall be credited by the Operator to the joint account for the month in which the material is removed by the purchaser.

2. Division in Kind

Division of material in kind, if made between Operator and Non-Operator, shall be in proportion to their respective interests in such material. Each party will thereupon be charged individually with the value of the material received or receivable by each party, and corresponding credits will be made by the Operator to the joint account. Such credits shall appear in the monthly statement of operations.

3. Sales to Outsiders

Sales to outsiders of material from the joint property shall be credited by Operator to the joint account at the net amount collected by Operator from vendee. Any claims by vendee for defective material or otherwise shall be charged back to the joint account if and when paid by Operator.

V. BASIS OF PRICING MATERIAL TRANSFERRED FROM JOINT ACCOUNT

Material purchased by either Operator or Non-Operator or divided in kind, unless otherwise agreed, shall be valued on the following basis:

1. New Price Defined

New price as used in the following paragraphs shall have the same meaning and application as that used above in Section III, "Basis of Charges to Joint Account."

2. New Material

New material (Condition "A"), being new material procured for the joint account but never used thereon, at one hundred per cent (100%) of current new price (plus sales tax if any).

3. Good Used Material

Good used material (Condition "B"), being used material in sound and serviceable condition, suitable for reuse without reconditioning:

A. At seventy five per cent (75%) of current new price if material was charged to joint account as new, or

B. At sixty five per cent (65%) of current new price if material was originally charged to the joint property as secondhand at seventy five per cent (75%) of new price.

4. Other Used Material

Used material (Condition "C"), at fifty per cent (50%) of current new price, being used material which:

A. After reconditioning will be further serviceable for original function as good secondhand material (Condition "B"), or

B. Is serviceable for original function but substantially not suitable for reconditioning.

5. Bad-Order Material

Material and equipment (Condition "D"), which is no longer usable for its original purpose without excessive repair cost but is further usable for some other purpose, shall be priced on a basis comparable with that of items normally used for that purpose.

6. Junk

Junk (Condition "E"), being obsolete and scrap material, at prevailing prices.

7. Temporarily Used Material

When the use of material is temporary and its service to the joint account does not justify the reduction in price as provided in Paragraph 3 B, above, such material shall be priced on a basis that will leave a net charge to the joint account consistent with the value of the service rendered.

VI. INVENTORIES

1. Periodic Inventories, Notice and Representation

At reasonable intervals, inventories shall be taken by Operator of the joint account material, which shall include all such material as is ordinarily considered controllable by operators of oil and gas properties.

Written notice of intention to take inventory shall be given by Operator at least thirty (30) days before any inventory is to begin so that Non-Operator may be represented when any inventory is taken.

Failure of Non-Operator to be represented at an inventory shall bind Non-Operator to accept the inventory taken by Operator, who shall in that event furnish Non-Operator with a copy thereof.

2. Reconciliation and Adjustment of Inventories

Reconciliation of inventory with charges to the joint account shall be made by each party at interest, and a list of overages and shortages shall be jointly determined by Operator and Non-Operator.

Inventory adjustments shall be made by Operator with the joint account for overages and shortages, but Operator shall be held accountable to Non-Operator only for shortages due to lack of reasonable diligence.

3. Special Inventories

Special inventories may be taken, at the expense of the purchaser, whenever there is any sale or change of interest in the joint property, and it shall be the duty of the party selling to notify all other parties hereto as quickly as possible after the transfer of interest takes place. In such cases, both the seller and the purchaser shall be represented and shall be governed by the inventory so taken.

INSURANCE

Operator shall, at all times while operations are conducted on the jointly owned property, carry insurance to indemnify, protect and save the parties hereto harmless as follows:

(a) Workmen's Compensation Insurance (including coverage for completed operations and contractural liability coverage) as required under all applicable state workmen's compensation and occupational disease laws, and Employer's Liability Insurance in a minimum limit of not less than $100,000.

(b) Comprehensive General liability Insurance in minimum limits of not less than $100,000 per person and $300,000 per occurrence for bodily injury liability, and $100,000 per occurrence for property damage liability. If Contractor's operations involve the use of watercraft, then Contractor's policy or policies shall provide coverage for such watercraft.

(c) Comprehensive Automobile Liability Insurance in minimum limit of not less than $100,000 per person, $300,000 per occurrence for bodily injury liability, and $100,000 per occurrence for property damage liability.

All policies providing coverage required above shall be endorsed to provide that they shall not be canceled or materially changed without giving Samedan Oil Corporation 10 days prior written notice.

Operator shall not provide fire and tornado insurance for the joint account of the parties hereto.

EXHIBIT "E"

Attached to and made a part of that certain Farmout Agreement between Samedan Oil Corporation and Celt Oil, Inc. dated July 24, 1984 and covering lands located in West Mermentau Prospect, Jefferson Davis Parish, Louisiana.

GAS BALANCING AGREEMENT

1.

The parties to the Operating Agreement to which this Agreement is attached, own the working interest in the gas rights underlying the Unit Area covered by such Operating Agreement in accordance with the percentage of participation as set forth in the Operating Agreement.

In accordance with the terms of the Operating Agreement, each party hereto has the right to take in kind its share of the gas produced from the well and market or otherwise dispose of same. In the event any party hereto is not at any time taking or marketing its share of gas, or has contracted to sell its share of gas produced from the well to a purchaser which does not at any time take the full share of gas attributable to interest of the party, the terms of this Agreement shall automatically become operative.

2.

For purposes of this Agreement, any party that has not marketed its cumulative share of gas production for any vintage shall be an "underproduced party" for that vintage, and the quantity of gas attributable to such party for the vintage which is not taken shall be referred to as "underproduction" (in that vintage). Any party having marketed more than its cumulative share of any gas vintage shall be an "overproduced party" for that vintage, and gas taken in excess of its share of a vintage shall be referred to as "overproduction" (in that vintage). When an underproduced party is capable of taking and marketing more than its current share of the vintage in which it is underproduced pursuant to the terms of this Agreement, the quantity of gas so taken in excess shall be referred to as "make-up gas" (in that vintage). "Joint interest share" as used herein shall mean the share of gas to which a party is entitled pursuant to ownership interest provisions of the Operating Agreement.

3.

The parties recognize that during the course of operations, imbalances between them may arise not only as to the total quantities of gas taken and marketed by each party, but also as to the quantities of each separate vintage classification so taken and marketed. The parties further recognize that imbalances may exist between them prior to the date of execution of this Agreement. It is intended that all such imbalances heretofore incurred as well as all future imbalances be dealt with according to the terms hereof, the effective date of this Agreement being the date of first production.

4.

The Operator under the Operating Agreement (hereinafter referred to as "Operator") will maintain a separate running account of the quantities of gas by vintage each party is entitled to, and the quantities of each vintage taken and marketed by each of the parties. The Operator will also furnish each party monthly statements showing the total quantity of gas produced in each vintage, the amount thereof by vintage used in the operations, vented or lost, and the volume of gas by vintage delivered to pipeline purchaser(s) for the account of each party.

For purposes of balancing, the measurement point of the gas taken (both quantity and quality) shall be the party's discharge measurement point. All parties hereto shall share in and own the concomitant crude and condensate (not including gas plant liquids) produced in accordance with their respective interests regardless of whether they are able to market their full share of gas.

Except as otherwise provided herein, each party shall have the right and obligation to take in kind its joint interest share of each vintage of gas produced from a well (less gas used in operations thereon, vented or lost). During any period when a party is unable to take and market its full joint interest share (as such quantity may be reduced in accordance with provisions herein for providing make-up gas) of any vintage or vintages of gas produced from a well, the other joint interest owners shall be entitled to produce and sell all or a portion of such quantity which the party has failed to take. If two or more parties are capable of taking and marketing quantities of gas to which such party was thus entitled but which it failed to take, in the absence of other agreement between them, each may take a share of such underproduced gas in the direct proportion of its joint interest therein to the total joint interest therein of all parties desiring to take such underproduced gas.

When a party is underproduced, it shall be entitled to take a quantity of gas of the underproduced vintage ("make-up gas") in excess of its joint interest share thereof, such quantity to be up to thirty-seven and one-half percent (37 1/2%) of the joint interest share of parties overproduced in that vintage. In the event that there is more than one underproduced party seeking then to recover underproduction, each such underproduced party's share of the make-up gas shall be in the direct proportion of its joint interest in the vintage to the total interest therein of all underproduced parties then seeking recovery.

6.

It is the intent of this Agreement that no party shall suffer financial loss or be unduly enriched as a result of overproducing or underproducing gas under this Agreement. To achieve these ends, the following conditions are established whenever the overproduced party or parties for a vintage supplies make-up gas of the same vintage as set forth in Section 5 above:

A. The underproduced party will remit to the overproduced party or parties providing the make-up gas any difference in the value of the make-up gas and the value of the gas which was overproduced by the overproduced party or parties, determined as hereinafter provided. The difference between values will be the difference in monthly average price, weighted by volume, applicable to the overproduced party's or parties' concurrent production under its (their) gas sales contract for the vintage of gas to be made up during the make-up period, less royalty and taxes payable thereon, and the monthly average gas price, weighted by volume, received in the past by the overproduced party or parties under its (their) gas sales contract for the vintage for the overproduced volume of gas, less royalty and taxes payable thereon. The first gas made up shall be assumed to be the first underproduction. Payment of the remittance provided herein shall be made every six months and in any event immediately upon completion of balancing of a vintage gas between the underproduced party and the overproduced party or parties.

B. This obligation on the part of the underproduced party or parties is contingent upon the overproduced party or parties furnishing the underproduced party information and proof of the monthly average gas prices necessary for the computation of the aforesaid payment obligation. Such information shall be furnished to party or parties upon request.

C. The underproduced party or parties shall have the same protection as the overproduced party or parties regarding potential refunds required by orders of the Federal Energy Regulatory Commission as provided in Section 8.

If at the termination of gas production of a given vintage classifaction from a well an imbalance as to the vintage exists between the parties, the overproduced party or parties shall make a monetary settlement of imbalance as provided in Section 8 below.

8.

At the termination of gas production of a given vintage classification from a well the overproduced party or parties for the vintage shall make monetary settlement of the imbalance by payment to the party or parties underproduced for the vintage based on the price per MCF the overproduced party or parties actually received for each MCF of the overproduced gas. The price used for the above calculation shall be the overproduced party's or parties' bonafide collected gas sales price(s) as authorized by the Federal Energy Regultory Commission less royalties, severance, and other production taxes which have been paid with respect to such overproduction. If any portion of the monies collected by the overproduced party or parties were subject to refund upon order of the Federal Energy Regulatory Commission (other than the general refund obligation of 18 CFR, Section 273.301 and the potential refund obligation arising from the lack of absolute finality provided by Section 503 (d) (1) and (2) of the NGPA), the overproduced party or parties shall withhold such amounts subject to refund until prices are fully approved by the Federal Energy Regulatory Commission, unless the underproduced party or parties furnish a corporate undertaking agreeing to hold the overproduced party or parties harmless from financial loss due to action by the Federal Energy Regulatory Commission. Each of the parties agree to maintain complete records as to the volumes of gas it sold and the price received so that the above computations can be made. The overproduced party or parties shall make payments to the underproduced party or parties entitled thereto in the proportion that each party's underproduction bears to the total underproduction.

9.

If regulation by the Federal Energy Regulatory Commission ceases then the settlement price shall be the price actually received by the overproduced party or parties from the effective date of the deregulation order.

10.

All reference to "gas" or "gas production" shall be understood to mean wet gas. All references to "price" or "certificated price" shall mean federally regulated prices of gas at the wellhead. Each party taking gas shall pay royalties due thereon, or if such gas is processed, the royalties due thereon. Each party taking gas under the terms hereof shall pay any and all applicable taxes due on or with respect to such production. Each party shall be obligated to pay its working interest share of all costs and liabilities incurred in operations of the well, except as otherwise provided herein with respect to royalties and taxes, and except as provided to the contrary in regard to Non-Consent Operations in the well. Nothing herein shall be construed so as to deny to any party the right, from time to time, to produce and take or deliver to its purchaser its full share of the allowable gas production to meet the deliverability tests required by its purchaser.

11.

This Agreement shall remain in force and effect as long as the Operating Agreement is in effect and shall accrue to the benefit and be binding upon the parties hereto, their successors, representatives and assigns. This Agreement shall be considered a supplement to the Operating Agreement. In the event of conflict between the documents, this Agreement shall be controlling.

Exhibit "F"

Attached to and made a part of that certain Farmout Agreement between SAMEDAN OIL CORPORATION and CELT OIL, INC.

Re: Johnson Boudreaux No. 1
W. Mermentau Prospect

I. Daily Drilling Reports:

A) Report to be given by telephone early each morning to our New Orleans Office, Telephone No. (504) 524-0202 - Susan Turner or Pam Tullos.

B) Copy of report including mud logs and current paleo to be mailed each morning to:

1. Samedan Oil Corporation
P.O. Box 909
Ardmore, OK 73401
Attn: Martha Cude

A. Daily Mud Logs

2. Samedan Oil Corporation
128 Demanade Stree, Ste 125
Lafayette, La. 70505

A. Drilling Reports
B. Daily Mud Logs
C. Paleo

C) Copy of final typed drilling report to: Samedan Oil Corporation
1400 Saratoga Bldg.
New Orleans, La. 70112

II. Drilling and Geological Requirements

A) Prior to spudding the initial well and any other well drilled hereunder, you shall furnish the following:

1. One copy of all permits (State & Corps., if applicable)
One copy of survey plat showing the location as staked, each to the following:

1. Samedan Oil Corporation
1400 Saratoga Building
New Orleans, LA 70112
Attn: Steve Taylor

2. Samedan Oil Corporation
P.O. Box 52898 O.C.S.
Lafayette, La. 70505
Attn: Bill Truman

B) During the drilling of each well hereunder, you shall furnish the following: (Nos. 1,2&3 are to be furnished within 48 hrs. of completion of same service)

1. Field prints of electric log services performed on the well.
2. Descriptions and analyses, if any, of all sidewall, conventtal and wireline cores.
3. Any other services and surveys which may be undertaken to evaluate the well, such as, but not limited to, dipmeter, radioactivity logs, paleontological reports, directional surveys, sonic logs, velocity surveys, etc.
4. Daily mud logs and current paleo mailed daily from drilling rig.
5. Daily drilling reports shall, at the discretion of Samedan, consist of, but not be limited to, number of days since spud, operations at report time, present and/or STTD, mud properties, total mud and well cost, and breakdown of operations performed during the period the report covers, drilling breaks and/or show reports, including gas units.

II. Drilling and Geological Requirements: (Continued)

C) Before completion of the well, either as a producer or as a dry hole, you shall insofar as practicable, run electric log on same from the base of surface casing to the greatest depth drilled. Electric logs are deemed to include such auxiliary type electrical devices as a Porosity log, Induction Log et al, when the information to be derived from such devices is not otherwise available, but is considered by Samedan as being necessary for the best possible log evaluation of all potential producing formations.

D) If requested by Samedan you agree to take sidewall cores, as practicable at such intervals as may be deemed necessary by Samedan.

E) You shall catch and preserve at least one (1) quart bottle sample of each fluid obtained as the result of production or drill stem testing of any formation in the well. Samples are to be shipped to Steve Taylor, 1400 Saratoga Building, New Orleans, LA 70112.

F) If the information from the mud log or electric logs or other surveys, considered above or in conjunction with other information indicates hydrocarbons, you shall properly test such formation if it was not properly tested at the time it was penetrated, all such tests to be to the full satisfaction of Samedan and results thereof to be supplied to Samedan prior to abandonment of well.

G) You shall furnish the following with all reports required to be filed with governmental agencies or authorities on each well drilled.

(1) Samedan Oil Corporation
1400 Saratoga Building
New Orleans, LA 70112

III. 24 hour advance notification of logging, coring, testing and/or completion attempts shall be given to one of the following (in order listed) to allow a representative of Samedan to be present:

	Office Number	Home Number
1. Bill Truman	318/232-9490	318/988-2897
2. Steve Taylor	504/524-0202	504/893-3387
3. Steve Molbert	504/524-0202	504/466-6226
4. George DeMare	504/524-0202	504/242-8247

5. If unable to reach above parties call 504/522-0202.

IV. Distribution of copies of all logs, and any, and all other data provided herein:

GAY B. HUFF, CLERK OF COURT

SAMEDAN OIL CORP ETAL TO CELT OIL INC SUB LEASE

RECEIVED AND FILED 575
1984 DEC 11 AM 9:19
Gay B. Hugg
CLERK OF COURT
JEFFERSON DAVIS PARISH

SUB-LEASE

STATE OF LOUISIANA

PARISH OF JEFFERSON DAVIS 455896

KNOW ALL MEN BY THESE PRESENTS: That

WHEREAS, SAMEDAN OIL CORPORATION and QUIEN SABE CORPORATION are the owners of that certain oil, gas and mineral lease described in Exhibit "A" attached hereto and made a part hereof; and

WHEREAS, SAMEDAN OIL CORPORATION, QUIEN SABE CORPORATION and Celt Oil, Inc. entered into an agreement providing that Celt Oil, Inc. might earn certain interests in the lease described in Exhibit "A" by the recompleting of a test well under the terms of said agreement; and

WHEREAS, Celt Oil, Inc. has now complied with said agreement, and has requested that the assignment or sub-lease of the interest in said lease, as hereinafter set forth, be made to Celt Oil, Inc., 2800 Youree Drive, P.O. Box 5757, Shreveport, Louisiana 71105, hereinafter referred to as "Sub-Lessee",

NOW, THEREFORE, in order to comply with the terms of said agreement, and for other good and valuable considerations, the receipt and sufficiency of which is hereby acknowledged, SAMEDAN OIL CORPORATION and QUIEN SABE CORPORATION (hereinafter referred to as "Sub-lessors") do hereby sell, assign, convey and sub-lease unto Sub-lessee, the following described interests in and to that certain oil, gas and mineral lease described on Exhibit "A" attached hereto and made a part hereof, as follows:

455896

> All of Sub-lessor's right, title and interest in and to the oil, gas and mineral lease described on Exhibit "A" attached hereto limited in depth to the perforated interval 10,254' to 10,264' in the Petroleum Well Services #1 Johnson-Boudreaux Well located in Section 17, Township 10 South-Range 2 West.

Sub-lessors reserve from this assignment or sub-lease an overriding royalty equal to the difference between 30% and the present royalty and overriding royalties with which said lease is burdened. However, it is understood that said overriding royalty shall, in no event, be less than 5% of 8/8ths. In the event that the interest covered by said lease is less than a full mineral interest in and to the leased premises, then the overriding royalty herein reserved shall be proportionately reduced.

Said reserved overriding royalty shall be delivered to the credit of Sub-lessors into the pipeline or pipelines or tanks with which the test well may be connected, free and clear of all costs and expenses, except taxes on production. Sub-lessors also reserve the right, at their option, for a period of thirty (30) days after receipt of notice from Sub-lessee that the well is paid out or plugged and abandoned to convert said overriding royalty to a proportionate 35% working interest in the test well, its production, equipment and assigned leasehold acreage. Payout is hereby defined as that point when Sub-lessee shall have received out of production from the test well the cost of locating, drilling, completing, and equipping said well, and the cost of operating same during the payout period, after deducting applicable royalty, overriding royalty, windfall profit and production taxes. In the event said well ceases to produce prior to Operator having received out of production the above stated sum, the salvage value of said well shall be applied to the unrecovered portion of such sum, and any amount in excess of the unrecovered portion shall be owned proportionately Celt Oil, Inc. 65% and Samedan, et al 35%. The costs and expenses of operating the subject well during the payout period shall be computed and determined in accordance with the accounting procedure attached to the Farmout Agreement of July 24, 1984.

This sub-lease is made subject to the terms and conditions of the oil, gas and mineral lease described in Exhibit "A" attached hereto, and to the terms and conditions of the Farmout Agreement dated July 24, 1984 which additionally obligates Celt to the plugging and abandoning of the Nos. 1 and 3 Johnson-Boudreaux Wells as well as the clean up and restoration of the locations of said wells and leased premises. Sub-lessee hereby agrees to assume any obligations with respect to said lease, as well as any encumbrances pertaining to said lease and hold Samedan, et al harmless from any and all covenants with respect to said lease.

This sub-lease is made without any warranty or recourse whatsoever against Sub-lessors, but with full substitution and subrogation in and to all rights and actions of warranty held by Sub-lessors.

THUS DONE AND EXECUTED on this 25th day of October, 1984.

GAY B. HUFF, CLERK OF COURT

ALBERT SIDNEY JOHNSON JR TO MARANATHA MIN CORP OGML

456380

FORM 42 CPM—NEW SOUTH LOUISIANA REVISED FOUR (4)—POOLING REVISED "A"

OIL, GAS AND MINERAL LEASE

531

THIS AGREEMENT, entered into effective as of January 23, 1984 July 22, 19 84,

by and between ALBERT SIDNEY JOHNSON III, married to and living with Agnes S. Johnson, nee Saulnier, whose address is 7805 East Windfont, Parker, Colorado 80134.

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is P. O. Box 53091, Lafayette, Louisiana 70505 hereinafter called "Lessee", witnesseth, that: ONE HUNDRED &

Lessor, in consideration of the sum of OTHER VALUABLE CONSIDERATIONS ($100.00 OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

in Township 10 South, Range 3 West in Section 39 and Township 10 South, Range 2 West in Sections 17 and 18.

All of the lands acquired by Albert Sidney Johnson and Adolphe C. Boudreaux from Jean Castex, Jr. by Act of Sale dated April 30, 1934, recorded under File No. 81759 of the Conveyance Records of Jefferson Davis Parish, Louisiana, insofar, and only insofar, as said lands fall and lie east of a north-south line having a Lambert Coordinate of X = 1,591,150 feet; LESS AND EXCEPT, however, all lands situated within the geographical boundaries of the following described units:

456380

(1) HET 1 SUA created by Louisiana Department of Conservation Order No. 101-E, effective December 1, 1962.

(2) 10,200 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-C, effective April 1, 1962, as amended by Order No. 101-C-1, effective December 9, 1971, LESS AND EXCEPT all rights below the stratigraphic equivalent of the 10,600 foot sand as defined in Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962, insofar, and only insofar, as said rights underlie a tract of land containing 70.51 acres situated in Section 39, Township 10 South, Range 3 West, and more fully described in an oil and gas lease dated July 6, 1971, granted to Ruffin T. Lowry and recorded in Conveyance Book 358, at Page 846, under File No. 352892, records of Jefferson Davis Parish, Louisiana, said rights under said tract being leased herein.

(3) 10,600 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962.

And, also, LESS AND EXCEPT, the following described tracts:

(1) That ten acre parcel of land situated in Section Eighteen (18) Township Ten (10) South of Range Two (2) West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section Eighteen (18), Township Ten (10) South, Range Two (2) West, at a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township Ten (10) South, Range Two (2) and Three (3) West; thence South 51° 13' East 276.5 feet; thence South 53° 00' East 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe, the lower front corner of the Robira 10-acre tract for a point of beginning; thence, following the right bank of the Mermentau River South 65° 30' East 450 feet; thence South 84° 00' East 250 feet; thence, leaving the River and running South 37° 00' West 693.5 feet; thence, North 72° 06' West 691.5 feet to lower side line of the Robira 10 acres; thence, following said line North 37° 00' East 693.5 feet to place of beginning and containing ten (10) acres; as per plat by F. Shutts' Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

(2) That certain parcel of land comprising ten (10) acres, more or less, situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and in Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the Records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the Corner between Section Eighteen (18) Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range (3) West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 53° East 272.4 feet to the line between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West 921 feet South of the corner between the two said Sections; thence, South 53° East 327.6 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe; thence North 37° East 726 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River; thence, North 53° West up the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 37° West 358 feet to the point of beginning and containing ten (10) acres.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

CLERK OF COURT
JEFFERSON DAVIS PARISH

534

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 450.84 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and NO (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or an acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 22, 1984, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or an acreage pooled therewith in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred Fifty & NO/100 Dollars ($ 250.00) per each for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of each respective period, Two Hundred Fifty & NO/100 Dollars ($ 250.00) per acre for all on that part of the land held hereunder. Payment may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank at UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received for it, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the lands.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor hereunder unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
ALBERT SIDNEY JOHNSON III	$2,825.00	BANK OF THE WEST 6363 EAST PARKER ROAD PARKER, COLORADO 80134

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into/effective as of January 23, 1984 July 22 19 84

by and between BERNICE FOREMAN BOUDREAUX, widow of Mark A. Boudreaux, whose address is

3801 East Galbraith, Apt. 105, Cincinnati, Ohio 45236.

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is

P. O. Box 53091, Lafayette, Louisiana 70505

hereinafter called "Lessee", witnesseth, that: One Hundred &

Lessor, in consideration of the sum of OTHER VALUABLE CONSIDERATIONS ($100.00 (OVC)), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

In Township 10 South, Range 3 West in Section 39 and Township 10 South, Range 2 West in Sections 17 and 18.

539

All of the lands acquired by Albert Sidney Johnson and Adolphe C. Boudreaux from Jean Castex, Jr. by Act of Sale dated April 30, 1934, recorded under File No. 81759 of the Conveyance Records of Jefferson Davis Parish, Louisiana, insofar, and only insofar, as said lands fall and lie east of a north-south line having a Lambert Coordinate of X = 1,591,150 feet; LESS AND EXCEPT, however, all lands situated within the geographical boundaries of the following described units:

(1) HET 1 SUA created by Louisiana Department of Conservation Order No. 101-E, effective December 1, 1962.

(2) 10,200 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-C, effective April 1, 1962, as amended by Order No. 101-C-1, effective December 9, 1971, LESS AND EXCEPT all rights below the stratigraphic equivalent of the 10,600 foot sand as defined in Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962, insofar, and only insofar, as said rights underlie a tract of land containing 70.51 acres situated in Section 39, Township 10 South, Range 3 West, and more fully described in an oil and gas lease dated July 6, 1971, granted to Ruffin T. Lowry and recorded in Conveyance Book 358, at Page 846, under File No. 352892, records of Jefferson Davis Parish, Louisiana, said rights under said tract being leased herein.

(3) 10,600 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962.

And, also, LESS AND EXCEPT, the following described tracts:

(1) That ten acre parcel of land situated in Section Eighteen (18) Township Ten (10) South of Range Two (2) West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section Eighteen (18), Township Ten (10) South, Range Two (2) West, at a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township Ten (10) South, Range Two (2) and Three (3) West; thence South 51° 13' East 276.5 feet; thence South 53° 00' East 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe, the lower front corner of the Robira 10-acre tract for a point of beginning; thence, following the right bank of the Mermentau River South 65° 30' East 450 feet; thence South 84° 00' East 250 feet; thence, leaving the River and running South 37° 00' West 693.5 feet; thence, North 72° 06' West 691.5 feet to lower side line of the Robira 10 acres; thence, following said line North 37° 00' East 693.5 feet to place of beginning and containing ten (10) acres; as per plat by F. Shutts' Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

(2) That certain parcel of land comprising ten (10) acres, more or less, situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and in Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the Records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the Corner between Section Eighteen (18) Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range (3) West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 53° East 272.4 feet to the line between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West 921 feet South of the corner between the two said Sections; thence, South 53° East 327.6 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe; thence North 37° East 726 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River; thence, North 53° West up the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 37° West 358 feet to the point of beginning and containing ten (10) acres.

Exhibit D
Castex Development - Title and Lease History - 001233

540

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

RECEIVED AND FILED
1985 JAN 10 AM 10 37
Gay B. Hughes
CLERK OF COURT
JEFFERSON PARISH

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 450.84 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements: July 22, 1984

1. This lease shall terminate on July 22, 1985, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred Fifty & No/100 Dollars ($ 250.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessee, on or before the beginning of such respective periods Two Hundred Fifty & No/100 Dollars ($250.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption, or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessor shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on minerals produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the lands.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depositary which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
BERNICE FOREMAN BOUDREAUX	$14,100.00	FIFTH THIRD BANK - KENWOOD BRANCH Cincinnati, Ohio

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into/effective as of January 23, 1984 July 22, 19 84,

by and between WAYNE BOUDREAUX, married to and living with Vera B. Boudreaux, nee Breaux,

whose address is 1165 Ivanhoe Drive, North Muskegan, Michigan 49445,

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is

P. O. Box 53091, Lafayette, Louisiana 70505
hereinafter called "Lessee", witnesseth, that: ONE HUNDRED &

Lessor, in consideration of the sum of OTHER VALUABLE CONSIDERATIONS ($100.00 OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies said which is affected hereby being situated in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

Exhibit D
Castex Development - Title and Lease History - 001239

546 In Township 10 South, Range 3 West in Section 39 and Township 10 South, Range 2 West in Sections 17 and 18.

All of the lands acquired by Albert Sidney Johnson and Adolphe C. Boudreaux from Jean Castex, Jr. by Act of Sale dated April 30, 1934, recorded under File No. 81759 of the Conveyance Records of Jefferson Davis Parish, Louisiana, insofar, and only insofar, as said lands fall and lie east of a north-south line having a Lambert Coordinate of X = 1,591,150 feet; LESS AND EXCEPT, however, all lands situated within the geographical boundaries of the following described units:

456382

(1) HET 1 SUA created by Louisiana Department of Conservation Order No. 101-E, effective December 1, 1962.

(2) 10,200 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-C, effective April 1, 1962, as amended by Order No. 101-C-1, effective December 9, 1971, LESS AND EXCEPT all rights below the stratigraphic equivalent of the 10,600 foot sand as defined in Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962, insofar, and only insofar, as said rights underlie a tract of land containing 70.51 acres situated in Section 39, Township 10 South, Range 3 West, and more fully described in an oil and gas lease dated July 6, 1971, granted to Ruffin T. Lowry and recorded in Conveyance Book 358, at Page 846, under File No. 352892, records of Jefferson Davis Parish, Louisiana, said rights under said tract being leased herein.

(3) 10,600 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962.

And, also, LESS AND EXCEPT, the following described tracts:

(1) That ten acre parcel of land situated in Section Eighteen (18) Township Ten (10) South of Range Two (2) West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section Eighteen (18), Township Ten (10) South, Range Two (2) West, at a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township Ten (10) South, Range Two (2) and Three (3) West; thence South 51° 13' East 276.5 feet; thence South 53° 00' East 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe, the lower front corner of the Robira 10-acre tract for a point of beginning; thence, following the right bank of the Mermentau River South 65° 30' East 450 feet; thence South 84° 00' East 250 feet; thence, leaving the River and running South 37° 00' West 693.5 feet; thence, North 72° 06' West 691.5 feet to lower side line of the Robira 10 acres; thence, following said line North 37° 00' East 693.5 feet to place of beginning and containing ten (10) acres; as per plat by F. Shutts' Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

(2) That certain parcel of land comprising ten (10) acres, more or less, situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and in Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the Records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the Corner between Section Eighteen (18) Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range (3) West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 53° East 272.4 feet to the line between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West 921 feet South of the corner between the two said Sections; thence, South 53° East 327.6 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe; thence North 37° East 726 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River; thence, North 53° West up the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 37° West 358 feet to the point of beginning and containing ten (10) acres.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

Gay B. Hyde
CLERK OF COURT
JEFFERSON DAVIS PARISH

548

All land owned by the Lessor in the above mentioned Section or Sections, or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether property or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 450.84 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and NO (0) months from the date hereof July 22, 1984 (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 22, 19 85, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred Fifty & No/100 Dollars ($250.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of each respective period, Two Hundred Fifty & No/100 Dollars ($250.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16, which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

Exhibit D
Castex Development - Title and Lease History - 001242

bank or its successors. The inability of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
WAYNE BOUDREAUX	0	

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into/effective as of January 23, 1984 July 22, 1984 19

by and between MARK W. BOUDREAUX, married to and living with Genevieve G. Boudreaux, nee Guidry, whose address is 2601 Petworth Court, Cincinnati, Ohio 45236.

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is P. O. Box 53091, Lafayette, Louisiana 70505

hereinafter called "Lessee", witnesseth, that: ONE HUNDRED &

Lessor, in consideration of the sum of OTHER VALUABLE CONSIDERATIONS ($100.00 OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land, the land to which this lease applies and which is affected hereby being situated in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

In Township 10 South, Range 3 West in Section 39 and Township 10 South, Range 2 West in Sections 17 and 18.

All of the lands acquired by Albert Sidney Johnson and Adolphe C. Boudreaux from Jean Castex, Jr. by Act of Sale dated April 30, 1934, recorded under File No. 81759 of the Conveyance Records of Jefferson Davis Parish, Louisiana, insofar, and only insofar, as said lands fall and lie east of a north-south line having a Lambert Coordinate of X = 1,591,150 feet; LESS AND EXCEPT, however, all lands situated within the geographical boundaries of the following described units:

(1) HET 1 SUA created by Louisiana Department of Conservation Order No. 101-E, effective December 1, 1962.

(2) 10,200 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-C, effective April 1, 1962, as amended by Order No. 101-C-1, effective December 9, 1971, LESS AND EXCEPT all rights below the stratigraphic equivalent of the 10,600 foot sand as defined in Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962, insofar, and only insofar, as said rights underlie a tract of land containing 70.51 acres situated in Section 39, Township 10 South, Range 3 West, and more fully described in an oil and gas lease dated July 6, 1971, granted to Ruffin T. Lowry and recorded in Conveyance Book 358, at Page 846, under File No. 352892, records of Jefferson Davis Parish, Louisiana, said rights under said tract being leased herein.

(3) 10,600 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962.

And, also, LESS AND EXCEPT, the following described tracts:

(1) That ten acre parcel of land situated in Section Eighteen (18) Township Ten (10) South of Range Two (2) West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section Eighteen (18), Township Ten (10) South, Range Two (2) West, at a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township Ten (10) South, Range Two (2) and Three (3) West; thence South 51° 13' East 276.5 feet; thence South 53° 00' East 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe, the lower front corner of the Robira 10-acre tract for a point of beginning; thence, following the right bank of the Mermentau River South 65° 30' East 450 feet; thence South 84° 00' East 250 feet; thence, leaving the River and running South 37° 00' West 693.5 feet; thence, North 72° 06' West 691.5 feet to lower side line of the Robira 10 acres; thence, following said line North 37° 00' East 693.5 feet to place of beginning and containing ten (10) acres; as per plat by F. Shutts' Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

(2) That certain parcel of land comprising ten (10) acres, more or less, situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and in Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1935, recorded in Conveyance Book 66, Page 101, of the Records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the Corner between Section Eighteen (18) Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range (3) West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 53° East 272.4 feet to the line between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West 921 feet South of the corner between the two said Sections; thence, South 53° East 327.6 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe; thence North 37° East 726 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River; thence, North 53° West up the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 37° West 358 feet to the point of beginning and containing ten (10) acres.

554

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

Gary B. Hargis
CLERK OF COURT
JEFFERSON DAVIS PARISH

555

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 450.84 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof July 22, 1984 (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 22 1985, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred Fifty & No/100 Dollars ($250.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods Two Hundred Fifty & No/100-------- Dollars ($250.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

Exhibit D
Castex Development - Title and Lease History - 001249

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received for it. On the leased property, four any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit containing a portion of the land.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
MARK W. BOUDREAUX	0	

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is

P. O. Box 53091, Lafayette, Louisiana 70505
hereinafter called "Lessee", witnesseth, that:

TIONS

Lessor, in consideration of the sum of ONE HUNDRED DOLLARS & OTHER VALUABLE CONSIDERA/ ($100.00&OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

RRB 1089

In Township 10 South, Range 3 West in Section 39 and Township 10 South, Range 2 West in Sections 17 and 18.

All of the lands acquired by Albert Sidney Johnson and Adolphe C. Boudreaux from Jean Castex, Jr. by Act of Sale dated April 30, 1934, recorded under File No. 81759 of the Conveyance Records of Jefferson Davis Parish, Louisiana, insofar, and only insofar, as said lands fall and lie east of a north-south line having a Lambert Coordinate of X = 1,591,150 feet; LESS AND EXCEPT, however, all lands situated within the geographical boundaries of the following described units:

(1) HET 1 SUA created by Louisiana Department of Conservation Order No. 101-E, effective December 1, 1962.

(2) 10,200 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-C, effective April 1, 1962, as amended by Order No. 101-C-1, effective December 9, 1971, LESS AND EXCEPT all rights below the stratigraphic equivalent of the 10,600 foot sand as defined in Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962, insofar, and only insofar, as said rights underlie a tract of land containing 70.51 acres situated in Section 39, Township 10 South, Range 3 West, and more fully described in an oil and gas lease dated July 6, 1971, granted to Ruffin T. Lowry and recorded in Conveyance Book 358, at Page 846, under File No. 352892, records of Jefferson Davis Parish, Louisiana, said rights under said tract being leased herein.

(3) 10,600 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962.

And, also, LESS AND EXCEPT, the following described tracts:

564

And, also, LESS AND EXCEPT, the following described tracts:

(1) That ten acre parcel of land situated in Section Eighteen (18) Township Ten (10) South of Range Two (2) West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section Eighteen (18), Township Ten (10) South, Range Two (2) West, at a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township Ten (10) South, Range Two (2) and Three (3) West; thence South 51° 13' East 276.5 feet; thence South 53° 00' East 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe, the lower front corner of the Robira 10-acre tract for a point of beginning; thence, following the right bank of the Mermentau River South 65° 30' East 450 feet; thence South 84° 00' East 250 feet; thence, leaving the River and running South 37° 00' West 693.5 feet; thence, North 72° 06' West 691.5 feet to lower side line of the Robira 10 acres; thence, following said line North 37° 00' East 693.5 feet to place of beginning and containing ten (10) acres; as per plat by F. Shutts' Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

(2) That certain parcel of land comprising ten (10) acres, more or less, situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and in Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the Records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the Corner between Section Eighteen (18) Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range (3) West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 53° East 272.4 feet to the line between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West 921 feet South of the corner between the two said Sections; thence, South 53° East 327.6 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe; thence North 37° East 726 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River; thence, North 53° West up the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence, South 37° West 358 feet to the point of beginning and containing ten (10) acres.

562

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably possible; and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

[illegible] continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods Two Hundred Fifty & No/100-------- Dollars ($ 250.00--) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

563

RECEIVED AND FILED
1985 JUN 10 AM 10 38

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 450.84 acres, whether it actually comprises more or less.

This lease shall be for a term of: three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements: July 22, 1984

1. This lease shall terminate on July 22, 1985, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred Fifty & NO/1 Dollars ($ 250.00---) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods Two Hundred Fifty & No/100-------- Dollars ($ 250.00--) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of this land.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included therein in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$28,175.00	The Calcasieu Marine National Bank of Lake Charles - Jennings Mid-City Branch Box 940 Jennings, Louisiana 70546
WORREL B. JOHNSON	$8,450.00	The Calcasieu Marine National Bank of Lake Charles - Welsh Branch Box 548 Welsh, Louisiana 70591
BERNICE FOREMAN BOUDREAUX	$14,100.00	
MARK BOUDREAUX	None	
WAYNE BOUDREAUX	None	
ORA JOHNSON MIGUEZ	$11,275.00	The Calcasieu Marine National Bank of Lake Charles - Jennings Mid-City Branch Box 940, Jennings, Louisiana 70546
RICHARD W. JOHNSON	$2,825.00	The Calcasieu Marine National Bank of Lake Charles - Welsh Branch Box 548, Welsh, Louisiana 70591
ALBERT SIDNEY JOHNSON III	$2,825.00	
SANDRA LYNN TRAHAN	$2,825.00	The First National Bank of Lafayette P.O. Drawer 2109 Lafayette, Louisiana 70504
MILTON F. BOURDIER	$2,375.00	Spring Branch Educators Credit Union P.O. Box 55265 Houston, Texas 77255-5265
ALFRED C. BOURDIER	$2,375.00	The Calcasieu Marine National Bank of Lake Charles, P.O. Box 2891 Lake Charles, Louisiana 70604
LYNN H. BOURDIER	$2,375.00	Louisiana Savings Association South Lake Charles Branch P.O. Box 5997, Lake Charles, LA 70606
BERNADINE BOURDIER ZIBILICH	$2,375.00	First Financial Bank 1536 Laplaco Blvd. Harvey, Louisiana 70058
ROSE MARIE BOURDIER PETITJEAN	$2,375.00	The Calcasieu Marine National Bank of Lake Charles P.O. Box 2891 Lake Charles, Louisiana 70604
DAVID L. BOURDIER	$2,375.00	Patterson State Bank Box 427 Patterson, Louisiana 70392
YVETTE MARIE BOUDREAUX LAFLEUR	$14,100.00	Allied-Marshall Bank P.O. Box 1369 Marshall, Texas 75670
LYDIA MCBRIDE BOUDREAUX	$14,100.00	The Calcasieu Marine National Bank of Lake Charles, P.O. Box 2891 Lake Charles, Louisiana 70604

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is

P. O. Box 53091, Lafayette, Louisiana 70505
hereinafter called "Lessee", witnesseth, that:

CONSIDERATIONS

Lessor, in consideration of the sum of ONE HUNDRED DOLLARS & OTHER VALUABLE ($100.00&OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

That certain tract of land containing 193.86 acres, more or less, situated in the Northern portion of Section 39, T10S-R3W and Section 17, T10S-R2W, and lying within the confines of the 10,200' Sand Unit as defined by Conservation Order No. 101-C, dated March 7, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit "A" attached hereto.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably possible; and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

571

RECEIVED AND FILED
1985 JAN 10 AM 10 39
Gary B. Wright
CLERK OF COURT
JEFFERSON DAVIS PARISH

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 193.86 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23, 19 85, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred Eighty Five & No/100 Dollars ($ 285.00--) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods, Two Hundred Eighty-Five & No/100--Dollars ($ 285.00--) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the lands.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor hereby unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$13,822.50	The Calcasieu Marine National Bank of Lake Charles - Jennings Mid-City Branch Box 940 Jennings, Louisiana 70546
WORREL B. JOHNSON	$4,132.50	The Calcasieu Marine National Bank of Lake Charles - Welsh Branch Box 548, Welsh, Louisiana 70591

YVETTE MARIE BOUDREAUX LAFLEUR	$6,897.00	Allied- Marshall Bank P.O. Box 1369 Marshall, Texas 75670
LYDIA MCBRIDE BOUDREAUX	$6,897.00	The Calcasieu Marine National Bank of Lake Charles, P.O. Box 2891 Lake Charles, Louisiana 70604

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

BATH-O-GRAM

FORM 42 CPM—NEW SOUTH LOUISIANA REVISED FOUR (4)—POOLING REVISED "A"

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of January 23, 1984

by and between ALBERT SIDNEY JOHNSON III, married to and living with Agnes S. Johnson, nee Saulnier, whose address is 7805 East Windfont, Parker, Colorado 80134.

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is P.O. Box 53091, Lafayette, Louisiana 70505 hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of ONE HUNDRED DOLLARS & OTHER VALUABLE CONSIDERATIONS ($100.00&OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

That certain tract of land containing 193.86 acres, more or less, situated in the Northern portion of Section 39, T10S-R3W and Section 17, T10S-R2W , and lying within the confines of the 10,200' Sand Unit as defined by Conservation Order No. 101-C, dated March 7, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit "A" attached hereto.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'.

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

456386

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

RECEIVED AND FILED
1985 JAN 10 AM 10 39
Gay B. Hoyt
CLERK OF COURT
JEFFERSON DAVIS PARISH

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 193.86 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23, 19 85, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred Eighty Five& No/100 Dollars ($ 285.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods Two Hundred Eighty-Five & No/100--Dollars ($ 285.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption, or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 8 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received for it, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit containing a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

Exhibit D
Castex Development - Title and Lease History - 001274

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
ALBERT SIDNEY JOHNSON III	$1,368.00	BANK OF THE WEST 6363 EAST PARKER ROAD PARKER, COLORADO 80134

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of January 23, 19 84

by and between BERNICE FOREMAN BOUDREAUX, widow of Mark A. Boudreaux, whose address is 3801 East Galbraith, Apt. 105, Cincinnati, Ohio 45236.

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is P. O. Box 53091, Lafayette, Louisiana 70505.

hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of ONE HUNDRED DOLLARS & OTHER VALUABLE CONSIDERATIONS ($100.00&OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon; and to draw and remove casing from wells drilled by Lessee on said lands, the land to which this lease applies and which is affected hereby being situated in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

That certain tract of land containing 193.86 acres, more or less, situated in the Northern portion of Section 39, T10S-R3W and Section 17, T10S-R2W, and lying within the confines of the 10,200' Sand Unit as defined by Conservation Order No. 101-C, dated March 7, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit "A" attached hereto.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'.

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be back-filled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

456387

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $600.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

RECEIVED AND FILED
1985 JAN 10 AM 10 39
Gay B. Hughes
CLERK OF COURT
JEFFERSON DAVIS PARISH

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 193.86 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23, 1985, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred Eighty-Five No/100 Dollars ($285.00) per year for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of each respective period, Two Hundred Eighty-Five & No/100 Dollars ($ 285.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DEFERRED ORDER Bank of UNDER PARAGRAPH NO. 16, which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

221

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
BERNICE FOREMAN BOUDREAUX	$6,897.00	FIFTH THIRD BANK - KENWOOD BRANCH Cincinnati, Ohio

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

46/16 590 **OIL, GAS AND MINERAL LEASE**

THIS AGREEMENT, entered into effective as of January 23, 19 84

by and between WAYNE BOUDREAUX, married to and living with Vera B. Boudreaux, nee Breaux, whose address is 1165 Ivanhoe Drive, North Muskegan, Michigan 49445.

herein called "Lessor" (whether one or more) and Maranatha Mineral Corporation, whose address is P.O. Box 53091, Lafayette, Louisiana 70505
hereinafter called "Lessee", witnesseth, that:

TIONS

Lessor, in consideration of the sum of ONE HUNDRED DOLLARS & OTHER VALUABLE CONSIDERA/($100.00&OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

That certain tract of land containing 193.86 acres, more or less, situated in the Northern portion of Section 39, T10S-R3W and Section 17, T10S-R2W, and lying within the confines of the 10,200' Sand Unit as defined by Conservation Order No. 101-C, dated March 7, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit "A" Attached hereto.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'.

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

456388

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

RECEIVED AND FILED
1985 JAN 10 AM 10 39
Gay B. Hyde
CLERK OF COURT
TERREBONNE PARISH

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 193.86 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23, 19 85, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred Eighty Five& NO/100 Dollars ($ 285.00---) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods Two Hundred Eighty-Five& no/100---Dollars ($285.00---) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption, or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

[illegible]

Casey Development, Title and Lease Image 00128

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
WAYNE BOUDREAUX	0	

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of January 23, 19 84,

by and between MARK W. BOUDREAUX, married to and living with Genevieve G. Boudreaux, nee Guidry, whose address is 2601 Petworth Court, Cincinnati, Ohio 45236.

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is P.O. Box 53091, Lafayette, Louisiana 70505
hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of ONE HUNDRED DOLLARS & OTHER VALUABLE CONSIDER/TIONS ($100.00&OVC), **hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in** JEFFERSON DAVIS **Parish, Louisiana, and described as follows, to-wit:**

That certain tract of land containing 193.86 acres, more or less, situated in the Northern portion of Section 39, T10S-R3W and Section 17, T10S-R2W, and lying within the confines of the 10,200' Sand Unit as defined by Conservation Order No. 101-C, dated March 7, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit "A" attached hereto.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'.

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be back-filled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

456389

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

[redacted] down to 12,000' and 1/3 below 12,000'.

RECEIVED AND FILED
1985 JAN 10 AM 10 40

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 193.86 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23, 19 85, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundered Eighty Five & No/100 Dollars ($ 285.00--) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods, Two Hundred Eighty-Five & No/100-Dollars ($ 285.00--) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the lands.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
MARK W. BOUDREAUX	0	

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is P. O. Box 53091, Lafayette, Louisiana 70505 hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of ONE HUNDRED DOLLARS & OTHER VALUABLE CONSIDERATIONS ($100.00&OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

That certain tract of land containing 122.63 acres, more or less, situated in the Northern portion of Section 17, T10S-R2W and Section 39, T10S-R3W, and lying within the confines of the 10,200' Sand Unit as defined by Conservation Order No. 101-C, dated March 7, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit "A" attached hereto.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'

RECORDED AND FILED
1981 MAY 10 AM 10:40

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably possible; and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

604

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 122.63 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23, 19 85, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred Eighty Five & No/100 Dollars ($ 285.00--) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods Two Hundred Eighty Five & No/100-- Dollars ($ 285.00--) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into subsurface strata and no royalty shall be due on any such fluid by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$8,749.50	The Calcasieu Marine National Bank of Lake Charles - Jennings Mid-City Branch Box 940 Jennings, Louisiana 70546.
WORREL B. JOHNSON	$2,622.00	The Calcasieu Marine National Bank of Lake Charles - Welsh Branch Box 548, Welsh, Louisiana 70591.
BERNICE FOREMAN BOUDREAUX	$4,360.50	
MARK BOUDREAUX	None	
WAYNE BOUDREAUX	None	
ORA JOHNSON MIGUEZ	$3,505.50	The Calcasieu Marine National Bank of Lake Charles - Jennings Mid-city Br. Box 940, Jennings, Louisiana 70546.
RICHARD W. JOHNSON	$883.50	The Calcasieu Marine National Bank of Lake Charles - Welsh Branch Box 548, Welsh, Louisiana 70591.
ALBERT SIDNEY JOHNSON III	$883.50	
SANDRA LYNN TRAHAN	$883.50	The First National Bank of Lafayette P.O. Drawer 2109 Lafayette, Louisiana 70504
MILTON F. BOURDIER	$741.00	Spring Branch Educators Credit Union P.O. Box 55265 - Houston, Texas 77255-5265.
ALFRED C. BOURDIER	$741.00	The Calcasieu Marine National Bank of Lake Charles, P.O. Box 2891 Lake Charles, Louisiana 70604.

YVETTE MARIE BOUDREAUX LAFLEUR	$4,360.50	Allied-Marshall Bank P.O. Box 1369 - Marshall, Texas 75670
LYDIA MCBRIDE BOUDREAUX	$4,360.50	The Calcasieu Marine National Bank of Lake Charles, P.O. Box 2891 Lake Charles, Louisiana 70604.

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to affect ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

OIL, GAS AND MINERAL LEASE

611

THIS AGREEMENT, entered into effective as of January 23, 1984

by and between ALBERT SIDNEY JOHNSON III, married to and living with Agnes Saulnier, whose address is 7805 East Windfont, Parker, Colorado 80134.

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address P.O. Box 53091, Lafayette, Louisiana 70505 hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of ONE HUNDRED DOLLARD & OTHER VALUABLE CONSIDERATIONS ($100.00 OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

That certain tract of land containing 122.63 acres, more or less, situated in the Northern portion of Section 17, T10S-R2W and Section 39, T10S-R3W, and lying within the confines of the 10,200' Sand Unit as defined by Conservation Order No. 101-C, dated March 7, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit "A" attached hereto.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'.

RECEIVED AND FILED
1985 JAN 10 AM 10 40

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

456391

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

612

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 122.63 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23 19 85, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of ~~Five & No/100~~ Two Hundred Eighty-Dollars ($ 285.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods Two Hundred Eighty-Five & No/100 Dollars ($285.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
ALBERT SIDNEY JOHNSON III	$883.50	BANK OF THE WEST 6363 EAST PARKER ROAD PARKER, COLORADO 80134

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

OIL, GAS AND MINERAL LEASE

617

THIS AGREEMENT, entered into effective as of January 23, 19 84

by and between BERNICE FOREMAN BOUDREAUX, widow of Mark A. Boudreaux, whose address is 3801 East Galbraith, Apt. 105, Cincinnati, Ohio 45236.

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is P. O. Box 53091, Lafayette, Louisiana 70505
hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of ONE HUNDRED DOLLARS & OTHER VALUABLE CONSIDERATIONS ($100.00&OVC), **hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in** JEFFERSON DAVIS **Parish, Louisiana, and described as follows, to-wit:**

That certain tract of land containing 122.63 acres, more or less, situated in the Northern portion of Section 17, T10S-R2W and Section 39, T10S-R3W, and lying within the confines of the 10,200' Sand Unit as defined by Conservation Order No. 101-C, dated March 7, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit "A" attached hereto.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

456292

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

618

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 122.63 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23, 1985, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred Eighty-Five & No/100 Dollars ($285.00---) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods Two Hundred Eighty Five & No/100--Dollars ($ 285.00--) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
BERNICE FOREMAN BOUDREAUX	$4,360.50	FIFTH THIRD BANK-Kenwood Branch Cincinnati, Ohio

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

OIL, GAS AND MINERAL LEASE

629

THIS AGREEMENT, entered into effective as of January 23, 1984

by and between WAYNE BOUDREAUX, married to and living with Vera B. Boudreaux, nee Breaux, whose address is 1165 Ivanhoe Drive, North Muskegan, Michigan 49445.

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is P. O. Box 53091, Lafayette, Louisiana 70505

hereinafter called "Lessee", witnesseth, that: ONE HUNDRED DOLLARS & OTHER VALUABLE CONSIDERATIONS ($100.00 OVC),

Lessor, in consideration of the sum of hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

That certain tract of land containing 122.63 acres, more or less, situated in the Northern portion of Section 17, T10S-R2W and Section 39, T10S-R3W, and lying within the confines of the 10,200' Sand Unit as defined by Coservation Order No. 101-C, dated March 7, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit "A" attached hereto.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'.

RECEIVED AND FILED
1984 JAN 10 AM 10 40

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

456393

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

624

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 22.63 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23, 1985, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred Eighty-Five & No/100 Dollars ($285.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods, Two Hundred Eighty-Five & No/100 Dollars ($ 285.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
WAYNE BOUDREAUX	0	

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

OIL, GAS AND MINERAL LEASE

629

THIS AGREEMENT, entered into effective as of January 23, **19** 84

by and between MARK W. BOUDREAUX, married to and living with Genevieve G. Boudreaux, nee Guidry, whose address is 2601 Petworth Court, Cincinnati, Ohio 45236,

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is P. O. Box 53091, Lafayette, Louisiana 70505

hereinafter called "Lessee", witnesseth, that: ONE HUNDRED DOLLARS &

Lessor, in consideration of the sum of OTHER VALUABLE CONSIDERATIONS ($100.00VC), **hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in** JEFFERSON DAVIS **Parish, Louisiana, and described as follows, to-wit:**

That certain tract of land containing 122.63 acres, more or less, situated in the Northern portion of Section 17, T10S-R2W and Section 39, T10S-R3W, and lying within the confines of the 10,200' Sand Unit as defined by Conservation Order No. 101-C, dated March 7, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit "A" attached hereto.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'

RECEIVED AND FILED
1985 JAN 10 AM 10: 41

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

456294

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

630

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 122.63 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23, 19 85, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred Eighty-Five & No/100 Dollars ($ 285.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods Two Hundred Eighty-Five & No/100-- Dollars ($ 285.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
MARK W. BOUDREAUX	0	

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is P. O. Box 53091, Lafayette, Louisiana 70505 called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of ONE HUNDRED DOLLARS & OTHER VALUABLE CONSIDERATIONS ($100.00&OVC), grants and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to pull and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

That certain tract of land containing 70.51 acres, more or less, situated in the Northern portion of Section 39, T10S-R3W, and lying within the confines of the 10,200' Sand Unit as defined by Conservation Order No. 101-C, Dated March 7, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit A attached hereto.

Said lease shall be effective down to the base of the 10,600' Sand as described in Conservation Order No. 101-D, dated November 1, 1962.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'

RECEIVED / FILED
1963 JAN 10 AM 8 4

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably possible; and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 70.51 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23 1985, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred Fifty & No/100 Dollars ($150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods One Hundred Fifty & No/100 Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

[redacted]

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$2,644.50	The Calcasieu Marine National Bank of Lake Charles - Jennings Mid-City BR. Box 940, Jennings, Louisiana 70546.
WORREL B. JOHNSON	$795.00	The Calcasieu Marine National Bank of Lake Charles - Welsh Branch Box 548, Welsh, Louisiana 70591.
BERNICE FOREMAN BOUDREAUX	$1,320.00	
MARK BOUDREAUX	None

ORA JOHNSON MIGUEZ	$1,065.00	The Calcasieu Marine National Bank of Lake Charles - Jennings Mid-city Br. Box 940, Jennings, Louisiana 70546
RICHARD W. JOHNSON	$270.00	The Calcasieu Marine National Bank of Lake Charles - Welsh Branch Box 548, Welsh, Louisiana 70591.
ALBERT SIDNEY JOHNSON III	$270.00	
SANDRA LYNN TRAHAN	$270.00	The First National Bank of Lafayette P. O. Drawer 2109 Lafayette, Louisiana 70504.
MILTON F. BOURDIER	$225.00	Spring Branch Educators Credit Union P.O. Box 55265 - Houston, Texas 77255-5265
ALFRED C. BOURDIER	$225.00	The Calcasieu Marine National Bank of Lake Charles , P.O. Box 2891 Lake Charles, Louisiana 70604.
LYNN H. BOURDIER	$225.00	Louisiana Savings Association South Lake Charles Branch P.O. Box 5997, Lake Charles, La. 70606.
BERNADINE BOURDIER ZIBILICH	$225.00	First Financial Bank - 1536 Lapalco Blvd., Harvey, Louisiana 70058.
ROSE MARIE BOURDIER PETITJEAN	$225.00	The Calcasieu Marine National Bank of Lake Charles, P.O. Box 2891 Lake Charles, Louisiana 70604.
DAVID L. BOURDIER	$225.00	Patterson State Bank - Box 427 Patterson, Louisiana 70392.
YVETTE MARIE BOUDREAUX LAFLEUR	$1,320.00	Allied - Marshall Bank P.O. Box 1369, Marshall, Texas 75670
LYDIA MCBRIDE BOUDREAUX	$1,320.00	The Calcasieu Marine National Bank of Lake Charles, P.O. Box 2891 Lake Charles, Louisiana 70604

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of January 23, 1984

by and between ALBERT SIDNEY JOHNSON III, married to and living with Agnes S. Johnson, nee Saulnier, whose address is 7805 Bass WindPoint, Parker, Colorado 80134,

hereinafter called "Lessor" (whether one or more), and MARANATHA MINERAL CORPORATION, whose address is P. O. Box 53001, Lafayette, Louisiana 70505

hereinafter called "Lessee":

Lessor, in consideration of the sum of One Hundred Dollars ($100.00 OVC), and other Valuable Consideration, receipt of which is hereby acknowledged, and the covenants and agreements of Lessee hereinafter contained, does hereby grant, lease and let unto Lessee the exclusive right for the purpose of investigating, exploring, prospecting, drilling and mining for and producing oil, gas and all other minerals, laying pipelines, building tanks, power stations, telephone lines and other structures thereon, producing, saving and handling said oil, gas and all other minerals, and the right of ingress and egress at all times for said purposes, the following described land, together with any reversionary rights therein, and the right to use the water, but not water from Lessor's wells, and the right to construct roads and canals thereon for operations hereunder, and including the right to remove from said land all machinery, fixtures, pipelines and/or derricks placed thereon by Lessee, situated in the Parish of JEFFERSON DAVIS, State of Louisiana, being described as follows, to-wit:

That certain tract of land containing 10.5 acres, more or less, situated in the [illegible] portion of Section 39, T10S-R5W, and being the [illegible] of the 10.200 acre tract as described in Conservation Order No. 101-B, dated November 1, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit "A" attached hereto and made a part hereof.

Shut-in royalty shall be computed on the basis of the 10,000 MCF as described in Conservation Order No. 101-B, dated November 1, 1962.

1/8 NRI 12,000

Notwithstanding anything contained in paragraph 7 hereto to the contrary, the price to be used in computing the royalty value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be back-filled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

[illegible] by the date of Lessee's [illegible] in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

456396

Exhibit D
Castex Development - Title and Lease History - 001338

615

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 70.51 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23 19 85, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred Fifty & No/100 Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods, One Hundred Fifty & No/100-------- Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
ALBERT SIDNEY JOHNSON III	$270.00	BANK OF THE WEST 6363 EAST PARKER ROAD PARKER, COLORADO 80134

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

FORM 42 CPM—NEW SOUTH LOUISIANA REVISED FOUR 141—POOLING REVISED "A"

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of January 23, 19 84

by and between BERNICE FOREMAN BOUDREAUX, widow of Mark A. Boudreaux, whose address is 3801 East Galbraith, Apt. 105, Cincinnati, Ohio 45236,

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is P. O. Box 53091, Lafayette, Louisiana 70505

hereinafter called "Lessee", witnesseth, that: ONE HUNDRED DOLLARS &

Lessor, in consideration of the sum of OTHER VALUABLE CONSIDERATIONS ($100.00 OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

That certain tract of land containing 70.51 acres, more or less, situated in the Northern portion of Section 39, T10S-R3W, and lying within the confines of the 10,200' Sand Unit as defined by Conservation Order 101-C, dated March 7, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit "A" attached hereto.

Said lease shall be effective down to the base of the 10,600' Sand as described in Conservation Order 101-D, dated November 1, 1962.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'

RECEIVED AND FILED

456897

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 70.51 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23, 19 85, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred Fifty & No/100 Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods One Hundred Fifty & No/100 Dollars ($150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
BERNICE FOREMAN BOUDREAUX	$1,320.00	FIFTH THIRD BANK - KENWOOD BRANCH Cincinnati, Ohio

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of January 23, 19 84

by and between WAYNE BOUDREAUX, married to and living with Vera B. Boudreaux, nee Breaux whose address is 1165 Ivanhoe Drive, North Muskegan, Michigan 49445.

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is P. O. Box 53091, Lafayette, Louisiana 70505
hereinafter called "Lessee", witnesseth, that: ONE HUNDRED DOLLARS &

Lessor, in consideration of the sum of OTHER VALUABLE CONSIDERATIONS ($ 100.00 OVC), **hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in** JEFFERSON DAVIS **Parish, Louisiana, and described as follows, to-wit:**

That certain tract of land containing 70.51 acres, more or less, situated in the Northern portion of Section 39, T10S-R3W, and lying within the confines of the 10,200' Sand Unit as defined by Conservation Order 101-C, dated March 7, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit "A" attached hereto.

Said lease shall be effective down to the base of the 10,600' Sand as described in Conservation Order 101-D, dated November 1, 1962.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'

RECORDED AND FILED
FEB 15 '84 10 AM
CLERK OF COURT
JEFF. DAVIS PAR.

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

456398

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

657

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 70.51 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23, 19 85, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred Fifty & No/100 Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods One Hundred Fifty & No/100-------- Dollars ($150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
WAYNE BOUDREAUX	0	

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

FORM 42 CPM—NEW SOUTH LOUISIANA REVISED FOUR 14)—POOLING REVISED "A"

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of January 23 1984

by and between MARK W. BOUDREAUX, married to and living with Genevieve G. Boudreaux, nee Guidry, whose address is 2601 Petworth Court, Cincinnati, Ohio 45236.

herein called "Lessor" (whether one or more) and MARANATHA MINERAL CORPORATION, whose address is P. O. Box 53091, Lafayette, Louisiana 70505
hereinafter called "Lessee", witnesseth, that: ONE HUNDRED DOLLARS &

Lessor, in consideration of the sum of OTHER VALUABLE CONSIDERATIONS ($100.00 OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in JEFFERSON DAVIS Parish, Louisiana, and described as follows, to-wit:

That certain tract of land containing 70.51 acres, more or less, situated in the Northern portion of Section 39, T10S-R3W, and lying within the confines of the 10,200' Sand Unit as defined by Conservation Order 101-C, dated March 7, 1962.

Said tract shown more fully outlined in red on the plat marked Exhibit "A" attached hereto.

Said lease shall be effective down to the base of the 10,600' Sand as described in Conservation Order No. 101-D, dated November 1, 1962.

The royalties to be paid by Lessee are: 1/4 from the surface down to 12,000' and 1/5 below 12,000'

RECEIVED AND FILED
1985 JAN 10 AM 10 41

Notwithstanding provisions of paragraph 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consumation of such contract; provided, however, should Lessee by virtue of any order by any regularoty body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

The contrary herein notwithstanding, it is distinctly understood that Lessee, his heirs and assigns, will at the conclusion of any and all operations hereunder, return the land hereinabove described to its original condition as reasonably as possible and moreover, prior to any excavation into the surface of the above described property, the top soil shall be first removed or bulldozed and stacked, or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said top soil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

456099

The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of the Lessors.

Prior to the commencement of any operations on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface to be utilized in such proposed operations and the acreage content thereof, which surface area shall include, by way of illustration, all areas used for boardruns, well locations, roadways, or any other areas actually used in Lessee's operations. Lessors shall be furnished with a copy of such plat of survey prior to the commencement of operations. Within 60 days following the date on which wells have been completed as a producer or abandoned as a dry hole, Lessee shall pay to Lessors a cash sum equal to $600.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be a surface rental for such area utilized by Lessee's operations for a period of one (1) year from the date of Lessee's actual entry upon the leased premises in connection with such operations. Thereafter, and in like manner, Lessee agrees to pay a surface rental for the area which Lessee continues to utilize for its operations, on an annual basis, at the rate of $660.00, which rental shall be further increased by 10% annually, commencing from one year of the date of completion of any producing wells on Lessors' property.

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 70.51 acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 23 19 85, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred Fifty & No/100 Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods, One Hundred Fifty & No/100-------- Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the SEE RENTAL DIVISION ORDER Bank of UNDER PARAGRAPH NO. 16 which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 660 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

~~Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.~~

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than one (1) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to-wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
MARK W. BOUDREAUX	0	

Lessors agree that the above division is solely for the purpose of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

IN WITNESS WHEREOF, this instrument is executed on the date first above written.

STATE OF LOUISIANA

PARISH OF JEFFERSON DAVIS

AMENDMENT OF OIL, GAS AND MINERAL LEASES

Reference is made to those certain Oil, Gas and Mineral Leases covering lands situated in Jefferson Davis Parish, Louisiana, described on the schedule attached as Exhibit A to this instrument, which Leases are presently owned by Carroll E. Pooler, Jr.

For good and valuable consideration, the receipt and sufficiency of which is acknowledged, the undersigned parties, being the parties lessor to the leases described on Exhibit A, joined herein by Carroll E. Pooler, Jr., the present owner of the working interst in and to said Leases, do agree that said Leases shall be amended in the following respects:

(a) the primary term of each such lease is hereby extended, so that each such lease shall not expire until July 22, 1988; provided that all delay rentals are paid;

(b) Paragraph 1 of each such Lease is hereby amended, so as to provide that the first delay rental due thereunder shall be paid on or before July 22, 1985 and annually thereafter on the 22nd of July, in lieu of the date(s) specified in each such lease, should Carroll E. Pooler, Jr. elect to maintain said leases by payment of rentals after 1985.

(c) For purposes of lease maintenance by operations all leases described on Exhibit A or tracts contained therein owned by the signatory parties shall be treated as one lease.

Nothing herein is intended to modify the said Leases in any other respect except as specified herein, including, without limitation, the right of the Lessee to maintain the leases by operations or production.

The effective date of this instrument shall be the original date of the leases. This instrument may be executed in mutiple counterpart, each of which shall constitute a complete instrument. This instrument shall be binding upon all who executed same, whether or not executed by the remaining parties. All parties further authorize Carroll E. Pooler, Jr. to combine all signature and acknowledgement pages into a single instrument for purposes of recordation.

Entered into and made effective this 9th day of January 1985.

ASSIGNMENT OF OIL, GAS AND MINERAL LEASES

RECEIVED AND FILED
1985 MAY -1 AM 8:31
CLERK OF COURT

458723

STATE OF LOUISIANA

PARISHES OF JEFFERSON DAVIS AND ACADIA

KNOW ALL MEN BY THESE PRESENTS:

THAT, the undersigned, SOHIO PETROLEUM COMPANY, a Delaware corporation, whose address is 9401 Southwest Freeway, Suite 1200, Houston, Texas 77074, (hereinafter referred to as "Assignor"), for and in consideration of the sum of TEN AND NO/100 DOLLARS ($10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, does hereby SELL, ASSIGN, TRANSFER and CONVEY unto LYNAL, INC., a Louisiana corporation, whose address is P. O. Box 52185, Lafayette, LA 70505, and RAMSAY CORPORATION, a Texas Corporation, whose address is P. O. Box 52027, Lafayette, LA 70505, (hereinafter collectively referred to as "Assignee"), all of its right, title and interest in and to the Oil, Gas and Mineral Leases set forth and described on Exhibit "A" attached hereto and made a part hereof, and to which reference is hereby made for all purposes, covering lands situated in the Parishes of Jefferson Davis and Acadia, State of Louisiana

458723

There is excepted and reserved from the Leases assigned herein an Overriding Royalty equal to four percent of eight-eighths (4% of 8/8ths) of the oil, casinghead gas, gas well gas and condensate or other associated hydrocarbon substances which may be produced, saved and marketed and attributable to the lands covered hereby. The Overriding Royalty herein reserved shall be free and clear of all costs and expenses except the proportion of all taxes levied thereon and transportation charges, if any are incurred, necessary to market said production.

Any renewal, extension or new lease or leases covering the lands assigned herein, acquired by Assignee or a third party wholly or partly for Assignee's benefit, on said lands shall be deemed to continue and preserve Assignor's rights reserved.

In the event the interests covered by the Leases are less than a full interest in any tract of the lands covered hereby, the Overriding Royalty reserved herein shall be payable from said tract in the proportion that the interests covered by the Leases on said tract bear to the entire mineral estate in said tract.

TO HAVE AND TO HOLD said interests unto Assignee, its successors and assigns forever.

This Assignment is made without any warranty of title, express or implied.

IN WITNESS WHEREOF, this Assignment has been executed on this 31st day of October, 1984, in the presence of the undersigned competent witnesses.

CLERK OF COURT
JEFFERSON DAVIS PARISH

ASSIGNMENT OF OIL AND GAS LEASES

STATE OF LOUISIANA

PARISH OF JEFFERSON DAVIS

KNOW ALL MEN BY THESE PRESENTS: That,

CARROLL E. POOLER, JR., husband of, and Barbara Kay Pollock Pooler, 1100 Lafayette Street, Lafayette, Louisiana 70501, (hereinafter referred to as "ASSIGNOR"), for and in consideration of the sum of ONE THOUSAND AND NO/100 DOLLARS ($1,000.00) cash in hand paid and other good and valuable consideration, the receipt of which is hereby acknowledged, does hereby ASSIGN, SET OVER and CONVEY unto THE STONE PETROLEUM CORPORATION, a Delaware corporation, P. O. Box 52807, Lafayette, Louisiana 70505 (hereinafter referred to as "ASSIGNEE"), all of ASSIGNOR's right, title and interest of whatever nature, in and to those certain Oil and Gas Leases described on Exhibit "A" attached hereto and made a part hereof.

459600

THIS ASSIGNMENT is made without warranty of title, either express or implied, except for any acts by, through or under Assignor, and the terms and provisions hereof shall inure to the benefit of and be binding upon the parties hereof, their respective heirs, successors and assigns.

FURTHER, this assignment is made pursuant to the following terms and conditions:

1. The Stone Petroleum Corporation, as Assignee, shall not be held liable for any obligations or commitments made by Assignor, except for those obligations arising by virtue of the terms and conditions of the assigned leases of record in Jefferson Davis Parish, Louisiana as of the date hereof. Specifically, Stone shall acquire no obligations whatsoever under the so-called "Bown Agreement", but does assume responsibility for the guaranteed rental due on the Johnson-Boudreaux Heirs lease, due July 22, 1985, which rental was agreed to by Assignor in an unrecorded Amendment of Oil, Gas and Mineral Leases date January 9, 1985, by and between Assignor herein and R. R. Bruce, et al.

2. The existing Joint Operating Agreement and Letter Agreement (as recorded in COB 595, File No. 456341, Jefferson Davis Parish, Louisiana) between the parties hereto shall have no further force and effect, except that Assignor herein agrees not to acquire any leases or interests within the Area of Mutual Interest, as defined therein, for so long as any of the leases assigned shall exist, or any extensions or renewals thereof shall exist, plus an additional six months.

ORIGINAL

3. Assignee herein shall become responsible for plugging and abandoning the Midwest Oil Johnson-Boudreaux #1, which Assignor purchased from Petroleum Well Services, Inc. Assignor specifically quitclaims all right, title and interest in same in favor of Assignee; provided, however, that Stone shall not be liable in any manner for any of Assignor's actions or obligations pertaining to said well, and Assignee shall be held harmless from any actions arising out of same.

4. The provisions of that certain unrecorded Letter Agreement dated June 3, 1985 by and between Assignor and Assignee herein.

THUS DONE AND SIGNED this 7th day of June, 1985.

WITNESSES:

CARROLL E. POOLER, JR.

BARBARA KAY POLLOCK POOLER

STATE OF LOUISIANA

PARISH OF LAFAYETTE

BEFORE ME, on this 7th day of June, 1985, personally appeared CARROLL E. POOLER, JR. AND BARBARA KAY POLLOCK POOLER, to me known to be the persons described in the foregoing instrument and acknowledged that they executed the same as their free act and deed.

RIGHT OF WAY AGREEMENT

FOR AND IN CONSIDERATION of the sum of ONE THOUSAND FIVE HUNDRED FIFTY AND NO/100------- DOLLARS ($1,550.00), in hand paid, the receipt of which is hereby acknowledged, WE THE UNDERSIGNED hereinafter referred to as Grantor (whether one or more), does hereby grant unto LOUISIANA GAS SYSTEM INC., a corporation, hereinafter referred to as Grantee, its successors and assigns, the right to lay, maintain, inspect, alter, repair, operate, protect, replace, relay and remove or abandon in place a pipeline, for the transportation of oil and gas and products and by-products thereof, water and other substances whether hydrocarbons or not, and such drips, valves, fittings, meters, cathodic protection devices and other equipment and appurtenances as may be necessary or convenient for such operations, upon, through and under the following described land, situated in Jefferson Davis Parish, State of Louisiana, to wit:

A TRACT OF LAND SITUATED IN SECTION 39, TOWNSHIP 10 SOUTH, RANGE 3 WEST, JEFFERSON DAVIS PARISH, LA. INCLUDING A 15' X 20' METER SITE AS PER PLAT OF SURVEY PREPARED BY AUCOIN AND ASSOCIATES INC., SURVEYORS WHICH IS ATTACHED HERETO AND MADE A PART HEREOF.

together with the rights of ingress and egress to and from said line for the purpose aforesaid. Grantor to have the right fully to use and enjoy the above-described premises, except as to the rights hereinbefore granted. Grantor shall not construct or permit to be constructed any house, structures or obstructions that will interfere with the construction, maintenance or operation of any pipeline or appurtenances constructed hereunder, nor shall Grantor change the grade over such pipeline or appurtenances.

Grantee agrees to pay any damages which may arise to crops, pasturage, timber, fences or buildings of said Grantor from the exercise of the rights herein granted.

Grantee covenants and agrees to indemnify and forever hold harmless the Grantor against each and every claim, demand, or cause of action that may be made or come against him by reason or in any way arising out of any defect, imperfection, operation, maintenance, or construction of said pipeline.

Any pipeline constructed under this grant by Grantee across lands under cultivation shall, at the time of construction thereof, of which such pipe is a part, be buried to such depth as will not interfere with such cultivation, except that at option of Grantee any such pipe may be placed above any stream, ravine, ditch, canal, or other watercourse.

This right of way agreement may be assigned by Grantee, its successors and assigns, in whole or in part, vesting in any other person, firm or corporation the ownership of one pipeline with full rights of ingress and egress for the maintenance, repair, operation, replacement and removal thereof.

It is agreed that any payment due hereunder may be made direct to Johnson-Boudreaux Farm Company.

It is understood that the person securing this grant is without authority from Grantee to make any agreement in respect to the subject matter hereof not herein expressed, and this deed contains the entire contract.

The terms, conditions and provisions hereof shall extend to and be binding upon the heirs, executors, administrators, personal representatives, successors and assigns of the parties hereto.

COUNTERPART
RIGHT OF WAY AGREEMENT

FOR AND IN CONSIDERATION of the sum of ONE THOUSAND FIVE HUNDRED FIFTY AND NO/100------- DOLLARS ($1,550.00), in hand paid, the receipt of which is hereby acknowledged, WE THE UNDERSIGNED hereinafter referred to as Grantor (whether one or more), does hereby grant unto LOUISIANA GAS SYSTEM INC., a corporation, hereinafter referred to as Grantee, its successors and assigns, the right to lay, maintain, inspect, alter, repair, operate, protect, replace, relay and remove or abandon in place a pipeline, for the transportation of oil and gas and products and by-products thereof, water and other substances whether hydrocarbons or not, and such drips, valves, fittings, meters, cathodic protection devices and other equipment and appurtenances as may be necessary or convenient for such operations, upon, through and under the following described land, situated in Jefferson Davis Parish, State of Louisiana, to wit:

A TRACT OF LAND SITUATED IN SECTION 39, TOWNSHIP 10 SOUTH, RANGE 3 WEST, JEFFERSON DAVIS PARISH, LA. INCLUDING A 15' X 20' METER SITE AS PER PLAT OF SURVEY PREPARED BY AUCOIN AND ASSOCIATES INC., SURVEYORS WHICH IS ATTACHED HERETO AND MADE A PART HEREOF.

together with the rights of ingress and egress to and from said line for the purpose aforesaid. Grantor to have the right fully to use and enjoy the above-described premises, except as to the rights hereinbefore granted. Grantor shall not construct or permit to be constructed any house, structures or obstructions that will interfere with the construction, maintenance or operation of any pipeline or appurtenances constructed hereunder, nor shall Grantor change the grade over such pipeline or appurtenances.

Grantee agrees to pay any damages which may arise to crops, pasturage, timber, fences or buildings of said Grantor from the exercise of the rights herein granted.

Grantee covenants and agrees to indemnify and forever hold harmless the Grantor against each and every claim, demand, or cause of action that may be made or come against him by reason or in any way arising out of any defect, imperfection, operation, maintenance, or construction of said pipeline.

Any pipeline constructed under this grant by Grantee across lands under cultivation shall, at the time of construction thereof, of which such pipe is a part, be buried to such depth as will not interfere with such cultivation, except that at option of Grantee any such pipe may be placed above any stream, ravine, ditch, canal, or other watercourse.

This right of way agreement may be assigned by Grantee, its successors and assigns, in whole or in part, vesting in any other person, firm or corporation the ownership of one pipeline with full rights of ingress and egress for the maintenance, repair, operation, replacement and removal thereof.

It is agreed that any payment due hereunder may be made direct to Johnson-Boudreaux Farm Company.

It is understood that the person securing this grant is without authority from Grantee to make any agreement in respect to the subject matter hereof not herein expressed, and this deed contains the entire contract.

The terms, conditions and provisions hereof shall extend to and be binding upon the heirs, executors, administrators, personal representatives, successors and assigns of the parties hereto.

Grantor to have the right fully to use and enjoy the above-described premises, except as to the rights hereinbefore granted. Grantor shall not construct or permit to be constructed any house, structures or obstructions that will interfere with the construction, maintenance or operation of any pipeline or appurtenances constructed hereunder, nor shall Grantor change the grade over such pipeline or appurtenances.

Grantee agrees to pay any damages which may arise to crops, pasturage, timber, fences or buildings of said Grantor from the exercise of the rights herein granted.

Grantee covenants and agrees to indemnify and forever hold harmless the Grantor against each and every claim, demand, or cause of action that may be made or come against him by reason or in any way arising out of any defect, imperfection, operation, maintenance, or construction of said pipeline.

Any pipeline constructed under this grant by Grantee across lands under cultivation shall, at the time of construction thereof, of which such pipe is a part, be buried to such depth as will not interfere with such cultivation, except that at option of Grantee any such pipe may be placed above any stream, ravine, ditch, canal, or other watercourse.

This right of way agreement may be assigned by Grantee, its successors and assigns, in whole or in part, vesting in any other person, firm or corporation the ownership of one pipeline with full rights of ingress and egress for the maintenance, repair, operation, replacement and removal thereof.

It is agreed that any payment due hereunder may be made direct to Johnson-Boudreaux Farm Company.

It is understood that the person securing this grant is without authority from Grantee to make any agreement in respect to the subject matter hereof not herein expressed, and this deed contains the entire contract.

The terms, conditions and provisions hereof shall extend to and be binding upon the heirs, executors, administrators, personal representatives, successors and assigns of the parties hereto.

CLERK OF COURT
JEFFERSON DAVIS PARISH

DECLARATION OF UNITIZATION

STATE OF LOUISIANA

PARISH OF JEFFERSON DAVIS

THIS AGREEMENT MADE AND ENTERED INTO on this the 4th day of June, 1986, by and between Texaco Inc., a Delaware corporation, herein represented by B. J. HUGHES, its duly authorzied Attorney-in-Fact (hereinafter sometimes referred to as "Texaco") and The Stone Petroleum Corporation, a Delaware corporation, herein represented by Howard A. McKissack, its duly authorized Vice President, (hereinafter sometimes referred to as "Stone");

467360

W I T N E S S E T H

WHEREAS, Stone owns the Oil, Gas and Mineral Leases more fully described on Exhibit "A" attached hereto and made a part hereof (hereinafter referred to as Leases "A" and Lease "B");

WHEREAS said Leases "A" authorize Lessee to pool or combine the acreage, royalty or mineral interest covered thereby with other land, lease or leases, royalty and mineral interests, so as to create units not exceeding substantially one hundred sixty (160) acres for each gas well for the drilling for, reworking and other operations intended to establish or restore production of Unitized Substances (defined for the purposes of this agreement as the oil, gas and other hydrocarbons which may be produced and saved from the unitized zone underlying said Pooled Unit);

WHEREAS, Lease "B" does not grant Lessee the same rights granted in Leases "A", however Texaco, Lessor in said Lease "B", joins in the execution of this instrument and by doing

ORIGINAL

so hereby ratifies and confirms this Declaration of Unitization, subject to those certain unrecorded agreements by and between Stone and Texaco, dated June 4, 1985, August 5, 1985 and February 24, 1986;

WHEREAS, Texaco desires to consent, insofar as its interest is concerned, to the pooling and combining of portions of the property covered by Lease "B" with portions of the other oil, gas and mineral leases described in Exhibit "A" hereof, and Stone desires to declare the pooling and combining of portions of the property covered by the oil, gas and mineral leases described in Exhibit "A" hereof, less and except the property covered by said Lease "B", for the unit operation of the Unitized Zone (as hereinafter defined), for the purpose of more efficiently and economically developing, producing from and operating upon the hereinafter described Unit, and in order to prevent surface and underground waste and the drilling of unnecessary wells, to conserve and utilize the natural production energies in said Unitized Zone, to obtain the greatest ultimate recovery of Unitized Substances (which is defined for the purposes of this agreement as the gas and condensate which may be produced and saved from the Unitized Zone underlying said Unit), to promote maximum conservation, and to insure to each of the parties its fair share of Unitized Substances, all in accordance with the provisions of said oil, gas and mineral leases.

NOW, THEREFORE, in consideration of the premises and of the mutual benefits to accrue hereunder and pursuant to the provisions of Lease "B", Texaco does hereby consent to and approve of, insofar as its interest is concerned, the pooling and unitization of a portion of said Lease with portions of the other oil, gas and mineral leases described in Exhibit "A" hereof, and the mineral, royalty and overriding royalty rights thereunder, which lie within the area shown and described on the plat entitled "The

Stone Petroleum Corporation-R. R. Bruce et al No. 1 Voluntary Unit, dated March 14, 1986, revised April 8, 1986, which is attached hereto and made a part hereof as Exhibit "B", insofar, but only insofar as said oil, gas and mineral leases and the mineral, royalty and overriding royalty rights thereunder pertain to the exploration, development and production of Unitized Substances from said Unitized Zone (being that certain sand encountered between electric log depths of 12,492 feet and 12,497 feet in the Stone-R. R. Bruce Well No. 1, located in Section 17, Township 10 South, Range 2 West, Jefferson Davis Parish, Louisiana, said sand being known as the Marg Tex Sand), said unit created hereunder to be hereinafter referred to as "Pooled Unit". Stone does hereby declare, pursuant to the provisions of the other oil, gas and mineral leases described in Exhibit "A" hereof, the pooling and unitization of portions of the said oil, gas and mineral leases and the mineral, royalty and overriding royalty rights thereunder, which lie within the hereinabove described Pooled Unit.

It is understood and agreed that for all purposes hereof the said Pooled Unit shall be considered as comprising 160.000 acres, of which 25.723 acres shall be considered as being covered by and included in Lease "B" and 134.277 acres shall be considered as being covered by and included in the other oil, gas and mineral leases described in Exhibit "A" hereof and that in lieu of the royalties, overriding royalties or other payments which would accrue to Texaco on production from property covered by said Lease, located within such Pooled Unit, Texaco shall receive, on account of any such production regardless of whether or not any such production is from any part of the property covered by the said Lease located within said Pooled Unit, a royalty equal to that proportion of the total royalty stipulated

Exhibit D
Castex Development - Title and Lease History - 001438

in said Lease, which the number of acres covered by said Lease, included in the Pooled Unit, bears to the total acreage in said Pooled Unit.

It is recognized that all or a portion or portions of said Pooled Unit may be included within new or revised drilling and/or production units created by order of the Department of Conservation for the State of Louisiana. In the event any such units are so established which include a portion or portions of said Pooled Unit, it is agreed that the party or parties who contribute the lands and leases to such portion or portions of said Pooled Unit which are included in such new or revised units shall be given full credit for such lands and leases in such new or revised units, and such lands and leases shall not be considered to have been contributed by all of the parties to this agreement; it being understood that the participation in the new or revised units shall be determined without regard to this Declaration of Unitization as though same had never been executed.

In the event production of Unitized Substances from said Pooled Unit should cease once placed on production, this agreement shall terminate ninety (90) days after such cessation of production; provided, however, that if reworking operations or operations for the drilling of another well in search of Unitized Substances are commenced on said Pooled Unit within such ninety (90) day period, this agreement shall remain in full force and effect so long as such operations are being conducted thereon without cessation of more than ninety (90) days between the abandonment of one well and the reworking of the same well or the commencement of operations for the drilling of another well until production of Unitized Substances is established or re-established.

It is further understood and agreed that nothing herein contained shall in any manner whatsoever be construed to impose

Exhibit D
Castex Development - Title and Lease History - 001439

any obligation upon Stone to conduct any drilling or reworking operations on said Pooled Unit. Such obligations, if any, shall be determined and governed solely by the terms, conditions and provisions of each of said Leases.

All of the terms, provisions and conditions of this agreement are hereby made subject to all laws, rules, orders and regulations of any duly constituted authority, State or Federal, having jurisdiction in the premises.

IN WITNESS WHEREOF, the parties hereto have executed this agreement as of the day and date first hereinabove written.

hereinafter referred to as "Lessors" and,

CASTEX SYSTEMS, INC., a Louisiana corporation, domiciled in Jefferson Davis Parish, La., represented herein by its duly authorized President, JAMES E. NUGENT,

herein after referred to as "Lessee", as follows, to-wit:

I.

Lessors hereby lease unto Lessee the following described property located in Jefferson Davis Parish, Louisiana, to-wit:

That certain 50 acre tract of land located in Section 17, Township 10 South, Range 2 West, La. Mer., described as Beginning at a 1/4" Rod in the North line of Section 17, South 62 degrees 06'20" East a distance of 1,167.31 feet from the Northwest corner of said Section 17; thence South 61 degrees 49'32" East a distance of 1,119.27 feet to a 1/4" iron rod; thence South 61 degrees 41'03" East a distance of 1,137.77 feet to an iron pipe set for corner; thence South 41 degrees 07'34" West a distance of 1,017.73 feet to an iron pipe set for corner; thence North 71 degrees 29'41" West a distance of 1,585.27 feet to an iron pipe set for corner; thence North 18 degrees 30'16" East a distance of 481.66 feet to an iron pipe set for corner; thence North 19 degrees 38'59" West a distance of 445.06 feet to a 3/4" iron pipe for corner; thence North 18 degrees 21'38" East a distance of 100.03 feet to a 3/4" iron pipe for corner; thence South 71 degrees 29'30" East a distance of 22.21 feet to a point for corner; thence North 19 degrees 16'24" East a distance of 389.67 feet to the place of beginning containing 50.00 acres as per plat of survey prepared by James W. Wingfield, Jr., Registered Land Surveyor, dated September 10, 1984, revised October 9, 1984, which is recorded in Conveyance Book 590 at page 439, records of Jefferson Davis Parish.

520

II.

This lease shall also include the use of the road leading to the leased premises from Louisiana Highway 1126. Lessee obligates itself to maintain the road.

III.

This lease is for the purpose of using the well located thereon known as the Delta Well #1 as a salt water disposal well and the storage of drilling fluids, together with the surface of the leased premises for oilfield mud disposal.

IV.

This lease is for a term of 10 years beginning November 15, 1989, and ending November 14, 1999.

V.

The yearly rental is $20,000.00 per year payable in advance and is to be deposited in the Jeff Davis Bank, Jennings, Louisiana to the account of the Johnson Boudreaux Farm on or before November 15 of the rental year.

VI.

Lessors will not be responsible for any damages of any sort to any persons or property, however occasioned; and Lessee shall hold Lessors harmless from any claims by or liability arising out of the use of the leased premises and road by Lessee. Lessee shall carry public liability on the leased premises in the minimum amount of $1,000,000.00 for each occurrence.

VII.

Should Lessee at any time violate any of the conditions of this lease or fail to comply with any of Lessee's obligations hereunder, or fail to pay the rent at maturity, as stipulated, or upon the filing of a bankruptcy, receivership or respite petition by or against Lessee, or upon Lessee's suspension, failure or insolvency, the rent for the whole unexpired term of this lease shall, without putting Lessee in default, at once become due and exigible, and in such event, Lessor shall have the option either at once to demand the entire rent for the whole term or to immediately cancel this lease, without putting Lessee in default; Lessee to remain responsible for all damages or losses suffered by Lessor; Lessee hereby assenting thereto and expressly waiving

the legal notice to vacate the premises. Failure to strictly and promptly enforce these conditions shall not operate as a waiver of Lessors' rights, Lessors expressly reserving the right to always enforce prompt payment of the rent or to cancel this lease regardless of any indulgences or extensions previously granted. Failure to comply with any condition or obligation of this lease shall make Lessee liable for any loss of damage sustained by Lessors.

VIII.

Lessee agrees to pay reasonable attorneys fees and court costs should it become necessary for Lessors to employ an attorney to recover the rent, or for or on account of any breach of, or to enforce or interpret any of the provisions of this lease, or for the recovery of the possession of the leased premises.

IX.

At the termination of this lease, Lessee agrees to restore the premises to their original condition as near as practicable, including but not limited to the removal of all pipes, buildings, the filling in of all pits and the leveling of all levees.

X.

This agreement may be executed in multiple counterparts, each of which shall be an original document binding upon the party or parties so signing.

IN TESTIMONY WHEREOF, Lessors and Lessee have executed this instrument in the presence of the undersigned competent witnesses, on the dates and at the places set forth in the acknowledgments.

RESOLUTION

RESOLVED by the Board of Directors of the corporation that it lease from the Johnson-Boudreaux Heirs 50 acres of property owned by them and located in Section 17, Township 10 South, Range 2 West, La. Mer., as per plat of survey prepared by James W. Wingfield, Jr., Registered Land Surveyor, dated September 10, 1984, revised October 9, 1984.

BE IT FURTHER RESOLVED that James E. Nugent, President of the corporation be and he is hereby authorized, empowered and directed to execute the lease agreement to contain such terms and conditions and for a price as he deems necessary and advisable in his uncontrolled discretion.

CERTIFICATE

I, JAMES E. NUGENT, Secretary-Treasurer of CASTEX SYSTEMS, INC., do hereby certify that the above and foregoing is a true and correct copy of a resolution adopted at a meeting of the Board of Directors of said corporation held on , 198 , at which meeting all of the members of the Board of Directors were present in person and waived notice of the meeting and each voted unanimously in favor thereof. This resolution has not been modified or rescinded and is still in full force and effect.

Jennings, Louisiana, this 13th day of November, 198C.

JAMES E. NUGENT -
Secretary-Treasurer

GAY B. HUFF, CLERK OF COURT

470774 227

ACT OF CORRECTION

RECEIVED AND FILED
1986 DEC 15 AM 9:34
Gay B. Hugg
CLERK OF COURT
JEFFERSON DAVIS PARISH

STATE OF LOUISIANA
PARISH OF JEFFERSON DAVIS

KNOW ALL MEN BY THESE PRESENTS:

THAT,

WHEREAS, on the 23rd day of January 1984, the Lessors under those leases as described in Exhibit "A" attached hereto and made a part hereof, executed said Oil, Gas and Mineral Leases which are now owned by THE STONE PETROLEUM CORPORATION covering and affecting the lands as described in said leases situated in Jefferson Davis Parish, Louisiana.

WHEREAS it now appears that through error and inadvertence, said leases incorrectly described a portion of the lands thereby affected when in truth and in fact it was the intention of the parties thereto that said leases should have described said property as corrected herein and it is the will of the parties to correct said leases only as provided for herein.

470774

NOW, THEREFORE, for and in consideration of Ten Dollars and other valuable consideration the receipt and adequacy of which is hereby acknowledged, the parties do hereby correct said lease as follows, to wit:

1. The following portion of the description of the lands of said leases are hereby deleted in its entirety:

"(2) 10,200 foot Sand Unit created by Louisiana" Department of Conservation Order No. 101-C, effective April 1, 1962, as amended by Order No. 101-C-1, effective December 9, 1971, LESS AND EXCEPT all rights below the stratigraphic equivalent of the 10,600 foot sand as defined in Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962, insofar, and only insofar, as said rights underlie a tract of land containing 70.51 acres situated in Section 39, Township 10 South, Range 3 West, and more fully described in an oil and gas lease dated July 6, 1971, granted to Ruffin T. Lowry and recorded in conveyance Book 358, at Page 846, under File No. 352892, records of Jefferson Davis Parish, Louisiana, <u>said rights under said tract being leased herein.</u>

(3) 10,600 foot Sand Unit created by Louisiana Department of Conservation Order No. 101-D, effective November 1, 1962.

In place and stead of the hereinabove deleted portion of the description of said leases, there is substituted the following:

"(2) 10,200 foot Sand Unit created by Louisiana" Department of Conservation Order No. 101-C, effective April 1, 1962, as amended by Order No. 101-C-1, effective December 9, 1971, LESS AND EXCEPT, however, all rights underlying two tracts of land containing 70.51 acres situated in Section 39, Township 10 South, Range 3

West, and .86 acre situated in Section 17, Township 10 South, Range 2 West, as depicted on the plat attached to said Order No. 101-C-1 as tract number 2, said rights under said tracts being leased herein.

It is further stipulated that this instrument is executed solely and only for the purpose of correcting the description in said leases, as provided for herein, and except for this correction of the description provided for herein, said leases shall in all other respects be and remain in full force and effect, unchanged and as originally written.

This instrument may be executed in any number of counterparts, each of which shall be considered an original for all purposes.

IN WITNESS WHEREOF, this instrument is executed on the 21st day of July, 1986, in the presence of the undersigned competent witnesses.

J/B FARMS PROSPECT
JEFFERSON DAVIS PARISH
LOUISIANA

EXHIBIT "A"

Attached to and made a part of that certain Act of Correction dated 21st day of July, 1986 between Reuben Raymond Bruce, et al and The Stone Petroleum Corporation.

85-494-09.A That certain Oil, Gas and Mineral Lease dated January 23, 1984 by and between Reuben Raymond Bruce, et al, as Lessor, and Maranatha Minerals Corporation, as Lessee, covering 450.8400 acres, more or less, and recorded in the official records of Jefferson Davis Parish in Conveyance Book 595, Entry No. 456384.

85-494-09.B That certain Oil, Gas and Mineral Lease dated January 23, 1984 by and between Bernice Foreman Boudreaux, as Lessor, and Maranatha Minerals Corporation, as Lessee, covering 450.8400 acres, more or less, and recorded in the official records of Jefferson Davis Parish in Conveyance Book 595, Entry No. 456381.

85-494-09.C That certain Oil, Gas and Mineral Lease dated January 23, 1984 by and between Mark W. Boudreaux, as Lessor, and Maranatha Minerals Corporation, as Lessee, covering 450.8400 acres, more or less, and recorded in the official records of Jefferson Davis Parish in Conveyance Book 595, Entry No. 456383.

85-494-09.D That certain Oil, Gas and Mineral Lease dated January 23, 1984 by and between Wayne Boudreaux, as Lessor, and Maranatha Minerals Corporation, as Lessee, covering 450.8400 acres, more or less, and recorded in the official records of Jefferson Davis Parish in Conveyance Book 595, Entry No. 456382.

85-494-09.E That certain Oil, Gas and Mineral Lease dated January 23, 1984 by and between Albert Sidney Johnson, as Lessor, and Maranatha Minerals Corporation, as Lessee, covering 450.8400 acres, more or less, and recorded in the official records of Jefferson Davis Parish in Conveyance Book 595, Entry No. 456380.

GAY B. HUFF, CLERK OF COURT

470775

259

CORRECTION OF AMENDMENT OF OIL, GAS AND MINERAL LEASES

STATE OF LOUISIANA

PARISH OF JEFFERSON DAVIS

KNOW ALL MEN BY THESE PRESENTS:

THAT,

RECEIVED AND FILED
1986 DEC 15 AM 8:52
Gay B. Phillips
CLERK OF COURT
JEFFERSON DAVIS PARISH

WHEREAS, an Amendment of Oil, Gas and Mineral Leases was entered into on January 9, 1985 by Reuben Raymond Bruce, et al, recorded in the Parish of Jefferson Davis, State of Louisiana, in Conveyance Book 597 under File No. 456949 (hereinafter referred to as "said Amendment").

WHEREAS, the recording information on Exhibit "A" attached thereto refers to the recordation of the Declaration of Lease for each lease described on said Exhibit "A" and not the recordation of each lease described thereon:

WHEREAS, it is the intent of the undersigned parties, being all of the parties names in said Amendment to join together to correct the error heretofore made by substituting the attached Exhibit "A", which correctly identifies the subject Oil, Gas and Mineral Leases, with that attached to said Amendment hereinabove described.

470775

NOW, THEREFORE, it is the desire of the undersigned parties to stipulate, clarify and declare to all third parties that the Exhibit "A" attached hereto shall be substituted for and replace Exhibit "A" attached to that certain Amendment of Oil, Gas and Mineral Leases recorded in Conveyance Book 597, under File No. 456949, Jefferson Davis Parish, Louisiana.

IN WITNESS WHEREOF, this instrument is executed on this 21st day of July, 1986, in the presence of the undersigned competent witnesses.

DECLARATION OF UNITIZATION

AND

VOLUNTARY UNITIZATION AGREEMENT

RECEIVED AND FILED
1988 JUN -2 AM 9: 29
CLERK OF COURT
JEFFERSON DAVIS PARISH, LA.

STATE OF LOUISIANA

PARISH OF JEFFERSON DAVIS

THIS AGREEMENT MADE AND ENTERED INTO on this the 2nd day of October, 1987, by and between Texaco Inc. a Delaware corporation, herein represented by J. A. NEWTON, its duly authorized Attorney-in-Fact (hereinafter sometimes referred to as "Texaco") and The Stone Petroleum Corporation, a Delaware corporation, herein represented by Howard A. McKissack, its duly authorized Vice President, (hereinafter sometimes referred to as "Stone");

W I T N E S S E T H

WHEREAS, Stone owns the Oil, Gas and Mineral Leases more fully described on Exhibit "A" attached hereto and made a part hereof (hereinafter referred to as Leases "A" and Lease "B");

481300

WHEREAS said Leases "A" authorize Lessee to pool or combine the acreage, royalty or mineral interest covered thereby with other land, lease or leases, royalty and mineral interests, so as to create units not exceeding substantially one hundred sixty (160) acres for each gas well for the drilling for, reworking and other operations intended to establish or restore production of Unitized Substances (defined for the purposes of this agreement as the gas and condensate which may be produced and saved from the unitzed zone underlying said Pooled Unit);

WHEREAS, Lease "B" does not grant Lessee the same rights granted in Leases "A", however Texaco, Lessor in said Lease "B", joins in the execution of this instrument and by doing

so hereby ratifies and confirms this Declaration of Unitization, subject to those certain unrecorded agreements by and between Stone and Texaco, dated June 4, 1985 and August 5, 1985;

WHEREAS, Texaco desires to consent, insofar as its interest is concerned, to the pooling and combining of portions of the property covered by Lease "B" with portions of the other oil, gas and mineral leases described in Exhibit "A" hereof, and Stone desires to declare the pooling and combining of portions of the property covered by the oil, gas and mineral leases described in Exhibit "A" hereof, less and except the property covered by said Lease "B", for the unit operation of the Unitized Zone (as hereinafter defined), for the purpose of more efficiently and economically developing, producing from and operating upon the hereinafter described Unit, and in order to prevent surface and underground waste and the drilling of unnecessary wells, to conserve and utilize the natural production energies in said Unitized Zone, to obtain the greatest ultimate recovery of Unitized Substances (which is defined for the purposes of this agreement as the gas and condensate which may be produced and saved from the Unitized Zone underlying said Pooled Unit), to promote maximum conservation, and to insure to each of the parties its fair share of Unitized Substances, all in accordance with the provisions of said oil, gas and mineral leases.

NOW, THEREFORE, in consideration of the premises and of the mutual benefits to accrue hereunder and pursuant to the provisions of Lease "B", Texaco does hereby consent to and approve of, insofar as its interest is concerned, the pooling and unitization of a portion of said Lease with portions of the other oil, gas and mineral leases described in Exhibit "A" hereof, and the mineral, royalty and overriding royalty rights thereunder, which lie within the area shown and described on the plat entitled "The Stone Petroleum Corporation-CIB HAZ VU A", dated

July 14, 1987, which is attached hereto and made a part hereof as Exhibit "B", insofar, but only insofar as said oil, gas and mineral leases and the mineral, royalty and overriding royalty rights thereunder pertain to the exploration, development and production of Unitized Substances from said Unitized Zone (being that certain sand encountered between electric log depths of 11,618 feet and 11,850 feet in the Stone-R. R. Bruce Well No. 1, located in Section 17, Township 10 South, Range 2 West Jefferson Davis Parish, Louisiana, said sand being known as the CIB HAZ Sand), said unit created hereunder to be hereinafter referred to as "Pooled Unit". Stone does hereby declare, pursuant to the provisions of the other oil, gas and mineral leases described in Exhibit "A" hereof, the pooling and unitization of portions of the said oil, gas and mineral leases and the mineral, royalty and overriding royalty rights thereunder, which lie within the hereinabove described Pooled Unit.

It is understood and agreed that for all purposes hereof the said Pooled Unit shall be considered as comprising 160.000 acres, of which 36.000 acres shall be considered as being covered by and included in Lease "B" and 124.000 acres shall be considered as being covered by and included in the other oil, gas and mineral leases described in Exhibit "A" hereof and that in lieu of the royalties, overriding royalties or other payments which would accrue to Texaco on production from property covered by said Lease, located within such Pooled Unit, Texaco shall receive, on account of any such production regardless of whether or not any such production is from any part of the property covered by the said Lease located within said Pooled Unit, a royalty equal to that proportion of the total royalty stipulated in said Lease, which the number of acres covered by said Lease, included in the Pooled Unit, bears to the total acreage in said Pooled Unit.

Exhibit D
Castex Development - Title and Lease History - 001559

It is recognized that all or a portion or portions of said Pooled Unit may be included within new or revised drilling and/or production units created by order of the Department of Conservation for the State of Louisiana. In the event any such units are so established which include a portion or portions of said Pooled Unit, it is agreed that the party or parties who contribute the lands and leases to such portion or portions of said Pooled Unit which are included in such new or revised units shall be given full credit for such lands and leases in such new or revised units, and such lands and leases shall not be considered to have been contributed by all of the parties to this agreement; it being understood that the participation in the new or revised units shall be determined without regard to this Declaration of Unitization and Voluntary Unitization Agreement as though same had never been executed.

In the event production of Unitized Substances from said Pooled Unit should cease once placed on production, this agreement shall terminate ninety (90) days after such cessation of production; provided, however, that if reworking operations or operations for the drilling of another well in search of Unitized Substances are commenced on said Pooled Unit within such ninety (90) day period, this agreement shall remain in full force and effect so long as such operations are being conducted thereon without cessation of more than ninety (90) days between the abandonment of one well and the reworking of the same well or the commencement of operations for the drilling of another well until production of Unitized Substances is re-established.

It is further understood and agreed that nothing herein contained shall in any manner whatsoever be construed to impose any obligation upon Stone to conduct any drilling or reworking operations on said Pooled Unit. Such obligations, if any, shall

Exhibit D
Castex Development - Title and Lease History - 001560

be determined and governed solely by the terms, conditions and provisions of each of said Leases.

All of the terms, provisions and conditions of this agreement are hereby made subject to all laws, rules, orders and regulations of any duly constituted authority, State or Federal, having jurisdiction in the premises.

IN WITNESS WHEREOF, the parties hereto have executed this agreement as of the day and date first hereinabove written.

JUDGMENT OF POSSESSION

Considering the testament of the decedent which has been probated, the petition for possession, and the record of this proceeding, satisfactory proof having been submitted to the Court that the inheritance taxes due the State of Louisiana has been paid, the law and evidence entitling petitioners to the relief prayed for, and for the reasons this day orally assigned,

IT IS ORDERED, ADJUDGED AND DECREED that:

1. ALFRED C. BOURDIER, whose full name is Alfred Charles Bourdier, is recognized as the sole and only legatee of the decedent and, as such, the owner, and is sent into possession, of all of the property belonging to the succession of the decedent, which includes but not by way of limitation the following described property:

A. Real Estate

1. (a) An undivided one-fourth (1/4th) interest in and to:

A certain tract or parcel of land in Acadia Parish, Louisiana, containing 40 acres, more or less, situated in Irregular Section 25, Township 10 South, Range 2 West, more fully described and bounded now or formerly as follows, to-wit: Bounded on the Northeast by lands of A.C. Boudreaux Estate; Southwest by lands of Ray Richard, formerly Martin Richard and/or West line of said Section 25, Northwest by lands of F. Gotreaux, and Southeast by lands of Charles T. Duhon Estate, and

(b) An undivided one-fourth (1/4th) interest in and to:

That certain tract of land containing 84 acres, more or less, situated in Acadia Parish, Louisiana, and located in Section 25, Township 10 South, Range 2 West, La. Mer., Acadia Parish, Louisiana, and bounded Northeast by the Latrielle Estate, Inc., Southeast by Rosa Belle Duhon, Southwest by Mrs. Rosa Boudreaux, Gus Godeaux and Frank R. Burris, et als, and Northwest by the Mermentau River, together with all the improvements thereon situated. Said property having been acquired by Adolph C. Boudreaux from Albert Green by deed bearing File No. 34274 and recorded in Conveyance Book S-2, at page 274, records of Acadia Parish, Louisiana

484524

1988 NOV -7 PM 4:00

2. An undivided one-fourth (1/4th) interest in and to:

A certain tract or parcel of land containing 7.5 acres, more or less, situated in Irregular Section 24, Township 10 South, Range 2 West, in Acadia Parish, Louisiana and more fully described as bounded now or formerly as follows, to-wit: Bounded on the Northeast by East line of said Section 24, Southwest by lands of the Texas Company; Southeast by lands of Ray Richard, formerly Martin Richard and Northwest by lands of the Texas Company

3. An undivided one-fourth (1/4th) interest in and to:

That certain tract of land containing 20 acres, more or less, situated in the Southeast Quarter of Section 72, Township 10 South, Range 2 West, La. Mer., Acadia Parish, Louisiana, bounded now or formerly as follows: North by Arthur Crawford and the Estate of Thomas V. Crawford; East by Alphee Simon; South by Mrs. Arthur Crawford and the Estate of Thomas V. Crawford.

4. An undivided one-fourth (1/4th) interest in and to:

That certain tract of land containing 18.75 acres, more or less, situated in Section 1, Township 11 South, Range 2 West, La. Mer., Acadia Parish, Louisiana, bounded now or formerly as follows: North by F.P. Breaux and Arthur Crawford and Estate of Thomas V. Crawford; East by Clemile Trahan and West by the Estate of J.S. Mauboules.

5. An undivided one-sixth (1/6th) interest in and to:

Lot 6 of Block 11; Lot 9 of Block 34; Lots 4, 5, 6 and 7 of Block 35; and Lot 1 of Block 40, all in the Village of Mermentau, Acadia Parish, Louisiana

6. An undivided one-fourth (1/4th) interest in and to:

That certain tract of land containing 54 acres, more or less, situated in Acadia Parish, Louisiana, and located in the Northwest Quarter of Section 5, Township 11 South, Range 2 West, La. Mer., bounded North by Oneal Legros Estate, East by Alphee LeBlanc Estate; South by Jules S. Mauboules Estate, and West by Jerry S. Ashley, Joseph Jeanise and Lula H. Jeanise, together with the improvements thereon situated. Said property having been acquired by Adolph C. Boudreaux from the Succession of Aurelien LeBlanc by deed bearing File No. 97203, recorded in Conveyance Book Q-4, page 159, records of Acadia Parish, Louisiana.

7. An undivided one-fourth (1/4th) interest in and to:

That certain tract of land containing Five (5) acres, more or less, situated in Acadia Parish, Louisiana, and located in Section 7, Township 11 South, Range 2 West, La. Mer., and bounded North by Romain and Oday LeBlanc and August Benoit, and P.C. Smith Estate, and Mrs. Prevost LeBlanc; East by Pierre Trahan; South by Texas Company and West by Romain and Oday LeBlanc and August Benoit and P.C. Smith Estate. Said property having been

acquired by Adolph C. Boudreaux from the Succession of Aurelien LeBlanc by deed bearing File No. 97203, recorded in Conveyance Book Q-4, page 159, records of Acadia Parish, Louisiana

8. An undivided one-twelfth (1/12th) interest in and to:

That certain tract of land containing 20 acres, more or less, situated in Section 61, Township 10 South, Range 2 West, in Acadia Parish, Louisiana, bounded North, East, South and West by Lovic C. Desormeaux

9. An undivided one-fourth (1/4th) interest in and to:

Lots 10 and 11 of Block 6 of Richard Subdivision of Lot 3 of Section 14, Township 10 South, Range 2 West, La. Mer., situated in Jefferson Davis Parish, Louisiana, together with the improvements thereon situated. Said property having been acquired by Adolph C. Boudreaux from John Campbell by deed bearing File No. 78142, recorded in Conveyance Book No. 48, at page 522, records of Jefferson Davis Parish, Louisiana

10. An undivided one-eighth (1/8th) interest in and to the following:

That tract of property in Jefferson Davis Parish, Louisiana, with all improvements thereon located and situated; together with all of the oil, gas and minerals underlying, or which may be produced therefrom, together with that oil, gas and other mineral royalty right equal to 3/32 or .093750 of the whole of all oil, gas and other minerals which may be produced from the whole of said tract which contains 1,125.35 acres, more or less, the whole of said tract of land is described as follows, to-wit:

(a) Section 39, Township 10 South, Range 3 West, La. Mer., except that portion lying in triangular form West of the East boundary line of Section 14 if extended through said Section 39; (b) Lot 2 of Fractional Section 13 in Township 10 South, of Range 3 West, La. Mer., (c) Section 17 in Township 10 South, of Range 2 West, La. Mer., except the 328 acres, more or less, of swamp timber land lying in the Eastern portion thereof, which was sold by Jean Castex and others to A.S. Alston & Co., on February 14, 1922, by deed recorded in Jefferson Davis Parish, and which is shown by a plat of survey made by E.J. Mead, C.E., dated in (1921); including the two tracts of prairie land along the North line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale to A.S. Alston & Co., and (d) Section 18 in Township 10 South, of Range 2 West, La. Mer., lying between the Southeast corner of the aforedescribed Section 39 on the West and the Mermentau River on the East, all as per plat showing the above described property attached to Act No. 81759, by which Albert Sidney Johnson and Adolph C. Boudreaux acquired the said property from Jean Castex, Jr. and which act is recorded in Jefferson Davis Parish, Louisiana, LESS AND EXCEPT AND NOT INCLUDED in the aforedescribed tract is the surface only of those 10 acre parcels of property

described as follows and designated as "First" and "Second", to-wit:

First. That ten acre parcel of land situated in Section 18, Township 10 South, Range 2 West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolph C. Boudreaux to Pelican Oil Purchasers, Inc., by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit:

Starting at the Northwest corner of Section 18, Township 10 South, Range 2 West, at a one-and-a-quarter (1¼") inch galvanized iron pipe on the right descending bank of the Mermentau River on the line between Township 10 South, Range 2 and 3 West; thence South 51°13' East, 276.5 feet; thence South 53°00' East, 600 feet to a one-and-a-quarter (1¼") inch galvanized pipe, the lower front corner of the Robira Ten (10) acre tract for a point of beginning; thence following the right bank of the Mermentau River South 65°30' East, 450 feet; thence South 84°00' East, 250 feet; thence leaving the River and running South 37°00' West, 693.5 feet; thence North 72°06' West, 691.5 feet to lower side line of the Robira ten acre tract; thence following said line North 37°00' East, 693.5 feet to place of beginning and containing ten acres; as per plat by F. Shutts Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by ten acre tract owned by John J. Robira, his widow, heirs and assigns, on the West by other land of Albert Sidney Johnson and Adolph C. Boudreaux.

Second. That certain parcel of land comprising ten acres, more or less, situated in Section 18, Township 10 South, Range 2 West, and in Section 39, Township 10 South, Range 3 West, which was conveyed by Albert Sidney Johnson and Adolph C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, page 101, of the records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the corner between Section 18, Township 10 South, Range 3 West, said corner being on the right descending bank of the Mermentau River; thence South 37° West, 368 feet to a one-and-a-quarter (1¼") inch galvanized pipe; thence South 53° East, 272.4 feet to the line between Section 18, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West, 921 feet South of the corner between the two said Sections; thence South 53° East, 327.6 feet to a one-and-a-quarter (1¼") inch galvanized iron pipe; thence North 37° East, 726 feet to a one-and-a-quarter (1¼") inch galvanized pipe on the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1¼") inch galvanized pipe; thence South 37° West, 358 feet to the point of beginning and containing ten acres.

11. An undivided one-fourth (1/4th) interest in and to:

Lot 621 in the Subdivision of the North half of Southeast Quarter of Southwest Quarter of Section 30, Township 9 South, Range 10 West, La. Mer., acquired by Adolph C. Boudreaux from Mutual Sulphur Oil Co. by deed bearing File No. 32606,

recorded in Conveyance Book 151, page 437, records of Calcasieu Parish, Louisiana, situated in Calcasieu Parish, Louisiana

12. The following described property situated in the City of Lake Charles, Parish of Calcasieu, State of Louisiana, to-wit:

Lot Twenty-four (24) of Block Nine (9) of Edgemont, a subdivision in the City of Lake Charles, Louisiana, as per plat recorded, together with all improvements thereon situated.

13. An undivided 20% interest in the following described property located in Acadia Parish, Louisiana:

That certain tract of land containing 8.3 acres, more or less, located in Section 9, Township 10 South, Range 2 West and being bounded, now or formerly, as follows: North by Burnley C. Lynch; East by The Texas Company; South by Bayou Plaquemine and/or Zula Mire Harrington; and West by Bayou Des Cannes and/or Leon M. Medlenka

B. Cash

1. First Federal Savings & Loan Association of Lake Charles, Lake Charles, Louisiana, Certificate of Deposit #1520-13398, in name of Mrs. Castex Boudreaux, in the principal amount of $40,622.13, dated June 18, 1985

2. Calcasieu Marine National Bank Certificate of Deposit of $50,000.00 in name of Mrs. Castex Boudreaux, Account #01205137-30

3. Calcasieu Marine National Bank Checking Account #01205137-10, in name of Mrs. Castex Boudreaux Special Account

C. Miscellaneous properties

1. Household goods

2. 1984 Mercury Marquis automobile, GRM, 4D, VIN - 2MEBP93F1EX659091 in name of Lydia M. Boudreaux

3. A 20% interest in the W.T. McBride Estate interest in 10 shares of Lucky Strike Oil and Mineral Company stock in name of W.T. McBride being Stock Certificate No. 121, dated January 19, 1981

2. All banks, trust companies, insurance companies, and all other persons, partnerships, unincorporated associations, or corporations having on deposit or in their possession or under their control any money, credits, stocks, dividends, bonds, or other property belonging to the estate of the decedent, LYDIA

BOUDREAUX, are hereby required to deliver or pay them to Alfred C. Bourdier.

CLERK OF COURT
JEFFERSON DAVIS PARISH

SUCCESSION OF	:	31ST JUDICIAL DISTRICT COURT
WORREL B. JOHNSON	:	PARISH OF JEFFERSON DAVIS
NO. P-33-90	:	STATE OF LOUISIANA

JUDGMENT OF POSSESSION

Considering the petition for possession and the record of this proceeding, satisfactory proof having been submitted to the Court that no inheritance taxes are due by the heirs and that there is no necessity for further administration of this succession, the law and evidence entitling petitioners to the relief prayed for, and for the reasons this date orally assigned:

IT IS ORDERED, ADJUDGED AND DECREED that DORA (ELVADORA) CARY JOHNSON be and she is hereby recognized as the surviving spouse in community of the decedent, and, as such, hereby sent and put in possession of an undivided one-half (1/2) interest of the property belonging to the community of acquets and gains existing between her and decedent, and of the usufruct during her lifetime, or until she should remarry, of all of decedent's property, rights and credits, whether separate or community, which decedent left at his death; said usufruct to include her right to sign and execute any oil, gas and mineral leases affecting such property as decedent left at his death and to receive and use the bonuses, renewal rentals and royalties which may be payable under said leases, and the right to receive and use the bonuses, renewal rentals and royalties under any oil, gas or mineral leases existing at the time of decedent's death on any of his property, including the royalties payable under producing leases at the time of decedent's death of the hereinafter described property.

495122

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that PATRICK HENRY JOHNSON be and he is hereby recognized as the sole heir of the decedent, and, as such, entitled to the ownership and sent into possession of decedent's one-half (1/2) interest in the community property and all of the separate property belonging to the succession of decedent, subject to the above described

usufruct in favor of DORA (ELVADORA) CARY JOHNSON. The said property includes, but is not limited to the following, to-wit:

COMMUNITY PROPERTY

Lot 20 of Block 5 of Davis Addition to the City of Jennings, Jefferson Davis Parish, Louisiana, together with all buildings and improvements thereon situated.

An undivided interest in and to:

(a) Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, La. Meridian, except that portion lying in triangular form west of the East boundary line of Section Fourteen (14) if extended through said Section Thirty-nine (39);

(b) Lot Two (2) of Fractional Section Thirteen (13) in Township Ten (10) South, Range Three (3) West, La. Meridian;

(c) Section Seventeen (17), Township Ten (10) South, Range Two (2) West, La. Meridian, (except the 328 acres more or less of swamp timber land lying in the Eastern portion thereof, which was sold by Jean Castex and other to A. S. Alston & Co., on February 14, 1922, by deed recorded in Jefferson Davis Parish, and which is shown by a Plat of Survey made by E. J. Mead, C. E., dated in 1921); including two tracts of prairie land along the North line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale to A. S. Alston & Co., and

(d) Section Eighteen (18), Township Ten (10) South, Range Two (2) West, La. Meridian, lying between the Southeast corner of the aforedescribed Section Thirty-nine (39) on the West, and the Mermentau River on the East, all as per plat showing the above described property attached to Act No. 81759, by which Albert Sidney Johnson and Adolphe C. Boudreaux acquired the said property from Jean Castex, Jr., and which Act is recorded in Jefferson Davis Parish, Louisiana; LESS AND EXCEPT AND NOT INCLUDED in the aforedescribed tract are those two ten acre parcels of property described as follows and designated as "First Exception" and "Second Exception", to-wit:

First Exception: That ten (10) acre parcel of land situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc., by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit:

Starting at the Northwest corner of Section Eighteen (18), Township Ten (10) South, Range Two (2) West, at a one-and-a-quarter (1 1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township Ten (10) South, Range Two (2) and Three (3) West; thence South 51° 13' East 276.5 feet; thence South 53° 00' East 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe, the lower front corner of the Robira 10 acre tract for a point of beginning; thence following the right bank of the Mermentau River South 65° 30' East 450 feet; thence South 84° 00' East 250 feet; thence leaving the river and running South 37° 00' West 693.5 feet; thence North 72° 06' West 691.5 feet to lower side line of the Robira 10 acres; thence following said line North 37° 00' East 693.5 feet to place of beginning and containing ten (10) acres; as per plat by F. Shutts Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

Second Exception: That certain parcel of land comprising ten (10) acres, more or less, situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and in Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit:

Beginning at a point 459 feet South of the corner between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 53° East 272.4 feet to the line between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39) Township Ten (10) South, Range Three (3) West, 921 feet South of the corner between the two said sections; thence South 53° East 327.6 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence North 37° East 726 feet to a one-and-a quarter (1 1/4") galvanized pipe on the right descending bank of the Mermentau River; thence North 53° West up to the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 37° West 358 feet to the point of beginning and containing ten (10) acres.

A royalty interest on the above described property under lease to Stone Petroleum Company.

Checking Account No. 336743 at the Jeff Davis Bank & Trust Co. in the name of Worrell B. Johnson

Certificate of Deposit No. 80-049937 at Jennings Federal Savings and Loan Association in the name of Worrell B. Johnson

Household Furniture and Fixtures

SEPARATE PROPERTY

An undivided interest in and to:

(a) Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, La. Meridian, except that portion lying in triangular form west of the East boundary line of Section Fourteen (14) if extended through said Section Thirty-nine (39);

(b) Lot Two (2) of Fractional Section Thirteen (13) in Township Ten (10) South, Range Three (3) West, La. Meridian;

(c) Section Seventeen (17), Township Ten (10) South, Range Two (2) West, La. Meridian, (except the 328 acres more or less of swamp timber land lying in the Eastern portion thereof, which was sold by Jean Castex and other to A. S. Alston & Co., on February 14, 1922, by deed recorded in Jefferson Davis Parish, and which is shown by a Plat of Survey made by E. J. Mead, C. E., dated in 1921); including two tracts of prairie land along the North line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale to A. S. Alston & Co., and

(d) Section Eighteen (18), Township Ten (10) South, Range Two (2) West, La. Meridian, lying between the Southeast corner of the aforedescribed Section Thirty-nine (39) on the West, and the Mermentau River on the East, all as per plat showing the above described property attached to Act No. 81759, by which Albert Sidney Johnson and Adolphe C. Boudreaux acquired the said property from Jean Castex, Jr., and which Act is recorded in Jefferson Davis Parish, Louisiana; LESS AND EXCEPT AND NOT INCLUDED in the aforedescribed tract are those two ten acre parcels of property described as follows and designated as "First Exception" and "Second Exception", to-wit:

First Exception: That ten (10) acre parcel of land situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc., by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit:

Starting at the Northwest corner of Section Eighteen (18), Township Ten (10) South, Range Two (2) West, at a one-and-a-quarter (1 1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township Ten (10) South, Range Two (2) and Three (3) West; thence South 51° 13' East 276.5 feet; thence South 53° 00' East 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe, the lower front corner of the Robira 10 acre tract for a point of beginning; thence following the right bank of the Mermentau River South 65° 30' East 450 feet; thence South 84° 00' East 250 feet; thence leaving the river and running South 37° 00' West 693.5 feet; thence North 72° 06' West 691.5 feet to lower side line of the Robira 10 acres; thence following said line North 37° 00' East 693.5 feet to place of beginning and containing ten (10) acres; as per plat by F. Shutts Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

Second Exception: That certain parcel of land comprising ten (10) acres, more or less, situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and in Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit:

Beginning at a point 459 feet South of the corner between Section Eighteen (18),

Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 53° East 272.4 feet to the line between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39) Township Ten (10) South, Range Three (3) West, 921 feet South of the corner between the two said sections; thence South 53° East 327.6 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence North 37° East 726 feet to a one-and-a quarter (1 1/4") galvanized pipe on the right descending bank of the Mermentau River; thence North 53° West up to the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 37° West 358 feet to the point of beginning and containing ten (10) acres.

A royalty interest on the above described property under lease to Stone Petroleum Company.

A royalty interest on the following described property, to-wit:

160.00 acres of land, more or less, lying and being situated in Section 39, Township 10 South, Range 3 West, and Section 17, Township 10 South, Range 2 West, Jefferson Davis Parish, State of Louisiana, and being more fully described as follows, to-wit:

Beginning at a corner established by E. J. Mead, C.E. in a survey made in connection with the sale by Jean Castex and others to A. S. Alston & Co. on February 14, 1922, said corner being on the north line of Irregular Section 17, Township 10 South, Range 2 West on No Name Slough, thence northwest along the north line of said section 17 to the most northerly corner, thence continuing northwest along the north line of Irregular Section 39, Township 10 South, Range 3 West to the most northerly northwest corner of said Section 39, thence southwest along the west line of Section 39 to a corner established by this 160 acre reservation, thence southeasterly on a line parallel with the north lines of Sections 39 and 17, to a corner on the aforesaid No Name Slough, thence northerly meandering along said slough to the point of beginning; the distances along the east and west lines of this reserved tract being sufficient that the whole of the tract shall contain 160.00 acres. Bounded now or formerly as follows: On the North by Acadia Development Company, Inc.; on the South by other lands of the Lessor; on the East by the Texas Company; and on the West by A. H. Hebert. This being the same lands released by Marshall R. Young, et al, by Act of Release dated September 16, 1957, recorded in

SUCCESSION OF : 31ST JUDICIAL DISTRICT COURT

ELVADORA LOUISE CARY JOHNSON : PARISH OF JEFFERSON DAVIS

NO. P-42-91 : STATE OF LOUISIANA

JUDGMENT OF POSSESSION

Considering the petition for possession and the record of this proceeding, satisfactory proof having been submitted to the Court that no inheritance taxes are due by the heirs and that there is no necessity for administration of this succession, the law and evidence entitling petitioners to the relief prayed for, and for the reasons this date orally assigned:

IT IS ORDERED, ADJUDGED AND DECREED that DEBORAH LYNN JOHNSON and CHRISTINE ANN JOHNSON be and they are hereby recognized as the grandchildren of the decedent, and according to the terms of decedent's Last Will and Testament are hereby sent and put into possession of the ownership of $50,000.00 each.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that PATRICK HENRY JOHNSON be and he is hereby recognized as the son of decedent, and, according to the terms of decedent's Last Will and Testament is hereby sent and put into possession of the remaining property belonging to the succession of decedent. The said property is hereinafter described, to-wit:

499379

IMMOVABLE PROPERTY

JEFFERSON DAVIS PARISH, LOUISIANA:

An undivided one-half interest in and to: Lot 20 of Block 5 of Davis Addition to the City of Jennings, Jefferson Davis Parish, Louisiana, together with all buildings and improvements thereon situated.

An undivided interest in and to the following described property, known as the Johnson-Boudreaux Farm:

(a) Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, La. Meridian, except that portion lying in triangular form west of the East boundary line of Section Fourteen (14) if extended through said Section Thirty-nine (39);

(b) Lot Two (2) of Fractional Section Thirteen (13) in Township Ten (10) South, Range Three (3) West, La. Meridian;

Exhibit D
Castex Development - Title and Lease History - 001583

(c) Section Seventeen (17), Township Ten (10) South, Range Two (2) West, La. Meridian, (except the 328 acres more or less of swamp timber land lying in the Eastern portion thereof, which was sold by Jean Castex and other to A. S. Alston & Co., on February 14, 1922, by deed recorded in Jefferson Davis Parish, and which is shown by a Plat of Survey made by E. J. Mead, C. E., dated in 1921); including two tracts of prairie land along the North line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale to A. S. Alston & Co., and

(d) Section Eighteen (18), Township Ten (10) South, Range Two (2) West, La. Meridian, lying between the Southeast corner of the aforedescribed Section Thirty-nine (39) on the West, and the Mermentau River on the East, all as per plat showing the above described property attached to Act No. 81759, by which Albert Sidney Johnson and Adolphe C. Boudreaux acquired the said property from Jean Castex, Jr., and which Act is recorded in Jefferson Davis Parish, Louisiana; LESS AND EXCEPT AND NOT INCLUDED in the aforedescribed tract are those two ten acre parcels of property described as follows and designated as "First Exception" and "Second Exception", to-wit:

First Exception: That ten (10) acre parcel of land situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc., by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit:

Starting at the Northwest corner of Section Eighteen (18), Township Ten (10) South, Range Two (2) West, at a one-and-a-quarter (1 1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township Ten (10) South, Range Two (2) and Three (3) West; thence South 51° 13' East 276.5 feet; thence South 53° 00' East 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe, the lower front corner of the Robira 10 acre tract for a point of beginning; thence following the right bank of the Mermentau River South 65° 30' East 450 feet; thence South 84° 00' East 250 feet; thence leaving the river and running South 37° 00' West 693.5 feet; thence North 72° 06' West 691.5 feet to lower side line of the Robira 10 acres; thence following said line North 37° 00' East 693.5 feet to place of beginning and containing ten (10) acres; as per plat by F. Shutts Sons, Civil Engineers, attached to said deed; said tract of land is bounded on

the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

Second Exception: That certain parcel of land comprising ten (10) acres, more or less, situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and in Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit:

Beginning at a point 459 feet South of the corner between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 53° East 272.4 feet to the line between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39) Township Ten (10) South, Range Three (3) West, 921 feet South of the corner between the two said sections; thence South 53° East 327.6 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence North 37° East 726 feet to a one-and-a quarter (1 1/4") galvanized pipe on the right descending bank of the Mermentau River; thence North 53° West up to the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 37° West 358 feet to the point of beginning and containing ten (10) acres.

An undivided interest in and to:
A royalty interest on the above described property under lease to Stone Petroleum Company.

ACADIA PARISH, LOUISIANA:

An undivided interest in and to those certain tracts or parcels of land situated in the Parish of Acadia, State of Louisiana, with all buildings and improvements thereon, inherited by ELVADORA LOUISE CARY JOHNSON from WILLIAM H. CARY, SR., described as follows:

(a) The Northeast Quarter of the Northwest Quarter of Section 6, Township 11 South, Range 2 West, containing 40.61 acres.

(b) Lots 3 and 5 of Section 64, Township 10 South, Range 2 West, containing 64.74 acres.

(c) The Southwest Quarter of the Northwest Quarter of Section 6, Township 11 South, Range 2 West, containing 40 acres, more or less, and the Northeast Quarter of Lot 1 in Section 1, Township 11 South, Range 3 West, containing 40 acres.

(d) 48.91 acres, being part of Lots 3 and 4 in Section 36, Township 10 South, Range 3 West, La. Mer, embraced in the following boundaries: Beginning at the Southwest corner of Lot 4, on the East side or bank of the Mermentau River; thence East on line between Lots 4 and 5 to the East boundary of Section 36; thence North on said East boundary 40.70 chains to the Northeast corner of Lot 3; thence West 7.25 chains to land sold by Sam Joyner to Matt Rowe, and lately owned by F. J. Anberg; thence South 20 degrees East, 5.33 chains; thence South 15 degrees East, 4.50 chains; thence South 25 degrees West, 2.10 chains; thence South 53 degrees West 3 chains; thence South 40 degrees West, 2.33 chains; thence South 25 degrees West, 3.10 chains; thence South 12 degrees West, 3.33 chains; thence South 18 degrees, West 5.20 chains; thence South 30 degrees West, 2 chains; thence South 20 degrees West 3.45 chains to Bayou Begg; thence on North Bank of said bayou to the Mermentau River; thence on East Bank of River to the place of beginning.

(e) Lots 4, 6, 7 and 8 in Section 64, Township 10 South, Range 2 West, La. Mer., containing 167.70 acres.

(f) Another tract or parcel of land, being portions of Sections 20 and 21, Township 10 South, Range 2 West, and more fully described as follows: Beginning at the Southwest Corner of Section 20; thence North 38 degrees West along West line of Section 20 to the edge of cypress swamp at a post from which a forked sweet gum bears South 71 degrees East a distance of 24 feet, and a sweet gum 2 feet in Diameter bears North 82 degrees East a distance of 2.8 feet, thence meandering the South edge of said swamp as follows: North 47 degrees 45 minutes East, 401 feet; thence North 86 degrees 20 minutes East, 428 feet; thence North 68 degrees 10 minutes East, 222 feet; thence South 70 degrees 10 minutes East, 478 feet; thence North 60 degrees East, 114 feet; thence North 31 degrees 40 minutes East, 818 feet; thence North 20 degrees West, 323 feet; thence North 10 degrees 40 minutes East, 147 feet; thence North 35 degrees 15 minutes East, 216 feet; thence North 79 degrees 50 minutes East, 321 feet; thence North 23 degrees 30 minutes East, 418 feet; thence South 38 degrees East, 1800 feet to the South line of Section 21; thence South 21 degrees 45 minutes West along said South

line 1474 feet to the Southwest Corner of Section 21; thence South 38 degrees East to the Southeast Corner of Section 20; thence South 62 degrees West to the Southwest Corner of Section 20, and the place of beginning, said tract containing 147.72 acres;

all bearings are magnetic and bounded North by lands now or formerly belonging to Ursula Parker, East by Duhon and Henry, South by Henry, Smith and Bibbins, and West by Bibbins. Containing in all 549.69 acres, more or less.

(g) Southeast Quarter of Northwest Quarter of Section 6, Township 11 South, Range 2 West, La. Mer., containing 40.59 acres.

An undivided interest in Lots 1, 2, 3, 4, 5, 6 and 8 of Block 37 of the Original Plat of Mermentau Townsite in the Village of Mermentau, Acadia Parish, Louisiana, with all buildings and improvements thereon situated.

An undivided interest in those certain tracts or parcels of land inherited by ELVADORA LOUISE CARY JOHNSON from ALICE M. CASTEX CARY described as follows:

(a) A certain plantation consisting of 400 acres, more or less, on the north side of Bayou Queue de Tortue, in Township 11 South, Range 2 West, and being in whole or in larger part in Section 4, but perhaps in minor part in Section 9 and consisting of divers parcels of land purchased by Jean Castex as follows, and under the following descriptions: (1) from Joseph Alsendore Istre on January 4, 1896, by the Act No. 8862 of the files of the Clerk's office for Acadia Parish, W/2 of Lots 7 and 8 in Section 4, Township 11 South, Range 2 West, being 84.33 acres, less the 20 arpents sold therefrom by vendor to Dupreville Istre; (2) from Alexandre Istre on February 6, 1896, by the Act No. 9093 of said files; 35 miles, more or less, in SE/4 of said Section 4, commencing 3 1/2 acres from SE corner of said tract and from there running still West 3 1/2 acres, then North 10 acres, then East 3 1/2 acres, and then South 10 acres; (3) from Adrien LeBlanc on April 11, 1896, by the act No. 9368 of said files, 40 acres on the East side of his (vendor's) land the whole length of his claim, located in said Section 4; (4) from Adan Istre on May 14, 1896, by the Act No. 9470 of said files, 35 acres, more or less, in SE/4 of said Section 4, commencing at SE corner of said tract and running West 3 1/2 acres, then North 10 acres, then East 3 1/2 acres, and then South 10 acres, less 6 acres sold to Pierre Margelleaux, and 1 1/2 acres for the graveyard, leaving 27.5 acres, more or less, bounded North by Louis Pegot, South by Bayou queue de Tortue, East by Aurelien

LeBlanc, and West by Alexandre Istre; less also, an additional portion of said land which the widow and heirs of Jean Castex donated by the Act 43256 of said files, dated May 25, 1916, to enlarge said graveyard; (5) from Louis Pegot on June 16, 1896, by the act no 9531 of said files, 48 arpents, more or less, in Lots 7 and 8 of said Section 4, bounded North, South and West by Jean Castex, and East by Aurelien LeBlanc; (6) from Dermille Trahan on November 24, 1896, by the Act No. 9917 of said files, S/2 of Lots 1, 2, and 3 of said Sec. 4, being 140.72 acres; (7) from C. H. Wright on April 14, 1897, by the Act No. 10505, 9 acres, more or less, in Section 9 of said Township, bounded North by Jean Castex, South by Ajeran Broussard, East by Bayou queue de Tortue, and West by Theoville LeBlanc, and (8) from Desire Richard on November 12, 1897, by the act No. 10822 of said files, 50 arpents in N.2 of Lots 1, 2 and 3 of said Section 4, starting 5 arpents from NW corner of said land and then running East 7 arpents, thence South 7 arpents, then again West 7 arpents, and then again north the same distance.

Together with all the buildings and improvements thereon, and particularly, the pumping plant, 2 warehouses, 2 cabins, 2 barns, fencing, etc., also the following rights of way belonging to said plantation; The following rights of way for irrigation canal purposes, acquired by the widow and heirs of Jean Castex on February 23, 1904, and having a width extending 25' outward on each side of the middle of the levee of said canal as then built and operated: (1) from Lewis Henry, by the Act No. 23055 of the files of the Clerk's Office for Acadia Parish, in W/2 of SE/4, Section 67, Township 10 South, Range 2 West; (2) from Belizaire Lafosse, by the act No. 23058 of said files, in N/2 of SE/4 and S/2 of NE/4 Section 69, Township 10 South, Range 2 West, and (3) from Tenace Richard, by the Act No. 23059 of said files in SW/4, Section 4, Township 11 South, Range 2 West; and, also the right of way for irrigation canal purposes, acquired by the widow and heirs of Jean Castex from Edval Benoit on February 23, 1904, by the Act No. 23060 of said files, in S/2 of SE/4 and in SE/4 of Section 69, Township 10 South, Range 2 West, and having a width extending 50' outward on each side of the middle of each levee of the main canal as build, and a width extending 25' outward on each side of the middle of each levee of the lateral as built;

(b) 100 acres, more or less, in Township 11 South, Range 2 West, (in or about Section 40) and consisting of two parcels of land purchased by Jean Castex, and by the widow and heirs of Jean Castex, as follows, and under the following descriptions: (1) from William J. Meehan on February 22, 1899, by the act No. 12789

of the files of the Clerk's office for Acadia Parish, 75 arpents, more or less, on Bayou queue de Tortue, in Township 11 South, Range 2 West. Acquired by C. J. Meehan from Jean Dupreo Thibodeaux December 12, 1895, in which act the land sold is further described as being the remainder of the land acquired by vendor Thibodeaux from George Harrington by sale before R. C. Sittig, N.P., July 20, 1872. Acquired by vendor from C. J. Meehan August 22, 1898, and (2) from Jean Dupreo Thibodeaux on December 22, 1903, by the act No. 22453 of said files, 40 acres, more or less, in Section 40, Township 11 South, Range 2 West, being part of property vendor acquired from Eulalie Harrington October 14, 1876;

(c) 63 acres in Section 70, Township 10 South, Range 2 West, and being situated in Lot 4 and in the W/2 of the NW/4 of said Section, acquired by Jean Castex from Theogene Labauve on May 21, 1896, by the act No. 9480 of the files of the Clerk's office for Acadia Parish, wherein the land sold was further described as being the remaining part of 131.39 acres, as per U. S. patent issued November 25, 1889, and being the unsold part of above land;

(d) 30 acres, more or less, in NE/4 of Section 69, Township 10 South, Range 2 West, commencing at SE corner of N/2 of said tract of land and running West 14 acres, thence North 2 acres, more or less, then again East 14 acres, then again South 2 1/2 acres, more or less. Acquired by Jean Castex from Froyen Istre on November 30, 1897, by the act No. 10932 of the files of the Clerk's office for Acadia Parish;

(e) 30 acres, more or less, in S/2 of SE/4 of Section 69, Township 10 South, Range 2 West, acquired by Jean Castex from C. J. Meehan on January 20, 1898, by the Act No. 11141, wherein said property is described as being bounded N. by Belizaire LaFosse, S. by Adrien LeBlanc, E. by Ursin Dubois and W. by Edval Benoit, and

(f) SE/4 of NW/4, Section 70, Township 10 South, Range 2 West, 40 acres, more or less, acquired by Jean Castex from Ozime LaBauve on April 23, 1898, by the Act No. 11850 of the files of the Clerk's Office for Acadia Parish.

(g) A certain tract of land in Acadia Parish, Louisiana, containing seventeen and one-half (17 1/2) acres, more or less, in the North Half of the Lots 1, 2 and 3 of Section Four in Township Eleven South, Range Two West, Louisiana Meridian, which was patented by the USA to Adrien LeBlanc on August 3, 1889, the tract hereinabove extending from the North line to the South line of said North Half, and being bounded as follows: on the North by land of the heirs of Jean Castex and by land of Edval Benoit; on the South by land of the heirs

of Jean Castex; on the East by land of purchaser, and on the West by the heirs of Jean Castex; and being the property which was conveyed as follows:
(1) by Adrien LeBlanc to Metrie Mack on March 5, 1903, by Act No. 21042;
(2) by Metrie Mack to Adrien LeBlanc on March 5, 1903, by Act No. 21043;
(3) by Adrien LeBlanc to Adam LeBlanc on February 27, 1904, by Act No. 22996;
(4) by Adam LeBlanc to Oneil Smith on December 8, 1904, by Act No. 24496;
(5) by Oneil Smith to vendor herein on December 30, 1905, by Act No. 26224; and
(6) by Adrien LeBlanc and wife to vendor herein on February 7, 1910, by Act No. 33243.

An undivided interest in Lot 6, Block 11; Lots 9, 10 and 11 Block 34; Lots 4, 5, 6 and 7 Block 35; and a small parcel of land in the shape of a triangle in the Northeast corner of Lot 1 of Block 40, all of the Original Plat of Mermentau Townsite in the Village of Mermentau, Acadia Parish, Louisiana.

JEFFERSON DAVIS PARISH

JUDGMENT OF POSSESSION

Considering the petition for possession and the record of this proceeding, satisfactory proof having been submitted to the Court that no inheritance taxes are due by the heirs and that there is no necessity for further administration of this succession, the law and evidence entitling petitioners to the relief prayed for, and for the reasons this date orally assigned:

IT IS ORDERED, ADJUDGED AND DECREED that the Louisiana Baptist Children's Home, Monroe, Louisiana, be and it is hereby entitled to and be placed into possession of the naked ownership of all of decedent's right, title and interest in what is commonly called the "Johnson-Boudreaux Farm", Jefferson Davis Parish, Louisiana.

BONNA BELLE BRYAN ANDERSON, ROY ANDERSON and DOROTHY MAE BRYAN are entitled to the usufruct over the "Johnson-Boudreaux Farm" to be equally divided among them, as long as each shall live, and the benefits are to accrue equally to the survivors until the last usufructuary dies, at which time the Louisiana Baptist Children's Home, Monroe, Louisiana, shall be the sole owner of decedent's interest in the "Johnson-Boudreaux Farm" in Jefferson Davis Parish, Louisiana. The said property is hereinafter described, to-wit:

> An undivided interest in and to that certain property referred to as the "Johnson-Boudreaux Farm":
>
> (a) Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, La. Meridian, except that portion lying in triangular form west of the East boundary line of Section Fourteen (14) if extended through said Section Thirty-nine (39);
>
> (b) Lot Two (2) of Fractional Section Thirteen (13) in Township Ten (10) South, Range Three (3) West, La. Meridian;
>
> (c) Section Seventeen (17), Township Ten (10) South, Range Two (2) West, La. Meridian, (except the 328 acres more or less of swamp timber land lying in the Eastern portion thereof, which was sold by Jean Castex and other to A. S. Alston & Co., on February 14, 1922, by deed recorded in Jefferson Davis Parish, and which is shown by a Plat of Survey made by E. J. Mead, C. E., dated in 1921); including two tracts of prairie land

500748

along the North line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale to A. S. Alston & Co., and

(d) Section Eighteen (18), Township Ten (10) South, Range Two (2) West, La. Meridian, lying between the Southeast corner of the aforedescribed Section Thirty-nine (39) on the West, and the Mermentau River on the East, all as per plat showing the above described property attached to Act No. 81759, by which Albert Sidney Johnson and Adolphe C. Boudreaux acquired the said property from Jean Castex, Jr., and which Act is recorded in Jefferson Davis Parish, Louisiana; LESS AND EXCEPT AND NOT INCLUDED in the aforedescribed tract are those two ten acre parcels of property described as follows and designated as "First Exception" and "Second Exception", to-wit:

First Exception: That ten (10) acre parcel of land situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc., by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit:

Starting at the Northwest corner of Section Eighteen (18), Township Ten (10) South, Range Two (2) West, at a one-and-a-quarter (1 1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township Ten (10) South, Range Two (2) and Three (3) West; thence South 51° 13' East 276.5 feet; thence South 53° 00' East 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe, the lower front corner of the Robira 10 acre tract for a point of beginning; thence following the right bank of the Mermentau River South 65° 30' East 450 feet; thence South 84° 00' East 250 feet; thence leaving the river and running South 37° 00' West 693.5 feet; thence North 72° 06' West 691.5 feet to lower side line of the Robira 10 acres; thence following said line North 37° 00' East 693.5 feet to place of beginning and containing ten (10) acres; as per plat by F. Shutts Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

Second Exception: That certain parcel of land comprising ten (10) acres, more or less, situated in Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and in Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit:

Beginning at a point 459 feet South of the corner between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence

South 53° East 272.4 feet to the line between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39) Township Ten (10) South, Range Three (3) West, 921 feet South of the corner between the two said sections; thence South 53° East 327.6 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence North 37° East 726 feet to a one-and-a quarter (1 1/4") galvanized pipe on the right descending bank of the Mermentau River; thence North 53° West up to the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 37° West 358 feet to the point of beginning and containing ten (10) acres.

A royalty interest on the above described property under lease to Stone Petroleum Company.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that BONNA BELLE BRYAN ANDERSON and DOROTHY MAE BRYAN be and they are hereby recognized as the sole heirs and legatees under universal title of decedent, and, as such, hereby sent and put into possession of the remaining property belonging to the succession of decedent. The said property is hereinafter described, to-wit:

CERTIFICATE OF OWNERSHIP AND MERGER

MERGING

BFO ENERGY INC.
AND
REPUBLIC PRODUCTION COMPANY OF TEXAS

INTO

BARUCH-FOSTER CORPORATION

TO THE SECRETARY OF STATE OF THE STATE OF DELAWARE

Baruch-Foster Corporation, a Delaware corporation, hereby states and certifies that:

1. Baruch-Foster Corporation, BFO Energy Inc., and Republic Production Company of Texas were incorporated under the laws of the State of Delaware.

2. Baruch-Foster Corporation owns all of the issued and outstanding capital stock of BFO Energy Inc. and Republic Production Company of Texas.

3. Baruch-Foster Corporation, by the following resolutions of its Board of Directors, duly adopted on the 20th day of December, 1991, pursuant to Section 253 of Title 8 of the Delaware Code, determined to merge BFO Energy Inc. and Republic Production Company of Texas into itself on the conditions set forth in such resolutions:

RESOLVED, that BFO Energy Inc. and Republic Production Company of Texas which are wholly-owned subsidiaries of Baruch-Foster Corporation be merged with and into Baruch-Foster Corporation, and Baruch-Foster Corporation assumes all of the obligations of BFO Energy Inc. and Republic Production Company of Texas.

RESOLVED FURTHER, that the President and the Secretary of Baruch-Foster Corporation are hereby authorized and directed to make, execute and acknowledge a Certificate of Ownership and Merger setting forth:

a) a copy of the resolutions to so merge BFO Energy Inc. and Republic Production Company of Texas with and into Baruch-Foster Corporation;

b) a provision that after the merger, all the shares of BFO Energy Inc. and Republic Production Company of Texas shall be cancelled and no additional shares of Baruch-Foster Corporation shall be issued due to Baruch-Foster Corporation being the sole shareholder of BFO Energy Inc. and Republic Production Company of Texas; and

c) the date of adoption of such resolutions by the Board of Directors of Baruch-Foster Corporation.

RESOLVED FURTHER, that the President and Secretary of Baruch-Foster Corporation are hereby authorized and directed in the name and on behalf of Baruch-Foster Corporation to file the Certificate of Ownership and Merger with the Secretary of State of the State of Delaware, and do any and all other acts necessary to see the intent of the above resolutions are carried forth.

4. The merger of BFO Energy Inc. and Republic Production Company of Texas into Baruch-Foster Corporation has been approved by Baruch-Foster Corporation, the sole shareholder of all of the issued and outstanding capital stock of BFO Energy Inc. and Republic Production Company of Texas in accordance with Section 253 of Title 8 of the Delaware Code.

IN WITNESS WHEREOF, Baruch-Foster Corporation has caused this Certificate to be signed by its President and attested by its Secretary, this 30th day of December, 1991, to be effective as of the Certificate's filing date, as authorized by Section 103(c) of Title 8 of the Delaware Code and do certify that facts herein are true.

DONATION INTER VIVOS 3 PM 2:15

STATE OF LOUISIANA

PARISH OF JEFFERSON DAVIS

BE IT KNOWN, that on this date before me, the undersigned Notary Public, duly commissioned and qualified in and for Jefferson Davis Parish, Louisiana, and in the presence of the undersigned competent witnesses, personally came and appeared:

> REUBEN RAYMOND BRUCE and MARIE O'NELIA SIMONEAUX BRUCE, husband and wife respectively, both of the full age of majority and residents of Jefferson Davis Parish, Louisiana, whose mailing address is declared to be 439 E. Academy Avenue, Jennings, Louisiana 70546, hereinafter referred to herein as "DONORS",

who declared that in consideration of the love and affection which DONORS bear for their children, namely,

> RAY NELL BRUCE CALVIN, married to Ronald Calvin, of the full age of majority, a resident of Harris County, Texas, whose mailing address is 601 Cypress Station 601, Houston, Texas 77090;
>
> PATRICIA GAY BRUCE MOORE, wife of Bobby Moore, of full age of majority, a resident of Jefferson Davis Parish, Louisiana, whose mailing address is 214 Morton Street, Jennings, Louisiana 70546; and
>
> NELIA KAREN BRUCE GOLDMAN, wife of James O. Goldman, of full age of majority, a resident of Ouachita Parish, Louisiana, whose mailing address is 2410 Pinehurst, Monroe, Louisiana 71201,

504689

hereinafter referred to as "DONEES", and for the purpose of improving their financial situation, do by this formal act of donation, irrevocably give and donate inter vivos and deliver unto them, in the proportions of an undivided 1/3rd interest to each, the following described property located in Jefferson Davis Parish, Louisiana, to-wit:

> An undivided 10.5/100 interest in the following described property, to-wit:
>
> (a) Section 39 in Township 10 South of Range 3 West, La. Mer., except that portion lying in triangular form West of the East boundary line of Section 14, if extended through said Section 39; (b) Lot 2 of Fractional Section 13 in Township 10 South of Range 3 West, La. Mer.; (c) Section 17 in Township 10 South of Range 2 West, La. Mer., (except the 328 acres more or less of swamp timber land lying in the Eastern portion thereof, which was sold by Jean Castex and others to A.S. Alston & Co., on February 14, 1922, by deed recorded in Jefferson Davis Parish, and which is shown by a Plat of Survey made by E. J. Mead, C.E., dated in 1921); including two tracts of prairie land along the

North line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale to A.S. Alston & Co., and (d) Section 18 in Township 10 South of Range 2 West, La. Mer., lying between the Southeast corner of the aforedescribed Section 39 on the West, and the Mermentau River on the East, all as per plat showing the above described property attached to Act No. 81759, by which Albert Sidney Johnson and Adolphe C. Boudreaux acquired the said property from Jean Castex, Jr., and which Act is recorded in Jefferson Davis Parish, La., containing 145.35 acres more or less, LESS AND EXCEPT:

(1) All mineral rights;

(2) That ten acre parcel of land situated in Section 18, Township 10 South, Range 2 West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section 18, Township 10 South, Range 2 West, at a 1¼ inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township 10 South, Range 2 and 3 West; thence South 51°13' East 276.5 feet; thence South 53°00' East 600 feet to a 1¼ inch galvanized pipe, the lower front corner of the Robira 10 acre tract for a point of beginning; thence, following the right bank of the Mermentau River South 65°30' East 450 feet; thence South 84°00' East 250 feet; thence leaving the River and running South 37°00' West 693.3 feet; thence North 72°06' West 691.5 feet to lower side line of the Robira 10 acres; thence following said line North 37°00' East 693.5 feet to a place of beginning and containing 10 acres; as per plat by F. Shutts' Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

(3) That certain parcel of land comprising 10 acres, more or less, situated in Section 18, Township 10 South, Range 2 West, and in Section 39, Township 10 South, Range 3 West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, page 101, of the Records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the corner between Section 18, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a 1¼ inch galvanized pipe; thence South 53° East 272.4 feet to the line between Section 18, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West 921 feet South of the corner between the two

said sections; thence South 53° East 327.6 feet to a 1¼ inch galvanized iron pipe; thence North 37° East 726 feet to a 1¼ inch galvanized pipe on the right descending bank of the Mermentau River; thence North 53° West up the right descending bank of the Mermentau River 600 feet to a 1¼ inch galvanized pipe; thence South 37° West 358 feet to the point of beginning and containing 10 acres.

DONORS herein make this donation to DONEES as their separate property, for their separate use, adiminstration, benefit, and control and no part of said property shall fall into the community of acquets and gains existing between DONEES and their respective spouses.

AND NOW, PATRICIA GAY BRUCE MOORE, does hereby personally appear in the presence of the undersigned witnesses and me, Notary, and accepts the said Donation made to her aforesaid, for herself and her heirs, successors and assigns.

TO HAVE AND TO HOLD the above described property unto the said DONEES, respectively, and their respective heirs and assigns, forever.

Said parties estimate the value of the property donated to each Donee to be of a value of $13,785.00.

THUS DONE AND PASSED at Jennings, Jefferson Davis Parish, Louisiana, on this 17th day of January, 1992, in the presence of the undersigned competent witnesses and me, Notary Public.

LOUISIANA REVISED FOUR (4)—POOLING
REVISED "A"

OIL, GAS AND MINERAL LEASE

521626 407

THIS AGREEMENT, entered into effective as of July 29 **19** 94

by and between For Lessors' names and addresses, see Exhibit "A" attached hereto and made a part hereof.

herein called "Lessor" (whether one or more) and CAJUN MINERALS, INC., whose mailing address is P.O. Box 53383, Lafayette, Louisiana 70505, **hereinafter called "Lessee", witnesseth, that:**

Lessor, in consideration of the sum of One Hundred Dollars and Other Valuable Considerations ($100.00 & OVC), *hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right* of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

For property description and additional lease provisions, see Exhibit "A" attached hereto and made a part hereof.

521626

RECEIVED AND FILED
94 SEP 7 P 1:35
CLERK OF COURT
JEFFERSON DAVIS PARISH

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 80.00 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) *years and* No (0) *months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:*

1. *This lease shall terminate on* July 29, 1995, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods, One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the See Paragraph No. 21 of Exhibit "A" Bank for Rental Division Order. which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

All the above Lessors dealing herein with their separate and/or paraphernal property.

412

PROPERTY DESCRIPTION:

TOWNSHIP 10 SOUTH - RANGE 3 WEST

That certain tract or parcel of land containing **80.00** acres, more or less, situated in irregular Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana and being further described as follows: Beginning at the Southwest corner of said irregular Section 39, thence run North 53 degrees, 8 minutes East along the Northwest section line of said irregular Section 39 a distance of 4,428 feet to a point of beginning; thence run North 53 degrees, 8 minutes East along said Northwest section line a distance of 2,640 feet; thence run Southeasterly, perpendicular to said Northwest section line a distance of 1,320 feet; thence run Southwesterly, parallel to said Northwest section line, a distance of 2,640 feet; thence run Northwesterly, perpendicular to said Northwest section line, a distance of 1,320 feet to the point of beginning. Said tract being bounded by lands owned, now or formerly, as follows: Northwest by Ann H. Hebert and Frank Perl, Jr., et al; and Northeast, Southeast and Southwest by other lands of Lessor not herein leased.

ADDITIONAL LEASE PROVISIONS:

14) The rights granted herein shall be limited to those horizons encountered from the surface of the earth down to a depth of 10,000 feet.

15) This lease covers and includes Lessor's interest in and to all roads, streets, servitudes, and/or rights of way traversing or adjacent to the above described property.

16) Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation one-fourth (1/4) shall be substituted therefor.

17) In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. The lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein provided that if it be by rental payments, rentals shall be reduced in proportion to the number of acres covered hereby and included in such unit or units. If at or after the end of the primary term, this lease is being maintained as to a part of the lands by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations or production, lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than two (2) year(s) beyond the end of the primary term. Notwithstanding anything herein contained to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of a shut-in gas rental as provided in Paragraph No. 6, then no rental payment shall be required under this paragraph as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of this paragraph shall be applicable.

18) At the conclusion of any and all operations hereunder, Lessee shall restore the leased premises to its original condition as reasonably possible within one year following cessation of operations; and moreover, prior to any excavation into the surface of the lease property, the topsoil shall be first removed or bulldozed and stacked or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said topsoil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

19) The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of Lessors.

20) Notwithstanding provisions of Paragraph No. 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received be Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

21) Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts to wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$3,000.00	Calcasieu Marine National Bank Jennings, LA 70546
PATRICK HENRY JOHNSON	$900.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
RICHARD W. JOHNSON	$300.00	Calcasieu Marine National Bank Welch, LA 70591-0826
ALBERT SIDNEY JOHNSON, III	$300.00	Bank One, Magee-Oracle Branch Tucson, AZ 85704
SANDRA LYNN JOHNSON TRAHAN	$300.00	Hibernia National Bank Lafayette, LA 70501
BONNA BELLE BRYAN ANDERSON and ROY ANDERSON	$800.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
DOROTHY MAE BRYAN	$400.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
LOUISIANA BAPTIST CHILDREN'S HOME, MONROE, LOUISIANA	$0.00	N/A
ALFRED C. BOURDIER	$1,750.00	Calcasieu Marine National Bank Lake Charles, LA 70601
MILTON F. BOURDIER	$250.00	QueStar Bank Houston, TX 77084
LYNN H. BOURDIER	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
BERNADINE B. ZIBILICH	$250.00	Seacor Bank Harvey, LA 70058
ROSE MARIE B. TOUCHET	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
DAVID L. BOURDIER	$250.00	Mail payments directly to Lessor at above address.
BERNICE FOREMAN BOUDREAUX	$1,500.00	Mail payments directly to Lessor at above address.
MARK W. BOUDREAUX	$0.00	N/A
WAYNE F. BOUDREAUX	$0.00	N/A
YVETTE MARIE BOUDREAUX LAFLEUR	$1,500.00	East Texas National Bank Marshall, TX 75671

Lessors agree that the above division is solely for the purposes of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

414

22) Lessor shall not bear any of the cost associated with the use of a compressor in the operations conducted hereunder.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

REVISED "A"

OIL, GAS AND MINERAL LEASE 521627

416

THIS AGREEMENT, entered into effective as of July 29 19 94

by and between For Lessors' names and addresses, see Exhibit "A" attached hereto and made a part hereof.

herein called "Lessor" (whether one or more) and CAJUN MINERALS, INC., whose mailing address is P.O. Box 53383, Lafayette, Louisiana 70505, hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of One Hundred Dollars and Other Valuable Considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

For property description and additional lease provisions, see Exhibit "A" attached hereto and made a part hereof.

RECEIVED AND FILED
94 SEP 7 PM 1:39
CLERK OF COURT
JEFFERSON DAVIS PARISH

521627

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 80.00 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 29 19 95, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the See Paragraph No. 21 of Exhibit "A" Bank of for Rental Division Order. which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to main in Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

418

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

WAYNE F. BOUDREAUX, husband of Vera Boudreaux, whose mailing address is 1165 Ivanhoe Drive, North Muskegon, Michigan 49445; and

YVETTE MARIE BOUDREAUX LAFLEUR, judicially divorced from Elmer LaFleur, whose mailing address is P.O. Box 118, Marshall, Texas 75671.

All the above Lessors dealing herein with their separate and/or paraphernal property.

PROPERTY DESCRIPTION:

TOWNSHIP 10 SOUTH - RANGE 3 WEST

That certain tract or parcel of land containing **80.00** acres, more or less, situated in irregular Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana and being further described as follows: Beginning at the Southwest corner of said irregular Section 39, thence run North 53 degrees, 8 minutes East along the Northwest section line of said irregular Section 39 a distance of 4,428 feet to a point of beginning; thence run North 53 degrees, 8 minutes East along said Northwest section line a distance of 2,640 feet; thence run Southeasterly, perpendicular to said Northwest section line a distance of 1,320 feet; thence run Southwesterly, parallel to said Northwest section line, a distance of 2,640 feet; thence run Northwesterly, perpendicular to said Northwest section line, a distance of 1,320 feet to the point of beginning. Said tract being bounded by lands owned, now or formerly, as follows: Northwest by Ann H. Hebert and Frank Perl, Jr., et al; and Northeast, Southeast and Southwest by other lands of Lessor not herein leased.

ADDITIONAL LEASE PROVISIONS:

14) The rights granted herein shall be limited to those horizons encountered from the surface of the earth down to a depth of 10,000 feet.

15) This lease covers and includes Lessor's interest in and to all roads, streets, servitudes, and/or rights of way traversing or adjacent to the above described property.

16) Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation one-fourth (1/4) shall be substituted therefor.

17) In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. The lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein provided that if it be by rental payments, rentals shall be reduced in proportion to the number of acres covered hereby and included in such unit or units. If at or after the end of the primary term, this lease is being maintained as to a part of the lands by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations or production, lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than two (2) year(s) beyond the end of the primary term. Notwithstanding anything herein contained to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of a shut-in gas rental as provided in Paragraph No. 6, then no rental payment shall be required under this paragraph as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of this paragraph shall be applicable.

18) At the conclusion of any and all operations hereunder, Lessee shall restore the leased premises to its original condition as reasonably possible within one year following cessation of operations; and moreover, prior to any excavation into the surface of the lease property, the topsoil shall be first removed or bulldozed and stacked or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said topsoil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

19) The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of Lessors.

20) Notwithstanding provisions of Paragraph No. 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received be Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

21) Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts to wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$3,000.00	Calcasieu Marine National Bank Jennings, LA 70546
PATRICK HENRY JOHNSON	$900.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
RICHARD W. JOHNSON	$300.00	Calcasieu Marine National Bank Welch, LA 70591-0826
ALBERT SIDNEY JOHNSON, III	$300.00	Bank One, Magee-Oracle Branch Tucson, AZ 85704
SANDRA LYNN JOHNSON TRAHAN	$300.00	Hibernia National Bank Lafayette, LA 70501
BONNA BELLE BRYAN ANDERSON and ROY ANDERSON	$800.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
DOROTHY MAE BRYAN	$400.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
LOUISIANA BAPTIST CHILDREN'S HOME, MONROE, LOUISIANA	$0.00	N/A
ALFRED C. BOURDIER	$1,750.00	Calcasieu Marine National Bank Lake Charles, LA 70601
MILTON F. BOURDIER	$250.00	QueStar Bank Houston, TX 77084
LYNN H. BOURDIER	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
BERNADINE B. ZIBILICH	$250.00	Seacor Bank Harvey, LA 70058
ROSE MARIE B. TOUCHET	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
DAVID L. BOURDIER	$250.00	Mail payments directly to Lessor at above address.
BERNICE FOREMAN BOUDREAUX	$1,500.00	Mail payments directly to Lessor at above address.
MARK W. BOUDREAUX	$0.00	N/A
WAYNE F. BOUDREAUX	$0.00	N/A
YVETTE MARIE BOUDREAUX LAFLEUR	$1,500.00	East Texas National Bank Marshall, TX 75671

Lessors agree that the above division is solely for the purposes of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

22) Lessor shall not bear any of the cost associated with the use of a compressor in the operations conducted hereunder.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

REVISED "A"

OIL, GAS AND MINERAL LEASE 521628

425

THIS AGREEMENT, entered into effective as of July 29 **19**94,

by and between For Lessors' names and addresses, see Exhibit "A" attached hereto and made a part hereof.

herein called "Lessor" (whether one or more) and CAJUN MINERALS, INC., whose mailing address is P.O. Box 53383, Lafayette, Louisisana 70505,
hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of One Hundred Dollars and Other Valuable Considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

For property description and addittional lease provisions, see Exhibit "A" attached hereto and made a part hereof.

CLERK OF COURT
JEFFERSON DAVIS PARISH

94 SEP 7 P1:35

RECEIVED AND FILED

521628

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 80.00 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 29 19 95, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods, One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the See Paragraph No. 21 of Exhibit "A" Bank for Rental Division Order. (Exhibit D) which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

Castex Development - Title and Lease History - 001626

assigns, and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable, (b) one eighth (1/8th) of the market value at the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land, (c) one eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed, and (e) one eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

[illegible]

For continuation of this lease, see Exhibit "A" attached hereto and made a part hereof.

All the above Lessors dealing herein with their separate and/or paraphernal property.

E 430

PROPERTY DESCRIPTION:

TOWNSHIP 10 SOUTH - RANGE 3 WEST

That certain tract or parcel of land containing **80.00** acres, more or less, situated in irregular Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana and being further described as follows: Beginning at the Southwest corner of said irregular Section 39, thence run North 53 degrees, 8 minutes East along the Northwest section line of said irregular Section 39 a distance of 4,428 feet to a point of beginning; thence run North 53 degrees, 8 minutes East along said Northwest section line a distance of 2,640 feet; thence run Southeasterly, perpendicular to said Northwest section line a distance of 1,320 feet; thence run Southwesterly, parallel to said Northwest section line, a distance of 2,640 feet; thence run Northwesterly, perpendicular to said Northwest section line, a distance of 1,320 feet to the point of beginning. Said tract being bounded by lands owned, now or formerly, as follows: Northwest by Ann H. Hebert and Frank Perl, Jr., et al; and Northeast, Southeast and Southwest by other lands of Lessor not herein leased.

ADDITIONAL LEASE PROVISIONS:

14) The rights granted herein shall be limited to those horizons encountered from the surface of the earth down to a depth of 10,000 feet.

15) This lease covers and includes Lessor's interest in and to all roads, streets, servitudes, and/or rights of way traversing or adjacent to the above described property.

16) Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation one-fourth (1/4) shall be substituted therefor.

17) In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. The lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein provided that if it be by rental payments, rentals shall be reduced in proportion to the number of acres covered hereby and included in such unit or units. If at or after the end of the primary term, this lease is being maintained as to a part of the lands by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations or production, lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than two (2) year(s) beyond the end of the primary term. Notwithstanding anything herein contained to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of a shut-in gas rental as provided in Paragraph No. 6, then no rental payment shall be required under this paragraph as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of this paragraph shall be applicable.

18) At the conclusion of any and all operations hereunder, Lessee shall restore the leased premises to its original condition as reasonably possible within one year following cessation of operations; and moreover, prior to any excavation into the surface of the lease property, the topsoil shall be first removed or bulldozed and stacked or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said topsoil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

19) The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of Lessors.

20) Notwithstanding provisions of Paragraph No. 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received be Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

21) Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts to wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$3,000.00	Calcasieu Marine National Bank Jennings, LA 70546
PATRICK HENRY JOHNSON	$900.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
RICHARD W. JOHNSON	$300.00	Calcasieu Marine National Bank Welch, LA 70591-0826
ALBERT SIDNEY JOHNSON, III	$300.00	Bank One, Magee-Oracle Branch Tucson, AZ 85704
SANDRA LYNN JOHNSON TRAHAN	$300.00	Hibernia National Bank Lafayette, LA 70501
BONNA BELLE BRYAN ANDERSON and ROY ANDERSON	$800.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
DOROTHY MAE BRYAN	$400.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
LOUISIANA BAPTIST CHILDREN'S HOME, MONROE, LOUISIANA	$0.00	N/A
ALFRED C. BOURDIER	$1,750.00	Calcasieu Marine National Bank Lake Charles, LA 70601
MILTON F. BOURDIER	$250.00	QueStar Bank Houston, TX 77084
LYNN H. BOURDIER	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
BERNADINE B. ZIBILICH	$250.00	Seacor Bank Harvey, LA 70058
ROSE MARIE B. TOUCHET	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
DAVID L. BOURDIER	$250.00	Mail payments directly to Lessor at above address.
BERNICE FOREMAN BOUDREAUX	$1,500.00	Mail payments directly to Lessor at above address.
MARK W. BOUDREAUX	$0.00	N/A
WAYNE F. BOUDREAUX	$0.00	N/A
YVETTE MARIE BOUDREAUX LAFLEUR	$1,500.00	East Texas National Bank Marshall, TX 75671

Lessors agree that the above division is solely for the purposes of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

22) Lessor shall not bear any of the cost associated with the use of a compressor in the operations conducted hereunder.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

REVISED "A"

OIL, GAS AND MINERAL LEASE

521629

434

THIS AGREEMENT, entered into effective as of July 29 19 94

by and between For Lessors' names and addresses, see Exhibit "A" attached hereto and made a part hereof.

herein called "Lessor" (whether one or more) and CAJUN MINERALS INC., whose mailing address is P.O. Box 53383, Lafayette, Louisiana 70505,
hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of One Hundred Dollars and Other Valuable Considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

For property description and additional lease provisions, see Exhibit "A" attached hereto and made a part hereof.

RECEIVED FILED
94 SEP 7 PM 1:36
CLERK OF COURT
JEFFERSON DAVIS PARISH

521629

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 80.00 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 29 1995, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the See Paragraph No. 21 of Exhibit "A" Bank for Rental Division Order, which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

436

does not but

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

[illegible]

For continuation of this lease, see Exhibit "A" attached hereto and made a part hereof.

YVETTE MARIE BOUDREAUX LAFLEUR, judicially divorced from Elmer LaFleur, whose mailing address is P.O. Box 118, Marshall, Texas 75671.

All the above Lessors dealing herein with their separate and/or paraphernal property.

PROPERTY DESCRIPTION:

TOWNSHIP 10 SOUTH - RANGE 3 WEST

That certain tract or parcel of land containing **80.00** acres, more or less, situated in irregular Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana and being further described as follows: Beginning at the Southwest corner of said irregular Section 39, thence run North 53 degrees, 8 minutes East along the Northwest section line of said irregular Section 39 a distance of 4,428 feet to a point of beginning; thence run North 53 degrees, 8 minutes East along said Northwest section line a distance of 2,640 feet; thence run Southeasterly, perpendicular to said Northwest section line a distance of 1,320 feet; thence run Southwesterly, parallel to said Northwest section line, a distance of 2,640 feet; thence run Northwesterly, perpendicular to said Northwest section line, a distance of 1,320 feet to the point of beginning. Said tract being bounded by lands owned, now or formerly, as follows: Northwest by Ann H. Hebert and Frank Perl, Jr., et al; and Northeast, Southeast and Southwest by other lands of Lessor not herein leased.

ADDITIONAL LEASE PROVISIONS:

14) The rights granted herein shall be limited to those horizons encountered from the surface of the earth down to a depth of 10,000 feet.

15) This lease covers and includes Lessor's interest in and to all roads, streets, servitudes, and/or rights of way traversing or adjacent to the above described property.

16) Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation one-fourth (1/4) shall be substituted therefor.

17) In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. The lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein provided that if it be by rental payments, rentals shall be reduced in proportion to the number of acres covered hereby and included in such unit or units. If at or after the end of the primary term, this lease is being maintained as to a part of the lands by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations or production, lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than two (2) year(s) beyond the end of the primary term. Notwithstanding anything herein contained to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of a shut-in gas rental as provided in Paragraph No. 6, then no rental payment shall be required under this paragraph as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of this paragraph shall be applicable.

18) At the conclusion of any and all operations hereunder, Lessee shall restore the leased premises to its original condition as reasonably possible within one year following cessation of operations; and moreover, prior to any excavation into the surface of the lease property, the topsoil shall be first removed or bulldozed and stacked or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said topsoil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

19) The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of Lessors.

20) Notwithstanding provisions of Paragraph No. 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received be Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

21) Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts to wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$3,000.00	Calcasieu Marine National Bank Jennings, LA 70546
PATRICK HENRY JOHNSON	$900.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
RICHARD W. JOHNSON	$300.00	Calcasieu Marine National Bank Welch, LA 70591-0826
ALBERT SIDNEY JOHNSON, III	$300.00	Bank One, Magee-Oracle Branch Tucson, AZ 85704
SANDRA LYNN JOHNSON TRAHAN	$300.00	Hibernia National Bank Lafayette, LA 70501
BONNA BELLE BRYAN ANDERSON and ROY ANDERSON	$800.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
DOROTHY MAE BRYAN	$400.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
LOUISIANA BAPTIST CHILDREN'S HOME, MONROE, LOUISIANA	$0.00	N/A
ALFRED C. BOURDIER	$1,750.00	Calcasieu Marine National Bank Lake Charles, LA 70601
MILTON F. BOURDIER	$250.00	QueStar Bank Houston, TX 77084
LYNN H. BOURDIER	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
BERNADINE B. ZIBILICH	$250.00	Seacor Bank Harvey, LA 70058
ROSE MARIE B. TOUCHET	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
DAVID L. BOURDIER	$250.00	Mail payments directly to Lessor at above address.
BERNICE FOREMAN BOUDREAUX	$1,500.00	Mail payments directly to Lessor at above address.
MARK W. BOUDREAUX	$0.00	N/A
WAYNE F. BOUDREAUX	$0.00	N/A
YVETTE MARIE BOUDREAUX LAFLEUR	$1,500.00	East Texas National Bank Marshall, TX 75671

Lessors agree that the above division is solely for the purposes of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

22) Lessor shall not bear any of the cost associated with the use of a compressor in the operations conducted hereunder.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

C E R T I F I C A T E

I DANNY L. MCILVEENE, do hereby certify that I am the duly elected, qualified and acting Secretary of the Board of Trustees of the Louisiana Baptist Children's Home, a nonprofit corporation organized under the laws of the State of Louisiana, domiciled in the Parish of Ouachita, hereinafter referred to as the "Home", and that as such have the custody of the corporate records and seal of the Home; that the following is a true and correct copy of a resolution duly and properly adopted by the Board of Trustees of the Home on May 12, 1987, as the same appears in the Minute Book of the Home; that there are no provisions of the Articles of Incorporation or By-Laws of the Home which impair or modify the effectiveness of the resolution; and that the resolution remains in full force and effect as of date hereof in the form set forth below and has not been amended, altered, repealed, rescinded or changed in any manner whatsoever:

"R E S O L U T I O N

"BE IT RESOLVED that:

"1.1 General Authority of Executive Director-Treasurer and Administrative Assistant. The affairs and business of the LOUISIANA BAPTIST CHILDREN'S HOME ("Home") shall be managed by the Executive Director-Treasurer and Administrative Assistant, or either one of them acting alone, with full and complete authority to acquire on behalf of the Home any and all property, whether real, personal or mixed, and dispose of and administer said property and to contract and enter into any and all contracts and agreements of every kind and nature and on such terms and conditions as the Executive Director-Treasurer and Administrative Assistant, or either one of them acting alone, shall desire; to sell, execute and deliver oil, gas and mineral leases, or any other lease contract of any nature or kind, to sell, execute, deliver or acquire any mineral rights or royalties; to pool, unitize, execute co-lessor's agreements, execute assignments, subleases or extensions of oil, gas and mineral leases or any other kind of lease contract; to accept on behalf of the Home any oil, gas or mineral lease or mineral purchase, or any other purchase; to execute and to make agreements of any and all kinds in regard to the drilling of oil or gas wells, or any other well, and the production of any well; to execute releases of oil, gas and mineral leases, mineral rights or royalties, and to execute division or transfer orders; to make accept, draw and endorse promissory notes and bills of exchange in the name of the Home and to bind the Home by acknowledgement of debt, promises to pay and any engagements of all kinds;

to make checks and draw money out of any bank or banks or corporate institutions wherein the same may have been deposited in the name of the Home; to invest all funds belonging to the Home to the best advantage of the Home as the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may think proper and best; to sell or transfer all or any shares of capital stock of any bank or corporate institution standing in the name of the Home, and owned by it and to receive the receipt for any and all dividends due or to become due; to pledge all or any part or parts of the property of the Home and to make and give note or notes which may be necessary from time to time, or for the renewal of any note or notes; to contract loans or borrow money in the name of the Home at any rate of interest the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may think proper, from any person, bank or corporate institution, with the right to pledge or mortgage all or any part of the property belonging to the Home; to sell, transfer, assign and convey to any person or persons or corporate institution, with all legal warranties, all or any part of the real, personal or mixed property of the Home, and for such price and upon such terms and conditions that the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may deem proper; to receive the price for such sales and to grant receipt and acquittance therefor; to buy and purchase all property of any kind, movable or immovable, for the Home for such price and upon such terms and conditions that the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may see fit; to pay the price therefor and to sign and execute all acts and deeds necessary in the premises, with all usual clauses; to appear in and on behalf of the Home accept any donations of property to the Home; to consent and agree to all privileges, mortgages and pledges in favor of or against the Home, as may be required; to lease, let or hire for such time and for such price as the Executive Director-Treasurer and Administrative Assistant or either of them acting alone may see fit all or any part of the property belonging to the Home, and to receive and receipt for the rent and wages thereof as the same may fall due; to put an end to said leases and give the necessary notices to vacate, according to law; to sign all bonds or other acts required by the United States of America or any of its departments or subdivisions or by the Revenue Department, or required by the State of Louisiana or any of its political subdivision; to appear before all courts of law, boards or commissions of either the United States of America or of the State of Louisiana; to prosecute and defend any and all suits that the Home may be a party to and to compromise or settle any and all lawsuits, litigations or any other disputes; to do any and all acts connected with, incidental to, or required in the carrying on the business of the Home, and to make and sign any and all contracts connected with or incidental to said business; and to manage the complete and entire affairs of business of the Home in the manner and way that the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, shall think to the best interest of the Home.

"1.2 Security Devices. The Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, be and they are authorized to sign

notes, both secured and unsecured or other instruments of indebtedness on behalf of the Home, to borrow money, assume mortgages or other obligations on behalf of the Home on such terms and conditions as the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may see fit, including mortgages on any property of the Home, movable or immovable, whether in full ownership or in leasehold interest, located anywhere in the State of Louisiana, United States of America, or any foreign country, and such other security instruments of every nature as the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may see fit, all such instruments to contain such rates of interest and such other terms and conditions as the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may see fit, and to arrange for the extension or renewal of any indebtedness due by the Home and utilize the assets of the Home as security to induce any creditor of the Home not to call any demand note on the Home; and in order to accomplish such purposes, and for any other purpose, said Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, be and they are hereby authorized to execute and endorse on behalf of the Home note(s) in such sums payable at such times, bearing such interest, and containing such terms, conditions and provisions, as in the absolute discretion of the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may deem necessary and advisable, and in order to secure said note(s), said Executive Director-Treasurer and Administrative Assistant, or either of them acting alone be and they are hereby authorized to appear before any Notary Public and execute acts of mortgage or acts of collateral mortgage, in such form and containing such terms and conditions as such in the absolute discretion of the Executive Director-Treasurer or Administrative Assistant or either of them acting alone, may deem necessary and advisable, including without limitation, a waiver of appraisement, a pact de non alienando, a confession of judgment, and agreement that the property may be sold by executory process in the event of default in the payment of the note, a clause providing attorney's fees in an amount not to exceed 25% of the amount to be collected if the note is not paid at maturity and is placed in the hands of an attorney at law for collection or suit, a clause providing for carrying of fire insurance with supplemental hazards on the improvements situated on the property in such amount as may be required by the mortgagee and such other clauses and provisions as are usual and customary in mortgages executed in the State of Louisiana, and other states of the union, bearing against any and all property and assets of the Home, and said Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, be and they are hereby further authorized to execute any and all note or notes, documents, loan agreements, applications or other instruments in writing in conjunction therewith, and to pledge, pawn and hypothecate such note(s) or any note(s) secured by mortgage or collateral mortgage to secure any other note(s) executed for and on behalf of the Home to obtain such loan(s); to pledge, pawn and hypothecate, any and all other securities or any other property of any kind or nature whatsoever belonging to the Home and to execute an assignment of accounts receivable, notes receivable or bills

receivable, of the Home as in the absolute discretion of the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone may deem necessary or advisable, and which may be required by any person, firm or corporation as security for any indebtedness so created by said Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, in accordance herewith, or any prior existing indebtedness of the Home.

"1.3 Banking Arrangements. The Executive Director-Treasurer and the Administrative Assistant of the Home, or either one of them acting alone, be and they are authorized, empowered and directed to make the necessary banking arrangements on behalf of the Home, and funds of the Home so deposited are subject to withdrawal upon checks, notes, drafts, bills of exchange, acceptances, undertakings or other orders for the payment of money when signed on behalf of the Home by the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, and any bank is hereby authorized to pay any such orders and also receive the same for credit of or in payment from the payee or any other holder without inquiry as to the circumstances of issue or the disposition of the proceeds even if drawn to the individual order of any said signing officer or tendered in payment of his individual obligation, and that any indebtedness heretofore contracted by any contracts or agreements heretofore made with a bank on behalf of the Home, and all acts of trustees or agents of the Home in connection with any indebtedness or said contracts or agreements, are hereby ratified and confirmed.

"1.4 Reliance By Lending Institutions. Lending institution, when furnished with certified copy of this resolution, shall be authorized to deal with the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, under this authority and until it be expressly notified in writing to the contrary by the Home, and shall in writing acknowledge receipt of the notification; and the lending institution shall at all times be protected in recognizing as the representative of the Home the persons named in a certificate signed by any representative of the Home, even though the certificate be the certificate of one of the officers or agents who is himself authorized to act herein."

I further certify that the following are the names and titles of the officers mentioned in the above and foregoing resolution:

Executive Director-Treasurer — John R. Williams

Administrative Assistant — Effie Mae Bailey

IN WITNESS WHEREOF, I have hereunto set my name at Monroe, Ouachita Parish, Louisiana, on this the 15th day of August 1994.

521630 447

THIS AGREEMENT, entered into effective as of July 29, 1994,

by and between For Lessors' names and addresses, see Exhibit "A" attached hereto and made a part hereof.

herein called "Lessor" (whether one or more) and CAJUN MINERALS, INC., whose mailing address is P.O. Box 53383, Lafayette, Louisiana 70505,
hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of One Hundred Dollars and Other Valuable Considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

For property description and additional lease provisions, see Exhibit "A" attached hereto and made a part hereof.

CLERK OF COURT
JEFFERSON DAVIS PARISH

RECEIVED AND FILED
94 SEP 7 P1:36

521630

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 80.00 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 29, 1995, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods, One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the See Paragraph No. 21 of Exhibit "A" Bank of for Rental Division Order. which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the *value at the mouth of the well of casinghead gas* used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

[illegible]

For continuation of this lease, see Exhibit "A" attached hereto and made a part hereof.

All the above Lessors dealing herein with their separate and/or paraphernal property.

452

PROPERTY DESCRIPTION:

TOWNSHIP 10 SOUTH - RANGE 3 WEST

That certain tract or parcel of land containing **80.00** acres, more or less, situated in irregular Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana and being further described as follows: Beginning at the Southwest corner of said irregular Section 39, thence run North 53 degrees, 8 minutes East along the Northwest section line of said irregular Section 39 a distance of 4,428 feet to a point of beginning; thence run North 53 degrees, 8 minutes East along said Northwest section line a distance of 2,640 feet; thence run Southeasterly, perpendicular to said Northwest section line a distance of 1,320 feet; thence run Southwesterly, parallel to said Northwest section line, a distance of 2,640 feet; thence run Northwesterly, perpendicular to said Northwest section line, a distance of 1,320 feet to the point of beginning. Said tract being bounded by lands owned, now or formerly, as follows: Northwest by Ann H. Hebert and Frank Perl, Jr., et al; and Northeast, Southeast and Southwest by other lands of Lessor not herein leased.

ADDITIONAL LEASE PROVISIONS:

14) The rights granted herein shall be limited to those horizons encountered from the surface of the earth down to a depth of 10,000 feet.

15) This lease covers and includes Lessor's interest in and to all roads, streets, servitudes, and/or rights of way traversing or adjacent to the above described property.

16) Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation one-fourth (1/4) shall be substituted therefor.

17) In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. The lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein provided that if it be by rental payments, rentals shall be reduced in proportion to the number of acres covered hereby and included in such unit or units. If at or after the end of the primary term, this lease is being maintained as to a part of the lands by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations or production, lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than two (2) year(s) beyond the end of the primary term. Notwithstanding anything herein contained to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of a shut-in gas rental as provided in Paragraph No. 6, then no rental payment shall be required under this paragraph as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of this paragraph shall be applicable.

18) At the conclusion of any and all operations hereunder, Lessee shall restore the leased premises to its original condition as reasonably possible within one year following cessation of operations; and moreover, prior to any excavation into the surface of the lease property, the topsoil shall be first removed or bulldozed and stacked or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said topsoil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

19) The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of Lessors.

20) Notwithstanding provisions of Paragraph No. 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received be Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

21) Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts to wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$3,000.00	Calcasieu Marine National Bank Jennings, LA 70546
PATRICK HENRY JOHNSON	$900.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
RICHARD W. JOHNSON	$300.00	Calcasieu Marine National Bank Welch, LA 70591-0826
ALBERT SIDNEY JOHNSON, III	$300.00	Bank One, Magee-Oracle Branch Tucson, AZ 85704
SANDRA LYNN JOHNSON TRAHAN	$300.00	Hibernia National Bank Lafayette, LA 70501
BONNA BELLE BRYAN ANDERSON and ROY ANDERSON	$800.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
DOROTHY MAE BRYAN	$400.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
LOUISIANA BAPTIST CHILDREN'S HOME, MONROE, LOUISIANA	$0.00	N/A
ALFRED C. BOURDIER	$1,750.00	Calcasieu Marine National Bank Lake Charles, LA 70601
MILTON F. BOURDIER	$250.00	QueStar Bank Houston, TX 77084
LYNN H. BOURDIER	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
BERNADINE B. ZIBILICH	$250.00	Seacor Bank Harvey, LA 70058
ROSE MARIE B. TOUCHET	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
DAVID L. BOURDIER	$250.00	Mail payments directly to Lessor at above address.
BERNICE FOREMAN BOUDREAUX	$1,500.00	Mail payments directly to Lessor at above address.
MARK W. BOUDREAUX	$0.00	N/A
WAYNE F. BOUDREAUX	$0.00	N/A
YVETTE MARIE BOUDREAUX LAFLEUR	$1,500.00	East Texas National Bank Marshall, TX 75671

Lessors agree that the above division is solely for the purposes of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

22) Lessor shall not bear any of the cost associated with the use of a compressor in the operations conducted hereunder.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

OIL, GAS AND MINERAL LEASE 521631

THIS AGREEMENT, entered into effective as of July 29 **19** 94

by and between For Lessors' names and addresses, see Exhibit "A" attached hereto and made a part hereof.

herein called "Lessor" (whether one or more) and CAJUN MINERALS, INC., **whose mailing address is** P.O. Box 53383, Lafayette, Louisiana 70505, **hereinafter called "Lessee", witnesseth, that:**

Lessor, in consideration of the sum of One Hundred Dollars and Other Valuable Considerations ($ 100.00 & OVC), **hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in** Jefferson Davis **Parish, Louisiana, and described as follows, to-wit:**

For property description and additional lease provisions, see Exhibit "A" attached hereto and made a part hereof.

CLERK OF COURT
JEFFERSON DAVIS PARISH

521631

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 80.00 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 29, 19 95, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods, One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the See Paragraph No. 21 of Exhibit "A" for Rental Division Order, which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

[illegible]

For continuation of this lease, see Exhibit "A" attached hereto and made a part hereof.

YVETTE MARIE BOUDREAUX LAFLEUR, judicially divorced from Elmer LaFleur, whose mailing address is P.O. Box 118, Marshall, Texas 75671.

All the above Lessors dealing herein with their separate and/or paraphernal property.

PROPERTY DESCRIPTION:

TOWNSHIP 10 SOUTH - RANGE 3 WEST

That certain tract or parcel of land containing **80.00** acres, more or less, situated in irregular Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana and being further described as follows: Beginning at the Southwest corner of said irregular Section 39, thence run North 53 degrees, 8 minutes East along the Northwest section line of said irregular Section 39 a distance of 4,428 feet to a point of beginning; thence run North 53 degrees, 8 minutes East along said Northwest section line a distance of 2,640 feet; thence run Southeasterly, perpendicular to said Northwest section line a distance of 1,320 feet; thence run Southwesterly, parallel to said Northwest section line, a distance of 2,640 feet; thence run Northwesterly, perpendicular to said Northwest section line, a distance of 1,320 feet to the point of beginning. Said tract being bounded by lands owned, now or formerly, as follows: Northwest by Ann H. Hebert and Frank Perl, Jr., et al; and Northeast, Southeast and Southwest by other lands of Lessor not herein leased.

ADDITIONAL LEASE PROVISIONS:

14) The rights granted herein shall be limited to those horizons encountered from the surface of the earth down to a depth of 10,000 feet.

15) This lease covers and includes Lessor's interest in and to all roads, streets, servitudes, and/or rights of way traversing or adjacent to the above described property.

16) Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation one-fourth (1/4) shall be substituted therefor.

17) In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. The lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein provided that if it be by rental payments, rentals shall be reduced in proportion to the number of acres covered hereby and included in such unit or units. If at or after the end of the primary term, this lease is being maintained as to a part of the lands by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations or production, lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than two (2) year(s) beyond the end of the primary term. Notwithstanding anything herein contained to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of a shut-in gas rental as provided in Paragraph No. 6, then no rental payment shall be required under this paragraph as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of this paragraph shall be applicable.

18) At the conclusion of any and all operations hereunder, Lessee shall restore the leased premises to its original condition as reasonably possible within one year following cessation of operations; and moreover, prior to any excavation into the surface of the lease property, the topsoil shall be first removed or bulldozed and stacked or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said topsoil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

19) The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of Lessors.

20) Notwithstanding provisions of Paragraph No. 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received be Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

21) Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts to wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$3,000.00	Calcasieu Marine National Bank Jennings, LA 70546
PATRICK HENRY JOHNSON	$900.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
RICHARD W. JOHNSON	$300.00	Calcasieu Marine National Bank Welch, LA 70591-0826
ALBERT SIDNEY JOHNSON, III	$300.00	Bank One, Magee-Oracle Branch Tucson, AZ 85704
SANDRA LYNN JOHNSON TRAHAN	$300.00	Hibernia National Bank Lafayette, LA 70501
BONNA BELLE BRYAN ANDERSON and ROY ANDERSON	$800.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
DOROTHY MAE BRYAN	$400.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
LOUISIANA BAPTIST CHILDREN'S HOME, MONROE, LOUISIANA	$0.00	N/A
ALFRED C. BOURDIER	$1,750.00	Calcasieu Marine National Bank Lake Charles, LA 70601
MILTON F. BOURDIER	$250.00	QueStar Bank Houston, TX 77084
LYNN H. BOURDIER	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
BERNADINE B. ZIBILICH	$250.00	Seacor Bank Harvey, LA 70058
ROSE MARIE B. TOUCHET	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
DAVID L. BOURDIER	$250.00	Mail payments directly to Lessor at above address.
BERNICE FOREMAN BOUDREAUX	$1,500.00	Mail payments directly to Lessor at above address.
MARK W. BOUDREAUX	$0.00	N/A
WAYNE F. BOUDREAUX	$0.00	N/A
YVETTE MARIE BOUDREAUX LAFLEUR	$1,500.00	East Texas National Bank Marshall, TX 75671

Lessors agree that the above division is solely for the purposes of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

22) Lessor shall not bear any of the cost associated with the use of a compressor in the operations conducted hereunder.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

FORM 42 CPM—NEW SOUTH LOUISIANA REVISED FOUR (4)—POOLING REVISED "A"

OIL, GAS AND MINERAL LEASE

521632 465

THIS AGREEMENT, entered into effective as of July 29 19 94

by and between For Lessors' names and addresses, see Exhibit "A" attached hereto and made a part hereof.

herein called "Lessor" (whether one or more) and CAJUN MINERALS, INC., whose mailing address is P.O. Box 53383, Lafayette, Louisiana 70505.
hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of One Hundred Dollars and Other Valuable Considerations ($100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

For property description and additional lease provisions, see Exhibit "A" attached hereto and made a part hereof.

RECEIVED AND FILED
94 SEP 7 PM 1:37
CLERK OF COURT
JEFFERSON DAVIS PARISH

521632

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 80.00 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 29 19 95, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the See Paragraph No. 21 of Exhibit "A" ~~Bank of~~ for Rental Division Order, which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

Castex Development - Title and Lease History - 001667

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

470

PROPERTY DESCRIPTION:

TOWNSHIP 10 SOUTH - RANGE 3 WEST

That certain tract or parcel of land containing **80.00** acres, more or less, situated in irregular Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana and being further described as follows: Beginning at the Southwest corner of said irregular Section 39, thence run North 53 degrees, 8 minutes East along the Northwest section line of said irregular Section 39 a distance of 4,428 feet to a point of beginning; thence run North 53 degrees, 8 minutes East along said Northwest section line a distance of 2,640 feet; thence run Southeasterly, perpendicular to said Northwest section line a distance of 1,320 feet; thence run Southwesterly, parallel to said Northwest section line, a distance of 2,640 feet; thence run Northwesterly, perpendicular to said Northwest section line, a distance of 1,320 feet to the point of beginning. Said tract being bounded by lands owned, now or formerly, as follows: Northwest by Ann H. Hebert and Frank Perl, Jr., et al; and Northeast, Southeast and Southwest by other lands of Lessor not herein leased.

ADDITIONAL LEASE PROVISIONS:

14) The rights granted herein shall be limited to those horizons encountered from the surface of the earth down to a depth of 10,000 feet.

15) This lease covers and includes Lessor's interest in and to all roads, streets, servitudes, and/or rights of way traversing or adjacent to the above described property.

16) Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation one-fourth (1/4) shall be substituted therefor.

17) In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. The lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein provided that if it be by rental payments, rentals shall be reduced in proportion to the number of acres covered hereby and included in such unit or units. If at or after the end of the primary term, this lease is being maintained as to a part of the lands by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations or production, lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than two (2) year(s) beyond the end of the primary term. Notwithstanding anything herein contained to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of a shut-in gas rental as provided in Paragraph No. 6, then no rental payment shall be required under this paragraph as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of this paragraph shall be applicable.

18) At the conclusion of any and all operations hereunder, Lessee shall restore the leased premises to its original condition as reasonably possible within one year following cessation of operations; and moreover, prior to any excavation into the surface of the lease property, the topsoil shall be first removed or bulldozed and stacked or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said topsoil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

19) The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of Lessors.

20) Notwithstanding provisions of Paragraph No. 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received be Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

21) Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts to wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$3,000.00	Calcasieu Marine National Bank Jennings, LA 70546
PATRICK HENRY JOHNSON	$900.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
RICHARD W. JOHNSON	$300.00	Calcasieu Marine National Bank Welch, LA 70591-0826
ALBERT SIDNEY JOHNSON, III	$300.00	Bank One, Magee-Oracle Branch Tucson, AZ 85704
SANDRA LYNN JOHNSON TRAHAN	$300.00	Hibernia National Bank Lafayette, LA 70501
BONNA BELLE BRYAN ANDERSON and ROY ANDERSON	$800.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
DOROTHY MAE BRYAN	$400.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
LOUISIANA BAPTIST CHILDREN'S HOME, MONROE, LOUISIANA	$0.00	N/A
ALFRED C. BOURDIER	$1,750.00	Calcasieu Marine National Bank Lake Charles, LA 70601
MILTON F. BOURDIER	$250.00	QueStar Bank Houston, TX 77084
LYNN H. BOURDIER	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
BERNADINE B. ZIBILICH	$250.00	Seacor Bank Harvey, LA 70058
ROSE MARIE B. TOUCHET	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
DAVID L. BOURDIER	$250.00	Mail payments directly to Lessor at above address.
BERNICE FOREMAN BOUDREAUX	$1,500.00	Mail payments directly to Lessor at above address.
MARK W. BOUDREAUX	$0.00	N/A
WAYNE F. BOUDREAUX	$0.00	N/A
YVETTE MARIE BOUDREAUX LAFLEUR	$1,500.00	East Texas National Bank Marshall, TX 75671

Lessors agree that the above division is solely for the purposes of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

22) Lessor shall not bear any of the cost associated with the use of a compressor in the operations conducted hereunder.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

OIL, GAS AND MINERAL LEASE

521633

474

THIS AGREEMENT, entered into effective as of July 29 19 94,

by and between For Lessors' names and addresses, see Exhibit "A" attached hereto and made a part hereof.

herein called "Lessor" (whether one or more) and CAJUN MINERALS, INC., whose mailing address is P.O. Box 53383, Lafayette, Louisiana 70505,
hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of One Hundred Dollars and Other Valuable Considerations ($100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

For property description and additional lease provisions, see Exhibit "A" attached hereto and made a part hereof.

RECEIVED AND FILED
94 SEP 7 P1:37
CLERK OF COURT
JEFFERSON DAVIS PARISH

521633

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 80.00 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 29 19 95, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the See Paragraph No. 21 of Exhibit "A" ~~Bankxxx~~ for Rental Division Order.
which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

Exhibit D

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

All the above Lessors dealing herein with their separate and/or paraphernal property.

PROPERTY DESCRIPTION:

TOWNSHIP 10 SOUTH - RANGE 3 WEST

That certain tract or parcel of land containing **80.00** acres, more or less, situated in irregular Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana and being further described as follows: Beginning at the Southwest corner of said irregular Section 39, thence run North 53 degrees, 8 minutes East along the Northwest section line of said irregular Section 39 a distance of 4,428 feet to a point of beginning; thence run North 53 degrees, 8 minutes East along said Northwest section line a distance of 2,640 feet; thence run Southeasterly, perpendicular to said Northwest section line a distance of 1,320 feet; thence run Southwesterly, parallel to said Northwest section line, a distance of 2,640 feet; thence run Northwesterly, perpendicular to said Northwest section line, a distance of 1,320 feet to the point of beginning. Said tract being bounded by lands owned, now or formerly, as follows: Northwest by Ann H. Hebert and Frank Perl, Jr., et al; and Northeast, Southeast and Southwest by other lands of Lessor not herein leased.

ADDITIONAL LEASE PROVISIONS:

14) The rights granted herein shall be limited to those horizons encountered from the surface of the earth down to a depth of 10,000 feet.

15) This lease covers and includes Lessor's interest in and to all roads, streets, servitudes, and/or rights of way traversing or adjacent to the above described property.

16) Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation one-fourth (1/4) shall be substituted therefor.

17) In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. The lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein provided that if it be by rental payments, rentals shall be reduced in proportion to the number of acres covered hereby and included in such unit or units. If at or after the end of the primary term, this lease is being maintained as to a part of the lands by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations or production, lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than two (2) year(s) beyond the end of the primary term. Notwithstanding anything herein contained to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of a shut-in gas rental as provided in Paragraph No. 6, then no rental payment shall be required under this paragraph as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of this paragraph shall be applicable.

18) At the conclusion of any and all operations hereunder, Lessee shall restore the leased premises to its original condition as reasonably possible within one year following cessation of operations; and moreover, prior to any excavation into the surface of the lease property, the topsoil shall be first removed or bulldozed and stacked or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said topsoil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

19) The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of Lessors.

20) Notwithstanding provisions of Paragraph No. 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received be Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

480

21) Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts to wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$3,000.00	Calcasieu Marine National Bank Jennings, LA 70546
PATRICK HENRY JOHNSON	$900.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
RICHARD W. JOHNSON	$300.00	Calcasieu Marine National Bank Welch, LA 70591-0826
ALBERT SIDNEY JOHNSON, III	$300.00	Bank One, Magee-Oracle Branch Tucson, AZ 85704
SANDRA LYNN JOHNSON TRAHAN	$300.00	Hibernia National Bank Lafayette, LA 70501
BONNA BELLE BRYAN ANDERSON and ROY ANDERSON	$800.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
DOROTHY MAE BRYAN	$400.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
LOUISIANA BAPTIST CHILDREN'S HOME, MONROE, LOUISIANA	$0.00	N/A
ALFRED C. BOURDIER	$1,750.00	Calcasieu Marine National Bank Lake Charles, LA 70601
MILTON F. BOURDIER	$250.00	QueStar Bank Houston, TX 77084
LYNN H. BOURDIER	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
BERNADINE B. ZIBILICH	$250.00	Seacor Bank Harvey, LA 70058
ROSE MARIE B. TOUCHET	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
DAVID L. BOURDIER	$250.00	Mail payments directly to Lessor at above address.
BERNICE FOREMAN BOUDREAUX	$1,500.00	Mail payments directly to Lessor at above address.
MARK W. BOUDREAUX	$0.00	N/A
WAYNE F. BOUDREAUX	$0.00	N/A
YVETTE MARIE BOUDREAUX LAFLEUR	$1,500.00	East Texas National Bank Marshall, TX 75671

Lessors agree that the above division is solely for the purposes of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

22) Lessor shall not bear any of the cost associated with the use of a compressor in the operations conducted hereunder.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

FORM 42 CPM—NEW SOUTH LOUISIANA REVISED FOUR (4)—POOLING REVISED "A"

OIL, GAS AND MINERAL LEASE 521634 483

THIS AGREEMENT, entered into effective as of July 29 19 94

by and between For Lessors' names and addresses, see Exhibit "A" attached hereto and made a part hereof.

herein called **"Lessor"** (whether one or more) and **CAJUN MINERALS, INC.**, whose mailing address is P.O. Box 53383, Lafayette, Louisiana 70505,
hereinafter called **"Lessee"**, witnesseth, that:

Lessor, in consideration of the sum of One Hundred Dollars and Other Valuable Considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

For property description and additional lease provisions, see Exhibit "A" attached hereto and made a part hereof.

RECORDED AND FILED
94 SEP 7 P 1:37
CLERK OF COURT
JEFFERSON DAVIS PARISH

521634

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 80.00 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 29 19 95, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may *continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term)* by paying Lessor, on or before the beginning of such respective periods One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the See Paragraph No. 21 of Exhibit "A" ~~Bank~~ for Rental Division Order, which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns, and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage, and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit, and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary term such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

Castex Development - Title and Lease History - 001685

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

YVETTE MARIE BOUDREAUX LAFLEUR, judicially divorced from Elmer LaFleur, whose mailing address is P.O. Box 118, Marshall, Texas 75671.

All the above Lessors dealing herein with their separate and/or paraphernal property.

PROPERTY DESCRIPTION:

TOWNSHIP 10 SOUTH - RANGE 3 WEST

That certain tract or parcel of land containing **80.00** acres, more or less, situated in irregular Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana and being further described as follows: Beginning at the Southwest corner of said irregular Section 39, thence run North 53 degrees, 8 minutes East along the Northwest section line of said irregular Section 39 a distance of 4,428 feet to a point of beginning; thence run North 53 degrees, 8 minutes East along said Northwest section line a distance of 2,640 feet; thence run Southeasterly, perpendicular to said Northwest section line a distance of 1,320 feet; thence run Southwesterly, parallel to said Northwest section line, a distance of 2,640 feet; thence run Northwesterly, perpendicular to said Northwest section line, a distance of 1,320 feet to the point of beginning. Said tract being bounded by lands owned, now or formerly, as follows: Northwest by Ann H. Hebert and Frank Perl, Jr., et al; and Northeast, Southeast and Southwest by other lands of Lessor not herein leased.

ADDITIONAL LEASE PROVISIONS:

14) The rights granted herein shall be limited to those horizons encountered from the surface of the earth down to a depth of 10,000 feet.

15) This lease covers and includes Lessor's interest in and to all roads, streets, servitudes, and/or rights of way traversing or adjacent to the above described property.

16) Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation one-fourth (1/4) shall be substituted therefor.

17) In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. The lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein provided that if it be by rental payments, rentals shall be reduced in proportion to the number of acres covered hereby and included in such unit or units. If at or after the end of the primary term, this lease is being maintained as to a part of the lands by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations or production, lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than two (2) year(s) beyond the end of the primary term. Notwithstanding anything herein contained to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of a shut-in gas rental as provided in Paragraph No. 6, then no rental payment shall be required under this paragraph as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of this paragraph shall be applicable.

18) At the conclusion of any and all operations hereunder, Lessee shall restore the leased premises to its original condition as reasonably possible within one year following cessation of operations; and moreover, prior to any excavation into the surface of the lease property, the topsoil shall be first removed or bulldozed and stacked or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said topsoil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

19) The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of Lessors.

20) Notwithstanding provisions of Paragraph No. 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received be Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

21) Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts to wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$3,000.00	Calcasieu Marine National Bank Jennings, LA 70546
PATRICK HENRY JOHNSON	$900.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
RICHARD W. JOHNSON	$300.00	Calcasieu Marine National Bank Welch, LA 70591-0826
ALBERT SIDNEY JOHNSON, III	$300.00	Bank One, Magee-Oracle Branch Tucson, AZ 85704
SANDRA LYNN JOHNSON TRAHAN	$300.00	Hibernia National Bank Lafayette, LA 70501
BONNA BELLE BRYAN ANDERSON and ROY ANDERSON	$800.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
DOROTHY MAE BRYAN	$400.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
LOUISIANA BAPTIST CHILDREN'S HOME, MONROE, LOUISIANA	$0.00	N/A
ALFRED C. BOURDIER	$1,750.00	Calcasieu Marine National Bank Lake Charles, LA 70601
MILTON F. BOURDIER	$250.00	QueStar Bank Houston, TX 77084
LYNN H. BOURDIER	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
BERNADINE B. ZIBILICH	$250.00	Seacor Bank Harvey, LA 70058
ROSE MARIE B. TOUCHET	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
DAVID L. BOURDIER	$250.00	Mail payments directly to Lessor at above address.
BERNICE FOREMAN BOUDREAUX	$1,500.00	Mail payments directly to Lessor at above address.
MARK W. BOUDREAUX	$0.00	N/A
WAYNE F. BOUDREAUX	$0.00	N/A
YVETTE MARIE BOUDREAUX LAFLEUR	$1,500.00	East Texas National Bank Marshall, TX 75671

Lessors agree that the above division is solely for the purposes of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

22) Lessor shall not bear any of the cost associated with the use of a compressor in the operations conducted hereunder.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

LOUISIANA REVISED FOUR 141—POOLING
REVISED "A"

OIL, GAS AND MINERAL LEASE

521635 493

THIS AGREEMENT, entered into effective as of July 29 19 94,

by and between For Lessors' names and addresses, see Exhibit "A" attached hereto and made a part hereof.

herein called **"Lessor"** (whether one or more) and CAJUN MINERALS, INC., whose mailing address is P.O. Box 53383, Lafayette, Louisiana 70505,
hereinafter called **"Lessee"**, witnesseth, that:

Lessor, in consideration of the sum of One Hundred Dollars and Other Valuable Considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

For property description and additional lease provisions, see Exhibit "A" attached hereto and made a part hereof.

RECEIVED AND FILED
94 SEP 7 P1:37
CLERK OF COURT
JEFFERSON DAVIS PARISH

521635

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 80.00 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 29 19 95, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods One Hundred, Fifty and No/100 Dollars ($ 150.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the See Paragraph No. 21 of Exhibit "A" ~~xxxxxx~~ for Rental Division Order.
which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

[illegible]

For continuation of this lease, see Exhibit "A" attached hereto and made a part hereof.

YVETTE MARIE BOUDREAUX LAFLEUR, judicially divorced from Elmer LaFleur, whose mailing address is P.O. Box 118, Marshall, Texas 75671.

All the above Lessors dealing herein with their separate and/or paraphernal property.

498

PROPERTY DESCRIPTION:

TOWNSHIP 10 SOUTH - RANGE 3 WEST

That certain tract or parcel of land containing **80.00** acres, more or less, situated in irregular Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana and being further described as follows: Beginning at the Southwest corner of said irregular Section 39, thence run North 53 degrees, 8 minutes East along the Northwest section line of said irregular Section 39 a distance of 4,428 feet to a point of beginning; thence run North 53 degrees, 8 minutes East along said Northwest section line a distance of 2,640 feet; thence run Southeasterly, perpendicular to said Northwest section line a distance of 1,320 feet; thence run Southwesterly, parallel to said Northwest section line, a distance of 2,640 feet; thence run Northwesterly, perpendicular to said Northwest section line, a distance of 1,320 feet to the point of beginning. Said tract being bounded by lands owned, now or formerly, as follows: Northwest by Ann H. Hebert and Frank Perl, Jr., et al; and Northeast, Southeast and Southwest by other lands of Lessor not herein leased.

ADDITIONAL LEASE PROVISIONS:

14) The rights granted herein shall be limited to those horizons encountered from the surface of the earth down to a depth of 10,000 feet.

15) This lease covers and includes Lessor's interest in and to all roads, streets, servitudes, and/or rights of way traversing or adjacent to the above described property.

16) Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation one-fourth (1/4) shall be substituted therefor.

17) In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. The lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein provided that if it be by rental payments, rentals shall be reduced in proportion to the number of acres covered hereby and included in such unit or units. If at or after the end of the primary term, this lease is being maintained as to a part of the lands by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations or production, lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than two (2) year(s) beyond the end of the primary term. Notwithstanding anything herein contained to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of a shut-in gas rental as provided in Paragraph No. 6, then no rental payment shall be required under this paragraph as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of this paragraph shall be applicable.

18) At the conclusion of any and all operations hereunder, Lessee shall restore the leased premises to its original condition as reasonably possible within one year following cessation of operations; and moreover, prior to any excavation into the surface of the lease property, the topsoil shall be first removed or bulldozed and stacked or bulldozed into a pile on the premises and at the conclusion of the use of the excavation, said excavation shall be backfilled, after removing all chemical mud or drilling mud, and said topsoil remaining in this stack or pile shall be spread over said backfill as evenly as prudently possible under the then existing conditions.

19) The contrary herein notwithstanding, Lessee shall conduct no seismic operations on the property without the prior written consent of Lessors.

20) Notwithstanding provisions of Paragraph No. 7 herein to the contrary, the price to be used in computing the market value of gas shall be the price received be Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lessee price shall be used in such computation.

21) Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts to wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$3,000.00	Calcasieu Marine National Bank Jennings, LA 70546
PATRICK HENRY JOHNSON	$900.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
RICHARD W. JOHNSON	$300.00	Calcasieu Marine National Bank Welch, LA 70591-0826
ALBERT SIDNEY JOHNSON, III	$300.00	Bank One, Magee-Oracle Branch Tucson, AZ 85704
SANDRA LYNN JOHNSON TRAHAN	$300.00	Hibernia National Bank Lafayette, LA 70501
BONNA BELLE BRYAN ANDERSON and ROY ANDERSON	$800.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
DOROTHY MAE BRYAN	$400.00	Jeff Davis Bank & Trust Co. Jennings, LA 70546
LOUISIANA BAPTIST CHILDREN'S HOME, MONROE, LOUISIANA	$0.00	N/A
ALFRED C. BOURDIER	$1,750.00	Calcasieu Marine National Bank Lake Charles, LA 70601
MILTON F. BOURDIER	$250.00	QueStar Bank Houston, TX 77084
LYNN H. BOURDIER	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
BERNADINE B. ZIBILICH	$250.00	Seacor Bank Harvey, LA 70058
ROSE MARIE B. TOUCHET	$250.00	Calcasieu Marine National Bank Lake Charles, LA 70601
DAVID L. BOURDIER	$250.00	Mail payments directly to Lessor at above address.
BERNICE FOREMAN BOUDREAUX	$1,500.00	Mail payments directly to Lessor at above address.
MARK W. BOUDREAUX	$0.00	N/A
WAYNE F. BOUDREAUX	$0.00	N/A
YVETTE MARIE BOUDREAUX LAFLEUR	$1,500.00	East Texas National Bank Marshall, TX 75671

Lessors agree that the above division is solely for the purposes of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

500

22) Lessor shall not bear any of the cost associated with the use of a compressor in the operations conducted hereunder.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

ASSIGNMENT OF OIL, GAS AND MINERAL LEASES 94 SEP 8 P2:41

STATE OF LOUISIANA

PARISH OF JEFFERSON DAVIS

CLERK OF COURT
JEFFERSON DAVIS PARISH

KNOW ALL MEN BY THESE PRESENTS:

THAT CAJUN MINERALS, INC., a Louisiana Corporation, whose mailing address is P. O. Box 53383 Lafayette, LA 70505 (hereinafter referred to as "ASSIGNOR") is the owner of interest in and to the Oil, Gas and Mineral Leases described on Exhibit "A" attached hereto and made a part hereof.

NOW THEREFORE, for and consideration of the sum of One Hundred Dollars ($100.00) and other good and valuable considerations, the receipt and sufficiency of which are hereby acknowledged, ASSIGNOR, does hereby convey, transfer, assign and deliver, unto **REBOB ENERGY, INC.**, a Louisiana Corporation, whose mailing address is 208 Janin Road, Broussard, LA 70518, (hereinafter referred to as "ASSIGNEE") all of ASSIGNOR'S right, title and interest in and to the leases described in Exhibit "A" including all fixtures and surface equipment, if any, located on the lands covered by the "LEASES" owned by the "ASSIGNORS" as the effective date hereof.

521662

This Assignment is subject to the following terms, conditions and/or exceptions:

1. This Assignment is made without warranty of title expressed, implied or statutory, except that ASSIGNOR does hereby warrant against anyone asserting an adverse claim to the Assigned Working Interest that arises by, through or under any act of ASSIGNOR during the period that the Assigned Working Interest was owned by Assignor, and Assignor also does hereby convey title to the Assigned Working Interest with full substitution and subrogation of ASSIGNEE and all persons claiming, by, through and under ASSIGNEE, in and to all covenants and warranties of ASSIGNOR's predecessors in title and with full subrogation of all rights occurring under the statutes of limitation of prescription laws of the State of Louisiana and all rights or actions of warranty against all former owners of the Assigned Working Interest.

2. The Provisions of this Assignment shall be binding upon, and shall inure to the benefit of the heirs, successors and/or assigns of "ASSIGNOR" and "ASSIGNEE.

4. In the event title should fail as to all or part of the lands described in the Said Leases subject hereto, should the Said Leases cover less than the entire fee mineral estate in said lands, or should said lands or any part thereof be pooled unitized with other lands then the interest herein assigned shall be proportionately reduced.

584

This Assignment of Oil, Gas and Mineral Lease is executed on 8TH day of September 1994, but shall be considered effective from the 1st day of September, 1994.

hereinafter collectively referred to as "ASSIGNOR" and NUEVO ENERGY COMPANY, a Delaware corporation, whose address is 1221 Lamar, Suite 1600, Houston, Texas 77010-3039, hereinafter referred to as "ASSIGNEE",

WITNESSETH:

That for and in consideration of the sum of One Thousand and No/l00 Dollars ($1,000.00) cash in hand paid, and other valuable consideration, including the hereinbelow described assumption by ASSIGNEE of certain described obligations and liabilities, the receipt and sufficiency of which are hereby acknowledged, ASSIGNOR, subject to that certain "Agreement for Purchase and Sale" dated 1994 by and between ASSIGNOR and ASSIGNEE (the "Purchase Agreement") and further subject to the terms, conditions and reservations hereof, does hereby sell, transfer, assign, convey, set over and deliver unto Assignee, effective for all purposes as of the Effective Date, all of Assignor's right, title and interest in and to the following rights, interests and properties, other than the Excluded Assets, hereinafter defined (the "Properties"):

(a.) **Oil and Gas Properties**. All oil, gas and mineral leases, royalty, overriding royalty and other interests of every nature described on Exhibit A hereto, and all rights that arise by operation of law or otherwise in all lands pooled, unitized, communitized or consolidated with the interests described in Exhibit A, insofar as such pooled, unitized, communitized or consolidated interests are attributable to the interests described on Exhibit A (the *"Oil and Gas Properties"*);

(b.) **Wells**. All oil, condensate or natural gas wells, water source wells, and water and other types of injection wells either located on the Oil and Gas Properties or held for use in connection with the Oil and Gas Properties, whether producing, operating, shut-in or temporarily abandoned (the "*Wells*").

(c.) **Severed Substances**. All severed crude oil, natural gas, casinghead gas, drip gasoline, natural gasoline, petroleum, natural gas liquids, condensate, products, liquids and other hydrocarbons and other minerals or materials of every kind and description produced from the Oil and Gas Properties and either (a) in storage tanks on the Effective Date, or (b) sold on or after the Effective Date (the "*Substances*").

(d.) **Surface Contracts**. All leases, easements, privileges, right of way agreements, licenses or other agreements relating to the use or ownership of surface and subsurface properties and structures that are used or held for use in connection with the exploration, development and production of Substances from the Oil and Gas Properties, including the interests described on Exhibit A hereto (the "*Surface Contracts*").

(e.) **Equipment**. All equipment, fixtures, physical facilities or interests therein (including but not limited to gathering lines and pipelines) of every type and description to the extent that the same are either currently used or held for use in connection with the ownership or operation of the Properties and located on such Properties or listed on Exhibit 1.1.5 to the Purchase Agreement (the "*Equipment*").

(f.) **Information and Data**. Originals (or at Assignor's option, copies) of all (a) abstracts, title opinions, title reports, title policies, lease and land files, surveys, analyses, compilations, correspondence, filings with and reports to regulatory agencies, other documents and instruments in

the possession or control of The Stone Petroleum Corporation ("Stone") that in any manner relate to the Properties; (b) geological, engineering, production and other technical data, summaries, reports and maps, whether written or in electronically reproducible form, that are in the possession or control of Stone and relate to the Properties; and (c) all other books, records, files, accounting, title or other information are in the possession of Stone and relate to the Properties (the "*Data*").

(g.) **Contracts**. All contracts, commitments, agreements and arrangements relating to the operation of the Properties, including the production, storage, treatment, transportation, processing, purchase, sale, disposal or other disposition of Substances therefrom or in connection therewith and any and all amendments, ratifications or extensions of the foregoing to the extent said contracts, commitments, agreements, and arrangements apply to the Oil and Gas Properties, Wells, or Equipment, together with (i) all rights, privileges, and benefits of Assignor thereunder arising on or after the Effective Date, (ii) all rights of Assignor thereunder to audit the records of any party thereto and to receive refunds of any nature thereunder, relating to periods after the Effective Date, (iii) all claims for take-or-pay or other similar payments arising after the Effective Date, and (iv) rights to receive proceeds under any insurance policy held by or on behalf of Assignor in connection with the Properties for any claim that arises either (y) from the Effective Date through the Closing Date, as defined in the Purchase Agreement, in connection with the Properties or (z) to the extent transferable, with respect to a valid claim that arises from or relates to periods prior to the Effective Date and comprises part of the Assumed Obligations, as defined in the Purchase Agreement (the "*Contracts*").

(h.) **Permits**. To the extent transferrable, all franchises, licenses, permits, approvals, consents, certificates and other authorizations and other rights granted by governmental authorities and all certificates of conveyance or necessity, immunities, privileges, grants and other rights, that relate solely to the Properties or the ownership or operation of any thereof (the "*Permits*").

(i.) **Payment Rights.** All (a) accounts, instruments and general intangibles (as such terms are defined in the Uniform Commercial Code of Texas) attributable to the Properties with respect to any period of time on or after the Effective Date and (b) liens and security interests in favor of Assignor, whether choate or inchoate, under any law, rule or regulation or under the Contracts (i) arising from the ownership, operation or sale or other disposition on or after the Effective Date of any of the Properties (other than the conveyance of the Properties pursuant to the terms of this Assignment) and (ii) arising in favor of Assignor as the operator of certain of the Oil and Gas Properties.

LESS AND EXCEPT, and Assignor hereby retains all of Assignor's right, title and interest in and to the following (the "*Excluded Assets*"):

(i.) all rights of Assignor in and to that certain cause of action styled The Stone Petroleum Corporation, et al v.

Texas Gas Transmission Corporation, Docket No. 94-2402 in the Civil District Court for the Parish of Orleans, Louisiana ("Excess Royalty Litigation"); (ii) any and all escrow funds, reserves and other funds relating to the Properties or their operations prior to the Effective Date that Stone may hold (a) in its capacity as general partner of any of the Beneficial Owners or (b) on behalf of the entities in which the POA owners are joint venturers (but excluding in either case any escrow funds or reserves held in its capacity as operator of any of the Properties); (iii) all geophysical and seismic data and interpretative information relating to the Properties; (iv) all reserve reports and projections relating to the Properties; (v) all bonds provided by Assignor in connection with the Properties; (vi) all of Assignor's interest in the Provost Cyr No. 1, Provost Cyr No. 3 Wells and units attributable to Assignor's ownership of lands or leases in Section 19, Township 14 South, Range 7 East, Iberia Parish, Louisiana except to the leasehold interests described on Exhibit A hereto; (vii) all geophysical and seismic data and information; (viii) ~~any information subject to confidentiality agreements with third parties~~; and (ix) The Stone Petroleum Corporation, Smith No. 7 Well located in Section 18, Township 14 South, Range 7 East, Iberia Parish, Louisiana, and any contracts related primarily thereto; Assignor's rights in the Excess Royalty Litigation as reserved herein include rights held for the benefit of Assignee, Torch Energy Advisors Incorporated and their respective affiliates ("Affiliate Interests") as more fully described in the Purchase Agreement. Notwithstanding anything herein to the contrary, the owners of the Affiliate Interests shall continue to own their respective interests in and to the Excess Royalty Litigation and all proceeds received in connection therewith.

TO HAVE AND TO HOLD the Properties unto ASSIGNEE, its successors and assigns forever, subject to the terms and conditions set forth herein and the Existing Encumbrances (as hereinafter defined). This Assignment is made without warranty of title, express, implied or statutory, even as to return of the purchase price, except as to matters arising by, through or under Assignor with respect to the interests described on Exhibit 1.1.1 to the Purchase Agreement.

1. **No Warranty and Disclaimers**. ASSIGNEE ACKNOWLEDGES THAT EXCEPT AS SET FORTH IN THE PURCHASE AGREEMENT OR IN THIS ASSIGNMENT, ASSIGNOR HAS NOT MADE ANY REPRESENTATION OR WARRANTY, EXPRESS, IMPLIED, AT COMMON LAW, BY STATUTE OR OTHERWISE RELATING TO THE PROPERTIES. IN ADDITION, ASSIGNEE ACKNOWLEDGES THAT EXCEPT AS SET FORTH IN THE PURCHASE AGREEMENT OR IN THIS ASSIGNMENT ASSIGNOR HAS NOT MADE, AND ASSIGNOR EXPRESSLY DISCLAIMS AND NEGATES ANY IMPLIED OR EXPRESS WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR CONFORMITY TO MODELS OR SAMPLES OR MATERIALS, AND ANY OTHER REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, RELATING TO THE PROPERTIES, EVEN AS TO THE RETURN OF THE PURCHASE PRICE. WITH RESPECT TO ANY OF THE PROPERTIES THAT ARE LOCATED IN LOUISIANA, ASSIGNEE ACKNOWLEDGES THAT THIS WAIVER HAS BEEN EXPRESSLY CALLED TO ITS ATTENTION AND INCLUDES, WITHOUT LIMITATION, A WAIVER OF WARRANTY AGAINST REDHIBITORY VICES ARISING UNDER LOUISIANA CIVIL CODE ARTICLES 2520 THROUGH 2548 INCLUSIVE. EXCEPT AS SET FORTH IN THE PURCHASE AGREEMENT OR IN THIS ASSIGNMENT ASSIGNEE ACCEPTS THE PROPERTY IN ITS "AS IS, WHERE IS" CONDITION. EXCEPT FOR

ANY MATTER WHICH ASSIGNOR FAILED TO DISCLOSE PURSUANT TO SECTION 3.10 OF THE PURCHASE AGREEMENT OF WHICH ASSIGNOR HAD KNOWLEDGE, ASSIGNOR DISCLAIMS ANY AND ALL LIABILITY ARISING IN CONNECTION WITH ANY ENVIRONMENTAL MATTERS, INCLUDING WITHOUT LIMITATION, ANY PRESENCE OF NATURALLY OCCURRING RADIOACTIVE MATERIAL ON THE PROPERTY.

2. **Existing Encumbrances**.

This Assignment is made expressly subject to the following to the extent the same are valid and subsisting and affect the Properties (the "Existing Encumbrances"):

(a) the terms, conditions, restrictions, exceptions, reservations, limitations and other matters contained in the agreements, instruments and documents that create or reserve to Assignor its interests in any of the Properties and which agreements, instruments and documents are filed of record in the appropriate public record;

(b) the Surface Contracts and the Contracts;

(c) any materialman's mechanics', repairman's, employees', contractors, operators' or other similar liens or charges for amounts arising in the ordinary course of business that are not yet due and payable or are being contested in good faith;

(d) any liens for taxes and assessments not yet delinquent;

(e) any liens or security interests created by law or reserved in oil and gas leases for royalty, bonus or rental, or created to secure compliance with the terms of the agreements, instruments and documents that create or reserve to Assignor its interests in the Properties;

(f) any obligations or duties affecting the Properties to any municipality or public authority with respect to any franchise, grant, license or permit, and all applicable laws, rules, regulations and orders of any governmental authority;

(g) any (i) easements, rights-of-way, servitudes, permits, surface leases and other rights in respect of surface operations, pipelines, grazing, hunting, lodging, canals, ditches, reservoirs or the like, and (ii) easements for streets, alleys, highways, pipelines, telephone lines, power lines, railways and other similar rights-of-way, on, over or in respect of property owned or leased by Assignor or over which Assignor owns rights-of-way, easements, permits or licenses provided that none of the foregoing either (y) individually or in the aggregate materially interfere with the operation, value or use of any Oil and Gas Property or (z) reduce the net revenue interests or increase the working interests of Assignor described on Exhibit 1.1.1 to the Purchase Agreement.

(h) all lessor's royalties, overriding royalties, net profits interests, carried interests, production payments, reversionary interests and other burdens on or deductions from the proceeds of production created or in existence as of the Effective Date that do not operate to reduce the Net Revenue Interests or increase the Working Interest of Assignor as described on Exhibit 1.1.1 to the Purchase Agreement;

(i) all rights to consent by, required notices to, filings with, or other actions by governmental entities in connection with the sale or conveyance of oil and gas leases or interests therein and;

(j) all defects and irregularities affecting the Properties which individually or in the aggregate do not operate to reduce the net revenue interests or increase the working interest of Assignor or otherwise materially interfere with the operation, value or use of the Properties, either individually or in the aggregate.

3. **Approval.**

This Assignment, insofar as it affects any interest in leases the transfer of which must be approved by any governmental entity or agency, is made and accepted subject to the approval of the appropriate governmental entity or agency and to the terms of such approval, if and to the extent required by law.

4. **Subrogation.**

Assignor hereby transfers and assigns unto Assignee, its successors and assigns, all of its rights under and by virtue of all covenants and warranties pertaining to the Properties, express or implied including without limitation, title warranties and manufacturers', suppliers' and contractors' warranties, that have heretofore been made by any of Assignor predecessors in title, or by any third party manufacturers, suppliers, and contractors (the "Prior Covenants and Warranties"). This Assignment is made with full substitution and subrogation of Assignee, its successors and assigns, in, to, under and by virtue of the Prior Covenants and Warranties and with full subrogation to all rights accruing under the statutes of limitation, prescription and repose under the laws of the applicable jurisdictions in relation to the Properties and all causes of action, rights of action or warranty of Assignor against all former owners of the Properties.

5. **Assignment.**

Notwithstanding any assignment by Assignee of all or any portion of its interest in the Properties, Assignee shall remain responsible to Assignor for all obligations and liabilities under this agreement and under said Purchase Agreement.

6. **Conflict.**

In the event of any express conflict between the terms of this Assignment and the terms of the Purchase Agreement, the terms of the Purchase Agreement shall control.

IN WITNESS WHEREOF, each party hereto has executed this agreement in the presence of the indicated witnesses, to be effective as of the Effective Date.

CERTIFICATE OF AMENDMENT

OF

CERTIFICATE OF INCORPORATION

HADSON ENERGY RESOURCES CORPORATION, a corporation organized and existing under and by virtue of the General Corporation Law of the State of Delaware,

DOES HEREBY CERTIFY:

FIRST: That the Board of Directors of said corporation, by the unanimous written consent of its members, filed with the minutes of the Board, adopted a resolution proposing and declaring advisable the following amendment to the Certificate of Incorporation of said corporation:

> **RESOLVED**: That the Certificate of Incorporation of **HADSON ENERGY RESOURCES CORPORATION** be amended by changing Article I, Section 1 thereof so that, as amended, said Article shall be and read as follows:
>
> "The name of the corporation is: **APACHE ENERGY RESOURCES CORPORATION**"

SECOND: In lieu of a meeting, the stockholder has given unanimous written consent to said amendment in accordance with the provisions of Section 228 of the General Corporation Law of the State of Delaware.

THIRD: That the aforesaid amendment was duly adopted in accordance with the applicable provisions of Sections 242 and 228 of the General Corporation Law of the State of Delaware and that this Certificate of Amendment of Certificate of Incorporation shall be effective on January 1, 1995.

OIL, GAS AND MINERAL LEASE(S)

KNOW YE ALL MEN BY THESE PRESENTS, THAT:

Reference is made hereby to those certain Oil, Gas and Mineral Leases, executed in counterpart(s), dated effective as of July 29, 1994, by and between **REUBEN RAYMOND BRUCE, ET AL,** (as Lessor(s) and **CAJUN MINERALS, INC.,** (as Lessee) and which Oil, Gas and Mineral Leases appear of public record at the Office of the Clerk of Court, in and for Jefferson Davis Parish, Louisiana, at Conveyance Book 787, under File No.(s) 521626, 521627, 521628, 521629, 521630, 521631, 521632, 521633, 521634 and 521635 (the reference to recordation of which being made hereby for any and all purposes, descriptive and otherwise and which Oil, Gas and Mineral Leases, for the purposes hereof, shall from time to time be referred to as the "subject Leases" and/or the "said Leases");

WHEREAS, by instrument dated effective September 1, 1994, entitled "Assignment of Oil, Gas and Mineral Leases" **Cajun Minerals, Inc.** did convey, transfer, assign and deliver, unto **REBOB ENERGY, INC.,** a Louisiana Corporation, whose mailing address is 208 Janin Road, Broussard, Louisiana 70518, (hereinafter from time to time, for these purposes, "the said Lessee") all of its right, title and interest in and to the said Leases;

523862

WHEREAS, it has come to the attention of the Lessor(s) and the said Lessee that the subject Lease(s) do not currently contain a description of all of the lands of the Lessor(s) which the Lessor(s) and the said Lessee intended to include in and to be covered by the subject Leases;

WHEREAS, the subject Leases currently contain a "depth limitation" at numerical paragraph "14)" thereof which restricts the coverage of the said Leases to only "those horizons encountered from the surface of the earth down to a depth of 10,000 feet";

WHEREAS, the Lessor(s) and the said Lessee desire to amend the said Lease(s) so as to cover and include all of the lands of the Lessor(s) actually intended by the Lessor(s) and the said Lessee to be covered and included under the terms and provisions of the said Lease(s) and further to amend numerical paragraph "14)" so as to increase the vertical effectiveness thereof;

WHEREAS, at "Page 2 of 5" of "Exhibit "A" (attached to and made a part of the said Leases) the following "Property Description" currently appears, to wit:

TOWNSHIP 10 SOUTH - RANGE 3 WEST

That certain or parcel of land containing 80.00 acres, more or less, situated in irregular Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana and being further described as follows: Beginning at the Southwest Corner of said irregular Section 39, thence run North 53 degrees, 8 minutes East along the Northwest section line of irregular Section 39 a distance of 4,428 feet to a point of beginning; thence run North 53 degrees, 8 minutes East along said Northwest section line a distance of 2,640'; thence run southeasterly, perpendicular to said Northwest section line a distance of 1,320 feet; thence run Southwesterly, parallel to said Northwest section line a distance of 2,640 feet; thence run Northwesterly, perpendicular to said Northwest section line, a distance of 1,320 feet to the point of beginning. Said tract being bounded, now or formerly, as follows: Northwest by Ann H. Hebert and Frank Perl, Jr., et al; and Northeast, Southeast, and Southwest by other lands of Lessor not herein leased.

WHEREAS, at "Page 2 of 5" of "Exhibit A" (attached to and made a part of the said Leases) the following numerical paragraph "14)" currently appears, to wit:

"14) The rights granted herein shall be limited to those horizons encountered from surface of the earth down to a depth of 10,000 feet."

* * * * * * * * *

NOW THEREFORE, for in and consideration of the sum of **ONE HUNDRED DOLLARS AND OTHER VALUABLE CONSIDERATION, ($100.00&OVC),** cash in hand paid to the Lessor(s), the receipt and adequacy of which is hereby acknowledged, and for the mutual advantages and benefits possibly to flow between the Lessor and the said Lessee, the said Lease is altered, corrected and amended, as follows to wit:

THAT, the "Property Description" which currently appears at "Page 2 of 5" of "Exhibit "A" (attached to and made a part of the said Leases) and hereinabove quoted in its entirety, is hereby deleted, and in its place and stead is substituted the following "Property Description" to wit:

TOWNSHIP 10 SOUTH - RANGE 3 WEST

That certain tract or parcel of land comprised of **121.212** acres, more or less, lying and being situated in the northern part or portion(s) of irregular **Section 39, Township 10 South, Range 3 West,** Jefferson Davis Parish, Louisiana, and which tract or parcel of land is more particularly described and referred to as follows to wit: Beginning at the most westerly corner of the said irregular **Section 39,** thence run **north 53 degrees, 8 minutes east** along the northwesterly line of the said irregular **Section 39,** a distance of **4,068 feet,** to a **Point of Beginning;** Thence, from the said **Point of Beginning,** continue **north 53 degrees 8 minutes east** along the northwesterly line of the said irregular **Section 39,** a distance of **3,200 feet** (to form the "northern" boundary of the lands hereby leased) and corner; thence, run southeasterly on a line which is perpendicular to the northwesterly line of irregular **Section 39,** a distance of **1,650 feet** (to form the "eastern" boundary of the lands hereby leased) and corner; thence run southwesterly on a line parallel to the said northwesterly Section line of the said irregular **Section 39,** and which is also perpendicular to the eastern boundary of the lands hereby leased, a distance of **3,200 feet** (to form the southern boundary of the lands hereby leased) and corner; thence run northwesterly on a line which is parallel to the eastern line of the lands hereby leased and which is also perpendicular to the northwesterly section line of irregular **Section 39** a distance of **1,650 feet** (to form the western boundary of the lands hereby leased) back to the **Point of Beginning;** The said tract or parcel of land being bounded, now or formerly, as follows to wit: To the **North, (N),** by lands of Ann H. Hebert and/or lands of Frank Perl, Jr. et al; to the **East, (E),** by other lands of Lessor(s) not herein leased; to the **South, (S),** by other lands of Lessor(s) not herein leased; and to the **West, (W),** by other lands of Lessor(s) not herein leased and/or possibly lands of Anne H. Hebert and/or possibly lands of Frank Perl, Jr. et al.

THAT, the numerical paragraph "14)" at "Page 2 of 5" of "Exhibit "A" (attached to and made a part of the said Leases and reproduced in its entirety above, is hereby deleted and in its place and stead is substituted the following numerical paragraph "14)" to wit:

" 14) The rights granted herein shall be limited to those depths, horizons and/or strata encountered from the surface of the earth down to and including a depth of 14,000 feet beneath the herein described and leased lands."

THAT, in view of the foregoing amendment to the "Property Description" of the said Leases, the increase in the amount of acreage now covered thereby and any agreements by and between the Lessor(s) and the said Lessee, the Lessor(s) and the said Lessee desire to amend the "Rental Division Order" appearing at numerical paragraph "21)" of "Page 3 of 5" of "Exhibit "A" (attached to and made a part of the said Leases);

WHEREAS, the Rental Division Order at numerical paragraph "21)" of "Page 3 of 5" of "Exhibit "A" (attached to and made a part of the said Leases) currently appears as follows:

21) Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts to wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
REUBEN RAYMOND BRUCE	$3,000.00	Calcasieu Marine National Bank, Jennings, LA 70546
PATRICK HENRY JOHNSON	$900.00	Jeff Davis Bank & Trust Co., Jennings, LA 70546

BONNA BELLE BRYAN ANDERSON and ROY ANDERSON	$1,019.80	Jeff Davis Bank & Trust Co., Jennings, LA 70546
DOROTHY MAE BRYAN	$509.90	Jeff Davis Bank & Trust Co., Jennings, LA 70546

LOUISIANA BAPTIST CHILDREN'S HOME, MONROE, LOUISIANA	$0.00	N/A
ALFRED C. BOURDIER	$2,230.81	Calcasieu Marine National Bank, Lake Charles, LA 70601
MILTON F. BOURDIER	$318.69	QueStar Bank Houston, TX 77084
LYNN H. BOURDIER	$318.69	Calcasieu Marine National Bank, Lake Charles, LA 70601
BERNADINE B. ZIBLICH	$318.69	Seacor Bank Harvey, LA 70058
ROSE MARIE B. TOUCHET	$318.69	Calcasieu Marine National Bank, Lake Charles, LA 70601
DAVID L. BOURDIER	$318.69	Mail payments directly to Lessor at above address.
BERNICE FOREMAN BOUDREAUX	$1,912.12	Mail payments directly to Lessor at above address.
MARK W. BOUDREAUX	$0.00	N/A
WAYNE F. BOUDREAUX	$0.00	N/A
YVETTE MARIE BOUDREAUX LAFLEUR	$1,912.12	East Texas National Bank, Marshall, TX 75671

Lessor(s) agree that the above division is solely for the purposes of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

* * * * * * * *

THAT, the Lessor(s) and the said Lessee hereby understand and agree that **NOTWITHSTANDING ANYTHING TO THE CONTRARY, ELSEWHERE CONTAINED IN THE SAID LEASES,** particularly but not limited to section "(2)" of numerical paragraph "1." of the said Lease(s), any and all rentals due and payable under the terms and conditions of the said Leases shall be calculated pursuant to the Rental Division Order being numerical paragraph "21)" at "Page 3 of 5" of "Exhibit "A", (attached to and made a part of the said Leases) as amended hereby and the said Lessee is hereby authorized and directed to pay or tender all rentals that may hereafter accrue under the said Leases as herein amended.

THAT, except as to any agreement(s) between the Lessor(s) and the said Lessee hereby and except as amended and altered hereby, the said Leases shall remain unchanged and in full force and effect and the said Lessor(s) hereto, ratify, confirm, acknowledge and adopt the said Leases as amended and they do give, grant, lease and let the lands covered by the said Leases under the terms, provisions and conditions thereof, unto the said Lessee, its successors, assigns and/or transferees.

THIS instrument may be executed in any number of counterparts, each of which shall be binding upon and shall enure to the benefit of the parties hereto, their successors, heirs, assigns, and/or transferees and the said parties, by their respective signatures hereto authorize and direct the said Lessee to attach all signatory pages and notarial acknowledgments to a single "base" instrument, specifically for recordation purposes.

THUS DONE AND SIGNED, on this the 20th day of October, 1994, but effective on and after July 29, 1994.

RELEASE

RECEIVED AND FILED
95 MAR 29 AM 8:00
JEFFERSON DAVIS PARISH

In consideration of the sum of $2,800.00 cash in hand paid by STONE ENERGY CORPORATION, a Delaware corporation, the receipt and sufficiency of which are hereby acknowledged, the undersigned surface lessors and/or fee owners do hereby release and forever discharge the said corporation and its employees, agents, associates, partners, affiliated companies, independent contractors, successors and assigns from any and all debts, claims, demands, damages and causes of action whatsoever which may have arisen or may arise, heretofore or hereafter asserted by the undersigned on account of any and all damages and injury to the undersigned, including but not limited to damage to crops, trees, livestock, fences and/or pasturelands which said damages and injury to the undersigned may have been caused by, or may hereafter result from the activities necessary to dispose of trash and debris, including the incineration of location boards and the digging and filling of additional disposal pits in the vicinity of the Stone Petroleum Corporation - Bruce #1 well location during late February-early March 1995, located in the Mermentau Field, J.B. Farms Prospect, Jeff Davis Parish, Louisiana.

525720

The undersigned intend hereby to grant unto Stone Energy Corporation, its successors and assigns, full and complete release for damages or injury to the lands and crops arising out of or in any way connected with operations described hereinabove.

The undersigned acknowledges that the consideration hereinabove expressed is paid by way of compromise and is not an admission by Stone Energy Corporation of any liability whatsoever.

This Release shall run in favor of any agent or representative of Stone Energy Corporation, shall be construed as a covenant running with the land and shall be binding upon the heirs, executors, administrators, successors and assigns of the undersigned.

SIGNED AND RELEASED this 23rd day of March, 1995.

ASSIGNMENT AND BILL OF SALE

STATE OF LOUISIANA §
§
PARISH OF JEFFERSON DAVIS §

21 AM 9:24

This Assignment and Bill of Sale ("Assignment") is executed and delivered by **1987-I STEA Limited Partnership, 1987-II STEA Limited Partnership, 1987-III STEA Limited Partnership, 1987-IV STEA Limited Partnership, and 1987-VI STEA Limited Partnership**, each a Texas limited partnership; **Black Hawk Oil Company**, a Delaware corporation; and **Nuevo Energy Company**, a Delaware corporation (collectively referred to herein as "Assignor"); to AXIS ENERGY CORPORATION, a TEXAS corporation (referred to herein as "Assignee").

Assignor, for valuable considerations, the receipt and sufficiency of which are hereby acknowledged, by these presents, BARGAINS, SELLS, ASSIGNS, TRANSFERS, SETS OVER and DELIVERS unto Assignee all right, title and interest in and to the following properties, other than the Excluded Assets (the "Properties"):

A. All leasehold interest, working interest, operating rights, overriding royalty interests, or other similar interests in the properties described in Exhibit "A" hereto and any rights that arise by operation of law or otherwise in all properties and lands pooled, unitized, communitized or consolidated with such properties (the "Oil and Gas Properties").

B. All wells located on the Oil and Gas Properties, whether producing, operating, shut-in, temporarily abandoned, abandoned, standing or otherwise (the "Wells").

C. All severed crude oil, natural gas, and other hydrocarbons and other minerals or materials of every kind and description produced from the Oil and Gas Properties and either (a) in storage tanks on the Effective Date or (b) sold on or after the Effective Date (the "Substances").

540303

D. All physical facilities or interests therein that are used or held for use solely in connection with the ownership or operation of the Oil and Gas Properties and Wells.

E. All (a) contracts and agreements that relate to the Properties and; (b) governmental permits and licenses of Assignor (other than bonds), to the extent such permits and licenses are transferable; (c) easements and rights-of-way used or held for use in connection with the Oil and Gas Properties; and (d) amendments, ratifications or extensions of the foregoing (the "Contracts").

As used herein, "Excluded Assets" means (a) all trade credits and all accounts, instruments and general intangibles (as such terms are defined in the Uniform Commercial Code of Texas) attributable to the Properties with respect to any period of time prior to the Effective Date (b) all claims and causes of action of Assignor (x) arising from acts, omissions or events, or damage to or destruction of property, occurring prior to the Effective Date, or (y) with respect to any of the Excluded Assets; (c) all of the interest of Assignor (x) under any policy or agreement of insurance or indemnity, (y) under any bond, or (z) to any insurance or condemnation proceeds or awards arising from acts, omissions or events, or damage to or destruction of property, occurring prior to the Effective Date; (d) all Substances produced and sold from the Oil and Gas Properties prior to the Effective Date and all proceeds from or of such Substances; (e) claims of Assignor for refunds of production, ad valorem or any other taxes attributable to any period

Exhibit D
Castex Development - Title and Lease History - 001746

prior to the Effective Date; (f) all rights that may arise under the Contracts that are attributable to periods prior to the Effective Date; (g) all amounts due or payable to Assignor by vendors or other independent contractors as adjustments or refunds under any Contracts that relate to periods prior to the Effective Date; (h) all amounts due or payable to Assignor as adjustments to insurance premiums related to the Properties with respect to any period prior to the Effective Date; (i) all proceeds, income or revenues (and any security or other deposits made) attributable to (x) the Properties for any period prior to the Effective Date, or (y) any Excluded Asset; (j) all of Assignor's proprietary computer software, patents, trade secrets, and other intellectual property; and (k) all audit rights arising under any of the Contracts with respect to any period of time prior to the Effective Date.

TO HAVE AND TO HOLD all and singular the Properties, together with all rights, titles, interests, estates, remedies, powers and privileges thereunto appertaining unto Assignee and its respective successors, legal representatives and assigns forever, without warranty or representation of any kind, whether statutory, express or implied.

1. **Assumption by Assignee**. As of the Effective Date, Assignee by the payment of the purchase price, assumes (a) all of the costs, obligations and liabilities of Assignor that (i) relate to the Properties and arise from or relate to events occurring after the Effective Date, (ii) arise in connection with any obligation to plug and abandon all Wells, or (iii) arise in connection with or out of balancing of overproduction or underproduction from the Properties; (b) the obligation to comply with any preferential rights to purchase the Properties that have not been obtained prior to the Effective Date and (c) the obligation to obtain any consents that have not been obtained prior to Effective Date. In addition, as of the Effective Date, Assignee assumes all damages, liabilities, obligations, penalties, fines, losses, costs or expenses, whether direct, indirect, pending, threatened, contingent or otherwise (collectively, "Costs") arising from, based on, associated with or related to the presence, handling, management, storage, transportation, processing, treatment, disposal, release, migration or escape of Environmental Contaminants on or relating to the Properties, whether involving any act, omission, event, condition or circumstance commencing, occurring or existing before or after the Effective Date, and **WHETHER BASED ON NEGLIGENCE (INCLUDING THE NEGLIGENCE OF ASSIGNOR OR ANY OFFICER, DIRECTOR, SHAREHOLDER, AGENT, EMPLOYEE OR REPRESENTATIVE THEREOF), STRICT LIABILITY OR OTHERWISE** (collectively, "Environmental Liabilities"). As used herein, the term "Environmental Contaminants" shall mean any pollutant, waste, contaminant, or hazardous or toxic material, substance or waste. To the extent permitted by law, Assignee shall defend, indemnify and hold Assignor and its officers, directors, shareholders, employees, agents or representatives harmless from and against any and all Liability suffered by Assignor (or any officer, director, shareholder, employee, agent or representative) **(EXPRESSLY INCLUDING ANY LIABILITY OR OBLIGATION ARISING AS A RESULT OF THE NEGLIGENCE OF ASSIGNOR (OR ANY OFFICER, DIRECTOR, SHAREHOLDER, EMPLOYEE, AGENT OR REPRESENTATIVE) IN OR RELATING TO THE OWNERSHIP OR OPERATION OF THE PROPERTIES)** as a result of (i) any Environmental Liability; (ii) any liability or obligation arising as a result of the ownership or operation of the Properties on or after the Effective Date; (iii) any liability or obligation that was expressly assumed by Assignee pursuant to this Assignment; or (iv) any fees or commissions arising with respect to brokers or finders retained or engaged by Assignee and resulting from or relating to the transactions contemplated in this Assignment.

2. **Tax Prorations**. Any taxes after the Effective Date shall be the obligation of Assignee. In the event that a party hereto has paid, or in the future pays, such property taxes, the nonpaying party shall promptly make a cash payment to the other party equal to its prorated share of the taxes.

Exhibit D
Castex Development - Title and Lease History - 001747

3. Merger. Assignor and Assignee hereby agree that the various quantum and characters of rights, titles and interest owned by the parties constituting Assignor shall be merged together, each with the others, immediately prior to giving effect to the conveyance in favor of Assignee.

4. Counterparts. This Assignment and Bill of Sale may be executed in any number of counterparts and each such counterpart shall for all purposes be deemed to be an original, and all such counterparts shall together constitute but one and the same Assignment and Bill of Sale.

5. Access to Records by Assignor. After the date hereof, Assignor and its authorized representatives shall have reasonable access (including copying privileges at Assignor's sole cost and expense) during Assignee's normal business hours to all books and records of Assignee pertaining to the Properties for periods *prior to the Effective Date.*

6. Independent Investigation. Assignee acknowledges that in making the decision to enter into this Assignment, Assignee has relied solely on the basis of its own independent investigation of the Properties. ASSIGNOR MAKES NO REPRESENTATION OR WARRANTY, IMPLIED, EXPRESS OR STATUTORY, WITH RESPECT TO THE PROPERTIES AND/OR THE OWNERSHIP OR PHYSICAL CONDITION THEREOF. IN ADDITION ASSIGNEE ACKNOWLEDGES THAT ASSIGNOR HAS NOT MADE, AND ASSIGNOR HEREBY EXPRESSLY DISCLAIMS AND NEGATES, ANY IMPLIED OR EXPRESS WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR CONFORMITY TO MODELS OR SAMPLES OR MATERIALS AND ANY OTHER REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, RELATING TO THE PROPERTIES, EVEN AS TO THE RETURN OF THE PURCHASE PRICE. WITH RESPECT TO ANY OF THE PROPERTIES THAT ARE LOCATED IN LOUISIANA, ASSIGNEE ACKNOWLEDGES THAT THIS WAIVER HAS BEEN EXPRESSLY CALLED TO ITS ATTENTION AND INCLUDES, WITHOUT LIMITATION, A WAIVER OF WARRANTY AGAINST REDHIBITORY VICES ARISING UNDER LOUISIANA CIVIL CODE ARTICLES 2520 THROUGH 2548, INCLUSIVE.

7. DTPA Waiver. Assignee hereby waives the provisions of the Texas Deceptive Trade Practices Act, Chapter 17, Subchapter E, Sections 17.41 through 17.63, inclusive (other than Section 17.555, which is not waived), of the Texas Business and Commerce Code.

8. Subrogation. *This Assignment is made with full substitution and* subrogation of Assignee in and to all covenants and warranties by others heretofore given or made in respect to the Properties or any part thereof.

9. Buyer's Terms and Conditions. The Properties are conveyed subject to the "Buyer's Terms and Conditions of Purchase" contained within that certain Selective Offering Brochure for the Sale on December 11, 1996, Houston, Texas issued by The Oil & Gas Asset Clearinghouse (the "Buyer's Terms"). In the event of a conflict between the Buyer's Terms and this Assignment, this Assignment shall control.

10. GOVERNING LAW. THIS AGREEMENT SHALL BE GOVERNED AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS FOR PURPOSES OF ENFORCING THE ASSUMPTIONS, DISCLAIMERS AND INDEMNITIES WITHOUT GIVING EFFECT TO ANY PRINCIPLES OF CONFLICTS OF LAWS. THE VALIDITY OF THE VARIOUS CONVEYANCES AFFECTING THE TITLE TO REAL PROPERTY SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE JURISDICTION IN WHICH SUCH PROPERTY IS SITUATED.

Exhibit D
Castex Development - Title and Lease History - 001748

11. Liability. Each of the representations, warranties and covenants of each entity comprising Assignor in this Assignment and Bill of Sale is made severally and only by such Assignor with respect to itself and its interest in the Properties. The liability of each entity comprising Assignor under or in connection with this Assignment and Bill of Sale shall be several and not joint.

IN WITNESS WHEREOF, the parties hereto have caused this Assignment to be duly executed on this, the 11 day of DEC., 1996. This Assignment shall be effective at 7:00 a.m. (in the locale where the Properties are located) on January 1, 1997 (the "Effective Date").
