here and accepting and purchasing for himself, his successors, heirs and assigns, acknowledging delivery and possession thereof, the following described property, in the following parishes in the State of Louisiana, to-wit:

ACADIA PARISH
TOWNSHIP 10 SOUTH, RANGE 2 WEST

Section 25: An undivided one-twenty-fourth (1/24th) interest in a certain tract or parcel of land, containing 40 acres, more or less, situated in Irregular Section 25, more fully described and bounded now or formerly as follows, to-wit: Bounded on the Northeast by lands of A. C. Boudreaux Estate; Southwest by lands of Ray Richard, formerly Martin Richard and/or West line of said Section 25; Northwest by lands of F. Gotreaux, and Southeast by lands of Charles T. Duhon Estate, and

An undivided one-twenty-fourth (1/24th) interest in the certain tract of land containing 84 acres, more or less, situated in Section 25, and bounded Northeast by the Latrielle Estate, Inc., Southeast by Rosa Belle Duhon, Southwest by Mrs. Rosa Boudreaux, Gus Godeaux and Frank R. Burris, et als, and Northwest by the Mermentau River, together with all the improvements thereon situated. Said property having been acquired by Adolph C. Boudreaux from Albert Green by deed bearing File No. 34274 and recorded in Conveyance Book S-2, at page 274, records of Acadia Parish, Louisiana

Section 24: An undivided one-twenty-fourth (1/24th) interest in and to a certain tract or parcel of land containing 7.5 acres, more or less, situated in Irregular Section 24, and more fully described as bounded now or formerly as follows, to-wit: Bounded on the Northeast by East line of said

472

Section 24, Southwest by lands of the Texas Company; Southeast by lands of Ray Richard, formerly Martin Richard and Northwest by lands of the Texas Company.

Section 72: An undivided one-twenty-fourth (1/24th) interest in and to that certain tract of land containing 20 acres, more or less, situated in the Southeast Quarter (SE/4) of Section 72, bounded now or formerly as follows: North by Arthur Crawford and the Estate of Thomas V. Crawford; East by Alphee Simon; South by Mrs. Arthur Crawford and the Estate of Thomas V. Crawford.

TOWNSHIP 11 SOUTH, RANGE 2 WEST

Section 1: An undivided one-twenty-fourth (1/24th) interest in and to that certain tract of land containing 18.75 acres, more or less, situated in the North Half of Northwest Quarter of Northwest Quarter (N/2 NW/4 NW/4) in Section 1, bounded now or formerly as follows: North by F. P. Breaux and Arthur Crawford and the Estate of Thomas V. Crawford; East by Clemile Trahan and West by the Estate of J. S. Mauboules.

An undivided one-thirty-sixth (1/36th) interest in and to the following: Lot 6 of Block 11, Lot 9 of Block 34, Lots 4, 5, 6 and 7 of Block 35; and Lot 1 of Block 40, all in the Village of Mermentau, Acadia Parish, Louisiana

TOWNSHIP 11 SOUTH, RANGE 2 WEST

Section 5: An undivided one-twenty-fourth (1/24th) interest in and to that certain tract of land containing 54 acres, more or less, situated and located in the Northwest Quarter (NW/4) of Section 5, bounded North by Oneal Legros Estate, East by Alphee LeBlanc Estate; South by Jules S. Mauboules Estate, and West by Jerry S. Ashley, Joseph Jeanise and Lula H. Jeanise, together with the improvements thereon situated. Said property having been acquired by Adolph C. Boudreaux from the Succession of Aurelien Le Blanc by deed bearing File No. 97203, recorded in Conveyance Book Q-4, page 159, records of Acadia Parish, Louisiana

Section 7: An undivided one-twenty-fourth (1/24th) interest in and to that certain tract of land containing Five (5) acres, more or less, situated in the Northeast Quarter (NE/4) of Section 7 and bounded North by Romain and Oday LeBLanc and August Benoit, and P. C. Smith Estate, and Mrs. Prevost LeBlanc; East by Pierre Trahan; South by Texas Company and West by Romain and Oday LeBlanc and August Benoit and P. C. Smith Estate. Said property having been acquired by Adolph C. Boudreaux from the Succession of Aurelien LeBlanc by deed bearing File No. 97203, recorded in Conveyance Book Q-4, page 159, records of Acadia Parish, Louisiana

TOWNSHIP 10 SOUTH, RANGE 2 WEST

Section 61: An undivided one-seventy-second (1/72nd) interest in and to that certain tract of land containing 20 acres, more or less, situated in Section 61, bounded North, East, South and West by Lovic C. Desormeaux

JEFFERSON DAVIS PARISH
TOWNSHIP 10 SOUTH, RANGE 2 WEST

Section 14: An undivided one-twenty-fourth (1/24th) interest in and to Lots 10 and 11 of Block 6 of Richard Subdivision of Lot 3 of Section 14, together with the improvements thereon situated. Said property having been acquired by Adolph C. Boudreaux from John Campbell by deed bearing File No. 78142, recorded in Conveyance Book No. 48, at page 522, records of Jefferson Davis Parish, Louisiana

JEFFERSON DAVIS PARISH
TOWNSHIP 10 SOUTH, RANGE 2 WEST
TOWNSHIP 10 SOUTH, RANGE 3 WEST

An undivided one-forty-eighth (1/48th) interest in and to the following:

That tract of property in Jefferson Davis Parish, Louisiana, with all improvements thereon, located and situated; together with all of the oil, gas and minerals underlying, or which may be produced or are being produced therefrom, together with that oil, gas and other mineral royalty right equal to 3/32 or .093750 of the whole of all oil, gas and other minerals which may be produced from the whole of said tract which contains 1,125.35 acres, more or less, the whole of said tract of land is described as follows, to-wit:

a) Section 39, Township 10 South, Range 3 West, La. Mer., except that portion lying in triangular form West of the East boundary line of Section 14 if extended through said Section 39; (b) Lot 2 of Fractional Section 13 in Township 10 South, Range 3 West, La. Mer., (c) Section 17 in Township 10 South, Range 2 West, La. Mer., except the 328 acres, more or less, of swamp timber land lying in the Eastern portion thereof, which was sold by Jean Castex and others to A. S. Alston & Co., on February 14, 1922, by deed recorded in Jefferson Davis Parish, and which is shown by a plat of survey made by E. J. Mead, C.E., dated in 1921; including the two tracts of prairie land along the North line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale to A. S. Alston & Co., and (d) Section 18 in Township 10 South, Range two West, La. Mer., lying between the Southeast corner of the aforedescribed Section 39 on the West and the Mermentau River on the East, all as per plat showing the above described property attached to Act No. 81759, by which Albert Sidney Johnson and Adolph C. Boudreaux acquired the said property from Jean Castex, Jr. and which act is recorded in Jefferson Davis Parish, Louisiana, LESS AND EXCEPT AND NOT INCLUDED in the aforedescribed tract is the surface only of those 10 acre parcels of property described as follows and designated as "First" and "Second", to-wit:

First. That ten acre parcel of land situated in Section 18, Township 10 South, Range 2 West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolph C. Boudreaux to Pelican Oil Purchasers, Inc., by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit:

Starting at the Northwest corner of Section 18, Township 10 South, Range 2 West, at a one-and-a-quarter (1 1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River on the line between Township 10 South, Range 2 and 3 West; thence South 51 degrees, 13 minutes

East 276.5 feet; thence South 53 degrees, 00 minutes East 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe, the lower front corner of the Robira Ten (10) acre tract for a point of beginning; thence following the right bank of the Mermentau River South 65 degrees, 30 minutes East 450 feet; thence South 84 degrees, 00 minutes East 250 feet; thence leaving the River and running South 37 degrees, 00 minutes West 693.5 feet; thence North 72 degrees, 06 minutes West 691.5 feet to lower side line of the Robira ten acres tract; thence following the said line North 37 degrees, 00 minutes East 693.5 feet to place of beginning and containing ten acres; as per plat by F. Shutts Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by ten acre tract owned by John J. Robira, his widow, heirs and assigns, on the West by other land of Albert Sidney Johnson and Adolph C. Boudreaux.

Second. That certain parcel of land comprising ten acres, more or less, situated in Section 18, Township 10 South, Range 2 West, and in Section 39, Township 10 South, Range 3 West, which was conveyed by Albert Sidney Johnson and Adolph C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, page 101, of the records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a Point 459 feet South of the corner between Section 18, Township 10 South, Range 3 West, said corner being on the right descending bank of the Mermentau River; thence South 37 degrees West 368 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 53 degrees East 272.4 feet to the line between Section 18, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West, 921 feet South of the corner between the two said Sections; thence South 53 degrees East 327.6 feet to a one-and-a-quarter (1 1/4") inch galvanized iron pipe, thence North 37 degrees East 726 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe on the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 37 degrees West 358 feet to the point of beginning and containing ten acres.

CALCASIEU PARISH
TOWNSHIP 9 SOUTH, RANGE 10 WEST

Section 30: An undivided one-twenty-fourth (1/24th) interest in and to Lot 621 in the Subdivision of the North Half of Southeast Quarter of Southwest Quarter (n/2 SE/4 SW/4) of Section 30, acquired by Adolph C. Boudreaux from Mutual Sulphur Oil Co. by deed bearing File No. 32606, recorded in Conveyance Book 151, page 437, records of Calcasieu Parish, Louisiana, situated in Calcasieu Parish, Louisiana

Vendor to conveys to Vendee all of the surface, mineral and production rights in and to all of the above property, including all present and future interests.

The said Vendor does further declare on oath that the property is his own separate property, having acquired the above property by inheritance from his mother, Beulah Boudreaux Bourdier, as his own separate and paraphernal property. Vendor warrants that his interest in the above described properties is free from any liens, mortgages or other encumbrances except for those he has already made known to Vendee.

The taxes for the current year, and any and all income, including but not limited to dividend income derived from the property will be pro-rated between the Vendor and Vendee in proportion to the portion of the ownership each had during the year of 1997.

The parties hereto declare that they dispense with the production of mortgage and tax certificates otherwise required by law and exonerate me, Notary, from any liability because of non-production of same.

TO HAVE AND TO HOLD, the above described premises, together with all and singular, the rights and appurtenances thereto in anywise belonging, to said Vendee, his heirs and assigns forever.

WITNESSES:

ALL IN JEFFERSON DAVIS PARISH, LOUISIANA:

A. An undivided one-half (½) interest in and to the following described property:

Lot One (1) of Block Two (2) of Cutting's Addition to the City of Jennings, Jefferson Davis Parish, Louisiana, as per plat thereof record, together with all buildings and improvements thereon situated and belonging.

B. An undivided 2.5% interest in and to the following described property, to-wit:

1145.35 acres, more or less, of land in Jefferson Davis Parish, Louisiana, together with all the buildings and improvements thereon, and all the rights, ways, servitudes and other privileges thereunto belonging, being (a) Section thirty-nine in township ten south, of Range three West, La. Meridian, except that portion lying in triangular from west of the east boundary line of Section fourteen if extended through said Section thirty nine; (b) lot two of Fractional Section thirteen in township ten south, of Range three West, La. Meridian; (c) Section seventeen in township ten south, of range two west, La. Meridian, **EXCEPT** the 328 acres, more or less, of swamp timber land lying in the eastern portion thereof, which was sold by Jean Castex and others to A. S. Alston & Co., on Feby. 14, 1922, by deed recorded in Jefferson Davis Parish, and which is shown by a plat of survey meadae by E. J. Mead, C. E., dated in 1921, - it being understood, however, that there is included in this sale two tracts of prairie land along the north line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale to A. Alston & Co., and (d) Section eighteen in township ten south, of Range two west of the Louisiana Meridian, lying between the southeast corner of the aforedescribed Section 39, on the West, and the Mermentau River on the east: All as per the annexed plat showing the property hereby conveyed within red lines, except

the two tracts of prairie land above referred to, which appear within white lines and are marked, respectively, "Prairie 16.5 ac" and "Prairie 5.5 ac", and which said plat is attached to an Act of Sale by and between Jean Castex, Jr. and Albert Sidney Johnson, et al. Recorded in Conveyance Book 52 at page 240, records of Jefferson Davis Parish, Louisiana; **AND LESS AND EXCEPT:**

(1) That ten acre parcel of land situated in Section 18, Township 10 South, Range 2 West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section 18, Township 10 South, Range 2 West, at a 1¼ inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township 10 South, Range 2 and 3 West; thence South 51°13' East 276.5 feet; thence South 53°00' East 600 feet to a 1¼ inch galvanized pipe, the lower front corner of the Robira 10 acre tract for a point of beginning; thence, following the right bank of the Mermentau River South 65°30' East 450 feet; thence South 84°00' East 250 feet; thence leaving the River and running South 37°00' West 693.3 feet; thence North 72°06' West 691.5 feet to lower side line of the Robira 10 acres; thence following said line North 37°00' East 693.5 feet to a place of beginning and containing 10 acres; as per plat by F. Shutts' Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux; and

(2) That certain parcel of land comprising 10 acres, more or less, situated in Section 18, Township 10 South, Range 2 West, and in Section 39, Township 10 South, Range 3 West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, page 101, of the Records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the corner between Section 18, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a 1¼ inch galvanized pipe; thence South 53° East 272.4 feet to the line between Section 18, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West 921 feet South of the corner between the two said sections; thence South 53° East 327.6 feet to a 1¼ inch galvanized iron pipe; thence North

37° East 726 feet to a 1¼ inch galvanized pipe on the right descending bank of the Mermentau River; thence North 53° West up the right descending bank of the Mermentau River 600 feet to a 1¼ inch galvanized pipe; thence South 37° West 358 feet to the point of beginning and containing 10 acres;

C. A 0.02414863 Royalty interest in Bruce #2 (Property number 51072-02) and a 0.2843281 Royalty interest in Bruce #3 (Property number 51073-02) wells, located in Jefferson Davis Parish, Louisiana, and currently produced by Axis Energy Corporation, in the name of Reuben Raymond Bruce and listed under Property Owner Number 65084.

II. All banks, trust companies, insurance companies, and all other persons, partnerships, unincorporated associations, or corporations having on deposit or in their possession or under their control any money, credits, stocks, dividends, bonds or other property belonging to the Estate of REUBEN RAYMOND BRUCE are hereby required to deliver the said property to the heirs of the decedent as provided herein.

JUDGMENT READ, RENDERED AND SIGNED in Chambers, at City of Jennings, Parish of Jefferson Davis, State of Louisiana, on this 19th day of January, 1999.

CASH SALE

BE IT KNOWN, that on the date hereinafter shown, and before the undersigned Notaries Public, in and for the aforesaid Parish, Counties, and States, personally came and appeared:

SANDRA LYNN JOHNSON TRAHAN, single and being divorced from Markham Ray Trahan, Sr., whose Social Security Number is [redacted], and whose mailing address is 109 St. Pascal Road, Lafayette, LA 70508

hereinafter referred to as "Seller," who declared that for the consideration hereinafter mentioned she does, by these presents, sell, transfer, convey, assign, set over, abandon and deliver, with no warranty but with full substitution, and with subrogation to all rights and actions of warranty against previous owners unto:

Michael David Trahan, SS# [redacted], married to and living with and the said Chanda Hollier Trahan, SS# [redacted], whose mailing address is 111 St. Pascal Road, Lafayette, LA 70508 and

Markham Ray Trahan, Jr., SS# [redacted], married to and living with and the said Susan Arabie Trahan, SS# [redacted], and whose mailing address is 1533 Rustic Trail, Allen, TX 75002, and

Christopher John Trahan,, SS# [redacted], married to and living with and the said Lisa Draughan Trahan, the said Christopher John Trahan acquiring this interest, for his separate estate, with his separate and paraphernal funds, which funds are under his separate administration and control, whose mailing address is 907 Kip Lane, Pinehurst, TX 77362

hereinafter referred to as "Purchasers" present, accepting and purchasing for themselves, and their heirs, successors and assigns and acknowledging delivery and possession of the following described property, to-wit:

SEE EXHIBIT "A" ATTACHED

562985

Unto these presents personally came and appeared Lisa Draughan Trahan, who declared that she takes cognizance of the above declaration by her said husband that he is acquiring this interest herein for his separate estate, that she concurs therein and acknowledges that same will not form of the part of community of acquets and gains existing between them.

The property described in EXHIBIT A is being sold "as is" and this sale is made without any warranties, expressed or implied, as to fitness for use or condition of the above described property. Further, Purchasers declare that they have examined the above described property prior to the date of this sale and they specifically waive all rights against Seller, including any and all claims that they may have for redhibitory defects and more particularly waive all of those rights provided for pursuant to Louisiana Civil Code Articles 2520 through 2548, inclusive.

Purchasers understand that under Articles 2520 through 2548 of the Louisiana Civil Code and other provisions of law this sale would ordinarily include a warranty, implied by law, against certain defects in the property sold. Purchasers expressly waive any and all such warranties, with respect to all defects, whether apparent or latent, visible or not. and regardless of whether Purchasers are presently aware of such defects. This waiver of warranty extends to all defects, even if the defect or defects render the property absolutely useless, or so inconvenient and imperfect that Purchasers would not have purchased it had he known of the defect. Purchasers hereby acknowledge that they have read and understand the foregoing waiver of warranty, that the waiver has been pointed out and explained to them, and that questions or doubts they have concerning same have been answered satisfactorily. Seller and Purchasers acknowledge and stipulate that the sale price was negotiated and agreed upon after consideration of the waiver of warranty herein set forth.

To have and to hold the above described property unto Purchasers, said Purchaser's successors or heirs, and/or assigns forever.

All taxes for the past 3 years have been paid. Purchasers assume the payment of all taxes assessed against the property herein sold for the year 1999.

This sale is made and accepted for and in consideration of the sum of NINETEEN THOUSAND DOLLARS ($19,000.00) cash in hand paid, the receipt of which is hereby acknowledged, and for which full acquittance and discharge is hereby granted.

Purchasers dispense with the certificate required by Article 3364 of the Revised Civil Code of this State, and also with the production of tax receipts required by law, and the undersigned Notary is hereby released from all responsibility and liability in connection therewith. Purchasers acknowledge that no title opinion was requested by them nor rendered by the undersigned Notary to them.

Thus done and passed in the Parish of Lafayette, Louisiana, on this 29 day of June, 1999 by appearers Sandra Lynn Johnson Trahan, Michael David Trahan, and Chanda Hollier Trahan who sign in the presence of the undersigned competent witnesses and me, Notary, after due reading of the whole.

EXHIBIT A

All of the undivided right, title and interest of Seller, which consists of an undivided one-half of 1/20 in and to the following described property, located in Jefferson Davis Parish, Louisiana, to-wit:

Section Thirty-nine (39) in Township Ten (10) South, Range Three (3) West, Louisiana Meridian, except that portion lying in triangular form West of the East Boundary line of Section Fourteen (14) if extended through said Section 39; (b) Lot Two (2) of Fractional Section Thirteen (13) in Township Ten (10) South, Range Three (3) West, Louisiana Meridian; (c) Section Seventeen (17) in Township Ten (10) South, Range Two (2) West, Louisiana Meridian, (except the 328 acres more or less of swamp timber land lying in the Eastern portion thereof, which was sold by Jean Castex and others to A. S. Alston & Co., on February 14, 1922, by deed recorded in Jefferson Davis Parish, and which is shown by a Plat of Survey made by E. J. Mead, C. E., dated in 1921); including the two tracts of prairie land along the North line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale of A. S. Alston & Co., and (d) Section Eighteen (18) in Township Ten (10) South of Range Two (2) West, Louisiana Meridian, lying between the Southeast corner of the aforedescribed Section Thirty-nine (39) on the West, and the Mermentau River on the East, all as per plat showing the above described property attached to Act No. 81759, by which Albert Sidney Johnson and Adolphe C. Boudreaux acquired the said property from Jean Castex, Jr., and which Act is recorded in Jefferson Davis Parish, Louisiana; LESS AND EXCEPT AND NOT INCLUDED in the aforedescribed tract are those two ten acre parcels of property described as follows and designated as "First Exception" and Second Exception", to-wit:

First Exception: That ten acre parcel of land situated in Section Eighteen (18) Township Ten (10) South, Range Two (2) West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to wit: Starting at the Northwest corner of Section Eighteen (18), Township ten (10) South, Range Two (2) West, at a one-and-a-quarter (1-1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township Ten (10) South, Range Two (2) and Three (3) West; thence South 51o13' East 276.5 feet; thence South 53o 00' East 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe, the lower front corner of the Robira 10-acre tract for a point of beginning; thence, following the right bank of the Mermantau River South 65o 30' East 450 feet; thence South 84o00' East 250 feet; thence, leaving the River and running South 37o00' West 693.5 feet; thence, North 72o06' West 691.5 feet to lower side line of the Robira 10-acres; thence, following said line North 37o00' East 693.5 feet to place of beginning and containing ten acres; as per plat by F. Shutts' Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux.

Second Exception: That certain parcel of land comprising ten (10) acres, more or less, situated in Section Eighteen (18), Township Ten (10) South, Range Two(2) West, and in Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Schutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the Records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit:

Beginning at a point 459 feet South of the corner between Section Eighteen (18) Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West, said corner being on the right descending bank of the Mermentau River; thence, South 37o West 368 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence South 53o, East 272.4 feet to the line between Section Eighteen (18), Township Ten (10) South, Range Two (2) West, and Section Thirty-nine (39), Township Ten (10) South, Range Three (3) West 921 feet South of the corner between the two said Sections; thence, South 53o, East 327.6 feet to a one-and-a-quarter (1-1/4") inch galvanized iron pipe, thence North 37o East 726 feet to a one-and-a-quarter (1-1/4") galvanized iron

pipe on the right descending bank of the Mermantau River; thence North 53o, West up the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1-1/4") inch galvanized pipe; thence South 37o West 358 feet to the point of beginning and containing ten (10) acres, for a total of 1,125.35 acres

Any and all interest and/or capital account that Sandra Lynn Johnson Trahan has in that partnership operating the Johnson Boudreaux Farm.

This is the same property acquired in the Judgment of Possession in the Succession of Albert Sidney Johnson, Jr., Succession No. P-141-72, 31st Judicial District Court, Parish of Jefferson Davis, State of Louisiana and recorded in the records of the Clerk of Court in and for the Parish of Jefferson Davis under File No. _____.

JEFFERSON DAVIS PARISH

WHEREAS, a certain Memorandum of Oil and Gas Mineral Lease, dated the January 5th, 1998, given by ALFRED C. BOURDIER, et al, Lessors to FATHEREE EXPLORATION, INC., Lessee and covering the following described lands, to-wit:

TOWNSHIP 10 SOUTH, RANGE 2 WEST

TRACT 1. A certain tract or parcel of land containing 5.5 acres, more or less, situated in the northeastern portion of Section 17, Township 10 South, Range 2 West, Jefferson Davis Parish, Louisiana and being bounded now or formerly as follows: North by Fred B. and Ruth B. Zigler Foundation, East, South and West by Texaco, Inc.

TRACT 2. A certain tract or parcel of land containing 4.5 acres, more or less, being the easternmost 4.5 acres of a 16.5 acre tract owned by Lessors not herein leased, situated in the northeastern of Section 17, Township 10 South, Range 2 West, Jefferson Davis Parish, Louisiana and being bounded now or formerly as follows: North by Fred B. and Ruth B. Zigler Foundation and U S Liquids of Louisiana L. P., East, South and West by Texaco, Inc.

569687

All in the State of Louisiana and recorded at Jefferson Davis Parish, Louisiana with the Clerk of Courts in Book 857, Page 656 Instrument Number 550449 of the records of that office, reference to which is hereby made; and

857/656

WHEREAS, FATHEREE EXPLORATION, INC. has the right to surrender said lease on this date of Release of Oil, Gas and Mineral Lease herein dated and effective January 6th, 1999.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS, That FATHEREE EXPLORATION, INC. for and in consideration of the premises and the exercise of its said right under said lease, does hereby give notice to the said lessors that it has and does hereby release all its rights under said lease, and that it does removed its property from said premises, and does hereby surrender possession of same unto said lessors, its heirs, assigns and legal representatives: the purpose being to RELEASE unto the said lessors all further rights under said lease and surrender said premises and all rights therein to Alfred C. Bourdier, et al heirs, assigns and legal representatives.

IN WITNESS WHEREOF, this instrument is executed as of 3rd day of April 2000.

That, **OCCIDENTAL ENERGY COMPANY, INC.,** whose mailing address is P. O. Box 820467, Houston, Texas 77282; **AXIS ENERGY CORPORATION,** with a mailing address of P. O. Box 219303, Houston, Texas 77218-9303 and **Wendell C. Hodde,** with a mailing address of 11219 Crooked Pine Drive, Cypress, Texas 77429, hereinafter collectively referred to as "Assignor", for and consideration of Ten Dollars ($10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged and such additional consideration as recited below, and upon and subject to the exceptions, reservations, conditions and other provisions hereinafter set forth, does hereby GRANT, BARGAIN, SELL, TRANSFER, CONVEY, ASSIGN AND DELIVER, effective as of **August 1, 2000,** the " Effective Date", to Enco Resources, Inc. 2915 Rocky Woods Dr. Kingwood, TX 77339, hereinafter referred to as "Assignee", all of Assignor's right, title and interest in and to oil, gas and mineral leases described on Exhibit "A", attached hereto and made a part hereof, hereinafter referred to as "Assigned Premises".

Assignor, for the same consideration, does hereby further grant, bargain, sell, transfer, convey, assign and deliver, without warranty or representation of any kind or character, express or implied, all of Assignor's right, title and interest in and to the wells, including salt water disposal, herein referred to as "Wells", and all surface and downhole movable and immovable property, buildings, structures, machinery, equipment and materials located in, on and appurtenant to such wells, buildings or structures located upon the Assigned Premises. All wells, structures, buildings, machinery, material and equipment referred to in this paragraph are hereinafter referred to as "Wells and Appurtenances".

All of Assignor's right, title and interest in and to the Assigned Premises and in and to the Wells and Appurtenances are hereinafter together referred to as the "Assigned Premises".

It is agreed between the parties that this Assignment and Bill of Sale is subject to and conditioned upon the compliance with the following terms:

1. THIS ASSIGNMENT AND BILL OF SALE IS EXECUTED WITHOUT WARRANTY OF TITLE, EITHER EXPRESS OR IMPLIED, WITHOUT ANY EXPRESS OR IMPLIED WARRANT OR REPRESENTATION AS TO THE MERCHANTABILITY OF ANY OF THE WELLS AND APPURTENANCES OR ITS FITNESS FOR ANY PURPOSE, AND WITHOUT ANY OTHER EXPRESS OR IMPLIED WARRANTY OR REPRESENTATION WHATSOEVER. IT IS UNDERSTOOD AND AGREED THAT ASSIGNEE HAS INSPECTED THE ASSIGNED INTERESTS AND IS SATISFIED AS TO ITS PHYSICAL AND ENVIRONMENTAL CONDITION, BOTH SURFACE AND SUBSURFACE, AND THAT ASSIGNEE ACCEPTS ALL OF THE SAME IN "AS IS, WHERE IS" CONDITION. IN ADDITION, ASSIGNOR MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, AS TO THE COMPLETENESS OF ANY DATA, INFORMATION OR MATERIALS HERETOFORE OR HEREINAFTER FURNISHED ASSIGNEE IN CONNECTION WITH THE INTERESTS, OR AS TO THE QUALITY OR QUANTITY OF HYDROCARBON RESERVES (IF ANY) ATTRIBUTABLE TO THE INTERESTS OR THE ABILITY OF THE INTERESTS TO PRODUCE HYDROCARBONS. ANY AND ALL SUCH DATA, INFORMATION AND OTHER MATERIALS FURNISHED BY ASSIGNOR IS PROVIDED ASSIGNEE AS A CONVENIENCE AND ANY AND ALL RELIANCE ON OR USE OF THE SAME SHALL BE AT ASSIGNEE'S SOLE RISK.

2. Assignee shall, at the effective date assume and be responsible for and comply with all duties and obligations of Assignor, express or implied, with respect to the Assigned Interests, including without limitation, those arising under or by virtue of any lease, contract, agreement, document, permit, applicable statute or rule, regulation or order of any governmental authority (specifically including, without limitation, any governmental or lessor request or requirement to plug, re-plug and/or abandon any well of whatsoever type, status or classification or take any clean-up or other action, with respect to the Assigned Interests, including the removal of all structures, wells and foundations. Assignee shall also defend, indemnify and hold Assignor harmless from any and all claims in connection therewith, except any claims asserted against Assignor prior to the effective date which have been expressly assumed by Assignor in writing.

3. The interest in the Assigned Premises covered hereby is conveyed by Assignor and accepted by Assignee subject to all royalties, overriding royalties, production payments, net profit interests, carried working interest and other payments out of or with respect to production which are of record and to which the Assigned Premises are encumbered, Assignee hereby assumes and agrees to pay, perform or carry as the case may be, each of the royalties, overriding royalties, production payments, net profit interests, carried working interest and other payments out of or with respect to the production, to the extent that any remain a burden on the Assigned Premises herein assigned.

4. Assignee will be liable for and agrees to pay all transactional taxes including but not limited to sales, property, use, lease or similar taxes, ad valorem taxes or recording fees due as a result of this Assignment and Bill of Sale. This Assignment and Bill of Sale is made subject to all and any State and/or Federal Agency approvals as well as any approvals which may be necessary from lessors of the leases with respect to the Assigned Premises. This Assignment and Bill of Sale is made subject to all applicable Joint Operating Agreements and all other applicable agreements.

5. This Assignment and Bill of Sale is effective for all purposes August 1, 2000 at 7:00 A. M. Central Daylight Time. All oil and gas production attributable to the times prior to the effective date, including any oil above the pipeline connection in the tanks located on the Assigned Premises, belong to the Assignor and the expenses related thereto, prior to the effective date shall be born by Assignor. All production and expenses incurred after the effective date will be born by the Assignee.

6. This Assignment and Bill of Sale shall be binding upon and inure to the benefit of the parties hereto, their respective heirs, successors and assigns.

162

ASSIGNMENT OF OIL AND GAS INTEREST

KNOW ALL MEN BY THESE PRESENTS:

THAT, SAMSON HYDROCARBONS COMPANY, a Delaware corporation, whose address is Samson Plaza, Two West Second Street, Tulsa, Oklahoma 74103, herein called "Assignor," in consideration of Ten Dollars ($10.00) and other good and valuable consideration to it in hand paid, the receipt and sufficiency of which are hereby acknowledged, does hereby grant, convey, sell, assign, and transfer unto

SAMSON RESOURCES COMPANY, an Oklahoma corporation, whose address is Samson Plaza, Two West Second Street, Tulsa, Oklahoma 74103, herein called "Assignee,"

all of Assignor's right, title and interest in and to the following:

(a) The lands, oil and gas leases and properties (whether one or more) described on Exhibit "A" attached hereto and made a part hereof (the "Properties"), insofar as the Properties cover the lands described in Exhibit "A" hereof and all of which lands are located in the state and county above named, including working interest and interest in the production of oil, gas or other minerals, inclusive of overriding royalties, production payments, rights to take royalties in kind or other interests;

(b) Identical interest of Assignor in, to and under or by virtue of the presently existing and valid unitization, communitization and pooling agreements in the properties covered and the units and pooled or communitized areas created thereby (including all units formed under orders, regulations, rules or other official acts of any federal, state or other governmental agency having jurisdiction) which relate to any of the properties, lands or interests described in Exhibit "A";

575873

(c) Identical interest of Assignor in and to all improvements, easements, surface leases, permits, licenses, servitudes, rights-of-way and other interests pertaining to the Properties in connection with the exploration, development or operation of the Properties (all such improvements, easements, surface leases, permits, licenses, servitudes, rights-of-way and other interests, subject to the Existing Burdens (hereinafter defined) are referred to in this Assignment as the "Easements");

(d) Identical interest of Assignor in and to all personal property, fixtures and improvements situated upon or used or held for use (except automotive equipment or motor vehicles) in connection with the production, treatment, storage or transportation of oil, gas, distillate, condensate, casinghead gas or other liquid or vaporous hydrocarbons or other minerals from the Properties, and all wells, tanks, boilers, buildings, plants, fixtures, machinery and other equipment, pipelines, power lines, telephone and telegraph lines, roads and other appurtenances pertaining to the Properties (all such personal property and fixtures are referred to in this Assignment as the "Assigned Appurtenances"); and

(e) Identical interest of Assignor in and to all rights, duties and obligations attributable to or arising from any valid oil, casinghead gas and gas sales, purchase, exchange and processing contracts and agreements, insofar and only insofar as the same are appurtenant or relate to the Properties or the production therefrom or attributable thereto (all of such rights, duties and obligations are referred to in this Assignment as the "Contract Rights").

The Assignment herein made is subject to:

(1) A proportionate part of the terms, provisions, covenants and royalties set forth in the lease, leases or agreements described in Exhibit "A" hereto;

(2) The terms and conditions of all existing orders, rules and regulations, and ordinances of federal, state and other governmental agencies having jurisdiction;

(3) Any valid and subsisting oil, casinghead gas and gas sales, purchase, exchange and processing contracts and agreements, insofar and only insofar as the same are appurtenant or relate to the Properties;

(4) A proportionate part of all overriding royalty interests, restrictions, exceptions, reservations, burdens, encumbrances, conditions, limitations, interests, instruments, agreements and other matters, if any, which are of record in the state and county above named and which burden or affect the properties, rights or interests herein assigned; and

(5) The terms and conditions contained in any joint operating agreement, and any other farmout agreements, farmin agreements, letter agreements, contracts or other agreements which relate to any of the properties, lands or interests described in Exhibit "A".

All of such orders, rules, regulations, or ordinances, instruments, burdens, encumbrances, reservations and terms and conditions listed in clauses (1) through (5) of this Assignment, to the extent the same are valid and enforceable and apply to the lands and interests described above, are referred to in this Assignment as "Existing Burdens"; and the properties specified in clauses (a) and (b) of this Assignment, subject to the Existing Burdens, are referred to in this Assignment as the "Subject Interests."

TO HAVE AND TO HOLD all and singular the Subject Interests, the Easements, the Assigned Appurtenances and the Contract Rights unto Assignee, Assignee's successors and assigns, forever. This Assignment is made with full substitution and subrogation of Assignee, Assignee's successors and assigns, in and to all warranties and covenants heretofore given by others with respect to the Subject Interests, the Easements, the Assigned Appurtenances, the Contract Rights or any part thereof, but is otherwise made without warranties or covenants of title, express or implied. This Assignment, with respect to the Assigned Appurtenances, is made without warranty, including all implied warranties, and the IMPLIED WARRANTY OF MERCHANTABILITY AND THE IMPLIED WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY EXPRESSLY NEGATED.

The term "Properties" as used in this Assignment and in Exhibit "A" hereto includes oil, gas and mineral leases, oil and gas leases, oil, gas and sulphur leases, other minerals leases, co-lessor's agreements, lease ratifications and extensions and subleases, as appropriate.

All of the terms, provisions, covenants and agreements herein contained shall extend to and be binding upon the parties hereto and their respective successors in title and assigns.

IN WITNESS WHEREOF, the said SAMSON HYDROCARBONS COMPANY, as Assignor, has executed this instrument on the date of the acknowledgment annexed hereto, but to be effective for all purposes from and after the 30th day of June, 1996.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of January 5 2001,

by and between NELIA KAREN B. GOLDMAN, wife of James O. Goldman, whose mailing address is

2410 Pinehurst, Monroe, Louisiana 71201

herein called "Lessor" (whether one or more) and RICELAND PETROLEUM COMPANY, whose mailing address is

P. O. Box 51368, Lafayette, Louisiana 70505

hereinafter called "Lessee", witnesseth, that:

Considerations

Lessor, in consideration of the sum of One Hundred Dollars and Other Valuable ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follow, to-wit:

TOWNSHIP 10 SOUTH, RANGE 3 WEST

That certain tract or parcel of land containing 25.00 acres, more or less, being situated in the western portion of Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana, and being further described as all of Lessors lands in said section 39 which are situated within the confines of the South Jennings Field Wide 7,750' SU as established under Louisiana Office of Conservation Order No. 26-F, dated May 5, 1964, and the South Jennings Field Wide 8,600' SU as established under the Louisiana Office of Conservation Order No. 26-A-10, dated February 21, 1966.

578935

This lease covers and includes Lessor's interest in and to all roads, canals, servitudes, and/or rights of way traversing or adjacent to the herein above described leased premises.

Wherever the designation One-Eighth (1/8) appears in paragraph Seven (7) herein, the designation One-Fourth (1/4) shall be substituted therefor.

RECEIVED AND FILED
2001 APR 18 PM 3:12
CARL E. DUHON
CLERK OF COURT
JEFFERSON DAVIS PARISH

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 25.00 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 5 2002, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred and No/100 Dollars ($200.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods, Two Hundred and No/100 Dollars ($ 200.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the See Exhibit "A" Attached to and made xxxxx a part hereof Bank of which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

EXHIBIT "A"

Attached to and made a part of that certain Oil, Gas and Mineral Lease dated January 5, 2001, by and between Nelia Karen B. Goldman, (Lessor) and Riceland Petroleum Company, (Lessee).

ADDITIONAL PROVISIONS:

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. The lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein provided that if it be by rental payments, rentals shall be reduced in proportion to the number of acres covered hereby and included in such unit or units. If at or after the end of the primary term, this lease is being maintained as to a part of the lands by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations or production, lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything herein contained to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of a shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under this paragraph as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of this paragraph shall be applicable.

15. Lessee shall provide, and maintain throughout the life of this lease and through clean-up, liability insurance. Said policy or policies shall insure against any and all liability including environmental liability clean-up.

16. Notwithstanding anything to the contrary herein contained, it is understood and agreed that Lessee or his assigns shall not use the surface of any land herein leased without the written consent of the owner of such land, but the Lessee or his assigns shall have the right to conduct operations by directional drilling beneath the surface of said land and to pool and unitize and otherwise enjoy all other privileges granted by this lease.

17. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts to wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
Nelia Karen B. Goldman	$416.67	Mail direct to Lessor: 2410 Pinehurst Monroe, Louisiana 71201

Lessors agree that the above division is solely for the purposes of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

OIL, GAS AND MINERAL LEASE

825

THIS AGREEMENT, entered into effective as of January 5 2001,

by and between RAYNELL B. CALVIN, wife of Ron Calvin, whose address is 601 Cypress Station, Apt. 302, Houston, Texas 77090

herein called "Lessor" (whether one or more) and RICELAND PETROLEUM COMPANY, whose mailing address is Post Office Box 51368 Lafayette, Louisiana 70505
hereinafter called "Lessee", witnesseth, that:

Considerations

Lessor, in consideration of the sum of One Hundred Dollars and Other Valuable ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land or acreage pooled therewith), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follow, to-wit:

TOWNSHIP 10 SOUTH, RANGE 3 WEST

That certain tract or parcel of land containing 25.00 acres, more or less, being situated in the western portion of Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana, and being further described as all of Lessors lands in said section 39 which are situated within the confines of the South Jennings Field Wide 7,750' SU as established under Louisiana Office of Conservation Order No. 26-F, dated May 5, 1964, and the South Jennings Field Wide 8,600' SU as established under the Louisiana Office of Conservation Order No. 26-A-10, dated February 21, 1966.

This lease covers and includes Lessor's interest in and to all roads, canals, servitudes, and/or rights of way traversing or adjacent to the herein above described leased premises.

Wherever the designation One-Eighth (1/8) appears in paragraph Seven (7) herein, the designation One-Fourth (1/4) shall be substituted therefor.

578936
RECEIVED AND FILED
2001 APR 18 PM 3:12
CARL DUHON
CLERK OF COURT
JEFFERSON DAVIS PARISH

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise 25.00 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 5, 2002 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of Two Hundred & No/100 Dollars ($ 200.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods, Two Hundred Dollars and No/100 Dollars ($ 200.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the See Exhibit "A" Attched to and made ~~Bank of~~ a part hereof which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary terms such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons one-eighth (1/8th) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) one-eighth (1/8th) of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) one-eighth (1/8th) of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) one-eighth (1/8th) of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

FORM 42 CPM—NEW SOUTH
LOUISIANA REVISED FOUR (4)—POOLING
REVISED "A"

EXHIBIT "A"

Attached to and made a part of that certain Oil, Gas and Mineral Lease dated January 5, 2001, by and between Raynell B. Calvin, (Lessor) and Riceland Petroleum Company, (Lessee).

ADDITIONAL PROVISIONS:

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. The lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein provided that if it be by rental payments, rentals shall be reduced in proportion to the number of acres covered hereby and included in such unit or units. If at or after the end of the primary term, this lease is being maintained as to a part of the lands by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations or production, lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything herein contained to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of a shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under this paragraph as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of this paragraph shall be applicable.

15. Lessee shall provide, and maintain throughout the life of this lease and through clean-up, liability insurance. Said policy or policies shall insure against any and all liability including environmental liability clean-up.

16. Notwithstanding anything to the contrary herein contained, it is understood and agreed that Lessee or his assigns shall not use the surface of any land herein leased without the written consent of the owner of such land, but the Lessee or his assigns shall have the right to conduct operations by directional drilling beneath the surface of said land and to pool and unitize and otherwise enjoy all other privileges granted by this lease.

17. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts to wit:

LESSOR	SHARE OF RENTAL	DEPOSITORY
Raynell B. Calvin	$416.67	Mail direct to Lessor: 601 Cypress Station #302 Houston, Texas 77090

Lessors agree that the above division is solely for the purposes of payment of rentals and does not purport to establish the ownership of minerals or the division of royalty on production from the property covered by this lease. Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his or her interest.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of January 5, 2001

by and between For Lessor's see Exhibit "A" attached hereto and made a part hereof

herein called "Lessor" (whether one or more) and RICELAND PETROLEUM COMPANY, whose mailing address is Post Office Box 51368 Lafayette, Louisiana 70505

hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of One Hundred Dollars and Other Valuable Considerations ($ 100.00&OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession, storage and transportation of said minerals (either from said land or acreage pooled therewith), and the right to dispose of salt water, with the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads, pipelines and/or canals thereon for operations hereunder or in connection with similar operations on adjoining land, and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

TOWNSHIP 10 SOUTH, RANGE 3 WEST

That certain tract or parcel of land containing 25.00 acres, more or less, being situated in the western portion of Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana, and being further described as all of Lessors lands in said section 39 which are situated within the confines of the South Jennings Field Wide 7,750' SU as established under Louisiana Office of Conservation Order No. 26-F, dated May 5, 1964, and the South Jennings Field Wide 8,600' SU as established under the Louisiana Office of Conservation Order No. 26-A-10, dated February 21, 1966.

This lease covers and includes Lessor's interest in and to all roads, canals, servitudes, and/or rights of way traversing or adjacent to the herein above described leased premises.

Wherever the designation One-Eighth (1/8) appears in paragraph Seven (7) herein, the designation One-Fourth (1/4) shall be substituted therefor.

RECEIVED AND FILED
2001 APR 18 PM 3:30
CARL ODELL DUHON
CLERK OF COURT
JEFFERSON DAVIS PARISH

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the rental payments hereinafter provided for, the above described land is estimated to comprise 25.00 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith (or with any part thereof), all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on January 5, 2002 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith (or with any part thereof), in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment, or (2) pays to the Lessor a rental of Two Hundred and 00/100---------- Dollars ($ 200.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's rights in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods Two Hundred and 00/100---------- Dollars ($ 200.00) per acre for all or that part of the land held hereunder. Payments may be made to the Lessor or may be mailed or delivered for deposit to Lessor's credit in the For Rental Division Order see Bank of Exhibit "A" attached hereto which Bank or its successor shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's rights in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories. Wherever used in this lease, "operations for drilling", "drilling operations" and "operations" shall be deemed to have been commenced when work is commenced or materials placed on the ground at or near the well site preparatory to the drilling of a well.

2. Lessee, at its option, is hereby given the right and power without any further approval from Lessor, at any time and from time to time, to pool or combine the land or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly explore or develop or operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to prevent waste or to avoid the drilling of unnecessary wells or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental officer, tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals. Such pooling shall be of adjacent tracts which will form a reasonably compact (but not necessarily contiguous) body of land for each unit, and the unit or units so created shall not exceed substantially forty (40) acres each for each well for oil exploration or production and substantially one hundred sixty (160) acres each for each well for gas and gas-condensate exploration or production unless a larger spacing pattern or larger drilling or production units (including a field or pool unit) shall have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units shall be the same as fixed by said order. Lessee shall execute and file for record in the Conveyance Records of the Parish in which the land herein leased is situated a declaration describing the pooled acreage; and upon such filing, the unit or units shall thereby become effective, except that when a unit is created by order of a Regulatory Body the pooling shall be effective as of the effective date of such order, and no declaration shall be required in connection therewith. The royalties herein elsewhere specified, and subject to the provisions of Paragraph 10 hereof, shall be computed only on the proportionate part of the production from any pooled unit that is allocated to the land herein described; and unless otherwise allocated by order of a Regulatory Body, the amount of production to be so allocated from each pooled unit shall be that proportion of such total production that the surface area of the land affected hereby and included in the unit bears to the total surface area of all the lands included in such pooled unit. Drilling or reworking operations on or production of oil, gas or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) and as to all strata underlying said land, whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during or after the drilling of the well which is then or thereafter becomes the unit well. Separate units may be created for oil and for gas, or for separate stratum or strata of oil or gas, even though the areas thereof overlap, and the creation of a unit as to one mineral or strata or stratum shall not exhaust the right of Lessee (even as to the same well) to create different or additional units for other minerals or for other strata or stratum of the same or other minerals. The failure of the leasehold title (in whole or in part) to any tract or interest therein included in a pooled unit shall not affect the validity of said unit as to the tracts or interests not subject to such failure, but the unit may thereafter be revised as hereinafter provided. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any interest or lease to which title has failed or upon which there is or may be an adverse claim. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall describe the lands included in the unit as revised and shall be filed for record in the Conveyance Records of the Parish where the lands herein leased are situated. The revised declaration shall not be retroactive but shall be effective as of the date that it is filed for record. Any unit created by Lessee hereunder shall also be revised so as to conform with an order of a Regulatory Body issued after said unit was originally established; such revision shall be effective as of the effective date of such order without further declaration by Lessee, but such revision shall be limited to the stratum or strata covered by said order and shall not otherwise affect the unit originally created.

3. Lessee, may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or file for record a release or releases of any portion or portions of the lands or any stratum or strata and be relieved of all requirements hereof as to the land, stratum or strata so released; and, in the event of a release of all strata under a portion of the land during the primary term, the rental shall be reduced proportionately, according to acreage. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by or in accordance with the spacing or unit or proration allowable order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit and if no spacing or proration allowable order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well then producing or being drilled or worked on, and one hundred sixty (160) acres around each gas or gas condensate well then producing, or being drilled or worked on or shut in under Paragraph 6 hereof, each of such tracts to be in as near a square form as is practicable. Lessee shall have such rights of way or servitudes affecting the acreage released or forfeited as are necessary for Lessee's operations on the land retained hereunder.

4. Prior to the time that oil, gas or some other mineral is being produced from the leased land or land pooled therewith (or with any part thereof), Lessee may maintain the rights granted during and after the primary term by carrying on operations on said lands or land pooled therewith (or with any part thereof) without the lapse of more than ninety (90) days between abandonment of work on one well and the commencement of operations for drilling or reworking another; and during the primary term such operations may be discontinued and the rights granted maintained by commencing or resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date or the expiration of the primary term bears to the twelve months' period; but, if said ninety (90) days should expire prior to the initial rental paying date or during any year for which rental or other payment has been made, no rental shall be due until the next fixed rental paying date, or, as the case may be, for the balance of the last year of the primary term.

5. If, prior to or after the discovery of oil or gas on the lands held hereunder, a well producing oil or gas in paying quantities for 30 consecutive days should be brought in on adjacent lands not owned by Lessor and not included in a pooled unit containing all or a portion of the lands herein described, Lessee shall drill such offset well to protect the land held hereunder from drainage as and within the time that a reasonable and prudent operator would drill under the same or similar circumstances; it being provided, however, that Lessee shall not be required to drill any such offset well unless the well on adjacent land is within 330 feet of any line of the lands held hereunder, nor shall such offset well be necessary when said lands are being reasonably protected by a well on the leased premises or land pooled therewith (or with any part thereof).

6. After the production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith (or with any part thereof), the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas, or some other mineral is being produced in paying quantities. It is provided, however, that if, after the production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause, and Lessee is not then engaged in drilling or reworking operations, this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) commences or resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. In the event that any well on the land or on property pooled therewith (or with any part thereof), is capable of producing gas or gaseous substances in paying quantities but such minerals are not being produced, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the abandonment of wells drilled. Should such conditions occur or exist at the end of or after the primary term, or within ninety (90) days prior to the expiration thereof, Lessee's rights may be extended beyond and after the primary term by the commencement, resumption or continuance of such payments at the rate and in the manner herein provided for rental payments during the primary term, and for the purpose of computing and making such payments the expiration date of the primary term and each anniversary date thereof shall be considered as a fixed rental paying date; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than five consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil (which includes condensate and other liquid hydrocarbons when separated by lease separator units), one-eighth (1/8) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith or with any part thereof), or in treating such liquids to make them marketable; (b) On gas produced from or attributable to said land and sold, including the gas remaining after the extraction of hydrocarbon products therefrom, one-eighth (1/8) of the market value at the mouth of the well of the gas so sold, including casinghead gas or other gaseous substances. The price to be used in computing the market value at the mouth of the well shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lesser price shall be used in such computation; (c) With respect to gas used other than for operations hereunder, including casinghead gas or other gaseous substances, royalty shall be one-eighth (1/8) of the market value at the mouth of the well as computed in subparagraph (b) above; provided if Lessee is not selling gas under an arms' length contract as provided in subparagraph (b) above, the market value of gas used other than for operations hereunder, including casinghead gas or other gaseous substances, shall be its fair value at the mouth of the well at the time of production but not less than the average of the prices paid under comparable circumstances for gas of like kind and quality from the field from which such gas is being produced, or if no gas is being sold from that field, the average of prices paid under comparable circumstances for gas of like kind and quality in the three nearest fields where sold; (d) On hydrocarbon products extracted and saved by Lessee from gas, casinghead gas or other gaseous substances produced from or attributable to said land by processing such gas through any plant or plants, whether owned or operated by Lessee or any affiliate of Lessee or by a party other than Lessee, one-eighth (1/8) of the net proceeds received by Lessee for such products, said net proceeds being the net amount received by the Lessee after deducting the costs of processing such gas through said plant or plants; (e) Lessee shall have free use of all oil, gas or any component thereof used in lease or unit operations as well as gas, including the components thereof, injected into subsurface strata as hereinafter defined; (f) One Dollar ($1.00) for each ton of 2,240 pounds of sulphur, payable when marketed; and (g) One-eighth (1/8) of the market value at the well or mine of all other minerals produced and saved or mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's such oil at the best market price obtainable and pay Lessor the price received f.o.b. the leased property, less any severance or production tax imposed thereon. Lessee shall have the right to inject gas, water, brine or other fluids into subsurface strata, and no royalties shall be due or computed on any gas or component thereof produced by Lessee and injected into subsurface stratum or strata through a well or wells located either on the land or a pooled unit containing all or a part of the land.

Exhibit D
Eastex Development - Title and Lease History - 001850

842 The Lessee shall be responsible for all damages to timber and growing crops of Lessor caused by Lessee's operations.

9. All provisions hereof shall inure to the benefit of and bind the successors and assigns (in whole or in part) of Lessor and Lessee, (whether by sale, inheritance, assignment, sub-lease or otherwise), but regardless of any actual or constructive notice thereof, no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor or any other owner of rights hereunder, whether resulting from sale or other transfer, inheritance, interdiction, emancipation, attainment of majority or otherwise, shall impose any additional burden on Lessee, or be binding on Lessee for making any payments hereunder unless, at least forty-five (45) days before any such payment is due, the record owner of this lease shall have been furnished with certified copy of recorded instrument or judgment evidencing such sale, transfer or inheritance, or with evidence of such change in status or capacity of Lessor or other party owning rights hereunder. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. A sublessee may, as to the Lessor, exercise the rights and discharge the obligations of the Lessee, without joinder of any sublessor. In the event of an assignment of the lease as to a segregated portion of the land, delay rentals shall be apportioned among the several leasehold owners according to the surface area of each, and default in payment by one shall not affect the rights of others. Any owner of rights under this lease may pay the entire rental payable hereunder and such payment shall be for the benefit of those holding leasehold rights hereunder. If at any time two or more persons are entitled to participate in the rental payable hereunder, Lessee may pay or tender said rental jointly to such persons or to their joint credit in the depository named herein; or, at Lessee's election, the proportionate part of said rental to which each participant is entitled may be paid or tendered to him separately or to his separate credit in said depository and payment or tender to any participant of his portion of the rentals hereunder shall maintain this lease as to such participant.

10. Lessor hereby warrants and agrees to defend the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event the Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee shall have sixty (60) days after receipt of such notice in which to commence any operations that are then legally necessary to comply with the requirements hereof. The service of said notice and the lapse of sixty (60) days without Lessee meeting or commencing to meet the alleged breaches shall be a condition precedent to any action by Lessor for any cause hereunder. It is provided, however, that after production of oil, gas, sulphur, or other mineral has been obtained from the land covered hereby or land pooled therewith (or with any part thereof), this lease shall not be subject to forfeiture or loss, either in whole or in part, for failure to comply with the express or implied obligations of this contract except after final judicial ascertainment of such failure and Lessee has been given a period of sixty (60) days after such final judicial ascertainment to prevent such loss or forfeiture by complying with and discharging the obligations as to which Lessee has been judicially determined to be in default.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners join in the granting of this lease; and the failure of any party named herein as Lessor to sign this lease shall not affect its validity as to those whose signatures appear hereon or on a counterpart hereof.

13. The requirements hereof shall be subject to any State and/or Federal law or order regulating operations on the land. It is further agreed that should Lessee be prevented from complying with any expressed or implied covenants of this lease, from conducting drilling or reworking operations thereon, or from producing oil, gas or other mineral therefrom by reason of scarcity or inability, after effort made in good faith, to obtain equipment or material or authority to use same, or by failure of carriers to transport or furnish facilities for transportation, or by operation of force majeure, any Federal or State law, or any order, rule or regulation of governmental authority, or other cause beyond Lessee's control, then while so prevented, Lessee's obligation to comply with such covenant shall be suspended and Lessee shall not be liable for damages for failure to comply therewith; and this lease shall be extended while and so long as Lessee is prevented by any such cause from conducting drilling or reworking operations on or from producing oil, gas or other mineral from the leased premises and the time while Lessee is so prevented shall not be counted against Lessee.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

ADDITIONAL PROVISIONS:

14. In the event a portion or portions of the land herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. The lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein provided that if it be by rental payments, rentals shall be reduced in proportion to the number of acres covered hereby and included in such unit or units. If at or after the end of the primary term, this lease is being maintained as to a part of the lands by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations or production, lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything herein contained to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of a shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under this paragraph as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of this paragraph shall be applicable.

15. Lessee shall provide, and maintain throughout the life of this lease and through clean-up, liability insurance. Said policy or policies shall insure against any and all liability including environmental liability clean-up.

16. Lessors authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts to wit:

KNOW ALL MEN BY THESE PRESENTS

579858

That, **Mike Hoffman**, whose mailing address is 3414 Chapel Square, Spring, Texas 77388, hereinafter referred to as "Assignor", for and in consideration of Ten Dollars ($10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged and such additional consideration as recited below, and upon and subject to the exceptions, reservations, conditions and other provisions hereinafter set forth, does hereby GRANT, BARGAIN, SELL, TRANSFER, CONVEY, ASSIGN AND DELIVER, effective as of April 1, 2001, the "Effective Date", to **ENCO RESOURCES, INC.**, with a mailing address of P. O. Box 5738, Humble, Texas, 77325-5738, hereinafter referred to as "Assignee", all of Assignor's right, title and interest in and to oil, gas and mineral leases described on Exhibit "A", attached hereto and made a part hereof, hereinafter referred to as "Assigned Premises".

Assignor, for the same consideration, does hereby further grant, bargain, sell, transfer, convey, assign and deliver, without warranty or representation of any kind or character, express or implied, all of Assignor's right, title and interest in and to the wells, including salt water disposal, herein referred to as "Wells", and all surface and downhole movable and immovable property, buildings, structures, machinery, equipment and materials located in, on and appurtenant to such wells, buildings or structures located upon the Assigned Premises. All wells, structures, buildings, machinery, material and equipment referred to in this paragraph are hereinafter referred to as "Wells and Appurtenances".

All of Assignor's right, title and interest in and to the Assigned Premises and in and to the Wells and Appurtenances are hereinafter together referred to as the "Assigned Premises".

It is agreed between the parties that this Assignment and Bill of Sale is subject to and conditioned upon the compliance with the following terms:

1. THIS ASSIGNMENT AND BILL OF SALE IS EXECUTED WITHOUT WARRANTY OF TITLE, EITHER EXPRESS OR IMPLIED, WITHOUT ANY EXPRESS OR IMPLIED WARRANT OR REPRESENTATION AS TO THE MERCHANTABILITY OF ANY OF THE WELLS AND APPURTENANCES OR ITS FITNESS FOR ANY PURPOSE, AND WITHOUT ANY OTHER EXPRESS OR IMPLIED WARRANTY OR REPRESENTATION WHATSOEVER. IT IS UNDERSTOOD AND AGREED THAT ASSIGNEE HAS INSPECTED THE ASSIGNED INTERESTS AND IS SATISFIED AS TO ITS PHYSICAL AND ENVIRONMENTAL CONDITION, BOTH SURFACE AND SUBSURFACE, AND THAT ASSIGNEE ACCEPTS ALL OF THE SAME IN "AS IS, WHERE IS" CONDITION. IN ADDITION, ASSIGNOR MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, AS TO THE COMPLETENESS OF ANY DATA, INFORMATION OR MATERIALS HERETOFORE OR HEREINAFTER FURNISHED ASSIGNEE IN CONNECTION WITH THE INTERESTS, OR AS TO THE QUALITY OR QUANTITY OF HYDROCARBON RESERVES (IF ANY) ATTRIBUTABLE TO THE INTERESTS OR THE ABILITY OF THE INTERESTS TO PRODUCE HYDROCARBONS. ANY AND ALL SUCH DATA, INFORMATION AND OTHER MATERIALS FURNISHED BY ASSIGNOR IS PROVIDED ASSIGNEE AS A CONVENIENCE AND ANY AND ALL RELIANCE ON OR USE OF THE SAME SHALL BE AT ASSIGNEE'S SOLE RISK.

2. Assignee shall, at the effective date, assume and be responsible for and comply with all duties and obligations of Assignor, express or implied, with respect to the Assigned Interests, including, without limitation, those arising under or by virtue of any lease, contract, agreement, document, permit, applicable statute or rule, regulation or order of any governmental authority (specifically including, without limitation, any governmental or lessor request or requirement to plug, re-plug and/or abandon any well of whatsoever type, status or classification or take any clean-up or other action, with respect to the Assigned Interests, including the removal of all structures, wells and foundations. Assignee shall also defend, indemnify and hold Assignor harmless from any and all claims in connection therewith, except any claims asserted against Assignor prior to the effective date which have been expressly assumed by Assignor in writing.

3. The interest in the Assigned Premises covered hereby is conveyed by Assignor and accepted by Assignee subject to all royalties, overriding royalties, production payments, net profit interests, carried working interest and other payments out of or with respect to production which are of record and to which the Assigned Premises are encumbered, Assignee hereby assumes and agrees to pay, perform or carry as the case may be, each of the royalties, overriding royalties, production payments, net profit interests, carried working interest and other payments out of or with respect to the production, to the extent that any remain a burden on the Assigned Premises herein assigned.

4. Assignee will be liable for and agrees to pay all transactional taxes including but not limited to sales, property, use, lease or similar taxes, ad valorem taxes or recording fees due as a result of this Assignment and Bill of Sale. This Assignment and Bill of Sale is made subject to all and any State and/or Federal Agency approvals as well as any approvals which may be necessary from lessors of the leases with respect to the Assigned Premises. This Assignment and Bill of Sale is made subject to all applicable Joint Operating Agreements and all other applicable agreements.

5. This Assignment and Bill of Sale is effective for all purposes April 1, 2001 at 7:00 A. M. Central Daylight Time. All oil and gas production attributable to the times prior to the effective date, including any oil above the pipeline connection in the tanks located on the Assigned Premises, belong to the Assignor, and the expenses related thereto prior to the effective date shall be born by Assignor. All production and expenses incurred after the effective date will be born by the Assignee.

6. This Assignment and Bill of Sale shall be binding upon and inure to the benefit of the parties hereto, their respective heirs, successors and assigns.

IN WITNESS WHEREOF, this instrument has been executed this 10th day of April, 2001, but effective April 1, 2001.

CORRECTION ASSIGNMENT OF OIL AND GAS INTEREST

KNOW ALL MEN BY THESE PRESENTS:

THAT, WHEREAS, in that certain Assignment of Oil and Gas Interest dated November 27, 2000, effective June 30, 1996, recorded in Book 907 of COB at Page 347 et seq., File No. 575873 of the Records of Jefferson Davis Parish, Louisiana (the "ASSIGNMENT"), from SAMSON HYDROCARBONS COMPANY, a Delaware corporation (formerly Grace Petroleum Corporation), hereinafter referred to as "HYDROCARBONS", to SAMSON RESOURCES COMPANY, an Oklahoma corporation, hereinafter referred to as "SAMSON", HYDROCARBONS did convey unto SAMSON all of its interest in and to the properties set forth in Exhibit "A" thereto; and

WHEREAS, the Exhibit "A" to the ASSIGNMENT only set forth the property or properties and their general legal description and did not describe fully the oil and gas lease, leases or other interests in which HYDROCARBONS' rights were derived from; and

WHEREAS, it is the wish of HYDROCARBONS and SAMSON to correct said ASSIGNMENT and to amend the Exhibit "A" thereto, and to fully and completely describe the oil and gas lease, leases or other interests applicable to the property or properties subject to the ASSIGNMENT.

NOW, THEREFORE, in consideration of Ten Dollars ($10.00) and other good and valuable consideration in hand paid, HYDROCARBONS and SAMSON do hereby change, correct, revise and amend the Exhibit "A" to the ASSIGNMENT to properly reflect the applicable oil and gas lease, leases or other interests relative to HYDROCARBONS rights in and to the property or properties as is, more fully and completely set forth in the Revised Exhibit "A" attached hereto, made a part hereof and incorporated by this reference in the Assignment.

Except as herein revised and amended, the aforesaid Assignment shall remain in full force and effect as to all the terms and conditions contained therein.

IN WITNESS WHEREOF, the undersigned have executed this instrument on the date of the acknowledgments annexed hereto, but to be effective for all purposes from and after the 30th day of June, 1996.

ASSIGNMENT AND BILL OF SALE

KNOW ALL MEN BY THESE PRESENTS:

THAT, as of 7:00 a.m., C.S.T. on the 1st day of January, 2002, hereinafter called the "Effective Time," the undersigned, SAMSON RESOURCES COMPANY, an Oklahoma corporation, having offices at Samson Plaza, Two West Second Street, Tulsa, Oklahoma 74103, herein called "Assignor," in consideration of Ten Dollars ($10.00) and other good and valuable consideration to it in hand paid, the receipt and sufficiency of which are hereby acknowledged, does hereby grant, convey, sell, assign, and transfer unto

Willischild Oil and Gas Corp., whose address is
904 G Street, herein called "Assignee," the following interests:
Snyder, OK 73566

i. all of Assignor's right, title, and interest in and to the leases (whether one or more), mineral interests, force pooled interests, interests acquired under contracts, and the lands covered thereby or associated therewith, more fully and completely described on, and subject to any reservations or limitations set forth on, Exhibit "A" attached hereto and made a part hereof (hereinafter collectively referred to as the "Leases"), including all of Assignor's right, title, and interest in and to the wells located upon the Leases, or on lands pooled or unitized with any portion thereof, or on lands located within any governmental drilling and spacing unit which includes any portion thereof, together with all casing, leasehold equipment and personal property in or on, or directly and solely used in connection with, said well or wells (hereinafter collectively referred to as the "Property");

ii. all of Assignor's interest in the production of oil, gas, or other minerals, inclusive of royalties, overriding royalties, production payments, rights to take royalties in kind, or other interests directly attributable to the Leases and Property from and after the Effective Time (hereinafter collectively referred to as "Production");

iii. all of Assignor's interest derived from unit agreements, orders and decisions of state and federal regulatory authorities establishing units, joint operating agreements, enhanced recovery and injection agreements, farmout agreements and farmin agreements, options, drilling agreements, exploration agreements, assignments of operating rights, working interests, subleases and rights above or below certain footage depths or geological formations, to the extent the same are directly attributable to the Leases and Property (hereinafter collectively referred to as the "Agreements"); and

iv. all of Assignor's interest in rights-of-way, easements, servitudes and franchises specifically acquired for, or directly used in connection with, operations for the exploration and production of oil, gas or other minerals on or from the Leases and Property, including the rights to permits and licenses of any nature owned, held or operated in connection with said operations (hereinafter collectively referred to as "Rights-Of-Way").

584656

The Leases, Property, Production, Agreements, and Rights-Of-Way may also be collectively referred to hereafter as the "Interests".

Assignee, in consideration of the mutual benefits to be derived hereunder, and by its acceptance hereof, understands and agrees to the following terms and conditions:

1. As used herein, "Claims" shall include claims, rights, demands, causes of action, liabilities, damages, fines, penalties, judgements or proceedings of any kind or character, whether arising or founded in law, statute, contract, equity or tort, including, without limitation, strict liability, and all costs and fees (including attorneys fees) in connection therewith.

2. As used herein, "Environmental Laws" shall mean any and all laws, statutes, regulations, rules, orders, ordinances, permits or deter7minations of any governmental authority pertaining to health, the environment, wildlife or natural resources in effect in or for the jurisdiction in which the Interests are located, including, without limitation, the Clean Air Act (Air Pollution Control Act), the Clean Water Act, the Federal Water Pollution Act, the Rivers and Harbors Act of 1899, the Safe Drinking Water Act, the National Environmental Policy Act of 1969 (NEPA), the Endangered Species Act, the Fish and Wildlife Conservation Act of 1980, the Fish and Wildlife

Sale #170C
Lot #42

Coordination Act (FWCA), the Oil Pollution Act, the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), the Superfund Amendments and Reauthorization Act of 1986 (SARA), the Resources Conservation and Recovery Act (RCRA), the Toxic Substance Control Act, the Occupational Safety and Health Act (OSHA), the Hazardous Materials Transportation Act, the Hazardous and Solid Waste Amendments of 1984 (HSWA), and any and all other past, present or future federal, state and local laws, statutes, regulations, rules, orders, ordinances, permits or determinations whose purpose is to conserve or protect health, the environment, wildlife or natural resources, as any of the foregoing or now existing or may hereafter be amended or interpreted.

3. Assignee hereby agrees to assume, be responsible for and comply with all duties and obligations of Assignor, express or implied, with respect to the Interests, including, without limitation, those duties and obligations arising under or by virtue of the Leases, Agreements and Rights-Of-Way, and/or any other lease, contract, agreement, document, permit, applicable statute, rule, regulation or order of any governmental authority (specifically including, without limitation, any governmental request or requirement to plug, re-plug and/or abandon any well of whatsoever type, status or classification, or take any clean-up, restoration, or other action with respect to the Interests). The obligations and duties assumed hereunder include, without limitation, the payment and/or performance of all current and future taxes, leasehold and equipment rentals and release payments, royalties, excess royalties, overriding royalty interests, production payments, net profit obligations, carried working interests and any other matters with which the Interests may be burdened, including any third party billing obligations.

4. Assignee understands that the Interests may be subject to oil and/or gas balancing obligations due to the overproduction or underproduction of hydrocarbons, and further understands the duties and obligations associated therewith. Assignee hereby agrees to assume all duties and obligations associated with any imbalances attributable to the Interests, regardless of whether such imbalances arose, occurred or accrued prior to, on or after the Effective Time hereof.

5. Assignee hereby agrees to assume, be responsible for and comply with all duties and obligations for obtaining any consents which are or may be required by the Leases, Agreements and/or Rights-Of-Way in connection with this Assignment and Bill of Sale ("Assignment").

6. Assignee acknowledges that the Interests have been used for exploration, development and production of oil and gas, and that there may be petroleum, produced water, wastes, or other materials located on, under or associated with the Interests. Equipment and sites included in the Interests may contain asbestos, hazardous substances/materials, including hydrogen sulfide gas, or naturally occurring radioactive material ("NORM"). NORM may affix or attach itself to the inside of wells, materials, and equipment as scale, or in other forms; the wells, materials and equipment located on or included in the Interests may contain NORM and other wastes or hazardous substances/materials; and NORM-containing material and other wastes or hazardous substances/materials may have been buried, come in contact with the soil, or otherwise been disposed of on or around the Interests. Special procedures may be required for the remediation, removal, transportation, or disposal of wastes, asbestos, hazardous substances/materials, including hydrogen sulfide gas, and NORM from the Interests. Assignee shall control, store, handle, transport, and dispose of or discharge all materials, substances, and wastes from the Interests (including produced water, hydrogen sulfide gas, drilling fluids, NORM, and other wastes), whether present before or after the Effective Time, in a safe and prudent manner and in accordance with all applicable Environmental Laws. Assignee shall keep records of the types, amounts, and location of materials, substances, and wastes that are stored, transported, handled, discharged, released, or disposed of onsite and offsite. When any lease terminates, an interest in which has been assigned under this Assignment, Assignee shall take additional testing, assessment, closure, reporting, and remedial action with respect to the Interests as is necessary to satisfy all local, state and federal requirements in effect at that time and necessary to restore the Interests to its proper condition.

7. Assignee shall defend, indemnify and hold Assignor and its affiliates, and the officers, directors, employees or agents of Assignor and its affiliates (hereinafter collectively the "Assignor Group"), harmless from and against any and all Claims relating to all duties and obligations assumed by Assignee pursuant to foregoing paragraphs 3, 4, 5, 6, 11, and 12, or any other duties and obligations assumed by Assignee under this Assignment, regardless of whether any such Claims arose, occurred or accrued prior to, on or after the effective time hereof.

8. Assignee shall further defend, indemnify and hold Assignor Group harmless from and against any and all Claims in favor of any person or entity for injury, illness or death of any person(s) or for damage, loss, pollution or contamination of any property, ground water or the environment, including, without limitation, Claims arising under Environmental Laws, or for any other Claims

arising directly or indirectly from, or incident to, the use, occupation, ownership, operation, condition (whether latent or patent), maintenance or abandonment of any of the Interests, and whether arising from or contributed to by the active, passive, joint, sole or concurrent negligence, gross negligence or strict liability of Assignor Group, or Assignor's contractors or subcontractors or the officers, directors, agents or employees of Assignor's contractors or sub-contractors, including any strict liability under Environmental Laws, regardless of whether any such Claims result from any conditions, events, actions or inactions arising, occurring or accruing prior to, on or after the Effective Time hereof.

9. As to the distribution of production from the Interests, all oil in storage above the pipeline connection or above the value line at the Effective Time hereof shall be credited to Assignor at the then prevailing price for such oil. For Interests operated by Assignor, Assignor shall gauge the oil in storage at the Effective Time. For Interests operated by third parties, the quantity of such oil in storage shall be determined on the same basis as that used for Interests operated by Assignor based on operator reports or applicable state regulatory agency production reports or records. Where actual information is unavailable, Assignor shall use estimates based on the best available information obtained by Assignor.

10. Except as otherwise provided in this Assignment, all proceeds (including proceeds held in suspense or escrow), receipts, credits, and income attributable to the Interests for all periods of time prior to the Effective Time shall belong to Assignor, and all proceeds, receipts, credits, and income attributable to the Interests for all periods of time from and after the Effective Time shall belong to Assignee.

11. Immediately following the execution of this Assignment, Assignee shall, at Assignee's sole cost and expense, secure all lease and operating bonds, permits and other similar documents necessary to operate or own the Interests which may be required by any federal, state or local governmental authority having requisite jurisdiction over the Interests.

12. Within thirty (30) days following the execution of this Assignment, Assignee shall, at Assignee's sole cost and expense:

(a) erect or install such lease and well signs as may be required by applicable laws, rules and regulations indicating that Assignee is the owner and/or operator of the Interests, and shall remove any and all signs from the Interests referring to Assignor;

(b) make all regulatory filings, including "successor" filings with the Federal Energy Regulatory Commission;

(c) obtain all necessary governmental approvals in order to transfer the Interests to Assignee or to transfer the operations of any Interests to Assignee, as may be applicable, and to file or cause to be filed this Assignment and such other documents, if any, as may be required by governmental regulations to transfer the Interests to Assignee, in the appropriate federal, state or local public records; and

(d) perform all testing and/or maintenance of the Interests, and perform all work or operations as may be necessary for the Interests to meet any minimum specifications, as may be required by any federal, state or local governmental authority prior to, or as a condition of, approving the transfer of the Interests to Assignee.

13. Within thirty (30) days following the execution of this Assignment, Assignor shall permit Assignee to take possession, at Assignee's sole risk and expense, of the files, records and data in Assignor's possession relating to the Interests. Provided, however, Assignee shall not receive any of Assignor's legal, tax or financial files, reserve evaluation information, competing bids or seismic, geophysical, geological or other similar information or data. From time to time as requested by Assignor, Assignee shall make such files, records and data available to Assignor for inspection and copying during normal business hours.

14. ASSIGNEE REPRESENTS AND WARRANTS THAT IT HAS INSPECTED THE INTERESTS AND ALL OF ASSIGNOR'S FILES, RECORDS AND DATA ASSOCIATED THEREWITH, AND THAT ASSIGNEE ACCEPTS THE SAME IN THEIR PRESENT CONDITION, AS IS AND WHERE IS.

15. ASSIGNEE REPRESENTS AND WARRANTS THAT ASSIGNEE IS AN EXPERIENCED AND KNOWLEDGEABLE INVESTOR IN OIL AND GAS PROPERTIES, HAS THE FINANCIAL AND BUSINESS EXPERTISE TO EVALUATE THE MERITS AND RISKS OF THE TRANSACTIONS COVERED BY THIS ASSIGNMENT, AND HAS RELIED SOLELY ON THE BASIS OF ITS OWN INDEPENDENT INVESTIGATION OF THE INTERESTS FOR ALL PURPOSES. ASSIGNEE

ACKNOWLEDGES THAT IT HAS HAD THE OPPORTUNITY TO SEEK THE ADVICE OF PERSONS IT DEEMED APPROPRIATE CONCERNING THE CONSEQUENCES OF THE PROVISIONS OF THIS ASSIGNMENT AND HEREBY WAIVES ANY AND ALL RIGHTS TO CLAIM THAT IT IS AN UNSOPHISTICATED INVESTOR IN OIL AND GAS PROPERTIES.

16. ASSIGNEE ACKNOWLEDGES THAT ASSIGNOR HAS NOT MADE, AND ASSIGNOR HEREBY EXPRESSLY DISCLAIMS AND NEGATES (AND THIS ASSIGNMENT IS MADE WITHOUT), ANY REPRESENTATION, COVENANT OR WARRANTY, EXPRESS OR IMPLIED, AT COMMON LAW, BY STATUTE OR OTHERWISE, RELATING TO THE CONDITION OF THE INTERESTS, INCLUDING, WITHOUT LIMITATION, ANY IMPLIED OR EXPRESS WARRANTY OF MERCHANTABILITY, OF FITNESS FOR ANY PARTICULAR PURPOSE, OR OF CONFORMING TO MODELS OR SAMPLES OF MATERIALS AS TO ANY PERSONAL PROPERTY, FIXTURES OR STRUCTURES CONVEYED HEREIN.

17. ASSIGNOR FURTHER MAKES NO REPRESENTATION, COVENANT OR WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY OR COMPLETENESS OF ANY FILES, RECORDS OR DATA HERETOFORE OR HEREAFTER FURNISHED ASSIGNEE IN CONNECTION WITH THE INTERESTS, OR AS TO THE QUALITY OR QUANTITY OF HYDROCARBON RESERVES (IF ANY) ATTRIBUTABLE TO THE INTERESTS, OR THE ABILITY OF THE INTERESTS TO PRODUCE HYDROCARBONS. ANY AND ALL SUCH FILES, RECORDS AND DATA FURNISHED BY ASSIGNOR IS PROVIDED TO ASSIGNEE AS A CONVENIENCE, AND ANY RELIANCE ON OR USE OF THE SAME SHALL BE AT ASSIGNEE'S SOLE RISK. ASSIGNEE WAIVES ITS RIGHTS UNDER THE TEXAS DECEPTIVE TRADE PRACTICES-CONSUMER PROTECTION ACT, SPECIFICALLY INCLUDING SECTION 17.41 ET SEQ., VERNON'S TEXAS CODE ANNOTATED, BUSINESS AND COMMERCE, A LAW THAT GIVES CONSUMERS SPECIAL RIGHTS AND PROTECTIONS, OR ANY SIMILAR STATE OR FEDERAL LAW.

18. AFTER AN OPPORTUNITY TO CONSULT WITH AN ATTORNEY OF ITS OWN SELECTION, ASSIGNEE ACKNOWLEDGES THAT THE DISCLAIMERS AND WAIVERS GIVEN IN AND UNDER THIS ASSIGNMENT SHALL BE CONSIDERED MATERIAL AND INTEGRAL PARTS OF THIS ASSIGNMENT, WITH CONSIDERATION GIVEN THEREFOR, AND ACKNOWLEDGES THAT ALL DISCLAIMERS AND WAIVERS ARE "CONSPICUOUS" AND, HAVE BEEN BROUGHT TO THE ATTENTION OF ASSIGNEE, AND THAT ASSIGNEE HAS VOLUNTARILY AND KNOWINGLY CONSENTED TO ALL DISCLAIMERS AND WAIVERS.

19. It is the intent of Assignor to convey and this Assignment hereby conveys to Assignee, subject to the reservations and conditions herein contained, all of Assignor's right, title, and interest on the Effective Time hereof in and to the Interests, regardless of the omission of any Lease or Leases, errors in description, any incorrect or misspelled names or any transcribed or incorrect recording references. This Assignment does not convey any right, title, or interest that Assignor might acquire in or to the Interests subsequent to the Effective Time of this Assignment.

TO HAVE AND TO HOLD the same unto the said Assignee forever. The provisions hereof shall be covenants running with the land and shall inure to the benefit of and be binding upon Assignor and Assignee, their respective personal representatives, successors and assigns. This Assignment is made WITHOUT WARRANTY OF TITLE, EITHER EXPRESS OR IMPLIED.

IN WITNESS WHEREOF, the undersigned have executed this instrument on the date of the acknowledgments annexed hereto, but to be effective for all purposes from and after the Effective Time.

CLERK OF COURT
JEFFERSON DAVIS PARISH

CERTIFICATE

G. L. Paulson, of lawful age, first being duly sworn on oath, deposes and says:

1. That he is the duly elected, qualified and acting Assistant Secretary of BP America Production Company, formerly known as Amoco Production Company (the "Corporation"), a corporation organized and existing under the laws of the State of Delaware, and certifies to the following:

a. Vastar Resources, Inc. merged with Amoco Production Company on December 31, 2001, with Amoco Production Company being the surviving corporation;

b. On December 31, 2001, Amoco Production Company changed its name to BP America Production Company.

584929

Executed in the City of Houston and State of Texas on this the 31 day of December, 2001.

G. L. Paulson

Subscribed and sworn to before me
this 31 day of December, 2001.

PARISH OF OUACHITA

CONTRIBUTION OF PROPERTY/DEED

BEFORE ME, the undersigned Notary Public, and in the presence of the witnesses hereinafter named and undersigned, personally came and appeared:

NELIA BRUCE GOLDMAN (SS #[redacted]), nee Bruce, a married woman whose husband is James O. Goldman, dealing herein with her separate and paraphernal property, and a major resident of the Parish of Ouachita State of Louisiana, whose mailing address is 2410 Pinehurst Drive, Monroe, Louisiana, 71201 (hereinafter referred to as "Vendor")

who after being duly sworn declared that Vendor has and does by these presents, GRANT, BARGAIN, SELL, CONVEY AND DELIVER, with full guarantee of title and with complete transfer and subrogation of all rights and actions of warranty against all former owners and proprietors of the property herein conveyed, unto:

NKBG PROPERITES, L.L.C. (TIN #[redacted]) a Louisiana limited liability company, appearing herein by and through its duly authorized Manager, Nelia Bruce Goldman, whose mailing address is 2410 Pinehurst Drive, Monroe, Louisiana, 71201, (hereinafter referred to as "Vendee")

592421

all of Vendor's rights, titles and interests in and to the following described property, together with all buildings and improvements situated thereon, located in the Parish of Jefferson Davis, State of Louisiana and more particularly described as follows, to-wit:

SEE EXHIBIT "A" ATTACHED HERETO AND MADE A PART HEREOF

TO HAVE AND TO HOLD said described property unto said Vendee, its successors and assigns forever.

This sale is made in and for the consideration of Vendee transferring and delivering to Vendor one hundred (100%) percent of the membership interests of Vendee, receipt and sufficiency of which is hereby being acknowledged.

Vendor transfers the above described property to Vendee "as is/where is", without any representations or warranties as to fitness or use.

Vendee does hereby accept title to said property subject to all current easements, rights of way, restrictions, leases, covenants, assignments, reservations and servitudes of record or of use.

Certificates of Mortgage are hereby waived by the parties.

Title examinations of the property were neither requested of nor furnished by the undersigned Notary Public, and the parties agree to hold the Notary, before whom the act is passed, harmless for the non-production thereof.

Taxes for the year 2002 shall be paid by Vendee.

THUS DONE AND SIGNED at my office in the Parish of Ouachita, State of Louisiana, in presence of the undersigned competent witnesses, on this the 13TH day of November, 2002.

EXHIBIT "A"

1. 1145.35 acres, more or less, of land in Jefferson Davis Parish, Louisiana, together with all the buildings and improvements thereon, and all the rights, ways, servitudes and other privileges thereunto belonging, being (a) Section thirty-nine in township ten south, of Range three West, La. Meridian, except that portion lying in triangular from west of the east boundary line of Section fourteen if extended through said Section thirty nine; (b) lot two of Fractional Section thirteen in township ten south, of Range three West, La. Meridian; (c) Section seventeen in township ten south, of range two west, La. Meridian, **EXCEPT** the 328 acres, more or less, of swamp timber land lying in the eastern portion thereof, which was sold by Jean Castex and others to A. S. Alston & Co., on Feby. 14, 1922, by deed recorded in Jefferson Davis Parish, and which is shown by a plat of survey meadae by E. J. Mead, C. E., dated in 1921, - it being understood, however, that there is included in this sale two tracts of prairie land along the north line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale to A. Alston & Co., and (d) Section eighteen in township ten south, of Range two west of the Louisiana Meridian, lying between the southeast corner of the aforedescribed Section 39, on the West, and the Mermentau River on the east: All as per the annexed plat showing the property hereby conveyed within red lines, except the two tracts of prairie land above referred to, which appear within white lines and are marked, respectively, "Prairie 16.5 ac" and "Prairie 5.5 ac", and which said plat is attached to an Act of Sale by and between Jean Castex, Jr. and Albert Sidney Johnson, et al. Recorded in Conveyance Book 52 at page 240, records of Jefferson Davis Parish, Louisiana; **AND LESS AND EXCEPT:**

(1) That ten acre parcel of land situated in Section 18, Township 10 South, Range 2 West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and which ten acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section 18, Township 10 South, Range 2 West, at a 1¼ inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township 10 South, Range 2 and 3 West; thence South 51°13' East 276.5 feet; thence South 53°00' East 600 feet to a 1¼ inch galvanized pipe, the lower front corner of the Robira 10 acre tract for a point of beginning; thence, following the right bank

of the Mermentau River South 65°30' East 450 feet; thence South 84°00' East 250 feet; thence leaving the River and running South 37°00' West 693.3 feet; thence North 72°06' West 691.5 feet to lower side line of the Robira 10 acres; thence following said line North 37°00' East 693.5 feet to a place of beginning and containing 10 acres; as per plat by F. Shutts' Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux; and

(2) That certain parcel of land comprising 10 acres, more or less, situated in Section 18, Township 10 South, Range 2 West, and in Section 39, Township 10 South, Range 3 West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, page 101, of the Records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the corner between Section 18, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a 1¼ inch galvanized pipe; thence South 53° East 272.4 feet to the line between Section 18, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West 921 feet South of the corner between the two said sections; thence South 53° East 327.6 feet to a 1¼ inch galvanized iron pipe; thence North 37° East 726 feet to a 1¼ inch galvanized pipe on the right descending bank of the Mermentau River; thence North 53° West up the right descending bank of the Mermentau River 600 feet to a 1¼ inch galvanized pipe; thence South 37° West 358 feet to the point of beginning and containing 10 acres.

2. All of Vendor's Royalty interests in Bruce #2 (Property number 51072-02) and in Bruce #3 (Property number 51073-02) wells, located in Jefferson Davis Parish, Louisiana, and currently produced by Enco Resources.

ASSIGNMENT AND BILL OF SALE

STATE OF LOUISIANA)
) SS.
PARISH OF JEFFERSON DAVIS)

KNOW ALL MEN BY THESE PRESENTS:

THAT, the undersigned, WILLISCHILD OIL AND GAS CORP. having offices at 904 G. STREET, SNYDER, OK 73566 herein collectively called "Assignor" , in consideration of Ten Dollars ($10.00) and other good and valuable consideration to it in hand paid, the receipt and sufficiency of which are hereby acknowledged, does hereby grant, convey, sell, assign, and transfer unto ARJUNA LLC whose address is 2445 S. Zephyr Way Lakewood, Co. 80227. herein called "Assignee", the following interest:

1. all of Assignor's right, title and interest in and to the leases (whether one or more), force pooled interests, interests acquired under contracts, and the lands covered thereby (the "Leases"), more fully and completely described on Exhibit"A" attached hereto and made a part hereof, together with the rights incident thereto and made a part hereof, the personal property appurtenant thereto, or used or obtained in connection with said Leases (herein after collectively referred to as the "Property"); AND for the same consideration stated hereinabove, Assignor does hereby grant, convey, sell, assign, and transfer unto Assignee all of Assignor's right, title, and interest in and to the wells located upon the Leases, or on lands pooled or unitized with any portion thereof, together with all casing, leasehold equipment, and personal property in or on or used in connection with said well or wells, AS IS, AND WHERE IS, WITHOUT WARRANTY OF MERCHANTABILITY, CONDITION, OR FITNESS FOR A PARTICULAR PURPOSE, EITHER EXPRESS OR IMPLIED;

2. all of Assignor's interest in the production of oil, gas, or other minerals, inclusive of royalties, overriding royalties, production payments, rights to take royalties in kind, or other interests;

3. all of Assignor's interest derived from unit agreements, orders and decisions of state and federal regulatory authorities establishing units, joint operating agreements enhanced recovery and injection agreements, farmout agreements and farmin agreements, options, drilling agreements, exploration agreements, assignments of operating rights, working interests, subleases and rights above or below certain footage depths or geological formations; and

4. all of Assignor's interest in all rights-of-way, easements, servitudes and franchises acquired or used in connection with operations for the exploration and production of oil, gas or other minerals, including the rights to permits and licenses of any nature owned, held or operated in connection with said operations.

Assignee, in consideration of the mutual benefits to be derived hereunder by its acceptance hereof, understands and agrees to the following terms and conditions:

1. Assignee hereby agrees to assume its proportionate part of any and all terms and provisions of the Leases and any and all existing royalties, excess royalties, overriding royalty interests or other burdens out of production with which said Leases may be burdened.

2. Assignee hereby agrees that it has inspected the lands, wells, personal property and equipment assigned and conveyed herein and that it accepts the same in their present condition. As used in this paragraph 2 and the lettered subparagraphs hereunder, "claims" shall include claims, demands, causes of action liabilities, damages, penalties and judgments of any kind or character and all costs and fees in connection therewith, including attorney fees.
   a) Assignee shall (I) upon closing, and as of the effective date hereof, assume and be responsible for and comply with all duties and obligations of Assignor, express or implied, with respect to the interests conveyed herein, including, without limitation, those arising under or by virtue of any lease, contract, agreement, document, permit, applicable statute or rule, regulation or order of any governmental authority (specifically including without limitation, any governmental request or requirement to plug, re-plug and/or abandon any well of whatsoever type, status or classification, or take any clean-up or other action with respect to the Property) and (ii) defend, indemnify and hold Assignor harmless from any and all claims in connection therewith; and

   b) Assignee shall defend, indemnify and hold Assignor harmless from any and all claims in favor of any person for personal injury, death or damage to property or to the environment, or for any other claims arising directly or indirectly from, or incident to, the use, occupation, operation, maintenance or abandonment of any of the interests conveyed herein, or condition of the Property, whether latent or patent, and whether arising from or contributed to by the negligence in any form of Assignor, its agents, employees or contractors, and asserted against Assignee and/or Assignor after the

593077

c) Notwithstanding anything to the contrary herein, Assignee assumes all rights or obligations associated with gas imbalances attributable to the Property, regardless of when such imbalances accrued.

3. Assignor and Assignee hereby agree, represent, and confirm that they are not related to one another as affiliates, subsidiaries, parents, agents or otherwise and that the Property is being conveyed hereunder pursuant to an arms-length transaction.

It is the Intent of Assignor to convey and this Assignment hereby conveys to Assignee subject to the reservations and conditions herein contained, all of Assignor's right, title, and interest on the effective date hereof in and to the Property, regardless of the omission of any lease or leases, errors in description, any incorrect or misspelled names or any transcribed or incorrect recording references. This Assignment does not convey any right, title, or interest that Assignor might acquire in or to the Property subsequent to the effective date of this Assignment.

TO HAVE AND TO HOLD the same unto the said Assignee forever. The provisions hereof shall be covenants running with the land and shall inure to the benefit of and be binding upon Assignor and Assignee, their respective personal representatives, successors and assigns. This Assignment is WITHOUT WARRANY OF TITLE, EITHER EXPRESS OR IMPLIED.

IN WITNESS WHEREOF, the undersigned have executed this instrument on the date of the acknowledgments annexed hereto, but to be effective for all purposes from and after the 1st day of DECEMBER, 2002.

Meridian; (c) Section Seventeen (17) in Township 10 South, of Range 2 West, La. Meridian, **EXCEPT** the 328 acres, more or less, of swamp timber land lying in the Eastern portion thereof, which was sold by Jean Castex and others to A. S. Alston & Co., on February 14, 1922, by deed recorded in Jefferson Davis Parish, and which is shown by a plat of survey made by E. J. Mead, C. E., dated in 1921, - it being understood, however, that there is included in this sale two tracts of prairie land along the North line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale to A. Alston & Co., and (d) Section 18 in Township 10 South, of Range 2 West of the Louisiana Meridian, lying between the Southeast corner of the aforedescribed Section 39, on the West, and the Mermentau River on the East: All as per the annexed plat showing the property hereby conveyed within red lines, except the two tracts of prairie land above referred to, which appear within white lines and are marked, respectively, "Prairie 16.5 ac" and "Prairie 5.5 ac", and which said plat is attached to an Act of Sale by and between Jean Castex, Jr. and Albert Sidney Johnson, et al. Recorded in Conveyance Book 52 at page 240, records of Jefferson Davis Parish, Louisiana; **AND LESS AND EXCEPT: (1)** That

593994

ten (10) acre parcel of land situated in Section 18, Township 10 South, Range 2 West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc., and which ten (10) acres were sold by said Albert Sidney Johnson and Adolphe C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and which ten (10) acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section 18, Township 10 South, Range 2 West, at a 1¼ inch galvanized iron pipe on the right descending bank of the Mermentau River, on the line between Township 10 South, Range 2 and 3 West; thence South 51°13' East 276.5 feet; thence South 53°00' East 600 feet to a 1¼ inch galvanized pipe, the lower front corner of the Robira 10 acre tract for a point of beginning; thence, following the right bank of the Mermentau River South 65°30' East 450 feet; thence South 84°00' East 250 feet; thence leaving the River and running South 37°00' West 693.3 feet; thence North 72°06' West 691.5 feet to lower side line of the Robira 10 acres; thence following said line North 37°00' East 693.5 feet to a place of beginning and containing 10 acres; as per plat by F. Shutts' Sons, Civil Engineers, attached to said deed; said tract of land is bounded on the North by a ten (10) acre tract owned by John J. Robira, his widow, heirs or assigns, on the East by the Mermentau River and on the South and West by other land of Albert Sidney Johnson and Adolphe C. Boudreaux; and, **(2)** That certain parcel of land comprising 10 acres, more or less, situated in Section 18, Township 10 South, Range 2 West, and in Section 39, Township 10 South, Range 3 West, which was conveyed by Albert Sidney Johnson and Adolphe C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, page 101, of the Records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the corner between Section 18, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West, said corner being on the right descending bank of the Mermentau River; thence South 37° West 368 feet to a 1¼ inch galvanized pipe; thence South 53° East 272.4 feet to the line between Section 18, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West 921 feet South of the corner between the two said sections; thence South 53° East 327.6 feet to a 1¼ inch galvanized iron pipe; thence North 37° East 726 feet to a 1¼ inch galvanized pipe on the right descending bank of the Mermentau River; thence North 53° West up the right descending bank of the Mermentau River 600 feet to a 1¼ inch galvanized pipe; thence South 37° West 358 feet to the point of beginning and containing **10** acres.

ITEM OF PROPERTY: MOVABLE

B. MINERAL RIGHTS/ROYALTIES:

All of her undivided interest of mineral/royalties rights in and to the following:

A 0.02414863 Royalty interest in Bruce #2 (Property number 51072-02) and a 0.2843281 Royalty interest in Bruce #3 (Property number 51073-02) wells, located in Jefferson Davis Parish, Louisiana, and currently produced by Axis Energy Corporation, in the name of Reuben Raymond Bruce and listed under Property Owner Number 65084.

The Managing General Member hereby declares that she accepts the contribution on behalf of **RNBC, L.L.C.**

TO HAVE AND TO HOLD the above described property, with full subrogation of rights in warrant, unto the said Grantee, its heirs, successors and assigns, forever. Grantor declares that this act of contribution is made without warranty of title but with full

subrogation of all rights and actions of warranty that Grantor may have.

Grantor and Grantee acknowledge that the acts of the undersigned Notary in the preparation and execution of this Act of Contribution do not constitute the expression of an opinion as to the validity of the title to the Property and that no title examination of the Property has been prepared by the undersigned Notary.

THUS DONE AND PASSED in Jennings, Jefferson Davis Parish, Louisiana, on the 13th day of February, 2003 in the presence of the undersigned competent witnesses, who hereunto sign their names with the said appearers and me, Notary, after a reading of the whole.

SECRETARY'S CERTIFICATE

BEFORE ME, the undersigned authority, on this day personally appeared Albert D. Hoppe, who after being by me duly sworn, on oath deposed and said:

I, ALBERT D. HOPPE, Senior Vice President, General Counsel and Secretary of NOBLE ENERGY, INC. ("Company"), do hereby certify that attached hereto as Exhibit "A" and incorporated by reference is a true and correct copy of the Certificate of Ownership and Merger, which merges "Energy Development Corporation", a Delaware corporation, with and into "Samedan Oil Corporation", a Delaware corporation, which Certificate was received and filed in the Office of the Secretary of State of the State of Delaware on December 27, 2001, and which merger had an effective date of December 31, 2001.

And further, I, ALBERT D. HOPPE, Senior Vice President, General Counsel and Secretary of the Company, do hereby certify that attached hereto as Exhibit "B" and incorporated herein by reference is a true and correct copy of the Certificate of Ownership and Merger, which merges "Samedan Oil Corporation", a Delaware corporation, with and into "Noble Energy, Inc.", a Delaware corporation, which Certificate was received and filed in the Office of the Secretary of State of the State of Delaware on December 20, 2002, and which merger had an effective date of December 31, 2002.

Witness my hand this 14 day of March, 2003.

ALBERT D. HOPPE
Senior Vice President, General Counsel
and Secretary

State of Texas §
County of Harris §

This instrument was acknowledged before me on this 14 day of March, 2003, by Albert D. Hoppe, as Senior Vice President, General Counsel and Secretary of Noble Energy, Inc., a Delaware corporation, on behalf of said corporation.

CERTIFICATE OF OWNERSHIP AND MERGER

of

ENERGY DEVELOPMENT CORPORATION
(a Delaware corporation)

with and into

SAMEDAN OIL CORPORATION
(a Delaware corporation)

(UNDER SECTION 253 OF THE GENERAL CORPORATION LAW OF THE STATE OF DELAWARE)

SAMEDAN OIL CORPORATION, a Delaware corporation, hereby certifies that:

(1) The name and state of incorporation or formation of each of the constituent corporations are:

(a) Samedan Oil Corporation, a Delaware corporation ("Samedan"); and

(b) Energy Development Corporation, a Delaware corporation ("EDC").

(2) Samedan owns 100% of the issued and outstanding shares of the capital stock of EDC.

(3) Samedan shall be the surviving entity in the merger.

(4) Pursuant to Section 253 of the General Corporation Law of the State of Delaware, the Board of Directors of Samedan adopted resolutions, by unanimous written consent, authorizing the merger of EDC with and into Samedan. A copy of such resolutions, adopted by the Board of Directors of Samedan as of December 27, 2001, is attached hereto as Exhibit A.

(5) The Certificate of Incorporation of Samedan shall be the Certificate of Incorporation of the surviving corporation.

(6) The effective date of the merger shall be as of the close of business, on December 31, 2001.

(7) Anything herein or elsewhere to the contrary notwithstanding, this merger may be abandoned by the Board of Directors of Samedan at any time prior to the date of filing the merger with the Secretary of State.

IN WITNESS WHEREOF, Samedan has caused this certificate to be signed by the undersigned on the 27th day of December, 2001.

SAMEDAN OIL CORPORATION, the surviving corporation

By: _____
Charles D. Davidson
President

Exhibit A

Relating to the Merger of Energy Development Corporation with and into Samedan Oil Corporation

WHEREAS, Energy Development Corporation, a Delaware corporation ("EDC"), is a wholly-owned, direct subsidiary of Samedan Oil Corporation, a Delaware corporation ("Samedan"), and

WHEREAS, the Board of Directors of Samedan (the "Board") has determined, in its best business judgment, that it would be in the best interest of Samedan to merge EDC with and into Samedan (the "Merger"); and

WHEREAS, Samedan shall be the surviving entity in the Merger; and

WHEREAS, for federal income tax purposes, the parties intend that the Merger shall qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended (the "Code"), and/or as a tax-free liquidation under Section 332 of the Code;

NOW, THEREFORE, BE IT RESOLVED, that the Board of Samedan hereby approves the Merger; and further

RESOLVED, that EDC shall be merged with and into Samedan pursuant to the provisions of Section 253 of the Delaware General Corporation Law (the "DGCL"), and Samedan shall be the surviving entity of the Merger; and further

RESOLVED, that in accordance with the DGCL, as of the close of business on December 31, 2001 on (the "Effective Time"):

(a) the separate existence of EDC shall cease;

(b) Samedan and EDC shall then and thereafter together comprise a single entity, which shall be Samedan;

(c) the title to all real estate and other property owned by EDC shall be deemed to be owned by and vested in Samedan without reversion or impairment; and

(d) Samedan shall assume all the liabilities and obligations of EDC; and further

RESOLVED, that at the Effective Time, each issued and outstanding share of the common stock, no par value, of EDC shall, by virtue of the Merger, be immediately cancelled and retired with no consideration to be paid therefor and all certificates representing such interests shall be cancelled; and further

RESOLVED, that after the Effective Time, each outstanding share of the common stock, par value $10.00 per share, of Samedan shall remain issued and outstanding; and further

RESOLVED, that the Board of Directors of Samedan will serve as the Board of Directors of the surviving entity, and the Bylaws and Certificate of Incorporation of Samedan shall serve as the Bylaws and Certificate of Incorporation of the surviving entity; and further

RESOLVED, that the proper officers of Samedan are hereby authorized and empowered to take or cause to be taken all such further lawful action and to sign, execute, acknowledge, certify, deliver, accept, record and file all such further instruments in the name and on behalf of Samedan as in their judgment shall be necessary, desirable or advisable in order to carry out the intent, and to accomplish the purposes, of the foregoing resolutions pursuant to the applicable provisions of the DGCL; and further

RESOLVED, that all lawful actions heretofore taken by the officers, counsel or representatives of Samedan in connection with the subject of the foregoing resolutions be, and each hereby is, approved, ratified and confirmed in all respects as the act and deed of Samedan.

CERTIFICATE OF OWNERSHIP AND MERGER

of

SAMEDAN OIL CORPORATION
(a Delaware corporation)

with and into

NOBLE ENERGY, INC.
(a Delaware corporation)

(UNDER SECTION 253 OF THE GENERAL
CORPORATION LAW OF THE STATE OF DELAWARE)

NOBLE ENERGY, INC., a Delaware corporation, hereby certifies that:

(1) The name and state of incorporation or formation of each of the constituent corporations are:

(a) Samedan Oil Corporation, a Delaware corporation("Samedan"); and

(b) Noble Energy, Inc., a Delaware corporation ("Noble").

(2) Noble owns 100% of the issued and outstanding shares of the capital stock of Samedan.

(3) Noble shall be the surviving entity in the merger.

(4) Pursuant to Section 253 of the General Corporation Law of the State of Delaware, the Board of Directors of Noble adopted resolutions, by unanimous written consent, authorizing the merger of Samedan with and into Noble. A copy of such resolutions, adopted by the Board of Directors of Noble as of December 10, 2002, is attached hereto as Exhibit A.

(5) The Certificate of Incorporation of Noble shall be the Certificate of Incorporation of the surviving corporation.

(6) The effective date of the merger shall be as of 11:59 p.m. EST, on December 31, 2002.

(7) Anything herein or elsewhere to the contrary notwithstanding, this merger may be abandoned by the Board of Directors of Noble at any time prior to the date of filing the merger with the Secretary of State.

IN WITNESS WHEREOF, Noble has caused this certificate to be signed by the undersigned on the 17th day of December, 2002.

NOBLE ENERGY, INC., the surviving corporation

By: Charles D. Davidson
President

EXHIBIT A

Relating to the Merger of Samedan Oil Corporation with and into Noble Energy, Inc.

WHEREAS, Samedan Oil Corporation, a Delaware corporation ("Samedan"), is a wholly-owned, direct subsidiary of Noble Energy, Inc., a Delaware corporation ("Noble"); and

WHEREAS, the Board of Directors of Noble (the "Board") has determined, in its best business judgment, that it would be in the best interest of Noble to merge Samedan with and into Noble (the "Merger"); and

WHEREAS, Noble would be the surviving entity in the Merger; and

WHEREAS, for federal income tax purposes, the parties intend that the Merger qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended (the "Code"), and/or as a tax-free liquidation under Section 332 of the Code;

NOW, THEREFORE, BE IT RESOLVED, that the Board of Noble hereby approves the Merger; and further

RESOLVED, that Samedan shall be merged with and into Noble pursuant to the provisions of Section 253 of the Delaware General Corporation Law (the "DGCL"), and Noble shall be the surviving entity of the Merger; and further

RESOLVED, that in accordance with the DGCL, at midnight on December 31, 2002 (the "Effective Time"):

(a) the separate existence of Samedan shall cease;

(b) Noble and Samedan shall then and thereafter together comprise a single entity, which shall be Noble;

(c) title to all real estate and other property and rights owned by Samedan shall be deemed to be owned by, and vested in, Noble without reversion or impairment; and

(d) Noble shall assume all liabilities and obligations of Samedan; and further

RESOLVED, that at the Effective Time, each issued and outstanding share of the common stock, par value $10.00 per share, of Samedan shall, by virtue of the Merger, be immediately cancelled and retired with no consideration to be paid therefor and all certificates representing such interests shall be cancelled; and further

RESOLVED, that after the Effective Time, each outstanding share of the common stock, par value $3.333 per share, of Noble shall remain issued and outstanding; and further

RESOLVED, that the Board of Directors of Noble will serve as the Board of Directors of the surviving entity, and the Bylaws and Certificate of Incorporation of Noble shall serve as the Bylaws and Certificate of Incorporation of the surviving entity; and further

RESOLVED, that the proper officers of Noble are hereby authorized and empowered to take or cause to be taken all such further lawful action and to sign, execute, acknowledge, certify, deliver, accept, record and file all such further instruments in the name and on behalf of Noble as in their judgment shall be necessary, desirable or advisable in order to carry out the intent, and to accomplish the purposes, of the foregoing resolutions pursuant to the applicable provisions of the DGCL; and further

RESOLVED, that all lawful actions heretofore taken by the officers, counsel or representatives of Noble in connection with the subject of the foregoing resolutions be, and each hereby is, approved, ratified and confirmed in all respects as the act and deed of Noble.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of October 6, 2003

by and between ALFRED C. BOURDIER, et al (REFER TO ATTACHED EXHIBIT "A" FOR A LIST OF LESSORS)

herein called "Lessor" (whether one or more) and ST. MARY ENERGY COMPANY, whose mailing address is

202 Rue Iberville, Suite 110, Lafayette, Louisiana 70508

hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of One Hundred Dollars & Other Valuable/Consideration ($100.00&OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession, storage and transportation of said minerals (either from said land or acreage pooled therewith), and the right to dispose of salt water, with the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads, pipelines and/or canals thereon for operations hereunder or in connection with similar operations on adjoining land, and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

All of the land of Lessor situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana and not currently under lease to others;

LESS AND EXCEPT: Those lands situated outside the geographic confines of the U BOL M RA SUA, as per Louisiana Office of Conservation Order No. 101-G, dated effective June 7, 1988.

Leaving a balance of 102.53 acres, more or less, leased herein.

Wherever the designation "one-eighth (1/8)" appears in Paragraph 7 below, the designation "one-fourth (1/4)" shall be substituted therefor.

601967

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the rental payments hereinafter provided for, the above described land is estimated to comprise 102.53 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith (or with any part thereof), all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on October 6, 2004, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith (or with any part thereof), in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment, or (2) pays to the Lessor a rental of Two Hundred & No/100 Dollars ($200.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's rights in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods Two Hundred & No/100 Dollars ($200.00) per acre for all or that part of the land held hereunder. Payments may be made to the Lessor or may be mailed or delivered for deposit to Lessor's credit in the REFER TO ATTACHED EXHIBIT "A" FOR XXXXX DEPOSITORY INFORMATION Bank of which Bank or its successor shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's rights in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) da after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories. Wherever used in this lease, "operations for drilling", "drilling operations" and "operations" shall be deemed to have been commenced when work is commenced or materials placed on the ground at or near the well site preparatory to the drilling of a well. 251

2. Lessee, at its option, is hereby given the right and power without any further approval from Lessor, at any time and from time to time, to pool or combine the land or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly explore or develop or operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to prevent waste or to avoid the drilling of unnecessary wells or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental officer, tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals. Such pooling shall be of adjacent tracts which will form a reasonably compact (but not necessarily contiguous) body of land for each unit, and the unit or units so created shall not exceed substantially forty (40) acres each for each well for oil exploration or production and substantially one hundred sixty (160) acres each for each well for gas and gas-condensate exploration or production unless a larger spacing pattern or larger drilling or production units (including a field or pool unit) shall have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units shall be the same as fixed by said order. Lessee shall execute and file for record in the Conveyance Records of the Parish in which the land herein leased is situated a declaration describing the pooled acreage; and upon such filing, the unit or units shall thereby become effective, except that when a unit is created by order of a Regulatory Body the pooling shall be effective as of the effective date of such order, and no declaration shall be required in connection therewith. The royalties herein elsewhere specified, and subject to the provisions of Paragraph 10 hereof, shall be computed only on the proportionate part of the production from any pooled unit that is allocated to the land herein described; and unless otherwise allocated by order of a Regulatory Body, the amount of production to be so allocated from each pooled unit shall be that proportion of such total production that the surface area of the land affected hereby and included in the unit bears to the total surface area of all the lands included in such pooled unit. Drilling or reworking operations on or production of oil, gas or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) and as to all strata underlying said land, whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during or after the drilling of the well which is then or thereafter becomes the unit well. Separate units may be created for oil and for gas, or for separate stratum or strata of oil or gas, even though the areas thereof overlap, and the creation of a unit as to one mineral or strata or stratum shall not exhaust the right of Lessee (even as to the same well) to create different or additional units for other minerals or for other strata or stratum of the same or other minerals. The failure of the leasehold title (in whole or in part) to any tract or interest therein included in a pooled unit shall not affect the validity of said unit as to the tracts or interests not subject to such failure, but the unit may thereafter be revised as hereinafter provided. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any interest or lease to which title has failed or upon which there is or may be an adverse claim. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall describe the lands included in the unit as revised and shall be filed for record in the Conveyance Records of the Parish where the lands herein leased are situated. The revised declaration shall not be retroactive but shall be effective as of the date that it is filed for record. Any unit created by Lessee hereunder shall also be revised so as to conform with an order of a Regulatory Body issued after said unit was originally established; such revision shall be effective as of the effective date of such order without further declaration by Lessee, but such revision shall be limited to the stratum or strata covered by said order and shall not otherwise affect the unit originally created.

3. Lessee, may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or file for record a release or releases of any portion or portions of the lands or any stratum or strata and be relieved of all requirements hereof as to the land, stratum or strata so released; and, in the event of a release of all strata under a portion of the land during the primary term, the rental shall be reduced proportionately, according to acreage. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by or in accordance with the spacing or unit or proration allowable order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit and if no spacing or proration allowable order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well then producing or being drilled or worked on, and one hundred sixty (160) acres around each gas or gas condensate well then producing, or being drilled or worked on or shut in under Paragraph 6 hereof, each of such tracts to be in as near a square form as is practicable. Lessee shall have such rights of way or servitudes affecting the acreage released or forfeited as are necessary for Lessee's operations on the land retained hereunder.

4. Prior to the time that oil, gas or some other mineral is being produced from the leased land or land pooled therewith (or with any part thereof), Lessee may maintain the rights granted during and after the primary term by carrying on operations on said lands or land pooled therewith (or with any part thereof) without the lapse of more than ninety (90) days between abandonment of work on one well and the commencement of operations for drilling or reworking another; and during the primary term such operations may be discontinued and the rights granted maintained by commencing or resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date or the expiration of the primary term bears to the twelve months' period; but, if said ninety (90) days should expire prior to the initial rental paying date or during any year for which rental or other payment has been made, no rental shall be due until the next fixed rental paying date, or, as the case may be, for the balance of the last year of the primary term.

5. If, prior to or after the discovery of oil or gas on the lands held hereunder, a well producing oil or gas in paying quantities for 30 consecutive days should be brought in on adjacent lands not owned by Lessor and not included in a pooled unit containing all or a portion of the lands herein described, Lessee shall drill such offset well to protect the land held hereunder from drainage as and within the time that a reasonable and prudent operator would drill under the same or similar circumstances; it being provided, however, that Lessee shall not be required to drill any such offset well unless the well on adjacent land is within 330 feet of any line of the lands held hereunder, nor shall such offset well be necessary when said lands are being reasonably protected by a well on the leased premises or land pooled therewith (or with any part thereof).

6. After the production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith (or with any part thereof), the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas, or some other mineral is being produced in paying quantities. It is provided, however, that if, after the production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause, and Lessee is not then engaged in drilling or reworking operations, this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) commences or resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. In the event that any well on the land or on property pooled therewith (or with any part thereof), is capable of producing gas or gaseous substances in paying quantities but such minerals are not being produced, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the abandonment of wells drilled. Should such conditions occur or exist at the end of or after the primary term, or within ninety (90) days prior to the expiration thereof, Lessee's rights may be extended beyond and after the primary term by the commencement, resumption or continuance of such payments at the rate and in the manner herein provided for rental payments during the primary term, and for the purpose of computing and making such payments the expiration date of the primary term and each anniversary date thereof shall be considered as a fixed rental paying date; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than five consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil (which includes condensate and other liquid hydrocarbons when separated by lease separator units), one-eighth (1/8) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith or with any part thereof), or in treating such liquids to make them marketable; (b) On gas produced from or attributable to said land and sold, including the gas remaining after the extraction of hydrocarbon products therefrom, one-eighth (1/8) of the market value at the mouth of the well of the gas so sold, including casinghead gas or other gaseous substances. The price to be used in computing the market value at the mouth of the well shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lesser price shall be used in such computation; (c) With respect to gas used other than for operations hereunder, including casinghead gas or other gaseous substances, royalty shall be one-eighth (1/8) of the market value at the mouth of the well as computed in subparagraph (b) above; provided if Lessee is not selling gas under an arms' length contract as provided in subparagraph (b) above, the market value of gas used other than for operations hereunder, including casinghead gas or other gaseous substances, shall be its fair value at the mouth of the well at the time of production but not less than the average of the prices paid under comparable circumstances for gas of like kind and quality from the field from which such gas is being produced, or if no gas is being sold from that field, the average of prices paid under comparable circumstances for gas of like kind and quality in the three nearest fields where sold; (d) On hydrocarbon products extracted and saved by Lessee from gas, casinghead gas or other gaseous substances produced from or attributable to said land by processing such gas through any plant or plants, whether owned or operated by Lessee or any affiliate of Lessee or by a party other than Lessee, one-eighth (1/8) of the net proceeds received by Lessee for such products, said net proceeds being the net amount received by the Lessee after deducting the costs of processing such gas through said plant or plants; (e) Lessee shall have free use of all oil, gas or any component thereof used in lease or unit operations as well as gas, including the components thereof, injected into subsurface strata as hereinafter defined; (f) One Dollar ($1.00) for each ton of 2,240 pounds of sulphur, payable when marketed; and (g) One-eighth (1/8) of the market value at the well or mine of all other minerals produced and saved or mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's such oil at the best market price obtainable and pay Lessor the price received f.o.b. the leased property, less any severance or production tax imposed thereon. Lessee shall have the right to inject gas, water, brine or other fluids into subsurface strata, and no royalties shall be due computed on any gas or component thereof produced by Lessee and injected into subsurface stratum or strata through a well or wells located either on the land or a pooled unit containing all or a part of the land.

Exhibit C

8. The Lessee shall be responsible for all damages to timber and growing crops of Lessor caused by Lessee's operations.

9. All provisions hereof shall inure to the benefit of and bind the successors and assigns (in whole or in part) of Lessor and Lessee, (whether by sale, inheritance, assignment, sub-lease or otherwise), but regardless of any actual or constructive notice thereof, no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor or any other owner of rights hereunder, whether resulting from sale or other transfer, inheritance, interdiction, emancipation, attainment of majority or otherwise, shall impose any additional burden on Lessee, or be binding on Lessee for making any payments hereunder unless, at least forty-five (45) days before any such payment is due, the record owner of this lease shall have been furnished with certified copy of recorded instrument or judgment evidencing such sale, transfer or inheritance, or with evidence of such change in status or capacity of Lessor or other party owning rights hereunder. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. A sublessee may, as to the Lessor, exercise the rights and discharge the obligations of the Lessee, without joinder of any sublessor. In the event of an assignment of the lease as to a segregated portion of the land, delay rentals shall be apportioned among the several leasehold owners according to the surface area of each, and default in payment by one shall not affect the rights of others. Any owner of rights under this lease may pay the entire rental payable hereunder and such payment shall be for the benefit of those holding leasehold rights hereunder. If at any time two or more persons are entitled to participate in the rental payable hereunder, Lessee may pay or tender said rental jointly to such persons or to their joint credit in the depository named herein; or, at Lessee's election, the proportionate part of said rental to which each participant is entitled may be paid or tendered to him separately or to his separate credit in said depository and payment or tender to any participant of his portion of the rentals hereunder shall maintain this lease as to such participant.

10. Lessor hereby warrants and agrees to defend the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event the Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee shall have sixty (60) days after receipt of such notice in which to commence any operations that are then legally necessary to comply with the requirements hereof. The service of said notice and the lapse of sixty (60) days without Lessee meeting or commencing to meet the alleged breaches shall be a condition precedent to any action by Lessor for any cause hereunder. It is provided, however, that after production of oil, gas, sulphur, or other mineral has been obtained from the land covered hereby or land pooled therewith (or with any part thereof), this lease shall not be subject to forfeiture or loss, either in whole or in part, for failure to comply with the express or implied obligations of this contract except after final judicial ascertainment of such failure and Lessee has been given a period of sixty (60) days after such final judicial ascertainment to prevent such loss or forfeiture by complying with and discharging the obligations as to which Lessee has been judicially determined to be in default.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners join in the granting of this lease; and the failure of any party named herein as Lessor to sign this lease shall not affect its validity as to those whose signatures appear hereon or on a counterpart hereof.

13. The requirements hereof shall be subject to any State and/or Federal law or order regulating operations on the land. It is further agreed that should Lessee be prevented from complying with any expressed or implied covenants of this lease, from conducting drilling or reworking operations thereon, or from producing oil, gas or other mineral therefrom by reason of scarcity or inability, after effort made in good faith, to obtain equipment or material or authority to use same, or by failure of carriers to transport or furnish facilities for transportation, or by operation of force majeure, any Federal or State law, or any order, rule or regulation of governmental authority, or other cause beyond Lessee's control, then while so prevented, Lessee's obligation to comply with such covenant shall be suspended and Lessee shall not be liable for damages for failure to comply therewith; and this lease shall be extended while and so long as Lessee is prevented by any such cause from conducting drilling or reworking operations on or from producing oil, gas or other mineral from the leased premises and the time while Lessee is so prevented shall not be counted against Lessee.

~~The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.~~

~~IN WITNESS WHEREOF, this instrument is executed as of the date first above written.~~

~~WITNESSES.~~

REFER TO EXHIBIT "A" ATTACHED HERETO FOR SIGNATURES.

EXHIBIT "A"

Attached to and made a part of that certain Oil, Gas & Mineral Lease dated October 6, 2003, executed by ALFRED C. BOURDIER, ET AL, as Lessor(s), in favor of ST. MARY ENERGY COMPANY as Lessee, covering 102.53 acres, more or less, situated in Section 17, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana.

LESSORS:

ALFRED C. BOURDIER, husband of Gayle H. Bourdier, whose mailing address is 1543 Oakwood Drive, Lake Charles, Louisiana 70611;

LYNN H. BOURDIER, husband of Eva Cutright Bourdier, whose mailing address is 416 Julius Street, Lake Charles, Louisiana 70601;

BERNADINE BOURDIER ZIBLICH, widow of William Ziblich, whose mailing address is 125 Valentine Drive, Avondale, Louisiana 70094;

CHRISTOPHER JOHN TRAHAN, husband of Lisa D. Trahan, whose mailing address is 103 Ashland Court, Lafayette, Louisiana 70508;

ADDITIONAL LEASE PROVISIONS:

14. In the event a portion of the lands herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less that thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there by land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than two (2) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

16. Lessors herein direct Lessee to tender all lease bonus, rental, royalty and other monies due under the terms of this lease in the proportions set out below and Lessors further acknowledge that said payments by Lessee shall maintain the lease in full force and affect. Each Lessor named herein does hereby authorize Lessee to pay or tender any delay rentals accruing under the terms and conditions of this lease to them in accordance with the provisions hereof, or to their credit either in the depository bank hereinabove designated or to their credit in the respective depository set out below, or any successor depository which may be designated as hereinabove provided, and in the following amounts, to-wit:

RENTAL RECIPIENT	RENTAL AMOUNT	DEPOSITORY
ALFRED C. BOURDIER	$3,417.67	Pay direct to Lessor's Mailing Address.
LYNN H. BOURDIER	$427.21	Pay direct to Lessor's Mailing Address.
BERNADINE BOURDIER ZIBLICH	$427.21	Pay direct to Lessor's Mailing Address.
ROSE MARIE BOURDIER PETITJEAN	$427.21	Pay direct to Lessor's Mailing Address.
DAVID L. BOURDIER	$427.21	Pay direct to Lessor's Mailing Address.
YVETTE MARIE BOUDREAUX MILLER LAFLEUR	$2,563.25	Pay direct to Lessor's Mailing Address.
MARK WARTON BOUDREAUX	$1,281.63	Pay direct to Lessor's Mailing Address.
WAYNE BOUDREAUX	$1,281.63	Pay direct to Lessor's Mailing Address.
RNBC, L.L.C.	$1,708.83	Pay direct to Lessor's Mailing Address.
PATRICIA GAY B. MOORE	$1,708.83	Pay direct to Lessor's Mailing Address.

RENTAL RECIPIENT	RENTAL AMOUNT	DEPOSITORY
NKBG PROPERTIES, L.L.C.	$1,708.83	Pay direct to Lessor's Mailing Address.
BONNA BELLE ANDERSON and **ROY ANDERSON**	$1,367.07	Pay direct to Lessor's Mailing Address.
DOROTHY MAE BRYAN	$683.54	Pay direct to Lessor's Mailing Address.
LOUISIANA BAPTIST CHILDREN'S HOME	-0-	Does not apply
NANCY WATKINS JOHNSON	$512.65	Pay direct to Lessor's Mailing Address.
JAMES R. JOHNSON	-0-	Does not apply
LAURIE JOHNSON	-0-	Does not apply
CLAIRE C. JOHNSON ANGELLE	-0-	Does not apply
PATRICK W. JOHNSON	-0-	Does not apply
PAUL O. JOHNSON	-0-	Does not apply
PATRICK HENRY JOHNSON	$1,537.95	Pay direct to Lessor's Mailing Address.
ALBERT SIDNEY JOHNSON, III	$512.65	Pay direct to Lessor's Mailing Address.
MICHAEL DAVID TRAHAN and **CHANDA HOLLIER TRAHAN**	$170.89	Pay direct to Lessor's Mailing Address.
MARKHAM RAY TRAHAN, JR. and **SUSAN ARABIE TRAHAN**	$170.89	Pay direct to Lessor's Mailing Address.
CHRISTOPHER JOHN TRAHAN	$170.89	Pay direct to Lessor's Mailing Address.

It is understood and agreed that the above division or interest covers only the payment of delay rentals and does not purport to cover the ownership of the royalty on production from the property covered by this lease. Lessors agree that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to its interest.

17. Prior to the commencement of any operations for the drilling of a well on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface area to be utilized in such proposed operations and the acreage content thereof, and Lessor shall be furnished with a copy of such plat of survey prior to the commencement of operations. Prior to actual entry upon the leased premises, Lessee shall pay to the surface owner a cash sum equal to $1,000.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be surface rental for such area for a period of one (1) year commencing on the date of Lessee's actual entry upon the premises in connection with such operations. Thereafter, until restoration of the premises, and in like manner, Lessee agrees to pay the surface owner an annual surface rental of $1,000.00 per acre for the area which Lessee continues to utilize for its operations, provided that if Lessee shall use a lesser area of the premises, such annual surface rentals shall be computed on the actual acreage of such smaller area shown by a supplemental plat delivered to the surface owner. Said rental shall be tendered in the proportions set out above in Paragraph 16.

18. In the event operations of any kind are conducted upon the premises, the Lessee shall, as near as reasonably practical, return the land to as near its original condition as is practical. Prior to any excavation, Lessee shall remove and stockpile the topsoil. Prior to backfilling any such excavated area, all contaminating chemicals, substances and drilling mud shall be removed from the premises. The excavated area shall be backfilled with clay or other excavated material (excluding the topsoil), compacted to natural ground density, and covered as evenly as reasonably practical with the stockpiled topsoil.

19. It is the intention of Lessor herein to lease any and all interest of Lessor in any and all servitudes, rights-of-way, roads, canals, ditches and/or waterbottoms either upon, adjacent to or traversing the herein described lands, subject to needs and uses of Enco Resources, Inc. It is the understanding of the Lessor that the Lessee will maintain and repair all areas used by Lessee, its contractor, sub-contractors, employees or representatives during the term of this lease..

20. This instrument may be executed in any number of counterparts, each of which shall be binding on the party or parties so signing, regardless of whether all of the owners join in the execution of this agreement. For recording purposes, Lessee may combine the pages containing signatures and acknowledgments with the body and text of one counterpart hereof.

21. Lessee shall insure against any and all liability including environmental clean up due to Lessee's operations hereunder. Prior to Lessee conducting any surface operations hereunder, Lessee will provide an annual Certificate of Insurance as proof that the insurance will be kept in effect for the remainder of the term of the lease. It is specifically understood and agreed between the parties hereto that Lessee shall not incur any additional environmental liability associated with prior existing wells and/or oil and gas production facilities (inclusive of salt water disposal facilities) which are located on Lessor's property.

22. All wells drilled by Lessee hereunder on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, Lessee shall provide Lessor with a written, notarized statement certifying that Lessee has complied with the plugging and abandonment requirements of state wide Order No. 29-B of State of Louisiana and shall furnish a copy of report to Lessor within thirty (30) days of abandonment.

23. All information and notices to Lessor as provided for in this lease shall be deemed delivered when sent to Mr. Alfred C. Bourdier, whose mailing address is 1543 Oakwood Drive, Lake Charles, LA 70611.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

22. All wells drilled by Lessee hereunder on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, Lessee shall provide Lessor with a written, notarized statement certifying that Lessee has complied with the plugging and abandonment requirements of state wide Order No. 29-B of State of Louisiana and shall furnish a copy of report to Lessor within thirty (30) days of abandonment.

23. All information and notices to Lessor as provided for in this lease shall be deemed delivered when sent to Mr. Alfred C. Bourdier, whose mailing address is 1543 Oakwood Drive, Lake Charles, LA 70611.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

OIL, GAS AND MINERAL LEASE

289

THIS AGREEMENT, entered into effective as of October 6, 2003

by and between PATRICK HENRY JOHNSON, ET AL, (REFER TO ATTACHED EXHIBIT "A" FOR A LIST OF LESSORS)

herein called "Lessor" (whether one or more) and ST. MARY ENERGY COMPANY, whose mailing address is

202 Rue Iberville, Suite 110, Lafayette, Louisiana 70508

hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of One Hundred Dollars & Other Valuable/Consideration ($100.00&OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, sulphur and all other minerals, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession, storage and transportation of said minerals (either from said land or acreage pooled therewith), and the right to dispose of salt water, with the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads, pipelines and/or canals thereon for operations hereunder or in connection with similar operations on adjoining land, and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

All of the land of Lessor situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana and not currently under lease to others;

LESS AND EXCEPT: Those lands situated outside the geographic confines of the U BOL M RA SUA, as per Louisiana Office of Conservation Order No. 101-G, dated effective June 7, 1988.

Leaving a balance of 102.53 acres, more or less, leased herein.

Wherever the designation "one-eighth (1/8)" appears in Paragraph 7 below, the designation "one-fourth (1/4)" shall be substituted therefor.

601968

RECORDED FEB 25

All land owned by the Lessor in the above mentioned Section or Sections or Surveys, all property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the rental payments hereinafter provided for, the above described land is estimated to comprise 102.53 acres, whether it actually comprises more or less.

This lease shall be for a term of Three (3) years and No (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith (or with any part thereof), all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on October 6, 2004, unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith (or with any part thereof), in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment, or (2) pays to the Lessor a rental of Two Hundred & No/100 Dollars ($200.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's rights in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods, Two Hundred & No/100 Dollars ($200.00) per acre for all or that part of the land held hereunder. Payments may be made to the Lessor or may be mailed or delivered for deposit to Lessor's credit in the REFER TO ATTACHED EXHIBIT "A" FOR XXXXX DEPOSITORY INFORMATION Bank at which Bank or its successor shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and

assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's rights in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories. Wherever used in this lease, "operations for drilling", "drilling operations" and "operations" shall be deemed to have been commenced when work is commenced or materials placed on the ground at or near the well site preparatory to the drilling of a well.

2. Lessee, at its option, is hereby given the right and power without any further approval from Lessor, at any time and from time to time, to pool or combine the land or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly explore or develop or operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to prevent waste or to avoid the drilling of unnecessary wells or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental officer, tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals. Such pooling shall be of adjacent tracts which will form a reasonably compact (but not necessarily contiguous) body of land for each unit, and the unit or units so created shall not exceed substantially forty (40) acres each for each well for oil exploration or production and substantially one hundred sixty (160) acres each for each well for gas and gas-condensate exploration or production unless a larger spacing pattern or larger drilling or production units (including a field or pool unit) shall have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units shall be the same as fixed by said order. Lessee shall execute and file for record in the Conveyance Records of the Parish in which the land herein leased is situated a declaration describing the pooled acreage; and upon such filing, the unit or units shall thereby become effective, except that when a unit is created by order of a Regulatory Body the pooling shall be effective as of the effective date of such order, and no declaration shall be required in connection therewith. The royalties herein elsewhere specified, and subject to the provisions of Paragraph 10 hereof, shall be computed only on the proportionate part of the production from any pooled unit that is allocated to the land herein described; and unless otherwise allocated by order of a Regulatory Body, the amount of production to be so allocated from each pooled unit shall be that proportion of such total production that the surface area of the land affected hereby and included in the unit bears to the total surface area of all the lands included in such pooled unit. Drilling or reworking operations on or production of oil, gas or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) and as to all strata underlying said land, whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during or after the drilling of the well which is then or thereafter becomes the unit well. Separate units may be created for oil and for gas, or for separate stratum or strata of oil or gas, even though the areas thereof overlap, and the creation of a unit as to one mineral or strata or stratum shall not exhaust the right of Lessee (even as to the same well) to create different or additional units for other minerals or for other strata or stratum of the same or other minerals. The failure of the leasehold title (in whole or in part) to any tract or interest therein included in a pooled unit shall not affect the validity of said unit as to the tracts or interests not subject to such failure, but the unit may thereafter be revised as hereinafter provided. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any interest or lease to which title has failed or upon which there is or may be an adverse claim. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall describe the lands included in the unit as revised and shall be filed for record in the Conveyance Records of the Parish where the lands herein leased are situated. The revised declaration shall not be retroactive but shall be effective as of the date that it is filed for record. Any unit created by Lessee hereunder shall also be revised so as to conform with an order of a Regulatory Body issued after said unit was originally established; such revision shall be effective as of the effective date of such order without further declaration by Lessee, but such revision shall be limited to the stratum or strata covered by said order and shall not otherwise affect the unit originally created.

3. Lessee, may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or file for record a release or releases of any portion or portions of the lands or any stratum or strata and be relieved of all requirements hereof as to the land, stratum or strata so released; and, in the event of a release of all strata under a portion of the land during the primary term, the rental shall be reduced proportionately, according to acreage. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by or in accordance with the spacing or unit or proration allowable order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit and if no spacing or proration allowable order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well then producing or being drilled or worked on, and one hundred sixty (160) acres around each gas or gas condensate well then producing, or being drilled or worked on or shut in under Paragraph 6 hereof, each of such tracts to be in as near a square form as is practicable. Lessee shall have such rights of way or servitudes affecting the acreage released or forfeited as are necessary for Lessee's operations on the land retained hereunder.

4. Prior to the time that oil, gas or some other mineral is being produced from the leased land or land pooled therewith (or with any part thereof), Lessee may maintain the rights granted during and after the primary term by carrying on operations on said lands or land pooled therewith (or with any part thereof) without the lapse of more than ninety (90) days between abandonment of work on one well and the commencement of operations for drilling or reworking another; and during the primary term such operations may be discontinued and the rights granted maintained by commencing or resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date or the expiration of the primary term bears to the twelve months' period; but, if said ninety (90) days should expire prior to the initial rental paying date or during any year for which rental or other payment has been made, no rental shall be due until the next fixed rental paying date, or, as the case may be, for the balance of the last year of the primary term.

5. If, prior to or after the discovery of oil or gas on the lands held hereunder, a well producing oil or gas in paying quantities for 30 consecutive days should be brought in on adjacent lands not owned by Lessor and not included in a pooled unit containing all or a portion of the lands herein described, Lessee shall drill such offset well to protect the land held hereunder from drainage as and within the time that a reasonable and prudent operator would drill under the same or similar circumstances; it being provided, however, that Lessee shall not be required to drill any such offset well unless the well on adjacent land is within 330 feet of any line of the lands held hereunder, nor shall such offset well be necessary when said lands are being reasonably protected by a well on the leased premises or land pooled therewith (or with any part thereof).

6. After the production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith (or with any part thereof), the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas, or some other mineral is being produced in paying quantities. It is provided, however, that if, after the production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause, and Lessee is not then engaged in drilling or reworking operations, this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) commences or resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. In the event that any well on the land or on property pooled therewith (or with any part thereof), is capable of producing gas or gaseous substances in paying quantities but such minerals are not being produced, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the abandonment of wells drilled. Should such conditions occur or exist at the end of or after the primary term, or within ninety (90) days prior to the expiration thereof, Lessee's rights may be extended beyond and after the primary term by the commencement, resumption or continuance of such payments at the rate and in the manner herein provided for rental payments during the primary term, and for the purpose of computing and making such payments the expiration date of the primary term and each anniversary date thereof shall be considered as a fixed rental paying date; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than five consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil (which includes condensate and other liquid hydrocarbons when separated by lease separator units), one-eighth (1/8) of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith or with any part thereof), or in treating such liquids to make them marketable; (b) On gas produced from or attributable to said land and sold, including the gas remaining after the extraction of hydrocarbon products therefrom, one-eighth (1/8) of the market value at the mouth of the well of the gas so sold, including casinghead gas or other gaseous substances. The price to be used in computing the market value at the mouth of the well shall be the price received by Lessee under an arms' length gas sales contract prudently negotiated in the light of the facts and circumstances existing at the time of consummation of such contract; provided, however, should Lessee by virtue of any order by any regulatory body, state or federal, receive less than the price provided for in any gas sales contract entered into by Lessee, such lesser price shall be used in such computation; (c) With respect to gas used other than for operations hereunder, including casinghead gas or other gaseous substances, royalty shall be one-eighth (1/8) of the market value at the mouth of the well as computed in subparagraph (b) above; provided if Lessee is not selling gas under an arms' length contract as provided in subparagraph (b) above, the market value of gas used other than for operations hereunder, including casinghead gas or other gaseous substances, shall be its fair value at the mouth of the well at the time of production but not less than the average of the prices paid under comparable circumstances for gas of like kind and quality from the field from which such gas is being produced, or if no gas is being sold from that field, the average of prices paid under comparable circumstances for gas of like kind and quality in the three nearest fields where sold; (d) On hydrocarbon products extracted and saved by Lessee from gas, casinghead gas or other gaseous substances produced from or attributable to said land by processing such gas through any plant or plants, whether owned or operated by Lessee or any affiliate of Lessee or by a party other than Lessee, one-eighth (1/8) of the net proceeds received by Lessee for such products, said net proceeds being the net amount received by the Lessee after deducting the costs of processing such gas through said plant or plants; (e) Lessee shall have free use of all oil, gas or any component thereof used in lease or unit operations as well as gas, including the components thereof, injected into subsurface strata as hereinafter defined; (f) One Dollar ($1.00) for each ton of 2,240 pounds of sulphur, payable when marketed; and (g) One-eighth (1/8) of the market value at the well or mine of all other minerals produced and saved or mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's such oil at the best market price obtainable and pay Lessor the price received f.o.b. the leased property, less any severance or production taxes imposed thereon. Lessee shall have the right to inject gas, water, brine or other fluids into subsurface strata, and no royalties shall be due or computed on any gas or component thereof produced by Lessee and injected into subsurface stratum or strata through a well or wells located either on the land or a pooled unit containing all or a part of the land.

8. The Lessee shall be responsible for all damages to timber and growing crops of Lessor caused by Lessee's operations.

9. All provisions hereof shall inure to the benefit of and bind the successors and assigns (in whole or in part) of Lessor and Lessee, (whether by sale, inheritance, assignment, sub-lease or otherwise), but regardless of any actual or constructive notice thereof, no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor or any other owner of rights hereunder, whether resulting from sale or other transfer, inheritance, interdiction, emancipation, attainment of majority or otherwise, shall impose any additional burden on Lessee, or be binding on Lessee for making any payments hereunder unless, at least forty-five (45) days before any such payment is due, the record owner of this lease shall have been furnished with certified copy of recorded instrument or judgment evidencing such sale, transfer or inheritance, or with evidence of such change in status or capacity of Lessor or other party owning rights hereunder. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. A sublessee may, as to the Lessor, exercise the rights and discharge the obligations of the Lessee, without joinder of any sublessor. In the event of an assignment of the lease as to a segregated portion of the land, delay rentals shall be apportioned among the several leasehold owners according to the surface area of each, and default in payment by one shall not affect the rights of others. Any owner of rights under this lease may pay the entire rental payable hereunder and such payment shall be for the benefit of those holding leasehold rights hereunder. If at any time two or more persons are entitled to participate in the rental payable hereunder, Lessee may pay or tender said rental jointly to such persons or to their joint credit in the depository named herein; or, at Lessee's election, the proportionate part of said rental to which each participant is entitled may be paid or tendered to him separately or to his separate credit in said depository and payment or tender to any participant of his portion of the rentals hereunder shall maintain this lease as to such participant.

10. Lessor hereby warrants and agrees to defend the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event the Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee shall have sixty (60) days after receipt of such notice in which to commence any operations that are then legally necessary to comply with the requirements hereof. The service of said notice and the lapse of sixty (60) days without Lessee meeting or commencing to meet the alleged breaches shall be a condition precedent to any action by Lessor for any cause hereunder. It is provided, however, that after production of oil, gas, sulphur, or other mineral has been obtained from the land covered hereby or land pooled therewith (or with any part thereof), this lease shall not be subject to forfeiture or loss, either in whole or in part, for failure to comply with the express or implied obligations of this contract except after final judicial ascertainment of such failure and Lessee has been given a period of sixty (60) days after such final judicial ascertainment to prevent such loss or forfeiture by complying with and discharging the obligations as to which Lessee has been judicially determined to be in default.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners join in the granting of this lease; and the failure of any party named herein as Lessor to sign this lease shall not affect its validity as to those whose signatures appear hereon or on a counterpart hereof.

13. The requirements hereof shall be subject to any State and/or Federal law or order regulating operations on the land. It is further agreed that should Lessee be prevented from complying with any expressed or implied covenants of this lease, from conducting drilling or reworking operations thereon, or from producing oil, gas or other mineral therefrom by reason of scarcity or inability, after effort made in good faith, to obtain equipment or material or authority to use same, or by failure of carriers to transport or furnish facilities for transportation, or by operation of force majeure, any Federal or State law, or any order, rule or regulation of governmental authority, or other cause beyond Lessee's control, then while so prevented, Lessee's obligation to comply with such covenant shall be suspended and Lessee shall not be liable for damages for failure to comply therewith; and this lease shall be extended while and so long as Lessee is prevented by any such cause from conducting drilling or reworking operations on or from producing oil, gas or other mineral from the leased premises and the time while Lessee is so prevented shall not be counted against Lessee.

~~The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.~~

~~IN WITNESS WHEREOF, this instrument is executed as of the date first above written.~~

~~WITNESSES:~~

REFER TO EXHIBIT "A" ATTACHED HERETO FOR SIGNATURES.

EXHIBIT "A"

Attached to and made a part of that certain Oil, Gas & Mineral Lease dated October 6, 2003, executed by PATRICK HENRY JOHNSON, ET AL, as Lessor(s), in favor of ST. MARY ENERGY COMPANY as Lessee, covering 102.53 acres, more or less, situated in Section 17, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West, Jefferson Davis Parish, Louisiana.

LESSORS:

PATRICK HENRY JOHNSON, husband of Shirley Johnson, whose mailing address is 305 Pellerin Drive, Kenner, Louisiana 70065-2552;

CHRISTINE A. JOHNSON, single, whose mailing address is 624 Vouray Dr., Apt. C, Kenner, Louisiana 70065-1851;

DEBORAH L. JOHNSON, single, whose mailing address is 115B 85th St., Virginia Beach, Virginia 23451-1813.

ADDITIONAL LEASE PROVISIONS:

14. In the event a portion of the lands herein leased is pooled or unitized with other land so as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event the date of commencement of drilling operations or production on a unit is less that thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term, this lease is being maintained as to a part of the land by operations on or production from a pooled unit or units embracing lands covered hereby and other land and if at such time there by land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than two (2) years beyond the end of the primary term.

15. Notwithstanding anything herein contained to the contrary it is understood and agreed that in the event Lessee elects to maintain this lease by the payment of shut-in gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 14 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 14 shall be applicable.

16. Lessors herein direct Lessee to tender all lease bonus, rental, royalty and other monies due under the terms of this lease in the proportions set out below and Lessors further acknowledge that said payments by Lessee shall maintain the lease in full force and affect. Each Lessor named herein does hereby authorize Lessee to pay or tender any delay rentals accruing under the terms and conditions of this lease to them in accordance with the provisions hereof, or to their credit either in the depository bank hereinabove designated or to their credit in the respective depository set out below, or any successor depository which may be designated as hereinabove provided, and in the following amounts, to-wit:

RENTAL RECIPIENT	RENTAL AMOUNT	DEPOSITORY
PATRICK HENRY JOHNSON	$1,025.30	Pay direct to Lessor's Mailing address
CHRISTINE A. JOHNSON	$256.33	Pay direct to Lessor's Mailing address
DEBORAH L. JOHNSON	$256.33	Pay direct to Lessor's Mailing address

It is understood and agreed that the above division or interest covers only the payment of delay rentals and does not purport to cover the ownership of the royalty on production from the property covered by this lease. Lessors agree that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to its interest.

17. Prior to the commencement of any operations for the drilling of a well on the leased premises, Lessee shall cause a survey to be made which shall show the exterior lines of the surface area to be utilized in such proposed operations and the acreage content thereof, and Lessor shall be furnished with a copy of such plat of survey prior to the commencement of operations. Prior to actual entry upon the leased premises, Lessee shall pay to the surface owner a cash sum equal to $1,000.00 per acre for the number of acres of the leased premises so utilized by Lessee in such operations as shown on said plat. Such payment shall be deemed to be surface rental for such area for a period of one (1) year commencing on the date of Lessee's actual entry upon the premises in connection with such operations. Thereafter, until restoration of the premises, and in like manner, Lessee agrees to pay the surface owner an annual surface rental of $1,000.00 per acre for the area which Lessee continues to utilize for its operations, provided that if Lessee shall use a lesser area of the premises, such annual surface rentals shall be computed on the actual acreage of such smaller area shown by a supplemental plat delivered to the surface owner. Said rental shall be tendered in the proportions set out above in Paragraph 16.

18. In the event operations of any kind are conducted upon the premises, the Lessee shall, as near as reasonably practical, return the land to as near its original condition as is practical. Prior to any excavation, Lessee shall remove and stockpile the topsoil. Prior to backfilling any such excavated area, all contaminating chemicals, substances and drilling mud shall be removed from the premises. The excavated area shall be backfilled with clay or other excavated material (excluding the topsoil), compacted to natural ground density, and covered as evenly as reasonably practical with the stockpiled topsoil.

19. It is the intention of Lessor herein to lease any and all interest of Lessor in any and all servitudes, rights-of-way, roads, canals, ditches and/or waterbottoms either upon, adjacent to or traversing the herein described lands, subject to needs and uses of Enco Resources, Inc. It is the understanding of the Lessor that the Lessee will maintain and repair all areas used by Lessee, its contractor, sub-contractors, employees or representatives during the term of this lease..

20. This instrument may be executed in any number of counterparts, each of which shall be binding on the party or parties so signing, regardless of whether all of the owners join in the execution of this agreement. For recording purposes, Lessee may combine the pages containing signatures and acknowledgments with the body and text of one counterpart hereof.

21. Lessee shall insure against any and all liability including environmental clean up due to Lessee's operations hereunder. Prior to Lessee conducting any surface operations hereunder, Lessee will provide an annual Certificate of Insurance as proof that the insurance will be kept in effect for the remainder of the term of the lease. It is specifically understood and agreed between the parties hereto that Lessee shall not incur any additional environmental liability associated with prior existing wells and/or oil and gas production facilities (inclusive of salt water disposal facilities) which are located on Lessor's property.

22. All wells drilled by Lessee hereunder on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, Lessee shall provide Lessor with a written, notarized statement certifying that Lessee has complied with the plugging and abandonment requirements of state wide Order No. 29-B of State of Louisiana and shall furnish a copy of report to Lessor within thirty (30) days of abandonment.

23. All information and notices to Lessor as provided for in this lease shall be deemed delivered when sent to Mr. Alfred C. Bourdier, whose mailing address is 1543 Oakwood Drive, Lake Charles, LA 70611.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

All of the above-named parties are hereinafter collectively referred to as GRANTOR (whether one or more) and;

ST. MARY ENERGY COMPANY, 580 Westlake Park Boulevard, Suite 600, Houston, TX 77079, hereinafter referred to as GRANTEE.

WITNESSETH, THAT:

WHEREAS, GRANTOR is the owner of the following described tract of land (the "Leased Premises"), to-wit:

Township 10 South, Range 5 East

That certain tract or parcel of land, containing 447.00 acres, more or less, situated in Section 39, Township 10 South, Range 3 West and/or Section 17, Township 10 South, Range 2 West, Jefferson Davis Parish, Louisiana ("Leased Premises").

WHEREAS, GRANTEE is the owner of the following, to-wit:

a.) That certain Oil, Gas and Mineral Lease, dated effective October 6, 2003, by and between Alfred C. Bourdier, et al, as Lessor, and St. Mary Energy Company, as Lessee, recorded under Entry No. 601967 of the Conveyance Records of Jefferson Davis Parish, Louisiana.
b.) That certain Oil, Gas and Mineral Lease, dated effective October 6, 2003, by and between Patrick Henry Johnson, et al, as Lessor, and St. Mary Energy Company, as Lessee, recorded under Entry No. 601968 of the Conveyance Records of Jefferson Davis Parish, Louisiana.

(collectively referred to herein as "St. Mary Leases").

WHEREAS, GRANTEE has entered into an agreement with ENCO Resources, Inc., et al, whereby they can earn an assignment of an interest in and to the following, to-wit:

a.) That certain Oil, Gas and Mineral Lease, dated effective July 22, 1984, by and between Reuben Raymond Bruce, et al, as Lessor, and Marantha Mineral Corporation, as Lessee, counterparts of which are recorded under Entry Nos. 456380, 456381, 456382, 456383 and 456384 of the Conveyance Records of Jefferson Davis Parish, Louisiana.
b.) That certain Oil, Gas and Mineral Lease, dated effective January 23, 1984, by and between Reuben Raymond Bruce, et al, as Lessor, and Marantha Mineral Corporation, as Lessee, counterparts of which are recorded under Entry Nos. 456385, 456386, 456387, 456388 and 456389 of the Conveyance Records of Jefferson Davis Parish, Louisiana.
c.) That certain Oil, Gas and Mineral Lease, dated effective January 23, 1984, by and between Reuben Raymond Bruce, et al, as Lessor, and Marantha Mineral Corporation, as Lessee, counterparts of which are recorded under Entry Nos. 456390, 456391, 456392, 456393 and 456394 of the Conveyance Records of Jefferson Davis Parish, Louisiana.
d.) That certain Oil, Gas and Mineral Lease, dated effective January 23, 1984, by and between Reuben Raymond Bruce, et al, as Lessor, and Marantha Mineral Corporation, as Lessee, counterparts of which are recorded under Entry Nos. 456395, 456396, 456397, 456398 and 456399 of the Conveyance Records of Jefferson Davis Parish, Louisiana.

(collectively referred to herein as "ENCO Leases").

WHEREAS, GRANTEE is desirous of securing rights to use, construct, repair and maintain portion or portions of the Leased Premises for the following reasons, to-wit:

a.) As the surface location(s) for the drilling of one or more future exploratory wells on the Leased Premises, and to use said surface location(s) to produce said well or wells located on the St. Mary Leases and the ENCO Leases (collectively referred to as "The Leases"), or on lands pooled therewith ("Surface Locations"); and

b.) For roads to be used for access, ingress and egress to said Surface Locations; and

c.) For pipelines used to produce the wells located on the Surface Locations; and

d.) For the disposal and "land farming" of such materials and liquids produced and/or utilized by GRANTEE in connection with its operations on the Leased Premises.

NOW, THEREFORE, GRANTOR in consideration of the premises, of the benefits and advantages to be derived from the drilling of the aforementioned proposed well(s), and the resultant benefits which might be derived therefrom by GRANTOR, the payment of Five Thousand and No/100 ($5,000.00) Dollars cash, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by GRANTOR, does, by these presents, grant, convey, transfer, sell and deliver exclusively unto GRANTEE the following servitudes, rights-of-way, easements and surface rights on the Leased Premises (including any interests therein that GRANTOR may acquire by reversion, prescription, or otherwise) with the following rights and for the following purposes of:

a.) Constructing, utilizing, maintaining, and/or operating a road(s) on the Leased Premises in connection with GRANTEE's operations or business on the Leased Premises, or acreage pooled therewith; and together with all the rights, ways, privileges, easements and servitudes thereunto belonging with or otherwise necessary or expedient, including access, ingress and egress to all Surface Locations (as hereinafter defined below). The initially constructed road shall be at the approximate location shown on the attached Exhibit "A".

b.) Constructing, utilizing, maintaining, and/or operating a pipeline(s) on the leased premises for the transportation of oil, gas, or other liquid or gaseous substance, together with the right of constructing, inspecting, altering, replacing, and removing pipeline equipment, relief valves, meters, fencing, or other facilities or equipment necessary or expedient in connection with in connection with GRANTEE's operations or business in the vicinity; and together with all the rights, ways, privileges, easements and servitudes thereunto belonging with or otherwise necessary or expedient. Although not required by GRANTOR, whenever possible, any pipeline(s) shall be located as near as practical to GRANTEE's road(s) described hereinabove.

c.) Constructing, utilizing, maintaining, and/or operating a Surface Location(s) on the Leased Premises for purposes of drilling, directionally drilling, sidetracking, operating, re-working and/or producing one or more wells, drilled in search of oil, gas, or other liquid or gaseous substance, to be drilled at a bottom hole location(s) beneath either the Leased Premises, or lands pooled therewith, together with the right of constructing, inspecting, altering, replacing, and removing facilities or equipment necessary or expedient in connection with in connection with GRANTEE's operations and together with all the rights, ways, privileges, easements and servitudes thereunto belonging with or otherwise necessary or expedient. Facilities and equipment as used herein, includes, but is not necessarily limited to, well heads, fencing, tank batteries, pumps, compressor stations, heaters, valves, meters, separators, flow lines as all may be necessary or convenient to operate, produce, store and transport oil, gas and other hydrocarbons and associated water and liquids produced from GRANTEE's well(s) located on the Leased Premises. All wells contemplated or authorized to be drilled hereunder are hereinafter referred to as the "Subject Wells", whether such wells are directional wells, straight holes, unit wells, lease wells or salt water disposal wells). GRANTOR also hereby grants and conveys to GRANTEE the right to utilize the subsurface of the Leased Premises for directionally drilling, operating, producing, re-working, sidetracking and otherwise

conducting operations in connection with the Subject Wells as contemplated by this Agreement. GRANTEE is herein granted the right to use the Surface Location for all purposes in connection with its oil and gas operations, including directional drilling and disposal operations (as provided for herein), and including, but not limited to, the right to locate drilling rigs, equipment, tank batteries, pits, disposal wells, separators, heaters, treaters, pumps and such other machinery, appurtenances and appliances that may be required by GRANTEE in the conduct of its operations hereunder on the Surface Location, and to install and remove flow lines and other necessary surface facilities, pipe, casing or other equipment necessary to produce oil, gas or other minerals from any zone, horizon or interval in which any of the Subject Wells drilled hereunder may be completed, and to inject, for secondary recovery purposes (including the right to inject for saltwater disposal purposes), water or other liquid or gaseous substances into any such zone, horizon or interval in which any of the Subject Wells drilled hereunder may be completed. In addition, in the event that any of the Subject Wells are drilled and utilized as a salt water disposal well, same shall be only for such disposal from a Subject Well as contemplated by this Agreement. The initial Surface Location shall be at the approximate location shown on the attached Exhibit "A".

The rights granted to GRANTEE herein include the right to utilize (subject to the payment of monies provided for herein) any road or roads presently existing on the Leased Premises so long as same does not unreasonably interfere with GRANTOR' use thereof. GRANTEE is also specifically granted, subject to the obligation of prior consultation with GRANTOR as to location thereof, time for construction and the like, the right to construct any temporary or permanent road on the Leased Premises and which may be necessary or convenient for GRANTEE's operations hereunder. After GRANTEE has terminated its use of any portion of the Leased Premises, as contemplated herein, any permanent roads situated on any such portion will, at the option of GRANTOR, remain in place after the termination of this agreement and shall thereafter be the responsibility and be maintained by GRANTOR and if GRANTOR elects to retain any such road, GRANTEE shall leave such road in the condition in which it exists upon such election, GRANTEE having no further obligation with respect thereto, including improving or upgrading same, GRANTOR taking same "as is, where is".

GRANTOR acknowledges the receipt of the sum of FIVE THOUSAND AND NO/100 DOLLARS ($5,000.00) cash in hand paid, and other good and valuable consideration, as the initial consideration for the execution of this Agreement and to maintain this Agreement in full force and effect until May 10, 2005. Said initial consideration has been calculated pursuant to the terms and conditions stated herein, as follows:

Roads [1.327 acres x $1,000.00/acre] = $1,327.00
Surface Location [3.673 acres x $1,000.00/acre] = $3,673.00
Pipelines – not applicable at present date (one-time payment)
Land farming - not applicable at present date (one-time payment)
Total Consideration: $5,000.00

GRANTEE shall have the right to renew and extend this Agreement for additional one year periods beyond the expiration of the initial term by paying to GRANTOR the sum of FIVE THOUSAND AND NO/100 DOLLARS ($5,000.00), [unless said amount is amended to be more or less according to the terms herein], said sum being payable to GRANTOR on or before the expiration of the term then in effect and payable annually thereafter on or before each anniversary of the extension of this Agreement; provided, however, that this Agreement shall not terminate for the non-payment of such consideration unless GRANTEE fails to make such payment (i) when due and (ii) within twenty (20) days after receipt of written notice from GRANTOR of GRANTEE's failure of having made such payment; provided further, however, that if GRANTEE fails to make such payment timely then, in order for GRANTEE to maintain its rights hereunder by making the payment within said twenty (20) days after receipt of written notice provided for herein, such payment shall be double the amount otherwise due. Each of the GRANTOR herein authorizes and directs GRANTEE to pay the proportionate shares of the initial payment, and any additional payments made for the extension and renewal of this Agreement, due to each of the GRANTOR by actual delivery of same to the depositories or as otherwise set forth in Exhibit "B" attached hereto and made a part hereof. The said depositories, or their respective successors, shall continue to be depositories for the receipt of the proportionate part of the payment due each of the respective GRANTOR until thirty (30) days after any Grantor has furnished GRANTEE with written notice naming a new depository. Changes

of address and/or changes in ownership of the Leased Premises, shall not be binding on GRANTEE until thirty (30) days after GRANTEE shall have been provided with a certified copy of a recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of GRANTOR, or any new address. The mailing of the check of GRANTEE to GRANTOR at the address and to the person set forth in said Exhibit "B" on or before the rental paying date shall be considered as payment of rental and operate to maintain GRANTEE's right in force and effect.

In the event GRANTEE should need to use additional portions of the Leased Premises in connection with the placement of roads or Surface Locations, GRANTEE shall, pay GRANTOR, effective at the next ensuing rental date, at the rate of ONE THOUSAND AND NO/100 DOLLARS ($1,000.00) per acre per annum, as to the portion(s) of the Leased Premises utilized for the placement of said roads or Surface Locations and as to which GRANTOR are not being otherwise paid pursuant hereto.

Notwithstanding the provisions of The Leases or any future leases taken by GRANTEE or its partners, this Agreement shall supersede any surface rental/usage and payment provisions provided for in the St. Mary Leases (i.e. Paragraph 17) and shall be separate and distinct from (i.e. not in addition to) any surface rental/usage provisions provided for in the ENCO Leases. Both The Leases and this Agreement may run concurrently and expire on different dates. The expiration of this Agreement does not work to terminate any of The Leases and vice versa.

Except to the extent of the rights granted to GRANTEE herein, GRANTOR reserves to themselves the full use of the said Leased Premises, including the Surface Location, and shall be free to utilize same for any and all purposes, including granting rights therein to third parties, but all at their own risk and liability and so long as same does not unreasonably interfere with the rights of GRANTEE hereunder. In addition to any other monies paid hereunder, GRANTEE shall pay any of GRANTOR's tenant farmers for any crop damages caused by GRANTEE's operations hereunder at the current fair market value. Further, should GRANTEE's operations damage any of GRANTOR's timber on the Leased Premises, then GRANTOR shall be reimbursed at the current fair market value.

Any water production system, including water wells, which may be drilled or established on the Leased Premises during the term and pursuant to the provisions hereof shall, at the termination of this lease, and at the option of GRANTOR, become owned by, and GRANTEE shall transfer all of its right, title and interest therein to GRANTOR; provided, however, that such transfer shall be on an "as is, where is" basis without any warranty of fitness, capacity or capability and the ownership thereof from and after the transfer shall be at the sole risk and expense of GRANTOR.

In the event GRANTEE should need to use the Leased Premises in connection with the placement of flow lines or pipelines and not otherwise have the right to do so under the terms of the Subject Lease, GRANTEE shall, pay GRANTOR a one-time payment payable at the rate of FIFTY AND NO/100 DOLLARS ($50.00) per rod, plus damages, as to the portion(s) of the Leased Premises utilized for the placement of said flow lines and as to which GRANTOR are not being otherwise paid pursuant hereto. Said pipeline payment shall be included in the next ensuing rental payment due, but shall be a one-time payment, and not a reoccurring rental.

GRANTEE's operations shall be conducted in a good and workmanlike manner as a reasonable and prudent operator and GRANTEE shall be responsible for any and all damages occasioned by the exercise of these rights.

The rights of GRANTEE transferred and acquired hereunder shall continue for as such time as GRANTEE has use of the road or roads, pipeline or pipelines, Surface Location or Surface Locations constructed hereunder for access to and servicing of one or more Subject Wells located on the Leased Premises or acreage pooled therewith. Anything herein contained to the contrary notwithstanding, GRANTEE may terminate this Agreement, at its sole option and discretion, by notifying GRANTOR in writing thirty (30) days before the anniversary date of the Effective Date hereof of any calendar year that it wishes to terminate this Agreement. Furthermore, GRANTEE agrees to execute and deliver to GRANTOR a recordable instrument acknowledging the termination

of the rights granted hereunder within thirty (30) days from the date of termination or expiration as provided for herein.

It is specifically understood that, notwithstanding anything to the contrary contained herein, if the rights granted herein are not utilized by GRANTEE for more than two (2) consecutive years, then this Agreement and the rights granted herein shall automatically cease and be of no further force and effect, even despite any payment made hereunder. It is to be considered, however, that such rights are being exercised, in the absence of actual production, drilling, reworking, pipeline transmission, secondary recovery or other operations being conducted by GRANTEE, whenever surface facilities, production pipe or casing remain in place for any well capable of commercial production drilled by GRANTEE hereunder; provided, however, that in no event shall GRANTEE's rights be so extended without such drilling operations or production for more than two (2) consecutive years; and provided further, however, that nothing herein shall be construed as relieving GRANTEE from making the payments provided for elsewhere herein in order to maintain this Agreement in force and effect.

Within one hundred twenty (120) days after the completion or abandonment of each of the Subject Well(s) or any and all other operations hereunder, the land surrounding said well (the surface of which may have been disturbed by the operations hereunder) shall be restored by GRANTEE to as near its condition prior to being so disturbed as is reasonably practicable under the circumstances. All lumber, bits of metal, gaskets, rubber or other trash shall be picked up and removed from the Leased Premises before bulldozing or dragline operations or other clean-up operations commence. In the event GRANTEE does not comply with such clean-up obligations after demand has been made to do so, GRANTOR may have the necessary work done to accomplish this at GRANTEE's cost, even if this Agreement has otherwise terminated; provided, however, that GRANTOR shall have the right to require GRANTEE to so reimburse or otherwise be responsible for such costs only if the work is performed within six (6) months after the termination of this Agreement.

GRANTOR hereby also grants GRANTEE the right to use any Surface Location as well as that portion of the Leased Premises in the form of a square around any of the Subject Wells and containing no more than ten (10) acres) for the disposal and "land farming" of such materials and liquids produced and/or utilized by GRANTEE in connection with its operations on the Leased Premises, including drilling and related fluids and other non-hazardous oil field wastes (hereinafter collectively called "NOW"), as well as the trenching and burying of shale cuttings, at any time during the term of this agreement. The disposal of the NOW may be done on the Leased Premises, and such disposal shall be conducted as would a reasonable and prudent operator of oil and gas wells in South Louisiana, but shall be done only in strict compliance with all Federal and State regulations concerning the disposal of such drilling fluids and NOW including, but not necessarily limited to, the provisions of Louisiana Office of Conservation, Statewide Order No. 29-B. Furthermore, in the event GRANTEE should conduct such land farming operations, GRANTEE shall so notify GRANTOR thereof in writing prior to the commencement thereof in order to allow GRANTOR to witness such operations and consult with GRANTEE in connection therewith. Furthermore, GRANTEE shall furnish GRANTOR copies of any and all reports, permits, test data and related matters furnished to or by the said Louisiana Office of Conservation relating to such land farming operations. GRANTOR further grants GRANTEE the right to use a portion of the Leased Premises to dispose of any drilling mud, compounds, fluids or chemicals, exclusive of salt water, by annular injection as permitted by the then current Louisiana Statewide Order No. 29-B or other applicable order of the Louisiana Office of Conservation. All of such land farming and annular injection operations shall be conducted in a good and workmanlike manner and GRANTEE shall be responsible for any and all damages occasioned by the exercise of these rights. The perimeter of the area to be used for the above-noted land farming may be altered by GRANTEE, but it is understood and agreed that said area shall never exceed ten (10) acres for each of the Subject Wells drilled hereunder. In the event GRANTEE should need to use a portion of the Leased Premises in connection with said land farming, GRANTEE shall pay GRANTOR at the rate of ONE THOUSAND AND NO/100 DOLLARS ($1,000.00) per acre, as to the portion(s) of the Leased Premises utilized for said land farming and as to which GRANTOR are not being otherwise paid pursuant hereto. Said land farming payment shall be included in the next ensuing rental payment due, but shall be a one-time payment, and not a reoccurring rental.

No assignment, sublease, transfer or conveyance of this agreement, in whole or in part, shall be binding upon GRANTOR unless and until the instrument accomplishing same is furnished to GRANTOR. In any such instrument, the assignee(s) shall take cognizance of all of the terms and provisions of this agreement, including all amendments, supplements, partial releases and other agreements pertaining thereto, and agree to comply therewith and to be bound by all of the obligations imposed upon GRANTEE herein; provided, however, that in the event GRANTEE does not remain obligated to GRANTOR under such assignment or transfer, then GRANTOR must approve and accept such assignee or transferee. Such approval shall not be unreasonably withheld.

GRANTEE agrees to indemnify, defend and hold GRANTOR harmless, against all claims, demands or suits for damages to persons or property and/or loss of any kind, arising out of or in any way connected with GRANTEE's (or any of GRANTEE's employees, agents, subcontractors and/or their employees or agents) operations on or occupancy of the Leased Premises, including but not limited to any damage or injury, including death, to GRANTOR or any third person(s), directly or indirectly, or in any way connected with, any matter arising out of the exercise of the rights granted hereunder, including but not limited to the improper or inadequate plugging or abandonment of any well or wells drilled hereunder on the Leased Premises, provided that said claim, demand, or suit does not involve GRANTOR's negligence or willful misconduct.

In the event GRANTOR considers that GRANTEE has failed to comply with one or more of its obligations hereunder, either express or implied GRANTOR shall notify GRANTEE in writing, setting out specifically in what respects GRANTOR claims GRANTEE has breached this agreement. The service of such notice and the lapse of sixty (60) days without GRANTEE's meeting or commencing to meet the alleged breach(es) shall be a condition precedent to any action by GRANTOR on this agreement for any cause, if within sixty (60) days after receipt of such notice, GRANTEE shall meet or commence to meet the breach(es) alleged by GRANTOR, GRANTEE shall not be deemed in default hereunder. Neither the doing by GRANTEE of any acts aimed to meet all or any of the alleged breaches nor its failure so to act, shall be deemed an admission or presumption that GRANTEE has failed to perform any of its obligations hereunder. The breach by GRANTEE of any obligation hereunder shall not work a forfeiture or termination, in whole or in part, of this agreement.

All Notices required, or to be sent hereunder shall be sent by registered mail, or by certified mail, and shall be binding on the parties hereto, as well as their heirs, executors, successors and assigns, if sent:

(a) to the GRANTOR: Johnson Boudreaux Farm
ATTN: Mr. Alfred Bourdier
1543 Oakwood Drive
Lake Charles, Louisiana 70611
(337) 855-2854

(b) to the GRANTEE: St. Mary Energy Company
ATTN: Land Dept.
580 Westlake Park Boulevard, Suite 600
Houston, TX 77079
(281) 677-2800

GRANTOR does hereby appoint the said Alfred Bourdier as hereinabove identified, as GRANTOR' agent for the purpose of granting any consent and/or giving and/or receiving any notices or demands required by this Agreement. GRANTOR reserves the right, from time to time, to designate a different or an additional party as its agent. No change as to GRANTOR's agent shall be binding upon GRANTEE until GRANTEE has been furnished with notice in writing, from GRANTOR or from said designated agent, giving the name and address of such designated agent.

Further, should a water well be drilled on GRANTOR's land for the drilling of said oil and gas well, then at the completion of GRANTEE's use of said water well it shall upon written request of GRANTOR assign the ownership of said water well to GRANTOR, with GRANTOR becoming responsible for its maintenance, condition and liabilities associated with said ownership. The parties hereto agree to execute a "Water Well Transfer Document" evidencing said transfer.

GRANTEE, at its option (in addition to any other remedies it may have), may discharge any tax, mortgage or other lien upon the leased premises, either in whole or in part, and in the event GRANTEE does so, it shall be subrogated to such lien with the right to enforce same and apply payments which may become due hereunder towards satisfying same GRANTEE may purchase or lease the rights of any party claiming any interest in the leased premises, and shall not thereby be deemed to have questioned or attacked the title of GRANTOR.

Since both GRANTEE and GRANTOR have had a full and complete opportunity to review this Agreement, and has been given the opportunity to have counsel review it, the Parties agree that the legal principles of construing ambiguities against the drafter shall have no application to this Agreement.

All of the terms and conditions hereof shall be binding on the heirs, successors and assigns of the parties hereto. This Agreement may be executed in counterparts, each of which so executed shall be given the effect of execution of the original Agreement. Failure of any party hereto to execute this Agreement shall not render it ineffective as to any party hereto which does execute same. If counterparts of this Agreement are executed, the signatures and acknowledgments of the parties, as affixed thereto, may be combined and treated and given effect for all purposes as, a single instrument. This Agreement also may be ratified by separate instrument referring hereto, each of which shall have the effect of the original Agreement and of adopting by reference all of the provisions herein.

IN WITNESS WHEREOF, this Agreement is executed effective as of the date first above written.

EXHIBIT "A"

EXHIBIT "B"

ATTACHED TO THAT CERTAIN "ROAD AND SURFACE LEASE, PIPELINE RIGHT OF WAY AND LAND FARMING AGREEMENT," BY AND BETWEEN ALFRED BOURDIER, ET AL, AS GRANTOR, IN FAVOR OF ST. MARY ENERGY COMPANY, AS GRANTEE, DATED EFFECTIVE MAY 10, 2004.

GRANTEE shall pay to GRANTOR the rental due hereunder on or before May 10th of each year while this Agreement is in effect in the interests as set forth below at the Depository Banks named below. Should the acreage used by GRANTOR increase or decrease then, or any additional one-time payments be due for pipelines or land farming, then GRANTEE shall notify GRANTOR of said change and the rental payment will be adjusted accordingly. The first annual payment shall be due and payable on May 10, 2005, to the following recipients in the following proportions, to-wit:

RENTAL RECIPIENT	PERCENT OF RENTAL	DEPOSITORY BANK
JOHNSON BOUDREAUX FARM	100.0%	c/o: 1543 Oakwood Drive Lake Charles, LA 70611

It is understood and agreed that the above division of interest covers only the payment of rentals and does not purport to cover the ownership of the property covered by this agreement. Each individual GRANTOR agrees that the timely payment or tender of rentals as set forth above will protect this agreement and continue it in force and effect as to GRANTOR'S interest for said one year period.

MODEL FORM RECORDING SUPPLEMENT TO
OPERATING AGREEMENT AND FINANCING STATEMENT

THIS AGREEMENT, entered into by and between ST. MARY ENERGY COMPANY, hereinafter referred to as "Operator," and the signatory party or parties other than Operator, hereinafter referred to individually as "Non-Operator," and collectively as "Non-Operators."

WHEREAS, the parties to this agreement are owners of Oil and Gas Leases and/or Oil and Gas Interests in the land identified in Exhibit "A" (said land, Leases and Interests being hereinafter called the "Contract Area"), and in any instance in which the Leases or Interests of a party are not of record, the record owner and the party hereto that owns the interest or rights therein are reflected on Exhibit "A";

WHEREAS, the parties hereto have executed an Operating Agreement dated March 23, 2004 (herein the "Operating Agreement"), covering the Contract Area for the purpose of exploring and developing such lands, Leases and Interests for Oil and Gas/; and a copy of which may be obtained from the partners hereto

WHEREAS, the parties hereto have executed this agreement for the purpose of imparting notice to all persons of the rights and obligations of the parties under the Operating Agreement and for the further purpose of perfecting those rights capable of perfection.

NOW, THEREFORE, in consideration of the mutual rights and obligations of the parties hereto, it is agreed as follows:

1. This agreement supplements the Operating Agreement, which Agreement in its entirety is incorporated herein by reference, and all terms used herein shall have the meaning ascribed to them in the Operating Agreement.

2. The parties do hereby agree that:

A. The Oil and Gas Leases and/or Oil and Gas Interests of the parties comprising the Contract Area shall be subject to and burdened with the terms and provisions of this agreement and the Operating Agreement, and the parties do hereby commit such Leases and Interests to the performance thereof.

B. The exploration and development of the Contract Area for Oil and Gas shall be governed by the terms and provisions of the Operating Agreement, as supplemented by this agreement.

C. All costs and liabilities incurred in operations under this agreement and the Operating Agreement shall be borne and paid, and all equipment and materials acquired in operations on the Contract Area shall be owned, by the parties hereto, as provided in the Operating Agreement.

D. Regardless of the record title ownership to the Oil and Gas Leases and/or Oil and Gas Interests identified on Exhibit "A," all production of Oil and Gas from the Contract Area shall be owned by the parties as provided in the Operating Agreement; provided nothing contained in this agreement shall be deemed an assignment or cross-assignment of interests covered hereby.

E. Each party shall pay or deliver, or cause to be paid or delivered, all burdens on its share of the production from the Contract Area as provided in the Operating Agreement.

F. An overriding royalty, production payment, net profits interest or other burden payable out of production hereafter created, assignments of production given as security for the payment of money and those overriding royalties, production payments and other burdens payable out of production heretofore created and defined as Subsequently Created Interests in the Operating Agreement shall be (i) borne solely by the party whose interest is burdened therewith, (ii) subject to suspension if a party is required to assign or relinquish to another party an interest which is subject to such burden, and (iii) subject to the lien and security interest hereinafter provided if the party subject to such burden fails to pay its share of expenses chargeable hereunder and under the Operating Agreement, all upon the terms and provisions and in the times and manner provided by the Operating Agreement.

G. The Oil and Gas Leases and/or Oil and Gas Interests which are subject hereto may not be assigned or transferred except in accordance with those terms, provisions and restrictions in the Operating Agreement regulating such transfers. This agreement and the Operating Agreement shall be binding upon and shall inure to the benefit of the parties hereto, and their respective heirs, devisees, legal representatives, and assigns, and the terms hereof shall be deemed to run with the leases or interests included within the lease Contract Area.

H. The parties shall have the right to acquire an interest in renewal, extension and replacement leases, leases proposed to be surrendered, wells proposed to be abandoned, and interests to be relinquished as a result of non-participation in subsequent operations, all in accordance with the terms and provisions of the Operating Agreement.

I. The rights and obligations of the parties and the adjustment of interests among them in the event of a failure or loss of title, each party's right to propose operations, obligations with respect to participation in operations on the Contract Area and the consequences of a failure to participate in operations, the rights and obligations of the parties regarding the marketing of production, and the rights and remedies of the parties for failure to comply with financial obligations shall be as provided in the Operating Agreement.

J. Each party's interest under this agreement and under the Operating Agreement shall be subject to relinquishment for its failure to participate in subsequent operations and each party's share of production and costs shall be reallocated on the basis of such relinquishment, all upon the terms and provisions provided in the Operating Agreement.

K. All other matters with respect to exploration and development of the Contract Area and the ownership and transfer of the Oil and Gas Leases and/or Oil and Gas Interest therein shall be governed by the terms and provisions of the Operating Agreement.

3. The parties hereby grant reciprocal liens and security interests as follows:

A. Each party grants to the other parties hereto a lien upon any interest it now owns or hereafter acquires in Oil and Gas Leases and Oil and Gas Interests in the Contract Area, and a security interest and/or purchase money security interest in any interest it now owns or hereafter acquires in the personal property and fixtures on or used or obtained for use in connection therewith, to secure performance of all of its obligations under this agreement and the Operating Agreement including but not limited to payment of expense, interest and fees, the proper disbursement of all monies paid under this agreement and the Operating Agreement, the assignment or relinquishment of interest in Oil and Gas Leases as required under this agreement and the Operating Agreement, and the proper performance of operations under this agreement and the Operating Agreement. Such lien and security interest granted by each party hereto shall include such party's leasehold interests, working interests, operating rights, and royalty and overriding royalty interests in the Contract Area now owned or hereafter acquired and in lands pooled or unitized therewith or otherwise becoming subject to this agreement and the Operating Agreement, the Oil and Gas when extracted therefrom and equipment situated thereon or used or obtained for use in connection therewith (including, without limitation, all wells, tools, and tubular goods), and accounts (including, without limitation, accounts arising from the sale of production at the wellhead),

606303

contract rights, inventory and general intangibles relating thereto or arising therefrom, and all proceeds and products of the foregoing.

B. Each party represents and warrants to the other parties hereto that the lien and security interest granted by such party to the other parties shall be a first and prior lien, and each party hereby agrees to maintain the priority of said lien and security interest against all persons acquiring an interest in Oil and Gas Leases and Interests covered by this agreement and the Operating Agreement by, through or under such party. All parties acquiring an interest in Oil and Gas Leases and Oil and Gas Interests covered by this agreement and the Operating Agreement, whether by assignment, merger, mortgage, operation of law, or otherwise, shall be deemed to have taken subject to the lien and security interest granted by the Operating Agreement and this instrument as to all obligations attributable to such interest under this agreement and the Operating Agreement whether or not such obligations arise before or after such interest is acquired.

C. To the extent that the parties have a security interest under the Uniform Commercial Code of the state in which the Contract Area is situated, they shall be entitled to exercise the rights and remedies of a secured party under the Code. The bringing of a suit and the obtaining of judgment by a party for the secured indebtedness shall not be deemed an election of remedies or otherwise affect the lien rights or security interest as security for the payment thereof. In addition, upon default by any party in the payment of its share of expenses, interest or fees, or upon the improper use of funds by the Operator, the other parties shall have the right, without prejudice to other rights or remedies, to collect from the purchaser the proceeds from the sale of such defaulting party's share of Oil and Gas until the amount owed by such party, plus interest, has been received, and shall have the right to offset the amount owed against the proceeds from the sale of such defaulting party's share of Oil and Gas. All purchasers of production may rely on a notification of default from the non-defaulting party or parties stating the amount due as a result of the default, and all parties waive any recourse available against purchasers for releasing production proceeds as provided in this paragraph.

D. If any party fails to pay its share of expenses within one hundred-twenty (120) days after rendition of a statement therefor by Operator the non-defaulting parties, including Operator, shall, upon request by Operator, pay the unpaid amount in the proportion that the interest of each such party bears to the interest of all such parties. The amount paid by each party so paying its share of the unpaid amount shall be secured by the liens and security rights described in this paragraph 3 and in the Operating Agreement, and each paying party may independently pursue any remedy available under the Operating Agreement or otherwise.

E. If any party does not perform all of its obligations under this agreement or the Operating Agreement, and the failure to perform subjects such party to foreclosure or execution proceedings pursuant to the provisions of this agreement or the Operating Agreement, to the extent allowed by governing law, the defaulting party waives any available right of redemption from and after the date of judgment, any required valuation or appraisement of the mortgaged or secured property prior to sale, any available right to stay execution or to require a marshalling of assets and any required bond in the event a receiver is appointed. In addition, to the extent permitted by applicable law, each party hereby grants to the other parties a power of sale as to any property that is subject to the lien and security rights granted hereunder or under the Operating Agreement, such power to be exercised in the manner provided by applicable law or otherwise in a commercially reasonable manner and upon reasonable notice.

F. The lien and security interest granted in this paragraph 3 supplements identical rights granted under the Operating Agreement.

G. To the extent permitted by applicable law, Non-Operators agree that Operator may invoke or utilize the mechanics' or materialmen's lien law of the state in which the Contract Area is situated in order to secure the payment to Operator of any sum due under this agreement and the Operating Agreement for services performed or materials supplied by Operator.

H. The above described security will be financed at the wellhead of the well or wells located on the Contract Area and this Recording Supplement may be filed in the land records in the County or Parish in which the Contract Area is located, and as a financing statement in all recording offices required under the Uniform Commercial Code or other applicable state statutes to perfect the above-described security interest, and any party hereto may file a continuation statement as necessary under the Uniform Commercial Code, or other state laws.

4. This agreement shall be effective as of the date of the Operating Agreement as above recited. Upon termination of this agreement and the Operating Agreement and the satisfaction of all obligations thereunder, Operator is authorized to file of record in all necessary recording offices a notice of termination, and each party hereto agrees to execute such a notice of termination as to Operator's interest, upon the request of Operator, if Operator has complied with all of its financial obligations.

5. This agreement and the Operating Agreement shall be binding upon and shall inure to the benefit of the parties hereto and their respective heirs, devisees, legal representatives, successors and assigns. No sale, encumbrance, transfer or other disposition shall be made by any party of any interest in the Leases or Interests subject hereto except as expressly permitted under the Operating Agreement and, if permitted, shall be made expressly subject to this agreement and the Operating Agreement and without prejudice to the rights of the other parties. If the transfer is permitted, the assignee of an ownership interest in any Oil and Gas Lease shall be deemed a party to this agreement and the Operating Agreement as to the interest assigned from and after the effective date of the transfer of ownership; provided, however, that the other parties shall not be required to recognize any such sale, encumbrance, transfer or other disposition for any purpose hereunder until thirty (30) days after they have received a copy of the instrument of transfer or other satisfactory evidence thereof in writing from the transferor or transferee. No assignment or other disposition of interest by a party shall relieve such party of obligations previously incurred by such party under this agreement or the Operating Agreement with respect to the interest transferred, including without limitation the obligation of a party to pay all costs attributable to an operation conducted under this agreement and the Operating Agreement in which such party has agreed to participate prior to making such assignment, and the lien and security interest granted by Article VII.B. of the Operating Agreement and hereby shall continue to burden the interest transferred to secure payment of any such obligations.

6. In the event of a conflict between the terms and provisions of this agreement and the terms and provisions of the Operating Agreement, then, as between the parties, the terms and provisions of the Operating Agreement shall control.

7. This agreement shall be binding upon each Non-Operator when this agreement or a counterpart thereof has been executed by such Non-Operator and Operator notwithstanding that this agreement is not then or thereafter executed by all of the parties to which it is tendered or which are listed on Exhibit "A" as owning an interest in the Contract Area or which own, in fact, an interest in the Contract Area. In the event that any provision herein is illegal or unenforceable, the remaining provisions shall not be affected, and shall be enforced as if the illegal or unenforceable provision did not appear herein.

8. Other provisions.

~~_____, who has prepared and circulated this form for execution, represents and warrants that the form was printed from and, with the exception(s) listed below, is identical to the AAPL Form 610RS-1989 Model Form Recording Supplement to Operating Agreement and Financing Statement, as published in computerized form by Forms On-A-Disk, Inc. No changes, alterations, or modifications, other than those made by strikethrough and/or insertion and that are clearly recognizable as changes in Articles _____, have been made to the form.~~

IN WITNESS WHEREOF, this agreement shall be effective as of the 23 day of March, year: 2004,

PARTIAL SUBLEASE OF OIL, GAS AND MINERAL LEASES

STATE OF LOUISIANA

§ KNOW ALL MEN BY THESE PRESENTS:

PARISH OF JEFFERSON DAVIS

THAT, for Ten Dollars ($10.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, ENCO Resources, Inc., whose mailing address is P. O. Box 5738, Humble, Texas 77325-5738, hereinafter referred to as "Sublessor", does hereby Grant, Demise, Sublease and Sublet unto St. Mary Energy Company, whose mailing address is 580 Westlake Park Blvd., Suite 600, Houston, Texas 77079, hereinafter referred to as "Sublessee," all of Sublessor's right, title and interest in and to those oil, gas and mineral leases (hereinafter referred to as said "Leases") described in Exhibit "A" attached to and made a part hereof.

This Partial Sublease is made and accepted in accordance with that certain unrecorded Farmout Agreement dated January 21, 2004, by and between ENCO Resources, Inc., as FARMOR, and St. Mary Energy Company, as FARMEE, (including any written amendments thereto) and this Partial Sublease and said Farmout Agreement shall be construed as comprising but one instrument and agreement, and in the event of conflict between this Partial Sublease and the said Farmout Agreement, the provisions of this Partial Sublease shall prevail. Without in any way limiting the foregoing, it is distinctly understood and agreed that all of the terms and provisions of said Farmout Agreement are in full force and effect exactly as if herein set out verbatim in full.

610427

There is hereby reserved and excepted unto Sublessor, and unto its successors and assigns, an overriding royalty interest on all of the oil and gas and other hydrocarbons produced and saved from or allocated to the subleased premises equal to three percent (3%), to be delivered into tanks or pipeline, free and clear of all cost of exploring, drilling, producing, separating, treating and marketing, but shall bear its proportionate part of all excise, production, severance or other similar taxes as applicable to such production. Upon Payout, as defined in the said Farmout Agreement, Sublessor shall the right and option, to convert its overriding royalty interest to twenty-five percent (25%) of eight-eighths (8/8ths) of the working interest in and to the oil and gas leases effectively conveyed by this Partial Sublease together with a like interest in all lease equipment and personal property in or used in connection therewith subject to ENCO's proportionate part of any royalties, overriding royalty interests, production payments, or similar lease burdens created and existing as of the effective date hereof, all in accordance with the said Farmout Agreement. If said Leases cover less than the full mineral interest or if Sublessor owns less than the full leasehold interest in said Leases, such overriding royalty interest and working interest herein reserved shall be proportionately reduced on a lease-by-lease basis in the proportion that Sublessor's leasehold interest in the subleased premises bears to the full leasehold interest in same.

Sublessee hereby assumes and agrees to comply with all obligations and covenants, express or implied, imposed upon the lessee in said Leases or contained in any intermediate sublease thereof insofar as concerns the interest and premises included in this Partial Sublease, and agrees to indemnify and to save harmless Sublessor from any risk, liability or expense of whatsoever kind accruing thereunder from and after the effective date of said Farmout Agreement.

There is hereby reserved and excepted unto Sublessor, and unto its successors and assigns, all depths, formations, and interests (including the right of ingress and egress and all rights to explore, develop, and produce same, with the right to drill above, below or through the subleased premises to reach shallower or deeper formations) not specifically included in this Partial Sublease.

This Partial Sublease is made without warranty of title, either express or implied, except as to acts by, through or under Sublessor. Further, this Partial Sublease is subject to all prior encumbrances.

TO HAVE AND TO HOLD the interest subleased herein to Sublessee, subject to the terms, covenants and conditions hereof which shall be binding upon and shall inure to the benefit of Sublessor and Sublessee and their respective successors and assigns.

EXECUTED THIS 11th day of January, 2005, but effective as of December 20, 2004.

§ KNOW ALL MEN BY THESE PRESENTS:

PARISH OF JEFFERSON DAVIS

THAT, for Ten Dollars ($10.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, ARJUNA LLC, whose mailing address is 2445 South Zephyr Way, Lakewood, CO 80227-3200, hereinafter referred to as "Sublessor", does hereby Grant, Demise, Sublease and Sublet unto St. Mary Energy Company, whose mailing address is 580 Westlake Park Blvd., Suite 600, Houston, Texas 77079, hereinafter referred to as "Sublessee," all of Sublessor's right, title and interest in and to those oil, gas and mineral leases (hereinafter referred to as said "Leases") described in Exhibit "A" attached to and made a part hereof.

610428

This Partial Sublease is made and accepted in accordance with that certain unrecorded Farmout Agreement dated effective February 10, 2004, by and between ARJUNA LLC, as FARMOR, and St. Mary Energy Company, as FARMEE, (including any written amendments thereto) and this Partial Sublease and said Farmout Agreement shall be construed as comprising but one instrument and agreement, and in the event of conflict between this Partial Sublease and the said Farmout Agreement, the provisions of this Partial Sublease shall prevail. Without in any way limiting the foregoing, it is distinctly understood and agreed that all of the terms and provisions of said Farmout Agreement are in full force and effect exactly as if herein set out verbatim in full.

There is hereby reserved and excepted unto Sublessor, and unto its successors and assigns, an overriding royalty interest on all of the oil and gas and other hydrocarbons produced and saved from or allocated to the subleased premises equal to three percent (3%), to be delivered into tanks or pipeline, free and clear of all cost of exploring, drilling, producing, separating, treating and marketing, but shall bear its proportionate part of all excise, production, severance or other similar taxes as applicable to such production. Upon Payout, as defined in the said Farmout Agreement, Sublessor shall the right and option, to convert its overriding royalty interest to twenty-five percent (25%) of eight-eighths (8/8ths) of the working interest in and to the oil and gas leases effectively conveyed by this Partial Sublease together with a like interest in all lease equipment and personal property in or used in connection therewith subject to ARJUNA's proportionate part of any royalties, overriding royalty interests, production payments, or similar lease burdens created and existing as of the effective date hereof, all in accordance with the said Farmout Agreement. If said Leases cover less than the full mineral interest or if Sublessor owns less than the full leasehold interest in said Leases, such overriding royalty interest and working interest herein reserved shall be proportionately reduced on a lease-by-lease basis in the proportion that Sublessor's leasehold interest in the subleased premises bears to the full leasehold interest in same.

Sublessee hereby assumes and agrees to comply with all obligations and covenants, express or implied, imposed upon the lessee in said Leases or contained in any intermediate sublease thereof insofar as concerns the interest and premises included in this Partial Sublease, and agrees to indemnify and to save harmless Sublessor from any risk, liability or expense of whatsoever kind accruing thereunder from and after the effective date of said Farmout Agreement.

There is hereby reserved and excepted unto Sublessor, and unto its successors and assigns, all depths, formations, and interests (including the right of ingress and egress and all rights to explore, develop, and produce same, with the right to drill above, below or through the subleased premises to reach shallower or deeper formations) not specifically included in this Partial Sublease.

This Partial Sublease is made without warranty of title, either express or implied, except as to acts by, through or under Sublessor. Further, this Partial Sublease is subject to all prior encumbrances.

TO HAVE AND TO HOLD the interest subleased herein to Sublessee, subject to the terms, covenants and conditions hereof which shall be binding upon and shall inure to the benefit of Sublessor and Sublessee and their respective successors and assigns.

EXECUTED THIS 3 day of JANUARY, 2005, but effective as of December 20, 2004.

JEFFERSON DAVIS PARISH

PARTIAL SUBLEASE OF OIL, GAS AND MINERAL LEASES

STATE OF LOUISIANA §
PARISH OF JEFFERSON DAVIS

KNOW ALL MEN BY THESE PRESENTS:

THAT, for Ten Dollars ($10.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Continental Land & Fur Co., Inc., whose mailing address is 450 Gears Road, Suite 700, Houston, Texas 77067-4534, hereinafter referred to as "Sublessor", does hereby Grant, Demise, Sublease and Sublet unto St. Mary Energy Company, whose mailing address is 580 Westlake Park Blvd., Suite 600, Houston, Texas 77079, hereinafter referred to as "Sublessee," all of Sublessor's right, title and interest in and to those oil, gas and mineral leases (hereinafter referred to as said "Leases") described in Exhibit "A" attached to and made a part hereof.

This Partial Sublease is made and accepted in accordance with that certain unrecorded Farmout Agreement dated effective March 1, 2004, by and between Continental Land & Fur Co., Inc., as FARMOR, and St. Mary Energy Company, as FARMEE, (including any written amendments thereto) and this Partial Sublease and said Farmout Agreement shall be construed as comprising but one instrument and agreement, and in the event of conflict between this Partial Sublease and the said Farmout Agreement, the provisions of this Partial Sublease shall prevail. Without in any way limiting the foregoing, it is distinctly understood and agreed that all of the terms and provisions of said Farmout Agreement are in full force and effect exactly as if herein set out verbatim in full.

610430

There is hereby reserved and excepted unto Sublessor, and unto its successors and assigns, an overriding royalty interest on all of the oil and gas and other hydrocarbons produced and saved from or allocated to the subleased premises equal to three percent (3%), to be delivered into tanks or pipeline, free and clear of all cost of exploring, drilling, producing, separating, treating and marketing, but shall bear its proportionate part of all excise, production, severance or other similar taxes as applicable to such production. Upon Payout, as defined in the said Farmout Agreement, Sublessor shall have the right and option, to convert its overriding royalty interest to twenty-five percent (25%) of eight-eighths (8/8ths) of the working interest in and to the oil and gas leases effectively conveyed by this Partial Sublease together with a like interest in all lease equipment and personal property in or used in connection therewith subject to Sublessor's proportionate part of any royalties, overriding royalty interests, production payments, or similar lease burdens created and existing as of the effective date hereof, all in accordance with the said Farmout Agreement. If said Leases cover less than the full mineral interest or if Sublessor owns less than the full leasehold interest in said Leases, such overriding royalty interest and working interest herein reserved shall be proportionately reduced on a lease-by-lease basis in the proportion that Sublessor's leasehold interest in the subleased premises bears to the full leasehold interest in same.

Sublessee hereby assumes and agrees to comply with all obligations and covenants, express or implied, imposed upon the lessee in said Leases or contained in any intermediate sublease thereof insofar as concerns the interest and premises included in this Partial Sublease, and agrees to indemnify and to save harmless Sublessor from any risk, liability or expense of whatsoever kind accruing thereunder from and after the effective date of said Farmout Agreement.

There is hereby reserved and excepted unto Sublessor, and unto its successors and assigns, all depths, formations, and interests (including the right of ingress and egress and all rights to explore, develop, and produce same, with the right to drill above, below or through the subleased premises to reach shallower or deeper formations) not specifically included in this Partial Sublease.

This Partial Sublease is made without warranty of title, either express or implied, except as to acts by, through or under Sublessor. Further, this Partial Sublease is subject to all prior encumbrances.

TO HAVE AND TO HOLD the interest subleased herein to Sublessee, subject to the terms, covenants and conditions hereof which shall be binding upon and shall inure to the benefit of Sublessor and Sublessee and their respective successors and assigns.

This Partial Sublease is made and accepted in accordance with that certain unrecorded Participation Agreement dated March 23, 2004, by and between Sublessor and Sublessees, (including any written amendments thereto) and this Partial Sublease and said Participation Agreement shall be construed as comprising but one instrument and agreement, and in the event of conflict between this Partial Sublease and the said Participation Agreement, the provisions of the said Participation Agreement and any Exhibits attached thereto shall prevail. Without in any way limiting the foregoing, it is distinctly understood and agreed that all of the terms and provisions of said Participation Agreement and all Exhibits thereto are in full force and effect exactly as if herein set out verbatim in full.

Sublessees hereby assume and agree to comply with all obligations and covenants, express or implied, imposed upon the lessee in said Leases or contained in any intermediate sublease thereof insofar as concerns the interest and premises included in this Partial Sublease, and agrees to indemnify and to save harmless Sublessor from any risk, liability or expense of whatsoever kind accruing thereunder from and after the effective date of said Participation Agreement, subject to the terms of the applicable operating agreement. Such indemnity shall be proportionate to the interest acquired by Sublessees.

Sublessees agree to assume the obligations of any oil, gas, casinghead gas purchase agreements or other agreements of any kind whatsoever (if any) to which the subleased premises may be subject, such assumption to be proportionate to the interest acquired by Sublessees.

TO HAVE AND TO HOLD the subject Leases, subject to all existing encumbrances, together with all and singular the rights and appurtenances thereto and anywise belonging unto Sublessees, its successors, assigns and legal representatives, forever. THIS PARTIAL SUBLEASE IS MADE WITHOUT WARRANTY OF TITLE, EITHER EXPRESS, IMPLIED OR STATUTORY EXCEPT AS TO CLAIMS OF ALL PERSONS CLAIMING BY, THROUGH AND UNDER SUBLESSOR (OTHER THAN CLAIMS UNDER THE PRIOR AGREEMENTS), BUT NOT OTHERWISE, AND WITH FULL SUBSTITUTION AND SUBROGATION OF SUBLESSEE AND ALL PERSONS CLAIMING BY, THROUGH AND UNDER SUBLESSEE, TO THE EXTENT ASSIGNABLE, IN AND TO ALL COVENANTS AND WARRANTIES OF SUBLESSOR'S PREDECESSORS IN TITLE AND WITH FULL SUBROGATION OF ALL RIGHTS ACCRUING UNDER THE APPLICABLE STATUTES OF LIMITATION OR PRESCRIPTION UNDER THE LAWS OF THE STATE WHERE THE SUBJECT PROPERTIES ARE LOCATED AND ALL RIGHTS OR ACTIONS OF WARRANTY AGAINST ALL FORMER OWNERS OF THE SUBJECT PROPERTIES.

EXECUTED THIS 28th day of January, 2005, but effective as of December 21, 2004.

PARISH OF JEFFERSON DAVIS

THAT, I, Charles M. Jones, as Operations Manager of **ST. MARY ENERGY COMPANY**, whose mailing address is 580 Westlake Park Boulevard, Suite 600, Houston, TX 77079, hereby acknowledge in the presence of the undersigned competent witnesses, that pursuant to that certain "Road and Surface Lease, Pipeline Right of Way and Land Farming Agreement", dated effective May 10, 2004, by and between **Alfred C. Bourdier, et al**, as Grantor, and St. Mary Energy Company, as Grantee, recorded in COB 958, Page 434, Entry No. 605887 of the Conveyance Records of Jefferson Davis Parish, Louisiana, **ST. MARY ENERGY COMPANY** has installed an oil and gas pipeline and is currently using a Surface Location in it's operations. Attached hereto are plats depicting the location of said installations so as to memorialize them in the public records. Further, Grantor has been given a copy of said plats along with the annual rental due on or before May 10, 2005.

IN WITNESS WHEREOF, this instrument is executed on the 13th day of April, 2005.

ASSIGNMENT OF OIL AND GAS LEASES

KNOW ALL MEN BY THESE PRESENTS:

THAT, MOP, LLC, hereinafter referred to as "ASSIGNOR", for and in consideration of the sum of Ten Dollars ($10.00) and other valuable consideration, the receipt and sufficiency of which is hereby acknowledged, does hereby assign, transfer, sell and convey unto COMANCHE EXPLORATION COMPANY, L.L.C., hereinafter referred to "ASSIGNEE", an undivided fifty percent (50%) of ASSIGNOR'S right, title and interest in and to the JB Farms #1 Well and the oil and gas leases set forth on the EXHIBIT "A" attached hereto and made a part hereof, said leases being situated in Jefferson Davis Parish, Louisiana.

ASSIGNOR reserves and excepts from this ASSIGNMENT an absorbing overriding royalty interest of 1/8 x 8/8 on all production, said absorbing overriding royalty interest to absorb all existing lease burdens of record in excess of the usual landowner's 1/8 royalty interest, with the lease interest assigned herein being delivered to ASSIGNEE at a 75% net revenue interest. The overriding royalty interest reserved herein is to be proportionately reduced to the extent of ASSIGNOR'S interest in the oil and gas leases and the mineral interest covered by said leases.

ASSIGNOR further reserves and excepts from this ASSIGNMENT all other producing oil and/or gas wells (including any salt water wells), and all the associated equipment that may be located on the leased premises or on lands unitized or pooled therewith, except for the J.B. Farms #1 Well, which is specifically assigned by this ASSIGNMENT.

612716

The lease interest hereby assigned is subject to all of the terms and provisions of that certain unrecorded letter agreement dated April 5, 2004, between the parties hereto, including those provisions providing that upon "payout" of the J.B. Farms #1 Well that ASSIGNOR shall have the option, but not the obligation, to convert its reserved overriding royalty interest by relinquishing the same for a proportionately reduced 17.5% of the interest assigned to ASSIGNEE'S herein.

This ASSIGNMENT is without warranty of title, either express or implied, and is effective from the date of first production from the J.B. Farms #1 Well.

Executed this 12 day of APRIL, 2005.

RELEASE OF OVERRIDING ROYALTY INTEREST
and
ASSIGNMENT OF OIL AND GAS LEASES

RECEIVED AND FILED
2006 JUN 29 AM 11:59
CARLTON L. DUHON
CLERK OF COURT
JEFFERSON DAVIS PARISH

KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, MOP, LLC did, by Assignment of Oil and Gas Leases dated April 12, 2005, assign unto COMANCHE EXPLORATION COMPANY, L.L.C., an undivided fifty percent (50%) of its right, title and interest in and to the oil and gas leases set forth on the Exhibit "A" attached hereto and made a part hereof, said leases being situated in Jefferson Davis Parish, Louisiana, reserving unto themselves an absorbing overriding royalty interest of 1/8th of 8/8ths; and,

WHEREAS, the above-described assignment was made subject to all of the terms and provisions of that certain unrecorded Letter Agreement dated April 5, 2004, including those provisions providing that upon "payout" of the JB Farms #1-Well, that Assignor shall have the option but not the obligation, to convert its reserved overriding royalty interest by relinquishing the same for a proportionately reduced 17.5% of the interest assigned to Comanche Exploration Company, L.L.C.; and,

WHEREAS, "payout" of the JB Farms #1-Well has occurred pursuant to the terms of that certain unrecorded Letter Agreement dated April 5, 2004; and,

WHEREAS, MOP, LLC desires to convert its reserved overriding royalty interest to a proportionately reduced 17.5% working interest;

NOW, THEREFORE, in confirmation of these matters and for and in consideration of the sum of TEN DOLLARS ($10.00) and other valuable consideration, the receipt and sufficiency is hereby acknowledged, **MOP, LLC** does hereby release its reserved overriding royalty interest; and,

NOW, THEREFORE, in confirmation of these matters and for and in consideration of the sum of TEN DOLLARS ($10.00) and other valuable consideration, the receipt and sufficiency is hereby acknowledged, **COMANCHE EXPLORATION COMPANY, L.L.C.**, does hereby assign unto **MOP, LLC** a 17.5% working interest to be proportionately reduced in proportion to the interest that COMANCHE EXPLORATION COMPANY, L.L.C. owns of record.

This assignment is made without warranty of title, either express or implied.

620763

Executed this 12th day of June, 2006, but deemed effective from the date of "payout" of the JB Farms #1 Well.

AFFIDAVIT OF CORPORATE SUCCESSION

RECEIVED AND FILED
2008 FEB -6 AM 10: 12
CARLTON L. JOHNSON
CLERK OF COURT
JEFFERSON DAVIS PARISH

State of Colorado }
}ss
City and County of Denver }

In the matter of the title to real and personal property of St. Mary Energy Company, Milam Randolph Pharo, being first duly sworn, deposes and says:

1. That he is the Vice President –Land and Legal of St. Mary Land & Exploration Company, a corporation duly organized and existing under and by virtue of the laws of the State of Delaware, with its principal office at 1776 Lincoln Street, Suite 700, Denver, Colorado, and in whose behalf he makes this affidavit.

2. That St. Mary Land & Exploration Company is the successor by merger to St. Mary Energy Company formally a wholly owned subsidiary of St. Mary Land & Exploration Company. Evidence of this merger is furnished by the attached copy of the filed Certificate of Merger. By operation of this merger, St. Mary Land & Exploration Company has succeeded to all rights, titles, and interests of St. Mary Energy Company in and to all real and personal property whether held of record or claimed by St. Mary Energy Company in Jefferson Davis Parish, Louisiana. This merger, and thus the transfer of title to all property interests of St. Mary Energy Company to St. Mary Land & Exploration Company, occurred effective October 31, 2007.

In witness whereof, said corporation has caused the above instrument to be executed in its behalf, pursuant to authority of its Board of Directors, by its Vice President – Land and Legal and its corporate seal to be hereunto attached, attested by its Assistant Secretary, this 25th day of January, 2008.

CERTIFICATE OF OWNERSHIP AND MERGER

Merging

ST. MARY ENERGY COMPANY

Into

ST. MARY LAND & EXPLORATION COMPANY

(Pursuant to Section 253 of the General Corporation Law of Delaware)

St. Mary Land & Exploration Company, a corporation organized and existing under the laws of the State of Delaware (the "Corporation"), DOES HEREBY CERTIFY:

FIRST: That the Corporation owns all of the outstanding shares of each class of stock of St. Mary Energy Company, a corporation organized and existing under the laws of the State of Delaware ("SMEC").

SECOND: That the Corporation, by the following resolutions of its Board of Directors, duly adopted by unanimous written consent dated October 30, 2007, determined to and did merge into itself SMEC, by the adoption thereof:

RESOLVED, that the Corporation shall merge into itself SMEC and the Corporation shall assume all of the liabilities and obligations of SMEC pursuant to the terms of that certain Agreement and Plan of Merger between the Corporation and SMEC dated as of October 31, 2007.

RESOLVED, that such merger shall become effective upon the filing by the Corporation of a Certificate of Ownership and Merger with the Secretary of State of Delaware.

RESOLVED, that the proper officers of the Corporation be, and they hereby are, directed to prepare and execute a Certificate of Ownership and Merger setting forth a copy of the resolutions to so merge SMEC into the Corporation and to assume its liabilities and obligations and the date of adoption thereof, and to cause the same to be filed with the Secretary of State of Delaware, and to do all acts and things whatsoever, whether within or without the State of Delaware, which may be necessary or proper to effect such merger.

IN WITNESS WHEREOF, the Corporation has caused this Certificate of Ownership and Merger to be executed by the undersigned duly authorized officer this 31st day of October, 2007.

CLERK OF COURT
JEFFERSON DAVIS PARISH

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of July 9, 2012 by and between ALFRED C. BOURGEOIS, ET AL, **(SEE EXHIBIT "A", ATTACHED HERETO FOR A COMPLETE LIST OF LESSORS)** herein called "Lessor" (whether one or more) and **CINCO LAND & EXPLORATION, INC.**, whose mailing address is 8811 Gaylord Dr., Houston, Texas 77024, hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of one hundred dollars and other valuable considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, ~~sulphur and all other minerals~~, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land ~~or acreage pooled therewith~~), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

That certain tract or parcel of land containing 40.00 acres, more or less, situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, bounded now or formerly as follows: Northwest by Richard Hebert, Vicky Hebert and Dennis Hebert; Northeast by Noble Energy, Inc.; Southeast by U BOL M RA SUA created by Office of Conservation Order 101-G, effective on and after June 7, 1988 and/or other lands of Lessor not leased herein; and Southwest by other lands of Lessor not leased herein and/or a line extending from the west most point of the U BOL M RA SUA to the south most point of the Richard Hebert property located in Section 12, T10S-R3W.

This lease covers and includes all of Lessor' rights, title and interest in and to any servitudes, rights-of-way, roads, streets, alleys, highways, bayous, streams, coulees, lakes, ditches, etc. public or private, traversing or adjoining the lands described hereinabove, whether or not specifically described.

~~All land owned by the Lessor In the above mentioned Section or Sections or Surveys,~~ All property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise **40.00** acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 9, 2013 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of three hundred and no/100 Dollars ($300.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods three hundred and no/100 dollars ($300.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the **SEE PARAGRAPH 15 OF EXHIBIT "A" ATTACHED HERETO** Bank of _____ which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall

667119

have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary term such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among

the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, If legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

Bourdier, Lynn H. Bourdier, Michael David Trahan and Chanda Hollier Trahan,** (Lessors, as above mentioned) in his presence and in the presence of the other subscribing witness(es).

Mark S. Cunningham, Jr.

SWORN TO AND SUBSCRIBED before me July 10, 2012.

Notary Public in and for Lafayette Parish, La.
Notary ID # 15360

EXHIBIT "A"

Page 1 of 2 of Exhibit "A" Attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **ALFRED C. BOURDIER, ET AL,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

LESSORS:
ALFRED C. BOURDIER, widower of Gayle H. Bourdier, whose mailing address is 1543 Oakwood Dr., Lake Charles, LA 70611;

LYNN H. BOURDIER, husband of Eva C. Bourdier, whose mailing address is 416 Julius St., Lake Charles, LA 70605;

MICHAEL DAVID TRAHAN, husband of Chanda H. Trahan, whose mailing address is 315 Vincent Rd., Lafayette, LA 70508; and

CHANDA HOLLIER TRAHAN, wife of Michael David Trahan, whose mailing address is 315 Vincent Rd., Lafayette, LA 70508.

14. Lessors authorize Lessee, his successors or assigns, to tender all bonus, rentals, royalties and any other payments accruing under the terms of this lease in the proportions set out in the rental division order in Paragraph 15 below, regardless of surface and/or mineral ownership.

15. Lessor(s) authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to wit:

LESSOR	AMOUNT	DEPOSITORY
Alfred C. Bourdier	$2,000.00	Mail to Lessor's Address 1543 Oakwood Dr. Lake Charles, LA 70611
Lynn H. Bourdier	$250.00	Mail to Lessor's Address 416 Julius St. Lake Charles, LA 70605
Michael David Trahan	$50.00	Mail to Lessor's Address 315 Vincent Rd. Lafayette, LA 70508
Chanda Hollier Trahan	$50.00	Mail to Lessor's Address 315 Vincent Rd. Lafayette, LA 70508

Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his, her or its interest.

16. In the event a portion or portions of the lands herein leased is pooled or unitized with other land as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event that the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term this lease is being maintained as to a part of the land by operations on or productions from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything to the contrary contained in this lease, Lessee shall have the continuous right of ingress and egress over, across and through any roads on the leased premises so long as Lessee conducts operations on the lands subject hereto, or lands pooled therewith.

17. Notwithstanding anything contained herein to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by payment of Shut-In gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 16 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 16 shall be applicable.

Page 2 of 2 of Exhibit "A" attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **ALFRED C. BOURDIER, ET AL,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

18. Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation **one-fifth (1/5th)** shall be substituted therefore.

19. It is the understanding of the lessor that the lessee will maintain and repair all areas used by lessee, its contractor, sub-contractors, employees or representatives during the term of this lease.

20. Lessee shall insure against any and all liability including environmental clean-up. Lessee will also provide an annual certificate of insurance as proof that the insurance is kept in effect during the terms of the lease should the surface be utilized.

21. All wells drilled on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, lessee shall provide lessor with written, notarized statement certifying that lessee has complied with the plugging and abandonment requirements of state wide Order 29B of State of Louisiana and shall furnish a copy of report to lessor within thirty (30) days.

22. SUB-SURFACE SERVITUDE

a. In addition to the Oil, Gas and Mineral Lease granted, the party or parties who have signed this instrument [who is (are) referred to as "Lessor" in the foregoing Oil, Gas and Mineral Lease and is (are) now referred to as "Grantor" (whether one or more) for the purpose of granting this Sub-Surface Servitude], for and in consideration of monies received for the foregoing Oil, Gas and Mineral Lease, the receipt and sufficiency of which are hereby acknowledged, hereby grants **CINCO LAND & EXPLORATION, INC.**. [who is referred to as "Lessee" in the foregoing Oil, Gas and Mineral Lease and is now referred to as "Grantee" for the purpose of this Sub-Surface Servitude]; a Sub-Surface Right-of-Way, Servitude and Easement under and across the land leased in the foregoing Oil, Gas and Mineral Lease, for the purpose of drilling, operating, producing, reworking and maintaining a directional or sidetrack well or wells from a surface location situated off of said land or on said land, to such bottomhole location as Grantee may deem appropriate.

b. Notwithstanding anything herein contained to the contrary, this Sub-Surface Servitude shall for all purposes hereof, be considered as a separate and independent contract between Grantor and Grantee covering and affecting the property herein described.

c. Grantee will indemnify and hold Grantor harmless from any and all damages to Grantor's property caused by the use of this Sub-Surface Servitude and will protect and hold Grantor harmless against any and all claims or demands by third parties arising out of or resulting from Grantee's use of the Sub-Surface Servitude herein granted.

d. The rights granted in this Sub-Surface Servitude will remain in full force and effect for so long as Grantee may continue to use these rights, but in the event Grantee ceases to use the rights herein granted for **one consecutive year**, this Sub-Surface Servitude will terminate.

It is specifically understood by the parties hereto and it is their intention that the rights granted in the foregoing Oil, Gas and Mineral Lease and the rights granted in this Sub-Surface Servitude shall be several and that the Sub-Surface Servitude herein provided for shall survive the Oil, Gas and Mineral Lease, in the event said Oil, Gas and Mineral Lease should terminate.

e. In the event this Sub-Surface Servitude, or any interest herein, be conveyed, assigned or otherwise transferred, Grantor expressly releases Grantee from its obligations hereunder, to the extent of such interest so conveyed, assigned or otherwise transferred.

The consideration paid by Lessee/Grantee to Lessor/Grantor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

LOUISIANA REVISED FOUR (4) POOLING
REVISED "A"

OIL, GAS AND MINERAL LEASE

2012 AUG 31 PM 12: 18

RICHARD M. ARCENEAUX
CLERK OF COURT
JEFFERSON DAVIS PARISH

THIS AGREEMENT, entered into effective as of July 9, 2012 by and between Patrick H. Johnson, husband of Shirley Johnson, whose mailing address is 305 Pellerin Dr., Kenner, LA 70065,

herein called "Lessor" (whether one or more) and **CINCO LAND & EXPLORATION, INC.**, whose mailing address is 8811 Gaylord Dr., Houston, Texas 77024, hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of one hundred dollars and other valuable considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, ~~sulphur and all other minerals~~, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land ~~or acreage pooled therewith~~), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

That certain tract or parcel of land containing 40.00 acres, more or less, situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, bounded now or formerly as follows: Northwest by Richard Hebert, Vicky Hebert and Dennis Hebert; Northeast by Noble Energy, Inc.; Southeast by U BOL M RA SUA created by Office of Conservation Order 101-G, effective on and after June 7, 1988 and/or other lands of Lessor not leased herein; and Southwest by other lands of Lessor not leased herein and/or a line extending from the west most point of the U BOL M RA SUA to the south most point of the Richard Hebert property located in Section 12, T10S-R3W.

See **Exhibit "A"** attached hereto and made a part hereof for additional terms & provisions.

This lease covers and includes all of Lessor' rights, title and interest in and to any servitudes, rights-of-way, roads, streets, alleys, highways, bayous, streams, coulees, lakes, ditches, etc. public or private, traversing or adjoining the lands described hereinabove, whether or not specifically described.

~~All land owned by the Lessor in the above mentioned Section or Sections or Surveys,~~ All property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise **40.00** acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 9, 2013 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of three hundred and no/100 Dollars ($300.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods three hundred and no/100 dollars ($300.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the **SEE PARAGRAPH 15 OF EXHIBIT "A" ATTACHED HERETO** Bank of _____ which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of

667121

his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary term such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such

evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, If legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

EXHIBIT "A"

Page 1 of 2 of Exhibit "A" Attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **PATRICK H. JOHNSON,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

14. Lessors authorize Lessee, his successors or assigns, to tender all bonus, rentals, royalties and any other payments accruing under the terms of this lease in the proportions set out in the rental division order in Paragraph 15 below, regardless of surface and/or mineral ownership.

15. Lessor(s) authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to wit:

LESSOR	AMOUNT	DEPOSITORY
Patrick H. Johnson	$600.00	Mail to Lessor's Address 305 Pellerin Dr. Kenner, LA 70065

Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his, her or its interest.

16. In the event a portion or portions of the lands herein leased is pooled or unitized with other land as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event that the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term this lease is being maintained as to a part of the land by operations on or productions from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything to the contrary contained in this lease, Lessee shall have the continuous right of ingress and egress over, across and through any roads on the leased premises so long as Lessee conducts operations on the lands subject hereto, or lands pooled therewith.

17. Notwithstanding anything contained herein to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by payment of Shut-In gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 16 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 16 shall be applicable.

18. Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation **one-fifth (1/5th)** shall be substituted therefore.

19. It is the understanding of the lessor that the lessee will maintain and repair all areas used by lessee, its contractor, sub-contractors, employees or representatives during the term of this lease.

20. Lessee shall insure against any and all liability including environmental clean-up. Lessee will also provide an annual certificate of insurance as proof that the insurance is kept in effect during the terms of the lease should the surface be utilized.

21. All wells drilled on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, lessee shall provide lessor with written, notarized statement certifying that lessee has complied with the plugging and abandonment requirements of state wide Order 29B of State of Louisiana and shall furnish a copy of report to lessor within thirty (30) days.

Page 2 of 2 of Exhibit "A" attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **PATRICK H. JOHNSON,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

22. SUB-SURFACE SERVITUDE

a. In addition to the Oil, Gas and Mineral Lease granted, the party or parties who have signed this instrument [who is (are) referred to as "Lessor" in the foregoing Oil, Gas and Mineral Lease and is (are) now referred to as "Grantor" (whether one or more) for the purpose of granting this Sub-Surface Servitude], for and in consideration of monies received for the foregoing Oil, Gas and Mineral Lease, the receipt and sufficiency of which are hereby acknowledged, hereby grants **CINCO LAND & EXPLORATION, INC.**. [who is referred to as "Lessee" in the foregoing Oil, Gas and Mineral Lease and is now referred to as "Grantee" for the purpose of this Sub-Surface Servitude]; a Sub-Surface Right-of-Way, Servitude and Easement under and across the land leased in the foregoing Oil, Gas and Mineral Lease, for the purpose of drilling, operating, producing, reworking and maintaining a directional or sidetrack well or wells from a surface location situated off of said land or on said land, to such bottomhole location as Grantee may deem appropriate.

b. Notwithstanding anything herein contained to the contrary, this Sub-Surface Servitude shall for all purposes hereof, be considered as a separate and independent contract between Grantor and Grantee covering and affecting the property herein described.

c. Grantee will indemnify and hold Grantor harmless from any and all damages to Grantor's property caused by the use of this Sub-Surface Servitude and will protect and hold Grantor harmless against any and all claims or demands by third parties arising out of or resulting from Grantee's use of the Sub-Surface Servitude herein granted.

d. The rights granted in this Sub-Surface Servitude will remain in full force and effect for so long as Grantee may continue to use these rights, but in the event Grantee ceases to use the rights herein granted for **one consecutive year**, this Sub-Surface Servitude will terminate.

It is specifically understood by the parties hereto and it is their intention that the rights granted in the foregoing Oil, Gas and Mineral Lease and the rights granted in this Sub-Surface Servitude shall be several and that the Sub-Surface Servitude herein provided for shall survive the Oil, Gas and Mineral Lease, in the event said Oil, Gas and Mineral Lease should terminate.

e. In the event this Sub-Surface Servitude, or any interest herein, be conveyed, assigned or otherwise transferred, Grantor expressly releases Grantee from its obligations hereunder, to the extent of such interest so conveyed, assigned or otherwise transferred.

The consideration paid by Lessee/Grantee to Lessor/Grantor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

FORM 42 CPMNEW SOUTH
LOUISIANA REVISED FOUR (4) POOLING
REVISED "A"

RECORDED AND FILED
2012 AUG 31 PM 12: 18
RICHARD M. MARTINEZ
CLERK OF COURT
JEFFERSON DAVIS PARISH

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of July 9, 2012 by and between YVETTE B. MATHIS, a single woman of majority age, whose mailing address is P.O. Box 1658, Marshall, TX 75671,

herein called "Lessor" (whether one or more) and **CINCO LAND & EXPLORATION, INC.**, whose mailing address is 8811 Gaylord Dr., Houston, Texas 77024, hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of one hundred dollars and other valuable considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, ~~sulphur and all other minerals~~, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land ~~or acreage pooled therewith~~), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

That certain tract or parcel of land containing 40.00 acres, more or less, situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, bounded now or formerly as follows: Northwest by Richard Hebert, Vicky Hebert and Dennis Hebert; Northeast by Noble Energy, Inc.; Southeast by U BOL M RA SUA created by Office of Conservation Order 101-G, effective on and after June 7, 1988 and/or other lands of Lessor not leased herein; and Southwest by other lands of Lessor not leased herein and/or a line extending from the west most point of the U BOL M RA SUA to the south most point of the Richard Hebert property located in Section 12, T10S-R3W.

See **Exhibit "A"** attached hereto and made a part hereof for additional terms & provisions.

This lease covers and includes all of Lessor' rights, title and interest in and to any servitudes, rights-of-way, roads, streets, alleys, highways, bayous, streams, coulees, lakes, ditches, etc. public or private, traversing or adjoining the lands described hereinabove, whether or not specifically described.

~~All land owned by the Lessor In the above mentioned Section or Sections or Surveys,~~ All property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise **40.00** acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 9, 2013 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of three hundred and no/100 Dollars ($300.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods three hundred and no/100 dollars ($300.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the **SEE PARAGRAPH 15 OF EXHIBIT "A" ATTACHED HERETO** Bank of _____ which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of

667122

his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary term such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such

evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, If legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

MY COMMISSION EXPIRES 3/24/16

EXHIBIT "A"

Page 1 of 2 of Exhibit "A" Attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **YVETTE B. MATHIS,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

14. Lessors authorize Lessee, his successors or assigns, to tender all bonus, rentals, royalties and any other payments accruing under the terms of this lease in the proportions set out in the rental division order in Paragraph 15 below, regardless of surface and/or mineral ownership.

15. Lessor(s) authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to wit:

LESSOR	AMOUNT	DEPOSITORY
YVETTE B. MATHIS	$1,500.00	Mail to Lessor's Address P.O. Box 1658 Marshall, TX 75671

Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his, her or its interest.

16. In the event a portion or portions of the lands herein leased is pooled or unitized with other land as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event that the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term this lease is being maintained as to a part of the land by operations on or productions from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything to the contrary contained in this lease, Lessee shall have the continuous right of ingress and egress over, across and through any roads on the leased premises so long as Lessee conducts operations on the lands subject hereto, or lands pooled therewith.

17. Notwithstanding anything contained herein to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by payment of Shut-In gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 16 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 16 shall be applicable.

18. Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation **one-fifth (1/5th)** shall be substituted therefore.

19. It is the understanding of the lessor that the lessee will maintain and repair all areas used by lessee, its contractor, sub-contractors, employees or representatives during the term of this lease.

20. Lessee shall insure against any and all liability including environmental clean-up. Lessee will also provide an annual certificate of insurance as proof that the insurance is kept in effect during the terms of the lease should the surface be utilized.

21. All wells drilled on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, lessee shall provide lessor with written, notarized statement certifying that lessee has complied with the plugging and abandonment requirements of state wide Order 29B of State of Louisiana and shall furnish a copy of report to lessor within thirty (30) days.

Page 2 of 2 of Exhibit "A" attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **YVETTE B. MATHIS,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

22. SUB-SURFACE SERVITUDE

a. In addition to the Oil, Gas and Mineral Lease granted, the party or parties who have signed this instrument [who is (are) referred to as "Lessor" in the foregoing Oil, Gas and Mineral Lease and is (are) now referred to as "Grantor" (whether one or more) for the purpose of granting this Sub-Surface Servitude], for and in consideration of monies received for the foregoing Oil, Gas and Mineral Lease, the receipt and sufficiency of which are hereby acknowledged, hereby grants **CINCO LAND & EXPLORATION, INC.**. [who is referred to as "Lessee" in the foregoing Oil, Gas and Mineral Lease and is now referred to as "Grantee" for the purpose of this Sub-Surface Servitude]; a Sub-Surface Right-of-Way, Servitude and Easement under and across the land leased in the foregoing Oil, Gas and Mineral Lease, for the purpose of drilling, operating, producing, reworking and maintaining a directional or sidetrack well or wells from a surface location situated off of said land or on said land, to such bottomhole location as Grantee may deem appropriate.

b. Notwithstanding anything herein contained to the contrary, this Sub-Surface Servitude shall for all purposes hereof, be considered as a separate and independent contract between Grantor and Grantee covering and affecting the property herein described.

c. Grantee will indemnify and hold Grantor harmless from any and all damages to Grantor's property caused by the use of this Sub-Surface Servitude and will protect and hold Grantor harmless against any and all claims or demands by third parties arising out of or resulting from Grantee's use of the Sub-Surface Servitude herein granted.

d. The rights granted in this Sub-Surface Servitude will remain in full force and effect for so long as Grantee may continue to use these rights, but in the event Grantee ceases to use the rights herein granted for **one consecutive year**, this Sub-Surface Servitude will terminate.

It is specifically understood by the parties hereto and it is their intention that the rights granted in the foregoing Oil, Gas and Mineral Lease and the rights granted in this Sub-Surface Servitude shall be several and that the Sub-Surface Servitude herein provided for shall survive the Oil, Gas and Mineral Lease, in the event said Oil, Gas and Mineral Lease should terminate.

e. In the event this Sub-Surface Servitude, or any interest herein, be conveyed, assigned or otherwise transferred, Grantor expressly releases Grantee from its obligations hereunder, to the extent of such interest so conveyed, assigned or otherwise transferred.

The consideration paid by Lessee/Grantee to Lessor/Grantor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

FORM 42 CPMNEW SOUTH
LOUISIANA REVISED FOUR (4) POOLING
REVISED "A"

RECORDED AND FILED

OIL, GAS AND MINERAL LEASE

2012 AUG 31 PM 12: 18

THIS AGREEMENT, entered into effective as of July 9, 2012 by and between Bernadine B. Zibilich, widow of William Zibilich, whose mailing address is 125 Valentine Dr., Avondale, LA 70094,

RICHARD M. ARCENEAUX
CLERK OF COURT
JEFFERSON DAVIS PARISH

herein called "Lessor" (whether one or more) and **CINCO LAND & EXPLORATION, INC.**, whose mailing address is 8811 Gaylord Dr., Houston, Texas 77024, hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of one hundred dollars and other valuable considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, ~~sulphur and all other minerals~~, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land ~~or acreage pooled therewith~~), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

That certain tract or parcel of land containing 40.00 acres, more or less, situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, bounded now or formerly as follows: Northwest by Richard Hebert, Vicky Hebert and Dennis Hebert; Northeast by Noble Energy, Inc.; Southeast by U BOL M RA SUA created by Office of Conservation Order 101-G, effective on and after June 7, 1988 and/or other lands of Lessor not leased herein; and Southwest by other lands of Lessor not leased herein and/or a line extending from the west most point of the U BOL M RA SUA to the south most point of the Richard Hebert property located in Section 12, T10S-R3W.

See **Exhibit "A"** attached hereto and made a part hereof for additional terms & provisions.

This lease covers and includes all of Lessor' rights, title and interest in and to any servitudes, rights-of-way, roads, streets, alleys, highways, bayous, streams, coulees, lakes, ditches, etc. public or private, traversing or adjoining the lands described hereinabove, whether or not specifically described.

~~All land owned by the Lessor In the above mentioned Section or Sections or Surveys,~~ All property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise **40.00** acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 9, 2013 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of three hundred and no/100 Dollars ($300.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods three hundred and no/100 dollars ($300.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the **SEE PARAGRAPH 15 OF EXHIBIT "A" ATTACHED HERETO** Bank of _____ which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of

667123

his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary term such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such

evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, If legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

EXHIBIT "A"

Page 1 of 2 of Exhibit "A" Attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **BERNADINE B. ZIBILICH,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

14. Lessors authorize Lessee, his successors or assigns, to tender all bonus, rentals, royalties and any other payments accruing under the terms of this lease in the proportions set out in the rental division order in Paragraph 15 below, regardless of surface and/or mineral ownership.

15. Lessor(s) authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to wit:

LESSOR	AMOUNT	DEPOSITORY
Bernadine B. Zibilich	$250.00	Mail to Lessor's Address 125 Valentine Dr. Avondale, LA 70094

Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his, her or its interest.

16. In the event a portion or portions of the lands herein leased is pooled or unitized with other land as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event that the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term this lease is being maintained as to a part of the land by operations on or productions from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything to the contrary contained in this lease, Lessee shall have the continuous right of ingress and egress over, across and through any roads on the leased premises so long as Lessee conducts operations on the lands subject hereto, or lands pooled therewith.

17. Notwithstanding anything contained herein to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by payment of Shut-In gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 16 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 16 shall be applicable.

18. Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation **one-fifth (1/5th)** shall be substituted therefore.

19. It is the understanding of the lessor that the lessee will maintain and repair all areas used by lessee, its contractor, sub-contractors, employees or representatives during the term of this lease.

20. Lessee shall insure against any and all liability including environmental clean-up. Lessee will also provide an annual certificate of insurance as proof that the insurance is kept in effect during the terms of the lease should the surface be utilized.

21. All wells drilled on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, lessee shall provide lessor with written, notarized statement certifying that lessee has complied with the plugging and abandonment requirements of state wide Order 29B of State of Louisiana and shall furnish a copy of report to lessor within thirty (30) days.

Page 2 of 2 of Exhibit "A" attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **BERNADINE B. ZIBILICH,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

22. SUB-SURFACE SERVITUDE

a. In addition to the Oil, Gas and Mineral Lease granted, the party or parties who have signed this instrument [who is (are) referred to as "Lessor" in the foregoing Oil, Gas and Mineral Lease and is (are) now referred to as "Grantor" (whether one or more) for the purpose of granting this Sub-Surface Servitude], for and in consideration of monies received for the foregoing Oil, Gas and Mineral Lease, the receipt and sufficiency of which are hereby acknowledged, hereby grants **CINCO LAND & EXPLORATION, INC.**. [who is referred to as "Lessee" in the foregoing Oil, Gas and Mineral Lease and is now referred to as "Grantee" for the purpose of this Sub-Surface Servitude]; a Sub-Surface Right-of-Way, Servitude and Easement under and across the land leased in the foregoing Oil, Gas and Mineral Lease, for the purpose of drilling, operating, producing, reworking and maintaining a directional or sidetrack well or wells from a surface location situated off of said land or on said land, to such bottomhole location as Grantee may deem appropriate.

b. Notwithstanding anything herein contained to the contrary, this Sub-Surface Servitude shall for all purposes hereof, be considered as a separate and independent contract between Grantor and Grantee covering and affecting the property herein described.

c. Grantee will indemnify and hold Grantor harmless from any and all damages to Grantor's property caused by the use of this Sub-Surface Servitude and will protect and hold Grantor harmless against any and all claims or demands by third parties arising out of or resulting from Grantee's use of the Sub-Surface Servitude herein granted.

d. The rights granted in this Sub-Surface Servitude will remain in full force and effect for so long as Grantee may continue to use these rights, but in the event Grantee ceases to use the rights herein granted for **one consecutive year**, this Sub-Surface Servitude will terminate.

It is specifically understood by the parties hereto and it is their intention that the rights granted in the foregoing Oil, Gas and Mineral Lease and the rights granted in this Sub-Surface Servitude shall be several and that the Sub-Surface Servitude herein provided for shall survive the Oil, Gas and Mineral Lease, in the event said Oil, Gas and Mineral Lease should terminate.

e. In the event this Sub-Surface Servitude, or any interest herein, be conveyed, assigned or otherwise transferred, Grantor expressly releases Grantee from its obligations hereunder, to the extent of such interest so conveyed, assigned or otherwise transferred.

The consideration paid by Lessee/Grantee to Lessor/Grantor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

FORM 42 CPMNEW SOUTH
LOUISIANA REVISED FOUR (4) POOLING
REVISED "A"

RECORDED AND FILED

OIL, GAS AND MINERAL LEASE

2012 AUG 31 PM 12: 18

THIS AGREEMENT, entered into effective as of July 9, 2012 by and between ROSE MARIE B. PETITJEAN, divorced from Robert Touchet, whose mailing address is 192 Bart Greene Dr., Johnson City, TN 37615,

CLERK OF COURT
JEFFERSON DAVIS PARISH

herein called "Lessor" (whether one or more) and **CINCO LAND & EXPLORATION, INC.**, whose mailing address is 8811 Gaylord Dr., Houston, Texas 77024, hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of one hundred dollars and other valuable considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, ~~sulphur and all other minerals~~, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land ~~or acreage pooled therewith~~), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

That certain tract or parcel of land containing 40.00 acres, more or less, situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, bounded now or formerly as follows: Northwest by Richard Hebert, Vicky Hebert and Dennis Hebert; Northeast by Noble Energy, Inc.; Southeast by U BOL M RA SUA created by Office of Conservation Order 101-G, effective on and after June 7, 1988 and/or other lands of Lessor not leased herein; and Southwest by other lands of Lessor not leased herein and/or a line extending from the west most point of the U BOL M RA SUA to the south most point of the Richard Hebert property located in Section 12, T10S-R3W.

See **Exhibit "A"** attached hereto and made a part hereof for additional terms & provisions.

This lease covers and includes all of Lessor' rights, title and interest in and to any servitudes, rights-of-way, roads, streets, alleys, highways, bayous, streams, coulees, lakes, ditches, etc. public or private, traversing or adjoining the lands described hereinabove, whether or not specifically described.

~~All land owned by the Lessor In the above mentioned Section or Sections or Surveys,~~ All property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise **40.00** acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 9, 2013 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of three hundred and no/100 Dollars ($300.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods three hundred and no/100 dollars ($300.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the **SEE PARAGRAPH 15 OF EXHIBIT "A" ATTACHED HERETO** Bank of _____ which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of

667124

his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary term such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such

evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, If legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

EXHIBIT "A"

Page 1 of 2 of Exhibit "A" Attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **ROSE MARIE B. PETITJEAN,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

14. Lessors authorize Lessee, his successors or assigns, to tender all bonus, rentals, royalties and any other payments accruing under the terms of this lease in the proportions set out in the rental division order in Paragraph 15 below, regardless of surface and/or mineral ownership.

15. Lessor(s) authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to wit:

LESSOR	AMOUNT	DEPOSITORY
ROSE MARIE B. PETITJEAN	$250.00	Mail to Lessor's Address 192 Bart Greene Dr. Johnson City, TN 37615

Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his, her or its interest.

16. In the event a portion or portions of the lands herein leased is pooled or unitized with other land as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event that the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term this lease is being maintained as to a part of the land by operations on or productions from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything to the contrary contained in this lease, Lessee shall have the continuous right of ingress and egress over, across and through any roads on the leased premises so long as Lessee conducts operations on the lands subject hereto, or lands pooled therewith.

17. Notwithstanding anything contained herein to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by payment of Shut-In gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 16 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 16 shall be applicable.

18. Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation **one-fifth (1/5th)** shall be substituted therefore.

19. It is the understanding of the lessor that the lessee will maintain and repair all areas used by lessee, its contractor, sub-contractors, employees or representatives during the term of this lease.

20. Lessee shall insure against any and all liability including environmental clean-up. Lessee will also provide an annual certificate of insurance as proof that the insurance is kept in effect during the terms of the lease should the surface be utilized.

21. All wells drilled on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, lessee shall provide lessor with written, notarized statement certifying that lessee has complied with the plugging and abandonment requirements of state wide Order 29B of State of Louisiana and shall furnish a copy of report to lessor within thirty (30) days.

22. SUB-SURFACE SERVITUDE

a. In addition to the Oil, Gas and Mineral Lease granted, the party or parties who have signed this instrument [who is (are) referred to as "Lessor" in the foregoing Oil, Gas and Mineral Lease and is (are) now referred to as "Grantor" (whether one or more) for the purpose of granting this Sub-Surface Servitude], for and in consideration of monies received for the foregoing Oil, Gas and Mineral Lease, the receipt and sufficiency of which are hereby acknowledged, hereby grants **CINCO LAND & EXPLORATION, INC.**. [who is referred to as "Lessee" in the foregoing Oil, Gas and Mineral Lease and is now referred to as "Grantee" for the purpose of this Sub-Surface Servitude]; a Sub-Surface Right-of-Way, Servitude and Easement under and across the land leased in the foregoing Oil, Gas and Mineral Lease, for the purpose of drilling, operating, producing, reworking and maintaining a directional or sidetrack well or wells from a surface location situated off of said land or on said land, to such bottomhole location as Grantee may deem appropriate.

b. Notwithstanding anything herein contained to the contrary, this Sub-Surface Servitude shall for all purposes hereof, be considered as a separate and independent contract between Grantor and Grantee covering and affecting the property herein described.

c. Grantee will indemnify and hold Grantor harmless from any and all damages to Grantor's property caused by the use of this Sub-Surface Servitude and will protect and hold Grantor harmless against any and all claims or demands by third parties arising out of or resulting from Grantee's use of the Sub-Surface Servitude herein granted.

d. The rights granted in this Sub-Surface Servitude will remain in full force and effect for so long as Grantee may continue to use these rights, but in the event Grantee ceases to use the rights herein granted for **one consecutive year**, this Sub-Surface Servitude will terminate.

It is specifically understood by the parties hereto and it is their intention that the rights granted in the foregoing Oil, Gas and Mineral Lease and the rights granted in this Sub-Surface Servitude shall be several and that the Sub-Surface Servitude herein provided for shall survive the Oil, Gas and Mineral Lease, in the event said Oil, Gas and Mineral Lease should terminate.

e. In the event this Sub-Surface Servitude, or any interest herein, be conveyed, assigned or otherwise transferred, Grantor expressly releases Grantee from its obligations hereunder, to the extent of such interest so conveyed, assigned or otherwise transferred.

The consideration paid by Lessee/Grantee to Lessor/Grantor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

KIERAN J. ARCENEAUX
CLERK OF COURT
JEFFERSON DAVIS PARISH

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of July 9, 2012 by and between DAVID L. BOURDIER, husband of Janet R. Bourdier, whose mailing address is P.O. Box 762, Patterson, LA 70392,

herein called "Lessor" (whether one or more) and **CINCO LAND & EXPLORATION, INC.**, whose mailing address is 8811 Gaylord Dr., Houston, Texas 77024, hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of one hundred dollars and other valuable considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, ~~sulphur and all other minerals~~, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land ~~or acreage pooled therewith~~), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

That certain tract or parcel of land containing 40.00 acres, more or less, situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, bounded now or formerly as follows: Northwest by Richard Hebert, Vicky Hebert and Dennis Hebert; Northeast by Noble Energy, Inc.; Southeast by U BOL M RA SUA created by Office of Conservation Order 101-G, effective on and after June 7, 1988 and/or other lands of Lessor not leased herein; and Southwest by other lands of Lessor not leased herein and/or a line extending from the west most point of the U BOL M RA SUA to the south most point of the Richard Hebert property located in Section 12, T10S-R3W.

See **Exhibit "A"** attached hereto and made a part hereof for additional terms & provisions.

This lease covers and includes all of Lessor' rights, title and interest in and to any servitudes, rights-of-way, roads, streets, alleys, highways, bayous, streams, coulees, lakes, ditches, etc. public or private, traversing or adjoining the lands described hereinabove, whether or not specifically described.

~~All land owned by the Lessor In the above mentioned Section or Sections or Surveys,~~ All property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise **40.00** acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

667125

1. This lease shall terminate on July 9, 2013 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of three hundred and no/100 Dollars ($300.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods three hundred and no/100 dollars ($300.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the **SEE PARAGRAPH 15 OF EXHIBIT "A" ATTACHED HERETO** Bank of _____ which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of

his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary term such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such

evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, If legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

EXHIBIT "A"

Page 1 of 2 of Exhibit "A" Attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **DAVID L. BOURDIER,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

14. Lessors authorize Lessee, his successors or assigns, to tender all bonus, rentals, royalties and any other payments accruing under the terms of this lease in the proportions set out in the rental division order in Paragraph 15 below, regardless of surface and/or mineral ownership.

15. Lessor(s) authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to wit:

LESSOR	AMOUNT	DEPOSITORY
DAVID L. BOURDIER	$250.00	Mail to Lessor's Address P.O. Box 762 Patterson, LA70392

Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his, her or its interest.

16. In the event a portion or portions of the lands herein leased is pooled or unitized with other land as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event that the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term this lease is being maintained as to a part of the land by operations on or productions from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything to the contrary contained in this lease, Lessee shall have the continuous right of ingress and egress over, across and through any roads on the leased premises so long as Lessee conducts operations on the lands subject hereto, or lands pooled therewith.

17. Notwithstanding anything contained herein to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by payment of Shut-In gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 16 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 16 shall be applicable.

18. Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation **one-fifth (1/5th)** shall be substituted therefore.

19. It is the understanding of the lessor that the lessee will maintain and repair all areas used by lessee, its contractor, sub-contractors, employees or representatives during the term of this lease.

20. Lessee shall insure against any and all liability including environmental clean-up. Lessee will also provide an annual certificate of insurance as proof that the insurance is kept in effect during the terms of the lease should the surface be utilized.

21. All wells drilled on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, lessee shall provide lessor with written, notarized statement certifying that lessee has complied with the plugging and abandonment requirements of state wide Order 29B of State of Louisiana and shall furnish a copy of report to lessor within thirty (30) days.

Page 2 of 2 of Exhibit "A" attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **DAVID L. BOURDIER,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

22. SUB-SURFACE SERVITUDE

a. In addition to the Oil, Gas and Mineral Lease granted, the party or parties who have signed this instrument [who is (are) referred to as "Lessor" in the foregoing Oil, Gas and Mineral Lease and is (are) now referred to as "Grantor" (whether one or more) for the purpose of granting this Sub-Surface Servitude], for and in consideration of monies received for the foregoing Oil, Gas and Mineral Lease, the receipt and sufficiency of which are hereby acknowledged, hereby grants **CINCO LAND & EXPLORATION, INC.**. [who is referred to as "Lessee" in the foregoing Oil, Gas and Mineral Lease and is now referred to as "Grantee" for the purpose of this Sub-Surface Servitude]; a Sub-Surface Right-of-Way, Servitude and Easement under and across the land leased in the foregoing Oil, Gas and Mineral Lease, for the purpose of drilling, operating, producing, reworking and maintaining a directional or sidetrack well or wells from a surface location situated off of said land or on said land, to such bottomhole location as Grantee may deem appropriate.

b. Notwithstanding anything herein contained to the contrary, this Sub-Surface Servitude shall for all purposes hereof, be considered as a separate and independent contract between Grantor and Grantee covering and affecting the property herein described.

c. Grantee will indemnify and hold Grantor harmless from any and all damages to Grantor's property caused by the use of this Sub-Surface Servitude and will protect and hold Grantor harmless against any and all claims or demands by third parties arising out of or resulting from Grantee's use of the Sub-Surface Servitude herein granted.

d. The rights granted in this Sub-Surface Servitude will remain in full force and effect for so long as Grantee may continue to use these rights, but in the event Grantee ceases to use the rights herein granted for **one consecutive year**, this Sub-Surface Servitude will terminate.

It is specifically understood by the parties hereto and it is their intention that the rights granted in the foregoing Oil, Gas and Mineral Lease and the rights granted in this Sub-Surface Servitude shall be several and that the Sub-Surface Servitude herein provided for shall survive the Oil, Gas and Mineral Lease, in the event said Oil, Gas and Mineral Lease should terminate.

e. In the event this Sub-Surface Servitude, or any interest herein, be conveyed, assigned or otherwise transferred, Grantor expressly releases Grantee from its obligations hereunder, to the extent of such interest so conveyed, assigned or otherwise transferred.

The consideration paid by Lessee/Grantee to Lessor/Grantor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

VOL. 111

FORM 42 CPMNEW SOUTH
LOUISIANA REVISED FOUR (4) POOLING
REVISED "A"

RECORDED AND FILED

OIL, GAS AND MINERAL LEASE

2012 AUG 31 PM 12:19

THIS AGREEMENT, entered into effective as of July 9, 2012 by and between RNBC, LLC, represented herein by Ray Nell Bruce Calvin, Member, whose mailing address is 315 Sapphire Dr., College Station, TX 77845, hereinafter called

RECORDER
CLERK OF COURT
JEFFERSON DAVIS PARISH

herein called "Lessor" (whether one or more) and **CINCO LAND & EXPLORATION, INC.**, whose mailing address is 8811 Gaylord Dr., Houston, Texas 77024, hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of one hundred dollars and other valuable considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, ~~sulphur and all other minerals~~, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land ~~or acreage pooled therewith~~), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

That certain tract or parcel of land containing 40.00 acres, more or less, situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, bounded now or formerly as follows: Northwest by Richard Hebert, Vicky Hebert and Dennis Hebert; Northeast by Noble Energy, Inc.; Southeast by U BOL M RA SUA created by Office of Conservation Order 101-G, effective on and after June 7, 1988 and/or other lands of Lessor not leased herein; and Southwest by other lands of Lessor not leased herein and/or a line extending from the west most point of the U BOL M RA SUA to the south most point of the Richard Hebert property located in Section 12, T10S-R3W.

See **Exhibit "A"** attached hereto and made a part hereof for additional terms & provisions.

This lease covers and includes all of Lessor' rights, title and interest in and to any servitudes, rights-of-way, roads, streets, alleys, highways, bayous, streams, coulees, lakes, ditches, etc. public or private, traversing or adjoining the lands described hereinabove, whether or not specifically described.

~~All land owned by the Lessor In the above mentioned Section or Sections or Surveys,~~ All property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise **40.00** acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 9, 2013 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of three hundred and no/100 Dollars ($300.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods three hundred and no/100 dollars ($300.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the **SEE PARAGRAPH 15 OF EXHIBIT "A" ATTACHED HERETO** Bank of _____ which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of

667126

his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary term such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such

evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, If legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

MY COMMISSION EXPIRES: January 28, 2015

EXHIBIT "A"

Page 1 of 2 of Exhibit "A" Attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **RNBC, LLC**, represented herein by Ray Nell Bruce Calvin, as Lessor and **CINCO LAND & EXPLORATION, INC.**, as Lessee.

14. Lessors authorize Lessee, his successors or assigns, to tender all bonus, rentals, royalties and any other payments accruing under the terms of this lease in the proportions set out in the rental division order in Paragraph 15 below, regardless of surface and/or mineral ownership.

15. Lessor(s) authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to wit:

LESSOR	AMOUNT	DEPOSITORY
RNBC, LLC	$1,000.00	Mail to Lessor's Address 315 Sapphire Dr. College Station, TX 77845

Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his, her or its interest.

16. In the event a portion or portions of the lands herein leased is pooled or unitized with other land as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event that the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term this lease is being maintained as to a part of the land by operations on or productions from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything to the contrary contained in this lease, Lessee shall have the continuous right of ingress and egress over, across and through any roads on the leased premises so long as Lessee conducts operations on the lands subject hereto, or lands pooled therewith.

17. Notwithstanding anything contained herein to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by payment of Shut-In gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 16 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 16 shall be applicable.

18. Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation **one-fifth (1/5th)** shall be substituted therefore.

19. It is the understanding of the lessor that the lessee will maintain and repair all areas used by lessee, its contractor, sub-contractors, employees or representatives during the term of this lease.

20. Lessee shall insure against any and all liability including environmental clean-up. Lessee will also provide an annual certificate of insurance as proof that the insurance is kept in effect during the terms of the lease should the surface be utilized.

21. All wells drilled on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, lessee shall provide lessor with written, notarized statement certifying that lessee has complied with the plugging and abandonment requirements of state wide Order 29B of State of Louisiana and shall furnish a copy of report to lessor within thirty (30) days.

Page 2 of 2 of Exhibit "A" attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **RNBC, LLC,** represented herein by Ray Nell Bruce Calvin, as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

22. SUB-SURFACE SERVITUDE

a. In addition to the Oil, Gas and Mineral Lease granted, the party or parties who have signed this instrument [who is (are) referred to as "Lessor" in the foregoing Oil, Gas and Mineral Lease and is (are) now referred to as "Grantor" (whether one or more) for the purpose of granting this Sub-Surface Servitude], for and in consideration of monies received for the foregoing Oil, Gas and Mineral Lease, the receipt and sufficiency of which are hereby acknowledged, hereby grants **CINCO LAND & EXPLORATION, INC.**. [who is referred to as "Lessee" in the foregoing Oil, Gas and Mineral Lease and is now referred to as "Grantee" for the purpose of this Sub-Surface Servitude]; a Sub-Surface Right-of-Way, Servitude and Easement under and across the land leased in the foregoing Oil, Gas and Mineral Lease, for the purpose of drilling, operating, producing, reworking and maintaining a directional or sidetrack well or wells from a surface location situated off of said land or on said land, to such bottomhole location as Grantee may deem appropriate.

b. Notwithstanding anything herein contained to the contrary, this Sub-Surface Servitude shall for all purposes hereof, be considered as a separate and independent contract between Grantor and Grantee covering and affecting the property herein described.

c. Grantee will indemnify and hold Grantor harmless from any and all damages to Grantor's property caused by the use of this Sub-Surface Servitude and will protect and hold Grantor harmless against any and all claims or demands by third parties arising out of or resulting from Grantee's use of the Sub-Surface Servitude herein granted.

d. The rights granted in this Sub-Surface Servitude will remain in full force and effect for so long as Grantee may continue to use these rights, but in the event Grantee ceases to use the rights herein granted for **one consecutive year**, this Sub-Surface Servitude will terminate.

It is specifically understood by the parties hereto and it is their intention that the rights granted in the foregoing Oil, Gas and Mineral Lease and the rights granted in this Sub-Surface Servitude shall be several and that the Sub-Surface Servitude herein provided for shall survive the Oil, Gas and Mineral Lease, in the event said Oil, Gas and Mineral Lease should terminate.

e. In the event this Sub-Surface Servitude, or any interest herein, be conveyed, assigned or otherwise transferred, Grantor expressly releases Grantee from its obligations hereunder, to the extent of such interest so conveyed, assigned or otherwise transferred.

The consideration paid by Lessee/Grantee to Lessor/Grantor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

FORM 42 CPMNEW SOUTH
LOUISIANA REVISED FOUR (4) POOLING
REVISED "A"

RECORDED AND FILED

OIL, GAS AND MINERAL LEASE

2012 AUG 31 PM 12: 19

THIS AGREEMENT, entered into effective as of July 9, 2012 by and between NKBG PROPERTIES, LLC, represented herein by Nelia Karen B. Goldman, Member, whose mailing address is 2700 Bayou Lane, Monroe, LA 71201

MURIANNE P. ARCENEAUX
CLERK OF COURT
JEFFERSON DAVIS PARISH

herein called "Lessor" (whether one or more) and **CINCO LAND & EXPLORATION, INC.**, whose mailing address is 8811 Gaylord Dr., Houston, Texas 77024, hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of one hundred dollars and other valuable considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, ~~sulphur and all other minerals~~, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land ~~or acreage pooled therewith~~), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

That certain tract or parcel of land containing 40.00 acres, more or less, situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, bounded now or formerly as follows: Northwest by Richard Hebert, Vicky Hebert and Dennis Hebert; Northeast by Noble Energy, Inc.; Southeast by U BOL M RA SUA created by Office of Conservation Order 101-G, effective on and after June 7, 1988 and/or other lands of Lessor not leased herein; and Southwest by other lands of Lessor not leased herein and/or a line extending from the west most point of the U BOL M RA SUA to the south most point of the Richard Hebert property located in Section 12, T10S-R3W.

See **Exhibit "A"** attached hereto and made a part hereof for additional terms & provisions.

This lease covers and includes all of Lessor' rights, title and interest in and to any servitudes, rights-of-way, roads, streets, alleys, highways, bayous, streams, coulees, lakes, ditches, etc. public or private, traversing or adjoining the lands described hereinabove, whether or not specifically described.

~~All land owned by the Lessor in the above mentioned Section or Sections or Surveys,~~ All property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise **40.00** acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 9, 2013 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of three hundred and no/100 Dollars ($300.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods three hundred and no/100 dollars ($300.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the **SEE PARAGRAPH 15 OF EXHIBIT "A" ATTACHED HERETO** Bank of _____which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of

667127

his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary term such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such

evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, If legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

MY COMMISSION EXPIRES at death

Notary Public
Notary ID# #16098

EXHIBIT "A"

Page 1 of 2 of Exhibit "A" Attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **NKBG PROPERTIES, LLC**, represented herein by Nelia Karen B. Goldman, as Lessor and **CINCO LAND & EXPLORATION, INC.**, as Lessee.

14. Lessors authorize Lessee, his successors or assigns, to tender all bonus, rentals, royalties and any other payments accruing under the terms of this lease in the proportions set out in the rental division order in Paragraph 15 below, regardless of surface and/or mineral ownership.

15. Lessor(s) authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to wit:

LESSOR	AMOUNT	DEPOSITORY
NKBG Properties, LLC	$1,000.00	Mail to Lessor's Address 2700 Bayou Lane Monroe, LA 71201

Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his, her or its interest.

16. In the event a portion or portions of the lands herein leased is pooled or unitized with other land as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event that the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term this lease is being maintained as to a part of the land by operations on or productions from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything to the contrary contained in this lease, Lessee shall have the continuous right of ingress and egress over, across and through any roads on the leased premises so long as Lessee conducts operations on the lands subject hereto, or lands pooled therewith.

17. Notwithstanding anything contained herein to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by payment of Shut-In gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 16 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 16 shall be applicable.

18. Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation **one-fifth (1/5th)** shall be substituted therefore.

19. It is the understanding of the lessor that the lessee will maintain and repair all areas used by lessee, its contractor, sub-contractors, employees or representatives during the term of this lease.

20. Lessee shall insure against any and all liability including environmental clean-up. Lessee will also provide an annual certificate of insurance as proof that the insurance is kept in effect during the terms of the lease should the surface be utilized.

21. All wells drilled on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, lessee shall provide lessor with written, notarized statement certifying that lessee has complied with the plugging and abandonment requirements of state wide Order 29B of State of Louisiana and shall furnish a copy of report to lessor within thirty (30) days.

Page 2 of 2 of Exhibit "A" attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **NKBG PROPERTIES, LLC**, represented herein by Nelia Karen B. Goldman, as Lessor and **CINCO LAND & EXPLORATION, INC.**, as Lessee.

22. SUB-SURFACE SERVITUDE

a. In addition to the Oil, Gas and Mineral Lease granted, the party or parties who have signed this instrument [who is (are) referred to as "Lessor" in the foregoing Oil, Gas and Mineral Lease and is (are) now referred to as "Grantor" (whether one or more) for the purpose of granting this Sub-Surface Servitude], for and in consideration of monies received for the foregoing Oil, Gas and Mineral Lease, the receipt and sufficiency of which are hereby acknowledged, hereby grants **CINCO LAND & EXPLORATION, INC.**. [who is referred to as "Lessee" in the foregoing Oil, Gas and Mineral Lease and is now referred to as "Grantee" for the purpose of this Sub-Surface Servitude]; a Sub-Surface Right-of-Way, Servitude and Easement under and across the land leased in the foregoing Oil, Gas and Mineral Lease, for the purpose of drilling, operating, producing, reworking and maintaining a directional or sidetrack well or wells from a surface location situated off of said land or on said land, to such bottomhole location as Grantee may deem appropriate.

b. Notwithstanding anything herein contained to the contrary, this Sub-Surface Servitude shall for all purposes hereof, be considered as a separate and independent contract between Grantor and Grantee covering and affecting the property herein described.

c. Grantee will indemnify and hold Grantor harmless from any and all damages to Grantor's property caused by the use of this Sub-Surface Servitude and will protect and hold Grantor harmless against any and all claims or demands by third parties arising out of or resulting from Grantee's use of the Sub-Surface Servitude herein granted.

d. The rights granted in this Sub-Surface Servitude will remain in full force and effect for so long as Grantee may continue to use these rights, but in the event Grantee ceases to use the rights herein granted for **one consecutive year**, this Sub-Surface Servitude will terminate.

It is specifically understood by the parties hereto and it is their intention that the rights granted in the foregoing Oil, Gas and Mineral Lease and the rights granted in this Sub-Surface Servitude shall be several and that the Sub-Surface Servitude herein provided for shall survive the Oil, Gas and Mineral Lease, in the event said Oil, Gas and Mineral Lease should terminate.

e. In the event this Sub-Surface Servitude, or any interest herein, be conveyed, assigned or otherwise transferred, Grantor expressly releases Grantee from its obligations hereunder, to the extent of such interest so conveyed, assigned or otherwise transferred.

The consideration paid by Lessee/Grantee to Lessor/Grantor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

FORM 42 CPMNEW SOUTH
LOUISIANA REVISED FOUR (4) POOLING
REVISED "A"

RECORDED AND FILED

OIL, GAS AND MINERAL LEASE

2012 AUG 31 PM 12: 19
MICHAEL H. ARCENEAUX
CLERK OF COURT
JEFFERSON DAVIS PARISH

THIS AGREEMENT, entered into effective as of July 9, 2012 by and between ALBERT SIDNEY JOHNSON, III, husband of Agnes Johnson, whose mailing address is 10963 Pomegranate Dr., Tucson, AZ 85737, herein called "Lessor" (whether one or more) and **CINCO LAND & EXPLORATION, INC.**, whose mailing address is 8811 Gaylord Dr., Houston, Texas 77024, hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of one hundred dollars and other valuable considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, ~~sulphur and all other minerals~~, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land ~~or acreage pooled therewith~~), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

That certain tract or parcel of land containing 40.00 acres, more or less, situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, bounded now or formerly as follows: Northwest by Richard Hebert, Vicky Hebert and Dennis Hebert; Northeast by Noble Energy, Inc.; Southeast by U BOL M RA SUA created by Office of Conservation Order 101-G, effective on and after June 7, 1988 and/or other lands of Lessor not leased herein; and Southwest by other lands of Lessor not leased herein and/or a line extending from the west most point of the U BOL M RA SUA to the south most point of the Richard Hebert property located in Section 12, T10S-R3W.

See **Exhibit "A"** attached hereto and made a part hereof for additional terms & provisions.

This lease covers and includes all of Lessor' rights, title and interest in and to any servitudes, rights-of-way, roads, streets, alleys, highways, bayous, streams, coulees, lakes, ditches, etc. public or private, traversing or adjoining the lands described hereinabove, whether or not specifically described.

~~All land owned by the Lessor in the above mentioned Section or Sections or Surveys,~~ All property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise **40.00** acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 9, 2013 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of three hundred and no/100 Dollars ($300.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods three hundred and no/100 dollars ($300.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the **SEE PARAGRAPH 15 OF EXHIBIT "A" ATTACHED HERETO** Bank of _____ which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of

667128

his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary term such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such

evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, If legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

Page 1 of 2 of Exhibit "A" Attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **ALBERT SIDNEY JOHNSON, III,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

14. Lessors authorize Lessee, his successors or assigns, to tender all bonus, rentals, royalties and any other payments accruing under the terms of this lease in the proportions set out in the rental division order in Paragraph 15 below, regardless of surface and/or mineral ownership.

15. Lessor(s) authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to wit:

LESSOR	AMOUNT	DEPOSITORY
Albert Sidney Johnson, III	$300.00	Mail to Lessor's Address 10963 Pomegranate Dr. Tucson, AZ 85737

Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his, her or its interest.

16. In the event a portion or portions of the lands herein leased is pooled or unitized with other land as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event that the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term this lease is being maintained as to a part of the land by operations on or productions from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything to the contrary contained in this lease, Lessee shall have the continuous right of ingress and egress over, across and through any roads on the leased premises so long as Lessee conducts operations on the lands subject hereto, or lands pooled therewith.

17. Notwithstanding anything contained herein to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by payment of Shut-In gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 16 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 16 shall be applicable.

18. Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation **one-fifth (1/5th)** shall be substituted therefore.

19. It is the understanding of the lessor that the lessee will maintain and repair all areas used by lessee, its contractor, sub-contractors, employees or representatives during the term of this lease.

20. Lessee shall insure against any and all liability including environmental clean-up. Lessee will also provide an annual certificate of insurance as proof that the insurance is kept in effect during the terms of the lease should the surface be utilized.

21. All wells drilled on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, lessee shall provide lessor with written, notarized statement certifying that lessee has complied with the plugging and abandonment requirements of state wide Order 29B of State of Louisiana and shall furnish a copy of report to lessor within thirty (30) days.

Page 2 of 2 of Exhibit "A" attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **ALBERT SIDNEY JOHNSON, III,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

22. SUB-SURFACE SERVITUDE

a. In addition to the Oil, Gas and Mineral Lease granted, the party or parties who have signed this instrument [who is (are) referred to as "Lessor" in the foregoing Oil, Gas and Mineral Lease and is (are) now referred to as "Grantor" (whether one or more) for the purpose of granting this Sub-Surface Servitude], for and in consideration of monies received for the foregoing Oil, Gas and Mineral Lease, the receipt and sufficiency of which are hereby acknowledged, hereby grants **CINCO LAND & EXPLORATION, INC.**. [who is referred to as "Lessee" in the foregoing Oil, Gas and Mineral Lease and is now referred to as "Grantee" for the purpose of this Sub-Surface Servitude]; a Sub-Surface Right-of-Way, Servitude and Easement under and across the land leased in the foregoing Oil, Gas and Mineral Lease, for the purpose of drilling, operating, producing, reworking and maintaining a directional or sidetrack well or wells from a surface location situated off of said land or on said land, to such bottomhole location as Grantee may deem appropriate.

b. Notwithstanding anything herein contained to the contrary, this Sub-Surface Servitude shall for all purposes hereof, be considered as a separate and independent contract between Grantor and Grantee covering and affecting the property herein described.

c. Grantee will indemnify and hold Grantor harmless from any and all damages to Grantor's property caused by the use of this Sub-Surface Servitude and will protect and hold Grantor harmless against any and all claims or demands by third parties arising out of or resulting from Grantee's use of the Sub-Surface Servitude herein granted.

d. The rights granted in this Sub-Surface Servitude will remain in full force and effect for so long as Grantee may continue to use these rights, but in the event Grantee ceases to use the rights herein granted for **one consecutive year**, this Sub-Surface Servitude will terminate.

It is specifically understood by the parties hereto and it is their intention that the rights granted in the foregoing Oil, Gas and Mineral Lease and the rights granted in this Sub-Surface Servitude shall be several and that the Sub-Surface Servitude herein provided for shall survive the Oil, Gas and Mineral Lease, in the event said Oil, Gas and Mineral Lease should terminate.

e. In the event this Sub-Surface Servitude, or any interest herein, be conveyed, assigned or otherwise transferred, Grantor expressly releases Grantee from its obligations hereunder, to the extent of such interest so conveyed, assigned or otherwise transferred.

The consideration paid by Lessee/Grantee to Lessor/Grantor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

FORM 42 CPMNEW SOUTH
LOUISIANA REVISED FOUR (4) POOLING
REVISED "A"

RECORDED AND FILED
2012 AUG 31 PM 12: 19
CLERK OF COURT
JEFFERSON DAVIS PARISH

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of July 9, 2012 by and between MARKHAM RAY TRAHAN, JR. AND SUSAN ARABIE TRAHAN, husband and wife, whose mailing address is 1533 Rustic Trail, Allen, TX 75002

herein called "Lessor" (whether one or more) and **CINCO LAND & EXPLORATION, INC.**, whose mailing address is 8811 Gaylord Dr., Houston, Texas 77024, hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of one hundred dollars and other valuable considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, ~~sulphur and all other minerals~~, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land ~~or acreage pooled therewith~~), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

That certain tract or parcel of land containing 40.00 acres, more or less, situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, bounded now or formerly as follows: Northwest by Richard Hebert, Vicky Hebert and Dennis Hebert; Northeast by Noble Energy, Inc.; Southeast by U BOL M RA SUA created by Office of Conservation Order 101-G, effective on and after June 7, 1988 and/or other lands of Lessor not leased herein; and Southwest by other lands of Lessor not leased herein and/or a line extending from the west most point of the U BOL M RA SUA to the south most point of the Richard Hebert property located in Section 12, T10S-R3W.

See **Exhibit "A"** attached hereto and made a part hereof for additional terms & provisions.

This lease covers and includes all of Lessor' rights, title and interest in and to any servitudes, rights-of-way, roads, streets, alleys, highways, bayous, streams, coulees, lakes, ditches, etc. public or private, traversing or adjoining the lands described hereinabove, whether or not specifically described.

~~All land owned by the Lessor In the above mentioned Section or Sections or Surveys,~~ All property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise **40.00** acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

667129

1. This lease shall terminate on July 9, 2013 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of three hundred and no/100 Dollars ($300.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods three hundred and no/100 dollars ($300.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the **SEE PARAGRAPH 15 OF EXHIBIT "A" ATTACHED HERETO** Bank of _____ which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of

his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary term such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such

evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, If legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

EXHIBIT "A"

Page 1 of 2 of Exhibit "A" Attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **MARKHAM RAY TRAHAN, JR., ET UX,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

14. Lessors authorize Lessee, his successors or assigns, to tender all bonus, rentals, royalties and any other payments accruing under the terms of this lease in the proportions set out in the rental division order in Paragraph 15 below, regardless of surface and/or mineral ownership.

15. Lessor(s) authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to wit:

LESSOR	AMOUNT	DEPOSITORY
Markham Ray Trahan Jr. & Susan Arabie Trahan	$100.00	Mail to Lessor's Address 1533 Rustic Trail Allen, TX 75002

Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his, her or its interest.

16. In the event a portion or portions of the lands herein leased is pooled or unitized with other land as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event that the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term this lease is being maintained as to a part of the land by operations on or productions from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything to the contrary contained in this lease, Lessee shall have the continuous right of ingress and egress over, across and through any roads on the leased premises so long as Lessee conducts operations on the lands subject hereto, or lands pooled therewith.

17. Notwithstanding anything contained herein to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by payment of Shut-In gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 16 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 16 shall be applicable.

18. Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation **one-fifth (1/5th)** shall be substituted therefore.

19. It is the understanding of the lessor that the lessee will maintain and repair all areas used by lessee, its contractor, sub-contractors, employees or representatives during the term of this lease.

20. Lessee shall insure against any and all liability including environmental clean-up. Lessee will also provide an annual certificate of insurance as proof that the insurance is kept in effect during the terms of the lease should the surface be utilized.

21. All wells drilled on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, lessee shall provide lessor with written, notarized statement certifying that lessee has complied with the plugging and abandonment requirements of state wide Order 29B of State of Louisiana and shall furnish a copy of report to lessor within thirty (30) days.

Page 2 of 2 of Exhibit "A" attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **MARKHAM RAY TRAHAN, JR., ET UX,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

22. SUB-SURFACE SERVITUDE

a. In addition to the Oil, Gas and Mineral Lease granted, the party or parties who have signed this instrument [who is (are) referred to as "Lessor" in the foregoing Oil, Gas and Mineral Lease and is (are) now referred to as "Grantor" (whether one or more) for the purpose of granting this Sub-Surface Servitude], for and in consideration of monies received for the foregoing Oil, Gas and Mineral Lease, the receipt and sufficiency of which are hereby acknowledged, hereby grants **CINCO LAND & EXPLORATION, INC.**. [who is referred to as "Lessee" in the foregoing Oil, Gas and Mineral Lease and is now referred to as "Grantee" for the purpose of this Sub-Surface Servitude]; a Sub-Surface Right-of-Way, Servitude and Easement under and across the land leased in the foregoing Oil, Gas and Mineral Lease, for the purpose of drilling, operating, producing, reworking and maintaining a directional or sidetrack well or wells from a surface location situated off of said land or on said land, to such bottomhole location as Grantee may deem appropriate.

b. Notwithstanding anything herein contained to the contrary, this Sub-Surface Servitude shall for all purposes hereof, be considered as a separate and independent contract between Grantor and Grantee covering and affecting the property herein described.

c. Grantee will indemnify and hold Grantor harmless from any and all damages to Grantor's property caused by the use of this Sub-Surface Servitude and will protect and hold Grantor harmless against any and all claims or demands by third parties arising out of or resulting from Grantee's use of the Sub-Surface Servitude herein granted.

d. The rights granted in this Sub-Surface Servitude will remain in full force and effect for so long as Grantee may continue to use these rights, but in the event Grantee ceases to use the rights herein granted for **one consecutive year**, this Sub-Surface Servitude will terminate.

It is specifically understood by the parties hereto and it is their intention that the rights granted in the foregoing Oil, Gas and Mineral Lease and the rights granted in this Sub-Surface Servitude shall be several and that the Sub-Surface Servitude herein provided for shall survive the Oil, Gas and Mineral Lease, in the event said Oil, Gas and Mineral Lease should terminate.

e. In the event this Sub-Surface Servitude, or any interest herein, be conveyed, assigned or otherwise transferred, Grantor expressly releases Grantee from its obligations hereunder, to the extent of such interest so conveyed, assigned or otherwise transferred.

The consideration paid by Lessee/Grantee to Lessor/Grantor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of July 9, 2012 by and between CHRISTOPHER JOHN TRAHAN a single man of majority age, whose mailing address is 22 River Rd., Lake Charles, LA 70601

herein called "Lessor" (whether one or more) and **CINCO LAND & EXPLORATION, INC.**, whose mailing address is 8811 Gaylord Dr., Houston, Texas 77024, hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of one hundred dollars and other valuable considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, ~~sulphur and all other minerals~~, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land ~~or acreage pooled therewith~~), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

That certain tract or parcel of land containing 40.00 acres, more or less, situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, bounded now or formerly as follows: Northwest by Richard Hebert, Vicky Hebert and Dennis Hebert; Northeast by Noble Energy, Inc.; Southeast by U BOL M RA SUA created by Office of Conservation Order 101-G, effective on and after June 7, 1988 and/or other lands of Lessor not leased herein; and Southwest by other lands of Lessor not leased herein and/or a line extending from the west most point of the U BOL M RA SUA to the south most point of the Richard Hebert property located in Section 12, T10S-R3W.

See **Exhibit "A"** attached hereto and made a part hereof for additional terms & provisions.

This lease covers and includes all of Lessor' rights, title and interest in and to any servitudes, rights-of-way, roads, streets, alleys, highways, bayous, streams, coulees, lakes, ditches, etc. public or private, traversing or adjoining the lands described hereinabove, whether or not specifically described.

~~All land owned by the Lessor in the above mentioned Section or Sections or Surveys,~~ All property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise **40.00** acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 9, 2013 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of three hundred and no/100 Dollars ($300.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods three hundred and no/100 dollars ($300.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the **SEE PARAGRAPH 15 OF EXHIBIT "A" ATTACHED HERETO** Bank of _____ which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of

667130

his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary term such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such

evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, If legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

EXHIBIT "A"

Page 1 of 2 of Exhibit "A" Attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **CHRISTOPHER JOHN TRAHAN,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

14. Lessors authorize Lessee, his successors or assigns, to tender all bonus, rentals, royalties and any other payments accruing under the terms of this lease in the proportions set out in the rental division order in Paragraph 15 below, regardless of surface and/or mineral ownership.

15. Lessor(s) authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to wit:

LESSOR	AMOUNT	DEPOSITORY
Christopher John Trahan	$100.00	Mail to Lessor's Address 22 River Rd. Lake Charles, LA 70601

Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his, her or its interest.

16. In the event a portion or portions of the lands herein leased is pooled or unitized with other land as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event that the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term this lease is being maintained as to a part of the land by operations on or productions from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything to the contrary contained in this lease, Lessee shall have the continuous right of ingress and egress over, across and through any roads on the leased premises so long as Lessee conducts operations on the lands subject hereto, or lands pooled therewith.

17. Notwithstanding anything contained herein to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by payment of Shut-In gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 16 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 16 shall be applicable.

18. Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation **one-fifth (1/5th)** shall be substituted therefore.

19. It is the understanding of the lessor that the lessee will maintain and repair all areas used by lessee, its contractor, sub-contractors, employees or representatives during the term of this lease.

20. Lessee shall insure against any and all liability including environmental clean-up. Lessee will also provide an annual certificate of insurance as proof that the insurance is kept in effect during the terms of the lease should the surface be utilized.

21. All wells drilled on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, lessee shall provide lessor with written, notarized statement certifying that lessee has complied with the plugging and abandonment requirements of state wide Order 29B of State of Louisiana and shall furnish a copy of report to lessor within thirty (30) days.

Page 2 of 2 of Exhibit "A" attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **CHRISTOPHER JOHN TRAHAN,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

22. SUB-SURFACE SERVITUDE

a. In addition to the Oil, Gas and Mineral Lease granted, the party or parties who have signed this instrument [who is (are) referred to as "Lessor" in the foregoing Oil, Gas and Mineral Lease and is (are) now referred to as "Grantor" (whether one or more) for the purpose of granting this Sub-Surface Servitude], for and in consideration of monies received for the foregoing Oil, Gas and Mineral Lease, the receipt and sufficiency of which are hereby acknowledged, hereby grants **CINCO LAND & EXPLORATION, INC.**. [who is referred to as "Lessee" in the foregoing Oil, Gas and Mineral Lease and is now referred to as "Grantee" for the purpose of this Sub-Surface Servitude]; a Sub-Surface Right-of-Way, Servitude and Easement under and across the land leased in the foregoing Oil, Gas and Mineral Lease, for the purpose of drilling, operating, producing, reworking and maintaining a directional or sidetrack well or wells from a surface location situated off of said land or on said land, to such bottomhole location as Grantee may deem appropriate.

b. Notwithstanding anything herein contained to the contrary, this Sub-Surface Servitude shall for all purposes hereof, be considered as a separate and independent contract between Grantor and Grantee covering and affecting the property herein described.

c. Grantee will indemnify and hold Grantor harmless from any and all damages to Grantor's property caused by the use of this Sub-Surface Servitude and will protect and hold Grantor harmless against any and all claims or demands by third parties arising out of or resulting from Grantee's use of the Sub-Surface Servitude herein granted.

d. The rights granted in this Sub-Surface Servitude will remain in full force and effect for so long as Grantee may continue to use these rights, but in the event Grantee ceases to use the rights herein granted for **one consecutive year**, this Sub-Surface Servitude will terminate.

It is specifically understood by the parties hereto and it is their intention that the rights granted in the foregoing Oil, Gas and Mineral Lease and the rights granted in this Sub-Surface Servitude shall be several and that the Sub-Surface Servitude herein provided for shall survive the Oil, Gas and Mineral Lease, in the event said Oil, Gas and Mineral Lease should terminate.

e. In the event this Sub-Surface Servitude, or any interest herein, be conveyed, assigned or otherwise transferred, Grantor expressly releases Grantee from its obligations hereunder, to the extent of such interest so conveyed, assigned or otherwise transferred.

The consideration paid by Lessee/Grantee to Lessor/Grantor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

FORM 42 CPMNEW SOUTH
LOUISIANA REVISED FOUR (4) POOLING
REVISED "A"

RECORDED AND FILED
2012 AUG 31 PM 12:20
MICHAEL P. ARCENEAUX
CLERK OF COURT
JEFFERSON DAVIS PARISH

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of July 9, 2012 by and between THE MARK W. BOUDREAUX AND GENEVIEVE G. BOUDREAUX FAMILY TRUST, represented herein by Trustee, Genevieve G. Boudreaux, whose mailing address is 2601 Petworth Court, Cincinnati, OH 45236,

herein called "Lessor" (whether one or more) and **CINCO LAND & EXPLORATION, INC.**, whose mailing address is 8811 Gaylord Dr., Houston, Texas 77024, hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of one hundred dollars and other valuable considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, ~~sulphur and all other minerals~~, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land ~~or acreage pooled therewith~~), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

That certain tract or parcel of land containing 40.00 acres, more or less, situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, bounded now or formerly as follows: Northwest by Richard Hebert, Vicky Hebert and Dennis Hebert; Northeast by Noble Energy, Inc.; Southeast by U BOL M RA SUA created by Office of Conservation Order 101-G, effective on and after June 7, 1988 and/or other lands of Lessor not leased herein; and Southwest by other lands of Lessor not leased herein and/or a line extending from the west most point of the U BOL M RA SUA to the south most point of the Richard Hebert property located in Section 12, T10S-R3W.

See **Exhibit "A"** attached hereto and made a part hereof for additional terms & provisions.

This lease covers and includes all of Lessor' rights, title and interest in and to any servitudes, rights-of-way, roads, streets, alleys, highways, bayous, streams, coulees, lakes, ditches, etc. public or private, traversing or adjoining the lands described hereinabove, whether or not specifically described.

~~All land owned by the Lessor in the above mentioned Section or Sections or Surveys,~~ All property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise **40.00** acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 9, 2013 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of three hundred and no/100 Dollars ($300.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods three hundred and no/100 dollars ($300.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the **SEE PARAGRAPH 15 OF EXHIBIT "A" ATTACHED HERETO** Bank of _____ which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof,

667131

Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary term such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment

evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, If legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.

Page 1 of 2 of Exhibit "A" Attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **THE MARK W. BOUDREAUX AND GENEVIEVE G. BOUDREAUX FAMILY TRUST**, represented herein by Trustee, Genevieve G. Boudreaux, as Lessor and **CINCO LAND & EXPLORATION, INC.**, as Lessee.

14. Lessors authorize Lessee, his successors or assigns, to tender all bonus, rentals, royalties and any other payments accruing under the terms of this lease in the proportions set out in the rental division order in Paragraph 15 below, regardless of surface and/or mineral ownership.

15. Lessor(s) authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to wit:

LESSOR	AMOUNT	DEPOSITORY
The Mark W. Boudreaux and Genevieve G. Boudreaux Family Trust	$750.00	Mail to Lessor's Address 2601 Petworth Court Cincinnati, OH 45236

Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his, her or its interest.

16. In the event a portion or portions of the lands herein leased is pooled or unitized with other land as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event that the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term this lease is being maintained as to a part of the land by operations on or productions from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything to the contrary contained in this lease, Lessee shall have the continuous right of ingress and egress over, across and through any roads on the leased premises so long as Lessee conducts operations on the lands subject hereto, or lands pooled therewith.

17. Notwithstanding anything contained herein to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by payment of Shut-In gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 16 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 16 shall be applicable.

18. Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation **one-fifth (1/5th)** shall be substituted therefore.

19. It is the understanding of the lessor that the lessee will maintain and repair all areas used by lessee, its contractor, sub-contractors, employees or representatives during the term of this lease.

20. Lessee shall insure against any and all liability including environmental clean-up. Lessee will also provide an annual certificate of insurance as proof that the insurance is kept in effect during the terms of the lease should the surface be utilized.

21. All wells drilled on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, lessee shall provide lessor with written, notarized statement certifying that lessee has complied with the plugging and abandonment requirements of state wide Order 29B of State of Louisiana and shall furnish a copy of report to lessor within thirty (30) days.

Page 2 of 2 of Exhibit "A" attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **THE MARK W. BOUDREAUX AND GENEVIEVE G. BOUDREAUX FAMILY TRUST,** represented herein by Trustee, Genevieve G. Boudreaux, as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

22. SUB-SURFACE SERVITUDE

a. In addition to the Oil, Gas and Mineral Lease granted, the party or parties who have signed this instrument [who is (are) referred to as "Lessor" in the foregoing Oil, Gas and Mineral Lease and is (are) now referred to as "Grantor" (whether one or more) for the purpose of granting this Sub-Surface Servitude], for and in consideration of monies received for the foregoing Oil, Gas and Mineral Lease, the receipt and sufficiency of which are hereby acknowledged, hereby grants **CINCO LAND & EXPLORATION, INC.**. [who is referred to as "Lessee" in the foregoing Oil, Gas and Mineral Lease and is now referred to as "Grantee" for the purpose of this Sub-Surface Servitude]; a Sub-Surface Right-of-Way, Servitude and Easement under and across the land leased in the foregoing Oil, Gas and Mineral Lease, for the purpose of drilling, operating, producing, reworking and maintaining a directional or sidetrack well or wells from a surface location situated off of said land or on said land, to such bottomhole location as Grantee may deem appropriate.

b. Notwithstanding anything herein contained to the contrary, this Sub-Surface Servitude shall for all purposes hereof, be considered as a separate and independent contract between Grantor and Grantee covering and affecting the property herein described.

c. Grantee will indemnify and hold Grantor harmless from any and all damages to Grantor's property caused by the use of this Sub-Surface Servitude and will protect and hold Grantor harmless against any and all claims or demands by third parties arising out of or resulting from Grantee's use of the Sub-Surface Servitude herein granted.

d. The rights granted in this Sub-Surface Servitude will remain in full force and effect for so long as Grantee may continue to use these rights, but in the event Grantee ceases to use the rights herein granted for **one consecutive year**, this Sub-Surface Servitude will terminate.

It is specifically understood by the parties hereto and it is their intention that the rights granted in the foregoing Oil, Gas and Mineral Lease and the rights granted in this Sub-Surface Servitude shall be several and that the Sub-Surface Servitude herein provided for shall survive the Oil, Gas and Mineral Lease, in the event said Oil, Gas and Mineral Lease should terminate.

e. In the event this Sub-Surface Servitude, or any interest herein, be conveyed, assigned or otherwise transferred, Grantor expressly releases Grantee from its obligations hereunder, to the extent of such interest so conveyed, assigned or otherwise transferred.

The consideration paid by Lessee/Grantee to Lessor/Grantor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

FORM 42 CPMNEW SOUTH
LOUISIANA REVISED FOUR (4) POOLING
REVISED "A"

RECORDED AND FILED
2012 SEP 19 AM 11:27
CLERK OF COURT
JEFFERSON DAVIS PARISH

OIL, GAS AND MINERAL LEASE

THIS AGREEMENT, entered into effective as of July 9, 2012 by and between NANCY W. JOHNSON, ET AL (SEE EXHIBIT "A", ATTACHED HERETO FOR A COMPLETE LIST OF LESSORS)

herein called "Lessor" (whether one or more) and **CINCO LAND & EXPLORATION, INC.**, whose mailing address is 8811 Gaylord Dr., Houston, Texas 77024, hereinafter called "Lessee", witnesseth, that:

Lessor, in consideration of the sum of one hundred dollars and other valuable considerations ($ 100.00 & OVC), hereby leases and lets unto Lessee, the exclusive right to enter upon and use the land hereinafter described for the exploration for, and production of oil, gas, ~~sulphur and all other minerals~~, together with the use of the surface of the land for all purposes incident to the exploration for and production, ownership, possession and transportation of said minerals (either from said land ~~or acreage pooled therewith~~), and the right of ingress and egress to and from said lands at all times for such purposes, including the right to construct, maintain and use roads and/or canals thereon for operations hereunder and including the right to remove from the land any property placed by Lessee thereon and to draw and remove casing from wells drilled by Lessee on said land; the land to which this lease applies and which is affected hereby being situated in Jefferson Davis Parish, Louisiana, and described as follows, to-wit:

That certain tract or parcel of land containing 40.00 acres, more or less, situated in Section 17, Township 10 South, Range 2 West and Section 39, Township 10 South, Range 3 West, bounded now or formerly as follows: Northwest by Richard Hebert, Vicky Hebert and Dennis Hebert; Northeast by Noble Energy, Inc.; Southeast by U BOL M RA SUA created by Office of Conservation Order 101-G, effective on and after June 7, 1988 and/or other lands of Lessor not leased herein; and Southwest by other lands of Lessor not leased herein and/or a line extending from the west most point of the U BOL M RA SUA to the south most point of the Richard Hebert property located in Section 12, T10S-R3W.

667414

This lease covers and includes all of Lessor' rights, title and interest in and to any servitudes, rights-of-way, roads, streets, alleys, highways, bayous, streams, coulees, lakes, ditches, etc. public or private, traversing or adjoining the lands described hereinabove, whether or not specifically described.

~~All land owned by the Lessor In the above mentioned Section or Sections or Surveys,~~ All property acquired by prescription and all accretion or alluvion attaching to and forming a part of said land are included herein, whether properly or specifically described or not. Whether or not any reduction in rentals shall have previously been made, this lease, without further evidence thereof, shall immediately attach to and affect any and all rights, titles, and interests in the above described land, including reversionary mineral rights, hereafter acquired by or inuring to Lessor and Lessor's successors and assigns.

For the purpose of calculating the payments hereinafter provided for, the above described land is estimated to comprise **40.00** acres, whether it actually comprises more or less.

This lease shall be for a term of three (3) years and no (0) months from the date hereof (called "primary term") and so long thereafter as oil, gas or some other mineral is being produced or drilling operations are conducted either on this land or on acreage pooled therewith, all as hereinafter provided for; all subject to the following conditions and agreements:

1. This lease shall terminate on July 9, 2013 unless on or before said date the Lessee either (1) commences operations for the drilling of a well on the land, or on acreage pooled therewith, in search of oil, gas or other minerals and thereafter continues such operations and drilling to completion or abandonment; or (2) pays to the Lessor a rental of three hundred and no/100 Dollars ($300.00) per acre for all or that part of the land which Lessee elects to continue to hold hereunder, which payment shall maintain Lessee's right in effect as to such land without drilling operations for one year from the date last above mentioned; and Lessee may continue to maintain the rights granted without drilling operations for successive twelve months' periods (during the primary term) by paying Lessor, on or before the beginning of such respective periods three hundred and no/100 dollars ($300.00) per acre for all or that part of the land held hereunder. Payments may be made to Lessor or may be mailed or delivered for deposit to Lessor's credit in the **SEE PARAGRAPH 15 OF EXHIBIT "A" ATTACHED HERETO** Bank of _____ which Bank or its successors shall continue to be the depository for such rentals as the representative of Lessor and Lessor's successors and assigns; and the death or incapacity of Lessor shall not terminate or affect Lessee's right to continue to deposit all payments in said depository bank or its successor. The mailing of the check or draft of Lessee or Lessee's successors to Lessor at the address set forth above or to the said Bank on or before the rental paying date shall be considered as payment of rental and operate to maintain Lessee's right in force and effect. Should said Bank fail or liquidate, or if it should for any reason fail or refuse to accept Lessee's check or draft, the attempted payment in the manner above provided shall not be thereby rendered ineffective and Lessee shall not be in default for failure to pay said rental until thirty (30) days after Lessor shall have furnished Lessee with a recordable instrument naming a new depository; and this provision shall apply to all such new and subsequently named depositories.

2. Lessee at its option, is hereby given the right and power without any further approval from Lessor to pool or combine the acreage, royalty, or mineral interest covered by this lease, or any portion thereof, with other land, lease or leases, royalty and mineral interests in the immediate vicinity thereof, when, in Lessee's judgment, it is necessary or advisable to do so in order to properly develop and operate said premises so as to promote the conservation of oil, gas or other minerals in and under and that may be produced from said premises or to comply with the spacing or unitization order of any Regulatory Body of the State of Louisiana or the United States having jurisdiction. The term "Regulatory Body" shall include any governmental tribunal or group (civil or military) issuing orders governing the drilling of wells or the production of minerals, irrespective of whether said orders are designed to promote conservation or to conserve materials or equipment for National Defense or similar purposes. Such pooling shall be of tracts which will form one contiguous body of land for each unit and the unit or units so created shall not exceed substantially forty (40) acres each, surrounding each oil well and substantially 160 acres each for each gas or gas-distillate well, unless a larger spacing pattern or larger drilling or producing units (including a field or pool unit) have been fixed and established by an order of a Regulatory Body of the State of Louisiana or of the United States, in which event the unit or units may be of the size fixed by said order. Lessee shall execute and record in the Conveyance Records of the Parish in which the land herein leased is situated an instrument identifying and describing the pooled acreage; and upon such recordation, the unit or units shall thereby become effective. In lieu of the royalties elsewhere herein specified and subject to the provisions of Paragraph 10 hereof, Lessor shall receive from production from the unit so pooled only such portion of the royalties stipulated herein as the amount of his acreage placed in the unit, or his royalty interest therein, bears to the total acreage so pooled in the particular unit involved. Drilling or reworking operations on or production of oil, gas, sulphur or other minerals from land included in such pooled unit shall

have the effect of continuing this lease in force and effect during or after the primary term as to all of the land covered hereby (including any portion of said land not included in said unit) whether or not such operations be on or such production be from land covered hereby. Any unit formed by Lessee hereunder may be created either prior to or during the drilling or after the completion of the unit well; and separate units may be created for oil and for gas even though the areas thereof overlap. Lessee shall have the right and power to reduce and diminish the extent of any unit created under the terms of this paragraph so as to eliminate from said unit any acreage or lease upon which there is or may be an adverse claim; and Lessee may also re-form any unit to conform with an order of a Regulatory Body issued after said unit was originally established. Such revision of the unit shall be evidenced by an instrument in writing executed by Lessee, which shall identify and describe the lands included in the unit as revised and shall be recorded in conveyance records of the Parish where the lands herein leased are situated.

3. Lessee may, at any time prior to or after the discovery and production of minerals on the land, execute and deliver to Lessor or place of record a release or releases of any portion or portions of the lands and be relieved of all requirements hereof as to the land surrendered, and, if during the primary term, the rental shall not be reduced. In the event of the forfeiture of this lease for any cause, Lessee shall have the right to retain around each well then producing oil, gas or other minerals or being drilled or worked on the number of acres fixed and located by the spacing or unit order of any Regulatory Body of the State of Louisiana or of the United States under which said well is being drilled or produced, or if said well has been or is being drilled on a unit pooled by Lessee as provided herein, then Lessee may retain all of the acreage comprising said pooled unit; and if no spacing order has been issued nor any pooled unit established, then Lessee shall have the right to retain forty (40) acres surrounding each oil well and 160 acres surrounding each gas well then producing or being drilled or worked on, such forty acres or 160 acres to be in as near a square form as is practicable.

4. After beginning operations on the lands or on acreage pooled therewith (or with any part thereof) and prior to the discovery and production of minerals in paying quantities, Lessee may maintain the rights granted during and after the primary term by continuing such operations without the lapse of more than ninety (90) days between abandonment of work on one well and beginning operations for drilling another; and during the primary term such operations may be discontinued and the rights granted maintained by resuming rental payments, by paying within ninety (90) days from the discontinuance of operations (regardless of the fixed rental paying date) the proportion of the fixed yearly rental that the number of days between the end of said ninety (90) days and the next ensuing rental paying date bears to the twelve months' period; but, if said ninety (90) days should expire during any year for which rentals have been paid, no further rental shall be due until the next fixed rental paying date.

5. If, prior to or after the discovery of oil on the lands held hereunder, a well producing oil in paying quantities for thirty (30) consecutive days is brought in on adjacent lands not owned by the Lessor and not forming a pooled unit containing a portion of the lands described herein, and within 330 feet of any line of the land held hereunder, Lessee, in order to maintain the rights granted, shall thereafter begin and prosecute with reasonable diligence the drilling of a well in an effort to discover oil thereby and to protect the land held hereunder from drainage.

6. After the discovery and production of oil, gas or any other mineral in paying quantities, either on the leased premises or on lands pooled therewith, the rights granted shall be maintained in effect during and after the primary term and without the payment of the rentals hereinabove provided for so long as oil, gas or some other mineral is being produced in paying quantities, or Lessee is carrying on operations with reasonable diligence looking to the production thereof. It is provided, however, that if, after the discovery and production of oil, gas or other minerals in paying quantities, the production thereof should cease from any cause this lease shall terminate unless Lessee resumes or restores such production, or commences additional drilling, reworking or mining operations within ninety (90) days thereafter and continues such operations without the lapse of more than ninety (90) days between abandonment of work on one well and commencement of reworking operations or operations for the drilling of another, in an effort to restore production of oil, gas or other minerals, or (if during the primary term) resumes the payment of rentals in the manner hereinabove provided for in connection with the abandonment of wells drilled. Lessee shall not be required to produce more than one mineral, the production of any one mineral in paying quantities and with reasonable diligence being sufficient to maintain all of Lessee's rights. Should Lessee by the drilling of any well located on the land or on property pooled therewith, discover gas or gaseous substances capable of production in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or Governmental restrictions, then Lessee's rights may be maintained, in the absence of production or drilling operations, by commencing or resuming rental payments as hereinabove provided for in connection with the drilling of a non-producing well; and should such conditions occur or exist after the primary term Lessee's rights may be further extended by the commencement, resumption or continuance of such payments at the rate and in the manner herein fixed for rental payments during the primary term; provided, however, that in no event shall Lessee's rights be so extended by rental payments and without drilling operations or production of oil, gas or some other mineral for more than two consecutive years.

7. Subject to the provisions of Paragraphs 2 and 10 hereof the royalties to be paid by Lessee are: (a) On oil and other liquid hydrocarbons ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of that produced and saved from the land and not used for fuel in conducting operations on the property (or on acreage pooled therewith) or in treating said oil to make it marketable; (b) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the market value of the gas sold or used by Lessee in operations not connected with the land leased or any pooled unit containing a portion of said land; (c) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value at the mouth of the well of casinghead gas used in manufacturing casinghead gasoline to be computed by methods recognized in the industry; (d) One Dollar ($1.00) for each ton of 2240 pounds of sulphur, payable when marketed; and (e) ~~one-eighth (1/8th)~~ **one-fifth (1/5th)** of the value of all other minerals mined and marketed. Oil royalties shall be delivered to Lessor free of expense at Lessor's option in tanks furnished by Lessor at the well or to Lessor's credit in any pipe line connected therewith. In the event Lessor does not furnish tanks for such royalty oil and no pipe line is connected with the well, Lessee may sell Lessor's royalty oil at the best market price obtainable and pay Lessor the price received f. o. b. the leased property, less any severance or production tax imposed thereon.

Lessee shall have the right to inject gas, water, brine or other fluids into sub-surface strata, and no royalties shall be due on any gas produced by Lessee and injected into sub-surface strata through a well or wells located either on the land or on a unit comprising a portion of the land.

8. The Lessee shall be responsible for all damages caused by Lessee's operations.

9. All provisions hereof shall extend to and bind the successors and assigns (in whole or in part) of Lessor and Lessee; but no change in the ownership of the land or any interest therein or change in the capacity or status of Lessor, whether resulting from sale, inheritance or otherwise, shall impose any additional burden on Lessee nor shall any change in ownership or in the status or capacity of Lessor impair the effectiveness of payments made to Lessor herein named unless the then record owner of said lease shall have been furnished, thirty (30) days before payment is due, with certified copy of recorded instrument or judgment evidencing such transfer, inheritance or sale or evidence of such change in status or capacity of Lessor. The furnishing of such evidence shall not affect the validity of payments theretofore made in advance. In the event of the assignment of this lease, either as to a segregated portion of the land or as to an undivided interest in the lease contract, delay rentals shall be apportioned among

00- 606

the several leasehold owners according to the surface area of the undivided interest of each, and default in payment by one shall affect the rights of others.

10. Lessor hereby warrants the title to said land and agrees that Lessee may, at its option, discharge any tax, mortgage or other lien upon the land and be subrogated thereto and have the right to apply to the repayment of Lessee any rentals and/or royalties accruing hereunder. If Lessor owns less than the entire undivided interest in all or any portion of the lands or mineral rights relating thereto (whether such interest is herein specified or not) rentals and royalties as to the land in which an interest is outstanding in others shall be reduced proportionately to the interest of the Lessor therein, but the failure of Lessee to reduce rentals shall not affect Lessee's rights to reduce royalties; and all outstanding royalty rights shall be deducted from the royalties herein provided for. Lessee shall have the right to purchase a lease or leases from others to protect its leasehold rights and shall not thereby be held to have disputed Lessor's title; and in the event Lessor's title or an interest therein is claimed by others, Lessee shall have the right to withhold payment of royalties or to deposit such royalties in the registry of the Court until final determination of Lessor's rights.

11. In the event that Lessor at any time considers that operations are not being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, If legally required to conduct operations in order to maintain the lease in force, shall have sixty (60) days after receipt of such notice in which to commence the necessary operations to comply with the requirements hereof.

12. If the land herein described is owned in divided or undivided portions by more than one party, this instrument may be signed in any number of counterparts, each of which shall be binding on the party or parties so signing regardless of whether all of the owners, join in the granting of this lease.

13. The requirements hereof shall be subject to any State and/or Federal Law or order regulating operations on the land.

The consideration paid by Lessee to Lessor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

SWORN TO AND SUBSCRIBED before me ~~July~~ September 10th, 2012.

Catherine D. LaBry
Notary Public in and for Lafayette Parish, La.
Notary ID # 014040

EXHIBIT "A"

Page 1 of 2 of Exhibit "A" Attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **NANCY W. JOHNSON, ET AL,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

LESSORS:
NANCY W. JOHNSON, widow of Richard Johnson, whose mailing address is 705 Dautel St., Welsh, LA 70591;

JAMES R. JOHNSON, a single man of majority age, whose mailing address is 11545 Highway 99, Welsh, LA 70591

CLAIRE C. ANGELLE, a single woman of majority age, whose mailing address is 1106 N. Cary, Jennings, LA 70546;

PATRICK W. JOHNSON, a single man of majority age, whose mailing address is 36183 Bluff Oaks Ave., Prairieville, LA 70769; and

PAUL O. JOHNSON, a single man of majority age, whose mailing address is P.O. Box 190, Welsh, LA 70591.

14. Lessors authorize Lessee, his successors or assigns, to tender all bonus, rentals, royalties and any other payments accruing under the terms of this lease in the proportions set out in the rental division order in Paragraph 15 below, regardless of surface and/or mineral ownership.

15. Lessor(s) authorize Lessee to pay or tender any rentals accruing under the terms of this lease to them or to their credit in the respective depositories set out below, or any successor depository which may be designated as herein provided, and in the following amounts, to wit:

LESSOR	AMOUNT	DEPOSITORY
Nancy W. Johnson	$300.00	Mail to Lessor's Address 705 Dautel Welsh, LA 70591
James R. Johnson	$0.00	Mail to Lessor's Address 11545 Highway 99 Welsh, LA 70591
Claire C. Angelle	$0.00	Mail to Lessor's Address 1106 N. Cary Jennings, LA 70546
Patrick W. Johnson	$0.00	Mail to Lessor's Address 36183 Bluff Oaks Ave. Prairieville, LA 70769
Paul O. Johnson	$0.00	Mail to Lessor's Address P.O. Box 190 Welsh, LA 70591

Each Lessor agrees that the timely payment or tender of rentals as set forth above will protect this lease and continue it in force and effect as to his, her or its interest.

Page 2 of 2 of Exhibit "A" attached to and made a part of that certain Oil, Gas and Mineral Lease dated July 9, 2012 by and between **NANCY W. JOHNSON, ET AL,** as Lessor and **CINCO LAND & EXPLORATION, INC.,** as Lessee.

16. In the event a portion or portions of the lands herein leased is pooled or unitized with other land as to form a pooled unit or units, operations on or production from such unit or units will maintain this lease in force only as to the land included in such unit or units. This lease may be maintained in force as to any land covered hereby and not included in such unit or units in any manner provided for herein, provided that if it be by rental payments, rentals shall be reduced in the proportion that the acreage covered by this lease and contained in such unit or units bears to the total acreage then covered by this lease. In the event that the date of commencement of drilling operations or production on a unit is less than thirty (30) days prior to the next ensuing rental paying date, Lessee shall be privileged to make such rental payment on or before thirty (30) days after such rental paying date and thereby maintain its rights hereunder. If at or after the end of the primary term this lease is being maintained as to a part of the land by operations on or productions from a pooled unit or units embracing lands covered hereby and other land and if at such time there be land covered hereby which is not situated in such unit or units and as to which the lease is not being maintained by operations, production or any other means, Lessee shall have the right to maintain the lease as to such land by rental payments exactly as if it were during the primary term, provided that this lease may not be so maintained in force by rental payments more than **two (2)** years beyond the end of the primary term. Notwithstanding anything to the contrary contained in this lease, Lessee shall have the continuous right of ingress and egress over, across and through any roads on the leased premises so long as Lessee conducts operations on the lands subject hereto, or lands pooled therewith.

17. Notwithstanding anything contained herein to the contrary, it is understood and agreed that in the event Lessee elects to maintain this lease by payment of Shut-In gas rental as provided in Paragraph 6, then no rental payment shall be required under Paragraph 16 as long as Lessee is maintaining this lease by such payment of shut-in gas rental. When this lease ceases to be maintained by such payment of shut-in gas rental, the provisions of Paragraph 16 shall be applicable.

18. Wherever the designation one-eighth (1/8) appears in paragraph seven (7) herein, the designation **one-fifth (1/5th)** shall be substituted therefore.

19. It is the understanding of the lessor that the lessee will maintain and repair all areas used by lessee, its contractor, sub-contractors, employees or representatives during the term of this lease.

20. Lessee shall insure against any and all liability including environmental clean-up. Lessee will also provide an annual certificate of insurance as proof that the insurance is kept in effect during the terms of the lease should the surface be utilized.

21. All wells drilled on the leased premises shall be plugged and abandoned in compliance with all state and federal regulations. Specifically, lessee shall provide lessor with written, notarized statement certifying that lessee has complied with the plugging and abandonment requirements of state wide Order 29B of State of Louisiana and shall furnish a copy of report to lessor within thirty (30) days.

22. SUB-SURFACE SERVITUDE

a. In addition to the Oil, Gas and Mineral Lease granted, the party or parties who have signed this instrument [who is (are) referred to as "Lessor" in the foregoing Oil, Gas and Mineral Lease and is (are) now referred to as "Grantor" (whether one or more) for the purpose of granting this Sub-Surface Servitude], for and in consideration of monies received for the foregoing Oil, Gas and Mineral Lease, the receipt and sufficiency of which are hereby acknowledged, hereby grants **CINCO LAND & EXPLORATION, INC.**. [who is referred to as "Lessee" in the foregoing Oil, Gas and Mineral Lease and is now referred to as "Grantee" for the purpose of this Sub-Surface Servitude]; a Sub-Surface Right-of-Way, Servitude and Easement under and across the land leased in the foregoing Oil, Gas and Mineral Lease, for the purpose of drilling, operating, producing, reworking and maintaining a directional or sidetrack well or wells from a surface location situated off of said land or on said land, to such bottomhole location as Grantee may deem appropriate.

b. Notwithstanding anything herein contained to the contrary, this Sub-Surface Servitude shall for all purposes hereof, be considered as a separate and independent contract between Grantor and Grantee covering and affecting the property herein described.

c. Grantee will indemnify and hold Grantor harmless from any and all damages to Grantor's property caused by the use of this Sub-Surface Servitude and will protect and hold Grantor harmless against any and all claims or demands by third parties arising out of or resulting from Grantee's use of the Sub-Surface Servitude herein granted.

d. The rights granted in this Sub-Surface Servitude will remain in full force and effect for so long as Grantee may continue to use these rights, but in the event Grantee ceases to use the rights herein granted for **one consecutive year**, this Sub-Surface Servitude will terminate.

It is specifically understood by the parties hereto and it is their intention that the rights granted in the foregoing Oil, Gas and Mineral Lease and the rights granted in this Sub-Surface Servitude shall be several and that the Sub-Surface Servitude herein provided for shall survive the Oil, Gas and Mineral Lease, in the event said Oil, Gas and Mineral Lease should terminate.

e. In the event this Sub-Surface Servitude, or any interest herein, be conveyed, assigned or otherwise transferred, Grantor expressly releases Grantee from its obligations hereunder, to the extent of such interest so conveyed, assigned or otherwise transferred.

The consideration paid by Lessee/Grantee to Lessor/Grantor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

ASSIGNMENT OF OIL, GAS, AND MINERAL LEASES

RECORDED AND FILED
2013 APR -5 PM 2:07
RICHARD M. ARCENEAUX
CLERK OF COURT
JEFFERSON DAVIS PARISH

STATE OF LOUISIANA

PARISH OF JEFFERSON DAVIS

KNOW ALL MEN BY THESE PRESENTS: That,

WHEREAS, CINCO LAND & EXPLORATION, INC., whose mailing address is 8811 Gaylord Street, Houston, Texas 77024, is the owner and holder of certain Oil, Gas and Mineral Leases described on Exhibit "A", attached hereto and made a part hereof, which leases cover and affect lands situated in Jefferson Davis Parish, Louisiana.

NOW THEREFORE, for ONE HUNDRED DOLLARS AND OTHER VALUABLE CONSIDERATION ($100.00 & OVC), the receipt and adequacy of which are hereby acknowledged said CINCO LAND & EXPLORATION, INC., hereinafter called "ASSIGNOR", does hereby grant, bargain, sell, assign, transfer, convey, and deliver unto WALTER OIL & GAS CORPORATION, whose mailing address is 1100 Louisiana, Suite 200, Houston, Texas 77002 (hereinafter called "Assignee"), subject to the terms, provisions and conditions herein set out, all of Assignors right, title, and interest in and to said leases.

671171

This Assignment is expressly subject to the terms, provisions and conditions of said leases.

TO HAVE AND TO HOLD unto Assignee, its successors and assigns forever, in accordance with the terms and provisions of said leases and leasehold rights. Assignee agrees and obligates itself to assume and discharge all of the express and implied obligations and liabilities imposed upon the Lessee under the terms and provisions of the said leases affected hereby and agrees to hold Assignor harmless from its failure to do so. This Assignment is made and accepted without warranty of any kind, either expressed or implied, and without recourse except as against the claims of anyone holding by, through or under Assignor, but with full substitution and subrogation in and to all rights and actions in warranty held by Assignor.

The terms and conditions of this Assignment shall extend to and be binding upon the heirs, successors and assigns of the parties hereto and Assignee hereby agrees to protect and defend Assignor from and against all claims, demands and causes of action arising out of or in connection with the obligations and liabilities herein assumed by Assignee.

THUS DONE AND SIGNED in the presence of the undersigned competent witnesses on the dates on the notary acknowledgment but effective as of 1st day of September, 2012.

MINUTES OF THE MEETING OF
THE BOARD OF DIRECTORS OF
CINCO LAND & EXPLORATION, INC.
HELD AT ITS OFFICE ON
February 1, 2013

At a special meeting of the Board of Directors of CINCO LAND & EXPLORATION, INC., held at its office in Houston, Texas on February 1, 2013, all Directors being present, the following resolution was unanimously adopted:

> BE IT RESOLVED that Randy H. Nichols, President of this corporation be and he is hereby authorized and empowered on behalf of this corporation to execute and deliver an Assignment of Oil, Gas and Mineral Leases in favor of WALTER OIL & GAS CORPORATION, relative to the Oil, Gas and Mineral Leases more particularly described on Exhibit "A" attached hereto and made a part hereof.

There being no further business, this meeting was adjourned.

CERTIFICATE

I do hereby certify that the foregoing is a true and correct copy of the Resolution adopted at a meeting of the BOARD OF DIRECTORS of CINCO LAND & EXPLORATION, INC. held on February 1, 2013, and that said Resolution is still in full force and effect.

Houston, Texas this 4th day of February, 2013.

RICHARD M. ARCENEAUX
CLERK OF COURT
JEFFERSON DAVIS PARISH

STATE OF LOUISIANA §
§
PARISH OF JEFFERSON DAVIS §

PARTIAL ASSIGNMENT OF
OIL, GAS AND MINERAL LEASES

Reference is hereby made for all purposes (particularly for a precise description of the lands covered and affected thereby) to those certain Oil, Gas and Mineral Leases, set forth on the schedule attached hereto as Exhibit "A" (hereinafter referred to simply as "**Said Leases**").

WHEREAS, Walter Oil & Gas Corporation (hereinafter referred to as "**Assignor**"), is the owner of Said Leases;

WHEREAS, Assignor now desires to convey and assign an undivided 25% (or 0.25) of Assignor's interest in Said Leases to the hereinafter designated Assignees in the proportions set forth below, subject, however, to a certain overriding royalty interest in and to Said Leases referenced below;

NOW, THEREFORE, in consideration of the sum of One Hundred and No/100 ($100.00) Dollars, cash in hand paid, and of other good and valuable considerations, the receipt, adequacy and sufficiency of which are hereby acknowledged, Assignor, represented herein by Ron A Wilson, its Vice President, whose mailing address is 1100 Louisiana, Suite 200, Houston, Texas 77002-5299, does hereby convey, assign, transfer, sell, set-over and deliver unto CEL Properties, LLC ("**CEL**"), represented herein by Darren T. Groce, its duly authorized Interim President, whose mailing address is 222 East Tyler Street, P.O. Box 2146, Longview, Texas, 75606, an undivided 18.75% (or 0.1875) of all Assignor's right, title, and interest in and to Said Leases; and Assignor does hereby convey, assign, transfer, sell, set-over and deliver unto and to RLI Properties, LLC ("**RLI**"), represented herein by Darren T. Groce, its duly authorized Interim President, whose mailing address is 222 East Tyler Street, P.O. Box 2146, Longview, Texas, 75606, an undivided 6.25% (or 0.0625) of all Assignor's right, title and interest in and to Said Leases, with CEL and RLI, being hereinafter collectively referenced at times as "**Assignees**," and with Said Leases to be hereafter owned as follows:

672413

Owner	Working Interest
Walter Oil & Gas Corporation	75.00%
CEL Properties, LLC	18.75%
RLI Properties, LLC	6.25%
Total:	100.00%

TO HAVE AND TO HOLD this 25.00% (or 0.25) interest in Said Leases, with all rights thereunder and incident thereto, unto Assignees in the above proportions, and unto their successors and assigns, forever, subject to the following terms and provisions:

(A) This Partial Assignment shall expressly include and extend to any oil and gas leasehold interests acquired by Assignor within the lands and premises covered and affected by Said Leases after the Effective Date as defined below;

(B) This Partial Assignment is expressly made subject to the following:

(1) That certain Participation Agreement dated effective December 1, 2011, among Assignor and Assignees whereby, among other matters, Assignees reserved an after payout working interest of twenty-five (25%) percent of the before payout working interest of Assignor in Said Leases to become effective upon Prospect Payout (as defined in said Participation Agreement);

That certain unrecorded Agreement dated April 11, 2005, among Assignees and Dalton J. Bergeron, *et. al.*, and the First, Second, and Third Amendments thereto and that certain overriding royalty interest due thereunder which Assignor and Assignees shall convey to Dalton J. Bergeron effective September 1, 2012, with such reserved overriding royalty interest to be out of all of the oil, gas and other minerals produced and saved by Assignor and Assignees, their successors and assigns.

(C) Assignor warrants title to the Assigned Interests against every person lawfully claiming or to claim the same by, through or under Assignor, but not otherwise. Notwithstanding the above limitation of warranties, this Assignment is made with full rights of substitution and subrogation of Assignees in and to all rights and actions of warranty against previous owners, assignors and grantors.

(D) The provisions of this Partial Assignment shall be binding upon, and shall inure to the benefit of, the successors and assigns of Assignor and Assignees. The terms, covenants, and conditions hereof shall be binding upon, and shall inure to the benefit of, Assignor and Assignees and their respective successors and assigns, and such terms, covenants, and conditions shall be covenants running with the Leases and with each transfer or assignment of the Leases or any portion thereof.

(E) Assignor and Assignees shall take such further actions and execute such further documents that are reasonable and necessary to carry out the purposes of this Assignment and the

intent of Assignor and Assignees evidenced herein.

IN WITNESS WHEREOF, this Partial Assignment of Oil, Gas and Mineral Leases is executed on this 24th day of May, 2013, in the presence of the undersigned competent witnesses, but shall be effective for all purposes as of September 1, 2012 ("**Effective Date**").

RICHARD M. ARCENEAUX
CLERK OF COURT
JEFFERSON DAVIS PARISH

PAID-UP OIL AND GAS LEASE

BE IT KNOWN that in the presence of the undersigned competent witnesses on the dates indicated, and before the undersigned Notaries Public duly commissioned and qualified as set forth in their respective jurats, personally came and appeared:

> **LOUISIANA BAPTIST CHILDREN'S HOME AND FAMILY MINISTRIES** (EIN 0696), a nonprofit corporation organized under the laws of the State of Louisiana, whose name was formerly "Louisiana Baptist Children's Home" and which name was changed on March 1, 2008, by Restated Articles of Incorporation filed with Louisiana Secretary of state, domiciled at and whose mailing address is Post Office Box 4196, Monroe, Louisiana, 71201, appearing herein by and through Dr. A. Perry Hancock, its President and Chief Executive Officer, duly authorized to act and appear herein by resolution of the Board of Trustees of said corporation passed on July 25, 2003, a certified copy of which is attached hereto,

hereinafter referred to as "Lessor"; and,

> **WALTER OIL & GAS CORPORATION.**, a Texas corporation whose permanent mailing address is 1100 Louisiana, Suite 200, Houston, Texas 77002, appearing herein by and through its undersigned, duly authorized representative,

hereinafter referred to as "Lessee", have agreed as follows:

W I T N E S S E T H

ARTICLE 1

LEASE OF PROPERTY

§1.1 **Lease of Property.** Lessor, in consideration of a bonus of Three Hundred Fifty and No/100 ($350.00) Dollars per acre, the royalties herein provided, of the agreements of Lessee herein contained, and other good and valuable consideration, hereby grants, leases and lets exclusively unto Lessee the land to which this Lease applies as hereinafter described for the purposes of investigating, exploring, prospecting, drilling and mining for and producing only oil, gas and other liquid or gaseous hydrocarbons from said land, including the right to use the surface of said land for all purposes incidental thereto and to the possession, storage and transportation of said oil and gas with the full right of ingress and egress to and from said lands at all times for any of such purposes, including the right to construct, maintain and use roads, pipelines and/or canals thereon for operations hereunder, and the right to remove from the said land any property placed by the Lessee thereon, and to draw and remove casing from wells drilled by said Lessee on said land. The land to which this Lease applies is situated in Jefferson Davis Parish, Louisiana, and is described as follows, to-wit:

673795

The land described on attached Exhibit "A".

(said tracts hereinafter sometimes referred to as "Leased Premises"). For all purposes of this Lease, Leased Premises shall be treated as comprising 40 forty (40) acres, whether there be more or less.

§1.2 **Limitations**. This Lease only covers the oil, gas and other liquid or gaseous hydrocarbons lying and being between the surface of the earth and the stratigraphic equivalent of a point one hundred feet (100') below the deepest point drilled to in any well located on or in any well located on a tract with which a portion of the Leased Premises is unitized, in accordance with §4.4.

ARTICLE 2

TERM

§2.1 **Term**. Subject to the other provisions herein contained, this Lease shall be for a term of one (1) year from the effective date of this instrument (called "primary term") and (except as provided in Article 4 hereof) as long thereafter as oil and gas is produced in paying quantities from said land.

ARTICLE 3

ROYALTIES

§3.1 **Royalties Payable**. The royalties to be paid by Lessee are as set forth as follows.

§3.1.1 **Oil and Other Hydrocarbons**. The royalties to be paid by Lessee on oil and other hydrocarbons which are produced at the well in liquid form by ordinary production methods, shall be 22.50% of that produced and saved from said land, same to be delivered at the well in tanks provided by Lessor, or to the credit of the Lessor into the pipeline to which wells may be connected; Lessee may from time to time purchase any royalty oil or other liquid hydrocarbons in its possession, paying the market price thereof prevailing for the field where produced on the date of purchase.

§3.1.2 **Gas**. The royalties to be paid by Lessee on gas, including casinghead gas and other vaporous or gaseous substances produced from the said land, shall be as follows:

§3.1.2.1 **Used by Lessee**. In case Lessee shall itself uses gas in the manufacture of gasoline or other petroleum products therefrom, 22.50% of the sale price at the plant of the gasoline or other petroleum products manufactured or extracted therefrom and which are saved and marketed, after deducting a fair and reasonable cost for extracting or manufacturing said gasoline or other substance, and 22.50% of the market value of residue gas sold or used by Lessee in operations not connected with the land herein leased. No deduction from extraction costs shall be made for liquid hydrocarbons recovered by use of drip, separator or similar apparatus on the flow line of wells and except as to gas being used for re-pressuring or recycling purposes, upon written request by Lessor, Lessee shall, prior to the sale or use of gas from such wells, install and use such apparatus on any well or wells capable of producing liquid hydrocarbons in paying quantities.

§3.1.2.2 **Sales at the Well**. In the event Lessee shall sell gas at the wells, 22.50% of the amount received from such sales.

§3.1.2.3 **Other.** In all other cases when sold or used off the premises, the price received at the well for 22.50% of the gas sold or 22.50% of the market value of gas used.

§3.1.2.4 **Shut-In Payments.** Should Lessee, by the drilling of any well located on the Leased Premises, discover gas or gaseous substance capable of producing in paying quantities but which Lessee is unable to produce (or which although previously produced, Lessee is unable to continue to produce) because of lack of market or marketing facilities or governmental restrictions, and if the Lease is not being otherwise maintained in force, then Lessee's rights may be maintained only as to such acreage as actual production from such well would maintain it in force by paying or tendering as royalty to Lessor at the address stated above (hereinafter sometimes called "shut-in well payments") as may become payable hereunder, on or before such anniversary date of said Lease (commencing with the first anniversary date following the shutting-in of the well), the sum of Ten and No/100 ($10.00) Dollars per mineral acre of the Leased Premises as to which the Lease may be so maintained, provided, however, that in no event shall Lessee's rights be extended by such payment at any time within the primary term or thereafter for more than two (2) consecutive years.

§3.2 **Unavoidable Waste.** Such gas, casinghead gas, residue gas, or gas of any other nature or description whatsoever, as may be disposed of for no consideration to Lessee, through unavoidable waste or leakage, or in order to recover oil and other liquid hydrocarbons, or returned to the reservoir from which produced, shall not be deemed to have been sold or used off the premises, within the meaning, expressed or implied, of any part of this Lease.

§3.3 **Severance Taxes.** All severance taxes shall be paid by Lessee but shall be borne by the parties hereto in the proportion in which they participate in the gross production on which such tax is imposed.

§3.4 **Production Costs.** The royalty interest provided for in this lease shall not be charged, and shall not bear any costs whatsoever in connection with the production, gathering and transportation costs, except charges incurred by Lessee from unaffiliated third parties in which Lessee does not have a beneficial interest, but shall bear its proportionate part of all production taxes which are now or which hereafter become effective.

ARTICLE 4

EFFECT OF DRILLING

§4.1 **Drilling During Last 90 Days.** If Lessee is engaged in the actual drilling completion, rework or other operations in an attempt to obtain or restore production ("Continuing Operations") (either on the Leased Premises or on acreage pooled with any part of Leased Premises) at any time during the last 90 days of the primary term, this Lease shall remain in full force and effect as to all lands described herein (except such as Lessee shall have previously released) for a period of 90 days after the completion thereon by Lessee of all such Continuing Operations in which Lessee was at said time engaged and for so long thereafter as Lessee continues to develop Leased Premises by such Continuing Operations thereon or on land pooled therewith without the lapse of more than 90 days between such Continuing Operations.

§4.2 **Lapse for 90 Days Between Drilling.** In the event that more than 90 days should elapse without there occurring Continuing Operations on Leased Premises, as provided for in §4.1 above, this Lease shall terminate and Lessee by recordable written instrument delivered to Lessor within ten (10) days after such termination date shall release herefrom all acreage comprising Leased Premises except (i) such portions as are at that time included in some

unit applicable to Leased Premises established by the Commissioner of Conservation of the State of Louisiana on which unit there is then located a well producing or capable or producing oil or gas in paying quantities and (ii) as regards any portions outside of any unit established by Commissioner of Conservation of the State of Louisiana, such portions of the land covered hereby as are located in the governmental quarter of a quarter section whereon a well or wells located on Leased Premises are producing or capable of producing oil in paying quantities, and the governmental section whereon a well or wells located on Leased Premises are producing or capable of producing gas in paying quantities.

§4.3 **Acreage Retained.** As regards the acreage not required by the provisions of §4.2 to be released, each well will serve to maintain this Lease in force only as to the acreage allocated to such well and only so long as such production or capability of production continues unless Lessee resumes or restores such production or commences additional Continuing Operations on such allocated acreage within 90 days after such cessation and continues such operations without the lapse of more than 90 days in an effort to restore production of oil or gas. When and if the Lease ceases to be in force as regards any such acreage, Lessee shall release the same herefrom within ten (10) days after such cessation in the same manner as Lessee is required to release as specified in §4.2.

§4.4 **Release of Acreage Not Retained.** As to any lands not required to be released from this Lease under the provisions of §4.2 (hereinafter referred to as "retained lands"), this Lease shall remain in force and effect only as to the oil and gas in and under said retained lands as specified in §1.2 above.

ARTICLE 5

OFF-SET DRILLING OBLIGATION

§5.1 **Off-Set Drilling Obligation.** In the event a well or wells producing oil or gas in paying quantities should be brought in on adjacent land and draining the Leased Premises, Lessee agrees to drill such off-set wells as a prudent operator would drill under the same or similar circumstances.

ARTICLE 6

TRANSFER OF OWNERSHIP

§6.1 **Transfer of Ownership.** The rights of Lessor hereunder may be assigned in whole or in part, and the provisions hereof shall extend to the successors and assigns of Lessor, but no change or division in ownership of the land or royalties, however accomplished, shall operate to enlarge the obligations or diminish the rights of Lessee; and no such change in ownership shall be binding on Lessee or impair the effectiveness of any payments made hereunder until Lessee shall have been furnished, forty-five (45) days before payment is due, a copy of recorded instrument evidencing any transfer, sale or other change in ownership.

ARTICLE 7

NON-WARRANTY

§7.1 **Non-Warranty.** This Lease is made without any warranty of title whatsoever, except for claims arising by, through or under Lessor or even for a return of any portion of the bonus consideration, royalties or other amounts to be paid hereunder.

§7.2 **Less Than Total Ownership**. Lessor claims to own at this time, and purports by this Lease to cover all interest owned, calculated to be a one-tenth (1/10) interest of the mineral rights pertaining to the Leased Premises. The royalties and shut-in well payments hereinbefore provided for shall be computed on that basis. It is agreed that if Lessor's interest in the mineral rights pertaining to any part of the Leased Premises is less than the whole, the royalties, rentals and shut-in well payments shall - as to such portion - be reduced proportionately to the interest of Lessor in such mineral rights so pertaining. Accordingly, it is agreed that Lessor shall be entitled to receive all of the royalties, rentals and shut-in well payments attributable thereto, but same shall be subject to proportionate reduction to the interest in the minerals actually owned by Lessor, if less than the whole, and this Lease shall extend to and cover any mineral interest which Lessor may hereafter acquire while this Lease is in force.

§7.3 **Unitization**. In the event that any portion of Leased Premises should be "forced pooled" by Order of the Department of Conservation of the State of Louisiana or other competent authority having jurisdiction over such matters so as to create any drilling and/or producing unit applicable to the land covered hereby, the royalties herein provided and attributable to such portions shall be payable from and limited to only such production as is allocated by such Order to the portion of Leased Premises included in any such unit.

ARTICLE 8

SURFACE OPERATIONS

§8.1 **Surface Operations**. The parties acknowledge that the Lease Premises are utilized by Lessor for the primary purpose of growing and harvesting forest products. Accordingly, Lessee shall:

§8.1.1 **Interference With Lessor's Use**. Conduct its operations so as not to unreasonably interfere with Lessor's use of the property and its forest operations.

§8.1.2 **Roads**. Use and build only such roads as are reasonably necessary in its operations. At all times during operations by the Lessee or its assigns, exposed soil on slopes and road ditches shall be seeded with Bahia grass and fertilized and otherwise stabilized as necessary to prevent soil movement.

§8.1.3 **Prior Notice**. Give fifteen (15) day notice prior to conducting any operations on the designated drill site which will necessitate the cutting of timber, including, but not limited to, the building of roads, pits and drill sites. The notice will be in writing and shall be accompanied by a plat or map showing the proposed location of such operations, and shall be mailed to Lessor at the address noted above and to A. C. Bourdier, 1543 Oakwood Drive, Lake Charles, Louisiana 70611, whose telephone number is 337-855-2854.

§8.1.4 **Pipeline Buried**. When requested by Lessor, bury all pipelines at least thirty-six (36") inches below the surface.

§8.1.5 **Surface Damages**. Pay for all damage to Lessor's timber, pulpwood, sawlogs, trees, forest growth (standing, cut or fallen), or to other property of any kind caused by or arising out of Lessee's operations.

§8.1.6 **Fire Prevention**. Use its best efforts to extinguish any fire that may result from Lessee's operations and to promptly notify Lessor of any such fire.

§8.1.7 **Slush Pits.** Fill slush pits and other excavations immediately after operations are completed and restore, as nearly as reasonably possible the surface to its original condition. If Lessee fails to do so, Lessor may restore the surface and fill excavations at Lessee's expense.

§8.1.8 **Release as to Lessee's Property.** Release Lessor from any loss or damage to any property which Lessee may place on the Leased Premises.

§8.1.9 **Indemnification by Lessee.** Be responsible for and indemnify and save harmless Lessor from and against any liability and injury, including death or claim thereof, sustained by any employee of Lessee while upon the premises; and Lessee shall indemnify and save harmless the Lessor from and against any damage to property or injury to person, including death or claim thereof, sustained by any person, including employees of Lessor, by reason of the acts of Lessee or its employees hereunder.

ARTICLE 9

SPECIFIC DAMAGES

§9.1 **Specific Damages.** In addition to other damages herein specified, Lessee shall pay to Lessor, as liquidated damages:

§9.1.1 **Well Site, Roads, etc.** The sum of $2,500.00 per acre for the designated portion of the Leased Premises used for roads, rights of way, pits, well sites, or any other purpose.

ARTICLE 10

PREVAILING LAWS

§10.1 **Prevailing Laws.** All terms and expressed or implied covenants of this Lease shall be subject to all Federal and State Laws, Executive Orders, Rules or Regulations, and this Lease shall not be terminated, in whole or in part, nor Lessee held liable in damages for failure to comply therewith, if compliance is prevented by, or if such failure is the result of any such Law, Order, Rule or Regulation.

ARTICLE 11

ASSIGNMENT

§11.1 **Assignment.** The rights of Lessee hereunder may be assigned in whole or in part, but only with the consent of Lessor, which consent shall not be unreasonably withheld. In any event, Lessor's consent shall be contingent on any such assignee or sublessee agreeing in writing to be bound by all terms of this Lease.

ARTICLE 12

ENVIRONMENTAL MATTERS

12.1 **Environment Compliance.** Lessee shall conduct all operations on the Leased Premises in accordance with any and all Environmental Laws and Regulations and according to any and all principles of common law relating to duties to protect or not unduly disturb human health or environmental quality and particularly to comply with all rules, orders, ordinances, permits or determinations of any government authority pertaining to health or environment in effect at any time in the jurisdiction where the Leased Premises is located, including without limitation, the Clean Air Act, as amended,

the Federal Water Pollution Control Act, as amended, the Rivers and Harbors Act of 1899, as amended, the Safe Drinking Water Act, as amended, the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), as amended, the Superfund Amendments and Re-authorization Act of 1986 ("SARA"), as amended, the Resource Conservation and Recovery Act ("RCRA"), as amended, the Hazardous and Solid Waste Amendments Act of 1984, as amended, the Toxic Substances Control Act, as amended, the Occupational Safety and Health Act ("OSHA"), as amended, the Hazardous Materials Transportation Act, as amended, and other federal, state and local laws whose purpose is to conserve or protect health, the environment, wildlife or natural resources. The terms "hazardous substance", "release" and "threatened release" shall have the meanings specified in CERCLA, and the terms "solid waste", "hazardous waste", and "disposal" (or "disposed") shall have the meanings specified in RCRA; provided, however, that (i) to the extent the laws of the state in which the Leased Premises is located are applicable and have established a meaning for "hazardous substance", "release", "threatened release", "solid waste", "hazardous waste", and "disposal" that is broader than that specified in CERCLA or RCRA, such broader meaning shall apply with respect to the matters covered by such laws, and (ii) the term "solid waste" shall include all oil and gas exploration, development, and production wastes, even if such wastes are specifically exempt from classification as hazardous substances or hazardous wastes pursuant to CERCLA or RCRA, or the state analogues to those statutes.

§12.2 **Environmental Indemnity**. Lessee hereby assumes and shall be responsible for and shall indemnify, defend and hold harmless Lessor and its employees, officers, directors, agents and representatives from and against any and all claims, liabilities, losses, costs, expenses, damages and causes of action with respect to damages to property, injury to or death of persons or living things, natural resource damages, CERCLA responses costs, or fines or penalties, restoration costs arising out of or attributable to, in whole or in part, the operations of the Lessee on the Leased Premises.

§12.3 **Environmental Notifications**. Lessee shall promptly provide Lessor with copies of all orders, notices of violations, information requests, correspondence, communications, permits, or agreements with any governmental authority or agency (federal, state or local) or any private entity relating in any way to any Environmental Law or the presence, release, placement on or in the premises, or the generation, transportation, storage, treatment, or disposal at the Leased Premises, of any hazardous material.

ARTICLE 13

REPRESENTATION

§13.1 **Representation**. All persons appearing herein in a representative capacity for either Lessor or Lessee personally warrant and guarantee that they have the requisite power and authority to appear herein and bind the party they are indicated to represent.

ARTICLE 14

SALT WATER DISPOSAL

§14.1 **Salt Water Disposal.** Lessee shall not have the right to use the Leased Premises for the disposal of salt water.

ARTICLE 15

HUNTING

§15.1 **Hunting**. Lessee and Lessee's agents, successors, assigns, employees, contractors and other persons acting under the authority of any of such persons are expressly prohibited from bringing or possessing firearms on any part of the Leased Premises and that hunting, fishing, and all other activities not related to oil and gas operations are expressly prohibited on all parts of the Leased Premises. Lessee shall notify, or cause to be notified, all personnel who enter the premises under the authority of the lease of these restrictions, and shall post, or cause to be posted, in appropriate, conspicuous locations where operations are being conducted, notices containing the content of these restrictions.

ARTICLE 16

SUB-SURFACE SERVITUDE

§16.1 **Sub-Surface Servitude**. In addition to the Oil, Gas and Mineral Lease granted, Lessor is now referred to as "Grantor" for the purpose of granting this Sub-Surface Servitude and, in consideration of monies received for the foregoing Oil, Gas and Mineral Lease, the receipt and sufficiency of which are hereby acknowledged, hereby grants **WALTER OIL & GAS CORPORATION**, [who is referred to as "Lessee" in the foregoing Oil, Gas and Mineral Lease and is now referred to as "Grantee" for the purpose of this Sub-Surface Servitude]; a Sub-Surface Servitude under and across the Leased Premises, for the purpose of drilling, operating, producing, reworking and maintaining a directional or sidetrack well or wells from a surface location situated off of said land or on said land, to such bottomhole location as Grantee may deem appropriate.

§16.2 **Separate Contract**. Notwithstanding anything herein contained to the contrary, this Sub-Surface Servitude shall for all purposes hereof, be considered as a separate and independent contract between Grantor and Grantee covering and affecting the Leased Premises.

§16.3 **Indemnity**. Grantee shall indemnify, defend and hold Grantor harmless from any and all damages to Grantor's property caused by the use of this Sub-Surface Servitude and shall protect and hold Grantor harmless against any and all claims or demands by third parties arising out of or resulting from Grantee's use of the Sub-Surface Servitude.

§16.4 **Nonuse Limitation**. The rights granted in this Sub-Surface Servitude shall remain in full force and effect for so long as Grantee may continue to use these rights, but in the event Grantee, its successors and assigns, cease to use the rights herein granted for **one consecutive year**, this Sub-Surface Servitude shall terminate.

§16.5 **Survival**. It is the intent of Grantor and Grantee that the rights granted in the foregoing Oil, Gas and Mineral Lease and the rights granted in this Sub-Surface Servitude shall be several and that the Sub-Surface Servitude herein provided for shall survive the Oil, Gas and Mineral Lease, in the event said Oil, Gas and Mineral Lease should terminate, but shall remain subject to the limitations set forth in §16.4 above.

The consideration paid by Lessee/Grantee to Lessor/Grantor is accepted as full and adequate consideration for all rights, options and privileges herein granted.

CERTIFICATE

I, Sarah W. Perry, do hereby certify that I am the duly elected, qualified and acting Secretary of the Board of Trustees of the Louisiana Baptist Children's Home And Family Ministries, a nonprofit corporation organized under the laws of the State of Louisiana, domiciled in the Parish of Ouachita, hereinafter referred to as the "Corporation"; that the following is a true and correct copy of a resolution duly and properly adopted by the Board of Trustees of the Corporation on July 25, 2003, as the same appears in the Minute Book of the Corporation; that there are no provisions of the Articles of Incorporation or By-Laws of the Corporation which impair or modify the effectiveness of the resolution; and that the resolution remains in full force and effect as of date hereof in the form set forth below and has not been amended, altered, repealed, rescinded or changed in any manner whatsoever:

"BE IT RESOLVED that:

"1.1 General Authority of Executive Director-Treasurer and Administrative Assistant. The affairs and business of the LOUISIANA BAPTIST CHILDREN'S HOME ("Home") shall be managed by the Executive Director-Treasurer and Administrative Assistant, or either one of them acting alone, with full and complete authority to acquire on behalf of the Home any and all property, whether real, personal or mixed, and dispose of and administer said property and to contract and enter into any and all contracts and agreements of every kind and nature and on such terms and conditions as the Executive Director-Treasurer and Administrative Assistant, or either one of them acting alone, shall desire; to sell, execute and deliver oil, gas and mineral leases, or any other lease contract of any nature or kind, to sell, execute, deliver or acquire any mineral rights or royalties; to pool, unitize, execute co-lessor's agreements, execute assignments, subleases or extensions of oil, gas and mineral leases or any other kind of lease contract; to accept on behalf of the Home any oil, gas or mineral lease or mineral purchase, or any other purchase; to execute and to make agreements of any and all kinds in regard to the drilling of oil or gas wells, or any other well, and the production of any well; to execute releases of oil, gas and mineral leases, mineral rights or royalties, and to execute division or transfer orders; to make accept, draw and endorse promissory notes and bills of

exchange in the name of the Home and to bind the Home by acknowledgment of debt, promises to pay and any engagements of all kinds; to make checks and draw money out of any bank or banks or corporate institutions wherein the same may have been deposited in the name of the Home; to invest all funds belonging to the Home to the best advantage of the Home as the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may think proper and best; to sell or transfer all or any shares of capital stock of any bank or corporate institution standing in the name of the Home, and owned by it and to receive the receipt for any and all dividends due or to become due; to pledge all or any part or parts of the property of the Home and to make and give note or notes which may be necessary from time to time, or for the renewal of any note or notes; to contract loans or borrow money in the name of the Home at any rate of interest the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may think proper, from any person, bank or corporate institution, with the right to pledge or mortgage all or any part of the property belonging to the Home; to sell, transfer, assign and convey to any person or persons or corporate institution, with all legal warranties, all or any part of the real, personal or mixed property of the Home, and for such price and upon such terms and conditions that the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may deem proper; to receive the price for such sales and to grant receipt and acquittance therefor; to buy and purchase all property of any kind, movable or immovable, for the Home for such price and upon such terms and conditions that the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may see fit; to pay the price therefor and to sign and execute all acts and deeds necessary in the premises, with all usual clauses; to appear in and on behalf of the Home accept any donations of property to the Home; to consent and agree to all privileges, mortgages and pledges in favor of or against the Home, as may be required; to lease, let or hire for such time and for such price as the Executive Director-Treasurer and Administrative Assistant or either of them acting alone may see fit all or any part of the property belonging to the Home, and to receive and receipt for the rent and wages thereof as the same may fall due; to put an end to said leases and give the necessary notices to vacate, according to law; to sign all bonds or other acts required by the United States of America or any of its departments or subdivisions or by the Revenue Department, or required by the State of Louisiana or any of its political subdivision; to appear before all courts of law, boards or commissions of either the United States of America or of the State of Louisiana; to prosecute and defend any and all suits that the Home may be a party to and to compromise or settle any and all lawsuits, litigations or any other disputes; to do any and all acts connected with, incidental to, or required in the carrying on the business of the Home, and to make and sign any and all contracts connected with or incidental to said business; and to manage the complete and entire affairs of business of the Home in the manner and way that the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, shall think to the best interest of the Home.

"1.2 Security Devices. The Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, be and they are authorized to sign notes, both secured and unsecured or other instruments of indebtedness on

behalf of the Home, to borrow money, assume mortgages or other obligations on behalf of the Home on such terms and conditions as the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may see fit, including mortgages on any property of the Home, movable or immovable, whether in full ownership or in leasehold interest, located anywhere in the State of Louisiana, United States of America, or any foreign country, and such other security instruments of every nature as the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may see fit, all such instruments to contain such rates of interest and such other terms and conditions as the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may see fit, and to arrange for the extension or renewal of any indebtedness due by the Home and utilize the assets of the Home as security to induce any creditor of the Home not to call any demand note on the Home; and in order to accomplish such purposes, and for any other purpose, said Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, be and they are hereby authorized to execute and endorse on behalf of the Home note(s) in such sums payable at such times, bearing such interest, and containing such terms, conditions and provisions, as in the absolute discretion of the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, may deem necessary and advisable, and in order to secure said note(s), said Executive Director-Treasurer and Administrative Assistant, or either of them acting alone be and they are hereby authorized to appear before any Notary Public and execute acts of mortgage or acts of collateral mortgage, in such form and containing such terms and conditions as such in the absolute discretion of the Executive Director-Treasurer or Administrative Assistant or either of them acting alone, may deem necessary and advisable, including without limitation, a waiver of appraisement, a pact de non alienando, a confession of judgment, and agreement that the property may be sold by executory process in the event of default in the payment of the note, a clause providing attorney's fees in an amount not to exceed 25% of the amount to be collected if the note is not paid at maturity and is placed in the hands of an attorney at law for collection or suit, a clause providing for carrying of fire insurance with supplemental hazards on the improvements situated on the property in such amount as may be required by the mortgagee and such other clauses and provisions as are usual and customary in mortgages executed in the State of Louisiana, and other states of the union, bearing against any and all property and assets of the Home, and said Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, be and they are hereby further authorized to execute any and all note or notes, documents, loan agreements, applications or other instruments in writing in conjunction therewith, and to pledge, pawn and hypothecate such note(s) or any note(s) secured by mortgage or collateral mortgage to secure any other note(s) executed for and on behalf of the Home to obtain such loan(s); to pledge, pawn and hypothecate, any and all other securities or any other property of any kind or nature whatsoever belonging to the Home and to execute an assignment of accounts receivable, notes receivable or bills receivable, of the Home as in the absolute discretion of the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone may deem necessary or advisable, and which may be required by any person, firm or corporation as security for any indebtedness so created by said Executive Director-Treasurer and Administrative Assistant, or either of them

acting alone, in accordance herewith, or any prior existing indebtedness of the Home.

"1.3 Banking Arrangements. The Executive Director-Treasurer and the Administrative Assistant of the Home, or either one of them acting alone, be and they are authorized, empowered and directed to make the necessary banking arrangements on behalf of the Home, and funds of the Home so deposited are subject to withdrawal upon checks, notes, drafts, bills of exchange, acceptances, undertakings or other orders for the payment of money when signed on behalf of the Home by the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, and any bank is hereby authorized to pay any such orders and also receive the same for credit of or in payment from the payee or any other holder without inquiry as to the circumstances of issue or the disposition of the proceeds even if drawn to the individual order of any said signing officer or tendered in payment of his individual obligation, and that any indebtedness heretofore contracted by any contracts or agreements heretofore made with a bank on behalf of the Home, and all acts of trustees or agents of the Home in connection with any indebtedness or said contracts or agreements, are hereby ratified and confirmed.

"1.4 Reliance By Lending Institutions. Lending institution, when furnished with certified copy of this resolution, shall be authorized to deal with the Executive Director-Treasurer and Administrative Assistant, or either of them acting alone, under this authority and until it be expressly notified in writing to the contrary by the Home, and shall in writing acknowledge receipt of the notification; and the lending institution shall at all times be protected in recognizing as the representative of the Home the persons named in a certificate signed by any representative of the Home, even though the certificate be of one of the officers or agents who is himself authorized to act herein."

Effective March 1, 2008, by virtue of Restated Articles of Incorporation having been filed with the Louisiana Secretary of State, the name of the Corporation was changed from "Louisiana Baptist Children's Home" to "Louisiana Baptist Children's Home And Family Ministries", the title of "Executive Director-Treasurer" was changed to "President and Chief Executive Officer" and the title of "President" was changed to "Chairman of Board of Trustees."

I further certify that the following named persons have been duly elected to the offices set opposite their respective names, and that they continue to hold these offices

at the present time:

President and CEO - A. Perry Hancock

Executive Assistant - Nancy G. Epperson

IN WITNESS WHEREOF, I have hereunto set my name at Ruston, Lincoln Parish, Louisiana, on this the 26 day of June, 2013.

RE: Bruce No. 2, Bruce No. 3, Johnson-Boudreaux SWD No. 2
West Mermentau Field, Jefferson Davis Parish, Louisiana

Dear Mr. Burgess:

Enclosed is a Wellbore Only Assignment ("Assignment") for the three subject wells. Pursuant to the agreement between MOP, L.L.C. ("MOP") and Enco Resources, Inc. ("Enco"), this Assignment is being delivered in exchange for the release of liability relating to any and all outstanding joint-interest billings owed by MOP on the three subject wells as of the effective date of the Assignment. It is our understanding that you will be recording this Assignment in the County Clerk's office.

Enco hereby releases MOP from any claim or demand for payment of any joint-interest billings, either known or unknown, as of the effective date of the Assignment for the three subject wells. Please sign in the space provided below indicating Enco's agreement to the terms contained herein.

If you have any questions or would like to further discuss this matter, please do not hesitate to contact me.

Very truly yours,

William H. Hickman

PARTIAL RELEASE OF OIL, GAS AND MINERAL LEASES

STATE OF LOUISIANA §

PARISH OF JEFFERSON DAVIS §

THAT, WHEREAS, WALTER OIL & GAS CORPORATION, whose address is 1100 Louisiana, Suite 200, Houston, TX 77002-5299 and **CEL PROPERTIES, LLC** and **RLI PROPERTIES, LLC**, whose address is 222 East Tyler Street, PO Box 2146, Longview, Texas 75606 (hereinafter referred to as "Lessees") are the owners of those certain Oil, Gas and Mineral Leases reflected on Exhibit "A" attached hereto and made a part hereof, hereinafter referred to as the "Leases"; and,

WHEREAS the undersigned owners now desire to release from the terms and provisions of the Leases all lands lying outside the exterior geographic boundaries of the Nonion Struma Zone, Reservoir A in the West Mermentau Field, as established by the State of Louisiana, Office of Conservation Order No. 101-J, effective December 14, 2012, recorded in Conveyance Book 1080, Page 77, File No. 669263, Jefferson Davis Parish Clerk of Court, further described on the survey plat attached hereto and made a part hereof as Exhibit "B", hereinafter referred to as the "Unit";

NOW THEREFORE, KNOW ALL MEN BY THESE PRESENTS THAT, the undersigned owners of the Leases do hereby cancel, release, relinquish, surrender and quitclaim unto Lessors that portion of the lands covered by the Leases lying outside the geographic boundaries of the Unit.

It is the intention of the undersigned owners to retain all lands covered by the Leases lying within the geographic boundaries of the Unit.

This instrument may be signed in any number of counterparts, all of which, when taken together shall constitute a single original instrument, and for recordation purposes the separate signature and acknowledgment pages may be affixed to the body of the original instrument without the necessity of recording the entirety of each separate counterpart.

IN WITNESS WHEREOF, this Partial Release of Oil, Gas and Minerals Leases is executed on the date of each Lessee's respective acknowledgment below.

PARISH OF JEFFERSON DAVIS
STATE OF LOUISIANA

AFFIDAVIT REGARDING LAND OWNED BY JOHNSON-BOUDREAUX FARM, LLC

BEFORE ME, NOTARY PUBLIC duly qualified, came and appeared **Alfred Charles Bourdier**, appearing herein solely in his capacity as Executive Manager of Johnson-Boudreaux Farm LLC, a Louisiana limited liability company ("Affiant"), with an address for purposes of this Affidavit of 500 Kirby Street, Lake Charles, LA 70601, c/o Thad D. Minaldi, who, also in the presence of the below signing witnesses, upon being duly sworn did declare:

1. Affiant is owner in indivision of an interest in immovable property located in Jefferson Davis Parish and more particularly described on Exhibit B attached hereto and incorporated herein (there being no Exhibit A), hereinafter referred to as the "Farm", and Affiant acquired said interest in 2007 in conveyances from certain owners in indivision of the Farm.

2. Since approximately 2007 after the conveyance of the interests in the Farm, Affiant has continued to own and manage the affairs of the Farm.

3. In its ownership and management of certain affairs for the Farm, Affiant is aware of that certain Lease Agreement with Castex Systems, Inc. with an initial term to expire November 14, 1989 and recorded separately in Conveyance Book 590 at Page 431, and Page 440, and Page 447, and Page 454, and Page 461, and Page 468, and Page 475, records of Jefferson Davis Parish ("Lease 1").

4. Also in its ownership and management of certain affairs for the Farm, Affiant is aware of that certain Lease Agreement with Castex Systems, Inc. with an initial term to expire November 14, 1999 and recorded in Conveyance Book 643 at Page 518, records of Jefferson Davis Parish ("Lease 2").

5. Also in its ownership and management of certain affairs for the Farm, to Affiant's knowledge and understanding, there has been no payment of the contractual rental on Lease 1 or on Lease 2 since 1990, and there have been no lease operations by any lessee-party under Lease 1 or Lease 2 since approximately 1990.

SWORN TO AND SUBSCRIBED on this 10 day of October, 2019 in Lake Charles, Louisiana by Appearer in the presence of the below subscribing witnesses and me, Notary Public.

EXHIBIT "B"

That tract of property in Jefferson Davis Parish, Louisiana, with all improvements thereon, located and situated, which contains 1,125.35 acres, more or less, and the whole of said tract of land is more particularly described as follows, to-wit: (a) Section 39, Township 10 South, Range 3 West, La. Mer., except that portion lying in triangular form West of the East boundary line of Section 14 if extended through said Section 39; (b) Lot 2 of Fractional Section 13, Township 10 South, Range 3 West, La. Mer.; (c) Section 17 in Township 10 south, Range 2 West, La. Mer., less and except the 328 acres, more or less, of swamp timber land lying in the Eastern portion thereof which was sold by Jean. Castex and others to A.S. Alston & Co., on February 14, 1922, by deed recorded in Jefferson Davis Parish in Conveyance Book W, Page 515, and which is shown by a plat of survey made by E. J. Mead, C.E., dated on 1921; including the two tracts of prairie land along the North line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale to A. S. Alston & Co.; and (d) Section 18, Township 10 South, Range West, La. Mer., lying between the southeast corner of the aforesaid Section 39 on the West and the Mermentau River on the East, all as per plat showing the above described property attached to Act No. 81759, by which Albert Sidney Johnson and Adolph C. Boudreaux acquired the said property from Jean Castex, Jr., and which act is recorded in Jefferson. Davis Parish, Louisiana, LESS AND EXCEPT AND NOT INCLUDED in the aforesaid tract are those 10 acre parcels of property described as follows and designated as "First" and "Second", to-wit:

First. That ten acre parcel of land situated in Section 18, Township 10 South, Range 2 West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc, and which ten acres were sold by Albert Sidney Johnson and Adolph C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and recorded in Conveyance Book 139, Page 3, and which ten acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section 18, Township 10 South, Range 2 West, at a one-and-a-quarter (1 1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River on the line between Township 10 South, Range 2 and 3 West; thence south 51 degrees, 13 minutes East 276.5 feet; thence South 53 degrees, 00 minutes East 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe, the lower front corner of the Robira Ten (10) acre tract for a point of beginning; thence following the right bank of the Mermentau River south 65 degrees, 30 minutes East 450 feet; thence South 84 degrees, 00 minutes East 250 feet; thence leaving the River and running south 37 degrees, 00 minutes West 693.5 feet; thence North 72 degrees, 06 minutes West 691.5 feet to lower side line of the Robira ten acres tract; thence following the said line North 37 degrees, 00 minutes East 693.5 feet to place of beginning and containing ten acres; as per plat by F. Shutts Sons, Civil engineers, attached to said deed; said tract of land is bounded on the North by a ten acre tract owned nor or formerly by John I. Robira, his widow, heirs and assigns, on the West by other land of Albert Sidney Johnston and Adolph C. Boudreaux.

Second. That certain parcel of land comprising ten acres, more or less, situated in Section 18, Township 10 south, Range 2 West, and in Section 39, Township 10 South, Range 3 West, which was conveyed by Albert Sidney Johnson and Adolph C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the corner between Section 18, Township 10 South, Range 3 West, said corner being. on the right descending bank of the Mermentau River; thence South 37 degrees West 368 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 53 degrees East 272.4 feet to the line between Section 18, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West, 921 feet South of the corner between the two said Sections; thence South 53 degrees East 327.6 feet to a one-and-a-quarter (1 1/4") inch galvanized iron pipe, thence North 37 degrees East 726 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe on the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 37 degrees West 358 feet to the point of beginning and containing ten acres.

PARISH OF JEFFERSON DAVIS
STATE OF LOUISIANA

AFFIDAVIT REGARDING LAND OWNED BY JOHNSON-BOUDREAUX FARM, LLC

BEFORE ME, NOTARY PUBLIC duly qualified, came and appeared **Alfred Charles Bourdier** ("Affiant"), adult resident of Calcasieu Parish with an address for purposes of this Affidavit of 500 Kirby Street, Lake Charles, LA 70601, c/o Thad D. Minaldi, who, also in the presence of the below signing witnesses, upon being duly sworn did declare:

1. Affiant is a former owner in indivision of an interest in immovable property located in Jefferson Davis Parish and more particularly described on Exhibit B attached hereto and incorporated herein (there being no Exhibit A), hereinafter referred to as the "Farm", and Affiant conveyed in 2007 certain interests in the Farm to Johnson-Boudreaux Farm, LLC ("Owner").

2. In or about the years 1989-1990, Affiant assumed from Raymond Bruce the general management of certain affairs for the Farm, with Mr. Bruce previously managing said affairs, and, since approximately 2007 after the conveyance of the interests in the Farm to the Owner, in his capacity as President or Executive Manager of the Owner's Management Board, Affiant has continued in the management of such affairs of the Farm.

3. In his management of certain affairs for the Farm, Affiant is aware of that certain Lease Agreement with Castex Systems, Inc. with an initial term to expire November 14, 1989 and recorded separately in Conveyance Book 590 at Page 431, and Page 440, and Page 447, and Page 454, and Page 461, and Page 468, and Page 475, records of Jefferson Davis Parish ("Lease 1").

4. Also in his management of certain affairs for the Farm, Affiant is aware of that certain Lease Agreement with Castex Systems, Inc. with an initial term to expire November 14, 1999 and recorded in Conveyance Book 643 at Page 518, records of Jefferson Davis Parish ("Lease 2").

5. Also in his management of certain affairs for the Farm, to Affiant's knowledge and understanding, there has been no payment of the contractual rental on Lease 1 or on Lease 2 since 1990, and there have been no lease operations by any lessee-party under Lease 1 or Lease 2 since approximately 1990.

SWORN TO AND SUBSCRIBED on this 10 day of October, 2019 in Lake Charles, Louisiana by Appearer in the presence of the below subscribing witnesses and me, Notary Public.

EXHIBIT "B"

That tract of property in Jefferson Davis Parish, Louisiana, with all improvements thereon, located and situated, which contains 1,125.35 acres, more or less, and the whole of said tract of land is more particularly described as follows, to-wit: (a) Section 39, Township 10 South, Range 3 West, La. Mer., except that portion lying in triangular form West of the East boundary line of Section 14 if extended through said Section 39; (b) Lot 2 of Fractional Section 13, Township 10 South, Range 3 West, La. Mer.; (c) Section 17 in Township 10 south, Range 2 West, La. Mer., less and except the 328 acres, more or less, of swamp timber land lying in the Eastern portion thereof which was sold by Jean. Castex and others to A.S. Alston & Co., on February 14, 1922, by deed recorded in Jefferson Davis Parish in Conveyance Book W, Page 515, and which is shown by a plat of survey made by E. J. Mead, C.E., dated on 1921; including the two tracts of prairie land along the North line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale to A. S. Alston & Co.; and (d) Section 18, Township 10 South, Range West, La. Mer., lying between the southeast corner of the aforesaid Section 39 on the West and the Mermentau River on the East, all as per plat showing the above described property attached to Act No. 81759, by which Albert Sidney Johnson and Adolph C. Boudreaux acquired the said property from Jean Castex, Jr., and which act is recorded in Jefferson. Davis Parish, Louisiana, LESS AND EXCEPT AND NOT INCLUDED in the aforesaid tract are those 10 acre parcels of property described as follows and designated as "First" and "Second", to-wit:

First. That ten acre parcel of land situated in Section 18, Township 10 South, Range 2 West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc, and which ten acres were sold by Albert Sidney Johnson and Adolph C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and recorded in Conveyance Book 139, Page 3, and which ten acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section 18, Township 10 South, Range 2 West, at a one-and-a-quarter (1 1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River on the line between Township 10 South, Range 2 and 3 West; thence south 51 degrees, 13 minutes East 276.5 feet; thence South 53 degrees, 00 minutes East 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe, the lower front corner of the Robira Ten (10) acre tract for a point of beginning; thence following the right bank of the Mermentau River south 65 degrees, 30 minutes East 450 feet; thence South 84 degrees, 00 minutes East 250 feet; thence leaving the River and running south 37 degrees, 00 minutes West 693.5 feet; thence North 72 degrees, 06 minutes West 691.5 feet to lower side line of the Robira ten acres tract; thence following the said line North 37 degrees, 00 minutes East 693.5 feet to place of beginning and containing ten acres; as per plat by F. Shutts Sons, Civil engineers, attached to said deed; said tract of land is bounded on the North by a ten acre tract owned nor or formerly by John I. Robira, his widow, heirs and assigns, on the West by other land of Albert Sidney Johnston and Adolph C. Boudreaux.

Second. That certain parcel of land comprising ten acres, more or less, situated in Section 18, Township 10 south, Range 2 West, and in Section 39, Township 10 South, Range 3 West, which was conveyed by Albert Sidney Johnson and Adolph C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the corner between Section 18, Township 10 South, Range 3 West, said corner being. on the right descending bank of the Mermentau River; thence South 37 degrees West 368 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 53 degrees East 272.4 feet to the line between Section 18, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West, 921 feet South of the corner between the two said Sections; thence South 53 degrees East 327.6 feet to a one-and-a-quarter (1 1/4") inch galvanized iron pipe, thence North 37 degrees East 726 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe on the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 37 degrees West 358 feet to the point of beginning and containing ten acres.

STATE OF LOUISIANA

PARISH OF JEFFERSON DAVIS

CASH SALE

BE IT KNOWN, that on the dates and at the places and before the undersigned Notaries Public, duly commissioned and qualified in and for their respective jurisdictions as hereinafter set forth, and in the presence of the subscribing witnesses, personally appeared:

> **JOHNSON-BOUDREAUX FARM, LLC (EIN:XX-XXX0058),** a Louisiana limited liability company, having a mailing address of 1543 Oakwood Dr., Lake Charles, LA 70611, and being herein represented by its duly authorized representative ("**Seller**"); AND
>
> **CASTEX DEVELOPMENT, LLC (EIN:XX-XXX5282),** having a mailing address of 422 7th Street, Lake Charles, LA 70601, and being herein represented by its duly authorized representative ("**Buyer**");

who did declare as follows, to-wit:

Buyer represents and warrants that Buyer is the formal sole assignee of Alfred Palma, Jr. (XXX-XX-3504) under that certain Agreement To Purchase Or Sell with Seller dated June 18, 2019, as amended ("Agreement"), and Buyer has the right to purchase from Seller under the Agreement the hereinafter described immovable property.

Subject to the hereinafter provided reservation of minerals, Seller does by these presents grant, bargain, sell, convey, transfer, assign, set over, abandon and deliver unto Buyer, with full warranty and with full substitution and subrogation in and to all the rights and actions of warranty which Seller has or may have against all preceding owners and vendors, all of Seller's right, title and interest in the immovable property located in Jefferson Davis Parish, Louisiana, and described on Exhibit "A" attached hereto together with all buildings, improvements, component parts and fixtures attached to the above described property. Seller does further grant, bargain, sell, convey, transfer, assign, set over, abandon and deliver unto Buyer, without warranty of title but with full substitution and subrogation in and to all the rights and actions of warranty which Seller has or may have against all preceding owners and vendors, all of its right, title and interest in and to (i) all rights, servitudes, appurtenances, covenants, licenses, privileges, benefits and advantages thereunto; (ii) any land lying in the bed or banks of any lakes, rivers, streams, waterways, ditches, roads, streets, lanes, alleys, or rights of ways either within the property or bounding such property to the centerline thereof; (iii) all alluvion, accretion, and lands created by sedimentary and/or artificial deposits related to or adjacent to the property; and (iv) as supplemented and clarified hereinafter in the immediately succeeding paragraph, all of Seller's rights, interests, claims, counterclaims, defenses and causes of action of any kind or character, pertaining to the Property or any portion thereof, whether real or personal in nature, whether known or unknown to Seller and whether then existing or arising in the future, including without limitation, any rights to enforce specific performance of any obligations or to seek damages for any damage or injury to, or defect in, the Property, including, but not limited to claims arising out of the past environmental damage or contamination of the surface and subsurface of the Property, including contamination of the groundwater or the existence of any hazardous materials thereon (all interests and property described above being collectively referred to herein as the "**Property**").

Supplementing and burdening the above described sale and conveyance to Buyer, Seller hereby reserves unto Seller any and all mineral rights that Seller may own in the Property;

provided, however, that Seller hereby agrees to execute concurrently therewith that certain Agreement Regarding Surface Rights and Claims. Further, Buyer understands, acknowledges, and accepts that other third-parties presently own separately their own mineral rights in and to the Property.

Supplementing and clarifying the second preceding paragraph, Seller and Buyer agree that Seller's conveyance of Seller's counterclaims and defenses of any kind or character, pertaining to the Property or any portion thereof, whether real or personal in nature, whether known or unknown to Seller and whether then existing or arising in the future, including without limitation, any rights to enforce specific performance of any obligations or to seek damages for any damage or injury to, or defect in, the Property, including, but not limited to claims arising out of the past environmental damage or contamination of the surface and subsurface of the Property, including contamination of the groundwater or the existence of any hazardous materials thereon, is *limited insofar as* Seller and Buyer are and will continue to be in the future obligees of solidary obligations insofar and only insofar as the said counter-claims and defenses regarding environmental damage or contamination of the surface and subsurface of the Property, including contamination of the groundwater or the existence of any hazardous materials thereon, as is contemplated in Louisiana Civil Code Article 1790, et seq.

Buyer hereby accepts and purchases the Property for itself and its successors and assigns and acknowledges due delivery and possession of the Property, to have and to hold said Property unto the Buyer and its successors and assigns forever.

This Cash Sale is made and accepted for and in consideration of the aggregate price and sum of **TWO MILLION TWO HUNDRED NINETY-ONE THOUSAND SEVEN HUNDRED FIFTY AND 00/100 DOLLARS ($2,291,750.00),** the receipt and sufficiency of which is hereby acknowledged.

Seller and Buyer hereby acknowledge and recognize that the property being sold and purchased is to be transferred in an "AS IS" condition, and Buyer does hereby waive, relieve and release Seller from any claims or causes of action for redhibition pursuant to Louisiana Civil Code Article 2520, et seq. and article 2541, et seq. or for reduction of purchase price pursuant to Louisiana Civil Code Article 2541, et seq. Additionally, Buyer acknowledges that this sale is made without warranty of fitness for ordinary or particular use pursuant to Louisiana Civil Code article 2524.

This Cash Sale is also specifically made subject to any easements, servitudes, restrictions, conditions, reservations and other instruments on file and of record in Jefferson Davis Parish, Louisiana, together with those unrecorded Camp Site Leases more particularly described in an Assignment and Assumption Agreement executed by the parties concurrently herewith (all of which hereinafter collectively are the "Permitted Exceptions"). Reference to such Permitted Exceptions is for informational purposes only and shall not constitute an interruption of prescription by Buyer with respect to any such Permitted Exception, or an acknowledgement by Buyer that any such Permitted Exception continues to affect or has ever affected the Property.

All state, city and parish taxes assessed against the Property up to and including such taxes due and eligible for the prior year have been paid by Seller and such taxes for 2019 have been prorated between Buyer and Seller. Buyer shall have the obligation to pay the 2019 taxes and all subsequent taxes when due and payable. Buyer shall be responsible for providing the tax assessor of Jefferson Davis Parish with the address to which property tax and assessment notices are to be mailed. As of the date of this Cash Sale, such notices shall be sent to Buyer at the address listed above.

EXHIBIT "A"

That tract of property in Jefferson Davis Parish, Louisiana, with all improvements thereon, located and situated, which contains 1,125.35 acres, more or less, and the whole of said tract of land is more particularly described as follows, to-wit: (a) Section 39, Township 10 South, Range 3 West, La. Mer., except that portion lying in triangular form West of the East boundary line of Section 14 if extended through said Section 39; (b) Lot 2 of Fractional Section 13, Township 10 South, Range 3 West, La. Mer.; (c) Section 17 in Township 10 south, Range 2 West, La. Mer., less and except the 328 acres, more or less, of swamp timber land lying in the Eastern portion thereof which was sold by Jean. Castex and others to A.S. Alston & Co., on February 14, 1922, by deed recorded in Jefferson Davis Parish in Conveyance Book W, Page 515, and which is shown by a plat of survey made by E. J. Mead, C.E., dated on 1921; including the two tracts of prairie land along the North line of said swamp land, one of said tracts containing 16.5 acres, more or less, and the other 5.5 acres, more or less, which two tracts were not included in the aforesaid sale to A. S. Alston & Co.; and (d) Section 18, Township 10 South, Range West, La. Mer., lying between the southeast corner of the aforesaid Section 39 on the West and the Mermentau River on the East, all as per plat showing the above described property attached to Act No. 81759, by which Albert Sidney Johnson and Adolph C. Boudreaux acquired the said property from Jean Castex, Jr., and which act is recorded in Jefferson. Davis Parish, Louisiana, LESS AND EXCEPT AND NOT INCLUDED in the aforesaid tract are those 10 acre parcels of property described as follows and designated as "First" and "Second", to-wit:

First. That ten acre parcel of land situated in Section 18, Township 10 South, Range 2 West, upon which are situated the terminal facilities of Pelican Oil Purchasers, Inc, and which ten acres were sold by Albert Sidney Johnson and Adolph C. Boudreaux to Pelican Oil Purchasers, Inc. by deed dated March 3, 1949, and recorded in Conveyance Book 139, Page 3, and which ten acre parcel is more particularly described, to-wit: Starting at the Northwest corner of Section 18, Township 10 South, Range 2 West, at a one-and-a-quarter (1 1/4") inch galvanized iron pipe on the right descending bank of the Mermentau River on the line between Township 10 South, Range 2 and 3 West; thence south 51 degrees, 13 minutes East 276.5 feet; thence South 53 degrees, 00 minutes East 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe, the lower front corner of the Robira Ten (10) acre tract for a point of beginning; thence following the right bank of the Mermentau River south 65 degrees, 30 minutes East 450 feet; thence South 84 degrees, 00 minutes East 250 feet; thence leaving the River and running south 37 degrees, 00 minutes West 693.5 feet; thence North 72 degrees, 06 minutes West 691.5 feet to lower side line of the Robira ten acres tract; thence following the said line North 37 degrees, 00 minutes East 693.5 feet to place of beginning and containing ten acres; as per plat by F. Shutts Sons, Civil engineers, attached to said deed; said tract of land is bounded on the North by a ten acre tract owned nor or formerly by John I. Robira, his widow, heirs and assigns, on the West by other land of Albert Sidney Johnston and Adolph C. Boudreaux.

Second. That certain parcel of land comprising ten acres, more or less, situated in Section 18, Township 10 south, Range 2 West, and in Section 39, Township 10 South, Range 3 West, which was conveyed by Albert Sidney Johnson and Adolph C. Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the corner between Section 18, Township 10 South, Range 3 West, said corner being. on the right descending bank of the Mermentau River; thence South 37 degrees West 368 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 53 degrees East 272.4 feet to the line between Section 18, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West, 921 feet South of the corner between the two said Sections; thence South 53 degrees East 327.6 feet to a one-and-a-quarter (1 1/4") inch galvanized iron pipe, thence North 37 degrees East 726 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe on the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 37 degrees West 358 feet to the point of beginning and containing ten acres.

CERTIFICATE OF ACTION BY
RESOLUTIONS OF THE MEMBERS OF
JOHNSON-BOUDREAUX FARM, LLC
AT THE MEETING OF MEMBERS
ON APRIL 11, 2018
AT JENNINGS, LOUISIANA

Alfred C. Bourdier and James R. Johnson hereby certify that:

1. The Members of Johnson-Boudreaux Farm, LLC, by their majority vote of over 98% of the Member Interests, have adopted the following resolutions at the duly called Meeting of the Members of Johnson-Boudreaux Farm, LLC on April 11, 2018 at Jennings, Louisiana:

BE IT RESOLVED that the Members of Johnson-Boudreaux Farm, LLC ("Company") do hereby agree and decide that the Company shall sell any and all of the Company's land and immovable property, a description of which is provided on the document titled "Property Description Of Johnson Boudreaux Farm" attached hereto and incorporated herein (which land and immovable property hereinafter sometimes is referred to as the "Property"), but reserving any mineral rights in the Property that the Company may own at the time of such a sale.

BE IT RESOLVED FURTHER that the Management Board of the Company is instructed, empowered, and authorized, on behalf of the Company, to determine, decide, negotiate, and agree to the terms of the sale of the Property, together with any listing agreement for the sale of the Property, as the Management Board may decide in its sole and complete discretion, by a vote of a majority in number of the members of the Management Board.

BE IT RESOLVED FURTHER that the Chief Executive Manager, together with one (1) more member of the Management Board as selected by the Management Board, are hereby are authorized, for and on behalf of this Company, to execute and sign any and all instruments as they, in their sole discretion, believe are necessary and proper in selling the Property and in fulfilling the resolutions herein affecting and relating to the Company.

3. The preceding resolutions are legally effective to bind the Company and are not in conflict with the Articles of Organization or any operating agreements and the prceding resolutions remain in full force and effect.

4. Alfred C. Bourdier is the Chief Executive Manager, and James R. Johnson is a Member of the Management Board, of Johnson-Boudreaux Farm, LLC, and they are duly authorized by the Management Board to execute and sign any and all instruments as they, in their sole discretion, believe are necessary and proper in selling the Property and in fulfilling the resolutions herein affecting and relating to Johnson-Boudreaux Farm, LLC.

IN WITNESS WHEREOF, the undersigned has executed this Certificate on this 30th day of October, 2019.

James R. Johnson, Member of Management Board of Johnson-Boudreaux Farm, LLC

Alfred C. Bourdier, Chief Executive Manager and Certifying Official

Boudreaux to Fred Shutts by deed dated March 6, 1936, recorded in Conveyance Book 66, Page 101, of the records of Jefferson Davis Parish, Louisiana, and is more particularly described as follows, to-wit: Beginning at a point 459 feet South of the corner between Section 18, Township 10 South, Range 3 West, said corner being. on the right descending bank of the Mermentau River; thence South 37 degrees West 368 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 53 degrees East 272.4 feet to the line between Section 18, Township 10 South, Range 2 West, and Section 39, Township 10 South, Range 3 West, 921 feet South of the corner between the two said Sections; thence South 53 degrees East 327.6 feet to a one-and-a-quarter (1 1/4") inch galvanized iron pipe, thence North 37 degrees East 726 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe on the right descending bank of the Mermentau River, 600 feet to a one-and-a-quarter (1 1/4") inch galvanized pipe; thence South 37 degrees West 358 feet to the point of beginning and containing ten acres.

EXTRACT OF MINUTES
CASTEX DEVELOPMENT, LLC

BE IT RESOLVED, that the Members and Manager of **CASTEX DEVELOPMENT, LLC** , a Louisiana limited liability company (the "Company") acting in such capacity, hereby adopts the following, to-wit:

WHEREAS, the Company desires to acquire, encumber and mortgage certain immovable property located in Jefferson Davis Parish, Louisiana, being more particularly described on Exhibit "A" attached hereto (the "Property"):

NOW THEREFORE, BE IT RESOLVED that Don Morris (the "Authorized Representative") is hereby authorized and empowered for and on behalf of and in the name of the Company to acquire, purchase, encumber and mortgage the Property and to execute any and all agreements relating thereto and containing such terms and conditions as may be determined fit and proper by said Authorized Representative;

BE IT FURTHER RESOLVED that the Authorized Representative is hereby authorized and empowered for and on behalf of and in the name of the Company to do all of the following relating to the Property, to-wit: (i) to negotiate for a loan or loans with any financial institutions and to borrow such sums of money to be repaid at such times and to bear such interest as the Authorized Representative may, in his/her sole discretion, deem fit and proper; (ii) to make, sign and execute negotiable promissory notes, and any other obligations, in the name of the Company; (iii) to mortgage and/or otherwise encumber any and all of the Property to secure any loan or loans, and/or any and all other obligations of the Company with such acts of mortgage to include any terms and conditions deemed appropriate in the sole discretion of the Authorized Representative (including but not limited to all of the usual and customary clauses contained in mortgage and/or security instruments in Louisiana, including a confession of judgment, consent to executory process, waiver of appraisement, and the pact de non alienando); and (iv) to file or allow the filing of UCC-1s and other UCC Financing Statements related thereto and to do any other acts and sign any and all documents and instruments as the Authorized Representative may deem necessary or appropriate in order to carry out the purposes of these resolutions, including execution of title insurance seller/owner affidavits, and closing/settlement statements;

BE IT FURTHER RESOLVED that the Authorized Representative is hereby authorized in the name of and on behalf of the Company to take such further actions and to do all things that may appear in his discretion to be necessary, advisable or appropriate to give effect to the intent of these resolutions and to accomplish the transactions contemplated by these resolutions; and

BE IT FURTHER RESOLVED that all actions heretofore taken by or at the discretion of Authorized Representative in connection with the transactions that are the subject of these resolutions shall be, and hereby are, approved, ratified and confirmed as the acts of the Company without any further action by the Company.
