RE: *Site Investigation Reports August 30, 2011/February 28, 2012*  
Hardee Tract  
Daniel A. Hardee, III, et.al. v. Atlantic Richfield Company, et.al.  
Gueydan Oil and Gas Field  
Vermilion Parish, Louisiana

Dear Mr. Pooler:

The Office of Conservation (Conservation), Environmental Division, has reviewed the referenced *Site Investigation Reports*. In accordance with the Memorandum of Understanding (MOU) between DEQ and the Office of Conservation dated September 16, 2010, review of the referenced RECAP site investigation information is complete. The findings of the site investigation demonstrate that the two (2) concentrations of arsenic and barium in the soils at the referenced site which exceeded the requirements of LAC 43:XIX.Subpart 1.Chapter 3 do meet applicable regulatory standards under RECAP as an exception under LAC 43:XIX.319.A. The referenced site meets requirements of LAC 43:XIX.319.A for agency approval of an exception to groundwater background concentration requirements of LAC 43:XIX.303.C. Therefore, as provided for by the MOU, this agency has determined that no further action (NFA) is deemed necessary at this time at the referenced site.

If you have any questions, you may contact Stephen Pennington at 225-342-7334 during normal business hours, Monday - Friday between 8:00 a.m. and 4:30 p.m., or by fax at 225-242-3505.

James H. Welsh  
Commissioner of Conservation

March 23, 2022, Monitor Well Plugging and Abandonment and Decommissioning Report  
Vermilion Parish

Dear Ms. Haller-Piskurich:

Based on the information reported to the Office of Conservation in the referenced report and associated documents pertaining to the site evaluation and implementation of RECAP, the provisions of LAC 43:XIX.319 for exceptions have been met to the satisfaction of this agency. Accordingly, no further action at this time is necessary (NFA-ATT).

You may contact Jamie Love at 225-342-7213 if you have any questions.

Yours very truly,

Richard P. Ieyoub  
Commissioner of Conservation
